My relations with the other powers continue friendly. The protracted negotiations between Russia and myself regarding the frontier which we should agree to recognize as the northern limit of Afghanistan, have been brought to a satisfactory termination. The Ameer readily accepted the boundary. I hope the convention will powerfully conduce to the maintenance of a durable peace in Central Asia.

The treaty between Great Britain and China, with reference to relations between China and Burmah, has been ratified. The confident hope I expressed that a general pacification of Burmah would be effected during the present year has been fully realized. A settled Government is being gradually introduced in its respective districts.

The convention which was concluded between Turkey and myself for the purpose of defining the conditions under which it would be possible for me to undertake the withdrawal of my troops from Egypt at a fixed date has not been ratified by the Sultan. The course of action imposed upon me by my obligations to the ruler of the people of Egypt remains unchanged. The presence of my forces has secured to Egypt the blessings of tranquility and has enabled me to effectually support the Khedive's efforts to promote good government and the prosperity of his people.

I have agreed with the President of the United States to refer to a joint commission the difficult questions respecting the North American fisheries which have recently been discussed by the two nations.

With singular satisfaction I mention the assemblage of the first conference of representatives of my colonies ever held in London. Their deliberations, directed to many matters of deep practical interest to their respective communities and conducted in a spirit of hearty co-operation, will, I doubt not, add strength to the affection by which the various parts of my empire are bound together.

The Queen thanks the House of Commons for the liberal provision for the public service and continues:

There is some ground for hoping that the grave depression under which all commercial and industrial interests have lain so long is assuming a less severe character.

I deeply grieve to add that there is no mitigation of the suffering under which large portions of the agricultural community continue to labor.

The wants and difficulties of Ireland have occupied your close attention during a protracted session. I trust the remedies your wisdom has provided will gradually effect a complete restoration of order in Ireland and give renewed encouragement to peaceful industry. In order to pass them it has been necessary to postpone many important measures affecting other parts of the kingdom which, doubtless, you will be able to resume without hindrance at the coming session.

After reference to the allotments, coal mines, merchandise marks and criminal procedure in Scotland acts, the Queen concludes:

This year, the fiftieth anniversary of my reign, has been the occasion of the expression of fervent loyalty which has deeply touched me. I am, indeed, truly thankful for the warm, hearty proofs of affection which have reached me from all classes. In thanking God for the blessings he has vouchsafed me and my country I trust I may be spared to continue to reign over a loving, faithful and united people.

A WHALER CAST AWAY.

The Wreck of the Amethyst Discovered on a Desolate Island.

NEW BEDFORD, Mass., Sept. 16.—Advices received from San Francisco state that the fate of the missing whaler Amethyst is settled. The mate of the sealing schooner Angel Doty recently arrived in San Francisco and reports that while cruising near Castle Rock a wreck was discovered on the island. It was found to be the Amethyst, broken in two. Everything was in confusion in the cabin. The whaling gear was covered with rust, looking as though it had been lying there for months. The Amethyst sailed in the spring of 1886, was commanded by Capt. Cooley, and was last seen in the ice fields in June, 1886. She was supposed to have on board five of the crew of the missing bark Rainbow of this port. The crew of the Amethyst numbered thirty-eight men and their fate is still a mystery. The Amethyst was valued at $25,000.

THE COMTE'S MANIFESTO.

It is Attracting a Great Deal of Attention in London.

LONDON, Sept. 16.—The manifesto issued yesterday by the Comte de Paris is attracting a good deal of attention here and across the channel, where the amazing rapidity with which it was circulated all over the country is a matter of wonder in itself. Under ordinary circumstances such a document would have been puerile and futile, but with the acumen of an experienced statesman, the Comte timed its appearance, and has issued his manifesto at a moment when it will be most potent and most likely to have the desired effect on the minds of Frenchmen. Rouvier's ministry, never strong, holds now a precarious condition, and France is ready any day to hear of its downfall. To the Loyalist party it looks for support, and if this is withheld the influence of the minority in its feeble condition would speedily dissolve. In fact the Loyalists occupy much the same position in France toward the Government as the Unionists do in England. For the Government to cut loose altogether from the council of the Loyalists, and to ignore their sugvestions, would be to court political death.

The appearance of the manifesto at this particular time gives an emphatic check to the exuberance of joy with which France is convulsed over the manœuvres of the Seventeenth army corps, which has successfully demonstrated the scheme of mobilization. It diverts the public mind from the absorbing satisfaction it feels in the fancied possession of an army that is now able to punish Germany, and directs it into other channels than those which lead to a desire for revenge. It, however, threatens the fall of the Rouvier ministry, which cannot openly accept the terms of the manifesto, and between the desire to retain the support of the Loyalists and its perplexity in regard to pleasing the Republican portion of France, the Government is in sore straits. The Comte's manifesto may thus have a decided influence on the minds of the fickle Gaul, and go a long way toward taking the first step in the direction of a monarchy.

The French Cabinet Will Be Its Duty.

PARIS, Sept. 16.—The Republique Francaise says the manifesto of the Count of Paris has broker the Conservative coalition, which is a piece of good fortune for the Republic. The Cabinet will not fail to do its duty if the conspirators pass from words to acts.

The Journal Des Debats, referring to the manifesto, says the Conservatives understand that the Republic is henceforth the sole government under which they can fight their cause without a sacrifice of their principles and dignity.

The Conservative papers refer to the manifesto as a prelude to vigorous action on the part of the Monarchists.

IN ENGLAND THIS TIME.

A Collision on the Midland Railway in Which 24 Persons Were Killed.

LONDON, Sept. 16.—A dreadful collision occurred to-day on the Midland Railway. A train filled with excursionists who were going to Doncaster to witness the races collided with another train and wrecked both.

The Midland train was standing on a crossing a mile from Doncaster while tickets were being collected, when the Liverpool express dashed into it. The guard box was smashed to atoms and the first carriage of the Liverpool train was telescoped by the next succeeding carriage and broken into splinters. It was a long time before the injured and dying, who were wedged in the ruins, could be rescued. Twenty-four persons were killed and many of the injured cannot recover. The damage was caused by defective signalling.

LET WELL ENOUGH ALONE

SERMON BY LAYMAN.

To the Editor of the Examiner:—

There is a good deal yet to be learned by the people of this world. Their observation and experience have seldom taught them to be content, when they are well *off*. To be content to let well enough alone. As a rule a man is never satisfied. And when he is doing fairly well he is pretty sure to be discontented. When he was at the bottom of the hill and was just beginning to climb, he looked upwards in order best to see his way. But just as soon as he had made some progress and felt secure of his footing, he becomes discontented and looks away to other plans, and from thenceforth he loses faith in his old home. His ambition is too great for his situation. He imagines himself a great man and thinks the world around him is too small for his abilities. Looking through his mental vision he imagines every other locality is better than his own, and that all he has to do is to go away and become a great man. He is constantly seeking for a change. He no sooner gets settled down in one place than he is looking out for another, and every story, however false, of prosperity elsewhere, is sure to make him discontented and long to get away. Always going among strangers and fighting the battles of the world anew. And so he goes on until his energies become exhausted, and he begins to feel that he cannot continue in this way much longer. Then it is that he looks back upon his past life and sees that he has done wrong. He sees the old place, which he formerly despised, grown up and become prosperous, and he acknowledges that it would have been better for him if he had possessed patience and waited longer and made the most of his opportunities. He discovers that a rolling stone gathers no moss. And he learns, when it is too late, that every one must be content to work and wait and be willing to take what nature gives him and that time and patience are necessary to success everywhere. And he discovers the truth of the fable of the dog, dropping his bone and grasping for its shadow. Everywhere the world looks brighter at a distance, and one always hears stories of the wonderful temptations of distant places and many foolish and thoughtless people break up their old home and go away, and find themselves disappointed and oftentimes ruined. Then they find that they should have been content where they were, and content to have let well enough alone. What a vast amount of misery could be avoided by driving away those feelings of discontent and those desires for a new life. And how many families, by means of this desire for change, have been discouraged and dragged down to sorrow and ruin. Cast out upon the world to look out for themselves, and in the end deceived and ruined. And the parents, who led them away, lying in an early grave. Brought on by troubles and sorrow for their losses and foolish mistakes. Brought on because they would not let well enough alone. If we look around, and into domestic life, we see this spirit of discontent still more plainly. Everywhere the people, and especially the young, are trying who shall best succeed in throwing off old traditions and economic habits and who shall lead the fashions and make the most display. Pride has taken the place of necessary labor and work has got to be considered a disgrace. Fine dress and fine furniture, the piano, the theatre, and the skating rink, make up the round of the young people of to-day, and silly conversation and vain and foolish, and, sometimes, evil conduct fill up the time of the young and frequently of the old also. Is it any wonder, then, that there is so much unhappiness and ruin and misery, and that homes are broken up and families driven out into the world, seeking for the means of a more living, which they formerly so despised. They were well off once, but they would not let well enough alone. Their dreams of pleasures to come and their ignorance and indifference as to their rights and their duties have had a rude awakening. And now they have got to be content to pass the remainder of their lives in trial and disappointments and sorrow. They find that pride and display are a poor substitute for content and happiness. And they will find that opportunities once lost seldom come again. Some few energetic persons may recover a second time but they will never do it a third time. Many a young man who is doing well, gets married and is, perhaps, persuaded by his wife and relations to begin his new life in extravagance and folly. They are not content to go on in a plain unpretentious way, as they had done before, and to let well enough alone, but they imagine that they will be doing a grand thing if they cast their economic habits to the winds and begin by wasting all their substance in a grand tour and in taking a fine house and fitting it with costly furniture. They won't listen to advice and they won't listen to the dictates of reason and common sense. Apparently all they think of is to make a display, foolishly imagining that the world looks on and wonders. But they soon discover their mistake. They find their credit gone and that henceforth they have got to begin life anew and to fight the world in order, if possible, to regain the comfortable position which they have so foolishly lost. And to do this it may be that they have to go away to some distant land, among difficulties and strangers, and spend many long years in fighting their way up hill again to regain the comforts which they have lost. Some may succeed after much hardships and discouragement, while others are left behind, always striving but never gaining, until at last they become broken down in energy and spirit and then see all their chances of success gone and themselves abandoned by their former friends. It is then that they wish they had let well enough alone and that, had they done so, they should be enjoying comfort and peace and health and happiness, and they would also have retained the confidence and support of their acquaintances and friends. It is a hard thing to let well enough alone. People are never satisfied, no matter how prosperous soever they may be; they are ever looking for a change, and, as a rule, each one thinks he knows best what to do, and how and when to do it. And he wants no advice and will thank no one for it. And so these people go on and never stop to reflect until trouble comes and they can go no further. Then they blame everyone but themselves and say the world is hard and unjust. A man with a small family, is living in the country and is doing well. He hears fine stories of some distant place and he sells out and goes away. He finds things different from what he expected. His means are being consumed and he sees his false step and finds that he has to begin the world again. His wife complains, his children cry to go back again and he becomes disheartened. He sees a future of disappointments and troubles, and then he wishes he had let well enough alone. Again, a young man has begun life under favourable circumstances and is doing well. He has many friends and is trusted and respected. He marries, but unfortunately he makes a bad choice. His wife wants to make a display and live in extravagance and pleasure. His means are limited and she soon drives him to the wall. Their fine home is broken up and they find themselves on the downward road, and their former friends and acquaintances begin to forsake them. His wife brings him no comfort, but she makes his life miserable with complainings because he cannot any longer supply her wants. But the day of retribution comes. Their time of prosperity is over. Their peace and comfort have departed. They find themselves in sore trouble. They have to begin the world again and begin it under difficulties. The silly wife sees her error. Now they wish they had been content to let well enough alone. And so we find it everywhere. All the world over there is murmuring and discontent and no one seems satisfied. All the world over people, well to do, are selling out and removing to other lands. All the world over, men and women, and even children, are striving to do impossibilities, to out do one another in waste and extravagance. And all the world over they are failing and coming to grief, and oftentimes to sorrow and want. Such is human nature. False notions of the world, and vain and silly pride, are taking the place of reason and common sense. Young men, and even boys and girls, without experience, become discontented and want to leave home and go away to strange places, believing that they can succeed where others have failed. And when away in strange lands, they discover their mistake and wish they had been content to take good advice and remain at home. Their hopes and expectations have been disappointed, and weary and heart sore they wander from place to place but always disappointed. Many of them lose hope and give way to despair. Foot sore and hungry and weary, they look back to old times and cry for their old homes. They wish they had been content there and wish that they had let well enough alone. I know many men whose ambition and self confidence have entirely ruined. As they began to prosper and feel safe, they began to look around for new undertakings. Their self-conceit and pride became excited and they imagined their positions were too small for their abilities and so they must branch out until they found themselves beyond their depth, and they found they could not get back to their old comfortable places, and they soon disappeared and were seen no more. They would not let well enough alone.

CLEVELAND AT PHILADELPHIA.

A Brilliant Reception in Honor of the Finest President.

PHILADELPHIA, Sept. 16.—The reception to President Cleveland and Mrs. Cleveland at the Academy of Music to-night was one of the greatest social successes ever witnessed in this city. It seemed as though every prominent man and woman here had felt it incumbent to do honor to the head of the nation and his wife. Long before 8 o'clock the street in front of the Academy was a mass of carriages and fully 10,000 people found their way into the building before the tired President had grasped the hand of the last comer. Every one was in evening dress, and the scene presented was one of unusual brilliance. The immense building was most beautifully decorated with flags, flowers and growing plants and the galleries and boxes were festooned with ribbons.

Before the President and his party reached the Academy every seat in the building had an occupant, and the guests of the evening amused themselves, before undergoing the ordeal of handshaking, by reviewing the immense throng of people from the box known as the Prince of Wales' box.

Hamilton's Labor Demonstration.

HAMILTON, Sept. 16.—The Executive Committee of the Knights of Labor, having in hand the arrangements for the labor procession, to be held during the Central Fair, met Thursday evening, James Henigan in the chair. It is expected that all the labor unions in the city, with the exception of the molder's union and one or two others, will march in the procession, and there will also be a contingent from Dundas. Two prizes will be presented for the organizations presenting the best appearance in the procession, one for the Knights of Labor assemblies, and one for the International unions.

Emperor William at Stettin.

BERLIN, Sept. 16.—The Vossische Zeitung asserts that the Czar has recently intimated a desire to meet the Emperor William on his return journey from Copenhagen to St. Petersburg.

The Emperor remained at the Stettin review to-day from 10.30 a.m. till 2 p.m. In the afternoon he gave a dinner to Prince and Princess William, Count Von Moltke and several other generals and high officials.

A Strange Disease Among Cattle.

DUQUOIN, Ill., Sept. 16.—A new and strange disease is affecting cattle in this part of Illinois. Milch cows suffer most. The disease is in the eyes, some cows being reported totally blind. It seems that the cattle running on the commons are most subject to attack. This report includes the range cattle in Jackson and Perry counties. The eyes are said to assume a blue color. Some cows kept on pastures are affected.

THAT OATH.

Business is Business. Dirt is Dirt, and when it comes to throwing dirt, count Gough out.

Supposing on oath from mere hearsay I gave the Aurora record of Mr. Sheppard, what would the people say about me? Simply, that GOUGH was a Coward.

But never fear, Mr. Sheppard, I am not going to resort to such mean contemptible personalities. However, in your reckless oath there are two things I am compelled to show you up in.

1st, in your advertisement in the *Times* you positively state, GOUGH bought his bags off you, but now on your own sworn testimony lo! and behold you give this the lie, for you swear you did not sell GOUGH bags but that a certain farmer bought two dozen from you, who afterwards stated to you that he resold them to GOUGH or one of his Salesmen.

Which is correct? your oath or your advertisement? answer this, as both cannot be truth, and in either case you stand self-convicted.

The next point in your misleading oath is this, you swear that a certain party bought Clothing from GOUGH on conditions that he, GOUGH, would refund the money if the goods were not satisfactory, and that this said party afterwards returned the clothing to GOUGH and that GOUGH refused to refund the money, and kept both clothing and money. I deny this and I defy you to prove your friend s statement to be true and now that you have sworn by him, be a man and give his name and if I don't prove that it is as false as your oath is misleading I will donate $500 to any charitable institution in Peterborough.

Remember, your position is a mean one unless you produce evidence to back it. You have taken an oath full of insinuations only, which is cowardly, and if you cannot give the public more proof than mere hearsay, the people will not be slow to judge your oath and your motive. Besides if your friend will pass in his name and prove what you swear you believed to be true you will have a chance to take $500 more out of THE WONDERFUL CHEAP MAN, if he cannot prove that it is false.

One more word Mr. Sheppard and I am done with you. You state that you are worth over and above all Liabilities, $10,000 (wonder you did not swear this), well, it is an insinuation that I am not—you may be worth $10,000 I don't know, but one thing I do know the Mercantile Agency rates GOUGH to be worth twice as much money as you, and moreover in their July report they say Gough's credit is good, and they don't say this of yours.

Now, Mr. Sheppard, these little personal attacks are not business like, and had you not advertised what you positively knew to be false (your oath proves this) I would never have advertised that I could sell your clothing cheaper than you can buy it and make a profit out of it. But now that I have stated it I will stand by it or loose $500 or $1000. Do you accept or do you not, for this and this only will prove which, you or I, are in a position to sell Clothing the Cheapest.

Surely this is the right time and the right place for you to prove your "Back bone."

Now, Mr. Cheapsides I am done with you unless you accept my challenge, and in conclusion let me assure you the more you bring my business to its true light the better will I like it, for let me tell you since you came here my business has almost doubled, which proves that the people appreciate the man who put down the Prices of Clothing and continues to keep them down. It also proves my motto is square dealing, otherwise the people would not so liberally patronize as they do.

THE TURNSTILES CLOSED.

Toronto's Big Exhibition Closed Last Night —A Magnificent Showing.

TORONTO, Sept. 17.

The great fair closed last night at 10 o'clock. The tick of the turnstiles ceased much earlier in the evening with 82078 to their credit for the day, and a total of $52,049 for the entire Exhibition. This includes the receipts at the Grand Stand, and is $11,152 more than the receipts of the fair of 1886.

The Exhibition of 1887, with this magnificent showing, has been an unqualified success, viewed from every point of the compass.

Toronto has now a permanent exposition that has no rival in the Dominion and probably not on the continent, taken as an all-round fair.

The receipts by days has been:

	1887.	1886.	Inc.
Tuesday	$ 414		.....
Wednesday	791	$ 589	.....
Thursday	2,253	444	.....

The Glass Ball Artist.

CEDAR RAPIDS, Ia., Sept. 16.—Dr. Carver, the rifle champion, broke 100 glass balls in two minutes and fifteen seconds to-day, beating all former records. He also broke 200 balls in four minutes and forty-eight seconds.

The Bubear-Courtney Race.

ELMIRA, N.Y., Sept. 16.—Arrangements are completed for the race between Bubear and Courtney on the Susquehanna River at Oswego on Sept. 28. Courtney arrived for practice to-day, and Bubear will be here on Monday.

The Record of Failures.

NEW YORK, Sept. 16.—The business failures during the week number for the United States 165; for Canada, 23; total, 188, compared with 174 last week, 199 the week previous and last year 185, 153 in the United States and 32 in Canada.

Ayoub Still at Large.

BOMBAY, Sept. 16.—News has been received here that Ayoub Khan has taken refuge in Koi Jamani, Beloochistan. If he remains he will be surrendered to the British authorities.

CANADIAN NEWS.

About 1600 cords of wood, the property of James McLarf of Ottawa were burned Thursday night. The loss will be something in the neighborhood of $2000.

The rate of taxation for 1887 in Streetsville is 28 mills on the dollar. Orangeville requires 27 mills. Brampton asks for 17½. Oshawa levies 23 mills in the dollar.

Lieut.-Col. Williams of the Seventh Fusiliers, London, has caused a writ to be issued against Tickes Agent Vanstone of the G.T.R., claiming $1000 damages for slander.

The mortuary statistics for the year 1886 which have just been published show the death rate in St. Thomas was only 14 to 1000 of the population, the smallest ratio in the province.

Watson Rose, a man who, while on a visit to Chatham, confessed to having been guilty of arson some twenty-eight years previously, was discharged by the Police Magistrate. The fellow is deranged.

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and chest and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain. eodw

Children Cry for Pitcher's Castoria.

On The Verge Of Starvation.

"For three months I could not eat or do a day's work. I bought a bottle of Burdock Blood Bitters, began using it and in three days my appetite returned, in a week I felt like a new man. It was wonderful what that one bottle did for me," writes Arthur Allaire, of Huntsville, Muskoka, who suffered from Dyspepsia. 2w36d

A Pleasing Duty.

"I feel it my duty to say," writes John Borton, of Desert, P. Q., "that Burdock Blood Bitters cured my wife of liver complaint, from which she had been a chronic sufferer. Her distressing, painful symptoms soon gave way, and I can highly recommend the medicine to all suffering as she did." 2w36d

"What is McGregor's Speedy Cure for"?

It is for Dyspepsia, Liver Complaint, Indigestion, Biliousness, and it is the finest blood purifier in the known world to-day.

"Does it give satisfaction?"

We cannot point to one instance where it did not.

"Where does it have the largest sale?"

Right in the city of Hamilton, where it is manufactured, there has been over one thousand dollars' worth sold in the last year retail, and the great majority of the sales are by one recommending it to another. For sale at 50c. and $1.00 per bottle by John McKee, Druggist eodw35

I have been bothered with catarrh for about twenty years. I had lost my sense of smell entirely for the last fifteen years, and I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did. My sense of smell is partly restored. It seems to be improving all the time. I think there is nothing like Ely's Cream Balm for Catarrh.—Mrs. R. E. Grinnes, Rendrin, Ohio. eodw38

A Radical Change.

"I had got so bad with dyspepsia that I hardly cared whether I lived or not," says Frank A. Swain, of the Toronto *Globe* Office. Three bottles of Burdock Blood Bitters cured him, and he says, "it now seems a pleasure to live." 2w36d

Ladies troubled with Pimples, Blotches, Rough Hands or Face, or Sores of any description, should use McGregor & Parke's Carbolic Cerate. It will leave the skin in perfect health, smooth, clean and good color. Be sure and get the genuine, made by McGregor & Parke. Price 25c. Sold at John McKee's Drug Store. eodw35

A Fact Worth Remembering.

Mr. Jas. Binnie, of Toronto, states that his little baby when three months old, was so bad with summer complaint that under doctor's treatment her life was despaired of. Four doses of Dr. Fowler's Wild Strawberry cured her, she is now fat and hearty. 2w36d

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

Reasons why you should purchase Fluid Lightning in preference to all other remedies are:—Rapid result—cures instantly. It is easily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. Try it for Neuralgia, Toothache, Headache, Rheumatism. Sold at 25c. a bottle by John McKee, Druggist. eodw35

Reliable.

"I have used Dr. Fowler's Extract of Wild Strawberry, and found it a sure cure for summer complaint. I was very sick, and it cured me entirely." Alexander W. Grant, Moose Creek, Ont. 2w36d

N. WASHINGTON, M.D., Throat and Lung Surgeon, Toronto.

DEAR SIR,—I am pleased to be able to state to you that I am now free from Catarrh. It is almost incredible that in so short a time I could have been cured of Catarrh, which has affected my health for years. A little over two months ago I took treatment from you, and to-day the Catarrh is entirely cured. Your treatment is simply a marvel. I will heartily recommend any of my friends personally, and would suggest to all those troubled the advisability, of consulting you immediately. Accept my many thanks. Yours etc.,

Very Artistic.

Omemee *Herald*:—"We have received a very fine three sheet poster, in colors, from the EXAMINER office. The bill announces the Central Exhibition to be held at Peterborough. The design is very artistic and the letter press fine. It would be difficult to get a finer looking poster printed in any city office.

Growing in Interest.

The actual business work now going on in the Peterborough Business College is becoming intensely interesting. Nothing equal to it has ever been used in the Canadian Business Colleges, and the students become so charmed with its perfect working that their enthusiasm is great. B.S. dw

Opened out at Turnbull's, cases after cases of Fall and Winter Millinery, marked at prices that will delight everybody.

New Hack.

Mr. 'Gus' White has set up a hack on his own account. He has an excellent turnout and has a knowledge of how to run such a business. He is worthy of a good share of patronage, which he respectfully solicits. Telephone connection with his father's stables, Charlotte street, where all orders sent will receive prompt and satisfactory attention.

Anniversary.

The public Anniversary of the Young Men's Christian Association will be held on Thursday next, 22nd inst., in the George street Methodist church. Messrs. Wm. McCulloch, General Secretary of the Toronto Association, C. S. Gzowski, Jr., of Toronto, and W. H. Stevens, the General-Secretary-elect, are expected to speak. Music will be given by the male choir of the Association. Subscribers and all friends of the Association will be welcomed.

Shoppel's "Modern Houses".

The September number of this excellent architectural and building magazine is unusually interesting and useful. Its contents are exceedingly practical. In addition to architectural aids and designs of summer resort cottages, it has designs with elevations of six cottages of varying cost, and four designs, all amply illustrated, of four more pretentious dwellings. This publication is of untold benefit to every practical builder, and should be in his hands. Monthly numbers, $1 per year.

The Central.

Mr. Golletly, Secretary, reports the Central Exhibition booming. The entries so far this year far exceed those of last year at the same time. A meeting of the directors was held this afternoon.

A New Hall.

It is currently rumored about the streets and accepted as a matter of fact that the Oddfellows of Peterborough, including the Canton and Encampment, will soon build a magnificent hall for themselves on a suitable site.

Miss Tully, Mantle Cutter at Turnbull's, is now prepared to show all the new styles in Mantles. Orders executed promptly.

Amateur Photography.

Mr. E. M. Ray has some photographs on exhibition in Muncaster's jewellery store of Barnum's circus procession in Lindsay, taken instantaneously. They are fine samples of the photographic art.

The Address Arrives.

The handsomely engrossed address from Canton Ottawa to Canton Peterborough, delayed in accompanying the group photograph forwarded some time ago, has just been received by Capt. McNeil. The text of the address was published in the EXAMINER some time ago.

The First Ice.

A rather startling condition of the temperature for "mild September" was recorded by Mr. Telford's thermometer this morning, 30° being registered, the lowest yet. Mr. Telford reports the first ice of the season at sunrise this morning.

Market Notes.

There was a large market this morning. Apples flooded the market, selling at all prices from 30c. to $1 per bag. Potatoes still remain at $1 per bag. Tomatoes went at 25c. a peck. Butter sold at 22 and 23c., and towards the last some offered at 20c.; eggs, 14c.; lamb, 8 and 9c.; mutton, 7c.; pork, 8c.; chickens, 30 to 45c. a pair; a very few geese at about 60c. each; two or three turkeys at $1.00 and $1.75. Garden stuff went at the regulation prices, according to size or quantity.

The Great Gough.

Gough, the Wonderful Cheap Man, has just returned from the eastern wholesale markets, where he purchased thousands of dollars' worth of superb new goods fresh from the loom, the finest range of goods ever brought to the town of Peterborough. These goods will arrive in town on Monday, when thrilling and astounding bargains, ahead of those with which Gough has been accustomed to electrify the public, will be given. In spite of all assertions to the contrary, Gough does a lively wholesale trade with merchants in the back country, even getting wholesale orders from the county of York. Gough is exceedingly alive and means to lead the procession, in the past as heretofore. Let the public watch for his new fall announcement on Monday or Tuesday. It will unfold bargains of electrifying cheapness. Watch for it. d67

Striking!

The Peterborough Business College course, endorsed by the Dominion Government.

The examinations for the Civil Service are in the branches taught in this College. This shows what is really used by the government employees, and by practical men everywhere.

The "Chartered Accountants of Ontario" examine candidates in just the subjects taught by this College. Will anyone say they are not practical?

The Ontario Government, at their last session, commended nine Business Colleges out of 22. Peterborough Business College was classed in the *highest grade*.

His Excellency Lord Lansdowne, Governor-General of Canada, endorsed the abilities of Principal Sawyer by patronizing him—an honor conferred on no other business college principal.

What do these facts tell?

Fall Exhibitions.

The following are the dates of the principal Fall Exhibitions:—

MARIPOSA FALL EXHIBITION.—At Oakwood, Oct. 6 & 7. W. R. Cunnings, Oakwood, Secretary.

The Challenge Accepted.

The Belleville *Intelligencer*, quoting Mr. Greatrix's offer to give Cooper ten yards start on the five mile bicycle race to induce him to come to Peterborough, says:—"That is more to the point. Mr. Cooper has but one aim, that is to bring about the race. The *Intelligencer* is authorized by Mr. Cooper to state that he will race on the Peterborough track on the date named in his challenge, and asks Mr. Greatrix to notify him of his willingness to ride. Cooper says it does not matter who the challenging party is or where the track is so long as he gets at his man. Now that the newspapers have straightened out the tangle, let the wheelmen get down to business." Mr. Greatrix will open negotiations with Mr. Cooper at once and arrange for the meeting.

Opened Out.

Dawson Bros. opened out for business in their Hunter Street premises, the "Glasgow Warehouse," this morning. A reporter called around during the day and found the hands all busy, and the shelves stocked with the latest and most fashionable styles and best qualities of dry goods. All week the sidewalk in front of the store has been filled with mammoth packing cases, which were emptied quickly and replaced by others, and the contents carried into the store, marked and shelved. The store itself is a little gem of its kind, and has been described before. So great has been the hurry, though, from lack of time, that the interior improvements are not yet completed, and the shop does not look as nice as it will in a few days hence. The store to-day was largely patronized, and no doubt Dawson Bros. will reap the golden harvest that follows in the wake of enterprise and industry. Their advertisement elsewhere speaks for itself.

Association Football.

A Peterborough Club "Done Up" by Norwood High School Club.

Last night on the P. A. A. A. grounds a football match, Peterborough vs. Norwood High School, was played, resulting in an easy victory for the latter by four straight goals. Far from being discouraged by this crushing defeat, the Peterborough team hope for better luck next time, and will put in some good practice before the next match. The lack of this needed practice was sadly apparent last night. While the Norwood club played well together and were "up to all the dodges" of the game, the Peterboroughs played spasmodically, and without any display of that scientific "dribbling" and playing to each other which is only attained by constant practice—with the exception, perhaps, of Brennan, Begley and Smith, who did most of the forward work. The boys played a good uphill game though, and did remarkably well for the "greenhorns" they veritably were. They have had but two practices, and were ignorant of the rules of playing. Rugby football is the game here. In the first half time three goals were scored—or rather allowed by the umpire, Guerin, for two of his decisions were manifestly wrong. The Peterboroughs protested, and he was replaced by Ross Brown. After that no more goals were scored until the very last minute, when the Norwoods by a combined attack put the ball through.

Kincaid, in goal, kept out many a well directed shot, while in the frequent scrimmages in front of goal the back and half-backs figured to good account. The Norwoods all played well, and overmatched our boys at almost every point, but the Peterboroughs hope to be able to give them a closer tussle when they next meet. The audience present was not very large, the night being rather cool for spectators, but those who did attend were well pleased with the game. The light supplied by the electric lamps enabled the players to follow the ball everywhere. The black and yellow stripes of the home team, mingling with the white and black colors of the visitors, made a very pretty sight beneath the electric light.

The following are the teams:—

Norwood.		*Peterborough.*
A. Hutchison	goal	K. Kincaid
F. Stevenson	back	J. Morris
A. Finlay	back	V. Halliday
F. Pierce	half-back	G. A. Schofield
H. Bawell (Capt.)	half-back	C. Forbes
C. W. Walters	right forward	Gordon Smith
J. McKelvie	right forward	C. H. Allison
H. Anderson	centre forward	Dr. Brennan
A. Burgess	centre forward	J. Begley
H. Pearce	left forward	A. E. Scott
J. Spence	left forward	A. E. Austin
M. Guerin (displaced by Ross Brown)	umpire	J. Phelan
	referee	M. Hamilton

Obituary.

Friday afternoon, at 2 o'clock, the death of Mrs. Mills, relict of the late William Mills, Esq., of Ashburnham, took place after a very brief illness. Mrs. Mills was in her usual health until a week ago, when she suddenly took ill from an attack of congestive malaria which seriously affected the heart's action and was followed by severe vomiting. She rallied quite unexpectedly, and was doing very well under the care of her physician, Dr. King, but under a second attack she succumbed. The family has had great sorrow in recent years. Last spring both the father and one daughter were carried off within three short months, and to-day another daughter is too ill to leave her room. We are sure they will all have the sympathy of our readers and a numerous circle of friends in their heavy bereavement. Mrs. Mills was of a quiet and retiring disposition, devoted to her family, an earnest Christian, and a constant communicant of St. Luke's Church.

She was quite resigned, placing all her trust on the risen Savior and ready to depart and to be with Christ. She was a native of Colchester, England, but lost her parents when quite young. After her marriage to Mr. Mills they resided for some time near London, at a place called Havering, noted as the spot where King Edward the Confessor died and at whose village church Bishop Hall preached before King James the First. When Mr. and Mrs. Mills came to this country, they resided for some years at Hamilton, and afterwards near Ingersoll where Mr. Mills owned some property. Since 1876 they have lived in Ashburnham. The funeral will take place from the family residence on Monday next at 2 o'clock.

A Baseball Suggestion.

It is feared the International league, as at present constituted, cannot exist another year, and suggestions for purely Canadian leagues are being offered. The Kingston *Whig* proposes a circuit composed of London, Toronto, Belleville and Kingston. The Belleville *Intelligencer* says of it:—"We are afraid this circuit would not work, as the western cities (except Guelph) are too heavy financially for the other places, which could not pay salaries large enough to attract players equal to theirs. Again the receipts at the smaller places would not pay the teams from the larger places. A more workable circuit would be; Port Hope or Cobourg, or both, Lindsay, Peterborough, Belleville and Kingston with, perhaps, Ottawa added." That is more like it. These clubs are near each other, more evenly matched and besides a great saving of railway fare, the game would result better financially as more local interest would be manifested. Let a league of about this composition be organized by all means.

The Ever-Enterprising Bellegham.

Under the business feet of Mr. D. Bellegham no grass grows. He is a typical live business man, who spares neither cost nor care to get the best for his customers in any line in which he deals. His latest stroke of enterprise is explained by the following from the *Mail's* report of the Industrial Exhibition exhibits:—"When the Fair closes C. J. Nash & Co., London, will have nothing to take home with them, having sold everything that they put on exhibition. Among the articles were two magnificent hearses, one of which was sold to D. Bellegham, Peterborough, for $1,000, and the other to Wm. R. Pray, of Hamilton, for $900. The firm makes a speciality of hearses and their manufacture in this line can be found all over the Dominion." It will be observed as something significant that, while a 900-dollar article is good enough for Hamilton, Peterborough demands a 1000 dollar equipage. This is the town to recognize and appreciate enterprise.

—A tramp who uses abusive language when refused what he asks for, and who nonchalantly "passed back" to a man who caught him in the act of burglarizing his house Thursday night, is troubling the serenity of Port Hope. The police are looking for him, but he has become invisible, after making one successful midnight haul.

—An order in council has been issued that the rates of toll on cordwood and logs passing through the Bobcaygeon, Peterborough and Hastings locks, on the Trent Valley Canal, be and the same are hereby amended as follows:—"On cordwood the rate to be levied shall be 3 cents per cord in lieu of 5 cents, and on logs ½ cent each in lieu of ¼ cent."

THE CATHOLIC UNIVERSITY.

A Meeting of Prelates in Baltimore Discusses the Scheme.

BALTIMORE, Md., Sept. 7.—A number of Catholic prelates, including Archbishop Corrigan of New York, met here to-day to discuss the plans for the Catholic University. Cardinal Gibbons presided. A discussion arose on the location of the university, and while Washington is preferred by some, Philadelphia was named and some point in the west was thought by others most desirable in view of the growth of the country in that direction. It is said $3,000,000 will be required to build and place the university on a solid basis. About $700,000 has been secured. The theological department will be the first opened and that will be under the charge of the Order of St. Sulpice.

MONTREAL INSURANCE RATES.

The rates on other ordinary commercial risks have been similarly advanced.

To Avoid Baldness or Grey Hair.

Use Dr. Dorenwend's Great German Hair Magic. It keeps the scalp clean and free from Dandruff, and promotes the growth of the hair. It prevents premature grayness and stops all falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by J. D. Tully and all druggists.

Examiner Bindery.

Merchants and business men, now is the time to call at the EXAMINER bindery and leave your orders for journals, day books, ledgers, invoice books, cheque books, and all blank books used in business. Don't wait till the moment you want to use them. All blank books last longer for not being used immediately after being finished.

SHOT BY A SALOONIST

A Drive and a Few Drinks Pave the Way for a Funeral.

LOGANSPORT, Ind., Sept. 16.—Charles Plank and John McCarty, aged 19 and 23, sons of respectable residents of this city, were out driving last evening and stopped at the saloon of David Hallam. A quarrel occurred between the young men and Hallam, during which the wife of Hallam was knocked down. The young men retired into the street and threw stones through a window of the saloon, Hallam being struck by one of the missiles and also by a revolver flourished by Plank, said by a club in the hands of McCarty. Hallam secured a pistol and pursued the young men, who had entered their buggy. He fired two shots. The first one struck Plank one inch above the left eye and lodged at the base of the brain; the other lodged in the left side of McCarty's neck. Plank died at 9 o'clock and McCarty cannot live.

A Candy Establishment Burned.

CHICAGO, Sept. 16.—The extensive candy manufactories of Milton E. Page & Co., Nos. 211 and 213 Lake street, were totally destroyed by fire last night. The flames spread to the buildings adjoining, on either side, one of which is occupied by J. A. Faye & Co., of which Mayor Roche is a partner and manager, doing considerable damage. The flagstaff and eagle on the Page building fell and injured several firemen.

First Come First Served.

MADRID, Sept. 16.—The Spanish Government some time ago decided to establish a coaling station on an island in the Red Sea. A Spanish gunboat, on going to take possession of the island, found a British man-of-war there and the British flag flying on the island. The Elpas calls upon the Government to protest against England's action.

Sudden Death at Oshawa.

OSHAWA, Sept. 16.—Mrs. [Normile, sr., dropped dead in W. M. Wightman's boot and shoe store at 10.30 to-day. Apoplexy is supposed to be the cause of her death. She was about 70 years of age. The affair caused a great deal of excitement in the locality at the time.

Emperor William's Enfeebled State.

STETTIN, Sept. 16.—Emperor William had a fainting fit after the banquet on Wednesday. On recovering he retired, supported by his physician and valet. He was well to-day and attended the nobility banquet.

Making Sure of It.

ATLANTA, Ga., Sept. 16.—George Oliver, Mayor of Shellman, Ga., went into the telegraph office there yesterday, and after taking a dose of strychnine shot himself through the heart. No cause is known for the deed.

BAYARD COMMUNICATIVE.

DENIES THAT ALASKAN SEIZURES HAVE BEEN STOPPED.

He is Annoyed at the Criticisms of His Course Regarding the Fisheries Question, and Says Time Will Show that he Sought a Fair Settlement.

WASHINGTON, Sept. 18.—With regard to the statement published alleging that Secretary Bayard had telegraphed "his officers" in Alaska to release the seized sealers, and that the order had not been executed because the Alaskan official was not sure of the authenticity of the order, Secretary Bayard said to-night that the despatch showed its incorrectness on its face. Alaska is a part of the United States, and consequently the State Department has no officers whatever there, as in foreign countries. All its knowledge of Alaska affairs comes through other departments of the Government. The Secretary of State would give no order to an Alaskan official nor receive information from one except through the head of another department.

With reference to despatches which allege that the release of the seized sealers had been ordered, the Secretary made the following explicit denial of any knowledge of any such order: "There has been to my knowledge no such order issued by the President for the release of any of the vessels seized this year, simply because we have no knowledge of the circumstances under which the vessels were seized, and we only know that they are in the hands of the court and therefore will be dealt with according to law. There were three cases last year in which the President saw fit to order the release of three vessels, seized in August, 1885, but these are the only cases I know of in which vessels were ordered released. That occurred last year, and the facts were made public at the time."

The Secretary was somewhat amazed at the criticisms which had been made upon his course with regard to the fisheries question and particularly with reference to the commission for a settlement. He said he had made a proposal to Great Britain for a settlement and that proposal had been made public some time ago. He did not think the mere machinery by which an agreement was reached on the basis of his proposal of particular importance. He could not hasten the publication of the correspondence which had taken place. It would all be laid before Congress in due time and be made public, and would show that his efforts had been to obtain an honorable and fair settlement of the question.

STANLEY'S EXPEDITION.

Emin Bey Apprised of the Approach of Assistance.

LONDON, Sept. 17.—Advices from Zanzibar have been received to the effect that the messengers sent by the consuls to apprise Emin Bey that the expedition under Henry M. Stanley had been sent to his relief have returned. They state that they reached Lake Albert Nyanza, where they met Emin Bey returning from an expedition to the Usungoro country. Emin Bey was greatly surprised at the near approach of the expedition, and warned his troops occupying posts on the western shores of the lake of the approach of Stanley. Emin Bey then returned to Adelai to await the arrival of the expedition. The messengers report that a fierce war has been waged between the King of Uganda and the people of Unyoro, in which the former was defeated. The country between Lake Albert Nyanza and Lake Maritanzige has been devastated by the belligerents and passage is difficult.

A HURRICANE IN THE BAHAMAS.

Twenty-Five Vessels Sunk or Stranded and Many Houses Injured.

NASSAU, N.P., Sept. 5.—On Aug. 21 and 22 a severe hurricane passed over the islands of Grand Bahama and Alaco. The lighthouse at Elbow Bay was somewhat damaged, and all over both islands great damage was done to buildings, fences, orchards and plantations. About twenty-five or thirty fishing, turtling and sponging vessels were sunk or stranded. The wind commenced blowing from the north and worked round to the southeast, the barometer reading 28.50 the lowest 26.60. Nassau being just on the southern edge of the storm centre, with but little damage. [illegible] reported.

GLOOM IN THE GREEN ISLE

A SEVERE STRUGGLE WITH THE GOVERNMENT EXPECTED.

The Ministerial Party Determined not to Permit Irish Business to Absorb the Attention of Parliament to the Exclusion of Other Matters.

LONDON, Sept. 17.—The Cabinet has closed the session of Parliament with the declared intention to shunt all legislation concerning Ireland during the next session. This is accepted as a true interpretation of that passage of the Queen's speech, which refers to the postponement of "many important measures affecting other portions of the Kingdom, which doubtless you will be able to resume without hindrance at the coming session." This is taken to mean that in the opinion of the Ministers quite enough time has been given to the discussion of Irish grievances. Apart from the language of the address, moreover, the Ministerial party do not attempt to conceal their determination not to permit Irish business any longer to absorb the attention of Parliament to the exclusion of all other matters. The decision applies not only to the next session but the following session as well. If the plans of the ministers are thoroughly carried out all Irish questions will be definitely thrown aside to make way for legislation on English and Scotch affairs. The Gladstonians declare that it is not possible for the Government thus to put aside Ireland, and they will do their utmost to prevent Lord Salisbury and his colleagues carrying out their scheme. They are already forecasting a plan of obstruction in order to meet the further stringent rules of procedure which the Government are preparing for the opening of the new session.

The center of interest is now transferred from Westminster to Dublin, and gloomy predictions of what is going to happen are in many mouths. The Queen expresses the hope that the Irish legislation of the session will gradually effect complete restoration of order in that country. The interjection of the word "gradually" shows how little sanguine such expectations are. What is evident is that there will be a struggle. Neither Government nor League is going to surrender till each has formed a more accurate estimate of the other's strength. Mr. Parnell has borrowed some of Mr. Dillon's defiant spirit. Mr. O'Brien's friends complain bitterly that their hero not only is sent to prison, but is treated as a prisoner and subjected to ordinary prison discipline. They declare, nevertheless, that they are ready to share his fate. Mr. Dillon's estimate is that thirty or forty Irish members of Parliament will follow Mr. O'Brien to jail before the winter is over. Perhaps this computation may prove exaggerated. Mr. Balfour has gone to Dublin to govern. When the fact becomes known throughout Ireland a change in the situation is possible enough.

The Affair at Mitchellstown.

DUBLIN, Sept. 17.—At the inquest into the recent trouble at Mitchellstown, Edwin Ennis, a Dublin barrister, testified that the police used their batons upon the horses of citizens and attacked the crowd entirely without provocation. No one had previously made any disturbance. The action was wanton and uncalled for. Dillon, the witness said, assisted a number of ladies into a priest's house to shelter them from violence. The witness said that another body of police charged up the square after a man upon whom they had used clubs. A number of the police ran into the priest's house where Dillon had escorted the ladies. Dillon tried to discover who commanded the police, as he was anxious to get them away. He appealed to three of the constables and ascertained that there was no officer present. Some time later one appeared and Dillon induced him to withdraw his men. Then the priest persuaded the people to go home.

A Meeting at Limerick.

LIMERICK, Sept. 17.—The Lord Mayor of Limerick, T. M. Healy and Edward Pickersgill, members of Parliament, addressed a political meeting in the market place to-day. One thousand persons attended. Fifty armed constables, commanded by Magistrate Irwin, stood about and watched the meeting, but did not interfere. A Government reporter was present and took notes of the proceedings. Subsequently a public meeting was held at Bodyke.

Another Arrest.

DUBLIN, Sept. 17.—Mr. Mandeville, who was charged with violating the Crimes Act at the same time as O'Brien's offence, has been committed for trial at Mitchellstown.

A Fracas Near Belfast.

BELFAST, Sept. 18.—A party of Orangemen, while passing through Green Castle, a town near Belfast, last night, had an encounter with Nationalist residents. Three policemen who tried to quell the disturbance were stoned and driven away. The local authorities being unable to restore order sent a despatch to this city asking for aid, and a force of police was accordingly sent to Green Castle. The reinforcements had the effect of awing the rioters and peace was soon established. Ten of the principal participants were arrested.

MR. DILLON'S VIEWS.

The Enforcing of the Coercion Act Would be Certain to Lead to Trouble.

DUBLIN, Sept. 18.—In accordance with the announcement a meeting of Nationalists was held at Bandon to-day. A Government reporter was present and was not molested, but representatives of The Cork Constitution and The Illustrated London Times were ruthlessly handled until the speakers on the platform intervened in their behalf.

Messrs. Brunner and Hooper, members of Parliament, addressed the meeting.

Mr. Dillon, in an interview to-day, said that it was impossible to deny the gravity of the agitation. The most disturbed district was South Galway, where a new agent had been appointed who displayed great activity, and trouble might be expected there. The outlook for the coming winter was a gloomy one. Mr. Balfour was apparently determined to get all the Nationalist leaders into the clutches of the law and he (Dillon) would not be surprised if in a month or two the majority of the leaders, including himself, were found picking oakum. Mr. Balfour had been in Dublin consulting the magistrates. That looked like action, but Mr. Balfour always startled them by hurling proclamations into their midst and then flying from the country immediately, being apprehensive, perhaps, for his own safety. The Government's persistence in enforcing the Coercion Act would be certain to lead to trouble. He was positive that if the Land Commissioners gave only inadequate judicial reductions the Salisbury Cabinet would find themselves [illegible] face with a condition of things unparalleled in the history of Ireland. The Commissioners in the past two years had been [illegible], but there was every reason to fear the result of the later Tory appointments. In that respect there was much danger in the situation.

NEW YORK, Sept. 16.—The Executive Committee of the Beecher Statue Fund has selected the designer of the proposed statue. The statue will cost $25,000.

THE BREACH WIDENING.

Bismarck's Refusal to Interfere in Bulgaria Displeasing to Russia.

BERLIN, Sept. 17.—While Prince Bismarck was at Kissingen, the Austrian Government had reason to fear that his desire to renew cordial relations with Russia would carry him too far and imperil the Central European alliance. Whatever Bismarck's motive was, it is certain he played with Count Schouvaloff, the Russian Ambassador, and humored the Czar into the belief that Germany would back Russia's policy toward Bulgaria, even to the limit of offending Austria.

Since the development of the Bismarckian policy here understood the Czar the relations between Germany and Russia have been colder than ever. Bismarck's refusal to mediate or intervene in any way in the Bulgarian question was the climax of Russia's disappointment, while it convinced Austria that she could rely on the permanent strength of the alliance with Germany. Count Kalnoky's presence at Frederickshruhe, in connection with the Czar's avoidance of a meeting with the Emperor, sets a seal upon the alliance, while at the same time promising a more vigorous common policy on the part of Austria and Germany. The interview between Bismarck and Kalnoky means a new phase of the Bulgarian question. It means a check on Russian intervention, the neutrality of Europe toward Prince Ferdinand, leaving him to his own resources, to sink or swim, and freedom of action for the Bulgarians short of anarchy or troubling the peace of neighboring States.

Russian Distrust of Germany.

ST. PETERSBURG, Sept. 17.—The arrival of Emperor William at Stettin has disquieted the public, who fear that the Czar will meet and arrive at an understanding. The Russians distrust Germany and fear that should the meeting occur it would result in a reapprochement on the basis of Germany's support of Russia in Bulgaria, whereas the prevailing feeling is that Russia's interest and prestige would be most benefited by the adoption of an independent policy. Among the well informed, however, this fear is regarded as baseless, because of the belief that if the Emperor and Czar do meet the action on the part of the latter will be no more than a mere act of courtesy entirely devoid of political meaning.

FAMINE IN ASIA MINOR.

The Source of Food Supply Exhausted and Thousands Starving.

BOSTON, Sept. 17.—A terrible condition of affairs among the people of the Cilician Plain, Asia Minor, has come to light here through letters received at the headquarters of the American Board of Commissioners for Foreign Missions. The letters say that large numbers of the inhabitants of that country are starving, and the source of food supply has been almost exhausted. The missionaries of the board at Adana report that since August 500 more families have been added to the list of those who have to be supplied with bread to sustain life, making 1500 families in all that are now being fed. The board sent out $7000 for the relief of these suffering people some time ago, but as the amount proved to be entirely inadequate for the purpose the board has decided to make a general appeal for funds with which to alleviate the great distress in the district referred to.

There are urgent pleas for aid from Tarsus, and from the various villages of the plain, and the Rev. Mr. Montgomery, writing from the scene on Aug. 13, says: "Large numbers of people are kept alive by eating grass, roots, refuse of the streets, berries and small fruits. There was brought me this week a kind of nauseous, bitter, pockery bread, made from the pods of a low thorn found upon the plain, which I should think would kill those who ate it, and yet I am told whole villages eat it and have nothing else. The gratitude of those who are helped appears to be sincere, and Heaven's blessings are invoked by Moslem and nominal Christian alike upon the Protestants who minister to their needs."

In soliciting for the afflicted people the board states that many thousand families will need aid to enable them to live until next harvest, and tens of thousands of dollars will be required for the purpose. He appeals to all humane people regardless of creed.

THE CHICAGO ANARCHISTS.

How the Decision of the Supreme Court will Affect the Knights of Labor.

CHICAGO, Sept. 17.—The Times to-day says: The decision of the Illinois Supreme Court in the Anarchist trial will exercise a powerful influence on the annual General Assembly of the Knights of Labor, which will meet at Minneapolis, Oct. 26, and thereby indirectly on the labor movement, and perhaps the very existence of the order of the Knights of Labor. It is intended to bring the matter before the assembly at the outset and a resolution denouncing the decision and demanding the interference of the Supreme Court of the United States. This move will proceed from the radical wing, and thus will be an element in the fight on General Master Workman Powderly. The radicals had some difficulty in passing their Anarchist resolution at Richmond. Their hands have been very materially strengthened during the past year, and they now claim they will have a majority in the coming convention.

Reports that have been received by those prominent among the radical Knights in this city assure them that the radicals have elected their delegates in nearly all the big cities, and in many places outside of the centers of industry. They are very hopeful not only of carrying the resolution in favor of the Anarchists, but also of ousting the present conservative administration. The Anarchist resolution will be used as an entering wedge to separate the two factions more definitely than has hitherto been possible. If the General Assembly is not disposed to allow the radicals to rule the latter will withdraw from the order and attempt to break it up.

THE ONLY SURVIVOR.

News of a Whaler Wrecked in the Arctic Two Years ago.

VICTORIA, B.C., Sept. 17.—Capt. Warren of the schooner Owner arrived from Sitka yesterday. He stated that by the cutter Rush there arrived a sailor in Sitka who is the only survivor of the whaling schooner Napoleon, which was wrecked in the Arctic two years ago. He tells a terrible tale of suffering. The vessel got crushed in the ice, the crew having to take to their boats and the man who arrived in Sitka was one of the eighteen who were on the ice for thirty days. During this time his seventeen companions died from starvation. He was picked up by some Esquimaux and lived among them until the trip of the Bear into the Arctic, when he was found among his protectors. The cutter brought him down and connected with the Rush in the Behring Sea, the latter bringing him to Sitka.

Threatened Strike of Street Car Men.

CHICAGO, Sept. 18.—The conductors and drivers in the employ of the West Division Company at an all night meeting decided unanimously that unless their demands were granted by Wednesday evening a strike would begin Thursday evening. The number of conductors and drivers interested is something over twelve hundred.

Powderly Will Be There.

HAMILTON, Sept. 17.—T. V. Powderly, the General Master Workman of the Knights of Labor, will be present at the workingmen's demonstration in this city on Sept. 28.

THE MIDLAND COLLISION.

THE EXPRESS RAN COMPLETELY THROUGH THE EXCURSION TRAIN.

The Accident Caused by the Express Driver Running Past the Danger Signals—The Latest Reports Place the Number of the Dead at 23.

LONDON, Sept. 17.—The Midland train was crowded with excursionists going to Doncaster to see the race for the Doncaster cup. Suddenly a plate layer was noticed wildly waving a red flag. On looking out the passengers were horrified to see the express coming at full speed. Before realizing the danger there was a terrific shock, and the express cut through the excursion train. The express engine was badly damaged, but kept on the rails. Its train practically sustained no damage.

The scene was horrible. Scores of people lay bleeding or dead, wedged amid splintered woodwork and debris. Their shrieks and groans were heartrending, but it was impossible to release them till mechanical appliances had arrived. Many were taken out horribly mangled, with arms and legs severed. Others were almost decapitated and disemboweled. The dead were laid in an adjoining meadow. Some were only recognizable by their clothing.

The injured were conveyed on improvised ambulances to the nearest house. A number of surgeons were speedily in attendance. There were numerous broken legs, some requiring amputation. All that is was possible to remove were taken to an infirmary. The guard of the excursion cannot had a narrow escape. A mother with a baby in her arms was killed, while the child escaped unhurt. In another instance a mother and child were killed. One man had his head torn completely off and the body was found sitting upright in the carriage. The extrication was conducted by means of saw and ax, which caused acute suffering to the injured.

A curve in the line hid the express till it was within a short distance of the excursion train, when the driver and stoker were seen frantically pulling the levers. The driver, named Taylor, is an old servant of the company. He has not explained how he ran past the danger signals. He prefers to withhold his statement. It is rumored that the brakes were applied, but failed to act. The majority of the victims were residents of Sheffield and Heathorpe. The latest reports place the number of dead at twenty-three and the injured at sixty.

WRECKS ON AMERICAN ROADS.

Fire Follows a Smash-up Near Toledo Causing Great Loss.

TOLEDO, O., Sept. 17.—News reached this city at a late hour to-night of an accident at the Air Line junction of the Lake Shore Railroad, near this city. Two freight trains running at the rate of twenty miles an hour came together with a terrible crash, demolishing both engines and several cars. Fire broke out, and as there were no engines nor apparatus of any kind for extinguishing fires, the flames raged unchecked for several hours. Particulars of the wreck are meager and no estimate of loss can be made at this hour.

A Sleeper Turned Bottom Up.

WATERLOO, Iowa, Sept. 17.—A collision took place last night at Wilson Junction on the Chicago, St. Paul and Kansas City Railway. A sleeper was hurled over into the ditch, alighting almost squarely bottom side up. There were fourteen passengers in it, several of whom were more or less injured.

A Collision in California.

PUEBLO, Sept. 17.—Another bad wreck occurred this morning on the Atlantic and Pacific Railway thirty miles from Needles, Cal. The engine and the forward part of the train went through the bridge. Engineer Frank Thompson was killed, and it is rumored that the killed and injured number nearly fifty people, though no particulars are known.

A Misplaced Switch.

ROCHESTER, Sept. 17.—An accident occurred this afternoon on the Buffalo, New York and Philadelphia Railway at Portage, in which two locomotives and nine freight cars were wrecked. No one was injured. The accident was caused by a misplaced switch.

THE BRIDGEWATER RELEASED.

After Investigation of the Case the Ship is Liberated Unconditionally.

HALIFAX, N.S., Sept. 17.—The Ottawa authorities have ordered the customs collector at Shelburne to release the American ship Bridgewater. The facts connected with the Bridgewater's case are that she ran ashore and put into Shelburne in distress, when she was declared unseaworthy and ordered to be sold. Her principal owner, a New Yorker, purchased her and was going on with the repairs when a claim was made for customs duty. The owner refused to pay the claim and the vessel was seized. A protest being entered, the case was investigated, and, it is understood, the authorities decided to liberate the ship unconditionally.

A SALUTE FROM THE IRON HORSE

Sault Ste. Marie Celebrates the Opening of the New Railway.

SAULT STE. MARIE, Mich., Sept. 17.—The railroad is here at last, and Sault Ste. Marie is out of the woods, after having been the most difficult of access as well as the oldest settlement in Michigan. The last spike in the road was driven at high noon, and all the population able to ride or walk were present to welcome the engine and the building gang. Two cannon from Fort Brady thundered a welcome to the iron horse, giving a 21-gun salute. The enthusiasm is unbounded and will be kept up in the jolliest manner all day, and by some into the night. The track is laid as far as the company's round-house now.

The International League Standing.

Important changes have occurred in the pennant race during the past week. Toronto has gone up from third place to the top, having won five straight games, two from Syracuse and three from Newark, last week's pioneers, and now has a lead, which it ought to be able to retain. Newark and Buffalo will evidently have the fight for second place, though the way the Hams are finishing there is a fair prospect of the Ambitious City team securing that honor. Syracuse lost its four games last week to the two Canadian clubs, and went back to its present position, sharing equally with the Hams the honor of fourth place. Wilkesbarre is the only tail-ender that has accomplished anything of note—that was its defeat of Buffalo. Here are the figures:

Club.	Won.	Lost.	Percentage.
Toronto	56	32	.636
Newark	53	33	.616
Buffalo	51	34	.600
Syracuse	50	35	.588

MONDAY, SEPTEMBER 19, 1887.

A PRACTICAL JUBILEE.

This is the golden jubilee of His Holiness, Pope Leo XI.—the fiftieth anniversary of his consecration to the priesthood—and the occasion will be one of great rejoicing in the world of Roman Catholicism. A practical turn will be given the occasion, by an effort to restore the papal temporal sovereignty. The Pope has written a letter to Cardinal Rampolla, in which he makes a strong appeal for the restoration of the temporal power. The letter is prefaced with a reference to the great progress made by the Church in Austro-Hungary, France, Spain, Portugal, Belgium, Germany, England, Russia and America, which is followed by a reference to the condition of Italy, which does not present the church in such a hopeful condition as in the countries cited. The Pope argues that at the present, stripped of his temporal power, he is completely at the mercy of circumstances. His office, as head of the Church, demands as a condition that he should be subject to no one—he should enjoy a "full, not illusory, liberty". As things were at present, he complains, that far from being his own master he is subject to the effect of every change that comes, and is in reality "more in the power of others than in his own." He disclaims any ambitious desires in seeking a restoration of the temporal power of the papacy, but desires it as a necessary condition to his independence and liberty. The following extract from the letter referred to, gives an idea of the opinions he holds on the subject:—

And in very truth the authority of the Supreme Pontificate, instituted by Christ and conferred on St. Peter, and through him on his lawful successors, the Roman Pontiffs; destined moreover to perpetuate on earth until the end of time, the redeeming mission of the Son of God; adorned with the noblest prerogatives, endowed with sublime powers, peculiar and juridical, such as are needed for the government of a true and most perfect society, cannot, because of its very nature and of the expressed will of its divine founder, be subject to any human power; it must, on the contrary, enjoy the fullest liberty in the exercise of its elevated functions. And since on this supreme power and on the free exercise of the same depends the welfare of the entire church, it was of the utmost importance that its native independence and liberty should be insured, guaranteed, protected all through the ages, in the person of him who was invested with it, by these means which divine Providence had acknowledged to be fitted and efficacious toward their purposes.

It would appear that His Holiness will not have to appeal to the faithful in vain, and its said to be probable that the year of his jubilee will be marked by a concerted attempt on the part of the church in all lands give effect to the wishes of the Pope in regard to the restoration of the papal sovereignty. Italy itself appears to be moving in the matter not only the church authorities but, according to a Rome correspondent, a powerful influence in municipal and parliamentary affairs, is being organised with the desired object in view. Whether the statement can be credited or not, it is stated that King Humbert does not regard the movement with anything like hostility, and if popular sentiment can be sought into line the feasibility of the proposal is further removed from impracticability. It is also hinted that the Pope does not desire a restoration of the former Papal possessions, still one portion of the latter cited does not by any means indicate an abandonment of his claims in this respect, as the following passage shows:—

Here [in the city of Rome], in the ordinary home of the Pope—where he governs, teaches, commands—in order that the faithful throughout the world may, with full confidence and security, yield him the reverence, the faith, the obedience they owe him; here in preference to all other places, it is necessary that he should be established in such a state of independence that not only must his liberty not be interfered with by anybody, but it must be evident to the whole world that it is not interfered with; and this condition must not be one liable to change with any passing event, but one of its nature stable and lasting. Here, more than anywhere else, it must be possible to have, without any fear of impediments, the full development of Catholic life, the solemnity of worship, the respect and public observance of the laws of the Church, the undisturbed and legal existence of all Catholic institutions.

The whole Christian world will watch with interest the progress of events in connection with this movement.

KILLED BY HIS FRIEND.

A Young Englishman Loses His Life in Wyoming Territory.

LARAMIE, Wyo. T., Sept. 17.—A young Englishman named A. W. Whitehouse, while out hunting antelope last evening, near Howard Windham's Twin Mountain Ranche, shot and instantly killed his chum and companion, George H. Gordon. The two were graduates of Oxford College, and the sons of wealthy English parents. They arrived in America three weeks ago and came west to engage in the stock business. Yesterday, while at Windham's ranche, they saw two antelopes, and with their rifles started in pursuit. They soon lost sight of one of the animals but finally located the other in a gulch. Gordon started up one side and Whitehouse crept along the bottom. It was now dusk. Suddenly Whitehouse caught sight of an object moving in the sage brush about 100 yards ahead of him. After watching it for some time, he decided it was a mountain lion and fired. The object fell. Fearing it was only wounded, and having heard of the ferocious nature of these animals when in that condition, he fired three times more, and then, parting the bush, approached the spot where the object had fallen. He was struck dumb with horror on finding that one of his bullets had entered the temple of young Gordon and that life was extinct.

THE UNITED LABOR PARTY.

The Ticket of the State Convention Ratified in New York.

NEW YORK, Sept. 17.—The mass meeting of the United Labor party to ratify the ticket of the State Convention was held to-night in Union Square. The principal platform was at the northern end of the square, and from this stand John MaMackin, James E. Quinn, Henry George and the Rev. Dr. McGlynn spoke. There were about 2000 persons assembled in the square when the speech making began. From several wagons stationed in the square speeches were made by the colored Knights of Labor, Frank Ferrah, and John Mitchell and others. There was no disturbance of any kind. The platform adopted at Syracuse was ratified. John McMackin made a brief speech saying that the United Labor party was the only true American party. It was nearly 10 o'clock when Henry George was introduced. He was greeted with applause. He predicted the success of the Labor ticket in the campaign. Dr. McGlynn was the next speaker, and declared that the laboring class in the present campaign would create a greater revolution than that of 1776. He then referred to his troubles with Archbishop Corrigan, as mention of whose name the crowd groaned.

TWENTY BUILDINGS BURNED.

Fire Sweeps Away the Business Portion of a Michigan Town.

MILWAUKEE, Sept. 17.—Fire swept away several of the best business blocks of Ironwood, Mich., this afternoon, much in the same manner as three months ago its sister Wisconsin town, Hurley, just across the Montreal River, was devastated. The loss is estimated at $150,000, with practically no insurance. At one time the entire town was threatened. The fire broke out in the business center in some inexplicable way, and in a short time the St. James Hotel and Alhambra Theatre were in flames.

About twenty buildings were destroyed, including the St. James Hotel building, wherein were located the Bank of Ironwood, drug store of A. L. Downs & Co., American Express office, Western Union Telegraph office, postoffice and J. E. Beaus' jewelry store, the Alhambra Theatre, involving a loss of $16,000; Benjamin & Perrin's large general merchandise store, loss $60,000; Hoxie & Mellon's lumber yard, loss $30,000; Lake Shore and Western freight depot, loss $3000; Ironwood Store Company's general merchandise store, the Transient House, Record printing office, Max Hans' hardware house and a few minor intermediate buildings containing saloons and the drug store of Thomas McCabe.

Cleveland at Philadelphia.

PHILADELPHIA, Sept. 17.—President Cleveland and party attended the memorial meeting at Independence-square to-day and took a deep interest in the proceedings. When the President arose to speak he was received with thunderous applause. Two thousand school children made up the chorus which, assisted by the Marine Band, rendered the patriotic airs chosen for the occasion. To-day closed the celebration.

Socialist Convention at Buffalo.

BUFFALO, N.Y., Sept. 17.—The Socialists of America began a convention in this city this afternoon. The attendance was limited. Among the prominent Socialists present were: Alexander James, New York Volks Zeitung; Paul Grottkau, Milwaukee; Phil Rappaport, Indianapolis; Max Stoet, St. Louis. Committees on Credentials and Organization were appointed. It is understood that during the session some action will be taken in regard to the condemned Chicago Anarchists.

THAT OATH.

Business is Business. Dirt is Dirt, and when it comes to throwing dirt, count Gough out.

Supposing on oath from mere hearsay I gave the Aurora record of Mr. Sheppard, what would the people say about me? Simply, that GOUGH was a Coward.

But never fear, Mr. Sheppard, I am not going to resort to such mean contemptible personalities. However, in your reckless oath there are two things I am compelled to show you up in.

1st, in your advertisement in the *Times* you positively state, GOUGH bought his bags off you, but now on your own sworn testimony lo! and behold you give this the lie, for you swear you did not sell GOUGH bags but that a certain farmer bought two dozen from you, who afterwards stated to you that he resold them to GOUGH or one of his Salesmen.

Which is correct? your oath or your advertisement? answer this, as both cannot be truth, and in either case you stand self-convicted.

The next point in your misleading oath is this, you swear that a certain party bought Clothing from GOUGH on conditions that he, GOUGH, would refund the money if the goods were not satisfactory, and that this said party afterwards returned the clothing to GOUGH and that GOUGH refused to refund the money, and kept both clothing and money. I deny this and I defy you to prove your friend's statement to be true and now that you have sworn by him, be a man and give his name and if I don't prove that it is as false as your oath is misleading I will donate $500 to any charitable institution in Peterborough.

Remember, your position is a mean one unless you produce evidence to back it. You have taken an oath full of insinuations only, which is cowardly, and if you cannot give the public more proof than mere hearsay, the people will not be slow to judge your oath and your motive. Besides if your friend will pass in his name and prove what you swear you believed to be true you will have a chance to take $500 more out of THE WONDERFUL CHEAP MAN, if he cannot prove that it is false.

One more word Mr. Sheppard and I am done with you. You state that you are worth over and above all Liabilities, $10,000 (wonder you did not swear this), well, it is an insinuation that I am not—you may be worth $10,000 I don't know, but one thing I do know the Mercantile Agency rates GOUGH to be worth twice as much money as you, and moreover in their July report they say Gough's credit is good, and they don't say this of yours.

Now, Mr. Sheppard, these little personal attacks are not business like, and had you not advertised what you positively knew to be false (your oath proves this) I would never have advertised that I could sell your clothing cheaper than you can buy it and make a profit out of it. But now that I have stated it I will stand by it or loose $500 or $1000. Do you accept or do you not, for this and this only will prove which, you or I, are in a position to sell Clothing the Cheapest.

Surely this is the right time and the right place for you to prove your "Back bone."

Now, Mr. Cheapsides I am done with you unless you accept my challenge, and in conclusion let me assure you the more you bring my business to its true light the better will I like it, for let me tell you since you came here my business has almost doubled, which proves that the people appreciate the man who put down the Prices of Clothing and continues to keep them down. It also proves my motto is square dealing, otherwise the people would not so liberally patronize as they do.

BASEBALL SATURDAY.

All the Scores—The Standing of the Three Leagues.

TORONTO, Sept. 19.

Ten thousand spectators shouted themselves hoarse over the result of the two games which Toronto won from Newark on Saturday afternoon, as the two victories of the home team lifted the Torontos from second to first place, and brought down the Newarks, who had, with the exception of one day, held the lead throughout the season, in a corresponding degree. Never in the history of the game in this city, or probably in any other, has there been such an enthusiastic gathering, which, although in sympathy with the home team, at the same time was cordially demonstrative towards the visitors. They received every bit of applause they deserved, and in the second game they earned a big share of the large crowd's approval by their fine work.

When the first game was called at 2 o'clock there were 9000 persons present, and 2000 more swelled this monster crowd by that number when the teams began the second. So big was the crowd that the field had to be encroached upon, a dense mass taking up positions in front of the grand stands and along the foul lines. It was a gathering that made glad the managerial heart of even such a hard loser as Manager Hackett, who was so busy looking after his interests at the gate that he was unable to get upon the field.

When the home team knocked Hughes' delivery all over the field and played without an error, and won the first game hastily, President E. S. Cox bottled himself in the blackboard, and there inscribed plainly this query: "Citizens, are you content? Toronto leads the league.'

In Brief, And To The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

What Salt is Good For.

For weeds in gravel walks or pavements, make a strong brine in sprinkling can and water to the weeds thoroughly, being careful not to let any of the brine get on the grass or it will kill it too.

Well Tested.

"I was nearly dead with cholera morbus, one bottle of Extract of Wild Strawberry cured me, and at another time I was so bad with summer complaint that I thought I would never get over it, when two bottles cured me." Mrs. E. Askett, Pell, Ont. 2w38d

I have been bothered with catarrh for about twenty years. I had lost my sense of smell entirely for the last fifteen years, and I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did. My sense of smell is partly restored; it seems to be improving all the time. I think there is nothing like Ely's Cream Balm for Catarrh.—Mrs. E. K. Grimes, Rendrill, Ohio. eodw38

Curious Find.

A women in Coweta county, Ga., picked a cabbage out of her garden the other day, and upon slicing it, preparatory for cooking found a bird's egg in the centre of it. Some bird had made a nest in the cabbage.

A Lucky Escape.

"For six years I suffered with my throat and enlarged tonsils. I was very weak; I doctored four years and had advice from three doctors; they said I would have to undergo an operation. I tried B.B.B. instead. One bottle cured me." M.A. Squelch, Raglan, Ont. 2w38d

DON'T COUGH.

But, seriously, do you Catch on? Well, the Great-and-only-Original-Terror to High-Priced-Clothiers, Wonderful-Forepaw dealer, in other words, teddy Cough (Now bring along the Babies, take the name and the gold Dollar, and be Happy.) has issued a Challenge. He has the war paint on, and terror and destruction will come to any of the Baby Clothiers of Peterboro' who will pretend to do business in opposition to this wonder of the 19th Century. He says he is TRUTHFUL! Well, let us see. He states positively that SHEPPARD is lying when he says that he got Bags from Peterboro's Great Cheapside. He also says that he never advertises that which he will not carry out to the letter. READ CAREFULLY THE FOLLOWING, and see the position it puts this oracle of truth in—Mr. Teddy Cough:

37 Vic. C. 37. D.

I, HENRY SHEPPARD, of the Town of Peterborough, in the County of Peterborough, do Solemnly Declare that on Saturday evening last past two young men came into my place of business and stated to me that they had one deal with Gough but never wanted another. One said "I purchased goods from Gough, (meaning I suppose the store) and he guaranteed me that he would refund me the money if I was not satis-"fied or words to that effect. I had witness to prove this. Afterwards I went back with the goods, stated that I was not satisfied and "wanted my money. He would not give it me. I told him I could make him return me the money if I wanted to, as I had witness. I did "not get the money, so Gough got the money and the clothing too, but, I have the experience."

On Wednesday, August, 31st, 1887, a responsible farmer came into my store and inspected my Grain Bags. He purchased two dozen bags of good quality, looking at the same time at the cheap bags selling at $1.75 per dozen, but, said he, would not buy them for his own use. About two hours after leaving my store he returned and said "I want two dozen of your cheap bags now" and stated that they were not for himself. He afterwards stated to me in the presence of a witness that he took the two dozen cheap bags in the store of one, Gough a Clothier on George Street, Peterborough, and was paid $3.50 for the same by the said Gough, or one of his salesmen.

And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the Act passed in the Thirty-seventh year of Her Majesty's reign, intituled "An Act for the suppression of voluntary and extra-judicial oaths."

HENRY SHEPPARD.

Declared before me at the Town of Peterborough, in the County of Peterborough, this 13th day of Sept., in the year of our Lord 1887.
E. A. PECK, A Commissioner, &c.

The above has the convincing ring of truth, seeing that in each case four reputable witnesses can be found to corroborate the above sworn statement, and, when it is necessary, more will follow. SHEPPARD has no desire to bring any man's business in such a light before the public. But the BACK-BONE talked about will never be found wanting in SHEPPARD, and just at the right time and place, Mr. Forepaw dealer may need his $500 or $1000 to prove his assertions.

So that, at the present moment, Peterboro's Great CHEAPSIDE will go on selling the Cheapest Clothing in Peterboro' though it raises the wool on this only Original Cough. SHEPPARD has no Brother-in-laws in Muskoka to sell goods to, neither has he relatives or any other person, who at any time endorsed his paper to the extent of one cent. He has, though his Stock is small, $10,000 in assets over liabilities, and just so long as this state of affairs exists he will pledge himself to the public to give entire satisfaction.

You can save money on any purchase. Sheppard has reduced Men's $10.00 Suits to $6.00. Men's $15.00 Suits to $10.00. Look out for Slashing Reductions in Men's and Boy's Clothing.

We desire to call special attention to their splendid Hot Water and Steam Boilers which are acknowledged to have no superior on the Continent of America. We have received orders from Ottawa and other places to remove other boilers with ours. This speaks for itself. McAndrew & Noble are prepared to back their own boilers against these or any other maker either in or out of Peterborough, and if not superior in every respect they will be removed without one cent of expense. We claim, and it has been acknowledged, that we have the best boiler for heating purposes in the world to-day; all we want is a fair test.

The painting is a good one throughout, and reflects credit not only upon the artist, but upon her instructors at the Union Art Gallery, Hunter street.

Threatening Fatality.

A terrible accident having a fatal ending, occurred on lot 30, con. 4, Hamilton Township, Friday evening. The victim was a fine young fellow in his twenty third year, Henry Francis Newton by name, the son of Mr. Francis Newton, a respected farmer. Young Newton, says the Port Hope *Times*, had mounted the machine, at the conclusion of the days thrashing, to sweep the scattered grain into the feed box. Missing his footing he dropped down into the cylinder. His iron teeth literally shaved the flesh from feet to thigh, to shreds. The machine was hastily stopped, and the poor young fellow carried to the house. There he rested in intense agony from one side of the sofa to the other. Physicians from Cobourg were sent for, but death relieved his sufferings at about half past ten o'clock that night. The ragged stump did not bleed much, the arteries having contracted. He complained most of the pain he felt in the knee of the leg that was gone. The sad calamity is a heavy blow to the young man's family, who have the sympathy of their friends.

Miss Tully, Mantle Cutter at Turnbull's, is now prepared to show all the new styles in Mantles. Orders executed promptly.

The Central Exhibition.

Mr. D. D. Gallelly, the stirring secretary of the Peterborough Central Exhibition, reports that the prospects of a splendid exhibition are excellent. At date there have been a large number entries as against none at the corresponding date last year. The directors are also full of activity, and are constantly arranging for new attractions, among which are *foot races* and *bicycle races* on one of the days of the exhibition. A challenge trot has all also been arranged between two horses, and this will also come off on one of the exhibition days. This, in addition to the racing for the Hotel Keepers' purse of $200, open to all horses, pacers included, will make the occasion lively and attractive. Additions are being made to the accommodation for stock and the privilege of keeping dining booths will be offered for sale by tender in a few days. Refreshment sellers will be charged at the rate of $1 per foot frontage for the stands they may occupy. The Secretary, Mr. D. D. Gallelly, will be pleased to furnish any information in his power to give.

Harvey Bridge.

The Harvey correspondent of the Bobcaygeon *Independent* says that the bridge across Crowley Narrows is being talked about by the South Harvey ratepayers, and they would like to see some action taken. Mr. Kelly is ready to go on with his undertaking of bridging the blind channel, as soon as the County commences. Could the Township Council hurry the matter a little? The County Engineer is taking soundings, and is preparing plans, and is said to have found the water across from the Ennismore town line shallower than he expected. The bridge would be an accommodation to the north side of the lake, making the shortest route and the safest, for the ice is always poor across the narrows.

Sermon to the Young.

Sunday evening in the Charlotte street church Rev. Mr. Tovell preached a special sermon to the young people. He chose for his text, Luke x, 42:—"But one thing is necessary, and Mary hath chosen that good part, which shall not be taken away from her." What was the one thing needful? It was religion. He carefully impressed upon his young hearers the necessity of religion early in life, and compared it to an apple divided into four quarters. The four parts of religion were a knowledge of Christ, which was love, then faith in Christ, then love for Christ, and last, obedience to Christ. The reverend speaker aptly illustrated each of these doctrines, making similies and comparisons which fully explained his meaning to his young hearers.

Expenses Compared.

To those who think that it costs a great deal to take a course of business training, we say, compare the expense of such a course with the expense of any other course you can mention, whether it be medical, law, theological, or professional of any kind, and see where the balance stands. Farther, compare the ultimate pecuniary prospects attending the professions with those of the qualified business man, and see where the balance stands. The expense of a business course is the merest drop in comparison with the ultimate gain therefrom. We say to all, prepare thoroughly for business, because of all knowledge, business knowledge pays the best. dw

Baptist Parsonage Burned.

Sunday afternoon, between three and four o'clock, the Baptist parsonage on the Bridge-north road, about four miles from town, at present occupied by Rev. Mr. Hough, was totally destroyed by fire. The blaze originated in the barn, where some boys had been smoking. Rev. Mr. Hough was absent from home at the time, but the inmates, with the assistance of the neighbors, succeeded in rescuing everything portable in the house before the flames reached it. The building was part brick and part strip. The homeless family and their household goods were taken to Mr. M. Sanderson's residence near by, where they found shelter.

Police Court.

MONDAY, Sept. 19.

Isaac Marcus, of the Simcoe street temperance house, pleaded guilty to a first offence against the Scott Act, and was fined $50 and costs.

THIRD OFFENCE CASES.

Mr. Wm. Snowden pleaded not guilty to a charge of selling liquor in his hotel between the 2nd and 14th of September. The information was laid as a third offence.

Mr. R. E. Wood appeared for the prosecution, and Mr. W. A. Stratton for the defence.

The witnesses, six or eight, nearly all stated that they had had nothing strong to drink in the hotel between the dates mentioned in the information. Some had water, others lemon soda, ginger ale, etc., but none of them even saw any intoxicating liquor there. One witness said he had often seen liquor refused. The bartender swore that nothing intoxicating had been sold or kept in the bar between the dates named and for a long time before. He had given liquor away in another part of the house as a treat to friends. He said he received strict instructions from Mr. Snowden to not sell anything intoxicating. Mr. Snowden gave evidence to the same effect. The last witness, who worked on the building just across the road from the hotel, stated that he got some mixture from the bartender, composed, he thought, of flour and brandy. It was thick, and he would have preferred to sup it with a spoon instead of drinking it. He took it as a medicine, being sick at the time.

The case was dismissed.

ANOTHER.

Mr. J. E. McIntyre was next called upon to answer to a charge of violating the Scott Act a third time. He pleaded not guilty. Mr. J. O'Meara appeared for the defendant. The same routine of questions and answers was gone through with, not one tittle of evidence being secured against the defendant. No liquor had been sold in the bar since the date of the information and for long before, the bar having been cleared and all intoxicants removed to the cellar, where it was kept under lock and key. One of the witnesses stated that he had got a bottle of ale in the cellar but had not paid for it. Others said they were treated by friends at their rooms in the hotel, but it had not been paid for.

Mr. O'Meara appeared for the defence.

The police magistrate stated that he did not know where the Inspector had got his information, as the evidence adduced disclosed no grounds for bringing the complaints, and he dismissed the cases.

Inspector Cochrane was the complainant in all the cases.

THE INSPECTOR INTERVIEWED.

After the adjournment of the court, the following conversation took place between our Reporter and the Inspector:—

REP.—Well, Mr. Cochrane, the magistrate seems to think you had no evidence?

INSPECTOR.—I received my information in the usual way and had no reason to doubt that it would result in conviction. I have no means of finding out what witnesses can prove, and have to take the chances on the witnesses turning out good ones in the way of securing convictions.

REPORTER.—It is quite [illegible] that liquor has not been sold in these places.

INSPECTOR.—Well, I've four [illegible] five more cases to-morrow. There are a good many drunks about and the liquor must be sold by somebody.

REP.—Who are up to-morrow?

INSP.—Cavanagh, Croft, Kennedy and Morgan.

REP.—Have you pretty good grounds for expecting convictions?

INSP.—I don't know what the result may be, but I am trying to do my duty, and if unsuccessful in these cases, it at least shows that liquor is not at present being sold—and I propose to keep on doing my duty to the best of my knowledge, no matter what remarks may be made. Last year between the 5th and 8th of August there were eight cases dismissed for want of evidence, and between the 5th and 8th five cases, and you must remember that if it had not been for enlargements five would have been dismissed in one day. These were all first offences, and comparatively easy to prove.

REP.—The P.M. rather sat on you for not getting convictions?

INSPECTOR.—My business is to prove the convictions if I possibly can, and it strikes me that the magistrate's duty is to decide upon the evidence submitted. I find I can't please everybody, but I have my duty to perform and I am going to do it the best I can.

REP.—What is the next—?

INSPECTOR.—Excuse me, I can't attend to any more questions at present; I'm busy.

Personal.

Mr. Albert Dawson, of Winnipeg, Man., a revisiting his old home here.

Mr. John Wells, of Winnipeg, Man., is visiting friends in town.

Mr. J. S. Parker, F.S.Sc., London, Eng., and organist of St. Paul's Church, has been engaged as solo organist at a sacred concert, to take place in the Church of the Ascension, Toronto, on October 5th.

Mr. Wm. Helm, of Gananoque, formerly of Peterborough, gave the EXAMINER a call to-day. Mr. Helm is in town on a visit to friends, and will remain a few days. He is looking well and is kept pleasantly busy shaking hands with old associates.

A Runaway.

Mr. David White's meat express came to grief on Aylmer street this morning. The horse drawing it got the bit between its teeth and ran away. The driver, a lad named Hetherington, hung on to the reins tenaciously, and would likely have soon brought the runaway down, but for the breaking of one of the shafts, the broken stump of which caught in the crossing at Hunter street and jerked the vehicle right away from the horse. The animal's career was terminated on Simcoe street. The damage done was slight.

Amateur Sprinting.

The directors of the Central Exhibition, ever alive to the desirability of making the exhibition as attractive in every department as possible, have put up a handsome medal for competition between two local athletes, Messrs. M. Bird and D. Millar. Mr. Bird is a fine long distance runner, while of Mr. Millar it may be said that he is one of the best amateur sprinters in the province. The race is 100 yards, and to make the match more equal, by giving Bird's staying powers a good chance, it is to be run in heats, best two in three. The race will be run on the grounds on one of the exhibition days.

A Fright.

A trunk fell off the front of a hack *en route* for the station this morning, at the Bank of Montreal, and the horses shied violently to the left and nearly upset the vehicle. The four ladies inside were greatly frightened and scrambled out in a hurry, and started for another hack, but were persuaded to return to their first hire. The rest of the journey was finished in safety.

Turnbull has imported a heavy stock of Winter Millinery. Don't fail to see them.

"Smart Alecks."

To the Editor of the Examiner:—

DEAR SIR,—

The above is not an elegant term but it is expressive. It is taken to mean a person who thinks himself sharper and cleverer than he really is. It applies with special pertinence to some young men whose easily satisfied intellects take delight in such low game of an innocent young man about town named Morgan, whom they make the butt of their childish jokes. Sunday several young men had this downy youth running last room against time on George street, desecrating the Sabbath day in a shameful manner. It is very obliging in the athletic pest to come down to the level of his friends and furnish them with amusement, but running foot races on Sunday in a public street is carrying tomfoolery altogether too far. These same young men would think twice before trying to impose upon any person having brains enough to see their game, muscle enough to resent, and with friends to see fair play. It is a combination of cowardice and low cunning to take advantage of the weak, either in body or mind.

CITIZEN.

Corns in Horses' Feet.

We are indebted to Dr. Wm. M. Giles for the following article:

Corns are bruises of the sensitive sole in the angle between the posterior part of the quarter and the bars, and mostly occurring on the inside of the fore foot.

The hind feet owe their immunity to the peculiar strength of the heels and to their sustaining less weight. Two sorts of feet are especially liable to corns. Those with deep slanting heels, which become doubled up between the shoe and the sole, and those that have wide, flat soles and low, weak heels, on which the pressure causing the bruises comes from above.

From continuance of pressure the interior villous sensitive surface is bruised, and inflamed serum and blood are poured out. The corn by-and-by becomes soft and discolored and the parts weakened from the continual application of the exciting cause, continue to secrete unhealthy horn even after the cause o' the injury has been removed.

Lameness is most obvious in trotting upon a hard road. The lame leg is brought as much under the body as possible, thus throwing the weight on the outside heel. The shoe is mostly worn out on the outside. The animal generally stands with the limb bent and the heel raised somewhat in the same way as in grogginess. Corns, although constituting unsoundness do not, in well formed feet, materially reduce an animal's value, for by careful shoeing, they may be got rid of gradually.

Treatment.—Pare out carefully the seat of the corn, removing all reddened and diseased horn; reduce the crust of the quarter slightly where it is unduly strong, but leave the bars and frog untouched.

These must be preserved, especially in weak feet, to afford a wide bearing for the bar shoe that should afterwards be used.

Raise the animal's hoof and see that it is absolutely clean and dry; pour on the sole GILES LODIDE AMMONIA LINIMENT gradually, allowing the hoof to absorb all it will take up; also take a piece of oakum saturated with the liniment in the cavity from which the corn has been removed.

If this method is pursued the corns will disappear.

Twelve Days' Mission.

On Wednesday next the Rev. E. P. Crawford, Rector of Trinity Church, Brockville, will begin holding a twelve days' Mission at St. Luke's Church, Ashburnham. Mr. Crawford is anxious to meet all those interested in the Mission on Tuesday next, especially those desirous of working and aiding the objects had in view. He will meet them at 7:30 p.m., when the Rector will formally hand over the parish to the care of the Missioner. The Mission services proper will begin on Wednesday, September the 21st. There will be four services daily, viz.: Holy Communion at 7.30 a.m., morning prayer at 10 a.m., evening prayer and instruction at 4.30, and the Mission service and sermon at 8 o'clock. All are invited.

A DESPERADO AT THE SOO.

A Prisoner Whose Capture Taxed the Strength of the Police Force.

ISHPEMING, Mich., Sept. 17.—Billy McLean, pugilist and desperado, broke jail at St. Ignace on Sept. 2. A reward of $250 was offered for his capture. He fled to Cooks Mills and from there escaped to Canada, at Sault Ste. Marie, by a row boat this week. Last night he visited a saloon at the American Sault and was met by Sheriff McKenzie, who attempted to arrest him. The sheriff was badly cut and kicked. Officers Fricker and Ellis came to his assistance, and after a desperate struggle McLean was jailed at midnight. Before morning he broke his handcuffs, broke the iron ventilator pipe in the cell and dug out of jail. He was captured again by a party and heavily ironed. His resistance was desperate and the Sault Ste. Marie police force and the sheriff are incapacitated from duty. McLean is to be taken to St. Ignace in irons for trial.

A $20,000 Package Missing.

ST. PAUL, Sept. 17.—A telegram received in St. Paul from Duluth this afternoon states that a package of money containing $20,000 has mysteriously disappeared from the Union National Bank of that city. The officers are very reticent about the matter and very little has yet come to light. One of the directors of the bank who resides in this city received a telegram this morning in regard to the matter and he sent a detective to meet the *Duluth limited*, which he met at Centerville. The train was held and looked over and one or two persons searched, but the person suspected of the robbery was not discovered.

A Brilliant Affair.

QUEBEC, Sept. 17.—The ball given by Admiral Vignes and officers on board La Minerve last night was a brilliant success. Over 400 guests were present. The dancing was kept up till the wee sma' hours. The vessel was beautifully decorated.

BETTER TO WHISTLE THAN WHINE.

It went a little hard, during our recent Great Clearing Sale, to allow such elegant Goods go off at the Sacrificing Prices which they did. But we had to make room for our Fall importations; so, Out They Went!—"bag and baggage!"—and we have good reason to believe that 'tis Better to Whistle than Whine.

Our Fall Goods are now Coming in without interruption, and consist of the Choicest Selections of CLOTHS, from all Countries, ever yet displayed in Peterborough.

A CONSTABLE'S ACCOUNT.

THE POLICE USED BUCKSHOT AT THE MITCHELLSTOWN RIOT.

They Were Sorely Pressed and Acted in Self-Defence—Mr. Harrington Anticipates the Verdict of the Jury at the Inquest on the Victims.

DUBLIN, Sept. 19.—At Mitchellstown today the coroner resumed the inquest over the bodies of those slain during the recent conflict between the police and the people.

Sergt. Kerwan of the constabulary deposed that buckshot was fired from the barrack windows solely to defend the policemen, who were then running to endeavor to get into the barracks to escape the stones which were all the time coming thick and fast upon them. When the police reached the barrack door they could not get in, the door being blocked. He then ordered the firing, seeing that his own and the lives of the constables were endangered. Since he became a policeman his life was never in more danger. After two rounds of buckshot had been fired there was one round of ball cartridge fired. He was sure that the shots struck somebody.

Timothy Harrington, M.P., Secretary of the Irish National League, in the course of the examination denounced the witness as a murderer.

The Crown Counsel protested against the use of such language, and Mr. Harrington answered: "The jury will also call him a murderer."

Taken by Surprise.

DUBLIN, Sept. 19.—The sheriff and a party of police sailed in the yacht Shandon and surprised Lord Clanricarde's tenant, who occupied Cloudegoff Castle, and evicted him instantly. After the eviction the castle was barricaded and twenty men were left to defend it. When the news of the arrival of the sheriff spread 3000 persons gathered to resist service of the writ, but they were too late to prevent Burke from being evicted.

They Will Probably Retire.

LONDON, Sept. 19.—The Northumberland Mines Mutual Association, comprising 12,000 members, has decided by a large majority to discontinue its support of Thomas Burt, Radical member of Parliament for Morpeth, and Charles Fenwick, Liberal member for the Wansbeck division of Northumberland. Both gentlemen will probably retire.

Cigarmakers' Convention.

BINGHAMTON, N.Y., Sept. 19.—The seventeenth annual convention of the Cigarmakers' International Union of America opened here to-day for a ten days' session. There are 139 delegates present.

Mgr. Persico Pleased.

CORK, Sept. 15.—The Mayor and municipal authorities of Cork to-day presented an address to Mgr. Persico, the Papal Envoy. Alderman Dale, on behalf of the Protestants, read a resolution expressive of a desire to join the Catholics in welcoming Mgr. Persico. The latter replied that he was much pleased and he was sure the Pope would also be pleased at the evidence of such good feelings between people of different religious beliefs.

Perhaps They Had Their Guns With Them.

DUBLIN, Sept. 19.—When the police took their usual seats in Aylesbord Chapel, near Mitchellstown, on Sunday all the other people present left the building.

Chamberlain to Speak in London.

LONDON, Sept. 19.—Mr. Chamberlain informs an inquirer that he is not in favor of any alteration of the law of Protestant succession to the throne. Mr. Chamberlain will deliver an address in London in support of his brother on Oct. 25.

The Emperor and the Czar.

BERLIN, Sept. 19.—The Emperor William will attend the manoeuvres of the Guards near Grenzee to-morrow. It is his intention to be in Baden on Sept. 26 in order to be present at the birthday anniversary ceremonies in honor of the Empress, and which are appointed for Sept. 28.

The Czar will remain at Copenhagen until Oct. 20. The King of Sweden will soon also visit the Danish Court and make a prolonged stay. According to reports the Czar will meet the Emperor of Germany during the visit of the King of Sweden to the Danish Court.

A MIGRATION OF INDIANS.

LED BY A MISSIONARY, SEVENTY FAMILIES GO TO ALASKA.

Two Toronto Firms Successful in Tendering for Government Work—The Date of Sir Charles Tupper's Departure from England.

OTTAWA, Sept. 19.—Information has been received by the Indian Department with reference to the emigration of a portion of the Metlakahtla Indians from British Columbia to Alaska, under the leadership of Rev. Mr. Duncan, which is the outcome of that gentleman's quarrel with his bishop and the Church Missionary Society. About seventy families, comprising nearly 300 persons, have gone with Mr. Duncan, but all of the chiefs and a large portion of the tribe remain at Metlakahtla. A new village is being built in Alaska, many of the houses in Metlakahtla having been taken down and carried away. Mr. Duncan has been made a Justice of the Peace by the Governor of Alaska, and the new village is to have a postoffice.

Sir Hector Langevin left for Quebec this morning to be absent about a week.

Two Toronto firms have been successful in their tenders to the Department of Public Works for heating apparatus for the Custom House and Infantry School, London, Mr. W. J. Burroughs having secured the contract for the former and Messrs. McGuire & Bird that for the latter. In each case the contract was awarded to the lowest tender.

The date of Sir Charles Tupper's departure from England is understood to be Sept. 27, which is about one week earlier than he expected when he left Canada.

Hon. Mackenzie Bowell, who has been spending the summer in the old country, will probably leave for home about the same time.

The memorial prepared by the Minister of Fisheries setting forth the facts in connection with the seizure of vessels in the Behring Sea by the United States authorities has been forwarded to the Imperial Government. It has reference to the Adams and other vessels seized last year but not yet released so far as the Canadian Government are aware, although ordered to by Secretary Bayard.

It is understood that the embargo reported to have been placed upon Nova Scotia cattle by the Washington authorities in consequence of the alleged existence of disease among Pictou cattle has very much interfered with traffic. The Canadian Government are, it is said, in communication with the American Government, and as no infectious disease exists in the territory of the Bluenoses the embargo will probably be raised at once.

A Halifax dispatch published yesterday intimated that the American barge Bridgewater, recently seized at Shelburne, N.S., was released by the Ottawa Customs authorities unconditionally. This is misleading. She was released on condition of immediately taking clearance for a foreign port and on payment of the expenses incurred in her detention. She was under repair and her owners desired to get a Canadian register without paying the usual duty. This could not be acceded to, and she is obliged to sail, as has already been stated, to a foreign port without a Canadian register.

A number of kerosene barrels sent over the Intercolonial Railway have been seized en route for Petrolia, Ont., at Moncton in consequence of the inspection marks not being removed therefrom, as required by law. It is very desirable that all parties dealing in these articles should bear in mind that so soon as the oil has passed into consumption all marks should be erased from the barrels, otherwise these same barrels might be used by skippers and importers and refilled with oil, which would pass under the old inspection mark without payment of duty.

GALE SWEPT NEWFOUNDLAND.

The Loss Along the Coast by Saturday's Storm Will Be Heavy.

ST. JOHNS, Nfld., Sept. 19.—A gale from the northeast on Saturday night caused considerable damage at Portugal Cove. At Placentia several crafts were driven out to sea and have not been heard from. Grave fears are entertained for their safety. Bonavesta presents a dreadful scene. Wreckage, timber, masts, punts and debris are strewn indiscriminately about the streets. Twenty fishing vessels were driven ashore and seven sunk at their moorings. The loss will be very heavy.

A MEXICAN DUEL.

A Government Official Receives a Bullet in the Breast.

CITY OF MEXICO, Sept. 19.—Military and political circles are greatly excited to-day over the result of a duel which took place this morning in one of the barracks in this city. The principals were Gen. Rocha and Antonio Gayon, chief of one of the bureaus in the War Department. The trouble grew out of a controversy over the question of Lopez's conduct at Querreteras and his relations to the Emperor Maximillian. Some time ago Senor Gayon, who was one of the officers in the Imperial army under Maximillian, wrote a letter which was published, denouncing Lopez as a traitor and asserting that Lopez's conduct was well understood among the officers of Maximilan's forces. General Rocha replied in The El Combat newspaper, saying that some men were traitors to the chief and others to their country, but that it did not prevent their taking office under the new regime.

Senor Gayon, who is a very brave man, challenged Gen. Rocha, naming as his seconds Gen. Pradilla, at present Governor of the Palace, and Justino Ferander, a celebrated lawyer in this city. Gen. Rocha selected for his seconds Gen. Naranjo and Col. Omana.

At the first shot exchanged Gayon's right breast was pierced by a bullet. He asked if the duel could not go on, but this his seconds would not allow. This afternoon Senor Gayon lies in a critical condition and is reported to be dying. He is a man of about 60 years of age and Gen. Rocha is ten years younger. Gen. Rocha was a conspicuous figure in the war against the empire.

How to Grow Plump.

The famous Mr. Banting, who reduced his weight by more than fifty pounds in one year, found that sugar was the most fattening thing that he could eat. Hence, to increase your weight, eat cakes, pudding, syrup, honey, candy and pastry, always taking care that it be crisp and digestible, for indigestible food is a chief cause of leanness. New England pie-crust is probably responsible for the appearance of the typical gaunt Yankee. Other fattening articles of food are tenderlamb, salmon and eels, milk and cream, corn bread and butter, and those vegetables which grow underground and of which sugar is made—beets, turnips, etc. Boiled or baked potatoes, mashed on the plate and seasoned with salt and fresh butter, make a delicious dish, rapidly fattening. Eat often and very slowly, for it is not the quantity eaten but the amount that is thoroughly digested that nourishes the system and rounds the bodily contour.

Parent Gets Five Years.

MONTREAL, Sept. 19.—A. D. Parent, defaulting cashier of the Hochelaga Bank, was to-day sentenced to five years' imprisonment in the penitentiary.

TOM JONES DISCHARGED.

Because No One Could Swear That It was He Who Shot Buckley.

TORONTO, Sept. 20.

Tom Buckley, pale and weak, with a bullet still in his breast somewhere, and Tom Jones, his pal, who was charged with having attempted to kill him in the house of "Paddy Rats," 62 Adelaide-street west, early on the morning of Aug. 3, stood in the Police Court dock together yesterday morning. Jones, of course, was there to stand his trial, and elected to be tried by a jury, while Buckley was there as a material witness, having been arrested upon his release from the hospital.

But the case collapsed. Buckley swore that when he opened the door that morning his eyes were so swollen after a fight the night before that he only saw the figure of a man who shot him and then ran away. He would not swear that it was Jones. George McCollum and his wife, the ragpickers who live at the rear and who saw a man climb the steps and fire a shot at Buckley, were unable to identify Jones as the man, much to the chagrin and surprise of the Crown officers who fully expected that they would. The Crown had no stronger evidence to produce, and the Magistrate saying that there was nothing upon which to base a committal for trial set the prisoner at liberty. The McCollums, who said in the box that they did not know Jones, shook hands with him and the three started out of the court together.

The Indian Premier's New Friends.

ST. PETERSBURG, Sept. 17.—The Moscow Gazette openly avows sympathy with Dhuleep Singh, the Maharajah, and his claim to succeed his father as Rajah of the Punjaub, and says: "The people of India believe that Russia will sooner or later free them from the British yoke."

A Gathering of Oddfellows at Denver.

DENVER, Col., Sept. 17.—The delegates to the Sovereign Grand Lodge, I.O.O.F., which meets here next week, are already arriving. Over a thousand reached here last evening and this morning. The session opens on Monday morning. It is anticipated that 12,000 delegates will be present.

A Garnishee Order Refused.

OTTAWA, Sept. 19.—In chambers this morning Judge Lyon dismissed without costs the application of the Canada Paper Company of Montreal for a garnishee of the book debts of The Citizen Printing and Publishing Company, on the ground that the evidence proffered in support of the demand was not sufficient to warrant the granting of the order.

The Provincial Exhibition.

OTTAWA, Sept. 19.—The forty-second Provincial Exhibition opened here to-day. Exhibits are still pouring in, and the directors feel confident that success will crown their labors. The entries in many classes are not as large as would be desired. Cheap excursions are being run to the city.

One of Them Accounted For.

KINGSTON, Sept. 19.—The body of the man found floating near Oswego some time since turns out to be that of Kelly, the engineer, and one of the convicts who escaped from the penitentiary on the yacht Juno. He was identified by the clothing, which was sent to the penitentiary by the coroner.

The Results of Boodle Rule.

CHICAGO, Sept. 19.—County Commissioner Sinne has prepared an exhibit of the finances of Clark County, showing that, as a result of the course of the boodle board, the county is to-day saddled with liabilities aggregating $1,078,005, while the resources foot up only $121,885.

In a State of Siege.

MADRID, Sept. 19.—Capt., General Torrero publishes an edict in The Manila Gazette declaring the Caroline and Pelee Islands in a state of siege, owing to the manifestation of rebellion on the part of the natives.

Eight Men Killed.

LONDON, Sept. 19.—Eight men were killed by a boiler explosion on board the West Indian steamer Elbe during a trial trip in Stokes' Bay to-day.

CABLE ITEMS.

Twenty-five Socialists have been arrested at Breslau.

The Duke of Devonshire denies that he has been converted to the Irish policy of Mr. Gladstone.

The Independence Belge says Prince Napoleon will issue a manifesto in reply to that of the Count of Paris.

The Staats Berger Zeitung of Berlin asserts that the Emperor William and the Czar will meet next Tuesday at Swinemunde.

Five persons were drowned in Lake Geneva yesterday by a collision between the boat they were in and the steamer Lemea.

Gen. John Feathergill of the Spanish Army died in Africa a short time ago, leaving a fortune of $1,000,000 to heirs in the United States.

Maurice Bernhardt in a duel at Paris yesterday severely wounded an antagonist named Aleits who had written an article reflecting on M'dlle Bernhardt.

The Rev. Dr. Bernard O'Reilly of New York, who is staying at Glengariffe, Ireland, to-day received the appointment of Domestic Prelate of the Pope.

Omaschimoff, the free Cossack who was sent as a missionary to Abyssinia in 1858, is organizing a new mission, with funds raised by voluntary subscription.

BUSH FIRES NEAR OTTAWA.

The Outlying Portions of the City in Danger of Destruction.

OTTAWA, Sept. 19.—Bush fires are raging in several sections in this vicinity, and some of them are getting near enough to put the outlying portions of the city in danger. A fire which has been raging in the bush around Hintonburgh, one of the western suburbs, got very nearly to the city limits to-day, and only a fortunate change of wind prevented it spreading to McCormack's flour mill and other buildings. It has been somewhat checked, but is still dangerous.

A bush fire broke out this afternoon in Stewart's bush, opposite the Exhibition Grounds, and the buildings there were believed for a while to be in danger. The city fire brigade was called out and the fire got under control.

Mr. Logh and the Brigands.

LONDON, Sept. 19.—Thomas W. Logh, member of Parliament for Lancashire, while shooting in the mountains near Sofia, was captured by a party of brigands. Mr. Logh informed his captors that he was a servant, that he had no valuables, and there was no chance of securing a ransom for him. The brigands then released him. He has reached Sofia.

Cholera in Italy.

ROME, Sept. 18.—The cholera returns for to-day show 14 new cases and 6 deaths in Catania, 46 new cases and 16 deaths in Naples, 4 new cases and 3 deaths in Palermo and 80 new cases and 21 deaths in Messina.

The Chinese Banking Scheme.

LONDON, Sept. 19.—The Standard's correspondent at Shanghai says the American-Chinese bank syndicate has accepted Li Hung Chang's conditions. An American official will depart for China immediately to complete arrangements. The bank will probably be started in Shanghai and Tien-Tsin, and branches will be opened in Philadelphia and London in the spring.

TORONTO TOPICS.

Toronto Yacht Club's Caretaker Drowned—An Alleged Shamrock—Other Items.

TORONTO, Sept. 20.

The greater part of the day in the Assize yesterday was occupied in the hearing of the suit of Mrs. Annie Done, wife of Wm. Done of this city, against the Grand Trunk Railway Company for a broken ankle sustained by a fall in getting off the step of a car in the Bonaventure Station, Montreal. The lady claimed $5000, and the jury, being satisfied that the accident was due to the negligence of the company, awarded her $300.

Mr. Dodwell Brown, a book-keeper and collector well known in Toronto, and who was seriously injured by a runaway horse and buggy at Queen and Yonge streets last Friday morning, died at his home, 81 Seaton-street, yesterday afternoon. By the accident he had two ribs broken and a shoulder badly dislocated, and the shock was so severe that he gradually failed till death ceased. He was about 39 years of age.

Thomas Gateeby, the caretaker of the Toronto Yacht Club, was found drowned in the Bay yesterday afternoon. He was a single man, 34 years of age, and hailed from the Old Country. On Sunday evening he went to church, and on returning went upstairs and changed his coat, donning the jacket he generally wore when in his boat. He apparently had written a letter after leaving church, as it was found on the bed unfolded. It was an ordinary letter to his father in England. It is supposed that after untying the dingey he missed his footing and fell into the water. The dingey was found a good distance out in the Bay yesterday morning, but it was not till 5 o'clock in the afternoon that Esplanade Constable Williams found the body ten feet from the club's dock on the east side. It was taken into the club house and Coroner Johnson was notified of the facts. It was not deemed necessary to hold an inquest. Gateeby was much respected by the members of the club, who deplore his untimely end.

There are at present under treatment in the hospital 228 patients—the largest number on record since the establishment of the institution. There is a number of cases of typhoid fever, but the contagious wards are not overcrowded.

A plasterer named John Rutherford, aged 45, was admitted to the Hospital yesterday suffering from fracture of the ankles, sustained by a fall from a house at which he was working on Little York. The man fell from a distance of twenty-five feet, and fortunately landed on his feet, but so severe was the collision with mother earth that the ankles of both feet were knocked out of joint and seriously fractured. Another man who was working on the scaffold with Rutherford escaped with a serious shaking and a few nasty skin abrasions.

When Wm. Eldridge stood up in the dock in the Police Court yesterday his wife stepped into the witness box and said that he and his son earned plenty of money one week and went on a drunk together the next. They both abused her and the husband had given her a black eye. She wanted a separation, and as her husband did not object, the magistrate granted the application, and also sent Eldridge to jail for fifteen days. He is a first-class tenpointer.

A Transcontinental Train's Quick Time.

From The New York Sun, Sept. 15.

Seventeen cars loaded with tea, silk and firecrackers from China, via Vancouver, B.C., arrived in New York at 12 o'clock noon yesterday. The way bills and cards on the cars show that the freight left Vancouver Sept. 2, making the long journey from ocean to ocean in about ten days. The old lines were astonished, as sixteen days has heretofore been considered very fast time. The new line is composed of the Canadian Pacific, Rome, Watertown and Ogdensburg and the New York, Ontario and Western Railways.

Boston's Celebration.

BOSTON, Sept. 18.—To-day the 257th anniversary of the settlement of Boston and the centennial anniversary of the close of the revolutionary war, was observed here by the raising of flags on all the public buildings of the city, while bells were rung at morning, noon and sunset.

A RIOT AT LILLIE BRIDGE.

Two Sprinters Fail to Sprint, and the Crowd Wrecks the Buildings.

LONDON, Sept. 19.—Neither Gent nor Hutchens, who were extensively advertised to run a 120 yard's foot race at Lillie Bridge today for the championship of the world and $250, appeared on the track at all. Thousands of spectators had assembled and paid to witness the announced contest. When the crowd was made aware of the situation it was disgusted and soon took revenge in riot. They attacked the fences, railings and buildings on the grounds and burned several of the latter to the ground.

The mob partly demolished two grand stands, the dancing pavilion and the large assembly hall and set fire to the debris they collected, forming six large bonfires. They then set fire to the wooden railings along the railway, and nearly set fire to the Brompton station. They next looted the liquor saloons in the vicinity, and bombarded the windows and the policemen and firemen with full and empty bottles. The firemen played the hose upon the rioters, but in vain. After holding possession for three hours the mob was dispersed, when the police, strongly reinforced, arrested a number of the rioters. A railroad inspector, after the struggle with the mob, dropped dead from the effects of the excitement. The damage is enormous.

Both Gent and Hutchens had appeared on the track in splendid condition. It has transpired that Gent failed at a private trial this morning and that his backers at the last moment forbade his running, giving Hutchens the stakes. The owners of the grounds refused to return the entrance money, and the people were doubly enraged. Many of the people were from the provinces.

The majority of the buildings on the grounds were either partially or wholly demolished. Four constables were severely wounded. Three of the rioters were arrested, including one of the ringleaders.

TEXAS FEVER IN CATTLE.

Pennsylvania Authorities Being Their Utmost to Arrest the Disease.

PITTSBURG, Sept. 17.—Texas fever, one of the most destructive of diseases among cattle, has broken out to such an extent all over the State that the State authorities have taken the matter in charge and are working hard to prevent its further spread. Two weeks ago Anthony Roll, a butcher living near Natrona, bought 32 head of cattle from a man named Brennan, who had purchased them at the East End stock yards. The cattle seemed to be in excellent condition. Mr. Roll killed twenty of them and sold the meat. The remainder he turned into a field. On Monday of this week when he went to the field one of his biggest steers was dead, on Tuesday another dead, and on Tuesday night seven more were dead. An examination of the dead animals this morning developed beyond a doubt the fact that Texas fever is what killed them. The remainder of the herd were in an apparently healthy condition, but the State agent ordered them killed.

A BIG BLAZE AT NEWBURY.

The Town Hall and a Number of Stores and Dwellings Consumed.

NEWBURY, Ont., Sept. 15.—A fire broke out in the dwelling of Mr. Wm. Brown, at 1.45 this afternoon. The wind being very high at the time it soon spread and soon the town hall was in flames. It continued to spread till Mr. Kelly's store and dwelling, Mr. Mitchell's store and dwelling, Mrs. Smith's dwelling, Mr. Gupby's dwelling, store and stable, Mr. Robinson's store and dwelling, also four other buildings were consumed. The Bothwell firemen responded very promptly to a call but could do very little on account of the scarcity of water. Every effort was made to save the property. The loss will be heavy though partly covered by insurance.

SELECTING HIS SEAT.

Hon. E. Blake has decided to sit for West Durham, and has therefore resigned the seat in West Bruce, one of the two seats to which he was elected in February last. Hon. Mr. Blake is not the man to hold on to two seats any longer than he can avoid doing so. He would have resigned West Bruce long since had it not been for the tactics of his Tory opponents. A vexatious petition was entered for the voiding of his election in West Durham. While either of the two seats to which a representative may have been elected is attacked, a member, it is held, cannot resign either. But the moment the petition against the West Durham seat was withdrawn, because, as the petitioners knew before it was entered, there was no evidence of corrupt acts, Hon. Mr. Blake at once resigned his West Bruce seat, addressing the following letter to the electors of that riding:—

In view of the doubts expressed as to my right to resign West Bruce, pending the West Durham protest, I thought it best to waive my own opinion and to defer action. The protest having been pressed to a conclusion, it is proper to arrange at the earliest moment for the separate representation of each Riding. Three times I have been honored by a double election. On both the former occasions the general interest seemed to point to my choosing Bruce, and I gave up Durham. At this time it seemed for the general interest that I should choose Durham, and I now give up Bruce. While thus returning into your hands your high trust, I can only renew the expression of my grateful thanks for your signal mark of esteem; and assure you that I shall ever feel myself bound to you by the closest ties, and anxious to promote your true interests. I indulge the hope that at some future day I may be permitted to express to you in person my sense of your kindness. Your obedient servant,

EDWARD BLAKE.

The writ for a new election has been issued. At the last general election Sir John was fortunate enough to be elected for both Carleton and Kingston. He cannot resign either for his right to represent Kingston was petitioned against but the petition being a *bona fide* one, has not been withdrawn but will be carried to the courts and it is said that the evidence of corrupt acts to be adduced will be strong enough to warrant the voiding of the election. Sir John in that event will be saved the trouble of making a selection.

THE condemned Chicago Anarchists, the supreme court of Illinois having decided against them, have determined to appeal to the supreme court of the United States. But it is not probable that the application will be granted. The Federal Supreme Court has no jurisdiction over state matters, except under certain conditions, and these are absent in the cases of the condemned anarchists. It is probable, therefore, that the death sentence will be executed on November 11th. However, as the politicians are looking ahead to the coming presidental election, it is difficult to foresee what ropes, other than the hangman's will be pulled in the interest of the condemned rascals. It is a serious thing to offend the foreign element in the United States with an election contest pending. A very slight thing will upset the calculations. In the last presidental election Parson Burchard's sonorous, alliterative "Rum, Romanism and Rebellion," converted the Republican cake into dough. And the hanging of the unwashed villains, who threw bombs among peace-keeping citizens, may alienate enough of the restive foreign element to turn the scale.

ONE little sample will serve to show show the present government squanders the public funds to promote political ends. At the last Dominion general election a soft seat was wanted for Prof. Richard Chapman Weldon, B.A., Ph. D., in the Government interest. Mr. Wallace, ex-M.P. for Albert, New Brunswick, obligingly stepped aside—for a consideration—and Prof. Weldon got his seat. Mr. Wallace's self-sacrifice has met its reward. He has been given the collectorship of Hillsborough, N.B., at a salary of $1000 per year. To secure him this place the incumbent, a Mr. Stevens, who performed the duties at $600, was removed to another customs office at $700 a year. Thus it is seen that $800 a year is taken clean out of the people's pockets to reward a political supporter of the Government, who is willing to take a back seat—well cushioned with bank notes. This is not a whit different, only in the way of doing it, from the government settling a life annuity of $500 on Mr. Wallace in consideration of his resigning his seat for a more useful supporter; and one certain to carry a doubtful riding. Is it any wonder that our debt is increasing by "leaps and bounds"?

COLLISION ON THE C. M. & ST. P.

Two Engineers, One Fireman and a Brakeman Killed.

DUBUQUE, Ia., Sept. 19.—The most disastrous and fatal railroad accident that has occurred in this vicinity for years took place this morning at 7.05 on the Chicago, Milwaukee and St. Paul Railroad, two miles north of Dubuque. Two passenger trains collided on the curve around Eagle Point by which the two engineers and one fireman were instantly killed. The other fireman and a brakeman died during the forenoon. All lived in Dubuque. John Pernity of Milwaukee, brakeman on the northbound train, was among the killed. J. J. O'Brien, express messenger, and one of the postal clerks were badly shaken up, but not seriously hurt. None of the passengers were injured beyond a few bruises. The two engines were badly wrecked.

A Wreck on the Pittsburg and Fort Wayne.

CINCINNATI, Sept. 19.—This morning at 4 o'clock a collision occurred near Forest on the Pittsburg, Fort Wayne and Chicago Railroad, which resulted in a frightful disaster. The first engine of a freight train broke down and the second section collided with it, instantly killing John Burch, fireman of the second section. There were several cars of oil in the second section and they caught fire and soon the entire forepart of the train was wrapped in flames. While the trainmen were endeavoring to subdue the fire a car loaded with dynamite exploded with terrific violence, destroying several cars, tearing up the track and injuring the engineer of the second section and one tramp.

Smashup on the Indianapolis Road.

INDIANAPOLIS, Sept. 19.—The fast day express over the Indianapolis and St. Louis Railway, due at 3.35 this afternoon, was wrecked near Ferne, a station about forty-five miles west. The cause of the wreck is not yet definitely known, but is understood to have been caused by the breaking of a wheel under the rear truck of the locomotive. The entire train, except the sleeping car, left the track, and the engineer and the fireman named Reddington, father and son, were buried beneath the engine and both killed. The elder Reddington was found with his hand upon the throttle. The passengers were violently shaken up but no one was seriously injured.

THE CHOLERA IN ITALY.

A Malignant Type of the Disease Claiming Many Victims.

ROME, Sept. 19.—The cholera afflicting the inhabitants of Messina is of the most violent character, death frequently ensuing an hour after the attack. The mortality is not confined to the lower classes. There is great misery among the people. The grave-diggers refuse to pursue their calling until compelled to by the troops. The epidemic has appeared in the prisons. The true state of affairs has not yet been published. It is reported that many new cases of cholera are occurring in Rome daily.

New Cases at Malta.

MALTA, Sept. 19.—Since Sept. 15 there have been thirty-six new cases of cholera and eighteen deaths from the disease here.

THE IMONARCHIST MANIFESTO.

The Extremists in Favor of the Expulsion of all Princes From France.

PARIS, Sept. 19.—M. Rouvier, Premier, will deliver a political discourse before the reopening of the Chamber of Deputies. This discourse will be a reply to the recent manifesto of the Count of Paris.

Several of the Extremist deputies propose initiating a movement in the Chamber of Deputies for the expulsion from France of all Orleanist and Bonapartist princes. Deputies Basly and Camelinat will again propose that all property of the above mentioned princes that can be found in France shall be confiscated.

Queen Victoria as Mediator.

ROME, Sept. 19.—Queen Victoria has replied to the letter from King John of Abyssinia asking her to mediate between Abyssinia and Italy for an amicable settlement of the dispute between them respecting the territory on the west coast of the Red Sea at Massowah. It is believed that England wishes to do all possible for Abyssinia without giving umbrage to Italy.

A Million Dollar Man Dead.

BOSTON, Sept. 19.—Charles Whitney died suddenly on Sunday evening. He was widely known as a leading lumber merchant of Boston and as owner of the *Hotel Vendome*. His wealth is estimated at between $3,000,000 and $5,000,000.

A Bad Baptist Minister.

COLUMBIA, S.C., Sept. 19.—William Andrews, a resident of Caldwell County, N.C., asks the press to help him to catch David Wright, a Baptist minister, who has deserted his wife and twelve children and eloped with Mrs. Martha Andrews, his mother-in-law. Andrews says the woman has two husbands living.

THAT OATH.

Business is Business. Dirt is Dirt, and when it comes to throwing dirt, count Gough out.

Supposing on oath from mere hearsay I gave the Aurora record of Mr. Sheppard, what would the people say about me? Simply, that GOUGH was a Coward.

But never fear, Mr. Sheppard, I am not going to resort to such mean contemptible personalities. However, in your reckless oath there are two things I am compelled to show you up in.

1st, in your advertisement in the *Times* you positively state, GOUGH bought his bags off you, but now on your own sworn testimony lo! and behold you give this the lie, for you swear you did not sell GOUGH bags but that a certain farmer bought two dozen from you, who afterwards stated to you that he resold them to GOUGH or one of his Salesmen.

Which is correct? your oath or your advertisement? answer this, as both cannot be truth, and in either case you stand self-convicted.

The next point in your misleading oath is this, you swear that a certain party stated he bought Clothing from GOUGH on conditions that he, GOUGH, would refund the money if the goods were not satisfactory, and that this said party afterwards returned the clothing to GOUGH and that GOUGH refused to refund the money, and kept both clothing and money. I deny this and I defy you to prove your friend s statement to be true and now that you have sworn by him, be a man and give his name and if I don't prove that it is as false as your oath is misleading I will donate $500 to any charitable institution in Peterborough.

Remember, your position is a mean one unless you produce evidence to back it. You have taken an oath full of insinuations only, which is cowardly, and if you cannot give the public more proof than mere hearsay, the people will not be slow to judge your oath and your motive. Besides if your friend will pass in his name and prove what you swear you believed to be true you will have a chance to take $500 more out of THE WONDERFUL CHEAP MAN, if he cannot prove that it is false.

One more word Mr. Sheppard and I am done with you. You state that you are worth over and above all Liabilities, $10,000 (wonder you did not swear this), well, it is an insinuation that I am not—you may be worth $10,000 I don't know, but one thing I do know the Mercantile Agency rates GOUGH to be worth twice as much money as you, and moreover in their July report they say Gough's credit is good, and they don't say this of yours.

Now, Mr. Sheppard, these little personal attacks are not business like, and had you not advertised what you positively knew to be false (your oath proves this) I would never have advertised that I could sell your clothing cheaper than you can buy it and make a profit out of it. But now that I have stated it I will stand by it or loose $500 or $1000. Do you accept or do you not, for this and this only will prove which, you or I, are in a position to sell Clothing the Cheapest.

Surely this is the right time and the right place for you to prove your "Back bone."

Now, Mr. Cheapsides I am done with you unless you accept my challenge, and in conclusion let me assure you the more you bring my business to its true light the better will I like it, for let me tell you since you came here my business has almost doubled, which proves that the people appreciate the man who put down the Prices of Clothing and continues to keep them down. It also proves my motto is square dealing, otherwise the people would not so liberally patronize as they do.

LATEST SPORTING NEWS.

The Baseball Scores—Other Items of Interest to Sportsmen.

TORONTO, Sept. 20.

The Newark team made a disgraceful exhibition of themselves in the game with the Torontos yesterday afternoon, and were roundly hissed by the 2000 spectators present. The trouble commenced when Stovey, whom Manager Hackett had industriously advertised as intending to wipe out the Torontos, left the box in the first innings, after pitching five bad balls, on the last of which Albert, who was at the bat, made second base. Stovey complained of being unwell, and his retirement from the box necessitated a general change in the playing positions of the team.

The feature of the game was the terrific batting of the Torontos, who are credited with 20 hits. Crane, McCormack and Decker made home runs and singles and doubles, Orange with frequency. Fields of the Newarks also made the circuit of the bases on a right field hit. Crane was again in the box for the Torontos and by winning the four straight games surpassed all previous records made by pitchers in any league. When Fleming of the Buffalos pitched two winning games out of three against the Newarks his performance was regarded as wonderful, as was a like feat of Clarkson's against the Detroits, but Crane's performance far surpasses theirs. Gossip of the Turf.

The trotting stallion Gen. Knox is dead.

G. L. Hayden of Fergus purchased at Buffalo last week from the Excelsior Stable the black filly Lady May, 3 yrs., by Virgil, dam Ladylike.

John Dyment of Orkney, Ont., exchanged at Buffalo last week the bay gelding Troublesome, 5 yrs., by Inspector, with M. J. Daly for the bay colt King Bob, 4 yrs., by King Rea, out of Bobadilla.

Meiggs, the well-known steeplechase rider, has taken his Jumpers Gleaners, Abraham and Marmaduke, and the 4-year-old Uncle from Buffalo to Jerome Park, N.Y., where they will perform between the flags.

The Red Rank Stable's bay mare Minnie Meteor broke down so badly in a race at Montreal last Thursday that she had to be destroyed.

At the Nebraska State fair on Friday last Jay Eye See failed to beat his record on Wednesday of 2.10¼.

Lord Zetland's colt Panscrschiff and Gen. Owen Williams' horse Rambletonian, have been installed favorites for the Cambridgeshire stakes, to be run on Oct. 19 at the Newmarket Houghton meeting.

Lord Rodney's colt Hampswood has been made a hot favorite for the Cesarewitch stakes run on Oct. 11 at the Newmarket second October meeting. He is quoted at 7 to 1 against. Ermoor and Ashplant are next in demand, with several other horses freely backed at long odds.

The in and out running of race horses was demonstrated again in the last race at Sheepshead Bay on Saturday, a handicap at one mile and three furlongs, for which Lucky Baldwin's famous horse Volante was first choice, and Mr. Honig's aged gelding Lelex was a close second choice. Earle, with 118 pounds up, had beaten Lelex with only 117, at the same distance on Thursday, in 2.39½. On Saturday Lelex carried 118 pounds, and making the lead with Volante at the head of the homestretch, beat Volante in by four lengths, and trailed the field out a furlong behind, winning in 2.38, within a quarter of a second of the record made by Uncas on the same track, with only 107 pounds up.

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain. eodw

Restored.

Mrs. J. M. Phalen, of Sydney Mines, N.S., had chronic rheumatism for two years, could get no relief until she tried Burdock Blood Bitters. Two bottles cured her. "I was like a skeleton," says she, "before using B. B.B., now thanks to the discovery of such a valuable remedy, I am entirely restored to health." 2w36d

Ladies troubled with Pimples, Blotches, Rough Hands or Face, or Sores of any description, should use McGregor & Parke's Carbolic Cerate. It will leave the skin in perfect health, smooth, clean and good color. Be sure and get the genuine, made by McGregor & Parke. Price 25c. Sold at John McKee's Drug Store. eodw35

Well Tested.

"I was nearly dead with cholera morbus, one bottle of Extract of Wild Strawberry cured me, and at another time I was so bad with summer complaint that I thought I would never get over it, when two bottles cured me." Mrs. E. Askett, Pell, Ont. 2w33d

I have been bothered with catarrh for about twenty years. I had lost my sense of smell entirely for the last fifteen years, and I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did. My sense of smell is partly restored; it seems to be improving all the time. I think there is nothing like Ely's Cream Balm for Catarrh.—Mrs. E. E. Grimes, Rendrill, Ohio. eodw36

A Lucky Escape.

"For six years I suffered with my throat and enlarged tonsils. I was very weak; I doctored four years and had advice from three doctors; they said I would have to undergo an operation. I tried B.B.B. instead. One bottle cured me." M. A. Squelch, Regina, Ont. 2w38d

"What is McGregor's Speedy Cure for"? It is for Dyspepsia, Liver Complaint, Indigestion, Biliousness, and it is the finest blood purifier in the known world to-day.

"Does it give satisfaction?"

We cannot point to one instance where it did not.

"Where does it have the largest sale?"

Right in the city of Hamilton, where it is manufactured, there has been over one thousand dollars' worth sold in the last year retail, and the great majority of the sales are by one recommending it to another. For sale at 50c. and $1.00 per bottle by John McKee, Druggist eodw35

Unknown.

There is no remedy known to medicinal science that can excel Dr. Fowler's Extract of Wild Strawberry as a cure for cholera morbus, diarrhœa, dysentery or any form of summer complaint afflicting children or adults. 2w38

Bogus Bills.
Among the bills a prominent dry goods merchant was depositing in the bank to-day was one of $10 on the Bank of London, which had been taken in in the store. It was rejected. Look out for defunct bank bills.

Destructive Fire.
Monday afternoon the residence, barns and outbuildings of Mr. John O'Connors, sr., of Dummer, just beyond Ludgate's hill in Ashburnham, were totally destroyed by fire. Mr. O'Connors was away from home at the time. Very few of the contents of the buildings were saved.

Examiner Bindery.
Merchants and business men, now is the time to call at the EXAMINER bindery and leave your orders for journals, day books, ledgers, invoice books, cheque books, and all blank books used in business. Don't wait till the moment you want to use them. All blank books last longer for not being used immediately after being finished.

Fires in Otonabee.
On Monday afternoon the barns and stables of Mr. Charles Kindred near Zion's Corners Otonabee were destroyed by fire caught, it is supposed from bush fires. The barns and stables with all their contents were destroyed with the exception of the horses which were saved. The loss is considerable, and it is said without insurance.

A Memorial Tablet.
Last week a memorial tablet to the memory of the late Lieut.-Col. Haultain, was placed in St. Paul's church. It is of white marble with black border, and is imbedded in the wall at the left-hand side of the main entrance to the church. It was purchased with subscriptions from the congregation, mainly secured through the efforts of Mrs. Dunlop, who was the principal mover in the matter.

Enterprise of Expansion.
Mr. Peter Hamilton is continually expanding his business. The excellence of the work turned out at his Agricultural Works has resulted in an extensive patronage whose circle is so constantly expanding that he has to extend his works. He is making an addition to the foundry of 90x40 feet, which is to be extended south along Water street, so that the completed buildings will form a square block. Enterprise, energy and a knowledge of the public wants are sure to meet the reward of extensive patronage.

Correcting "The World."

Mr. Wm. Darling, License Inspector, East Peterborough, having been misreported by the Toronto *World* in respect of what he said at the recent Scott Act convention, sends the following correction to the *World*, which published the untrue version of his remarks:

"*Editor World*,—My attention has been called to your report of the Tuesday session, in which you state that I made a statement 'to the effect that Mr. Manning advised himself (meaning me) and his colleague in that county not to enter a third violation against tavern-keepers, but to make the charge a first offence.' You will kindly permit me to state that I said nothing of the kind. What I did say was that I was advised to proceed for second offences and to repeat them as often as possible, and when there was a defiant violation it would be well to try the effect of thirds. You will observe that this is entirely different from what you give me credit for saying.

WM. DARLING.
License Inspector, East Peterborough.

Revival of a Belleville Mystery.
The huge iron dipper of the dredge brought up something unusual in one of its loads this forenoon—part of a satchel, copper bound and studded with copper nails. It was unlocked, and appears to have been in the bed of the river for several years.

The find has revived the Waterhouse murder, which has been a mystery since '66. The murdered man was a guest at the Kyle House, intending to go to Montreal. In leaving the hotel at night the porter assisted him in putting a heavy copper-bound satchel, on his shoulder, which was filled with coin. After he left the hotel cries were heard from the upper bridge. Waterhouse was never heard of until found in the river at the foot of Dundas street in the following June. Soon after the porter and his wife left the hotel and never returned.—*Intelligencer*.

The Bicycle Contest.
The Belleville *Intelligencer* says:—The EXAMINER is evidently of the belief that it is Mr. Greatrix's offer of a ten yard start in a five mile race that has induced Mr. Cooper to ride on the Peterborough track. Pray, what does a start of 30 feet amount to in a five mile race? It might be taken as an exhibition of conscious superiority in a half mile race, but in a five mile race it looks much like a not intended admission of equality. Wheelmen here think they are about equal and would like to see a final race between the two, who have made several attempts with varying successes." Thirty feet is a good winning distance and if the men are "about equal" why should it not be considered an "inducement."

Twelve Days' Mission.
On Wednesday next the Rev. E. P. Crawford, Rector of Trinity Church, Brockville, will begin holding a twelve days' Mission at St. Luke's Church, Ashburnham. Mr. Crawford is anxious to meet all those interested in the Mission on Tuesday next, especially those desirous of working and aiding the objects had in view. He will meet them at 7:30 p.m., when the Rector will formally hand over the parish to the care of the Missioner. The Mission services proper will begin on Wednesday, September the 21st. There will be four services daily, viz.: Holy Communion at 7.30 a.m., morning prayer at 10 a.m., evening prayer and instruction at 4.30, and the Mission service and sermon at 8 o'clock. All are invited.

Brought Home For Burial.
Last evening the body of Elizabeth Theobald, daughter of Mr. Thos. Theobald, Park street, was brought to Peterborough, to her parents, for burial. Undertaker McFadden took charge of the remains. Deceased has been living in Rochester, N.Y., for a few years back and died there of an attack of malarial fever, after a two weeks' illness. The funeral took place this afternoon at 3 o'clock to the R.C. Cemetery.

Turnbull's immense stock of Dress Goods in lovely styles, is complete. Ladies! Look through it. Prices are positively right.

Under The London Prize Ring Rules.
LONG ISLAND CITY, N.Y., Sept. 13.—Terence McSperritt and Jack Farrell, both of this city, fought 29 rounds under the London prize ring rules within a stone's throw of the Queen's County Court House at daybreak to-day. The men are light-weights and have been training for several weeks. They fought without gloves and at the end of the twenty-ninth round, when a cry of "police" caused the pugilists and their friends to disperse: both men were suffering from the punishment mutually inflicted. No arrests were made, but the police are on the track of the principals and will probably capture them.

Oil Calms the Stormy Waves.
PHILADELPHIA, Sept. 19.—The steamer Warwick, from Newport, England, reports terrific northwest gales with mountainous seas. On Sept. 16, the seas were making a clear breach over the vessel, swooping the deck fittings before them. Oil was used with marvellous results. As far as eye could reach, where the oil had touched, the seas were quite calm and unbroken, while outside they were breaking in every direction.

The Old Skating Rink Gone.

Fire Destroys an Old Landmark—Two or Three Other Buildings Burned—The Losses.

Last midnight a fire broke out in the old skating rink building, Hunter street, owned by Mr. J. Whyte, at present occupied by Mr. E. E. Bowie, as an agricultural ware-room. The flames quickly spread through the old wooden structure, and by the time the fire brigade were on hand, which was in "no time" (as a by-stander put it) after the bell rang, the flames had secured the mastery. A barn belonging to Messrs. D. H. Moore and V. Best, at the rear of the building was next consumed. The fire ran along a couple of wood piles to Messrs. Douglass & Logan's carriage works, one of the buildings of which was burned. The firemen worked bravely to save the property of Paterson & Son, just across the creek, and after a very close shave succeeded in their efforts. The cribbing of the creek was charred.

There can scarcely be a doubt that the fire was the work of an incendiary, as there had been no fire in the building where the blaze originated for months. This supposition is strengthened by the fact that a blaze started in the woodshed of Mr. Paterson's residence under such circumstances as to preclude the possibility of its having been caused by a spark. The fire-bug evidently did his best to complete his work.

THE LOSSES.

On the rink building Mr. Whyte had an insurance of $1250 in the Western. The building is a total loss.

Mr. Bowie carried an insurance of $1,500, in the Royal, on the contents, and Mr. Whyte a farther insurance of $500 in the Western. The contents, too, were an almost total loss, only a few ploughs being saved. The fire spread so rapidly that it was found impossible to save anything. Mr. Whyte has been particularly unfortunate in the way of fires.

The barn behind, owned by Messrs. Moore and Best, was insured for $200 in the Mercantile. The building was a small frame one, Most of the contents were saved, except a bin of oats and some small articles.

The building which Messrs. Douglass and Logan used as a woodwork and paintshop, in connection with their carriage works, was owned by Paterson & Son. In it was situated a water wheel, which with the line shaft was also the property of Messrs. Paterson. The remaining contents were owned by Douglass & Logan, who carried an insurance of $1,700 in the Royal. The contents were removed, as well as those of their other buildings, which was about the only loss they suffered.

Messrs. Paterson lose a considerable amount. They had an insurance of only $600 in the Guardian on the building. About 30 or 35 cords of wood, hard and soft, piled in the yard, were burned or badly charred, while a pile of lumber alongside the creek was almost totally destroyed.

NOTES.

The telephone wire, which rested on the roof of the old rink, was deranged by the fire. It was re-strung next morning.

Paterson's tannery had a narrow escape indeed. The firemen worked nobly and saved it.

The firemen deserve every credit for their strenuous and well-directed efforts to save property. For a time, though, their efforts were defeated by the bursting of some hose. These were replaced as quickly as possible and then the fire was soon got under control.

Two branch pipes and four lengths of hose were burst during the fire. The hose that burst has been in service for ten years.

The Babcock chemical extinguisherf were used for the first time, extinguishing the fire under the sidewalks.

The firemen worked until after five o'clock in the morning at the fire before it could be left with safety.

Four streams, at a pressure of 95 pounds were in operation, one from the hydrant at Paterson's tannery, one from the hydrant in front of the Salvation Army barracks and two from the hydrant in front of Wilson's hotel, Hunter street.

The chief engineer will apply to the council on Monday night for some new hose. He recommends the double-ply linen, rubber-lined as being preferable to the three-ply now in use. He claims that it is lighter to handle, just as durable, and at about half the cost.

Two new branch pipes were ordered by express from Toronto this morning.

Prax's Bad Practices.

A Cook Marries Two Women and Lays Siege to the Heart of Another.

[*Toronto Mail.*]

Henry Prax, of 74 Richmond Street, was arrested yesterday morning charged with neglecting to support his family. Prax has been engaged for some time as cook at the Bodega restaurant, Leader Lane, and it is alleged he is the husband of two wives and the father of five children. The wife at whose instance the warrant for his arrest was issued lives at 74 Richmond street west. In the information she states that she married the prisoner some years ago in Peterboro' and they lived happily together, with four of a family to bless their household. Her husband, however, took to drink and she moved to this city, taking the children along with her. She obtained employment at a leading hotel and managed to support her children comfortably. In the meantime her husband paid her numerous visits, and always succeeded in wheedling all the money she could spare out of her. A short time since he came to this city also, and obtained work at the Bodega. Letters came to his address here from Peterborough written in a feminine hand, and fell into his wife's hands. She opened them, and found that

THEY WERE FROM A RIVAL,

who signed herself, "Your affectionate wife, Maggie", "Your loving wife, Maggie", etc. It flashed across her mind that her husband had been false to her, and enquiries confirmed her worst suspicions. She claims that fifteen months after her departure from Peterborough her husband became infatuated with Mrs. Van Allen, of Peterborough, whose divorced husband lives in Chicago; that they were married, and that the money obtained from her by her false husband went towards the support of a child by the second wife. Mrs. Prax alleges that her husband has been playing havoc with the heart of a Toronto girl since he came here, and that he was prepared to take unto himself a third wife should circumstances demand it. With his varied experience as a gay Lothario, Prax says he is only twenty-three years of age. Detective John Cuddy made the arrest, and has charge of the case.

The EXAMINER some time ago gave a history of Prax's matrimonial complications, which have culminated in his arrest. Mrs. Van Allen has not, as is believed in Toronto, a divorced husband living in Chicago. Since her last marriage with Prax a letter has been received here proving beyond a doubt that she never was divorced from her first love. The case will be ventilated in the Toronto police court.

Police Court.

TUESDAY, Sept. 20.

A. P. Morgan was charged with committing a violation of the Canada Temperance Act between September 12th and 17th of September. The charge was laid as a third offence.

Mr. R. E. WOOD, C.C.A., appeared for the prosecuting in all the cases.

The bartender testified, that the intoxicating liquor had been removed from the bar about Aug. 29th. There had been no intoxicating liquors sold between the dates alleged. The defendant testified, that he had sold no liquor between the dates charged or since he was last fined.

Charge dismissed with costs.

WM. CROFT'S CASE.

POLICE MAGISTRATE—Next!—Mr. Croft—Mr. Croft come up and be dismissed.?

Mr. Croft was charged with a breach of the Canada Temperance Act—a third offence—between the 6th and 16th of September. Several witnesses testified that they had got no intoxicating liquor. Oneman admitted the "soft" impeachment of a glass of cider. The bartender testified that the liquors had been removed from the bar before the 6th of September. The witness had some liquor of his own kept in his bedroom. He did not get it from any part of Mr. Croft's premises. He had given less than half a pint away. Have seen Mr. Croft treat people, don't know what he gave them. Liquors are kept in the cellar. The defendant said there had been very little "change" in his bar since the 6th of September. The beer pumps were in the bar one of them might be connected with a beer barrel, but it was empty. He did not sell liquor between the 6th and 16th of September, nor for some time before. He had tried to observe the law, for five months he had not sold a drop of liquor. He put the liquors out of the bar the second or third of September. Between the 6th and the 16th of September he had taken a flask in the bar, he thought more than once, to take a drink for himself. Probably he gave some to others. He got no pay. The charge was dismissed with costs to be paid by complainant.

T. CAVANAGH'S CASE.

"Next," said the police magistrate, "do you want your dismissal Cavanagh?"

T. Cavanagh was charged with a third offence against the Canada Temperance Act, between the 6th and 16th of September. Six or seven witnesses testified to being in Cavanagh's hotel. None of them had got intoxicating liquor. One witness said he had asked for strong drink but had been refused. The bartender said they had no liquor. This had been the case for about 3 or 4 weeks. The bartender testified that he and Mr. Cavanagh had access to liquor in the cellar—he had one key and Mr. Cavanagh the other. He had had a flask in his pocket in the bar, but no liquor had been sold.

The defendant said he had quit selling liquor some three weeks ago. He had his stock of liquors still in the cellar. He hadn't sold or give any away since Sept. 6th.

Charge dismissed with costs.

The Magistrate remarked to all those hotel keepers who had admitted having liquors on their premises that if complaints were made against them for keeping liquor on their premises, they would be likely to get stuck. His advice to them was to get their cellars unloaded—they might go off at any moment.

WM. KENNEALY'S CASE.

Wm. Kenneally was charged with breach of the Scott Act between Sept. 6th and 16th.

Witnesses testified that they had been in the house but had had no intoxicating drinks. One of the witnesses stated that Mr. Kenneally had given him a bottle of beer out of his cellar. Witness had paid nothing for it and did not intend to pay anything. He had seen parties refused strong drink. The defendant admitted that he had liquor in his cellar. He had put his liquors away before the 6th of September. He alone had access to his liquors. He gave away one bottle of ale.

Charge dismissed with costs.

ANOTHER DISMISSAL.

Mr. Thos. Dunn was next called upon to answer to a third offence complaint. He pleaded not guilty to the charge, and gave evidence to the effect that he was the lessee of the bar in the Chamberlain estate, and had not sold any liquor since last August, when he had taken the liquor out of the bar and locked it up. He only had access to it, and had given a few glasses to some friends. They wanted to buy some, but he told them he could not sell it. He gave some to his friends as a treat, and accepted no pay.

Of the eight or ten witnesses called, only two were present and examined, one stating that he only got a glass of water in the bar, and the other that he got nothing whatever.

The magistrate, in giving judgment, said that in face of Mr. Dunn's evidence it would not be necessary to wait for the other witnesses.

The case was dismissed.

A SECOND OFFENCE.

James Condon was charged with a second offence, and pleaded not guilty. The case was enlarged till Friday.

Lakehurst.

TEA MEETING AND ENTERTAINMENT.—A tea meeting and concert, in connection with the Presbyterian Church in Harvey, will be held in the vicinity of the church, on Wednesday, September 28th, when a pleasant afternoon and evening's enjoyment may be looked forward to. Tea will be served from 4 to 5 o'clock. After the tea the evening's entertainment will commence, and will consist of vocal music, under the leadership of Mr. Werim, and instrumental by Miss Reid. The choir from Chemong Lake Village will also be present and take part in the vocal exercises. Pleasing addresses will be made by the Rev. Messrs. A. L. Adams, John McEwen, of Lakefield, and Mr. Fitzpatrick.

Recitations, dialogues, readings, etc., will be given by Mr. Stone, the Misses Bowman, Douglas, Bond, Montgomery, Cookson, Martin, and many others. A very handsome silk and satin quilt, presented to the congregation by Mrs. McMartin, of Lark Hall, will be disposed of. Admission, 25 cents. Mr. J. R. Stratton, M.P.P., has kindly consented to occupy the chair.

Personal.

Mr. H.H. Barnham of Port Hope is in town to-day.

Mr. A.R. Kidd, Reeve of Dummer, will leave for Ottawa this evening. He has been selected to act as a judge in connection with the Provincial Exhibition.

Mr. Junkin, representative of the "Sun" at Brockville, a former resident of Peterborough, is in town to-day.

BOULANGER TO THE FORE.

HE BOBS UP TO SAY THAT THE REPUBLIC IS SAFE IN HIS HANDS.

He Would Not Hesitate to Shoot any Prince Who Should be Taken in an Attempt to Foment Civil War, and the Utterance Gains Him Friends.

NEW YORK, Sept. 20.—A special cable despatch from London to The Mail and Express says:

A group of radical deputies have gone to Clermont Ferrano ostensibly to hear Mr. Yoes Guyot lecture on the separation of church and state, but really to take counsel with Gen. Boulanger with regard to the best means that can be taken to resist any coup de main against the republic which the Monarchists or Imperialists may attempt. The Orleanist manifesto issued by the Comte de Paris has again brought Boulanger into prominence, and he is not slow to utilize the opportunity to keep his name before the French people. He has stated that he would not hesitate an instant to shoot any prince of the old regime who should be taken in an attempt to foment civil war. The boldness of utterance wins him many friends who would pay no attention to a more cautious man. Boulanger is naturally turned to as a general who may be fully trusted to suppress any attempt to overthrow the Republic. His own personal safety is not to be ensured by anything but the perpetuance of the Republic.

The Royalist manifesto is expected, as its influence develops, to prove to be the cause, if not of the downfall, at least of the reconstruction of the Rouvier Cabinet. The new proposals to carry out further expulsions will affect the Princes Mathilde, Prince Roland Bonaparte, the Duc de Nemours and his daughter, Princess Blanche of Orleans, the Duc de Charlois and all the members of his family.

SCARCITY OF CURRENCY.

The Business Interests at New York and Elsewhere Suffering Severely.

NEW YORK, Sept. 20.—The Sun says: "That the business interests of the country are suffering for the want of currency accommodations there is no dispute. Stocks would not have declined as they did yesterday, and stayed down, if the holders of them did not believe that the necessities of the mercantile and commercial communities were very great. A significant feature was the announcement that the Manhattan, Dry Dock, East River, the Union, Dime and Williamsburg Savings Banks had declined to make loans even with Government bonds as collateral. This announcement applied to time as well as to call loans. It was stated for the savings banks that their reserves have been depleted by time loans on real estate at 6 per cent. It was further learned that the banking houses of Boston are daily thronged with New England mill owners and manufacturers asking for discounts.

"The shipments of currency to the South to move the crop has been enormous, and viewing the situation, particularly among the merchants, the remark of a director of the Second National Bank was, 'If the Government does not do something pretty quick it will break all the merchants.' It was stated, on what is considered excellent authority, that Sub-Treasurer Cauda, in a recent interview with Secretary Fairchild, has impressed upon the secretary the seriousness of the state of affairs among the merchants."

THE PROVINCIAL EXHIBITION.

The Display of Cattle Said to be Larger and Better Than That at Toronto.

OTTAWA, Sept. 20.—The Provincial Exhibition is now nearly in order, and while it will, of course, be a long way behind the big show at Toronto, promises to be fairly successful and equal, if not superior, to the one held here in 1884. The entries number over 3000. The cattle exhibit is splendid, a large percentage of the Toronto exhibitors having brought their stock here, which has been handsomely supplemented by exhibits from Eastern Ontario and Quebec. Indeed, in some classes, especially Ayrshires and Polled Angus, the exhibits are said to be larger and better than they were at Toronto. The display of poultry is also good. The attendance so far has been light, but it is expected that there will be large crowds to-morrow and on Thursday.

Riotous Artillerymen.

LONDON, Sept. 20.—The artillerymen stationed at Hilsa, India, being ordered to prepare to move abroad went on a riot, and after wrecking the canteen or sutler's shop went about breaking windows and spreading terror among the inhabitants of the town. During the melee many soldiers and citizens were seriously injured. Twenty of the artillerymen were placed under arrest.

Forest Fires in Minnesota.

BRAINERD, Minn., Sept. 20.—Heavy forest fires are raging southeast of this place, and already large quantities of hay have been consumed. Crow Wing prairie is entirely burned over, and the fires are raging with unabated fury.

THE LEAGUE PROCLAIMED

A NOTICE WHICH WILL CAUSE A SENSATION IN IRELAND.

The Continuation of the Inquiry Into the Shooting by the Police at Mitchellstown—Mr. Dillon Addresses a Large Gathering at Limerick.

DUBLIN, Sept. 20.—The Dublin Gazette publishes a proclamation suppressing the League and all its branches in County Clare and the Baronies of Leitrim, Loughrea, Galway, Corkaguiney, in Kerry; Condons, Clanglibbon, Duhallow, and Muskerry, in Clark, and Shelburne in Wexford. The proclamation is signed by Prince Edward of Saxe-Weimar, commander of the forces in Ireland; Baron Ashbourne, Lord Chancellor of Ireland; A. J. Balfour, Chief Secretary for Ireland; Henry Brooks, Justice of the Peace; J. D. Gibson Attorney-General of Ireland; and Gen. Sir Redvers Buller. The Gazette announces that Gen. Sir Redvers Buller has been sworn in as a member of the Privy Council.

The Mitchellstown Enquiry.

LONDON, Sept. 20.—At to-day's hearing on the inquest over the victims of the conflict between the police and the people of Mitchellstown Constable Doran swore that he fired four times at the crowd, twice with buckshot and twice with ball. The first bullet prostrated a man. The crowd stoned the barracks and he believed the barracks were in danger when he fired. He said his face was wounded. When the coroner asked him to stand up and exhibit the wound Doran refused at first, but finally did rise when ordered to do so. No wound was apparent.

Continuing, Doran said that Police Inspector Lewis ordered six constables to fire in defence of the barracks. A stone thrown from the crowd struck witness and dislocated his right thumb. This, however, did not prevent him from firing again.

Mr. Harrington: "And murdering?"

Witness declined to answer Mr. Harrington's interrogatory.

Mr. Harrington: "Have you any doubt on either your mind or your conscience that you killed Lonergan?"

Witness hesitated and then declined to answer.

A League Meeting at Limerick.

LIMERICK, Sept. 20.—John Dillon presided at a great meeting held in the Limerick town hall under the auspices of the National League. The hall was crowded.

Mr. Dillon made the speech of the day and dwelt at length on the O'Brien case. He said Mr. O'Brien would doubtless be condemned as a [illegible] but no wonder at the sympathy of the whole civilized world. The Government must not think they could crush the league by any such means as those resorted to in the persecution of Mr. O'Brien. Each arrest of that kind would add but fresh courage and spirit to the people of Ireland in their struggle for Home Rule and increase the gulf of separation between the landlords and populace and put new fuel into the fire now burning.

Mr. Dillon urged the farmers of Ireland to subscribe more fully to the league eviction fund, and declared that the members of the Nationalist party were unanimously determined to carry on the plan of campaign which, he maintained, had ameliorated and improved the condition of the tenants on every estate on which it had been adopted.

Mr. T. Coote (Home Ruler) ex-member of Parliament for South Huntingdonshire, Mr. Jos. Firth Baltomley Firth (Liberal), ex-member [illegible]nesse and a large number of other Eng[illegible]rats were present. Resolutions embodying the suggestions made by Mr. Dillon were passed by the meeting.

Baron Monck's Advice.

LONDON, Sept. 20.—Baron Monck, Liberal, one of the Lord Justices of Ireland and Fourth Land Commissioner, advises the landlords of Ireland to follow Archbishop Walsh's advice and hold conferences with the tenants of Ireland, with a view of reaching better relations on the question of rents.

Chief Justice Hugh Holmes, lately Attorney-General for Ireland, publishes a letter denying that he ever stated that the new Crimes Act created new offences.

The Suppression Clause to be Enforced.

DUBLIN, Sept. 20.—The Evening Telegraph (Home Rule) states in its issue of to-day that the Government authorities have decided to put into force the "suppression" clause of the Coercion Act. The Telegraph adds that this decision of the Government means that over 200 of the branches of the Irish National League will be immediately prohibited from holding meetings.

The paper says, "The first of the three Emperors will be dissolved and the dissolution will not be followed by a Franco-German alliance."

The North German Gazette reproduces statements made at the Treves Congress denies that Dr. Windthorst and the Centre party were instrumental in ousting the Caliuricamp. To the Pope alone it says belongs the merit of having gained such a victory for the church.

LONDON'S LATEST SCANDAL.

Col. Hughes-Hallett Names the Corespondent in The Pall Mall Gazette.

LONDON, Sept. 20.—The Pall Mall Gazette publishes full details of the scandal in which Col. Hughes-Hallett, Conservative member of Parliament for Rochester, was involved, by reason of the exposure of his relations with his stepdaughter. The Gazette states that the Colonel will not resign his seat in the House of Commons and accuses the Government of attempting to whitewash him.

Col. Hughes-Hallett replies as follows: "The statements of The Pall Mall Gazette are grossly untrue. I have never had any liaison with any stepdaughter of mine. I repudiate the charge. The Pall Mall Gazette has entrapped the name of a young lady, last year stepdaughter, who is no relative or connection of mine and to whom I have never stood in loco parentis, slandering the memory part of the question Miss Selwyn some time ago asked me to try to get her better interest on money than she was then getting. She covenanted by a deed in my possession to lend the money for five years. Some weeks ago her husband suddenly called this money in. Within twenty-four hours the principal with interest was handed to my solicitors for transference to her solicitors."

Col. Hughes-Hallett does not explain that the mother of Miss Selwyn was the first Lady Selwyn. The late wife of Col. Hughes-Hallett was the second Lady Selwyn, who became a widow five months after marrying Justice Selwyn.

The Pall Mall Gazette parodies Col. Hughes-Hallett under the supposition that he eloped with his stepdaughter, accusing him of an unmanly retirement, for a parallel to which one must go back to Latin mythology. The Gazette demands that the colonel be dismissed from the army, and declares that no English gentleman could sit on the same bench with him, and that the Ministers must force him to vacate his seat in the House of Commons. The Gazette asserts that the Colonel has seen Mr. Smith, the Government leader in the House of Commons, and the Conservative whips, and that an intrigue is afoot to whitewash him.

The Colonel himself asserts that he has not consulted Mr. Smith, but he has seen one of the whips.

WILD CARS ON A DOWN GRADE.

A Passenger Train Hurls Them With Disastrous Results.

MINNEAPOLIS, Minn., Sept. 20.—A Canton, Dak., special says east bound passenger train No. 2, on the Chicago, Milwaukee and St. Paul Road, A. J. Morse conductor, ran into the rear of a freight train at 4 o'clock this morning three miles east of this place. The freight switch was at Inwood, Ia., and the rear part breaking loose tore down the grade towards Canton for several miles, finally colliding with the passenger train.

The following were killed: Andrew Seerath, Rock Valley, Ia.; W. A. Ploog, Michigan, Ia.; Chas. Dunbar, Mason City, Pa. Two bodies are still in the wreck. Thirty passengers escaped uninjured, six cars of wheat, one of cattle, the caboose and passenger coaches were demolished. The accident occurred at the edge of the bridge across the Sioux River, and in a few seconds more both trains would have been thrown into the river from a high embankment and thirty or forty lives would have been lost. The freight conductor is blamed for the accident. Twenty people got out of the smoking car at Canton 10 minutes before the car was smashed to atoms.

NORQUAY UNSUCCESSFUL.

New York Men Refuse to Buy the Bonds of the Red River Road.

NEW YORK, Sept. 20.—Premier Norquay of the Province of Manitoba, who has been in this city for the past month for the purpose of raising money to build the Red River Valley Railroad from Winnipeg to connect with the Northern Pacific, started for home this evening. Before going he stated that he was not successful in raising the money in New York. The project, he said, would not be abandoned because New York men refused to buy the bonds.

The Grand Lodge of Oddfellows.

DENVER, Sept. 19.—The Sovereign Grand Lodge of Oddfellows met to-day. They were received by the Governor, the Mayor and local Oddfellows. The reports of the grand officers show a prosperous year. The increase of membership was 12,000, making a total of 547,809; encampment membership, 27,772; militant branch, 15,328. There was a relief expenditure of $2,220,000 and a revenue of over $5,500,000 during the past year.

A GROWING MOVEMENT.

English-Americans Whose Votes Will Count Hereafter.

CHICAGO, Sept. 20.—The committee appointed two weeks ago for the furtherance of the naturalization of English subjects resident in Chicago reports the most favorable progress. Nine societies, eight Knights of St. George lodges and the St. George's Benevolent Society, have signified their intention of co-operating in the project. The only remaining lodge meets on Wednesday evening and will undoubtedly tender its aid. A general meeting of all the organizations will be called shortly, when arrangements will be made for the first mass meeting, and invitations will be sent to Scotch, Welsh and Canadian organizations.

HAMILTON PRESBYTERY.

The Authorities Blamed for Allowing Boynton to Desecrate the Sabbath.

HAMILTON, Sept. 20.—The Hamilton Presbytery met for the first time in their new place of meeting, the school room of St. Paul's Church, and there was an unusually large attendance of clergymen and elders.

Among the matters that came before the Presbytery was the gross desecration of the Sabbath perpetrated by Paul Boynton in giving an exhibition in the bay on Sunday afternoon. On motion of Rev. Dr. Laidlaw, seconded by Rev. Mr. Fletcher, a committee was appointed to report on the case.

PREPARING FOR THE RACE.

A Number of Alterations to be Made in the Volunteer's Trim.

NEW YORK, Sept. 20.—Gen. Paine is having a great deal of trouble preparing the Volunteer for her naval duel next week with the Thistle. The trial trip of the champion yesterday convinced all on board that the new boom, which was shipped Saturday evening, is entirely unsuited to the vessel. It was unshipped to-day and replaced by the old boom. Gen. Paine intends to make a number of alterations to the vessel's spars and rigging before the first race next Tuesday, but the nature of these he refuses to divulge at present.

The Thistle's Secret to be Disclosed.

NEW YORK, Sept. 20.—After to-morrow morning the great secret of the shape of the Thistle's hull under water will be no longer concealed, as she will be hauled up high and dry in Henderson's yard at the foot of Van Brunt street, South Brooklyn, and all those who have indulged in useless speculation as to her model will have a chance to view her to their heart's content.

Young Woman, Go West!
From The Sault Express.

"Bridegroom tickets" are the latest thing, and the Canadian Pacific Railway Company are the enterprising authors. The reason is as follows: It happens that in the Northwest Territory young men are numerous, but young maidens are scarce. The young men are anxious to get married, but the time "lost in wooing," marrying and bringing back a wife, not to speak of the expense, are all too great obstacles to those who wish to get life partners. The Canadian Pacific Railway, being in favor of monopoly is also in favor of matrimony. It therefore gives young men chances, and issues return tickets to them, good for six months, and if they come back from the east with a bride and a marriage certificate the bride's fare will be refunded.

We think that the thing might be better managed. If only the bride-to-be went, and save all the time and trouble that the groom is put to! Why should not an army of young maidens invade the Northwest and become the possessors of happy husbands!

THE VACANT JUDGESHIPS.

NO APPOINTMENTS TO BE MADE FOR THE PRESENT.

There will not be a Full Meeting of the Council to Deal with the Matter Until All the Ministers Have Returned to Ottawa—The West Bruce Writ.

OTTAWA, Sept. 20.—The statements which have appeared in various newspapers with reference to the appointment of Ontario judges are, to say the least, premature. No appointments have been made, nor is it at all probable that any will be made until there is a full meeting of Council, which will not be until after the return of Sir Charles Tupper, Hon. Mr. Bowell and Hon. Mr. Chapleau, the latter of whom is not expected to leave for home until Oct. 6. There is no immediate necessity for the appointments being made, as the circuits have been all arranged and next term does not begin until November, by which time it is most probable that the existing vacancy and any others which might occur meanwhile will be filled. Neither Chief Justice Wilson nor Judge Galt have sent in their resignations, but it is not considered improbable that they will do so.

Sir Chas. Tupper will go to Halifax and will probably spend a few days in his native province before coming to Ottawa.

The statement that a writ has been issued for West Bruce is incorrect and it will probably be a couple of weeks or more before it is issued. Under the Dominion election law, when a petition against the return of a member is withdrawn thirty days are allowed during which time any elector may apply to the court to have his name substituted for that of the party withdrawing, and the case may then be continued. The petition against Mr. Mara's return for West Durham was withdrawn on Sept. 2, and although he has elected to sit for that constituency and resigned West Bruce it is not at all likely that a writ for the latter will be issued until after the expiration of the thirty days, during which any elector in West Durham may apply to continue the protest against Mr. Mara.

A Fashionable Event.

OTTAWA, Sept. 20.—St. George's Church was the scene of a very fashionable wedding this afternoon when Mrs. Clarke, widow of the late Capt. Dalrymple Clarke and daughter of the late Hon. Jas. Cockburn, was united to Mr. W. D. Gwynne, barrister, of Toronto, son of Mr. Justice Gwynne of the Supreme Court of Canada. The ceremony was performed by Rev. H. G. Baldwin of Toronto, a relative of the bride, assisted by Rev. Owen Jones, rector of St. George's. Miss Gwynne, a sister of the bridegroom, was bridesmaid and Mr. Hume Blake of Toronto acted as groomsman. The bride was given away by Sir John A. Macdonald. After the ceremony a number of the friends of the happy couple were entertained by Judge Gwynne and Mr. Gwynne and his bride left for the west to-night.

Argument in the Ayer Case.

OTTAWA, Sept. 20.—Argument in the celebrated Ayer customs case, in which some $200,000 are involved and evidence in which was taken this summer, was commenced in the Exchequer Court this morning before Chief Justice Sir W. J. Ritchie. Hon. Mr. Lacoste, Q.C., Mr. D. Macmaster, Q.C., R. D. McGibbon and Mr. McLennan appeared for Ayer & Co., and Messrs. A. Hogg, Q.C., Ferguson and Atwater for the Crown.

Mr. Macmaster, on the opening of the court, asked to be allowed to examine two witnesses. This was objected to by Mr. Hogg, and the objection was sustained. Mr. Macmaster then proceeded with his argument, occupying the attention of the court up to 3 o'clock, when an adjournment took place until to-morrow morning. From the great array of legal talent, the argument will probably last several days.

SLICK HENRY'S CASE.

An Enlargement for Another Week—Mr. Taylor Still Confined in Jail.

TORONTO, Sept. 21.

Mr. Justice Rose sat in the Queen's Bench division at Osgoode Hall yesterday, and listened quietly to Mr. Marsh's application on behalf of Henry Taylor of London Bank and Ontario Investment fame, for an enlargement of the case of Meredith v. Taylor for one week.

Mr. Marsh explained that owing to the death of his wife, Mr. Purdom, the London solicitor of Mr. Taylor, had been unable to cross-examine the plaintiff on the affidavits presented to the court, and that he had obtained other counsel but not in time to be ready for the case.

Mr. Shopley opposed the application, and he said that certainly no particular diligence had been shown by the other side. Mr. Meredith was ready and had been ready for the cross-examination at any time.

Mr. Justice Rose: "In what way could the enlargement affect your case?"

Mr. Shopley: "In this way. We have no doubt that the motion will fail, and in order to get at other business it is desirable that this motion should be disposed of without unnecessary delay."

His Lordship decided that under the circumstances the application should be granted, and enlarged the case for a week.

Meanwhile Mr. Henry Taylor occupies a cell in London Jail. It is a large, roomy cell, contains two comfortable beds and other furnishings; and Henry can offer a bed to a friend at night and give him a good cigar as well. Except for being confined he is living in clover, so to speak.

Held for Threatening to Shoot.

HAMILTON, Sept. 20.—William Bradley, a young man coming from near Lyndes, was before Judge Sinclair this morning on a charge of attempting to shoot Lorenzo Bishop. Upon looking into the law it was found that in consolidating the Statutes it had been made necessary for such a case to be tried before two justices of the peace. The judge, therefore, thought he had no jurisdiction.

Fire Near Hagersville.

HAGERSVILLE, Sept. 20.—The barn of Henry Wilson, located half a mile south of Hagersville, was burned this afternoon, together with all his grain, some 1400 bushels. A steam engine belonging to John Smith was also burned. The property destroyed was worth $2000; the insurance was about half that amount. Incendiarism is suspected.

Behind the Age.
From The Philadelphia Times.

Brazil must be the paradise of aliens. Everybody there is a slam and proud of it. A horse railroad two hundred miles long is being built in Dom Pedro's empire because people prefer to be a good while making their journeys. They are like the old German who preferred the stage coach to the steam car because the former would carry him all day for a dollar, while the latter would give him only an hour's ride for his money. The Brazilians evidently have no sympathy with the rapid rate at which the people of the United States travel and do business. Two or three miles of horse car travel is more than enough for the latter. The bare thought of 200 or 300 miles of this sort of locomotion would make the average Yankee commit suicide.

Suspended for Slandering.

COLUMBUS, S.C., Sept. 20.—At a church court held in Rock Hill yesterday the case of Rev. S. G. Price was considered. He is the Methodist minister charged with slandering the sister of J. B. Johnson, a young druggist of that town, who publicly cowhided the pastor shortly afterwards. The decision of the court is that the minister shall be suspended from his holy office for four months.

A G.T.R. Brakeman Killed.

WEDNESDAY, SEPTEMBER 21, 1887.

THE MANITOBA RAILWAY DISPUTE.

Sir George Stephen, the millionaire president of the C.P.R. has issued a manifesto justifying the corporation of which he is the head in its attempts to hold its grip on the monopoly it enjoys, and wringing extortionate freight rates from the Manitoba farmers. Of course he upholds the disallowance of the Red River Valley Railway charter by the Dominion Government, and claims that the charter of the C.P.R. Company guaranteed that corporation from the competition involved by the construction of competing lines in Manitoba. Whatever force there may have once been in this contention, it lost that force by distinct agreement on the part of the Government, an agreement which Sir George Stephen by his silence accepted. When the contract was before parliament for ratification in 1880, the pernicious injustice of the monopoly clause was so evident that it received the most vigorous opposition. The force of this contention was recognised by Sir John Macdonald, for, officially, and speaking on behalf of the Government, he assured the house that the monopoly clauses only referred to the territories and did not affect Manitoba.—"We can't check Manitoba", were his well known words. This interpretation was accepted by all, and at this late day Sir George Stephen, in his manifesto, alleges that "hardly a voice was raised in objection to the so-called monopoly clause." The truth is, that, so great was the outcry, that without the modification of this clause as made by the government, ratification of the contract would have been in all probability refused by parliament. This modification was confirmed by the company agreeing to forego the benefit of the monopoly clause on the completion of the Lake Superior section if the government would advance a loan. The money was lent, the Lake Superior section finished, yet we find the syndicate still intent on playing the game of grab. They wish to hold Manitoba under the rule of monopoly regardless of how their greed retards the settlement and hinders the development of the country. The Manitoba farmer objects to paying railway rates four times as great as any other road charges to get their wheat to market. And when the Manitobans wish to build a railroad to free them from a burdensome monopoly, the C. P. R. Company says, "no; the Red River Valley road may be a great benefit to the country, but if it is built we wont be able to charge you what freight rates we please, and we shall not allow the road to be built." Sir John and his Government being under the thumb of the C.P.R., fall in and help on the game, and fight against the welfare of the people whose interests they should guard against all assailants. But both will be baulked in their game. Tyrants from the days of King John to King VanHorne have been shown that Anglo-Saxons won't stand more than a certain degree of nonsense. They know where to draw the line and they draw it to stay. The Manitobans are building the road that will lift the heel of monopoly from their neck, so to speak. It is nearly all graded, the rails are on the way and the rolling stock is ready, and the latest reports indicate that the money for the payment of the construction is forthcoming. We do not wish the C.P.R., a great national highway, creditable to the people of Canada, who furnished the money to build it, any lack of success, but we do not want to see success gained at the expense of the progress and development of one of the most promising provinces of the Dominion.

JOHN A. MACDONALD, the Tory M. P. for Victoria, B.C., will be unseated if not disqualified. It seems that voters were brought up by the dozen, and there is reason for the belief that the Tory majority was secured by this distribution of wealth.

THE traffic receipts of the Grand Trunk railway for the week ending September 10th were $207,636, an increase of $23,407, compared with the corresponding week last year.

HON. MR. PARDEE, Commissioner of Crown Lands, has gone to New York to consult eminent medical men in regard to his health, which is still far from satisfactory.

A NEW PRINTING COMPANY.

Still Another Deal Concerning the Latest Riordan Organ.

TORONTO, Sept. 21.

Notice was given in The Ontario Gazette of July 30 of application for a charter of incorporation as follows:

The name of the company is to be "The Rose Printing Company of Toronto."

Objects: To acquire by purchase or otherwise a newspaper or newspapers, and to carry on the business of printing and publishing the same.

Operations of the company to be carried on in Toronto, and the capital stock to be $50,000.

Robert Jaffray, of the Exchange, Thomas Hastings, Edward Henderson, Robert Henry Bowen, Jas. George Hartley, accountant, and William Burrows Cameron, student, all of Toronto, all of whom are to be the first Directors.

The above appears in The Ontario Gazette and evidently means business. But what kind?

Mr. Sheppard is now the proprietor of The News, saving the burden of that famous mortgage which Hon. Edward Blake produced upon the floor of the House of Commons. Aside from this it is well-known that while Mr. Sheppard is nominal proprietor, Mr. Riordan holds a financial interest that can control the concern whenever he wishes to apply the screws.

The personnel of the members of the new deal furnishes the clue as to who is moving now. Thomas Reynolds is a retired manufacturer now living in Toronto, a personal and business friend of Mr. Riordan. E. D. Roswell, contractor, is a brother of ex-Mayor A. R. Roswell, and represents the Riordan interest in a big railway contract at River Du Loup. He represented Mr. Riordan's brewery investments not long ago. R. H. Bowen is of the firm of Foster, Clark & Bowen, Mr. Riordan's solicitors and the solicitors in this case. George Darby, the present business manager of The News, represents the Riordan interest in that paper at the present time. W. B. Close is a nephew of F. G. Close and is the broker in the project.

So there is a rearrangement, with all of Mr. Riordan's friends in and Mr. Sheppard left out. A member of the new syndicate said yesterday that Mr. Sheppard was to be retained as manager and editor by the company for the present. "For the present" is a very indefinite term.

A meeting of the directors is to be held tomorrow at which Mr. Riordan is to be present, but it will be strictly private. The subject for discussion is given out to be whether any outsiders would be admitted to take stock. They probably will if they can be induced to.

A close friend of Mr. Sheppard says that gentleman is disposed to retire from the worry of journalism to the quieter paths of literature, and has already formed a company and made arrangements for the publication of a weekly illustrated literary paper, which with the two novels he is now engaged upon will keep his time fully employed. This would indicate that Mr. Sheppard is preparing to stand from under.

FATHER EGAN ROBBED.

Thieves Enter His Room and Hold Him Up in Bed—One Arrest Made.

The presbytery of Rev. Father Egan, Roman Catholic priest at Thornhill, was the scene of an atrocious burglary at 2 o'clock yesterday morning. Father Egan was sound asleep when a rustling of the clothes awoke him. He saw two men and a boy standing about his bed and as he attempted to move, one of the men said: "Oh, you needn't be alarmed, Father Egan, for we've got your gun!"

The reverend gentleman kept a revolver under his pillow but this had been taken before he awoke. The burglar who spoke so politely was armed with a club and forced Father Egan to hand over his gold watch and chain and $35 in money with a "shell out, damn you, or I'll make you shell out."

Then the two men at the suggestion of the boy tied the priest's drawers in his pants, hoping thus to prevent him following. But the boy remarked: "Better tie the —— or he'll give us trouble."

"We'll see to that" said the men, as they tied up the trousers.

Father Egan, after the party left, went across the road to the house of "Billy" Chatterly, whom he aroused. The party went together to the house of Postmaster Lindsay, which they found open, but unburglarized, the burglars evidently having been scared off. Then they drove to Toronto and notified the police. Yesterday afternoon Detective Davis arrested a well known horse thief named James Spring, who lives at No. 54 Carr-street, as one of the burglars. It is believed that the whole gang will be captured.

Acting upon a telegram from the Ottawa police authorities, Detective Cuddy yesterday arrested A. D. McLamin, who till recently was employed by G. W. Ryerson, the keeper of a week-ly payment store in the Dominion Capital. McLamin was Ryerson's collector and skipped out two weeks ago. He is charged with embezzling certain articles and money amounting in value to $150. An Ottawa official will arrive to-day to take the prisoner to Ottawa. McLamin has been employed by Hewlett Bros., King-street, since his arrival in Toronto.

The service concluding the celebration of the Feast of the Hebrew New Year was concluded yesterday, when a service was held in the Richmond-street Synagogue. Rabbi Phillips took occasion to remark, the building being crowded, that when he took charge five years ago there were 275 Jewish families, and now there are fully 600.

Judge McDougall yesterday gave judgment in the appeal of Adelaide Seymour against a conviction by Justices of the Peace Sutter and Millar of keeping a house of ill fame at 49 Queen-street east, for which she was sentenced to six months in the Mercer. His Honor decided that the conviction should be quashed because it did not bear on its face anything showing the jurisdiction of the magistrates to convict in the absence of the Police Magistrate.

Well Tested.

"I was nearly dead with cholera morbus, one bottle of Extract of Wild Strawberry cured me, and at another time I was so bad with summer complaint that I thought I would never get over it, when two bottles cured me." Mrs. E. Askett, Pell, Ont. 2w38d

Reasons why you should purchase Fluid Lightning in preference to all other remedies are:—Rapid results—cures instantly. It is easily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. Try it for Neuralgia, Toothache, Headache, Rheumatism. THAT OATH.

Business is Business. Dirt is Dirt, and when it comes to throwing dirt, count Gough out.

Supposing on oath from mere hearsay I gave the Aurora record of Mr. Sheppard, what would the people say about me? Simply, that GOUGH was a Coward.

But never fear, Mr. Sheppard, I am not going to resort to such mean contemptible personalities. However, in your reckless oath there are two things I am compelled to show you up in.

1st, in your advertisement in the *Times* you positively state, GOUGH bought his bags off you, but now on your own sworn testimony lo! and behold you give this the lie, for you swear you did not sell GOUGH bags but that a certain farmer bought two dozen from you, who afterwards stated to you that he resold them to GOUGH or one of his Salesmen.

Which is correct? your oath or your advertisement? answer this, as both cannot be truth, and in either case you stand self-convicted.

The next point in your misleading oath is this, you swear that a certain party stated he bought Clothing from GOUGH on conditions that he, GOUGH, would refund the money if the goods were not satisfactory, and that this said party afterwards returned the clothing to GOUGH and that GOUGH refused to refund the money, and kept both clothing and money. I deny this and I defy you to prove your friend s statement to be true and now that you have sworn by him, be a man and give his name and if I don't prove that it is as false as your oath is misleading I will donate $500 to any charitable institution in Peterborough.

Remember, your position is a mean one unless you produce evidence to back it. You have taken an oath full of insinuations only, which is cowardly, and if you cannot give the public more proof than mere hearsay, the people will not be slow to judge your oath and your motive. Besides if your friend will pass in his name and prove what you swear you believed to be true you will have a chance to take $500 more out of THE WONDERFUL CHEAP MAN, if he cannot prove that it is false.

One more word Mr. Sheppard and I am done with you. You state that you are worth over and above all Liabilities, $10,000 (wonder you did not swear this), well, it is an insinuation that I am not—you may be worth $10,000 I don't know, but one thing I do know the Mercantile Agency rates GOUGH to be worth twice as much money as you, and moreover in their July report they say Gough's credit is good, and they don't say this of yours.

Now, Mr. Sheppard, these little personal attacks are not business like, and had you not advertised what you positively knew to be false (your oath proves this) I would never have advertised that I could sell your clothing cheaper than you can buy it and make a profit out of it. But now that I have stated it I will stand by it or loose $500 or $1000. Do you accept or do you not, for this and this only will prove which, you or I, are in a position to sell Clothing the Cheapest.

Surely this is the right time and the right place for you to prove your "Back bone."

Now, Mr. Cheapsides I am done with you unless you accept my challenge, and in conclusion let me assure you the more you bring my business to its true light the better will I like it, for let me tell you since you came here my business has almost doubled, which proves that the people appreciate the man who put down the Prices of Clothing and continues to keep them down. It also proves my motto is square dealing, otherwise the people would not so liberally patronize as they do.

The Baseball Scores—Other Items of Interest to Sportsmen.

TORONTO, Sept. 21.

Toronto and Jersey City played two games yesterday afternoon and it fell to the lot of Powers' men to check the Torontos after the latter had won fifteen straight victories. The home team barely escaped defeat in the first game, several decisions of Umpire Emslie favoring the visitors. In the second game he was equally at fault and was hissed time and again. Emslie's failure to make Shaw face the batter is hard to account for, as he has been umpiring long enough to understand the rules. Score:

Donohue Outrows Curran.

HAMILTON, Sept. 20.—J. J. Donohue of Hamilton and R. Curran of Orillia rowed a well contested race this afternoon on the bay side of Hamilton Beach for a gold watch. The distance was a mile and a half straightaway. A good many Toronto men were present and they backed Curran, who is a member of the Toronto Baysides, heavily, giving long odds. Curran got away first and at the start was nearly a length ahead. Donohue, however, rapidly pulled up to him, and for about a mile a very pretty race was rowed. Then Curran weakened and Donohue rowed from him easily, crossing the line leisurely fully six lengths ahead. Curran did not finish. The water was smooth and the weather pleasant. A. F. Jury of Toronto was referee.

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain. eodw

Mrs. J. M. Phalen, of Sydney Mines, N.S., had chronic rheumatism for two years' and got no relief until she tried Burdock Blood Bitters. Two bottles cured her. Saintly Sarcasm.

A brother in prayer meeting in a neighboring town prayed for the absent "who were prostrated on beds of sickness and sofas of weakness."

I have been bothered with catarrh for about twenty years. I had lost my sense of smell entirely for the last fifteen years, and I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did. My sense of smell is partly restored; it seems to be improving all the time. I think there is nothing like Ely's Cream Balm for Catarrh.—Mrs. E. E. Grimes, Rendrill, Ohio. eodw38

A Lucky Escape.

"For six years I suffered with my throat and enlarged tonsils. I was very weak; I doctored four years and had advice from three doctors; they said I would have to undergo an operation. I tried B.B.B. instead. One bottle cured me." M. A. Squelch, Raglan, Ont. 2w38d

THE WAR CLOUD BUSTED.

VICTORY has Perched on the Banner of

PETERBOROUGH'S GREAT CHEAPSIDE!

And SHEPPARD, by common consent, will get $1,000 for being the **Cheapest Clothier in Peterborough,** having knocked the Wonderful Cheap Man completely out. "Business is Business; Dirt is Dirt, and when it comes to throwing Dirt, then Count" the only original teddy out, and he will hand over that $1,000 like a little man: For the following reasons;—

Sheppard sells a full size Man's Suit for $2.95, and better Goods than a Suit to fit a Child about 9 years old sold by the Wonderful Cheap-Man on Saturday for $3.00; but marked $3.50. This is how it was:—A Lady purchased a Child's Suit on Saturday last, Sept. 17th, 1887, at the Store of the Wonderful Cheap-Man. It was marked thusly:—Lot 5375, Breast 27, Waist 26½, Age 9, Price $3.50. It was pure Shoddy, being held together by cotton threads, and Sheppard is free to say that that was the dearest Suit sold in the Town of Peterborough for the last two years. **Full particulars are given because of the $1000 involved, and, further, that this decides who is selling the Cheapest Clothing** in Peterborough. SHEPPARD would have sold that Lady a Suit, Pure Wool for that money, and worth two of the one she got.

$1,000 to Go to the Charitable Institutions of Peterborough.

I had first decided to give the agencies a chance of jumping up my rating that $1.000, but after considering the matter and finding that never in any case have I been asked for an endorser to my paper, and that no relative or any other persons have ever endorsed my paper to the extent of one cent, I have come to the conclusion my credit is as good as yours and will ask you to hand over the $1,000 to the Charitable Institutions of Peterborough.

Now, Sir, there is a good story told the truth of which can be vouched for, but for the honor of at least making an effort to keep up your self-styled name—The Terror of High Priced Clothiers—do not allow the same to be said of you in the case above. A man purchased a suit for $15.00 at the store of one of the largest Advertisers in that section of country. It was guaranteed pure wool; but after examining it carefully at home, he came to the conclusion that he had been dealing with some one sharper than himself. Finding a make of wool, differing some from anything he had ever seen, it dawned upon him, that he had heard of wool of that kind, so the suit was returned. The merchant bet $25.00 that it was all wool, and the bet was accepted, the decision being left to a neighboring merchant, he found that the $15.00 suit, was wool faced and shoddy back, pure unadulterated shoddy, but what of the $25.00 bet, was it paid, not much—muchly—as it were.

The Weather and Weather Prophets.

Wiggins—E. Stone Wiggins, the greatest living weather prophet is again out in his reckoning. The terrible storm which he predicted was to take place on Monday last has failed to put in an appearance. Vessel masts remained fallures by his forecasts, and Mr. Wiggins is another failure. But there is one prophet who never fails—only that is not the way to spell his title. It should be "profit" not "prophet". Gough, the Wonderful Cheap Man, the "profit" never failing. The profit is all on the side of the public. He keeps a tremendous stock of ready-made clothing marked down in price so low that the profit is all on the side of the buyer. By doing an immense business Gough's aggregate sales are so large that a small profit on each transaction, foots up a large amount. Thus at the same time both the public and Gough are benefitted. His immense stock is now complete, and the public can get the most tremendous bargains ever offered to the world. Gough has enemies, for discord breeds hostility, but the surest answer to his detractors is to be found in the monumental bargains which load his shelves. Call and see Gough and be convinced. d66

Phonography

As a study, has been recently introduced into the school; but the growing demand for it in the counting-room seems to warrant us in advising students to acquaint themselves with its principles and become, if possible, practical short-hand writers. Such knowledge, together with type-writing, prepares the pupil to fill a lucrative position which would otherwise be closed to him. Ladies are especially adapted to this kind of services and the demand for those who can write in short-hand from dictation, and manipulate the type-writer skillfully, is rapidly increasing.

To meet this growing demand, we have opened a department of short-hand and type-writing, where students will receive a thorough preparation for amanuensis work.

Twelve Days' Mission.

On Wednesday next the Rev. E. P. Crawford, Rector of Trinity Church, Brockville, will begin holding a twelve days' Mission at St. Luke's Church, Ashburnham. Mr. Crawford is anxious to meet all those interested in the Mission on Tuesday next, especially those desirous of working and aiding the objects had in view. He will meet them at 7:30 p.m., when the Rector will formally hand over the parish to the care of the Missioner. The Mission services proper will begin on Wednesday, September the 21st. There will be four services daily, viz.: Holy Communion at 7.30 a.m., morning prayer at 10 a.m., evening prayer and instruction at 4.30, and the Mission service and sermon at 8 o'clock. All are invited.

Our New Serial Story.

In the next issue of the Weekly EXAMINER will be found the opening chapters of our splendid new serial story, "Loves Tribulation", or "The Harvest of Sin", and a liberal instalment will be given weekly till concluded. It will be found a story of unusual literary merit, full of thrilling interest from the opening chapter till the end. Those who do not get the Weekly EXAMINER should subscribe now. Only $1.00 per year—25 cents for three months. Besides the story always running, the weekly is full of live, interesting matter. County residents should secure it, and secure full reports of the several Fall Exhibitions, with prize lists complete.

The Barracks.

Capt. Williamson, of the Salvation Army, is busy negotiating for a loan and building material for the new barracks which is soon to be erected on Simcoe street. The Commissioner, when here, stated that the work would be gone on with as soon as possible, and official authority to proceed is expected every day from headquarters. The Captain has in his possession a plan of the front elevation of the new building, which shows a handsome brick structure of the customary semi-military appearance of Salvation Army barracks, with a basement and officers' headquarters. The recent anniversary and the fact that new barracks are being built and loans negotiated in other places, has delayed operations here.

A Narrow Escape.

Mr. G. W. Hall had not got to sleep after returning from the fire on Monday night, when he was alarmed by some person who informed him that the roof of the building occupied by Mrs. Byrne, Simcoe street, was on fire, having caught from a blazing piece of shingle. The alarm was given just in time to admit of the blaze being easily put out and another conflagration averted.

Business Change.

Owing to ill health Mr. J. Braden, late of the "Pantry", has been obliged to retire from active business, and has accepted a lucrative situation in Mr. Cox's office. His grocery and fruit business has been purchased by Mr. James W. McCabe, of Elora, Ont., who will continue in the present stand.

Police Court.

TUESDAY, Sept. 20.

Police Magistrate Edgerton held court at Ashburnham this afternoon.

A charge of violating the Scott Act, preferred against John O'Connor was dismissed. Hugh Hamilton pleaded guilty to a first offence and was fined $20 and costs. The offence was committed on O'Connor's premises.

Hugh Beckett, of Norwood, pleaded guilty to a second offence, and was fined $100 and costs.

Evidence was taken in the case against H. Cherrit, charged with a second offence, and judgment reserved till next Friday.

A Superb Hearse.

Last night Mr. D. Bellegham received, per G.T.R., the beautiful new hearse made for him by Messrs. J. B. Nash & Co., of London. This new hearse is a most complete, tasteful and appropriate equipage for the use it is intended to serve. While it is not ostentatiously costly, it is rich and substantial in appearance. The top is supported on heavy pillars with fluted shafts and Doric capitals at each of the four corners, and the sides are formed of plain plate glass, 6x3 feet. The top is surrounded by a silver railing of square rods set diagonally and is also surmounted with funereal urns with carved drapery. A central urn is provided for appropriate symbols for Masonic, Oddfellow or other society funerals. The seat is flanked by magnificent lamps and covered with a rich black hammer cloth. The entire equipage is elegant and in good taste, and the makers have successfully embodied Mr. Bellegham's ideas of what is becoming and proper in a vehicle of this kind. He is very much pleased with it. It is inquired why with one excellent and elegant hearse he procures another, and his explanation is, that with one hearse he is kept so busy he has no opportunity to have it sent to a carriage shop for repairs or repainting, etc.

These Jubilee Banners.

It will be remembered that the committee of management of Peterborough's jubilee celebration had a small surplus over expenses, which was devoted to the purchase of memorial banners for the Sunday schools taking part in the demonstration. The order was given Mr. J.J.Turner, and he has just delivered them to the different schools. The banners are of blue material, 30x40 inches, with a gold fringe along the bottom, and the name of the school receiving it inscribed in imitation gold letters on each. They are handsome jubilee mementoes. The Sunday schools receiving them are St. Paul's, St. John's, St. Andrew's, St. Luke's, the Charlotte street Methodist church and the Baptist church. The George street Methodist church school receives the large white banner which was carried at the head of the children's procession on jubilee day.

A Sensation Spoiled

This morning about 7:30 o'clock, while the fog still hung heavy over the town, a cab-driver found in the middle of the road near the Hunter street iron bridge, a coat and vest and a bottle of liquor. In the vest pocket was a watch. He reported the matter at police headquarters, and the ownerless articles of wearing apparel were taken charge of by Acting Chief Adams. Straightway rumors of murder, suicide and drowning began to circulate, and the newspapers reporters were sharpening their pencils and gathering doubtful data for a sensational, blood-curdling article, when a man and his wife appeared at the station and laid claim to the clothes. They proved their property and took it away. The man was drunk and in his shirt sleeves, and, it is supposed, took a drunkard's freak and whimsically cast off his garments.

Penmanship.

The appearance of an accountant's books and the facility with which his work is executed depend largely on the style of his penmanship; hence this forms an important feature in the course of college instruction, and every pupil is taught and required to become an easy, rapid, and plain writer. In view of its great importance, this branch of study will receive increased attention during the coming year. The department of writing is in charge of a skilful master of long experience and wide reputation. Students may join this department alone, and special inducements to study and practice penmanship are offered to pupils of other schools who do not enjoy the advantages of a professional teacher of the art.
PETERBOROUGH BUSINESS COLLEGE.

Anniversary, Thursday Night.

A fine programme has been prepared for the public Anniversary of the Young Men's Christian Association, in the George Street church, on Thursday night. Addresses are to be given by the Secretary of the Toronto Association, Mr. Wm. McCulloch, who is a first-class speaker, and by Messrs. Geo. M. Roger, W. H. Stevens, the new General-Secretary, and Geo. E. Williams, the retiring Secretary. The congregational singing will be led by the brass quartette of the Association, and the male choir, which has been under Mr. Seward's training, will sing several selections. Everyone will receive a hearty welcome.

Lindsay Central.

Lindsay Central Exhibition opened Tuesday, with a large attendance, and promises of a highly successful fair. The entries exceed by some hundreds the record of last year and promise a lively competition in all departments. Local manufacturers make a fine display. The fruit is of remarkably good quality, while the grain, notwithstanding the severe drought, comes out well. It is expected the display of live stock will be an excellent one, as on the first day there was a fair show. A good number of visitors from town and vicinity are "doing" the exhibition.

The Bicycle Race.

Messrs. Greatrix and Cooper had arranged to race on the Driving Park here for the $50 gold medal on Oct. 7th, but the directors of the Central Exhibition, wishing to make it an attraction of the fair, have offered to bear half the expense of the cup if the contestants will race on Oct. 6th. It is likely the liberality of the directors will be accepted and the date changed.

The Bigamist in the Toils.

The *Mail* says that Henry Prax pleaded not guilty at the Toronto Police Court yesterday to the charge of neglecting to support his wife and was remanded till Friday next, when a charge of bigamy will likely be laid against him.

News Nuggets.

—A gas company is about to be organized in Bowmanville.

—The Belleville *Ontario* issues a special supplement during the fair.

—Rochester Fruit and Confectionery Store, George street, south. E. S. Brown.

—Call at the Rochester Fruit Store for confectionery, if you want the choicest kind.

—The Bay of Quinte exhibition at Belleville is reported in the papers to be a great success.

—Emerson, Man., *Times*:—"Mr. Walton thrashed 1595 bushels of wheat yesterday, on the large Winkler farm. Not a bad half-day's work.

—Yesterday, says the Port Hope *Times*, orders came to tear down the remainder of the Midland Round House, and men are busily working, demolishing what was left after the first onslaught.

—Burglars blew open the safe in Foxboro post office about 2 o'clock Tuesday morning but the noise of the explosion startled the post master, who was up attending to a sick horse, and frightened them off before they secured any booty.

—A man named Alof Criesten, 24 years of age, while stealing a ride on an east-bound Grand Trunk freight train, fell between the cars at Colborne, having his right leg badly crushed and other portions of his body badly injured. The limb was amputated, and he was conscious long enough to give his name and age, but no other particulars, and died at 2 o'clock Sunday afternoon. His body was placed in a coffin and buried on Monday, no inquest being considered necessary.

—As an outcome of the school fracas at Smith's Falls, Principal Robertson had to appear before the magistrate and pay a fine of $10 and costs. The principal refused to resign, as requested, and the trustees locked the doors and advertised for a new teacher. A petition, signed by thirty-seven of the students, has been presented to the board requesting them not to dismiss the principal or ask him to resign. The assistant, Mr. Mitchell, accepted $50 and resigned.

HOW FARMERS FARE.

Following bad advice, the Canadian farmer sometimes goes farther and fares worse.—*Toronto World.*

Right you are, says the Hamilton *Times*. Those of them who endorsed the high taxation policy of the present Government certainly followed bad advice and they have fared worse. They allowed themselves to be taxed for the benefit of rings and monopolists, and they now discover that by no possible agency, under the present regime, can they secure any compensating benefits in the disposal of their produce. The farmers of Manitoba who sent men like Royal and Ross to represent them, under the belief that they would work for their interests, have a similar experience. They followed bad advice, and now find that their action is turned against them by those who would keep them in the thraldom of a railway monopoly. "The men you sent to Ottawa to represent you vote for railway monopoly," say the monopolist organs, "therefore you must endorse the C. P. R. monopoly." In how much better a position would the Manitobans have been had they refused to send a man to Ottawa who did not pledge himself to stand by the Province as against the millionaires? It is clear that the Toronto Tory organ, in announcing the statement that Canadian farmers., following bad advice, go father and fare worse, has stumbled on a truism for once; the saying can be applied with overwhelming strength of meaning to recent experiences of the agricultural classes in this country. No wonder the agitation for a change is on the increase.

Preparing to Build.

A quantity of large stone (and it is said 100 car loads are to follow) with building machinery has been unloaded at the Hastings station, and the *Star* says the material is to be used in the construction of stone piers for the new railway bridge.

To-morrow

never comes, but is alway here and so is W. J. Morrow—at the Town Clock Grocery—with the finest stock of fine groceries, fresh teas and cheap sugars ever placed on a grocer's shelves in this district.

An Upset.

A farmer named Campbell, of North Monaghan, received a cut over the eye and sundry bruises by falling from a load of hay on the market square this morning. In leaving the square, instead of passing over the high crossing at right angles to it, he turned out sideways, with the result that the load was upset and himself painfully injured.

AFFAIRS AT THE CAPITAL.

AN UNFOUNDED REPORT THAT THE QUEEN IS TO VISIT CANADA.

The Return of the Polling in the Election in Ottawa County—The Nationalist Candidate Had a Majority of 1293—Winding Up an Insurance Company.

OTTAWA, Sept. 21.—Somebody in London has apparently been stuffing one of the New York papers with a story that it is the intention of Her Majesty to shortly pay a visit to her possessions in America, as two New York papers to-day wired their correspondents for particulars about "the Queen's visit." Of course nothing is known here of any such intention on the part of Her Majesty, and nothing is more improbable than that such a visit is contemplated.

The official declaration of the late election in Ottawa County was made to-day, and Mr. Rochon was declared elected by 1293. The vote stood: Rochon, Nationalist, 3471; Cormier, Conservative, 2178.

The Department of Marine has called for tenders for a new lighthouse at Campo-Bello Island, C.B.

The affairs of the Canadian Branch of the Briton Medical and General Life Association, which failed sometime ago, are being wound up by the Dominion Superintendent of Insurance, who has just issued a circular recalling all policies. There are about 800 Canadian policy holders. The assets will only allow about 30 per cent. of the surrender value of the policies.

The Department of Agriculture has received some samples of roots grown on the Norwegian colony near Whitewood, N.W.T.

THE PROVINCIAL EXHIBITION.

Eight Thousand Persons Visited the Grounds Yesterday.

OTTAWA, Sept. 21.—There was a great improvement in the attendance at the Provincial Exhibition to-day. Official returns of the number who passed through the turnstiles have not been furnished to the press, but it is estimated that there were at least 8000 persons on the grounds. To-morrow is expected to be the great day. Sir John will probably pay a visit to the grounds in the afternoon, and a party of officers from H.M.S. Tourmaline is expected up from Montreal.

A Woman Burned to Death.

OTTAWA, Sept. 21.—An old woman named Laurien, nearly 90 years of age, living at Gatineau Point was so badly burned on Monday night that she died to-day. It appears that in trying to blow out a candle her hair caught fire and communicated to her clothes and she was badly burnt before assistance reached her.

The Ayer Case.

OTTAWA, Sept. 21.—Argument in the Ayer case was continued all day and was not concluded at 3 o'clock. It will probably be finished to-morrow.

THE WORK OF TRAIN ROBBERS.

Thirty Thousand Dollars Taken From an Express Car on the Texas Pacific.

FORT WORTH, Tex., Sept. 21.—Masked men boarded the Texas and Pacific east bound express engine last night as it pulled out of Benbrook, a small station twelve miles west of here. One of the robbers entered and cleared out the safe, and then went into the mail car. Every registered letter in the car was secured by the robbers. The work was done in ten minutes. The train was a through express from San Francisco, and the booty secured is placed at $30,000. The same train was robbed on the same trestle last June. Guards were in the passenger coaches, but they were left over the trestle. No attempt was made to molest the passengers.

The U.S. Treaty with Spain.

WASHINGTON, Sept. 21.—The Department of State furnishes for publication the memorandum of an agreement between the Government of the United States of America and the Government of Spain, for reciprocal and complete suspension of all discriminating duties of tonnage of imports of the United States and the Islands of Cuba and Porto Rico, and all other countries belonging to the Crown of Spain, upon vessels of the respective countries and their cargoes.

The Liberal Gets the Seat.

HALIFAX, Sept. 21.—Justice Hensley delivered judgment at Summerside, P.E.I., to-day in the protested election case of Hackett v. Perry, confirming Mr. Perry, Liberal, in his seat.

THEY THREATEN BALFOUR

PLOTS AGAINST THE IRISH SECRETARY'S LIFE SAID TO BE AFOOT.

Harrington, Who Has Brutally Insulted the Witnesses at the Mitchelstown Inquest, Asks for Protection Against Press Comment.

NEW YORK, Sept. 21.—A special cable despatch to The Mail and Express from London says: Mr. Balfour is receiving numerous menacing letters, which threaten him with personal injury, and many communications which purport to reveal the existence of plots against his life. Other members of the Government have been the recipients of similar missives in less number. The police are taking every precaution to defend the Executive and officials.

The Leaders Consulting.

DUBLIN, Sept. 21.—The proclamation of the National League makes it criminal to convoke, hold or publish meetings, or do anything in connection with the league. The branches of the league were not prepared for the proclamation, not expecting it so soon. The Nationalist leaders are hurriedly consulting as to what measures shall be taken.

A Meeting Prevented by the Police.

LIMERICK, Sept. 21.—The Poor Law Guardians of Limerick arranged to hold a meeting to-day for the purpose of considering and condemning the conduct of Rev. John Delmege, a large landlord in Limerick county, for harshly evicting tenants unable to pay their rents on his estates. Delmege's friends, however, circumvented the guardians so that when they arrived at the workhouse they found it surrounded and guarded by armed police, who refused to permit the meeting to take place.

Sturdy Beasts Moving Upward.

DUBLIN, Sept. 21.—Mr. Kilbride, who accompanied William O'Brien to Canada on his tour against the Marquis of Lansdowne, was to-day elected without opposition to represent South Kerry in the House of Commons.

Comments of the Press.

LONDON, Sept. 21.—The Daily News, commenting on the proclamation of the league and its branches, says: "This marks the final suppression of the political influence of the Liberal-Unionists. They will henceforth be slaves, not masters, of the Government."

The Standard says: "The law is now a reality. Power has passed away from juries of perjured partisans. Dillon and his kind are naturally anxious to sustain the errors of the league. We do not disguise from ourselves the fact that the struggle will be a sharp one."

The Dublin Freeman's Journal says the localities in Ireland proclaimed yesterday by the Government are those in which the most sweeping evictions have taken place, and argues that these localities have been selected because the landlords are losing the fight they alone provoked.

They Will Not Obey the League.

DUBLIN, Sept. 21.—The members of the league in the proclaimed localities are uniting for common action. They will hold a number of meetings on Sunday in defiance of the law.

At a meeting of Kilkee carmen to-day it was resolved to defy the league's orders not to drive the police. The carmen afterwards drove the police to and from the Moveen evictions.

Mr. Edmund Dwyer Gray, M.P. for Dublin, will leave on Sept. 28 to make a tour of America.

Gladstone on the Mitchelstown Riot.

LONDON, Sept. 21.—Mr. Gladstone has written a letter to a Glasgow Liberal in which he deplores the grave acts of the Irish police against the people of Mitchelstown, and what is still graver, the approval of those acts by the Government. He continues: "I trust the country will not be slow to condemn that indecent approval, given without awaiting the result of the inquiry, and thereby discourage a repetition of the proceedings it was eminently calculated to promote."

What O'Brien Will Do.

CORK, Sept. 21.—Wm. O'Brien states that in the event of his being sentenced to imprisonment he will absolutely refuse to wear the prison garb or to perform menial offices, as a protest against the treatment of political prisoners as common culprits. He will resist such treatment to the last, he says, even though his life be sacrificed. Mr. Dillon will visit him to-day. Mr. O'Brien maintains a cheerful demeanor. He receives daily bouquets and presents of fruit, game etc., from ladies of Cork. The mayor and municipal authorities, clergymen and other distinguished residents of Cork will attend the trial in order to show their sympathy with him.

Harrington's Offensive Conduct.

MITCHELLSTOWN, Sept. 21.—John Dillon testified to-day as a witness of the Mitchellstown riot on Sept. 9, in the inquest over the victims of the police firing.

Mr. Harrington complained that a Dublin paper had declared that the police would be justified in making him acquainted with the peculiarities of a horse-pond. The language he said was an incitement to the police to commit violence, and the court should not permit such language to be used with impunity.

Mr. Murphy, while not justifying the course of the paper, considered that Mr. Harrington, by calling Sergeant Ryder a murderer and villain, provoked comment. Such language had never been uttered without meeting reproof in any court in the civilized world.

Mr. Harrington retorted that he should continue to use the same language.

The coroner deprecated the retort.

Witnesses were called who defended Mr. Harrington's attitude.

Sergeant Ryder was recalled. In the course of his testimony he said: "Mr. Harrington called me a murderer, scoundrel and ruffian, and said he would kick me off my chair."

Mr. Harrington: "I call you a liar, in addition to scoundrel when you make such a statement, and I will call you murderer again before I have done with you, and I will get for you the punishment of a murderer."

An Anarchist Circular.

CHICAGO, Sept. 21.—A circular of deep red anarchistic tendencies is being circulated in Chicago. It is headed, "To the workingmen of the United States and North America." It denounces the action of the Supreme Court in upholding the decision of the lower court in the Anarchist cases. The circular refers to Capt. Bonfield as "the notorious police bandit," and villifies Judge Gary without stint. The circular is signed, "The Federation of Trade Unions," and was printed in New York. Police Capt. O'Donnell telephoned this afternoon all over the city to have all persons found distributing the circulars arrested.

Getting Ready for the Fray.

CHICAGO, Sept. 21.—President Coyne, of the Street Car Employes' Association, says that in anticipation of the West Division Company refusing the demand for increased wages, the men have agents engaging vehicles of all kinds to the number of 300, with which to furnish transportation for the public when a strike is inaugurated to-morrow. The strikers will work grabs, turning the fares collected into their treasury. About 1200 men will be involved.

TORONTO TOPICS.

Forgers From Virginia.

TORONTO, Sept. 21.

A detective and lawyer from Staunton, Va., have been scouring Canada for the past two weeks in search of two carriage builders of that city who are wanted for forging paper to the extent of about $40,000. Their names are Charles E. Cliesdinst and George M. Bowdell, and they were in partnership until March last, when they were forced to fly. Detective Wilkes came to Toronto and afterwards went to Brantford, where he captured Cliesdinst on Monday, and through a clever ruse of Inspector Stark Bowdell was run down in Orillia yesterday. The Inspector telegraphed to three central points—Lindsay, Peterboro, and Orillia—giving full particulars, with the result that Bowdell was found working at his trade as a carriage builder. Both gentlemen will be extradited.

Col. Gzowski, who was on his way to his shooting preserve near Chatham, has been summoned to Montreal by a despatch announcing the dangerous illness of his son, who is quartered there with his regiment.

In December last Baron Von Heimrod, consul of Germany in Toronto, resigned the honor owing to ill-health. The Emperor William accepted the resignation. The Baron last Saturday handed over the papers of the consulate to Mr. Samuel Nordheimer, who is acting consul.

Yesterday James Spring of 54 Carr-street was charged in the Police Court with being one of the burglars who entered the house of Rev. Father Egan at Thornhill early on Tuesday morning. He pleaded not guilty and was remanded. Father Egan identified him as one of the two men who, with a boy, robbed him while in bed.

Yesterday the Consumers' Gas Company commenced pulling down their lamp posts at the corners of those streets which are now lighted by electricity. The postoffice letter boxes attached to these posts were thrown into the gutter. The company alleges that though the city postmaster has repeatedly brought the matter to the attention of the department at Ottawa, no steps have been taken towards purchasing the disused posts hence their action. In all probability the Postmaster-General will to-day warrant the purchase of the posts.

The revival services conducted by Rev. Dr. Munhall at the Granite Rink are increasing in interest. There are two daily services, one at 3 p.m. and the other at 8 p.m. The afternoon meeting is composed largely of Christian workers and the form of service has more of the devotional element than the evening one.

THE HALLETT SCANDAL.

The Pall Mall Gazette Colonel Apparently a Bad Man.

LONDON, Sept. 21.—The Pall Mall Gazette continues to attack Col. Hughes-Hallett, and to insist that he maintained criminal relations with Miss Selwyn. This afternoon's Gazette says the young lady was accustomed to call him father and that he often declared that he regarded her as his child. In addition to this charge The Gazette alleges that Hallett successfully used his influence on the young lady to induce her to will her fortune against her own family and child.

Hallett's host at a country house, the paper adds, discovered the nature of the intrigue between the Colonel and Miss Selwyn, who was with him, and expelled Hallett instantly from the house, setting his luggage in the street at 2 o'clock in the morning and leaving the Colonel there with it. Afterwards this same host telegraphed Mrs. Hallett as follows: "Your husband is a villain and I have turned him out from my house."

Col. Hughes-Hallett denies the charge made against him in The Pall Mall Gazette this afternoon. He states that during the life of his wife Miss Selwyn always resided with her guardians or with relatives, that she never called him father, and that he never regarded her in the relation of a daughter. He denies knowing anything about her will, and declares that he did not even know she had made a will and that he never knew she had made a bequest to him. The country house incident, he says, has been wrongly stated. He refrains from saying what occurred at the place, but gives his host's name.

THE GALWAY MOONLIGHTERS.

Widow Sexton Tells How She Was Persecuted by the League.

GALWAY, Sept. 21.—The gunboat Orrell, while conveying the prisoners concerned in the killing of Constable Whelan to court for trial to-day, grounded two miles from shore. The accident caused great confusion. The prisoners, heavily ironed, were placed in boats with difficulty and rowed ashore, watched by a double guard. The demeanor of several of the prisoners showed that they would risk their lives on the merest chance of escape.

At the inquiry to-day Widow Sexton, mother of the farmer whose house was attacked by the prisoners, stated that after the ban of the league had been placed upon them they could not get food or other necessaries of life in the locality; that nobody was permitted to work for them and that she was watched incessantly in order that people might be prevented from speaking to her. She identified only one of the moonlighters, having seen him pull his mask off at the time of the attack.

Cleveland to Visit the West and South.

WASHINGTON, Sept. 21.—The President and Mrs. Cleveland will leave next week for an absence of three weeks in the West and South. They will be accompanied by no officials, the other members of the party being the President's Private Secretary, Col. Lamont, and two personal friends of the President, Mr. Wilson S. Bissell of Buffalo, N.Y., his former law partner, and Dr. Joseph D. Bryant of New York, who was a member of his military staff while Governor.

A Calamity Averted.

PEORIA, Ill., Sept. 21.—On the Chicago, Rock Island and Pacific Railway last night it was discovered by a section foreman that a bridge over a chasm fifty feet deep had been burned out. He went one way and flagged the passenger train, while his wife stopped one on the other side.

A FIGHTING PARSON.

The Part a Methodist Minister Took in a Riot at Burlington.

HAMILTON, Sept. 21.—Rev. Solomon Cleaver is the Methodist minister in Burlington. Like most Methodist ministers, he is an ardent Scott actor, and does what he can to have the act enforced. In assisting the officers of the law yesterday, the reverend gentleman got hurt. Some time ago a Scott Act warrant was issued against young Peter Zimmerman, but somehow the young man always contrived to elude the officers of the law. Yesterday he and his brother Levi were threshing at Edward Thomas' place. In the midst of their work they were disturbed by the appearance of two constables from Milton, who were accompanied by Wesley Crooker, a Burlington man, and Rev. Solomon Cleaver, who was armed with a heavy stick. One of the party went into the barn and said to the brothers, "There's somebody outside wants to see Peter." So Peter went outside. He had hardly got out of the door before the two constables, without showing their warrant, pounced upon him and began to choke him. Young Peter Zimmerman is a big, brawny fellow and he fought the constables savagely. The fight was a fierce one, and the constables were undoubtedly getting the worst of it. They called on Crooker for help, and Crooker piled in. Levi Zimmerman grabbed Crooker and pulled him out of the scrimmage.

When Levi was hauling Crooker off, Rev. Mr. Cleaver struck Levi in the face. Levi dropped Crooker and turned towards the minister. Mr. Cleaver raised his stout threateningly, but Levi wrenched it out of his hand and hit him over the head with it. While the constables' auxiliary forces were thus engaged and unable to help them, Peter broke away from their grasp, and ran. It is said that while Peter was running, Rev. Mr. Cleaver shouted to the constables, "Shoot him! Why don't you shoot him!" Mr. Cleaver went to a doctor and had his head dressed. Levi threatens to prosecute Mr. Cleaver for assault.

Locked Up on a Charge of Murder.

CINCINNATI, Sept. 21.—Officer Weeks of Louisville came here last night and asked the assistance of the police in arresting Geo. Williams, colored, on a charge of murder. He has made a statement that two colored men, Geo. Hood from Columbus, Miss., and Wm. Carroll, Nashville, Tenn., came to him last February and proposed to do a robbery. They went to a neighbor and putting him on guard on the road, Hood and Carroll went in and killed six of the family and came out with money and jewelry. He got nothing but a pair of pants and a pair of shoes for his share.

The Yacht Thistle.

NEW YORK, Sept. 21.—When the keel of the yacht Thistle was revealed to-day it was seen that there was not a straight line in her keel. Her bow made a sharp angle to the midship section, and from there a slight curve on the bottom of the keel. The principal shoulders of the yacht are amidships, or nearly so, and it is in that place that the model makes any pretence of beam.

Capt. Joe Ellsworth said, after looking very carefully over the vessel, that there was not enough boat to beat the Volunteer.

Steward Olsen of the New York Yacht Club, said she was more like a big cat-boat in build than anything else, and that all the critics said that, while admiring her, she was not the boat to stand rough weather, but they believed, as they have done all along, that she will be a very fast boat in light weather.

Checker Playing at Pittsburg.

PITTSBURG, Pa., Sept. 21.—Reed's mishap on Monday, by which he gave himself an uphill match to play, led to an interesting contest yesterday. From the start Reed formed the openings. A different one in each game, but secured no position which Barker was unable to draw. At the afternoon sitting Reed prevented Barker's favorite, the Glasgow, by playing 23, 18 at the second move, forming the single corner. Then, having the first side in the following game, he played the Bristol, which was drawn, and play was adjourned until 7 o'clock. In the evening Reed forced the work, but both the games, a cross and a Wheeler were drawn. Total score: Baker 1, Reed 0; drawn 7, with 42 games yet to play.

Albany Wheelmen's Meet.

ALBANY, Sept. 21.—The annual race meeting of the Albany wheelmen was held to-day at Ridgefield; attendance 1500.

The 1-mile novice race was won by G. L. Sterling, Poughkeepsie, in 3.12½. The 3-mile handicap was won by Burdick of Albany; time 8.47½. One-legged race, Robee of Albany won in 1.08½. One mile for Star wheels, Castenkor won; time 2.35½. One mile, New York State championship, won by Burdick in 2.39½. One-mile tricycle race, won by W. E. Crist in 3.26. Five-mile championship, Albany and Rensselaer Counties, Burdick; time 16.58. One-mile ride and run, Hall; time 4.30½. Two-mile handicap, Robee; time 5.44½.

Gossip of the Turf.

The stallion Artist dropped dead at the Paris, Ky., fair on Monday last. He was owned by Edmondson and Henderson, of Mexico, Mo., and was a very valuable horse. He was purchased in Kentucky three years ago at a cost of $9000, and was valued before his death at $15000.

John Spellman, the one time popular American jockey, has sold his race horse Strathspey to Mr. William Hendrie of Hamilton. The price paid was $1500. Strathspey has been placed in the care of E. E. Alsock, who trains Mr. Hendrie's horses.

Mooney, the Bomb-thrower, Indicted.

NEW YORK, Sept. 21.—Thomas J. Mooney, who threw an explosive on board the steamer Queen, has been indicted by the Grand Jury. The indictment has two counts, one charging him with arson in the second degree and the other alleging that he damaged the vessel with some explosive. Mooney was arraigned in court to-day to plead. As his lawyer was not present the case went over.

Express Robbery at Quebec.

QUEBEC, Sept. 21.—A bold robbery occurred at Levis last night. It seems that the agent, as is the usual custom, placed within a box in the express car an envelope containing $300. He had barely turned his back when some unknown person or persons entered the car, broke open the box with a wrench and made good their escape with the amount. The sleuths are on the track.

The Sultan Has Not Approved It.

AN OPEN CONFESSION.

When the Hon. Thomas White, Minister of the Interior, was in British Columbia recently, he delivered a speech at Victoria. On this occasion not being trammeled, apparently, by "party exegiencies," he managed to stumble on a little truth. Among other things Hon. Mr. White said:

"The recent heavy and sudden increase in rates of duty on many articles of import, especially on such as cannot be cheaply manufactured within the Dominion, and which are used in the construction of public works, has tended to adversely effect the trade interests of the Province; and, in view of the frequent and unexpected changes to which the customs tariff appears ever liable, engendering as it does a feeling of uncertainty and consequent lack of enterprise, it is to be hoped that the Government may, in response to the many representations that have been made to them on the subject, see fit to devise some remedy for the oft-recurring trouble. This Province, in view of its isolated position, feels more than others the evil effects of these sudden changes."

Mr. White simply voices a contention which the Liberals have long been making. The "National Policy" is being worked in the interests of monopolists and ringsters, which accounts for the numerous and sudden changes in the tariff. The people have three times pronounced in favor of a protective policy—the first time because they honestly thought it would be for the benefit of the country; the second, because they seemed to think, though it was unsatisfactory in its results, it had not had a fair trial and it was only fair play to give it another chance; the third time, because, to borrow the downright style of the Sage of Chelsea, they were "mostly fools". The people voted for a protective tariff for the reason that they were made to believe it was for the benefit of the country. Circumstances go to show that they were deceived; that the so-called National policy has been worked for purely political purposes, in the interests of rings and monopolists, who were cultivated by the Government party because their influence and money were useful at election times. This state of things was for a time denied, but the politicians have become bolder, seemingly thinking that as the people had meekly allowed themselves to be egregiously fooled three times in less than ten years there was no further necessity for keeping up appearances. Mr. White threw off the mask, and says, as plainly as the language of a diplomatic and official utterance may be permitted to say it, the substance of what has above been charged against the manipulators of the Canadian protective tariff. The people are subjected to heavy, ever-changing, ever-increasing tariff charges. Frequent changes, though disturbing to trade and commerce, would not be regarded as so pernicious, if they were in the direction of decreasing the burden of taxation and improving the condition of the country. But all the changes tend in an opposite direction. The tariff charges are not only made higher, but they are re-adjusted in the interests of monopolists to enable the latter to grind a little more out of the pockets of the people. The tariff is so worked that monopolists are enabled to combine to keep up prices and enrich themselves at the expense of the consumer. That manufacturing combinations are made for such purposes and that the Dominion Government has provided especial facilities for so doing is no secret. In truth so flagrant have been the operations of the ringsters that an organ of the monopolists, the *Journal of Commerce*, advises them to be a little more wary. In effect it says "your deeds are evil, therefore you should shun the light. Combine as much as you like, and look go with you, but don't be too open about it, practice the Spartan philosophy—steal all you can, but don't get caught at it." The monopolist organ throws out these words of advice to its monopolist friends:—

"Monopoly is now a word to conjure "with, and therefore it would be well if manu- "facturers would consult their own inter- "ests by abstaining from open combinations "until public opinion has simmered down "somewhat, or otherwise they may find "themselves belated with their own petard. "The cry of 'combination' is one of the "most effective weapons of the opponents of "of the National Policy, and therefore a "continuance of the formation of pools or "rings designed to control a monopoly of any "article of manufacture, or to advance its "price to a figure beyond that obtainable in "the open market, might possibly result in "such alteration of tariff as would render "their best laid plans abortive."

By the death of Mr. Brazzard, M.P. for Shefford, which event took place at Waterloo, Que., yesterday, another vacancy is caused in the Dominion Parliament.

ECONOMY IN FUEL.

A New Process by Which Waste Coal is Used—Recent Experiments.

From The New York Post.

Improved methods for obtaining artificial heat are always a subject of interest, and experiments in this direction are being made all the time to get heat at as low a cost as possible. The manufacture of water gas has been very successful, and as it can be produced at a very low price, without the nuisance of ashes and smoke, it is growing in favor and efforts are being made to run it into houses to be used for heating as well as for lighting purposes.

Another method of heating which is rapidly making its way, if the promoters of it are to be believed, is the pulverized coal process. A company has been formed in Philadelphia within a short time, and within the next sixty days the process will be ready for general use. The claims made for the method are many, and if one-half of them are well founded there can be no doubt of its success. One of the company said to-day: "In this country there are about 20,000,000 tons of coal annually wasted, being too fine for use. Of the total coal mined it is estimated that 4 per cent. of waste is made by blasting and handling, and 6½ per cent. is wasted in the breaker. Many attempts have been made to utilize this immense amount of wastage, and until now nothing has been successful.

"Until now only a very small quantity of this fine dust has been used. The requisites for success are, first, simple and efficient machinery to reduce the coal to dust at a very small cost; second, reduction to an impalpable powder; third, an automatic supply of coal dust and air, each capable of being regulated as will; fourth, the reduction of the coal and the simultaneous feeding of it with air into the fire box with the same machine; fifth, the intimate mixture of the fine particles of coal dust with air, so that each particle shall be surrounded by air as it enters the fire box, thus insuring complete combustion.

"These conditions have been completely fulfilled by a new process. The method of using the dust is as follows: The coal, no matter what size it is, is fed into a pulverizer, by which it is ground to an impalpable powder. This is done by means of the friction of the particles, one against the other. After the coal is ground it passes through the pulverizer, and on coming out it is met by a current of air from a blower, which sends it through a nozzle into a combustion chamber underneath the boiler. This combustion chamber has to be specially constructed, and will last about as long as the ordinary one where coal is used. The arch will last a year and the side walls two years. The supply of coal dust and air is automatically regulated, and complete combustion is the result. No smoke escapes from the chimney, and there is no loss of heat in that way. We feel confident that at least thirty-five per cent. of fuel will be saved by using the machines.

"In Philadelphia the past month, experiments have been made with this process in the Harrison safety boiler works, and the engineer made the statement that where 1400 pounds of coal per day were used under a small boiler, at a cost of $3 per ton, 900 pounds of dust were used at a cost of about $1 per ton. The machine for that boiler only costs about $165, and he thinks there is a saving of at least fifty per cent. The cost of repairs to the machine will not exceed $10 per annum. One result of using the refuse coal will be that the price of ordinary coal will have to come down."

Behind the Age.

From The Philadelphia Times.

Brazil must be the paradise of clams. Everybody there is a clam and proud of it. A horse railroad two hundred miles long is being built in Dom Pedro's empire because people prefer to be a good while making their journeys. They are like the old German who preferred the stage coach to the steam car because the former would carry him all day for a dollar, while the latter would give him only an hour's ride for his money. The Brazilians evidently have no sympathy with the rapid rate at which the people of the United States travel and do business. Two or three miles of horse car travel is more than enough for the latter. The bare thought of 200 or 300 miles of this sort of locomotion would make the average Yankee commit suicide.

Recognition of a Brave Act.

WINDSOR, Ont., Sept. 21.—The Windsor Town Council has passed a resolution instructing the Police Committee to take official recognition of the brave act of Officer Nash in jumping into the river and saving the lives of three persons and trying to save the life of the fourth on the night of Aug. 1. It appears to be the intention of the Council to give him a medal and eulogistic address. The councillors spoke in terms of praise, and it was suggested that the matter be brought to the notice of the Humane Society in Ottawa.

Prohibition Campaign in Tennessee.

CHATTANOOGA, Tenn., Sept. 21.—The prohibition campaign, which is now at its height, is arousing the greatest interest throughout the state, and is producing greater excitement than any election since the war. The state will vote on an amendment to the constitution prohibiting the sale or manufacture of spirituous, malt or vinous liquors. The election will take place on Sept. 29.

THAT OATH.

Business is Business. Dirt is Dirt, and when it comes to throwing dirt, count Gough out.

Supposing on oath from mere hearsay I gave the Aurora record of Mr. Sheppard, what would the people say about me? Simply, that GOUGH was a Coward.

But never fear, Mr. Sheppard, I am not going to resort to such mean contemptible personalities. However, in your reckless oath there are two things I am compelled to show you up in.

1st, in your advertisement in the *Times* you positively state, GOUGH bought his bags off you, but now on your own sworn testimony lo! and behold you give this the lie, for you swear you did not sell GOUGH bags but that a certain farmer bought two dozen from you, who afterwards stated to you that he resold them to GOUGH or one of his Salesmen.

Which is correct? your oath or your advertisement? answer this, as both cannot be truth, and in either case you stand self-convicted.

The next point in your misleading oath is this, you swear that a certain party stated he bought Clothing from GOUGH on conditions that he, GOUGH, would refund the money if the goods were not satisfactory, and that this said party afterwards returned the clothing to GOUGH and that GOUGH refused to refund the money, and kept both clothing and money. I deny this and I defy you to prove your friend's statement to be true and now that you have sworn by him, be a man and give his name and if I don't prove that it is as false as your oath is misleading I will donate $500 to any charitable institution in Peterborough.

Remember, your position is a mean one unless you produce evidence to back it. You have taken an oath full of insinuations only, which is cowardly, and if you cannot give the public more proof than mere hearsay, the people will not be slow to judge your oath and your motive. Besides if your friend will pass in his name and prove what you swear you believed to be true you will have a chance to take $500 more out of THE WONDERFUL CHEAP MAN, if he cannot prove that it is false.

One more word Mr. Sheppard and I am done with you. You state that you are worth over and above all Liabilities, $10,000 (wonder you did not swear this), well, it is an insinuation that I am not—you may be worth $10,000 I don't know, but one thing I do know the Mercantile Agency rates GOUGH to be worth twice as much money as you, and moreover in their July report they say Gough's credit is good, and they don't say this of yours.

Now, Mr. Sheppard, these little personal attacks are not business like, and had you not advertised what you positively knew to be false (your oath proves this) I would never have advertised that I could sell your clothing cheaper than you can buy it and make a profit out of it. But now that I have stated it I will stand by it or loose $500 or $1000. Do you accept or do you not, for this and this only will prove which, you or I, are in a position to sell Clothing the Cheapest.

Surely this is the right time and the right place for you to prove your "Back bone."

Now, Mr. Cheapsides I am done with you unless you accept my challenge, and in conclusion let me assure you the more you bring my business to its true light the better will I like it, for let me tell you since you came here my business has almost doubled, which proves that the people appreciate the man who put down the Prices of Clothing and continues to keep them down. It also proves my motto is square dealing, otherwise the people would not so liberally patronize as they do.

LATEST SPORTING NEWS.

The Baseball Scores—Other Items of Interest to Sportsmen.

TORONTO, Sept. 22.

Toronto finished its championship series with Jersey City yesterday, winning its tenth game. There was a small attendance of spectators, as the weather was threatening. When the Torontos had finished their sixth innings rain necessitated the calling of the game, a proceeding on the part of Umpire Hamlin which the Jersey City players found no fault with, strange to say.

The visitors scored two runs in the fifth inning, Bowders and Daly getting first on balls, and Lang's single to centre filling the bases. A wild pitch enabled Bowders to score and Daly tallied on Hiland's out at first. Score:

Won by Two Miles.

According to a writer in The St. James' Gazette Persian racehorses resemble rather leggy English hunters, and stand from 15 to 17½ hands high. They have not an ounce of fat on them, and their fitness is produced by walking exercise for from ten to fifteen hours a day, very little sleep—their allowance of sleep has been rigorously curtailed—very little grain, the smallest possible allowance of water, but an apparently unlimited number of watermelons. This, one would suppose, must have a tendency to weaken the animals sadly, but they are said to make marvelous times. They have run twelve miles in 27 min. 32 sec.; that is, they stay twelve miles at the average rate of a mile in 2 min. 24 sec. Staying, indeed! This, however, is not the most startling assertion. There was a ten-mile race; it was ridden in 22 min. 7 sec., and—this is the starter—the last two miles are said to have been covered in 3m. 7s. Stoneclink was backed for the Cesarewitch last year by some shrewd persons who had observed that she won the Northumberland Plate, two miles, in 3m. 33 1-5s. Where would Stoneclink have been—supposing always that these Persian figures are accurate—if she had jumped in with the Persian field after it had gone eight miles.

Another little anecdote of Persian horses. Two years ago, just as the horses were about to start for the eight mile race, a ragged Turkoman begged for permission to enter, and the Shah acceded to his petition with a smile of amusement. The reader will guess that the unlikely looking stranger won, but he will scarcely guess by how much. The Turkoman jumped off in front, came along all the way, and beat the pick of the racing stables of Persia by two miles. He went the whole eight miles while the others went six. How odd it would look in "Ruff." Won by two miles, half length between second and third.

A Jockey Wants Damages.

NEW YORK, Sept. 21.—Edward H. Garrison, better known as "Snapper," the jockey, has begun two suits in the Supreme Court to recover $25,000 each from The New York Herald and The New York Tribune for alleged libel. Both papers published a despatch from Pittsburg on Sept. 1 purporting to be an interview with Capt. Brown, who pays Garrison $13,000 a year to ride his racers, in which it was learned that Garrison sold his employer out at two recent races. Capt. Brown denies the statement.

In Brief, And To The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

IF YOUR CHILD is stubborn or hard to administer medicine to, Dr. Low's Pleasant Worm Syrup will be appreciated. dw

Children Cry for Pitcher's Castoria.

Keene.

(*From Our Own Correspondent.*)

A large deputation of ladies from the Women's Christian Temperance Union waited on the Council last Monday with a petition of two hundred names asking the Council to prohibit or put under license the pool tables, etc., of this place. This is a move in the right direction, and the ladies deserve great credit for their courage and energy, especially as those places are too often used as a blind for the violation of temperance law.

Mr. Geo. Read has completed the brick work on his fine, large, new cottage. Mr. J. Dinsdale has made an excellent job of the brick work, and Mr. A. McIntyre also deserves great credit for the excellent job he is making of the interior of the building.

Squire Lang, of Keene, has been enjoying a visit from his son, Mr. John Lang and wife of Maxdod, for some days past.

H. H. Burnham Esq., of Port Hope, is also in our big town.

It is with regret we learn that Mr. R. Kindred, of Zion, brother of John Kindred, of this place, lost his barns and all last summer's crop by fire last Monday. No insurance.

Mrs. Dr. Massie is on a visit to her uncle, the Rev. Jas. Hughes, Colborne, where the Dr. and family intend moving this fall.

I have been bothered with catarrh for about twenty years. I had lost my sense of smell entirely for the last fifteen years, and I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did. My sense of smell is partly restored; it seems to be improving all the time. I think there is nothing like Ely's Cream Balm for Catarrh.—Mrs. E. E. Grimes, Rendrill, Ohio. eodw38

Restored.

Mrs. J. M. Phalen, of Sydney Mines, N.S., had chronic rheumatism for two years' and got no relief until she tried Burdock Blood Bitters. Two bottles cured her. "I was like a skeleton," says she, "before using B. B. B., now thanks to the discovery of such a valuable remedy, I am entirely restored to health." 2w38d

Ladies troubled with Pimples, Blotches, Rough Hands or Face, or Sores of any description, should use McGregor & Parke's Carbolic Cerate. It will leave the skin in perfect health, smooth, clean and good color. Be sure and get the genuine, made by McGregor & Parke. Price 25c. Sold at John McKee's Drug Store. eodw35

To Avoid Baldness or Grey Hair.

Use Dr. Dorenwend's Great German Hair Magic. It keeps the scalp clean and free from Dandruff, and promotes the growth of the hair. It prevents premature grayness and stops all falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by J. D. Tully and all druggists.

Reasons why you should purchase Fluid Lightning in preference to all other remedies are:—Rapid result—cures instantly. It is easily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. Try it for Neuralgia, Toothache, Headache, Rheumatism. Sold at 25c. a bottle by John McKee, Druggist. eodw35

Indispensable.

"I have used Dr. Fowler's Extract of Wild Strawberry for summer complaints, and have given it to my friends. It gives instant relief when all other remedies fail. I would not be without it in my house." Mrs. T. Boil, Weidman, Ont. 2w38d

Unknown.

There is no remedy known to medicinal science that can excel Dr. Fowler's Extract of Wild Strawberry as a cure for cholera morbus, diarrhœa, dysentery or any form of summer complaint afflicting children or adults. 2w38

The Wrong Shaft.

Mr. John Douglass tells the EXAMINER that the paragraph in Tuesday's issue, in connection with the account of the old skating rink fire, in which it was stated that the water-wheel and "line" shaft in one of Douglass & Logan's buildings was owned by Paterson & Son, was not correct. It should have read, "the water-wheel and *upright* shaft" only. The line shaft and pulleys etc. were the property of Douglass & Logan.

Reinforcing Rogers' Dam.

Extensive improvements are being made to Rogers' dam by the Dickson Company, which, with the improvements made to the dam on the Ashburnham side of the river last fall, make it one of the most substantial works of its kind on our waters. A new pier is being placed at the western end and the western half of the apron is being renewed. The work is being done under the foremanship of Mr. Wm. Martin.

How Shall We pay our Taxes?

To the Editor of the Examiner:—

DEAR SIR,—Why not try the following plan: Suppose we pay one-fourth on the first day of November, one-fourth on the first day of December, one-fourth on the first day of January, and one-fourth on the first day of February. And if I cannot pay the last fourth, why the town will only lose one-fourth instead of the whole amount on the old plan, which, to say the least, is a very hard way. I cannot see any objection to the above plan. Now, let every ratepayer say, Amen, to this plan, and let's try it for one year.

Yours,
TAKE IT EASY.

Police Paragraphs.

A Mr. Paramault, of Prince Edward County, was in town this morning assisting the police in looking for a team of chestnut horses, which had been stolen from his son-in-law early this month. They had been traced to this district. Upon receipt of a telegram from Warkworth that the missing animals were seen there, he left as soon as possible for that village.

The other day Acting Chief Adams received a telegram from Toronto, asking him to be on the look-out for one George M. Bowdell, alias Berry, who was wanted for forging paper to the extent of about $40,000 in Virginia. As will be seen by our Toronto despatches in another column, the culprit was captured yesterday at Orillia.

Phonography

As a study, has been recently introduced into the school; but the growing demand for it in the counting-room seems to warrant us in advising students to acquaint themselves with its principles and become, if possible, practical short-hand writers. Such knowledge, together with type-writing, prepares the pupil to fill a lucrative position which would otherwise be closed to him. Ladies are especially adapted to this kind of service and the demand for those who can write in short-hand from dictation, and manipulate the type-writer skillfully, is rapidly increasing.

To meet this growing demand, we have opened a department of short-hand and type-writing, where students will receive a thorough preparation for amanuensis work.

Quarterly Meeting.

At a quarterly meeting of the Charlotte street Methodist church last evening there was a large attendance. Among the items of business of public interest transacted, was the fixing of Rev. Mr. Tovell's salary at $1325. Mr. Wm. Clurton was appointed Recording Secretary in place of the late W. A. Morrow. A resolution of condolence with the widow and family of the deceased gentleman was passed, and a copy ordered to be forwarded to them. Prof. Parker was engaged to instruct the choir in choral music. The envelope system of giving and other financial matters were discussed, and afterwards left in the hands of a committee.

Dominion Death Rate.

The Dominion Mortuary Statistics for August show that 20 deaths occurred in Peterborough during the month, 16 males and 4 females. Diarrhœal affections are given as the cause of death of 7 males, constitutional diseases carried off 4 males and 1 female, local diseases 2 males and 1 female and developmental diseases 3 males. During the same period the deaths in other places were: Montreal 524, Toronto 277, Belleville 29, Guelph 18, Chatham 8, Brantford 18, Kingston 13 and St. Thomas 28.

An Unfortunate Drunk.

A young man, who when sober earns good money, has been on a "tear" for a day or two back, and to-day succeeded in getting himself into several scrapes. At the lock works about noon he became engaged in a rough-and-tumble fight, and emerged from it looking about as tough as it is possible to appear. A hundred or more spectators gathered to witness the "sport." Immediately afterwards he entered an hotel and was unceremoniously bounced. He "came again" and was "fired" two or three times. The same thing was repeated wherever he went. The police should take care of him.

The Art School

Is meeting with great success. Pupils are doing some very fine work. There have been some large pictures done by pupils, who had never painted before, that would do credit to any artists. The last of this week we shall have room for a few more. Many can paint (but few can teach), so avail yourselves of the opportunity of securing thorough instructions from acknowledged competent teachers. LOPEZ & NEEDHAM, Hunter street. d71

THE ELEVATOR ELEVATED.

Completion of the new Elevator for the Peterboro' Roller Mills.

A Substantial and Well-Built Structure—Important Addition to the Facilities of Messrs. Muldrum & Davidson's Mills.

Since Messrs. Muldrum & Davidson have taken possession of these mills their condition and reputation have shown steady improvement. The mills, not long since, were completely renewed and supplied with the, at that time, most improved milling appliances, but the firm is not yet satisfied. They are now engaged in introducing improvements which will place their mills in a position of efficiency, equalled, in the matter of improved machinery and methods, by no other mill in Canada. In view of the increased business these improvements have developed a new elevator and storehouse for the mills was found necessary, and this Mr. T. G. Hazlitt, the lessor of the mills property, has completed to-day. The occasion is inopportune for dealing with the mill improvements in detail, but below will be found a brief description of

THE NEW ELEVATOR

building, situated on the north side of the flouring mills, and is a most substantial structure. Its ground area is 40x40 feet, including nine 6,500-bushel bins. The foundation consists of sixteen piers of stone masonry about four feet square, extending six feet below the ground surface, the lower portions of which are laid in hydraulic cement. These piers terminate above in caps of solid Foxboro stone, 32 inches square and about a foot in thickness. This leaves a space on the outside of the piers for letting in the transom timbers which support the joists for the flooring of the space which contains the spouts for the different bins, which converge at the elevator in the middle of the building. The caps of the piers rise about an inch above the floor. Directly on these piers rest the bases of

THE POSTS SUPPORTING THE BINS.

These posts, 12 feet high, consist each of a cluster of timbers two of which are 14x14 inches, buttressed on either side by 8x12 timbers, placed at right angles to them and secured by bolts. Some of these clusters, according to situation, consist only of the two 14x14 timbers strengthened by a third timber placed at right angles. Upon the tops of these rest two 14x14 timbers, one on the top of the other, and on these, placed at right angles, rests a timber 12x14 forming the sills, so to speak, of each of the nine bins. Through the middle of each bin space on the same level stretch two timbers 12x14, one foot apart; in the middle of the bin space, between these timbers, are bolted blocks one foot square, forming the bottom opening, one foot square, of each bin. From this central square the hopper bottom is built up of planks 2x12 inches, something in the manner of building a "strip" house, except that, starting from each of the four sides of the central square opening, each inner plank of the lower course underlaps the next outer and upper course. Thus the courses of planks rise and expand regularly from the centre by two inch gradients till the lateral limits of the dimensions of the bins are reached, when the planks are exactly super-imposed, and the walls forming the outsides of the bins, which collectively form the *outer* walls of the building and the inward walls, forming the partitions between the several nine bins, rise perpendicularly

TO THE HEIGHT OF SIXTY FEET.

The angular space formed by the regular receding planks of the hopper, are filled in with triangular strips, thus forming a smooth face for the inner side of the hopper bottom of the bin. As the vertical walls rise, a ladder from bottom to top is formed by placing, at regular distances apart, iron rods across one of the angles of the bin. The bin is floored over above and furnished with a trap door, so that, in case of accidental clogging of any bin, a man can descend the ladder and investigate the matter.

Additional strength is given the bins by two transverse iron rods crossing each other at right angles, from side to side of each bin at every five feet from bottom to top. The rods at the bottom are of inch iron. As the height increases and, of course, the pressure of grain would lessen, the size of the rod diminishes. Every one of the nine bins has its own separate and distinct set of stay rods. Each of the nine bins holds 6,500 bushels of wheat, and, therefore, when full of wheat,

EACH CONTAINS A WEIGHT OF 183 TONS.

Every bin is the counterpart of each of the others, except the central one, through which passes the elevator pipes from the basement to the attic story. From each of the bins pipes converge to the hopper whose bottom terminates at the boot of the elevator, which is provided with seven-inch buckets. When it is desired to take grain from any bin, the valve is opened and the wheat is elevated from the basement hopper to the attic story from which it conveyed by chutes to any part desired of the grist mill adjoining. The elevating power is supplied from the mills. The buckets, 174 in number, are securely bolted to an endless iron chain. At the upper termination of the elevator spouts they empty into a hopper terminating in a revolving spout which can be set by means of a dial corresponding to the openings of the spouts, to convey the wheat to any desired bin, to the mills or to the outside of the building, whither one of the spouts lead. This spout will be used for shipping wheat, when the firm have more wheat on hand than they need for grinding purposes. Indeed it is probable that this particular spout will be frequently used, for it is the intention of Messrs. Muldrum & Davidson, when the siding from the G.T.R. track is run alongside their buildings, to make their mills

THE DISTRIBUTING POINT FOR MANITOBA WHEAT.

They already import large quantities of this wheat, but when their arrangements are completed they will enter still more largely into the importation of Manitoba wheat. Their extended facilities will enable them to manufacture larger quantities of flour, and also permit of their supplying other millers, whose facilities for handling the grain or the limited quantity used by them will not warrant their entering into an import trade on their own account. The railway siding which will be laid down this fall will extend from the Grand Junction track across Dickson's dam directly in front of the mills.

At the south-west corner of the elevator is placed the weigh hopper for

RECEIVING GRAIN FROM FARMERS' WAGONS,

or from the railway cars, as the case may be. From this the grain flows into the central hopper in the basement story to be elevated. Between the receiving hopper and the boot of the elevator is situated a bin containing about 200 bushels. If the elevator is busy supplying grain for grinding from any particular bin, this bin receives the grain delivered by farmers till it is necessary to convey it where it is desired to put it.

Every detail in connection with this elevator has received the most careful attention. No consideration of cheapening the work, has sacrificed in any way, strength, convenience and facility in handling grain. It is owned by the Dickson Company, of which H. F. Dickson, manager, is the active head, and the superintendence of Mr. M. Shiel, the mill permit no job, with whose supervision he is entrusted, to suffer in the respect of strength, admirable adaptability to its intended purpose or workmanlike thoroughness of construction. In this case he has fully himself credit, and Messrs. Muldrum & Davidson express themselves highly pleased with the excellent, substantial and convenient character, which in case added to the usefulness of their extensive and thrifty business.

The building, as situated, abounds the flouring mills on the north side and the roof of it is connected with that of the former structure. The outside walls are covered with corrugated iron and the roof with shingles laid in mortar.

Methodist District Meeting.

[illegible] Stations of the Peterborough District of the Methodist Episcopal Church [illegible]

The financial meeting of the Peterborough district of the Methodist church was held at Lakefield, Wednesday. At these meetings the minister and one layman from each church in the district attend. Rev. Mr. Tovell occupied the chair. Rev. J. C. Wilson, secretary, was also present.

An important matter of business was the recommendation of grants of money from the missions within the bounds of this district to the missionary committee of the conference.

The next business was the appointment of deputations to visit various churches on behalf of the Educational and Missionary funds. This is a somewhat new departure in church work, and much interest will be felt in the success of its operation.

The following schedule of anniversary missionary and educational services was adopted:—

MISSIONARY ANNIVERSARY SERVICES.

Hall's Bridge—Rev. J. Tozeland.

Chandos—Rev. E. Florence.

Resolved; that as far as possible the above meetings be held in the month of February, 1888.

J. C. WILSON, Financial Secretary. I. TOVELL, Chairman.

It is expected the Peterborough missionary services will be conducted by Dr. Macdonald, from Japan.

The May meeting of the district was appointed to be held in the George street church, Peterborough.

A committee was appointed to draw up a plan of re-adjustment of Bethany, Janetville and South Manvers circuits, to report at the next meeting.

The meeting adjourned.

Penmanship.

The appearance of an accountant's books and the facility with which his work is executed depend largely on the style of his penmanship; hence this forms an important feature in the course of college instruction, and every pupil is taught and required to become an easy, rapid, and plain writer. In view of its great importance, this branch of study will receive increased attention during the coming year. The department of writing is in charge of a skilful master of long experience and wide reputation. Students may join this department alone, and special inducements to study and practice penmanship are offered to pupils of other schools who do not enjoy the advantages of a professional teacher of the art.

MARRIED.

HARTLEY—DORMER—By the Rev. J. C. Wilson, September 21st, 1887, at the residence of the bride's father, Mr. Wm. Hartley of Peterborough, to Miss *Mary E.* eldest daughter of Mr. John Dormer, of Ashburnham, Ontario.

Personal.

Mr. J. A. MacKay, representing T. Milburn & Co., the celebrated manufacturers of Burdock Blood Bitters and Extract of Wild Strawberry, is in town to-day in the interest of his Company. Mr. MacKay called at Peterborough twice during the season and received congratulations for the firm from those who are acquainted with him and detested a bundle from these celebrated medicines.

Capt. H. J. Playter, of Washington, D. C., wife and sister, Mrs. L. M. Kelly, N.Y., are on their way to visit a sister, Mrs. McEwen of Lakefield. Fifty years ago, 1837, Mr. Playter lived at Cavan, in the family of Mr. Wm. Peters, and when the rebellion broke out he left this part of Canada. The Capt. holds an office under the American Government.

SENATOR M'MASTER DEAD.

A PHILANTHROPIST PASSES AWAY SUDDENLY.

A Fainting Fit While Addressing the Trustees of the Toronto College Results in His Death—A Sketch of His Life and Good Works—His Business and His Other Financial Interests.

TORONTO, Sept. 23.

William McMaster, County Tyrone Irishman, wholesale dry goods merchant, financier, bank president, benefactor and Senator of the Dominion of Canada, died at 4 o'clock yesterday morning at his residence, 24 Bloor-street east. At about 5 o'clock on Wednesday afternoon, while addressing a meeting of the Board of Trustees of McMaster College, named after him, he fell in a faint. Dr. Strange was summoned and he advised that the venerable Senator be sent to his home. The ambulance was brought into use and Mr. McMaster was taken to his home. Dr. Strange remained with him and so did Rev. Dr. Castle, the president of the college, and several other friends. It was found that Mr. McMaster was suffering from a sudden and serious attack of spasms of the bowels. Towards midnight he improved, but after that he gradually sank until death occurred at 4 o'clock in the morning. The aged Senator, although of remarkably robust appearance, could not withstand the sudden shock to his system. The funeral will take place at 2 o'clock to-morrow afternoon from the residence in Bloor-street.

The Senator's History.

Wm. McMaster was born in the County of Tyrone, Ireland, Dec. 24, 1811. His father, after whom he was named, was a linen merchant, who educated him and placed him in the establishment of a linen merchant. When 22 years of age the young man left Ireland and sailed for America. Arriving in New York he came to Canada by the advice of the New York British Consul, and in 1836 settled in Toronto—then Little York. He entered the store of Mr. Robert Cathcart, King-street east, as a clerk, and one year later became a partner in the business. This lasted until 1844, when he went into business for himself and opened a wholesale dry goods house on Yonge-street, below King. This was the birth of one of Toronto's oldest business houses. In process of time he admitted his nephews, Arthur R. McMaster and James S. McMaster, into the business. Arthur died six years ago and James, who now lives in London, Eng., is the senior member of the house as now constituted. The business growing larger the firm removed to a place lower down on Yonge, and still were obliged to build the present handsome stone building on Front-street, just east of the Bank of Montreal.

For some years the style of the firm was Wm. McMaster & Nephews. But as Mr. McMaster became interested in other concerns he withdrew from his old business, of which his nephews took possession. Other nephews, Capt. W. F. McMaster and Mr. S. F. McMaster, both of whom are well known in Toronto, afterwards became associated with the firm. But in 1865 there was a change, and the active management of the business was assumed by Mr. Henry W. Darling, the style of the firm becoming McMaster, Darling & Co., and the sole partners being Mr. James S. McMaster and Mr. Darling.

In 1869 Mr. Wm. McMaster founded the Bank of Commerce. He was its first president and held that position, daily performing its onerous duties, until July, 1880, when he resigned, to be succeeded by his partner, Mr. Henry W. Darling, the present incumbent. Mr. McMaster was also for a time a director of the Ontario Bank and the Bank of Montreal, and for years was president of the Freehold Loan and Savings Company, and vice-president of the Confederation Life Association. He was also a director of the Isolated Risk Insurance Company and chairman of the Canadian Board of the Great Western Railway. Upon the abolition of the Canadian Board he was the only Canadian retained upon the succeeding board.

In 1862 Mr. McMaster entered politics, and was elected to the Legislative Council of Canada to represent the Midland Division of North York and South Simcoe, having defeated Mr. John W. Gamble. He represented the Midland Division until Confederation, when Mr. McMaster was chosen one of the first Senators, and he held that position until his death. He was always a Reformer, but

The name of Senator McMaster may not abide in Canadian history as a merchant prince or as a politician and statesman. But it will abide as that of a man who gave thousands upon thousands of dollars in furthering the interests of education and charity. The Canadian Literary Institution, a Baptist institution, was established at Woodstock in 1857, and to this Senator McMaster gave aid, financial and otherwise. In 1881 the theological department was removed to Toronto. The erection of a suitable building was commenced and this was the result of the liberality of Senator McMaster. He purchased a fine site on Bloor-street, north of Queen's Park, at a cost of $10,000, and erected a building the cost of which, including furnishings, amounted to over $60,000. Since the establishment of the college, he endowed six chairs at an annual outlay of $14,500. At the last session of the Ontario Legislature the Woodstock College and the Toronto Baptist College were amalgamated under the name of McMaster University. The endowment was fixed at $700,000, and Senator McMaster undertook to raise this. It is expected that his will will make important donations.

In 1865 he was appointed a member of the old Council of Public Instruction. In 1873 he became a member of the Senate of Toronto University.

The erection of the handsome edifice known as the Jarvis-street Baptist Church is largely due to the beneficence of Senator McMaster. The cost of this edifice was $95,000, and of this Mr. McMaster contributed something more than half. The Senator also organized the Superannuated Ministers' Society of the Baptist Church, of which he was president, and was treasurer of the Upper Canada Bible Society.

In 1851 Senator McMaster married Miss Mary Henderson of New York, who died in 1863. In 1871 he married Mrs. Susan Molton, widow of James Fraser of Newburgh, N.Y., who now becomes a widow for the second time.

The funeral will take place at 2 o'clock to-morrow.

That noble edifice, the Baptist Church at Jarvis and Gerrard streets, is to a great extent a monument of the generosity of the late Senator. It is related that several years ago, when Lord Houghton visited Toronto, he was a guest of Senator McMaster. The Senator took My Lord out for a drive about the city, and among other places of interest pointed out the church, which Lord Houghton duly admired. Upon learning, however, that it was a Baptist church My Lord exclaimed in great wrath: "The assurance of those dissenters!" and refused to look longer. Senator McMaster used to tell the story with great gusto.

Senator McMaster had little to do with the church until he was a well grown man. Then he joined the congregation that at that time worshipped in the old Bond-street Baptist Church, now a Catholic institution. He was baptized by Dr. Fyfe, whose memory is cherished by all Baptists.

TIPPOO TIB'S GOVERNORSHIP.

The Authority of the Reformed Slave Trader Set at Naught.

LONDON, Sept. 22.—Advices from the Congo say that when Tippoo Tib arrived at Stanley Falls as Governor on behalf of the Congo Free State, the Arabs refused to surrender the station, wishing to retain possession, in order to continue their slave raids.

The Arabs Have the Upper Hand.

NEW YORK, Sept. 22.—A despatch to The Herald from London says: "From a trustworthy source I learn that bad news must have been received from Stanley Falls, the Free State outpost captured by the Arabs ten months ago. Major Bartellot, who was detached from Stanley's expedition to install Tippoo Tib at the Falls as the representative of the Congo Free State, found the Arabs terribly uproarious. They had been for ten months slave-raiding and committing horrible atrocities, and they stubbornly refused to recognize the authority of the Free State even in the person of Tippoo Tib. Serious events are expected. Astonishment is expressed that the Free State agents did not long ago forewarn the Brussels administration of the probability of Arab resistance to the Tippoo Tib arrangement.

Justin McCarthy's Opinion.

LONDON, Sept. 22.—Justin McCarthy, in a lecture in Southwark last night, said no man in his senses, not even Mr. Smith or Mr. Balfour, could conceal from himself the fact that the Home Rule question was settled, and that it only remained to arrange the terms. The Irish would have their parliament, and he trusted the commercial prosperity of Ireland would be restored.

The Inevitable Fund.

DUBLIN, Sept. 22.—The Lord Mayor has issued an appeal for funds to defend and sustain the large number of political prisoners it is expected will soon be in jail under the Coercion Act.

VENEZUELA'S APPEAL.

It Asks for United States Support in its Dispute With Great Britain.

NEW YORK, Sept. 22.—A Washington despatch says Venezuela is appealing to this country for support in the territorial dispute between that country and Great Britain. The quantity of land occupied by the English authorities amounts to about one-seventh of the whole Venezuelan Republic. The country is rich in woods, and the soil is excellent for agricultural purposes. The various mines also yield immense quantities of gold.

The Venezuelan Government complains bitterly of the manner in which it has been treated, and naturally turns to the United States for support. It sent a communication to the British authorities, saying that it was willing to submit the matter to arbitration, but the English Foreign Office avoided any settlement on that basis. Should our Government decline to interfere, the only course left Venezuela will be to drive out the British invaders by force of arms if she is able to do so.

A Band of Thugs Captured.

RANGOON, Sept. 22.—Bohpotok, a Dacoit leader in Burmah, recently led a band of his followers against a village on the eastern bank of the Irrawady river, and plundered the place. Capt. Hawkes, of the British army of occupation with a force of soldiers pursued the Dacoits into the Mothztoany Hills and there surprised and captured Bohpotok's whole camp, killing ten of his soldiers and wounding the chief.

An Anarchist Who Wants Justice Only.

CHICAGO, Sept. 22.—A. R. Parsons, the condemned Anarchist, gave out for publication yesterday a long document addressed to the American people. He claims that he is an honest man, and appeals not for mercy but for justice. After saying that he will not accept a commutation of sentence, he quotes the language of Patrick Henry: "Give me liberty or give me death."

Reported Capture of Ayoub Khan.

SIMLA, Sept. 22.—It is reported that Ayoub Khan has been captured near Kala, on the Persian frontier.

They Ought to Know.

BERLIN, Sept. 22.—Officials here say they have no information as to the reported coming meeting between the Czar of Russia and Emperor William at Dantzig.

THE C.P.R.'S CABLE SCHEME

THE BRITISH GOVERNMENT WILL NOT PAY COST OF SURVEY.

Mr. Sandford Fleming Makes a New Proposal—The Ayer Case—A Large Number of Visitors to the Provincial Exhibition—Moody, the Evangelist.

OTTAWA, Sept. 22.—The British Government having declined to defray the cost of surveying the proposed trans-Pacific telegraph cable between British Columbia and Australia, Mr. Sandford Fleming, who is the chief promoter of the scheme, is ready with a new proposal, which is that the cost of the survey should be paid by the colonies interested, and suggests that Canada should contribute a steamer for the purpose of making the survey. The proposal has been made to Hon. Mr. Foster, who has promised to lay the matter before the council, and if it is favorably entertained the Australian colonies will be communicated with.

A Recess in the Ayer Case.

The Ayer case was continued this morning. Mr. Hogg opened the argument for the Crown and occupied the whole day. Quite a little breeze was caused this afternoon by the manner in which the Chief Justice received Mr. Hogg's statement that the Government might go back twenty years in imposing extra duties and penalties on the Ayers, as they had not claimed the benefit of the statutes limiting the period to three years. His Honor declared that if the Crown made any such claim he would stop the case at once and allow the Ayers to plead the statute. He could not find words to express his feelings at such an inquitous course. He felt sure the Crown did not wish to take these people's property and impose enormous penalties upon them except the case was clearly within the statute. He demanded that the point be settled at once, for if the Crown asserted the right to go back the twenty years instead of three he would order the case adjourned. As Mr. Hogg did not further press the point the argument proceeded and the court adjourned at 3 o'clock till to-morrow, when it is believed the argument will be concluded.

The Receipts at the Exhibition.

There was another big crowd at the Provincial Exhibition to-day, fully 10,000 persons being present.

Nearly all the Departments closed at 1 o'clock, and thus enabled a large number of civil servants to take their families to the show.

A number of the crew of Her Majesty's ship Tourmaline came up by special train from Montreal and were the feature of the day. The Parliament buildings were illuminated and opened to the public to-night and were visited by a large number of the judges and others who cannot leave the Exhibition Grounds during the day.

Moody, the Evangelist, Expected.

Efforts are being made by the Y.M.C.A. here to have Mr. D. L. Moody, the noted evangelist, visit Ottawa next month

THE HALLETT SCANDAL.

The Colonel Speaks of His Relations With Miss Selwyn.

LONDON, Sept. 22.—Col. Hughes-Hallett, who is accused by The Pall Mall Gazette of having maintained improper relations with Miss Beatrice Selwyn, states that he did not see much of the lady until the past summer, when she, being free of all control by her relatives, lived alone in London, and he accompanied her to many English watering places.

It is stated that she and Henry Smith, a barrister and Deputy Lord-Lieutenant of Norfolk, were appointed guardians of Hughes-Hallett's children by Lady Selwyn. Mr. Smith invited Col. Hughes-Hallett and Beatrice to visit him at his home and while they were there Mr. Smith's suspicions were aroused by their actions. On Aug. 15 he went to Col. Hughes-Hallett's bedroom and found it vacant. He then went to the room occupied by Beatrice, but the door was locked and he could not gain admission. Mr. Smith then called the housekeeper, two housemaids, a lady's maid and other servants, and directed the coachman to burst open the doors. Col. Hughes-Hallett who was in the room was taken completely by surprise, and while dressing was subjected to a torrent of abuse from Mr. Smith and everybody present, while he (Hughes-Hallett) kept perfectly quiet. As soon as Col. Hughes-Hallett was dressed Mr. Smith sent him to the railway station and subsequently informed his friends everywhere of his conduct. He also telegraphed a statement to Col. Hughes-Hallett's wife.

Two days later Col. Hughes-Hallett received a letter from a lawyer demanding the return of £5000 belonging to Beatrice. The money was paid over at once. Col. Hughes-Hallett then call on Capt. Selwyn, Beatrice's brother, and offered to fight a duel with him but the offer was not accepted. Col. Hughes-Hallett then offered to elope with Beatrice and thus enable his wife to obtain a divorce, after which he said he would marry Beatrice. Capt. Selwyn also declined to accept this offer. Col. Hughes-Hallett is extremely bitter against Mr. Smith, whom he describes as pompous and vain and who, while himself separated from his wife, lives not entirely free from feminine control.

THE STRUGGLE IN IRELAND.

Guarantees Given That There Will Not be a Meeting at Mitchellstown.

LONDON, Sept. 22.—A troop of hussars, a detachment of artillery and a large force of police have arrived at Mitchellstown. Magistrate Canton has issued a proclamation prohibiting the holding of any public meetings during the sitting of the Police Court, stating that any meetings held in violation of this prohibition will be forcibly dispersed. Copies of the proclamation have been served on John Dillon and Thomas P. Condon (Home Ruler of the House of Commons) both of whom are now in Mitchellstown. Mr. Dillon has declared his willingness to address a public meeting, and to repeat Mr. O'Brien's conduct in spite of the Government. A public meeting is being arranged to hear addresses from Dillon and Condon. A conflict is feared.

The Sober Second Thought.

A Mitchellstown despatch states that Dillon and Harrington have given pledges that no political meetings shall be held in Mitchellstown during the present trial.

The Fearless Editors.

DUBLIN, Sept. 23.—The weekly Nationalist papers throughout Ireland publish the usual reports of the proceedings of the various local branches of the League, despite the fact that under the terms of the new Crimes Act the editors are liable to imprisonment for publishing the reports, which teem with violent denunciations of the Government.

Bad McGarigle to Meet at Gore Bay.

OWEN SOUND, Sept. 23.—The steamer Atlantic arrived here from Sault Ste. Marie this afternoon. A passenger named Mann, who came down by the steamer, reports that McGarigle, the Chicago boodler, is at Gore Bay, and puts up at the Ocean House, kept by Mr. Hunt. Mr. Mann says he went to Mudge Bay last Sunday on a tug with McGarigle and a party of Gore Bay people, and returned Monday. McGarigle, he says, is there now, and laughs wrenchy at the chump-headed detective who undertook to follow him.

THEY DISOBEYED ORDERS.

NEGLIGENCE THE CAUSE OF A COLLISION ON THE INTERCOLONIAL.

An Accommodation and a Special Freight Come Together—One Engineer Instantly Killed and Several of the Train Hands Injured.

QUEBEC, Sept. 22.—The following particulars have just been received of the collision on the Intercolonial Railway to-day between St. Moise Station and Little Metis. The accommodation train, which left River du Loup Station at 7 o'clock this morning, had orders to cross Lebert's freight special at Little Metis. The crossing orders were overlooked by both driver and conductor, and when three miles east of Little Metis came into collision with the freight special. Neither of the drivers saw one another until they were but a few feet apart, owing to the curvature of the road at this point and the fact that large snow sheds have been erected. The result was that Engineer L. Duncan was instantly killed. Engineer Gorham of the accommodation jumped through the window of his cab and broke a leg. The firemen of both trains are seriously injured. Both engines and cars are badly smashed.

The loss will amount to several thousands of dollars. The road is entirely blocked, and cannot be cleared before Friday night. It is said the entire blame is attached to the conductor and driver of the accommodation train. There were but few passengers on board the latter train, and beyond a severe shaking up none of them were badly injured. The trains were travelling at a speed of about thirty miles an hour. Engineer Duncan was an unmarried man.

FIRE IN THE OIL FIELDS.

An Explosion Causes a Great Conflagration in Wood County, Ohio.

TOLEDO, O., Sept. 22.—There is great excitement among oil and gas operators in this city over the reports of an immense oil conflagration in the Wood County oil fields. The fire was caused by an explosion in the Parker well, No. 1, the greatest oil well in the world, a well that has been uncontrollable for days, and which flows 10,000 barrels every twenty-four hours. The oil caught fire from the engine, and rapidly spread to the other derricks and tanks. In the oil fields are large pools of petroleum, and the creeks and rivers are full of oil. This only adds fuel to the flames. The scene was described by an eye-witness as most thrilling and magnificent. At the time of the explosion, without warning, a column of blue flame and smoke shot up into the air at least 1000 feet, and extending over acres of ground. The heat was so intense that it was impossible to approach nearer than half a mile. It could be plainly felt two miles away, and the sight of the burning well is visible in Toledo, thirty miles distant. The damage will run up to hundreds of thousands of dollars. One of the drillers, George Johnstone, was caught in a whirlwind of smoke, oil and flame, and was so badly burned that no hopes are entertained for his recovery. Other drillers are missing, and it is feared that they have perished in the flames.

A YOUNG GIRL LURED FROM HOME.

A Caledonia Man Held at Windsor on a Charge of Seduction.

WINDSOR, Sept. 22.—Thomas Heaton, who was arrested on Tuesday for larceny, turns out to be a reprobate of the first class. Last June Heaton sought employment of a well-to-do farmer named McCleary of Harrow, Ont., and was given a job. He soon got on friendly terms with McCleary's daughter Mary, aged 14, and one day they both disappeared. No trace of the girl could be found until yesterday, when she was seen on the streets of Windsor by friends of the family. McCleary was notified and at once came to Windsor, and with the aid of the police discovered his daughter, who has been living in Michigan-avenue, Detroit, with Heaton, but as he has a wife and three children living in Caledonia the second marriage is void. Heaton was arraigned before Magistrate Bartlett at Windsor yesterday afternoon on a charge of seduction and was remanded for trial. His wife is coming to Windsor to prefer a charge of bigamy against him.

FIXING THE BLAME.

The Montreal *Herald* thus deals with the subject of fixing the responsibility for the present condition of affairs in Manitoba:—We believe, and everything we see strengthens that belief, that the whole of this excitement in Manitoba is directly due to the deception practised by Sir John in the first place, and the encouragement subsequently given to the agitators both by himself and his colleagues. Having failed to discover, during his visits to England, any sufficiently responsible parties to undertake the construction of the Canadian Pacific Railway he came to terms with those who did build it. Nothing was clearer than the understanding that they were to be protected from American competition for a certain time, and what protection could there be if railways were to be allowed to run from Minnesota and Dakota to Winnipeg? Sir John had persistently disallowed local charters that he thought objectionable, and the Manitoba people concurred in this, until he set them going in the opposite direction. If there was any doubt as to the meaning of the bargain it was his duty to have dispelled that doubt in plain language, instead of leading the people of Manitoba to suppose that he was declaring an inability to disallow any more charters, and setting his followers up to talk in the same strain. What did he mean by "we cannot check Manitoba," when he knew that he had already on several occasions checked Manitoba, even when the proposed railways were not going near the boundary line, and when he knew that he still possessed the power to check Manitoba, and that he intended to use it? He in fact denied that he held the ace of trumps because he temporarily placed it up his sleeve. Had he honestly stated that in this respect he intended to check Manitoba so far as it was necessary to keep faith with the railway company and the distant and foreign capitalists who had put money into it, he would have been supported by a large majority in Manitoba as well as in the other provinces. But he preferred to juggle with the question, to wink at his colleagues, and to raise expectations that he knew he could not honestly meet.

And as he began so he has continued. When the agitation consequent upon his hints began to make headway, he pandered to it. Rather than run the risk of losing a few votes for his supporters he allowed the people of the province to believe that he would do nothing to prevent their building the road to the boundary. The gentleman whom he designated as "his lieutenant" in Manitoba promised in so many words, that if he, Sir John's supporter, were elected, the Grand Trunk Railway would be in Winnipeg by July last. Why did Sir John permit this to be promised, and the people to be excited to such a degree that armed resistance to the authority of the Dominion is openly spoken of and hardly rebuked? But it did not even end there. When the effects of his pusillanimity and double dealing gathered head, instead of then meeting the difficulty, he had created, in a bold and straightforward manner, he asks:—"Why does not Northern "quay go ahead and build the confounded 61 road and leave a space between the "rails at the boundary line sufficient to "drop in a sixpence, when the question "would become an international one and "settle itself?" What wonder is there that Winnipeg should shoot itself into a frantic determination to build the railway at all hazards, when the citizens find the Prime Minister of Canada rebuking them for their delay in getting to work? How were they to suppose that while he was telling them he had no power to interfere with them, and expressing his wonder at their disinterness in constructing the road, that while his "lieutenant" was promising them the Grand Trunk in Winnipeg before the summer was over, Sir John Macdonald was laughing up his sleeve at their credulity, and assuring the people who had invested their money on the security of an Act of Parliament that there was nothing in it all, that he would stop the thing, that it would burn itself out etc., etc. We do not know, of course, that he used these expressions, but that is the kind of comfort his organs give. We repeat that throughout this matter he has played false both to the shareholders of the Canadian Pacific Railway, and what is at least equally important, even if it were only for the reason that it is more dangerous, with the people of Manitoba. To his crooked courses is attributable the present deplorable attitude of the prairie province, and if the law of the land and the authority of the Dominion be successfully defied, and the first steps towards the disintegration of the Confederation taken, Sir John Macdonald is personally and wholly responsible for it.

While the EXAMINER does not endorse the position of the *Herald* in upholding the rights of the C.P.R. as against Manitoba in the matter of the Red River Valley Railway, it can give full assent to its contention as to the double dealing of the Dominion Government and its responsibility for the grave state of affairs now existing.

STILL AFTER EDITOR SHEPPARD,

Another Warrant From Montreal—Magistrate Denison Refuses His Endorsement.

TORONTO, Sept. 15.

Yesterday there arrived here from Montreal Constable Carpenter with a fresh warrant for the arrest of Mr. E. E. Sheppard of The News, on a charge of criminal libel. The warrant is sworn out by Captain Bassette of the 65th Regiment. Everyone knows the old, old story of Mr. Sheppard's arrest and his being taken to Montreal and convicted of criminal libel, with a $200 fine, and of judgment being given against him to the tune of $1000 in a civil suit.

It will be remembered that the last warrant which came to Toronto for Mr. Sheppard's arrest was refused an endorsement by Mr. N. C. Love, J.P., who was then acting in the absence of Police Magistrate Denison. An application was made to Judge McDougall for an order compelling Mr. Love to endorse the warrant, but His Honor refused the order on the technical ground that the warrant should have set out the full particulars of the case, especially the fact that the court which Mr. Sheppard was summoned to attend was over and he did not appear. Captain Bassette, himself a lawyer, swore out a fresh warrant, which is supposed by him and his to cover everything and to be free from fault. This was the warrant which reached here yesterday.

Constable Carpenter shortly after he arrived called upon Mr. J. J. Maclaren, Q.C., who is looking after the Toronto end of the prosecution. Together they went to the Police Court, and meeting Police Magistrate Denison in his private room requested him to endorse the warrant which would make Mr. Sheppard's arrest possible. The Magistrate promptly refused, and gave as his reasons a statement to this effect: Mr. Sheppard has been tried on this same charge of libel and he has paid the penalty. It would be an abuse of the process of the courts to take him to Montreal again and try him on the same charge.

Mr. Maclaren then went to the Court House and applied to Judge McDougall for an order on the Magistrate and Mr. Sheppard to show cause why the former should not endorse the warrant. His Honor received the papers and will give judgment this morning. If he decides that the Magistrate should be called upon to show cause why he should not endorse the warrant the argument will take place a few days hence. If it is decided that the magistrate should endorse the warrant and he refuses to do so he is liable to be sent to jail for contempt of court.

Mr. Sheppard said to a reporter last night: "Less than three weeks ago my solicitors notified the prosecutors in Montreal that I would go to Montreal voluntarily and stand my trial upon the charge in one warrant if they would guarantee me safe return to Ontario without arrest upon any other charge. They refused this, and you can judge from that what they mean. I do not feel anxious about it."

Rev. Father Sheehan of Pickering had a desperate encounter with burglars on Wednesday night. About midnight the reverend gentleman was awakened by visitors who demanded his money or his brains. He objected to giving up either, and discharged his revolver at them. Two shots were returned in rapid succession by the marauders, but neither took effect. Father Sheehan finding he was in desperate quarters retreated to the window of his bedroom, which is about twenty feet from the ground, he threw up the lower sash and still covering the burglars, leaped for his life. He ran to a neighbor's house for assistance which he soon obtained, and returned only to find the burglars gone.

All the rooms had undergone a professional inspection but nothing was missed. Father Sheahan reported the case to the Toronto police yesterday. He brought his revolver with him, and while the weapon was under examination in the Detective Department it went off and lodged the bullet in the window casement.

Frederick Miller, the American Hotel waiter whom Henry Latchford accused of having stolen $70 from him, was tried in the Police Court yesterday. The evidence, of a circumstantial nature, was strong against him and Magistrate Denison gave him three months in the Central Prison.

A Salt Trust.

PITTSBURG, Sept. 22.—A mammoth salt company, composed of all the salt manufacturers of the United States, is about to be formed. It will be known as the National Union and will be the headquarters for the salt supply of the whole country. The object of the union is mutual protection, to keep up the prices so as to be able to compete with foreign manufacturers. The company will be composed of sixty-three companies in all.

An Oil Producers' Union Proposed.

NEW YORK, Sept. 22.—The oil market is being bought heavily on renewed talk of a consummation of negotiations to form a producers' union to restrict the production. The upward movement began about 2 o'clock, and the price advanced from 65½c to 66c.

THAT OATH.

Business is Business. Dirt is Dirt, and when it comes to throwingdirt, count Gough out.

Supposing on oath from mere hearsay I gave the Aurora record of Mr. Sheppard, what would the people say about me? Simply, that GOUGH was a Coward.

But never fear, Mr. Sheppard, I am not going to resort to such mean contemptible personalities. However, in your reckless oath there are two things I am compelled to show you up in.

1st, in your advertisement in the *Times* you positively state, GOUGH bought his bags off you, but now on your own sworn testimony lo! and behold you give this the lie, for you swear you did not sell GOUGH bags but that a certain farmer bought two dozen from you, who afterwards stated to you that he resold them to GOUGH or one of his Salesmen.

Which is correct? your oath or your advertisement? answer this, as both cannot be truth, and in either case you stand self-convicted.

The next point in your misleading oath is this, you swear that a certain party stated he bought Clothing from GOUGH on conditions that he, GOUGH, would refund the money if the goods were not satisfactory, and that this said party afterwards returned the clothing to GOUGH and that GOUGH refused to refund the money, and kept both clothing and money. I deny this and I defy you to prove your friend's statement to be true and now that you have sworn by him, be a man and give his name and if I don't prove that it is as false as your oath is misleading I will donate $500 to any charitable institution in Peterborough.

Remember, your position is a mean one unless you produce evidence to back it. You have taken an oath full of insinuations only, which is cowardly, and if you cannot give the public more proof than mere hearsay, the people will not be slow to judge your oath and your motive. Besides if your friend will pass in his name and prove what you swear you believed to be true you will have a chance to take $500 more out of THE WONDERFUL CHEAP MAN, if he cannot prove that it is false.

One more word Mr. Sheppard and I am done with you. You state that you are worth over and above all Liabilities, $10,000 (wonder you did not swear this), well, it is an insinuation that I am not—you may be worth $10,000 I don't know, but one thing I do know the Mercantile Agency rates GOUGH to be worth twice as much money as you, and moreover in their July report they say Gough's credit is good, and they don't say this of yours.

Now, Mr. Sheppard, these little personal attacks are not business like, and had you not advertised what you positively knew to be false (your oath proves this) I would never have advertised that I could sell your clothing cheaper than you can buy it and make a profit out of it. But now that I have stated it I will stand by it or loose $500 or $1000. Do you accept or do you not, for this and this only will prove which, you or I, are in a position to sell Clothing the Cheapest.

Surely this is the right time and the right place for you to prove your "Back bone."

Now, Mr. Cheapsides I am done with you unless you accept my challenge, and in conclusion let me assure you the more you bring my business to its true light the better will I like it, for let me tell you since you came here my business has almost doubled, which proves that the people appreciate the man who put down the Prices of Clothing and continues to keep them down. It also proves my motto is square dealing, otherwise the people would not so liberally patronize as they do.

BASEBALL YESTERDAY.

TORONTO, Sept. 22.

Toronto tightened its grip on the pennant by defeating the Wilkesberre "coal-heavers" yesterday in a game marked by free and heavy stick work on the part of the home team. The visitors put Green, the discarded Buffalo pitcher, in the box, and for the first four innings he was fairly effective. In the next inning, however, Toronto opened out upon him and scored three runs, and thereafter pounded the ball all over the field. Slattery made a home run and a double, Kearns, Decker and Orchard triples and Farrell a double, while the other members of the team with the exception of McCormack, Briggs and Hunt all contributed to the battering. The latter pitched effectively.

A MISSING YOUNG MAN.

Was Thomas Campbell Drowned in the Collision on the Bay—His Hat Identified.

TORONTO, Sept. 13.

Recent developments point strongly to the probability that Thomas Campbell, a young farmer from Durham, County of Grey, was drowned on the evening when the three ferry boats collided on the Bay. Mr. Campbell came to the city on Sept. 12, accompanied by Mr. John Dargavel, who is living on Marshall-street. On Tuesday morning Campbell went to Exhibition Park, giving Mr. Dargavel to understand that he would be back at the latter's boarding-house, on Marshall-street, in the evening. He did not, however, return, and Mr. Dargavel thought that his friend went back to Durham.

On Tuesday he was startled by receiving a telegram from Quintin Campbell, brother of the missing man, saying that his son had not yet arrived home, and asking for particulars about the collision on the Bay. The only evidence that any life was lost as a result of the collision was a hat which was picked up shortly after the accident. This hat was shown Mr. Dargavel, who stated that it bore a close resemblance to that worn by Campbell when last seen. Mr. Quintin Campbell arrived in the city yesterday and identified the hat as his son's, so that there can be no doubt but the unfortunate young man met his death when the collision occurred.

Esplanade Constable Williams will to-day drag the scene where the collision took place. He will be assisted in the search by four men supplied by the friends of the deceased ill-fated man. Campbell was about 24 years of age and highly respected by all who knew him.

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain. eodw

Children Cry for Pitcher's Castoria.

I have been troubled with a severe cough for the last fifteen years, and I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did. My sight is restored, I partly attribute results to the Catarrh Cure; all the glory I think there is in this is Dr. Ely's Cream Balm for Catarrh.—Mrs. E. E. Grimes, Rendrill, Ohio. eodw38

Rheumatism.

Mrs. J. M. Phalen, of Sydney Mines, N.S., had chronic rheumatism for two years' and got no relief until she tried Burdock Blood Bitters. Two bottles cured her. "I was like a skeleton," says she, "I believe using B. B. B., now thanks to the discovery of such a valuable remedy, I am entirely restored to health." 2w38d

Ladies troubled with Pimples, Blotches, Rough Hands or Face, or Sores of any description, should use McGregor & Parke's Carbolic Cerate. To Avoid Baldness or Grey Hair.

Use Dr. Dorenwend's Great German Hair Magic. It keeps the scalp clean and free from Dandruff, and promotes the growth of the hair. It prevents premature grayness and stops all falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by J. D. Tully and all druggists.

Reasons why you should purchase Wild Lightning in preference to all other remedies are:—Rapid result—cures instantly. It is easily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. Try it for Neuralgia, Toothache, Headache, Rheumatism. Sold at 25c. a bottle by John McKee, Druggist. eodw35

Indisputable.

"I have used Dr. Fowler's Extract of Wild Strawberry for summer complaints, and have given it to my friends. It gives instant relief when all other remedies fail. I would not be without it in my house." Mrs. T. Boil, Weidman, Ont. 2w38d

Unknown.

There is no remedy known to medicinal science that can excel Dr. Fowler's Extract of Wild Strawberry as a cure for cholera morbus, diarrhœa, dysentery or any form of summer complaint afflicting children or adults. 2w38

THE WAR CLOUD BUSTED.

VICTORY has Perched on the Banner of

PETERBOROUGH'S GREAT CHEAPSIDE!

And SHEPPARD, by common consent, will get $1,000 for being the **Cheapest Clothier in Peterborough**, having knocked the Wonderful Cheap Man completely out. "Business is Business; Dirt is Dirt, and when it comes to throwing Dirt, then Count" the only original teddy out, and he will hand over that $1,000 like a little man: For the following reasons;—

Sheppard sells a full size Man's Suit for $2.95, and better Goods than a Suit to fit a Child about 9 years old sold by the Wonderful Cheap-Man on Saturday for $3.00; but marked $3.50. This is how it was:—A Lady purchased a Child's Suit on Saturday last, Sept. 17th, 1887, at the Store of the Wonderful Cheap-Man. It was marked thusly:—Lot 5375, Breast 27, Waist 26½, Age 9, Price $3.50. It was pure Shoddy, being held together by cotton threads, and Sheppard is free to say that that was the dearest Suit sold in the Town of Peterborough for the last two years. **Full particulars are given because of the $1000 involved, and, further, that this decides who is selling the Cheapest Clothing** in Peterborough. SHEPPARD would have sold that Lady a Suit, Pure Wool for that money, and worth two of the one she got.

$1,000 to Go to the Charitable Institutions of Peterborough.

I had first decided to give the agencies a chance of jumping up my rating that $1.000, but after considering the matter and finding that never in any case have I been asked for an endorser to my paper, and that no relative or any other persons have ever endorsed my paper to the extent of one cent, I have come to the conclusion my credit is as good as yours and will ask you to hand over the $1,000 to the Charitable Institutions of Peterborough.

Now, Sir, there is a good story told the truth of which can be vouched for, but for the honor of at least making an effort to keep up your self-styled name—The Terror of High Priced Clothiers—do not allow the same to be said of you in the case above. A man purchased a suit for $15.00 at the store of one of the largest Advertisers in that section of country. It was guaranteed pure wool; but after examining it carefully at home, he came to the conclusion that he had been dealing with some one sharper than himself. Finding a make of wool, differing some from anything he had ever seen, it dawned upon him, that he had heard of wool of that kind, so the suit was returned. The merchant bet $25.00 that it was all wool, and the bet was accepted the decision being left to a neighboring merchant, he found that the $15.00 suit, was wool faced and shoddy back, pure unadulterated shoddy, but what of the $25.00 bet, was it paid, not much—muchly—as it were.

A Singular Circumstance.

Referring to the coming bicycle race at Peterborough on Oct. 6th, between Messrs. Cooper and Greatrix, the *Intelligencer* says:—"It is somewhat singular that Greatrix, the Peterborough champion, is a Belleville boy, and that Cooper, the Belleville champion, is a native of another place. And yet Belleville will back her (comparatively) stranger champion against her native challenger."

Established.

GOUGH AND SHODDY.—The mark of a large size foot print on the sidewalk, leading to Sheppard's store, George street, was the talk of the town, as a good advertisement for that House. This morning, added to it, and in front, were the words "for shoddy." Mr. Gough, the Clothier, George street, made his boast freely that he would accomplish this contemptible trick, and he has done it. So that Gough and shoddy are inseparable for all time to come. 3d72

Phonography

As a study, has been recently introduced into the school; but the growing demand for it in the counting-room seems to warrant us in advising students to acquaint themselves with its principles and become, if possible, practical short-hand writers. Such knowledge, together with type-writing, prepares the pupil to fill a lucrative position which would otherwise be closed to him. Ladies are especially adapted to this kind of services and the demand for those who can write in short-hand from dictation, and manipulate the type-writer skillfully, is rapidly increasing.

To meet this growing demand, we have opened a department of short-hand and type-writing, where students will receive a thorough preparation for amanuensis work.

Accident to Father Conway.

He falls from His Horse and Sustains Serious Injuries.

About half-past ten this morning Rev. Father Conway, while out riding, met with an accident over which the attending physician shakes his head ominously and whispers "possibly serious." He was riding along Brock street west, when he was seen to fall backwards to the ground. An examination afterwards revealed the fact that one of the stirrup straps was broken and to this is attributed his unfortunate accident. Some neighbors who witnessed the affair, immediately went to his aid, and after resting for a minute, he walked home, the distance of a couple of blocks, leaning on the arm of Mr. Belcher. Blood was pouring profusely from his ear. Soon after reaching his home a stupor settled over him. Dr. King was immediately summoned and did all his medical skill suggested for the sufferer, who is this afternoon reported somewhat better. The physician does not know as yet the full extent of his injuries, but regards them as very serious. No bones are broken, but it is feared internal injuries may have resulted. In falling he struck on the back of his head.

A Romance of the Ocean.

A Hamilton despatch on Wednesday gives the particulars of a nice little *affaire d'coeur*, in which the staid and senationless town of Lindsay and the obscure village of Janetville are mixed up. The despatch states that on board the steamer Wisconsin, which arrived last week at New York from Liverpool, was a young woman of rare beauty and apparently splendid attainments. Reserved and wearing a melancholy air, she enlisted the sympathies of those on board, among them a rich, aristocratic looking London merchant, to whom she confided her troubles. It was the old, old story. Her husband, who was wealthy, had sold out his business in England, had deserted her and left for American six months ago. She at last found out his whereabouts, and was coming to America to claim him. "The last I heard of him," she said mournfully, "was in Janetville, Ont., near a place called Lindsay, where he is extensively engaged in the lumbering business." The two became fast friends, the Londoner vowing he would be her protector and aid in her search for her derelict husband. Arriving in New York they took rooms at the Brunswick. Drives, theaters, late suppers, etc., followed in order. The merchant spent lavishly and the now gay widow of grace, young brilliant and charming, smiled at the title of "my niece." They left the Brunswick with flying colors, bade good-bye to Gotham, and were next found at a leading hotel in the quiet city of Hamilton. The register at the hotel bears the name Mr.——London; Miss D——, England. A few days ago his money gave out and the hotel there became too hot for the pair. After gentle hints they decided to go east to Toronto, but they did not. They flew past in search of the recreant husband but they did not switch off at Janetville. They have commodious quarters now at Lindsay, where the great merchant of the metropolis keeps wiring his agent at Hamilton for "another fifty."

Horticultural Society.

A special meeting of the Directors of the Peterborough and Ashburnham Horticultural Society was held in the Bank of Toronto on Thursday afternoon. There were present Messrs. Roper, Stevenson, Stratton, McClelland and McNeil. The secretary was instructed to issue orders on the treasurer (Mr. Lewis, Bank of Montreal), to the prize winners at the recent Exhibition, and also for all accounts due by the Society in connection with the Exhibition and Court House Park. To do this will cause the Society to borrow about two hundred dollars, and the President and Vice-President (Messrs. Roper and Stevenson), were authorized to borrow sufficient money to meet the deficit, which was caused by the large amount expended in keeping the park in good shape and in purchasing hose, mowers, and an extra quantity of flowers. The receipts for the season from the town, county, government grant, membership fees and admission to the Exhibition amounted to about $522. The expenses for the Exhibition, including the prize list, footed up to about $200, so that it will be seen that the cost of maintaining the park was large. The President was instructed to post notices forbidding trespassing after the 15th of October, and to have wire placed at each entrance to prevent persons, through forgetfulness, from entering the grounds. The Principals of the Public and High Schools are also to be notified to give instructions to children to keep off the park, as all persons found trespassing will be prosecuted.

Becoming the Babies.

Some business men are inexhaustible in their resources, and there is no end to the means which Gough, the Wonderful Cheap Man, employs to prove that he is a benefactor to the race. He has abundantly proved this in his providing the public with clothing at almost gift prices, and now he has developed a lively interest in the origin of man. He has taken the babies under his wing, and is preparing a benefit for them. The crowning attraction of the Peterborough Central Exhibition will be the grand baby show, which, thanks to the liberality of Gough, the directors have put on the list. Gough has offered for the competition of all the babies in the district, between the ages of 6 and 12 months, the following prizes for the best: a suit of clothes for the father, a pair of blankets for the mother and a silver mug for the baby having the handsomest mug and the deepest dimples. Messrs. E. C. Hill, H. LeBrun and Thomas Dunn have consented to act as judges, and it is suggested that a large detachment of special police be provided to protect them from the attentions of the mothers of unsuccessful infants. The exhibit will be made on Oct. 6th, and will be so arranged that the public will have a view of the details of the judging and the grand array of infantile beauty, gathered together for the occasion.

Young Men's Christian Association.

Anniversary of the Peterborough Branch—Addresses by Association Members—The Progress of the Work.

The George street Methodist church was well filled Thursday evening, on the occasion of the anniversary services of the Peterborough Young Men's Christian Association.

Mr. Geo. M. Roger, President, occupied the chair, and beside him on the pulpit platforms were the several speakers of the evening and those who assisted in the services.

A letter of regret was received from Rev. A. Bell, stating that owing ten previous engagements he was unable to be present.

The male choir, composed of about twenty members of the Association, supplied excellent music. It included several musical instruments. Under Prof. Seward's training the choir were enabled to render their selections with precision and harmony. Mr. Jacques acquitted himself creditably on the organ.

The opening hymn, "All hail the power of Jesus' name", was sung by the audience, followed by prayer by Rev. F. H. Wallace, M.A., B.D., and a Scripture reading by Rev. J. C. Wilson.

CHAIRMAN'S ADDRESS.

The chairman, Mr. Geo. M. ROGER, made an introductory address, in which he stated that the support afforded the Association by the public was not what it should be, and this he attributed to a lack of knowledge on their part of the aims and operations of the cause. But they could not complain. As the financial and other reports would show, the affairs of the local Association were in a satisfactory condition. The debt had been wiped away and besides they had made forward strides in every department. Strenuous efforts had been made during the year to gain this end, and while the last anniversary witnessed a critical condition of the Association, probably at this anniversary there was an equally great crisis; for of these energetic efforts were followed by a relaxation and relapse, and therefore they asked the public for a still greater share of support. Their work met with many discouragements and a few encouragements—as, for sample, he had that evening received a cheque through the mail, from a source whence it was least expected. He briefly reviewed the progress of the year. In membership there had been a great increase. Referring to the services of Mr. Geo. E. Williams, the Secretary, who was about to sever his connection with the Association, he spoke most heartily, and bespoke for the new Secretary the support and encouragement of all their friends. A cheerful word and kind sympathy had their encouraging effect as well as money, and he asked a liberal supply of both at the hands of the public generally.

THE SECRETARY.

After a chorus by the choir, "Not my Own," the retiring secretary, Mr. Williams, entered upon a brief review and preview of the work of the Association. And he began at the debt with which they began the year's work; It was $850, and besides they had to raise over $1100 for current expenses—some $2,000 in all. This had practically been all paid off, though a considerable amount still remained uncollected. He hoped, before he left town, to have the finances for the coming year in a satisfactory condition, so that the incoming secretary would not be harrowed by any such troubles. There had be an advance all along the line—in membership, an increase of over 80, which meant a vast amount of labour. Of course they suffered by removals from town, which made the net results at the end of the year appear smaller than they really were. And another trouble was created in supplying their places on committees. The religious work has evidenced great progress, and the speaker referred to the spiritual benefit received by young men in the Association. The intellectual and social work had been most satisfactory, more so than the physical portion. The Association was greatly in need of a gymnasium, and he thought the business men of the town owed it to the young men of the town. He hoped it would speedily be supplied. In conclusion he referred to his own efforts, the success of which he attributed to the strong supporting hand of God. He thanked his friends for their kindness to him in the past few years, which had been pleasant ones, and asked every encouragement and sympathy for his successor at the hands of the young men and ladies. He hoped the coming year would be most successful in the history of the Association. He feelingly spoke of his attachment to the work and people here, and assured them he would never forget it and them. He publicly bade farewell to the audience and retired.

The choir rendered a chorus, "Onward Christian Soldiers."

THE TORONTO REPRESENTATIVE.

Mr. Wm. MCCULLOCH, of Toronto, was the next speaker. He began by mentioning he progress of the work done here as evidenced by the statements already made, and he said the Association had every assurance that the coming year would be still more successful. He earnestly expressed the hope that the retiring secretary, Mr. Williams, would continue to receive the help of God and mankind in his new sphere of labor. The speaker eulogized Mr. Williams for his able efforts in behalf of the cause, and bespoke the sympathy of the public for the incoming secretary. The work in which they were engaged had no small, circumscribed sphere. China, Japan, India, Jerusalem, Great Britain, the United States and other countries witnessed the world-wide growth of the work. Three thousand five hundred Associations, 1145 of which were on this continent, were the practical result of their progress. He referred to the aims of the Association in leading young men to lives of Christianity. There was great need of this work, too, for the young men of the period were fast planting their feet on the broad road to ruin. The speaker engaged in a general resume of the work and results of the Association at large, and referred especially to the progress in Ontario, instancing the branch in Owen Sound, which had erected an Association building by public subscriptions. He hoped the people of Peterborough would do likewise; they would find it a safe and sound investment. He pointed out the claims of the Association upon them, the claims of an organization that had for its end the highest and holiest aims. Let the young men be saved and the country was safe. The speaker feelingly impressed his hearers with the urgent need there was of this good work, illustrating his address by several anecdotes. He concluded by an earnest appeal for the pecuniary assistance and sympathy of the audience and public generally in behalf of the work.

While the collection was being taken up the choir sang "Beloved, now are We the Sons of God." This was followed by the hymn "Rejoice and be Glad."

THE NEW SECRETARY.

Mr. W.H. STEVENS, of Montreal, was next introduced. He had not, he said, come with any remarks prepared, as he had understood Hon. S H. Blake, Mr. Gzowski, and others would be present, and he would, therefore, merely have to say "how-d'ye-do?" and make an address, if necessary, on some other occasion. It was an encouragement to him in coming to Peterborough to know that the prayers of the Montreal young men followed him here. He had, he said, considerable misgivings in coming to Peterborough to succeed Mr. Williams, but he had given the call to this place prayerful consideration, and he felt he followed God's call in accepting it. He would not say anything about the people of the Association, as there had been fully placed before them by the other speakers. He asked for himself the sympathy, earnest counsel and prayers of all in the [illegible] for himself, as far as in him lay, all the duties of his position. Mr. [illegible], whom as it was well and many [illegible], was earnest and to the point, and [illegible] first public appearance in Peterborough. His pleasant remarks were for him the foundation of all his success.

Rev. E. F. TORRANCE offered up a prayer, which was followed by the doxology, the benediction being pronounced by Rev. Mr. Tovell.

Before the meeting was brought to a close, Mr. Williams said he had a couple of announcements to make—one, that next month a couple of young men who were going to China would visit Peterborough and hold services, which would be announced; the other was a general invitation to young men to visit the Y.M.C.A. hall and participate in their services, Saturday night and Sunday in particular.

The president, Mr. Geo. M. Roger, supplemented this by urging upon parents the advisability of interesting their sons in the work, and getting them to attend the Association meetings. It would benefit not only the Association, but the young men themselves. He extended to the new Secretary, Mr. Stevens, a hearty welcome to Peterborough, and wished to assure him of the warm support and sympathy not only of those present, but of all their friends. He asked the encouragement of all Christian friends on behalf of Mr. Stevens.

REV. E. F. TORRANCE said he wished publicly to express his regret at the departure of Mr. Williams, and spoke of the high appreciation of Mr. Williams services. His earnest prayers would follow him, as, he was certain, would also the prayers of the people of this town—prayers not only for Mr. Williams, but his wife also. He felt sure the young men could not pay Mr. Williams a higher compliment than by that night giving themselves to Christ and joining the Association.

Police Court.

FRIDAY, Sept. 23rd.

James Condon pleaded guilty to a second violation of the Scott Act, and was fined $100 and costs.

AN IMPORTANT CASE.

The next case was one against James Lydon, of Toronto, who was charged with having committed a breach of the transient trader's by-law by selling goods in town without a license. The defendant was alleged to be the proprietor of the silverware, etc., which has for the past two or three days been auctioned off by Mr. Chas. Stapleton in a lower George street store. The defendant contended that the goods had been consigned directly to Mr. Stapleton, who had entire charge of them, and he (the defendant) had nothing to do with them any more than assisting in the sale.

Mr. E. B. Edwards appeared for the prosecution; Mr. Lydon conducted his own case.

Mr. E.B. Stone was the first witness. His evidence went to show that he had attended the auction room and bid for a piece of silverware, which was knocked down to him. He offered the pay to Lydon, asking him at the same time if the article was any good. "Well," replied Lydon, "I'll give you $2 for your bargain." This offer was accepted and the goods left in the shop. He did not see Lydon take any money from anyone, but saw him handing the goods down to the auctioneer and describing them to the people.

Mr. J. G. Macdonald, police court clerk, produced the by-laws and stated that Lydon had taken out no license. The building in which the sale was conducted was assessed to W. H. Chamberlain.

Acting-Chief Adams testified that he had waited upon defendant yesterday and told him that he must take out a license. He asked him if he was the party in charge and for answer Lydon handed him his card, giving his address as Toronto. He refused to take out a license. The officer saw Lydon handing down goods while Mr. Stapleton sold. The store had been in operation Wednesday and Thursday. He heard Lydon say to Stapleton "we will only sell this afternoon and to-night." In answer to Mr. Lydon's questions he stated that there was a printed placard in the window "Stapleton's Auction Rooms;" and that Mr. Stapleton sold the goods.

THE DEFENCE.

For the defence Mr. Stapleton took the stand. He produced the C. P. R. shipping bills showing that the goods had been consigned directly to him. Mr. Stapleton stated that he had rented the store and had been there four days. The bills announcing the sale were in his name and the goods were sold by him without exception. All accounts were made out in his name, he paid all the cheques and he had full control of the business. The defendant simply described the goods for him and acted as his servant in that way. To Mr. Edwards, he stated that Lydon was in his employment, but got no salary. He kept the books for him and handled all the money, which at night was handed to Mr. Stapleton. He (the witness) was selling the goods for Lydon on commission under a consignment to him. He acted as proprietor and sold as auctioneer. He also employed a man named Jones, of Toronto, whom he paid $1:50 per day. Jones looked after the shop and slept there at night. Jones had been recommended to him by Lydon and another man, and Lydon had promised to send him down from Toronto. He had paid Jones' expenses down, the witness said, though his accounts didn't show it. Mr. Stapleton said he was engaged to sell on 5 per cent commission and disbursements.

THE ARGUMENT.

Mr. Lydon contended as at first that he could not be held the occupant of the store or owner of the goods, as the consignment gave Mr. Stapleton all the powers of proprietorship. He had, he said, been selling this way through the country, and had often been charged with a breach of the law, but always dismissed. He pointed out a case mentioned in the statutes, similar to his own, in which the defendant had been discharged.

Mr. Edwards argued that the defendant, Lydon, was really the occupant of the building and owner of the goods, Mr. Stapleton merely acting as his agent at his customary commission. He held that the arrangement was an attempt at fraud and a subterfuge to escape payment of the license fee of $20.

His Worship, in giving judgement, confirmed Mr. Edwards' views, for as all the accounts, though paid by Mr. Stapleton, had afterwards come out of the goods in stock, Lydon really owned the goods and Stapleton was merely his agent. He considered the little engineering about the consignment to be an attempt to avoid payment of the license fee.

The defendant was fined $20 and costs.

MISCELLANEOUS.

A couple of Scott Act cases, first offences, were called, but as the defendants were not present they were enlarged.

A couple of young men, charged with disturbing worship at the Salvation Army barracks Saturday night, were dismissed by the magistrate with a reprimand, after promising better conduct in the future.

Patrick Murray admitted the charge of being drunk and disorderly, and was mulcted in a fine of $2.

Committee Meeting.

A committee meeting of the whole town council will be held this evening to consider the purchase of a lot lying near the Bethune street bridge, alongside and embracing the curve of the creek. At this point every spring the freshets give a great deal of trouble. It is proposed to buy the lot, crib the front, and utilize part of it as a public highway. Mr. Dumble owns the lot and offers it at a loy figure.

Turnbull's immense stock of Dress Goods is lovely styles, is complete. Ladies! Look through it. Prices are positively right.

Penmanship.

The appearance of an accountant's books and the facility with which his work is executed depend largely on the style of his penmanship; hence this forms an important feature in the course of college instruction, and every pupil is taught and required to become an easy, rapid, and plain writer. In view of its great importance, this branch of study will receive increased attention during the coming year. The department of writing is in charge of a skilful master of long experience and wide reputation. Students may join this department alone, and special inducements to study and practice penmanship are offered to pupils of other schools who do not enjoy the advantages of a professional teacher of the art.

For the first two months of the fiscal year the total exports have been $20,459,852, of which $17,134,638 was the produce of Canada and $3,325,214 the produce of other countries, showing an increase of $407,106 in the former and of $201,400 in the latter. In goods the produce of Canada the mine shows an increase of $28,2[illegible] 231,129; animals and their products [illegible] manufactures $213,568. Agricult[illegible] show a decrease of $311,563. In [illegible] countries agricultural produ[illegible] increase of $787,423, and forest $113,223.

Statement of goods entered for c[illegible] during August—Dutiable goods, $6,411,[illegible]; coin and bullion, $20,194; free goods, $3,337,602; total, $9,769,583; duty collected, $1,968,709.

To-morrow's Canada Gazette will contain the following order-in-council with reference to the Scott Act: Whereas, it is prescribed as a matter of administration that a uniform rule should be adopted in dealing with petitions praying for the revocation of orders-in-council bringing the Canada Temperance Act into force, notwithstanding that three years have not elapsed from the date of the coming into force of the act under said order-in-council, His Excellency, on the recommendation of the Minister of Justice, and by and with the advice of the Queen's Privy Council for Canada, has been pleased to order, and it is hereby ordered that no election for the revocation of an order-in-council under the Canada Temperance Act shall be authorised to take place earlier than fifteen days before the expiration of three years from the date of the coming into force thereof under said order-in-council.

The Bank of British North America gives notice of an interim dividend of 35s per share, being at the rate of 7 per cent. per annum.

The lumbermen of this section will send another delegation to Quebec to interview Mr. Mercier on the question of the increase of ground rent for timber limits. A prominent lumberman to-day said that what the lumbermen were really afraid of was the increase of a cent or a cent and a half a log in the timber dues, and what they wanted was some understanding similar to the old twenty years agreement, so that they could know what they would have to pay for ground rent and timber dues for a number of years to come.

Sir John has accepted the invitation of the County of Carleton Agricultural Society to open the fair at Bell's Corners next Tuesday.

Capt. Sheehan, ex-M.P.P., E. A. Smith, St. Catharines, and John Shields, Toronto, had an interview with the Minister of Railways to-day, with reference to securing the right of way for the Niagara Central Railway over land owned by the Government in connection with the Welland Canal works between St. Catharines and Thorold.

Argument in the Ayer case was not concluded to-day as was expected, Messrs. Hoskin & Ferguson occupying the whole sitting of the court with the arguments for the Crown. Mr. MacMaster will reply to-morrow, when the case will be taken en delibere.

Messrs. Temple, M.P., and Gibson of St. John, N.B., are here for the purpose of getting the plans approved of the bridge across the St. John River at Fredericton in connection with the New Brunswick Central Railway, to which the Government voted a subsidy of $300,000 last session.

The Anarchist's Arrested Wife.

CHICAGO, Sept. 23.—Lucy Parsons, the wife of the condemned Anarchist, was arrested yesterday for violating the city ordinance against distributing handbills on the streets. The circulars were copies of Parsons' address to the public. She was released on bail.

FIRE AT GRAVENHURST.

THE ENTIRE BUSINESS PORTION OF THE TOWN DESTROYED.

Fifty Families Homeless, and Many of Them Destitute—Assistance Greatly Needed—Loss of Supplies and Money—List of Those Burned Out.

GRAVENHURST, Sept. 23.—The entire business portion of the town was destroyed by fire early this morning, consisting of Mowry's foundry, Brignall's wagon shop, Gregg & Spier's blacksmith shop, LaFrahier's Hotel, S. Kitzbe's tailoring establishment, Tudhope's jewelry store, Keeper's restaurant, McNeil's grocery, Geare's general store, G. F. Marter's general store, Powell's general store, Mrs. Galbraith's restaurant, J. W. Tudhope's restaurant, Melvin's grocery, Gaynor's jewelry store, Shea's boot and shoe store, Passmore's butcher shop, Rorke's jewelry store, Boyd's Grand Central Hotel, Brown's grocery, H. H. Marter's furniture and harness store, Allen Bros'. grocery, King's butcher shop, Clif Sham's blacksmith shop and carriage factory, McKim's dry goods store, Post-office, telegraph, telephone and express offices, McCarthy, Pepler and McCarthy's law offices, J. F. Young's hardware and tinware, Moody's dry goods, D. Smith's dry goods, Meisarda's grocery, Teiges' drug store, Abbott's barber shop, Dr. Williams' office, Kobs's tailoring establishment, Dr. Gerrell's drug and book store, J. P. Cockburn's book and stationery store, Cooper's Royal Hotel, Matt Hazer's shop, Sullivan's boot and shoe store, Orr' dry goods store, John Sharpe's Caledonian Hotel and grocery, Palmer's grocery, R. K. John's law office, Winslow's boot and shoe store, the Albion Hotel, King's bakery, Dowler's dry goods, Mrs. Scott's dressmaking establishment.

In addition to this the Public School, the Church of England, The Banner printing house, the lodge rooms of the A.O.U.W., Oddfellows, Foresters, Sons of Scotland and Masons, and a number of private dwellings, leaving fifty families homeless and many of them destitute.

Relief and shelter committees have been organized, and assistance is greatly needed, both in supplies and money, particularly the latter, to provide temporary shelter. Donations may be sent to Mayor Harvie, chairman, or J. K. Link, secretary and treasurer of the committee.

A LEADER OF THE QUEBEC MOB.

Napoleon Wagner, who Assailed the Salvation Army, Fined $40.

QUEBEC, Sept. 23.—Recorder Dery rendered judgment to-day in the case of Napoleon Warner, accused of leading the mob in the recent attack upon the Salvation Army. Wagner was fined $40 and costs or two months' imprisonment. The Recorder stated that this was the highest penalty the law could inflict. His Honor in concluding his review of the case said, "Was the Salvation Army illegally constituted? This is what the public was anxiously awaiting. Unfortunately this point had not been submitted to him, and he was not called upon to give a decision thereon, but as it had been stated by the defence that the army were vagrants he would say that, in this country, when the object of an association is good, that association could not be called illegal. The Salvation Army were exactly in these circumstances, and this point had already been decided in England in this sense. With regard to the case of the three others accused, who, by the way, he did not believe as guilty as Wagner, he would give a decision on Monday. But he wanted all the accused to strictly understand that they had not the right to constitute themselves the defenders of society. The proper course to follow was for them to test the constitutionality of the army.

CHOLERA IN NEW YORK BAY.

A French Ship Comes in With Four Cases in Her Steerage.

NEW YORK, Sept. 23.—The French steamer Alesia, Capt. Valliat, of the Fabre Line, arrived at quarantine last night from Marseilles and Naples. She brings 3 cases and [illegible] steerage passengers. On her arrival at quarantine four cases of Asiatic cholera were found among the passengers in the steerage. Eight persons died during the voyage to this port. On Sept. 12 Lange Maria, a steerage passenger aged 23 years, was taken sick and died on Sept. 13. Paul Antonio Bellymeo, another steerage passenger, aged 28, was taken sick and died on same date. Jean Leonvelin, a sailor, aged 40, died the following day, [illegible] twenty-four hours from the time he was taken down with the disease. On Sept. 17 Jean Somma, a sailor, aged 20, was taken sick. He died on Sept. 19. Serafin le Lis, aged 21, a steerage passenger, died on Sept. 20. Anna Veleridge, a steerage passenger, aged 47, died on Sept. 21. Francisco Mastea, aged 41, was taken sick before coming on board, and died on Sept. 22, probably of bronchitis. Maria Antonio Seala Veno, aged 59, was also ailing at the time of coming on board, and died on Sept. 22, though without the symptoms of cholera. All of the above were buried at sea. The Alesia is now in the lower bay. Her sick passengers will be transferred to the Swinburne Island Hospital. All the remaining passengers will be transferred to Hoffman Island for observation; the ship will remain in the lower bay until she has been thoroughly fumigated and cleaned. The passengers will be detained for at least eight days.

Terror Stricken Italy.

ROME, Sept. 23.—The successor of the Prefect of Messina, who recently died of cholera, has also succumbed to the scourge. A number of chemists and physicians, who became panic-stricken and fled from Messina, were pursued by the police and taken back. At Villa-Bota a mob shot a postmaster under the impression that he spread the epidemic through the letters which he distributed. At Monreale fugitives from Palermo are met by citizens with guns and compelled to camp in the open air. A boy, driven by hunger to approach the village, was stabbed to death and the body was then burned. The cholera returns for twenty-four hours ending last night are: Catania, 12 new cases and 12 deaths; Palermo, 8 new cases and 6 deaths; Messina, 123 new cases and 62 deaths.

ZALEWSKI'S CONFESSION.

The President of the Court at Vienna Says the Story is a Fabrication.

LONDON, Sept. 23.—The trial of Zalewski, the perpetrator of the recent wholesale post-office robberies, who [illegible] weeks ago arrested on the steamer Hampshire at New York, began [illegible] Vienna. The chief interest in the proceedings was the strange story told by the prisoner to the effect that he stole money amounting to £15,000, not for himself, but by order of a certain secret society; which, he said, was [illegible] Polish Patriotic Union, which, according to his account, aimed at [illegible] army to support a scheme for the transformation of Austria into a [illegible] which would denounce the alliance with France. The president of the [illegible] proved that the story was a mere fabrication.

TORONTO TOPICS.

A Big Slice Added to the City—Some Fresh and West Toronto Junction Resolved.

TORONTO, Sept. 24.

The inquest touching the death of Mr. Joseph Priestman was resumed at Parkdale last night and resulted in a verdict of wilful murder.

The jury retired a few minutes before midnight, and at 1 o'clock this morning returned with a verdict of wilful murder at the hands of some party or parties unknown.

To-day's Ontario Gazette contains an important proclamation by which the result of the recent application to have a large portion of territory added to the city on the north and west is seen. Nearly all the applications have been granted, the parcels which have been admitted into the city being four in number, as follows:

No. 1: The Judge Morrison estate, known as "Woodlawn," on the west side of Yonge-street, and an equally large tract on the east side of the same street; about fifty acres in all.

No. 2: Part of township lot 28, bounded on the south by the Canadian Pacific track, on the north by Rathnelly-crescent, on the west by Poplar Plains-road, and on the east by the boundary line between lots 28 and 29.

No. 3 includes lots 31 to 34 inclusive, with West Toronto Junction as a western limit, the crest of the hill on the north and the Rathnelly estate on the east. The Wards of St. Paul, St. Stephen and St. Mark each have a slice of this latter portion.

No. 4 is a small tract between Parkdale and the Indian-road, nearly 100 acres in extent, commonly known as Sunnyside.

The city boundaries, therefore, now extend from High Park to the Humber—a distance of nearly eight miles, and from the Bay to the Davenport-road and the Rathnelly estate. The present addition includes Dovercourt and Seaton Villages, and the whole tract comprises between 1300 and 1400 acres.

Looking to the future, West Toronto Junction on the northwest and Deer Park on the north are now reached and will be the next suburbs to be swallowed up, while Mimico on the extreme west and Little York on the east will in turn lose their identity in the ever-growing city. At present the leading residents of Deer Park and the Junction are satisfied with the present condition of affairs, but when the intervening territory has been built upon and the city proper reaches their doors, they will no doubt accept the inevitable with as little real opposition as the inhabitants of Dovercourt and Seaton Village.

There was a meeting of the District Assembly of the Knights of Labor last night, Master Workman Samuel McNab in the chair.

The ignorant attack on the order made by Rev. Sam Small in his lecture the other night was brought up and the following resolution regarding it was adopted:

That this District Assembly, having been creditably informed that Rev. Samuel Small, in the course of a lecture or speech delivered in one of our city churches recently, saw fit to unfairly attack and unjustly stigmatize our order and its platform of principles, and as this attack was made at a time and place which precluded reply, this district is of opinion that the rev. gentleman's statements should not be allowed to pass unquestioned.

Be it therefore resolved that the recording secretary be instructed to write the Rev. Samuel Small, inviting him to meet a speaker to be named by this District Assembly and discuss with him in public the platform of our order and to offer to pay for a suitable hall, allowing the rev. gentleman to name the chairman and take up a collection for his sole benefit.

Judge McDougall yesterday gave judgment in the matter of the application for an order on Police Magistrate Denison to show cause why he should not be compelled to endorse the Montreal warrant for the arrest of Editor Sheppard. His Honor granted the application and fixed next Friday as the day for hearing the argument.

Hon. John Norquay is still in the city. A gentleman, who claims to know what the Manitoba Premier's hopes are in regard to raising funds for the construction of the Red River Valley Railway, declares that he now looks to Canadian capitalists, and that certain Toronto parties are being sought to join a syndicate for the purchase of bonds.

The arrival here of Sir George Stephen, and Mr. W. C. Van Horne of the Canadian Pacific Railway, so soon after Mr. Norquay, would seem to indicate that these gentlemen are following the Premier with a view of antagonizing any element which he might induce to come to his assistance. This supposition, however, is denied by a Canadian Pacific Railway official, who claims that Mr. Van Horne's party are making an inspection of the line in company with Mr. T. A. McKinnon, who is to become shortly the general superintendent of the road. Mr. McKinnon is at present General Manager of the Southeastern Railway.

Sir George Stephen and Mr. Van Horne will be guests of Postmaster Patteson at Eastwood to-day.

THE THISTLE'S MEASUREMENT.

She is Found to be Longer Than She Was Represented to to be.

NEW YORK, Sept. 23.—There was a sensation in the New York Yacht Club last evening. The official measurement of the Thistle disclosed the fact that she was nearly a foot and a half longer on the water line than she was represented to be by the figures given in the challenge for the America's Cup, and the question was raised whether she should be allowed to sail the races in her present condition. The question is an important one, as it affects the amount of ballast the challenger can carry and through that her existing sail plan. In the challenge she was represented to be 85 feet on the water line. Mr. Hyslop's measurement shows her to be 86.46 feet on the water line. The excess is explained by the fact that when she first came out it was discovered that she was too heavy, a guard and her bobstay was increased so as to make her carry her sail. How many tons of ballast were added is not known except that over a ton and, according to some reports, two tons have been put in since her arrival in this port.

At any rate the effect has been to sink her deeper in the water and lengthen the water line. An informal discussion of the matter was held last evening between Governor Kortright and Stephen Peabody of the Reratta Committee, and Gen. Paine and Mr. Burgess. Gen. Paine said he had nothing to do with the matter. The races are sailed by the club and he only knew his boat was to sail for the cup. If anybody thought Lake Amy ought to pay it, he would not pay it. Her measurer was gone near the dock, and she lay on her side by the shifting of her immense cargo of cedar, and was dragging both anchors. Nothing has been heard of her since. The wind blew a gale from the Northwest all night.

The Failures for the Week.

NEW YORK, Sept. 23.—The business failures occurring throughout the country during the last seven days number for the United States 186 and for Canada 27, or a total of 213 as compared with a total of 188 last week and 174 the week previous to the last. For the corresponding week of 1886 there were 194 failures, being 165 in the United States and 29 in Canada.

ASSAILED BY A CORK MOB.

ROOMS OF THE PROTESTANT YOUNG MEN'S ASSOCIATION ATTACKED.

The Crowd Dispersed by the Police—Michael Davitt's Visit to America—O'Brien Removed From Cork to Mitchelstown for Trial.

LONDON, Sept. 23.—During the meeting of the National League in Cork last evening, a crowd which had gathered outside the building made an attack upon the rooms of the Protestant Young Men's Association. The police charged the crowd, but the mob continually gained fresh accessions and rushed, and a melee occurred, the police using their batons and the crowd paving stones. The conflict continued until Mr. Tanner, M.P., who was at the league meeting, came out and implored the crowd to desist. After this the police made another charge and dispersed the crowd. Several constables were cut with stones.

Davitt's Visit to America.

LONDON, Sept. 23.—The Standard says Davitt's prophecy that Irishmen would not be frightened into respecting the law would have a better chance of being fulfilled did not he himself set an example of polite self-effacement which bodes well for peace. It is opportune, it says, that considerations of health led him to transfer himself to the repose of American society.

A Democratic Government.

LONDON, Sept. 23.—Lord Randolph Churchill, speaking at Whitby to-day, said the present Parliament is a fairly democratic one and is, therefore, strong. If it were otherwise it would be unable to grapple firmly with the National League. The obstruction encountered during the session was due to Mr. Gladstone acting as leader of the Parnellites.

THE TRIAL OF O'BRIEN.

The Prisoner, Strongly Guarded, Removed from Cork to Mitchelstown.

CORK, Sept. 23.—William O'Brien, who is charged by the Government with sedition under the Coercion Act, was taken to-day from the Cork jail to Mitchelstown, where the alleged seditious language was used, to stand trial before the court there. As he left the city under guard of a detachment of hussars and police, he was loudly cheered. Upon their arrival at Mitchelstown, Mr. O'Brien was received with tremendous cheering by a large crowd which had gathered to welcome him. The crowd manifested great excitement, but there were no indications of disorder. Mr. O'Brien was immediately conveyed by his guards to the court room. Many English ladies were present to witness the trial, and Mr. O'Brien was the recipient of bouquets from a number of them.

When the case of O'Brien was opened several policemen were called as witnesses for the Government. They testified from memory as to O'Brien's language, which, they asserted, tended to incite his listeners to violence.

During the hearing of this evidence a procession armed with sticks and headed by a wagon carrying a band marched into town from the country. The hussars stopped the wagon, but allowed the other part of the procession to proceed. The procession took up a position close to the court room, but order was observed.

Constable Foley admitted that the notes he made of what Mr. O'Brien said in his speech were made the next morning and from memory. The head constable told him to write the report. He was not asked to produce the notes for many days after. He could not swear that O'Brien spoke in the order in which the words appeared in the notes.

Brass Workers Ordered to Strike.

NEW YORK, Sept. 23.—The Executive Board of the United Brass Workers' Union has directed all workmen employed in the Chandelier factories in this city and Brooklyn to stop work at noon to-morrow in order to enforce for themselves the Saturday half holiday, which the Chandelier Manufacturers' Association is attempting to withdraw from them. According to this 4000 men will stop work at the above mentioned hour.

A YOUNG LIFE LOST.

Thomas Campbell's Body Found in the Bay—The Result of a Collision.

TORONTO, Sept. 24.

The mystery which surrounded the missing man, Thomas Campbell of Durham, was solved yesterday by the finding of his body in the Bay. Yesterday morning Esplanade Constable Williams and four assistants began to drag the scene of the ferry boat collision. They worked until 1 p.m. without finding any trace of the missing man. At last the signal lantern of a steamer was picked up, which led Mr. Williams to renew the search in that locality, with the result that the body was found about 100 yards east of the waterworks dock.

The father, Quintin Campbell, watched the searching party from the dock all morning, and on the body being brought he identified it as that of his son. The body was taken to the Morgue, pending the decision of the authorities as to the inquest.

Coroner Johnson opened the inquest last evening at the Morgue. A jury was empanelled with Thomas McConnell as foreman. The inquest was adjourned until Wednesday evening next at 8.

NO PAY, NO TOW.

How a Schooner in Distress was Let Drift in Lake Huron.

CHEBOYGAN, Mich., Sept. 23.—The propeller Messenger sighted the schooner Orkney Lass in distress last evening near Spectacle Reef, drifting down Lake Huron. The Messenger offered to tow her into port for $100, but the captain of the vessel would not pay it. Her mainmast was gone near the deck, and she lay on her side by the shifting of her immense cargo of cedar, and was dragging both anchors. Nothing has been heard of her since. The wind blew a gale from the Northwest all night.

FORTY YEARS AGO!

SERMON BY LAYMAN.

Written for the Examiner.

In the estimate of the world's history forty years are a very short time. In the estimate of a man's life they amount to a great deal. At least one half the population of the earth never see the passage of forty years. Three score and ten years are the allotted span of man's life, yet he lives as if he would never die. People come into the world and fret out a short existence and then are gone, and their places are filled by others who in their turn pass away. And so it has gone on and ever will go on till time shall be no more. Who can properly estimate what will take place within a period of forty years to come, what changes in the world's history, and what changes in the history and the condition of its inhabitants? Look at the changes and improvements which have occurred within even the last forty years, in the social condition of mankind, in the progress in the arts and sciences, in everything in fact which tends to man's happiness and comfort, and then imagine what will be the state of the world forty years to come. No one can properly estimate what these changes will be. Science is apparently about to unfold itself more extensively and rapidly than it has ever done before. Electricity, the hitherto great hidden element of nature, is about to revolutionize the world. It seems destined to supersede all hitherto known forces, and it would be no exaggeration to say that its future benefits to man will be the means of uplifting him to a higher plane, both materially and socially, than he now dreams of. For six thousand years mankind has been slowly but steadily raising from the darkness and ignorance of its primeval state. The trials and oppressions and sufferings it has had to pass through are simply incredible, but it has nevertheless risen by slow degrees, in the face of much opposition, sometimes through convulsions and blood shed, and by means of peaceful progress. And although men were denied even the right of thought, and were drawn and quartered and burnt for daring to exercise their mental faculties, yet we see the barriers of intolerance and persecution broken down and all classes of the people being educated and made free. Free to think and free to act according to the dictates of reason, law and justice. At the rate education is being now provided throughout Europe and America it cannot be long before all classes of the people will be competent to fulfil all their duties, not only to themselves but to the state. Austria has her 20,000 schools and 3,000,000 scholars. Italy has 47,000 schools and nearly the same number of scholars; England has 58,000 schools and nearly three and a half millions scholars. Germany 60,000 schools with over 4,000,000 scholars; France 71,000 schools and 3,500,000 scholars. Even benighted and priest-ridden Spain has 23,000 schools and 3,000,000 scholars. And in the United States and Canada the numbers are still greater in proportion to the population. Twenty-five years more will see all the people of Europe and America able to guide and direct their affairs in an intelligent and satisfactory manner. And with minds free they themselves will be free. And then will come in its natural order social and political quality. Forty years ago don't seem very long to look back upon. Our mental vision glances quickly over these long years, so quickly as to make them seem only like yesterday. To many they bring recollections of infancy and pleasure. To other recollections of hard times. But in looking over the long stretch of time we look upon the bright spots in the distance and we almost forget the difficulties and troubles, and we think the past was happier than the present. We forget much of our experience, much which, at the time, seemed full of hardships and troubles. We prefer to think of the time of our youth, of our school days, and the old school house and the old play grounds are ever present to our memory. To look forward forty years it seems as if their end would never come. But when they are gone by we can scarcely realize the fact. Scarcely realize that we are forty years older. Scarcely believe that we have become old men and women. We may sit down and think and we may meditate upon the great changes which have taken place during that time. We may have passed through many troubles and experienced many sorrows, but we derive consolation going back in our memories over old scenes and incidents, and we love to think of the days of our infancy and our youth. Oh! the pleasant days of boyhood. The mind free from worldly care, and the body kept healthy by exercise and fun. If we had our little troubles they were only those of childhood and they soon passed away. We never thought of the future. Never thought of the many long days before us. Never thought that our future way was full of cares and hardships. And it was well that this was so, for our times were cares enough. And when old friends meet after a lapse of forty years, how different they feel and how different their positions and prospects. They are children no longer. The play ground is deserted, and the old school is seen no more. Far away in other lands some will be toiling, struggling for a home, and for comforts which we may never enjoy. Perchance our minds may go back to old times and scenes. We will think of the old house, once the happy home of our youth. But father and mother are gone and it is now occupied by strangers, who care nothing for those who have gone before.

I've wandered to the village, Tom,
I've sat beneath the tree
Upon the school house play ground
That sheltered you and me.
But none are left to greet me Tom,
And few are left to know
Who played with me upon the green
Just forty years ago.

The grass was just as green, Tom,
Bare footed boys at play
Were sporting just as we did then
With spirits full as gay.
But the master absent from the hill
Which echoed o'er with cheer,
Afforded us a sliding place,
Just forty years ago.

The old school house is altered some,
The benches are replaced
By new ones very like the same
Our jackknives had defaced.
But the same old bricks are in their place,
The bell swings to and fro,
Its music just the same, dear Tom,
'Twas forty years ago.

The spring that bubbled 'neath the hill,
Close by the spreading beech,
Is very low, it was once so high
That we could almost reach,
And kneeling down to take a drink,
Dear Tom, I started sad,
To think how very much I've changed
Since forty years ago.

Near by that spring there stood an elm,
You know, I cut your name,
Your sweetheart's just beneath it Tom,
And you did mine the same.
Some heartless wretch has pealed the bark,
'Twas done long years before,
Just as the one whose name you cut
Died forty years ago.

My head has long been dry, Tom,
But tears came in my eyes,
I thought of her I loved so well,
Those early broken ties
I visited the old church yard,
And took some flowers to strew
Upon the graves of those we loved
Just forty years ago.

Some are in the churchyard laid,
Some sleep beneath the sea,
And none are left of our old class
Excepting you and me.
And when our time shall come, Tom,
And we are called to go,
I hope we'll meet with those we loved
Some forty years ago.

The Suit of the Bridges.

The Counties of Peterborough and Victoria in Court.

Chancery sittings were held at Lindsay on Wednesday, before Hon. Justice Robertson. The case, Victoria vs Peterborough County, was heard, and judgment reserved. It occupied five hours and a half in hearing. The case was not, as the *Post* understands it, decided in favor of Victoria. The counsel for the defence are confident it will be the other way. Mr. Moss, Q.C., Toronto, and Mr. Hudspeth, Lindsay, for plaintiff; Mr. Lash, Q.C., Toronto, and Mr. E. B. Edwards, County Solicitor, Peterborough, for defendants.

The action is one to compel the County of Peterborough to appoint an arbitrator to decide the respective portions to be contributed by each county towards the maintenance of the bridges at Bobcaygeon. These bridges, three in number, were originally erected at the time the counties of of Victoria and Peterborough were united for municipal purposes, and, after their separation they were jointly maintained by the two until the year 1879. In that year an Act was passed by the Ontario Legislature, at the instance of the property owners residing on the west side of Pigeon Lake to have all those lots, which then formed part of the township of Harvey, separated from the County of Peterborough and transferred to the county of Victoria. At this time there was a narrow strip of land along the west shore of Pigeon Lake which belonged to the township of Harvey, and the boundary line ran between this strip of land and the adjoining lots in Verulam. The lots in question included considerable valuable property, particularly the mills of Monsom Boyd. Since the separation of this land from the county of Peterborough this county has had no interest whatever in maintaining the bridges on the old boundary line or any deviation from it in the village of Bobcaygeon, and has refused to contribute towards it. The county of Victoria now seeks to have it established in this action that notwithstanding the separation of this land from the county of Peterborough, this county must contribute towards the maintenance of the bridges in question the same as before.

Well Tested.

THAT OATH.

Business is Business. Dirt is Dirt, and when it comes to thro wingdirt, count Gough out.

Supposing on oath from mere hearsay I gave the Aurora record of Mr. Sheppard, what would the people say about me? Simply, that GOUGH was a Coward.

But never fear, Mr. Sheppard, I am not going to resort to such mean contemptible personalities. However, in your reckless oath there are two things I am compelled to show you up in.

1st, in your advertisement in the *Times* you positively state, GOUGH bought his bags off you, but now on your own sworn testimony lo! and behold you give this the lie, for you swear you did not sell GOUGH bags but that a certain farmer bought two dozen from you, who afterwards stated to you that he resold them to GOUGH or one of his Salesmen.

Which is correct? your oath or your advertisement? answer this, as both cannot be truth, and in either case you stand self-convicted.

The next point in your misleading oath is this, you swear that a certain party stated he bought Clothing from GOUGH on conditions that he, GOUGH, would refund the money if the goods were not satisfactory, and that this said party afterwards returned the clothing to GOUGH and that GOUGH refused to refund the money, and kept both clothing and money. I deny this and I defy you to prove your friend s statement to be true and now that you have sworn by him, be a man and give his name and if I don't prove that it is as false as your oath is misleading I will donate $500 to any charitable institution in Peterborough.

Remember, your position is a mean one unless you produce evidence to back it. You have taken an oath full of insinuations only, which is cowardly, and if you cannot give the public more proof than mere hearsay, the people will not be slow to judge your oath and your motive. Besides if your friend will pass in his name and prove what you swear you believed to be true you will have a chance to take $500 more out of THE WONDERFUL CHEAP MAN, if he cannot prove that it is false.

One more word Mr. Sheppard and I am done with you. You state that you are worth over and above all Liabilities, $10,000 (wonder you did not swear this), well, it is an insinuation that I am not—you may be worth $10,000 I don't know, but one thing I do know the Mercantile Agency rates GOUGH to be worth twice as much money as you, and moreover in their July report they say Gough's credit is good, and they don't say this of yours.

Now, Mr. Sheppard, these little personal attacks are not business like, and had you not advertised what you positively knew to be false (your oath proves this) I would never have advertised that I could sell your clothing cheaper than you can buy it and make a profit out of it. But now that I have stated it I will stand by it or loose $500 or $1000. Do you accept or do you not, for this and this only will prove which, you or I, are in a position to sell Clothing the Cheapest.

Surely this is the right time and the right place for you to prove your "Back bone."

Now, Mr. Cheapsides I am done with you unless you accept my challenge, and in conclusion let me assure you the more you bring my business to its true light the better will I like it, for let me tell you since you came here my business has almost doubled, which proves that the people appreciate the man who put down the Prices of Clothing and continues to keep them down. It also proves my motto is square dealing, otherwise the people would not so liberally patronize as they do.

BASEBALL YESTERDAY.

TORONTO, Sept. 24.

Although Toronto won one of the two games played with Wilkesbarre yesterday afternoon, the team's percentage was reduced from .645 to .642.

The First Game.

Costly and numerous errors enabled the "coal heavers" to win, as Toronto did the better stick work. In sliding to second base Fanta injured his ankle and had to retire, Oldfield taking his place. When the Torontos finished their ninth inning the score was 8 to 7 in their favor, but the visitors managed to get in two runs and a victory on O'Brien's single to left, Hallman's double, Condy's hit to Kearns, by which O'Brien was put out at the plate, a passed ball and Albert's fumble of Brill's grounder. Score:

Damage to the Amount of $1,000,000 Done Near Brownsville.

NEW ORLEANS, La., Sept. 23.—The Brownsville, Tex., special gives a full account of the fearful storm there and at Matamoras. The damage in that section is estimated at $1,000,000. In Brownsville seventy small houses were blown down and 200 others were partially unroofed and rendered untenable. In Matamoras a dozen houses of the better class and from 150 to 200 small houses were prostrated, while from 400 to 500 others were unroofed. In the country on the American side of the river incalculable damage was done. Countless heads of cattle and sheep have been lost, and the crops of cotton, corn and sugar cane were completely prostrated and destroyed.

She Lighted the Way to Murder.

LEBANON, Pa., Sept. 23.—Wm. Showers, the man who was arrested several weeks ago charged with having murdered his two young grandchildren, made a confession of his crime this morning and implicated his housekeeper, Elizabeth Sergent, who, he says, held a light in the children's bedroom while he committed the deed. Showers was arraigned in court this morning and pleaded guilty.

In Brief, And To The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings healthand happiness to the dyspeptic. Ask your druggist for a bottle. Seventy five cents.

A Lucky Escape.

"For six years I suffered with my throat and entailed trouble. I was very weak; I doctored four years and had advice from three doctors; they said I would have to undergo an operation. I tried B.B.B. instead. One bottle cured me." M.A. Spanish, Raglan, Ont. 2w36d

To Avoid Baldness or Grey Hair.

Use Dr. Dorenwend's Great German Hair Magic. It keeps the scalp clean and free from Dandruff, and promotes the growth of the hair. It prevents premature greyness and stops all falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by J. D. Tully and all druggists.

Restored.

Mrs. J. M. Phalen, of Sydney Mines, N.S., had chronic rheumatism for two years' and got no relief until she tried Burdock Blood Bitters. Two bottles cured her. "I was like a skeleton," says she, "before using B. B. B., now thanks to the discovery of such a valuable remedy, I am entirely restored to health." 2w36d

Indispensible.

"I have used Dr. Fowler's Extract of Wild Strawberry for summer complaints, and have given it to my friends. It gives instant relief when all other remedies fail. I would not be without it in my house." Mrs. T. Boil, Weidman, Ont. 2w36d

Beautiful as a Butterfly.

The continued steady increase of the Company's business, now exceeding the aggregate of all the other Canadian Companies, and being more than a fourth of the entire Life Assurance business of the Dominion; **its favorable mortality; its moderate expenses, and the high character of its investments, afford good grounds for highly favorable and satisfactory profits to its assurers** and explains the cause of the unparalleled success of the Company for the last 41 years.

Intending Assurers should, in their own interests, examine the rates and profits of this OLD RELIABLE and Successful Institution before insuring elsewhere.

Special Meeting.

All ladies interested in the Peterborough Protestant Home are requested to attend a special meeting on Tuesday, 27th of September, at 3 o'clock p.m.

Fire Department Improvements.

The new branch pipes for the fire department arrived this morning by express and were placed in position. At the council meeting Monday night some new hose will have to be ordered.

Come Here to Die.

Says the Lindsay *Post*:—"Peterborough is putting on airs because it has a $1,000 hearse, while Hamilton, "the ambitious city," is content with a $900 affair. The $1,000 hearse is, of course, a piece of Peterborough's enterprise.

Father Conway's Condition.

Doctors King and Brennan are in attendance upon Rev. Father Conway, whose condition the former reports to be satisfactory. The bleeding from the ear still continues, and is taken as bad sign, but the physicians hope and believe he will recover.

The Lot Purchased.

At the committee meeting of the whole town council last evening the offer of Mr. D.W. Dumble, to sell the town the south half of lot 11, west of George street and north of Murray street, was accepted, the price being $25.

Now Open.

Chamberlain's oyster parlor is now open for the season. Oysters will be served at all hours in styles to suit the tastes of our patrons. After this week shell oysters will be kept constantly on hand. Porterhouse steaks, chops, etc., prepared on the shortest notice. d

Victoria Cheese.

Cheese in Victoria is looking up. On Tuesday last, Mariposa, Cambray, Bobcaygeon, and West Ops, delivered theirs in Lindsay, and Reaboro at Reaboro station. Prices ruled according to previous contract at 12¼ to 12⅝. Mr. Cook was the buyer. The largest delivery was Mariposa, 9619 lbs, for which $1252 were realized. Cambray sold 7756 lbs.—*Warder.*

The Late John Henry, Toronto.

Mr. John Henry died at Adelaide street, Toronto, this morning. Deceased was a brother of Mr. Thos. Henry, Peterborough. The funeral will leave his late residence on Adelaide street Monday morning and proceed to the Union station, where the corpse will be placed aboard a C. P. R. train for Peterborough, arriving here at 11:33. The remains will be taken to St. Peter's cathedral, and from there to the cemeter y for burial.

Bemusing.

Bobcaygeon *Independent*:—"Port Hope is coaxing the Peterborough Lock Works to that town with a bonus of $20,000 cash a two acre lot and exemption from taxation for twenty years. Port Hope recently had some railway work shops but Lindsay contrived to get them, paying a good price for the removal. If Port Hope should get Peterborough's Lock Works, then Peterborough should pay a bonus and get the railway workshops from Lindsay. Then they would have paid a bonus and be just about the original position. Human stupidity could hardly go farther."

GOUGH AND SHODDY.—The mark of a large sized foot prints the sidewalk, leading to Sheppard's store on George street, was the talk of the town, as a good advertisement for that House. This morning added to it, and in front, were the words "for shoddy." Mr. Gough, the Clothier, George street, made his boast freely that he would accomplish this contemptible trick, and he has done it. So that Gough and shoddy are inseparable for a long time to come.

Mr. Gough wishes it distinctly understood that the EXAMINER is not responsible for the above. Mr. Sheppard had it inserted as an advertisement and was charged the regular rates for it. *Facts* and not *insinuations* will give any man the confidence of the public. The big foot was a decided mis-step. 3d73

What a Business Man Ought to Know.

Nor is the science of book-keeping so indefinite or as little understood as it was formerly. In popular language, to be "a rapid writer and quick at figures" once covered the qualifications of a young accountant, and the other facts he must know in order to manage an extensive business he was expected to "pick up" as the office. But the progress of free thought and improved methods of teaching have made it possible to take a broader view than this, and business men have come to expect and require a better preparation. Their common sense tells them that no merchant can reasonably look for prosperity unless he knows the secret of shrewd buying and selling, how to get the maximum of profit with the minimum of expense, and to keep a record of his transactions that will show at any time the true condition of his affairs. Book-keepers, whether of these particulars would be fatal. How to know the market, to keep profit in excess of loss, and to maintain solvency amidst the fluctuations of values in trade, requires executive ability which comes only by training in the practical work of the counting-room, and reliable judgment based on an intimate acquaintance with the principles which regulate trade. Such considerations, and the laws and limits of demand and supply. Taught perfectly at the Peterborough Business College.

An Enterprising Firm.

J. Coughlin & Bro., marble dealers, Belleville, who have a branch in operations here, made a fine display at the Bay of Quinte fair at Belleville, as the following newspaper notice shows:—"This enterprising and [illegible] of marble dealers were represented [illegible] the handsome display of the [illegible] work was mas[illegible] They showed [illegible] tablet [illegible] scroll, [illegible] tastefully [illegible] fabricated tablet [illegible] artistic mould[illegible] the monument [illegible] American marble[illegible] design, with neatly carved corbels [illegible] job is creditable [illegible] good work [illegible], and a [illegible] slate, Scotch granite. This firm, with their factory at the lower bridge, have been in business for 10 years, and are gradually expanding. They have now a branch in Peterborough. They have succeeded because they turn out only first class work and handle good stock."

St. Luke's Mission Services.

The services for to-morrow in connection with the series of mission services in St. Luke's church, Ashburnham, will be as follows:—

Holy Communion at 8 o'clock.

At 11 o'clock, morning prayer and sermon by the Missioner.

At 2:30 o'clock, Children's service with short address by Rev. E. P. Crawford.

At 4 o'clock there will be a special service for men only. Youths under 16 not admitted.

At 7 o'clock, mission service and sermon by Rev. E. P. Crawford, the Missioner.

At all these services the seats are entirely free and the public are cordially invited to attend. Hymn books will be provided for all.

Stolen Horses Recovered.

Mr. L. Pearsall, of Prince Edward county, who was in town the other day looking for a team of horses stolen from him, had the good fortune to recover them at Port Perry yesterday. As stated in the EXAMINER Thursday, he left for Warkworth upon receipt of a message that the stolen team had been seen there, and followed the trail to Port Perry, where a week before the horses had been sold to the village bailiff for $175 by a young man who gave his name as Smith. The thief made good his escape, shipping the waggon and harness, stolen with the horses, to Hamilton, where they have been secured by the authorities. The horses were brought back to town last night. No trace of the thief has yet been found.

The Dam.

Mr. Wm Kennedy, who returned last week from building a dam below Peterborough, has, says the *Independent*, received instructions from the Dominion Government authorities to make the repairs necessary in the dam which holds up the waters of Sturgeon Lake. It will be seen that the village council have moved in the matter of obtaining a new dam, the existing dam being in a state which is absolutely dangerous. Mr. Rogers, the Superintendent of the works, who is thoroughly acquainted with them, has it is understood, expressed his opinion that the dam should be rebuilt.

St. Luke's Mission Services.

Interesting Services on Friday Evening

Rev. E. P. Crawford, [illegible] Rev. E. P. Crawford, [illegible] Friday evening in St. Luke's, Ashburnham. There was a good attendance and the services were deeply impressive. Preparatory to the regular service half an hour—from 7 to 7:30—was spent in practising the singing of hymns to be used in the service. Rev. E. P. Crawford, the missioner, who is a splendid singer with a clear strong cultured tenor voice, led the singing. At 7:30 the missioner requested the congregation to join him in a minute of [illegible] prayer for the blessing of God on the services of the evening. Prayer was then sung. Rev. E. P. Crawford took the choir leading, and the congregation joining heartily in. After evening prayer another hymn was sung, and the speaker took his place in the pulpit and announced that he had selected three portions of Scripture for the foundation of his remarks—"Godly sorrow worketh repentance, etc."—"If we say that we have no sin, we deceive ourselves"—"Examine yourselves whether ye be in the faith, etc." Before proceeding with his discourse the preacher requested the congregation to kneel with him in silent prayer for God's blessing on the services. He prayed that God might [illegible] them in their [illegible] the [illegible] of his Word, and that the Holy Spirit would sanctify his remarks to the good of his hearers. His only aim was to do the people good.

THE SUBJECT OF HIS DISCOURSE

was repentance. It was pointed out that there were two kinds of repentance, one the "Godly sorrow that worketh repentance," and the other the "sorrow that worketh sin"—one was remorse and regret for the consequences of wrong doing, the other sorrow for sin, springing from [illegible]. The speaker contrasted the sin and repentance of David and Saul; of Judas and St Peter. No repentance could undo the sin committed. Repentance was not demanded by God on his own account, it was solely for the good of the sinner. God plants on earth [illegible] into form our characters, for hearts and repentance was an important part of the preparation of ourselves for heaven.

Here the discourse was interrupted for the singing of a hymn.

The speaker continued by pointing out that we didn't know that we were sinners, and the importance of self examination was insisted on. No prudent business man would go on for years without taking stock, to see how he stood, and every person should take stock of himself to see how he stood with God. No man could see his face without looking into a glass, and no man could see what his spiritual condition was without examining himself by the mirror of God's Holy Word. The people were urged to

COMPARE THEMSELVES WITH GOD'S STANDARD

and then by the enlightenment of the Holy Spirit they would see their sinful condition and seek pardon and peace. The speaker closed his address with an earnest appeal to the people, exhorting sinners to self examination and repentance and a turning to God through the blood of Christ.

The speaker announced that his subject for this evening would be complementary to previous discourses—"The Love of God."

Then followed the singing of hymn No. 140 a litany of repentance.

Several requests for prayer which were placed in a box in the entrance porch, were read and the missioner offered appropriate prayers, the people responding "We beseech Thee to hear us, good Lord" at the end of each petition.

The services were concluded with the blessing—"The Lord bless you and keep you The Lord make his face to shine upon you, etc."

As the congregation were leaving the church a hymn was sung, and as each passed out a tract was handed him upon the subject of the evening's discourse, but it was entirely different from the address, which on this occasion was earnest, delivered in plain, homely language, yet

ELOQUENT AND EXCEEDINGLY IMPRESSIVE,

and at times exceedingly solemn. It abounded in apt illustrations of the subject, and reflected the intense zeal and earnestness of the speaker, who is intensely interested in this department of church work. He has just concluded a mission service in St. John's Church, Ottawa, and from Ashburnham he goes to Parkdale. He is especially well fitted for the work; he has a most pleasing address and a happy faculty of winning his way to the hearts of the people. He invites all who wish to consult with him to call at the church where he will be happy to see them. He spends most of his time in the church, where, upon his knees, he prepares every address he delivers for the day or evening.

The services throughout were unusually inspiriting and edifying. The frequent singing of soul-stirring hymns from a special edition of mission hymns is a marked feature of the services.

Personal.

R. MacD. Paterson, Esq., manager "Phœnix" of England Fire Insurance Company, is in town to-day. Mr. Paterson called here on his way west, to attend the general meeting of the Board of Canadian Fire Underwriters which meets in Toronto next week.

Peterborough Riflemen.

A detachment of Peterborough riflemen visited Lindsay yesterday and participated in the Victoria rifle matches, scooping in in some of the best prizes, Mr. Hall won four prizes, all in the most important matches—the citizens, association, extra series and aggregate. In the aggregate match he was among the leaders. Mr. G. Fitzgerald won three prizes also, one a first. Mr. F. Hall won three prizes and Mr. D. Cameron two, in the above matches. The prizes were all good, and our riflemen are to be congratulated upon their excellent scoring, over which they are justly proud.

The Fifth of November.

The Orangemen of Peterborough intend to celebrate the day in a hearty manner. The 5th falling on Saturday, the celebration will be held on the evening of Monday, Nov. 7th. It is proposed to hold a musical and literary entertainment in the Orange Hall, and probably a supper. A number of grand officers and some of the local clergy have been invited to assist.

In the case against Mr. H. Calcutt, the magistrate gave judgment, dismissing the defendant.

SATURDAY, Sept. 24.

Before F. H. Dumble—Messrs. Tilbrook and F. Laurie were each fined $50 and costs for breaches of the Scott Act.

R. Holland laid a complaint of assault against E. Roberts. The defendant is the grandson of the man who built Peterborough's first house, and first town lot Thursday was in favour with a reference in the EXAMINER. The assault was committed whilst he was under the influence of liquor. He was fined $2 and costs.

FUN IN COURT.

Johanna Welsh charged her husband John with neglecting to support her for the last three or four years. The complainant is 80 years old and his wife 74 year. They lived in Douro until they removed to town, since when John has worked for his "board and lodging" at an Ashburnham hotel, while old Mrs Welsh has been supported by others. The case took a humorous phase, the old couple, speaking in Irish brogue, indulging in mutual recriminations and disclaimers of all blame in the matter, and frequent appeals for Divine interposition, which puzzled the court to no small extent. The defendant pleaded not guilty, and on resuming his seat beside his old life-partner, exclaimed, "Git away wid yer dhirty face; I wouldn't sit beside ye." She very dutifully slid along to the other end of the bench, without a word. The evidence went to show that the old man could scarcely support himself, and he was discharged. Mrs. Welsh on being asked if she had any more witnesses, replied: "No one but meself and Almighty God." As she was leaving, the court she cried reproachfully: "If you don't punish him here, God Almighty will in the next world."

ONTARIO REFORMATORY FOR BOYS, PENETANGUISHENE, Feb. 9, 1887.

DEAR MR. LECH,—The Coat and Furs for my daughter, duly reached me last week and I am perfectly satisfied with them, indeed, they reflect the highest credit on your Establishment and thorough good taste and judgment in your selection of the skins used. I now enclose you my cheque on the Bank of Montreal for the sum of $150.00 amount of indebtness to you as per account rendered. Kindly sign receipt and return it. The Coat fits me beautifully, but requires another fastening near the throat, please send me one.

WM. LECH, PETERBOROUGH. I am Yours faithfully, WILLIAM P. BAND.

But with regret we must acknowledge that instances come to our notice, which by book we have disproved, where goods of us received credit as having been bought in some larger city. The motive of this action being, no doubt, to make the articles in question appear more valuable. Such action, although not creditable, is quite unique, as we claim to manufacture only such articles in Fur Goods as will uphold that reputation of which we feel justly proud.

News Nuggets.

—The rate of taxation of Bobcaygeon is fifteen mills.

—Haliburton made a good exhibit at the Toronto Industrial.

—The County Teachers' Association, of Haliburton, held a meeting at Minden this week.

—At sundown on Sunday evening last, the Jewish New Year 5648 was inaugurated.

—There are thirty student-teachers this year in attendance at Cobourg Model School, —fifteen ladies and fifteen gentlemen.

—Bush fires still continue their rampage on the Bobcaygeon road north, and many of the settlers are suffering from heavy losses.

—The instruments for Minden's brass band are expected this week. Between township grants and private gifts a tidy sum was raised.

—Lindsay board of trade is agitating for an improved passenger and freight train service for the Haliburton and Coboconk sections of the Grand Trunk-Midland.

—Mr. Jos. E. Gould of Cobocconk has received the contract for the supply of ties for the Grand Trunk railway for the coming season, amounting to about 300,000.

—A drive of logs, belonging to Mr. Irwin, stuck in the river up north, owing to want of water, and the men passed through Bobcaygeon on Monday, the *Independent* says, on their way to Peterborough.

—The amendment to the Landlord and Tenant Act, passed at the last session of the Ontario Legislature, will come into force on October 1st. Under its provisions exemptions from seizures for rent are largely increased.

—In the district to the north of Bobcaygeon, the *Independent* says, there was a singularly good crop of hay, and a valued correspondent has stated that three thousand tons of hay could be purchased along the railway between Kinmount and Haliburton.

—The *Post* remarks:—"At Peterborough it has been announced that at the close of social events such as a wedding the guests are treated to a "recherche dejeuner". At Lindsay on similar occasions guests are invited to partake of a good square meal. The public can draw its own conclusion as to which is the most satisfactory proceeding."

BETTER TO WHISTLE THAN WHINE.

It went a little hard, during our recent Great Clearing Sale, to allow such elegant Goods go off at the Sacrificing Prices which they did. But we had to make room for our Fall importations; so, Out They Went!—"bag and baggage!"—and we have good reason to believe that 'tis Better to Whistle than Whine.

Our Fall Goods are now Coming in without interruption, and consist of the Choicest Selections of CLOTHS, from all Countries, ever yet displayed in Peterborough.

EAGER FOR MILITARY LIFE

MANY MEN WOULD BE TOURISTS AT THE PUBLIC EXPENSE.

The Factory Inspectors Hand in Their Report—Mounted Police Matters—Mr. Mercier Will be in Toronto To-day to Confer With Mr. Mowat.

OTTAWA, Sept. 25.—The Militia Department has received a large number of applications from men professedly anxious to enlist in C Battery in British Columbia. The applications have been declined, and it is believed that most of them were made with the intention of getting free transport to British Columbia, and then not enlisting. The applicants have been advised to join either A or B Batteries. The requisite number of men from these batteries will shortly be sent to British Columbia to join C Battery.

The Factory Inspectors.

The factory inspectors under the Ontario Factory Act have prepared their report and submitted it to the Government. After the preliminary inspection of the different factories in the province, the inspectors had a long interview with the Hon. Mr. Fraser on matters appertaining to factories, and urged upon him the necessity of looking after workshops in a life and limb sense. Mr. Fraser stated that work alone did come under the Factory Act, but that it was his intention shortly to bring in a bill covering the work shop question to be called the Shop Act.

Mounted Police Matters.

The two hundred Mounted Policemen who have been patrolling the American boundary from Manitoba to British Columbia during the summer will be continued on duty until the winter sets in. The result of the service this summer in preventing smuggling and preserving order along the frontier has been highly satisfactory. It may be mentioned with regard to the Mounted Police as an evidence of the effect of the opening of the Canadian Pacific Railway and the consequent greater facility in transportation, added to the settlement of the Northwest having placed supplies within easy reach of most of the stations, that the cost of mounting a mounted policeman has decreased about twenty-five per cent. in the last five years. Formerly the cost of maintaining a man and his horse was about $1000 per annum. Now it is less than $750, which is about $600 less than it costs the United States to maintain a cavalryman in the Indian Territory.

The Halfbreeds accused of murdering McLeish have been removed by the American authorities to Fort McGinnis, pending extradition.

It is understood that the detachment of Mounted Police which have been in the Keetang District this summer will remain there all winter and not return to MacLeod, as was at first intended. Their presence has had a most salutary effect on the district. It is believed that this service will be paid for by the British Columbia Government.

Mr. Mercier's Visit to Toronto.

Premier Mercier was here to-day and paid a mysterious visit to Aylmer, the object of which has been kept secret, but is supposed to have some connection with the recent election in Ottawa County and Mr. Cormier's intention of protesting the same. Mr. Mercier went to Aylmer in company with a prominent Conservative member of the Local House. It is understood that Mr. Mercier leaves here for Toronto to-night and will have an interview with Mr. Mowat to-morrow about the proposed provincial conference.

The Halfbreed Commission.

The Halfbreed Commission will conclude its labors this fall, and is expected back here in about two weeks. The Commission left Prince Albert on Aug. 5, on its way down the North Saskatchewan, stopping at a number of places to examine into claims, the last place at which it is expected they will stop being Fort Alexander at the mouth of the Winnipeg River. They report that the Halfbreeds are well satisfied with the terms they have received. Under these terms Halfbreed children born since 1870 receive 240 acres of land or its equivalent in scrip. Heads of families and original white settlers get 160 acres each in scrip. The Commissioners state that a great many of the Halfbreeds who had taken the treaty and been classed as Indians have abandoned the treaty and taken their scrip.

Protests Against Patents.

It is understood that protests have been entered against twelve Edison electric and telephone patents, and the cases will shortly be heard before the Minister of Agriculture.

WAR ON THE LEAGUE.

THE GOVERNMENT DETERMINED TO CRUSH THE ORGANIZATION.

O'Brien, the Editor of United Ireland, Convicted of Sedition and Sentenced to Three Months' Imprisonment—The Prisoner Appeals and is on Bail.

LONDON, Sept. 24.—Mr. Balfour will return to Dublin on Wednesday next to supervise personally the work of suppressing the branches of the league in every direction. The Tory press is becoming more violent every day in its encouragement of the policy adopted by the Government, and is now clamoring for the suppression of the publication of the newspaper United Ireland and of the other organs of the league, which are, according to the Tory statements, exciting the people to violence against the constabulary. It is probable that Mr. O'Brien's paper will be the first to be dealt with, and the decision of the Mitchellstown court to-day, in finding him guilty, will very likely hasten this step. It is a sign of the times that Lord Norton, a prominent Unionist peer and an old official, has recommended that the police should aim, not at Irish mobs, but at their promoters in carriages, such as Mr. Labouchere. This advice is backed by a Tory member, who recommends the shooting of Labouchere.

War is now declared between the National League and the Government, and bitter strife will continue until one is proclaimed victor. Both combatants proceed in their respective courses and neither shows any signs of weakening. Indeed, the battle is but begun. Mr. Balfour has undertaken the mighty work of suppressing 200 branches of the league, but he finds, when the details of his plans are put into operation, the league simply eluding the suppression. The native wit of the Irishmen is called into play and means unknown to the Chief Secretary are found of continuing the Nationalist meetings. When the league was proclaimed it was suggested that the law might be evaded by the league assimilating with the Home Rule Union or the English Liberal League and continuing to work as nominal branches of these societies, but the whole country is now so thoroughly wrought up that any evasion is scouted and open defiance is the order of the day. The Irish leaders and people are determined to fight the battle out solely under the banner of the league, and refuse to avail themselves of any subterfuge by which they might escape the consequence which the contempt of the law will inevitably bring upon them.

The events of the past week have convinced the Irish leaders that the fight will be bitter and hard. And even more so than they had foreseen. There is not the slightest trace of the Government flinching in its present endeavor. They have found Mr. Balfour a resolute Minister of England's coercion policy, on the alert to take advantage of the merest chance in the Government's favor; vigorous, active and absolutely fearless of his personal safety. Moreover, they find him ready to use the most extreme measures in his power for their repression. The Nationalist press has heaped every epithet its extensive vocabulary contains upon the Irish Secretary, and lately revels in the euphonious title of "Bloody Balfour," and characterizes his policy as worthy of a fiend incarnate. They hold him up to execration, and, with allusion to the fatal affray at Mitchellstown, speak of him as "dabbling his sleek young hands in Erin's blood." They stigmatise him as "Caliban of blandished Cromwell," and with burning words depict him "butchering feeble peasants in cold blood with a languid, sardonic smile upon his cowardly, effeminate face."

Much more in the same vein is hurled at the Minister by the press, and the Irish leaders are warned what to prepare for; that Balfour will strain the Coercion Act to the utmost in order to extinguish the hateful league. "Unless," continue they, "sudden death stops him in his career or the Ministry become afraid to follow him to such extremes as he will go he will prove the most formidable foe the national cause has met with since its resurrection."

Mr. Parnell is recruiting in the South of England, and has not been seen by his colleagues since the prorogation of Parliament.

O'BRIEN FOUND GUILTY.

The Editor of United Ireland Sent to Jail For Three Months.

MITCHELLSTOWN, Sept. 24.—The trial of Editor William O'Brien of United Ireland was finished to-day. Just before the proceedings opened Mr. Carson, counsel for the Crown, complained to Magistrate Eaton that yesterday M. C. Tanner, M.P. for Cork, had called him "a mean ruffianly coward." Mr. Carson said that the appellation was applied within the precincts of the court room, and was accompanied with a further expression on the part of Mr. Tanner to the effect that he hoped he (Carson) would have his head broken. The magistrate said he would take notice of the alleged offence and would deal with Tanner in due time.

Mr. O'Brien, replying to the charge of sedition brought against him, declared that the court was incompetent to try him, as it was created under a British and foreign constitution. At this point the magistrate stopped Mr. O'Brien, asserting that he would not allow politics to be discussed in the court room, especially an attack on the recognized law of the country.

Mr. O'Brien retorted that he was the chosen representative of the people elected to advocate free speech.

The magistrate here again stopped him.

Mr. O'Brien was found guilty of the charge against him and sentenced to three months' imprisonment.

Immediately after sentence on the first charge Mr. O'Brien was placed on trial on the second charge. This was of the same nature as the other. Upon this he was also found guilty and sentenced to three months' imprisonment, the terms to be concurrent. Mr. O'Brien appealed from both judgments and was liberated on bail.

John Mandeville, chairman of the Board of Poorlaw Guardians of Mitchellstown, who was jointly indicted with Mr. O'Brien for using seditious language on the same occasion as the editor, was also convicted and sentenced to two months' imprisonment. Mr. Mandeville appealed and was released on bail.

Mr O'Brien spoke in his own defence and was frequently applauded.

He said the Crown was guilty of having suppressed evidence favorable to him. The Crown had withheld, for instance, the notes made by the head constable of the defendant's speech. In these notes, he said, was recorded his statement that the Irish party would give the Land Bill fair play. He justified his defence of the Kilmallock tenants on the ground that the evictions against them were commenced just on the eve of the passage of the Land Bill, and thus an attempt was made to defraud the poor, wretched tenants of the benefits of the measure. He justified also that he had advised the tenants not to give up without resistance, and said he had declared that before God and man they were justified in defending their homes. He asserted that his advice had prevented outbreaks and that 100 tenants in Mitchellstown now possessed homes who would have been homeless if his advice had not been adopted.

Sir Peter Nugent, the [illegible] who drew Hampden and George Washington to signing the law which Capt. Plunkett and Standish O'Grady administered. Personally, he felt very proud of being one of a long line of men who had made a prison cell a glorious and holy place. Possibly he himself would be the last of that long line, for the English nation would reverse the decision pronounced to-day.

On emerging from the court room Mr. O'Brien received an ovation from a large crowd which was in waiting.

Mitchellstown was illuminated to-night, rows of candles being placed in all the windows on Main-street. Messrs. O'Brien and Harrington will catch the night mail train at Limerick and proceed to Dublin. When they left Mitchellstown they were followed some distance by a cheering crowd. The streets of the town were alive with people until 10 o'clock, when the crowds quietly dispersed on the advice of Commander Condon. Mr. Harrington will return to Mitchellstown on Tuesday.

More Disorders Feared.

CORK, Sept. 24.—The police dispersed a gathering on a priest's private grounds at Mitchellstown to-day.

It is believed an attempt will be made to hold a meeting near Mitchellstown to-morrow.

Dr. Lanser, M.P., made a speech at Fermoy to-night. The police in dispersing the crowd used their batons and the mob replied with stones. A worse disturbance is feared.

Morley Does Not Like Old Toryism.

LONDON, Sept. 24.—John Morley, speaking at Newcastle to-day, repudiated the notion that there was any split between himself and the Gladstonian party. As long as Mr. Gladstone adhered to the cause of freedom and justice, so long would he support him. His views on the Irish question were unchanged. He denounced the Government and said the country had returned to Government by old Toryism as its worst form.

Irish American Opinion.

NEW YORK, Sept. 24.—Speaking of the conviction and sentence of Editor O'Brien, Patrick Ford of The Irish World said to-day: "No one will be surprised at the conviction or the sentence. All Irishmen anticipated it. It is simply a natural sequence of the policy pursued all along by the Tories. They knew when they came into power that the Irish question could be settled without coercion, but they have found that their scheme was not possible. Gladstone told them so. The result will be that the fight will become hotter than ever. At the meetings of the Irish National League throughout the country, action will be taken on O'Brien's conviction. If a vote could be taken, the majority of Englishmen would vote to give Ireland Home Rule. This action will develop that growing sentiment."

Gen. M. Kerwin, editor of The New York Tablet, said to-day: "It is worse than folly to denounce the judge who sentenced Mr. O'Brien. The law exists, which Mr. O'Brien violated, and the judge has done his duty. It would be idle to appeal against a law that has been made expressly to punish the Irish people. There is no encouragement to go peacefully for redress to a people who have enacted such a law. No people ever received liberty without a struggle nor can the Irish people."

THE DRESSMAKER GOT $800.

From the Picton Merchant Because He Broke His Promise of Marriage.

PICTON Sept. 24.—During the Assizes just completed here a breach of promise of marriage case was tried and called forth the usual amount of interest created by such cases. The plaintiff was Miss Lucy A. Yarwood and the defendant Mr. Geo. D. Hart. Miss Yarwood is a young lady of attractive appearance, 27 years of age, and engaged as a dressmaker; and the defendant, the son of a prominent merchant in Picton, manages his father's business.

The plaintiff alleges that six or seven years ago the defendant promised to marry her, that he has been keeping her company ever since and excused himself for the delay of the marriage by saying that his father objected to the match. He has since married a Miss Phillips. The defendant denied ever having made a promise of marriage to Miss Yarwood, but admits that he was in the habit of frequently visiting her. These visits, however, he says, were merely for the purpose of illicit intercourse. In the witness-box the plaintiff testified to her chastity and denied the statements made by Hart. A man named Myers gave evidence that he had had improper intercourse with the plaintiff. The following is one of the letters that were put in and although it does not contain much of what is found in such letters it will convey a good idea of the relation that existed between the parties:

SATURDAY, March 19, 1887.

Dear George: I shall call you that, as no other has so good a right. At last you have crushed all courage and life of this poor heart of mine. To-day I am very sick; expect one more night will bring me down to my bed. I went to see Mrs. Bougard last night, told them all about the trouble. They both (word omitted) it was a cruel thing for you to do. Mrs. Bougard is going to speak to your father in my behalf. She says he will never recognize such wrong-doing. Have seen Mrs. Phillips. She thought it was an awful thing for you, far beneath a gentleman, and is going to speak to you about it. If you ever go there again she said she did not want such a man in her house, for if you would serve me such a mean trick it might be the same to her daughter, and did not think it right to serve me so. There will not be any use to contradict my statement, as I can prove everything I have said. I would much rather you had come to see me, but you refuse to do so. It would be a great kindness to me if you could give me a few minutes to-night in my own rooms, as I shall not come where you are again. At least, I think you should show me kindness. As for myself I shall try to keep up before the world. Am fully determined to lead a better life. My prayer every day will be that you may have occasion to come back to me. There is One that knows better than you or I. My trust shall be in Him, and if it please God that you save me for good I shall try and bear with it.

Yours always, LOU.

The case was tried before Mr. Justice O'Connor and the jury gave a verdict for the plaintiff for $800. Mr. Clute of Belleville appeared for the plaintiff and Mr. C. Ritchie, Q.C., of Toronto, for the defendant.

THE GRAVENHURST CALAMITY.

The Loss Will Exceed Half a Million—Relief for the Sufferers Coming In.

GRAVENHURST, Ont., Sept. 24.—The inhabitants of this prostrated town are facing the great calamity with composure. The homeless ones have been well entertained by their more fortunate neighbors, which, with the timely aid received yesterday from Orillia and Bracebridge in the way of provisions, has had a very reassuring effect. The losses will exceed $500,000, which is much greater than the first hurried estimates, and the number of families burned out is at least fifty, and the stores and shops burned exceed forty in number. Contributions for the sufferers are coming in freely, $2000 having been received already.

$400 for the Gravenhurst Sufferers.

Reports from Gravenhurst indicate that there will be a great deal of destitution as the result of the recent conflagration there. Mr. H. H. Cook, M.P., and Mr. G. F. Marter, M.P.P., had interviews with members of the City Council on Saturday with a view to get aid from the city and private individuals. The Mayor and the aldermen present at the funeral of the late Hon. Wm. McMaster had an informal meeting after the service in the church. They decided to grant $400 and the Mayor was authorized to appeal to Mayor Harvie of Gravenhurst to grant the city for that purpose. A [illegible] has will be opened to-day at the City Hall, when those desiring to contribute to alleviate the suffering that must prevail in Gravenhurst will have an opportunity of doing so.

THE CHOLERA-LADEN SHIP

THE ALESIA BEING THOROUGHLY CLEANSED AND FUMIGATED.

The Baggage and Clothes of the Passengers Will be Submitted to the Same Process—There is no Cause for Alarm, Say the Health Officers.

NEW YORK, Sept. 24.—The cholera steamer Alesia is anchored in the lower bay near the quarantine islands. The sick are in the Swinburne Island Hospital, where they were taken on the vessel's arrival. Three of the cases those of Cornelli Carelo and Guglielmo Helvig and a four-year-old child, will probably prove fatal. The others have more or less chances of recovery.

The rest of the passengers and crew, with the exception of the three cabin passengers numbering 261, are under supervision on Hoffman Island. Should no new cases occur, quarantine will be raised in eight or ten days. The cabin passengers remain on the vessel. The latter is being thoroughly cleansed and fumigated, and by next Wednesday persons will probably be allowed to board her.

Health Officer Smith says the disease was carried on board the ship by one or more of the passengers, and that the germs had not been in the cargo, which was accurately quoted. The person evidently came on board at Naples, as for four or five weeks cholera has been raging near that city.

The baggage of the passengers, numbering 2200 pieces, is being unpacked and fumigated. The health authorities say that the present cool weather will aid greatly in stamping out the plague.

No Cause for Alarm.

CHICAGO, Sept. 24.—In speaking of the Asiatic cholera in quarantine at New York, Health Commissioner De Wolf said last night: "This information is very interesting to us, if read aright, but we do not need to be alarmed about any immediate danger in this country. The great danger is not from such cases. The clothing, freight and all the effects of this vessel, as well as all persons on board, will be thoroughly disinfected. There will not be the least possibility of any cases arising from it. Where I fear trouble is from the following source: The summer sleepings which may be packed in the infested districts in Europe may be sent over to this country in a ship that would have no case of cholera on board to cause any attention to be paid to disinfecting. They are left until spring and then opened. In a short time the whole country is alarmed with new cases of cholera arising apparently without cause.

"In 1873 there were three cases of this kind when the clothing packed in the fall in the Old Country was opened here. Cholera germs cannot have any results in cold weather, but I have some fears for next spring—not particularly for this city, but for the whole country at large."

The Plague in Italy.

LONDON, Sept. 24.—During the past 24 hours there have been 119 new cases of cholera and sixty deaths at Messena, ten new cases and nine deaths at Catania and six new cases and two deaths at Palermo.

The Canadian Ports Well Protected.

OTTAWA, Sept. 24.—The officials of the Department of Agriculture have little fear of the introduction of cholera into Canada from Mediterranean ports, as they believe that the quarantine regulations at Grosse Isle are exceptionally good and the system of fumigation the best known.

A TERRIBLE ACCIDENT.

Three Children Killed and One Injured by the Explosion of a Shell.

MONTREAL, Sept. 24.—An occurrence has just been reported from the Island of Orleans. Four little children belonging to the family of P. Godbout, a farmer living close to the camping ground where the Dominion Artillery Association held their annual competition a few weeks ago, went out to pick up the pieces of exploded shells which were strewn along the beach in the vicinity of the targets. While engaged in this pursuit they came across a large shell, which undoubtedly had not exploded after being fired from the sixty-four pounder gun during the competition. Their curiosity being aroused they set to work to dissect the fuse and applied a lighted match, the result being that the shell exploded killing three of the children instantly and injuring the fourth so seriously that its life is despaired of. The sudden shock given to the parents on hearing of the accident has prostrated them and the mother has been unconscious since.

THE TEN VIRGINS.

A Salvation Army Procession Which Gave Offence in Ottawa.

OTTAWA, Sept. 25.—On Friday night the Salvation Army had what they called "The procession of the ten virgins," that number of women walking, five with lighted and five with unlighted torches, all being dressed in what appeared to be a burlesque of a Catholic girl's costume for her first communion. The show caused a good deal of comment yesterday and to-night. When the army procession "without the virgins" was near the post-office, a large crowd assembled and hooted and jeered them to such an extent that they retreated in short order. One member of the army who wanted to be demonstrative was hustled a little, but there was no stone throwing or assaults and no arrests were made.

SAN FRANCISCO, Sept. 25.—The statement is made here that Jno. D. Spreckles, president of the Oceanic Steamship Company, had made an agreement with the Atchison, Topeka and Santa Fe Railway to provide for a through express from San Diego to New York in four days. The train is to carry passengers and mail through with but few stops, and the Oceanic Company's steamer, if pushed, will cross the Pacific from San Diego to Sydney, stopping at Auckland, in seventeen or eighteen days. The total time from Sydney to Liverpool will be reduced to twenty-eight days.

A Hint for Canadian Manufacturers.

WASHINGTON, Sept. 24.—Minister Denby, in a report to the State Department, says one of the chief impediments to the opening of new branches of trade with the Chinese is the ignorance of our manufacturers and producers of the needs and tastes of the Chinese. He cites hardware as an example, saying that Chinese hardware, though cheap, is very inferior, and that if our manufacturers knew the habits of the Chinese they could produce articles far superior in quality and at competing prices.

A Well of Natural Gas.

WATERTOWN, N.Y., Sept. 24.—While drilling for water in Rutland, seven miles from this city, last evening, gas was struck in large quantities on the farm of George T. Hamlin. When ignited the gas caused a flame six feet in height and two and one-half feet in width. It burned steadily for twelve hours, and was put out this morning. The air in that neighborhood is impregnated with gas, and it is thought an important vein is struck.

HON. OLIVER MOWAT, Q. C., LL. D.

In the current number of *The Week* appears the first of a series of sketches of "Prominent Canadians", and the people of Ontario will be inclined to think that good judgment is exercised in beginning with Hon. Mr. Mowat, and agree that his picture is drawn with a truthful hand:—

Were some skilful pen-and-ink artist to sketch, at the dictation of a number of representative Canadians taken from the various walks of public and private life, from both of the great political parties, and from the rapidly swelling ranks of those who profess to be subservient to neither party, their respective conceptions of the ideal Canadian statesman, the result would no doubt be a series of distinct portraits as numerous as the individuals consulted. Each model thus formed would have its own peculiar traits and proportions. It would, nevertheless, be inevitable that the points of likeness should be both more numerous and more important than the points of contrast. Let the number of distinct models thus obtained be reduced—as there is too much reason to fear it might be largely reduced—by the rejection of all those in which strict conscientiousness and lofty morality were not conspicuous features. Let the question then be submitted to a body of competent and unbiassed judges, "Who of all the men now in Canadian public life has shown himself possessed in the greatest number, and in the highest degree, of the fundamental qualities of Canadian statesmanship, as involved by this process?" We make bold to say that the answer by a large majority, if not with unanimous consent, would be, "The Honorable Oliver Mowat, Attorney-General and First Minister of the Province of Ontario."

The claim is a large one. Many may be inclined at first thought to demur, but fuller consideration will, in most cases, compel assent. What are the qualities essential to the conception of a Canadian statesman of the first order? To attempt an exhaustive enumeration would be arrogant, but it should not be very hard to make a list such as would be generally approved of those most indispensable. The ideal man for the highest position in Dominion or Provincial politics must combine with the qualities which command influence and respect those which win success. He must not only be honest, able, industrious, and patriotic, but must have extraordinary tact, shrewdness, and practicality. It would not perhaps be very hard to find, amongst the men now prominent in Canadian public affairs, those who are the equals of Mr. Mowat in several of the qualities enumerated. A very few might be found his superiors in respect to some one or more of them. Corrupt as Canadian politics have unquestionably become, there are yet happily a few leaders who have held fast their integrity, of each of whom it can be said, as well as of Oliver Mowat, that no man can lay any dishonourable deed to his charge, or point to any stain of immorality on his escutcheon.

Mr. Mowat's most ardent admirers will scarcely claim for him the intellectual breadth and massiveness, or the grand oratorical powers, of a Blake. His capacity for sustained hard work is immense, and, as is almost always the case with men who have accomplished much, is one of the chief sources of his strength; but two ex-leaders of the Liberal Parliament in the Commons are living embodiments of the genius of industry and, to the country's great loss, have successively broken their health by excessive toil of brain. If intelligent devotion to his own province and unflinching defence of her rights are a proof of patriotism, the Premier of Ontario has proved himself a patriot of the first water. Should it be said that the fealty of a Canadian is first to the Dominion rather than to the province, the ready answer is that he who is true to his own province when it entrusts its interests to his keeping, cannot be false to the Dominion, or to any other province. By boldly maintaining the possessions and prerogatives of Ontario, Mr. Mowat has best promoted the harmony and permanence of the whole Confederation.

As to the practical qualities which are so much prized in political science, Conservatives, at least, will be slow to admit that even Mr. Mowat's well-proved tact and shrewdness can entitle him to rank with that prince of tacticians and incarnation of political subtlety, who is the Ulysses of Canadian party warfare, and who has so long kept his party in power and himself at its head, in Dominion affairs. Be that as it may, the man who has shaped the policy and ruled the counsels of Ontario for sixteen consecutive and prosperous years, and who is still, in spite of all struggles for office, all prejudices of race and creed, and the most determined hostility of the Ottawa Government, at the head of its affairs, with an undiminished majority and a full exchequer, has most certainly established his claim to the position by the best argument of business men and politicians, that of practical success.

When we turn for a moment to inquire into the sources of the power which has made Mr. Mowat what he is, and placed him where he is, we are not surprised to find him of the stock which has given to Canada so many of its foremost men in every department, the Canadian-Scotch. His father, John Mowat, was from Caithness-shire, Scotland. He was a soldier who had seen stern service in the army of Wellington during its Peninsular campaigns; his wife was also of Caithness-shire. They came to Canada in 1816, and settled in Kingston, where their son Oliver was born on July 22, 1820. His education was as good as the schools of that city afforded at that date. At about the age of seventeen he entered the law office of Mr. (now Sir) John A. Macdonald, who, a young man but five years his senior, had just been admitted to the bar, and had settled down to practice his profession. At the outset of his student life young Mowat was called on to serve as a volunteer in the Rebellion of 1837. It may well be supposed that the state of parties and affairs in Canada to which his attention was thus early and practically called, must have afforded him food for thought, and had much effect in shaping his after course. It is certainly noteworthy, as indicating both mental independence and moral earnestness of no common order, that, born as he was of Conservative parents, surrounded with Conservative influences, and trained in the study of a profession which is more closely related to politics than any other, in the office and under the direct influence of a man whose brilliant talents and personal magnetism have long been and still are the strongest forces on the side of Conservatism in Canada, Oliver Mowat should have chosen that broad-minded, moderate Liberalism, of whose principles he has ever since been so able an exponent, and so steadfast a promoter.

SENATOR M'MASTER'S FUNERAL.

A Large Number of Citizens Pay Their Last Respects to the Philanthropist.

TORONTO, Sept. 26.

The funeral of Hon. William McMaster took place from his late residence, Bloor-street, on Saturday afternoon. The obsequies were of a most imposing character. Personal friends and those prominently identified with the honorable gentleman in business, political and ecclesiastical life, assembled at the house to pay their last tribute of respect.

The coffin was of polished white oak draped with broadcloth with plain mountings. A silver plate bore this inscription:

WILLIAM McMASTER.
Born 1811.
Died 1887.

The floral offerings were not numerous, but such as were presented were of the choicest and most appropriate character. A beautiful pillow was presented by the immediate relatives of the deceased. "The Gates Ajar" came from the employes of the Bank of Commerce. One bearing the word "Grandfather" was conspicuous.

The pall-bearers were: Sir William Howland, Chief Justice Hagarty, Chancellor Boyd, Rev. Dr. Rand, Rev. Dr. McVicar, Hon. G. W. Allan, Mr. John Macdonald, Mr. William Elliot. The chief mourners were: Samuel McMaster, W. J. McMaster, Frank McMaster, Robert McMaster, James Mills (New York), James Lawson (Newburg, N.S.), Robert McCreery (New York), G. T. Blackstock, and Kenneth Chisholm, M.P.

At the house the service consisted of the offering of a short prayer by Rev. Mr. Dempsey of Ailsa Craig. The cortege proceeded to the Jarvis-street Baptist Church, which was crowded to the doors. The coffin was placed on the front seat opposite the pulpit. The platform was decorated with floral wreaths, and six palm trees. On the platform were Rev. Dr. Castle, Rev. Dr. Dewart, Rev. Dr. Thomas, and Rev. Dr. Cavan. The service was conducted by the pastor of the church, Rev. Dr. Thomas. After the reading of the Scripture lesson bearing on the occasion, and a solo, "I Know that My Redeemer Liveth," by Miss Hall, Dr. Thomas delivered an able and eloquent discourse on the life of the late senator. The reverend gentleman, after speaking of the warm, personal friendship that existed between Mr. McMaster and himself, said that a "great man was fallen in the land." He belonged to a wider circle than that which represented his family and his church. He was a member of the whole community in all the walks of religious and secular life. His life was interesting from whatever standpoint it might be viewed. He began life at the lowest step of the ladder, and by honest efforts became before his death a prince in mercantile and financial pursuits. Let it be sounded abroad that Mr. McMaster rose from poverty to affluence, because inherently he was a great man. He was not merely great as a merchant and banker, but he was a good man. He presented an exterior that was rugged, but he had a heart that was sympathetic, and a nature whose chief characteristic was a desire to benefit his fellow creatures. He was not without his defects, but these only showed how great were his virtues. He was prejudiced in early life, and at the same time too much given up to the acquirement of wealth. In his public life he commanded great respect. It would be difficult to find a man who for fifty years stood before the public and was more venerated then the late Mr. McMaster by his fellow creatures. He was advanced in years before he began that course of life which now makes him renowned as a prince of Canadian philanthropists. For the education and religious advancement of the Baptist Church he spent a fortune. His religious life was not as joyous as it might have been. He had the faith that trusts but not the faith that triumphs. In his relation to the church to which he belonged, he presented his views with moderation and never sought to take advantage of the influence which he held. He discharged all his religious obligation conscientiously. No stress of weather ever kept him away from the prayer meeting. The remaining portion of Dr. Thomas' address was confined to a personal application of the principles which enabled Mr. McMaster to become a great citizen.

Rev. Dr. Castle offered a prayer in which he invoked the divine blessing on the widow of the deceased, after which those present were allowed an opportunity of giving a last look at the face of the dead. The remains were then taken to Mount Pleasant Cemetery and were followed by a large concourse of gentlemen, among them being Hon. Oliver Mowat, Hon. G. W. Ross, Mayor Howland, Hon. Frank Smith, Father Laurent, Col. Gzowski, Hon. S. C. Wood, the employes of the Bank of Commerce, employes of the Confederation Life Assurance Company, Hon. A. Mackenzie, H. W. Darling, Warring Kennedy, G. B. Smith, M.P.P., Rev. J. Denovan, Prof. Wells, Dr. Beehan, D. E. Thomson, J. K. Macdonald, C. J. Holman, F. J. Claxton (Montreal), Ald. Harvie, Ald. Carlyle, Walter Cassels, Prof. McLaren, and D. Blain, ex-M.P.

GOUGH

THE WONDERFUL CHEAP MAN,

Is waging a relentless war on Long Prices. He has not been awarded the contract of Clothing the Standing Armies but that Greater and Nobler Army—The WORKING MEN of Our Fair Canada—appreciate his generous ambition to furnish them with Reliable Goods at Wholesale Prices.

Other Dealers wonder how Gough can Under sell them. The explanation is easy, he is one of the Largest Dealers in Canada and pays cash for everything. He is thus in a position to take advantage of the markets and secure Great Snaps in the way of Bargains.

No man in his sober senses will deny that a good Bankrupt Stock bought at 40 or 50 cents on the dollar is not cheaper than the first cost of manufacture, and therefore were Gough to say he could sell Goods cheaper in many instances than even the largest Wholesale Firms, he could prove it.

I ask a fair thinking public, then, if Gough has to stretch his conscience very much when he states that the unfortunate dealer who is under the thumb of the Wholesale Houses actually cannot buy as cheap as Gough can sell.

A visit to his Great Clothing Emporium either in Toronto or Peterborough will satisfy the most skeptical that this is the absolute truth. He has come to Peterborough to stay and is bound to preserve the Splendid Reputation he has already acquired for durable, Stylish and Well Fitting Garments at prices at least 25 per cent below those of other dealers. Let no man, then, go ragged or shabby, no matter how poor he may be, but let him go straight to the People's Friend.

Our trade Saturday far exceeded my expectation. Overcoats and Fall Suits moving lively—they are so cheap people cannot resist buying from

THE TORONTOS GET THERE.

They Win the International Baseball Pennant—The Record.

TORONTO, Sept. 26.

Despite the chilly weather nearly 3000 persons witnessed the two games played on the Toronto grounds Saturday afternoon. The home team won both games easily, and thus settled the possession of the pennant. Crane was in the box for the Torontos in the first game, and the quality of his work is evidenced by the fact that only three actual hits were made off his delivery. Costly errors, however, allowed the visitors to score five runs. Pfaats, who was badly injured in Friday's game, made his reappearance at first, though still unable to run to bases. Rickley has a sore hand, and, under ordinary circumstances, both he and Pfaats would have been on the players' bench. The team, however, is after the pennant, and Manager Cushman decided that it was necessary to have the services of both men. Oberlander, the left hand twirler, was to some extent effective against the home team and was given fair support: Score:

The second game was a reversal of the first in so far as the errors were concerned. The visitors monopolized the majority of them, and the home team won easily. Shepherd pitched splendidly for the Torontos, only four hits being made off him, and Gleason's work for Scranton was of the same class. The visitors' only run was made by Burke who got to first on a centre field hit which Crane vainly endeavored to reach, and went to second on Crane's foul fly to Decker. Then Rickley fumbled Straub's hit, and on Decker's throw to second, by which Straub was retired, Burke crossed the plate. After seven innings had been played the game was called on account of darkness. Score:

Belleville Assizes.

BELLEVILLE, Sept. 26.—The Assizes will open to-morrow with twenty civil cases and a number of criminal on the list. Judge O'Connor will preside.

In Brief, And To The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy five cents.

WORMS cause much sickness among children that Freeman's Worm Powders will surely cure. dw

NATIONAL PILLS will cure constipated bowels and regulate the liver. dw

Children Cry for Pitcher's Castoria.

A Lasting Blessing.

"For six years I suffered with my throat and enlarged tonsils. I was very weak; I doctored four years and had advice from three doctors; they said I would have to undergo an operation. I tried B.B.B. instead. One bottle cured me." M.A. Squelch, Regina, Ont. 2w26d

To Avoid Baldness or Gray Hair.

Use Dr. Dorenwend's Great German Hair Magic. It keeps the scalp clean and free from Dandruff, and promotes the growth of the hair. It prevents premature grayness and stops all falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by J. D. Tully and all druggists.

I'll Never Leave Thee.

A man will do almost anything to increase the happiness of the woman he loves except to leave her when she wants to get rid of him.

Restored.

Mrs. J. M. Phalen, of Sydney Mines, N.S., had chronic rheumatism for two years' and got no relief until she tried Burdock Blood Bitters. Two bottles cured her. "I was like a skeleton," says she, "before using B. B.B., now thanks to the discovery of such a valuable remedy, I am entirely restored to health." 2w28d

"What is McGregor's Speedy Cure for"?

It is for Dyspepsia, Liver Complaint, Indigestion, Biliousness, and it is the finest blood purifier in the known world to-day.

"Does it give satisfaction?"

We cannot point to one instance where it did not.

"Where does it have the largest sale?"

Right in the city of Hamilton, where it is manufactured, there has been over one thousand dollars' worth sold in the last year retail, and the great majority of the sales are by one recommending it to another. For sale at 50c. and $1.00 per bottle by John McKee, Druggist eodw35

Indispensible.

"I have used Dr. Fowler's Extract of Wild Strawberry for summer complaints, and have given it to my friends. It gives instant relief when all other remedies fail. I would not be without it in my house." Mrs. T. Boil, Weidmas, Ont. 2w38d

I have been bothered with catarrh for about twenty years. I had lost my sense of smell entirely for the last fifteen years, and I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did. My sense of smell is partly restored; it seems to be improving all the time. I think there is nothing like Ely's Cream Balm for Catarrh.—Mrs. R. E. Grimes, Rendrill, Ohio. eodw39

Unknown.

There is no remedy known to medicinal science that can excel Dr. Fowler's Extract of Wild Strawberry as a cure for cholera morbus, diarrhœa, dysentery or any form of summer complaint afflicting children or adults. 2w38

Ladies troubled with Pimples, Blotches, Rough Hands or Face, or Sores of any description, should use McGregor & Parke's Carbolic Cerate. It will leave the skin in perfect health, smooth, clean and good color. Be sure and get the genuine, made by McGregor & Parke. Price 25c. Sold at John McKee's Drug Store. eodw35

THE WAR CLOUD BUSTED.

VICTORY has Perched on the Banner of

PETERBOROUGH'S GREAT CHEAPSIDE!

And SHEPPARD, by common consent, will get $1,000 for being the **Cheapest Clothier in Peterborough,** having knocked the Wonderful Cheap Man completely out. "Business is Business; Dirt is Dirt, and when it comes to throwing Dirt, then Count" the only original teddy out, and he will hand over that $1,000 like a little man: For the following reasons;—

Sheppard sells a full size Man's Suit for $2.95, and better Goods than a Suit to fit a Child about 9 years old sold by the Wonderful Cheap-Man on Saturday for $3.00; but marked $3.50. This is how it was:—A Lady purchased a Child's Suit on Saturday last, Sept. 17th, 1887, at the Store of the Wonderful Cheap-Man. It was marked thusly:—Lot 5375, Breast 27, Waist 26½, Age 9, Price $3.50. It was pure Shoddy, being held together by cotton threads, and Sheppard is free to say that that was the dearest Suit sold in the Town of Peterborough for the last two years. **Full particulars are given because of the $1000 involved, and, further, that this decides who is selling the Cheapest Clothing** in Peterborough. SHEPPARD would have sold that Lady a Suit, Pure Wool for that money, and worth two of the one she got.

$1,000 to Go to the Charitable Institutions of Peterborough.

I had first decided to give the agencies a chance of jumping up my rating that $1.000, but after considering the matter and finding that never in any case have I been asked for an endorser to my paper, and that no relative or any other persons have ever endorsed my paper to the extent of one cent, I have come to the conclusion my credit is as good as yours and will ask you to hand over the $1,000 to the Charitable Institutions of Peterborough.

Now, Sir, there is a good story told the truth of which can be vouched for, but for the honor of at least making an effort to keep up your self-styled name—The Terror of High Priced Clothiers—do not allow the same to be said of you in the case above. A man purchased a suit for $15.00 at the store of one of the largest Advertisers in that section of country. It was guaranteed pure wool; but after examining it carefully at home, he came to the conclusion that he had been dealing with some one sharper than himself. Finding a make of wool, differing some from anything he had ever seen, it dawned upon him, that he had heard of wool of that kind, so the suit was returned. The merchant bet $25.00 that it was all wool, and the bet was accepted, the decision being left to a neighboring merchant, he found that the $15.00 suit, was wool faced and shoddy back, pure unadulterated shoddy, but what of the $25.00 bet, was it paid, not much—muchly—as it were.

SHEPPARD is making Wonderful Strides in Securing Marvellous Bargains in Dry Goods, Clothing, Hats and Caps.

LOCAL NEWS.

No Culprits.

The Police Court calendar this morning was a blank.

Have you heard it? Turnbull is selling Heavy Cashmere Hose, according to size from 12½c. to 25c. a pair.

"The best is the cheapest." You can get the best boots at KIDD'S.

Meetings To-night.

A meeting of the town council will be held this evening.

A special meeting of Otonabee Canoe Club is called for this evening.

Conundrum.

Why are all the insurance agents in town down on Wilson & Morrison (answer—on Saturday). Look out for it. It will be there sure. dw

It Must be True.

That is what everybody says; and everybody says that J. J. Sheehy's cashmere gloves at 25 cents a pair are worth 50 cents. Just read his advertisement in another column.

Turned the Hose on Itself.

A few of the firemen were out on the market square this forenoon washing all the hose. A branch was run from the hydrant and the hose soiled at the recent fire thoroughly cleansed.

A Wonderful Billiard Player.

Mr. Harvey McKenna, one of the finest billiardists on this continent, stopped at the Grand Central hotel a few days last week and gave exhibitions of his marvellous skill with the ivories Friday and Saturday. Mr. McKenna makes runs of 500 points with ease. He went from here to St. Catherines. He is making a tour through Canada.

Of Interest to Oddfellows.

At the session of the Sovereign Grand Lodge now in session in Denver, Colorado, the law was so changed as to permit an Oddfellow to hold membership in another lodge without withdrawing from his mother lodge, providing the localities are different. The abolition of the visiting card proposed by Ontario representatives was not agreed to. The next annual session will be held in Los Angeles, California.

The Bigamy Case.

Toronto *Globe*:—"Henry Prax, who is charged with bigamy, appeared on remand in the dock at the Police Court Friday. He is slim and youthful looking, with a very black drooping moustache. His first wife was present, dressed in a long seal-skin mocque. She was very much flushed and seemed in much excitement over her position in the matter. Neither side was ready to go on with the case and an adjournment was granted till the 27th inst."

A Lover's Fancy.

The other day a bucolic lover, young and verdant, entered a town drug store and asked for a "love powder." The druggist stared at him and asked if he was not mistaken. No; he wanted a *love powder*. So the drug-fiend prepared a harmless little powder, which the youth paid an extravagant price for and walked merrily out in the firm belief that it would somehow or other assist him in his suit after the hand of his fair charmer.

Removal.

Mr. Z. B. D. LaFleur, jeweller, who lately occupied premises on Simcoe street, has removed to Hunter street, west of the Oriental hotel, where with increased accommodation and facilities he is ready to meet trade. Mr. LaFleur is the only working jeweller in town, and in an advertisement in another column solicits orders. He repairs and makes jewelry to order, melts old gold into wedding rings, plates and engraves in silver and gold, etc., etc. 1d74

Established.

GOUGH AND SHODDY.—The mark of a large sized foot print on the sidewalk leading to Sheppard's store on George street, was the talk of the town, as a good advertisement for that House. This morning added to it, and in front, were the words "for shoddy." Mr. Gough, the Clothier, George street, made his boast freely that he would accomplish this contemptible trick, and he has done it. So that Gough and shoddy are inseparable for a long time to come.

Mr. Gough wishes it distinctly understood that the EXAMINER is not responsible for the above. Mr. Sheppard had it inserted as an advertisement and was charged the regular rates for it. *Facts* and not *insinuations* will give any man the confidence of the public. The big foot was a decided mis-step. 3d73

Children Cry for Pitcher's Castoria.

A Local Church Sensation.

As a general thing the churches of Peterborough get on harmoniously, pastor and people existing on good terms, and very seldom in their serenity disturbed by serious differences. The utterances of the pastor from the pulpit are generally accepted as orthodox, but occasionally a heresy crops out. On Sunday the congregation of a certain church were startled to hear the preacher declare a doctrine unknown and unheard of, and a statement respecting the condition of reward and punishment. Whether the merits of the new doctrine, it is generally accepted that a man using a revolver in this life for good actions. There is still the slightest room for doubt that a man who buys ready made clothing from gough, the wonderful cheap man, gets a double reward. He has the consciousness that he has spent his money to the best advantage and has got better value for his money than he could have got anywhere in the Midland district. In spite of all calumniation and false witness, the fact stands firm as the rock of Gibraltar that gough, the wonderful cheap man, keeps on hand at his mammoth store, george street, Peterborough, the largest, best and cheapest stock of ready-made clothing and gents furnishings to be found in the country. The quality of all goods guaranteed. Prepare for the howling winds of winter by buying your winter outfit at gough's. Unheard of bargains in every line of goods. Money may be scarce, but remember that a little money will buy a big heap of good goods at the store of gough, the wonderful cheap man. d74

What a Business Man Ought to Know.

Nor is the science of book-keeping as indefinite or as little understood as it was formerly. In popular language, to be "a rapid writer and quick at figures" once covered the qualifications of a young accountant, and the other facts he must know in order to manage an extensive business he was expected to "pick up" in the office. But the progress of free thought and improved methods of teaching have made it possible to take a broader view than this, and business men have come to expect and require a better preparation. Their common sense tells them that no merchant can reasonably look for prosperity unless he knows the secret of shrewd buying and selling, how to get the maximum of profit with the minimum of expense, and to keep a record of his transactions that will show at any time the true condition of his affairs. Incompetence in either of these particulars would be fatal. But to know the market, to keep profit in excess of loss, and to maintain solvency amidst the fluctuations of values in trade, requires executive ability which comes only by training in the practical work of the counting-room, and reliable judgment based on an intimate acquaintance with the principles which regulate production and consumption, and the laws and limits of demand and supply. Taught perfectly at the Peterborough Business College.

Ten Nights in a Bar Room.

The Syracuse *Courier* says:—"Last night the great moral drama, entitled "Ten Nights in a Bar Room," from T. S. Arthur's celebrated book of the same name, was produced at Wieting Opera House by Leech & Stevens' Dramatic Company, assisted by the Brooklyn Church Choir quartet. The production has been almost entirely rearranged, the dramatic work has been brightened, and very many musical numbers introduced in quartets, trios, duets and solos, making it a most effective musical and dramatic composition, and one that is as instructive as it is entertaining. The company producing it is a most capable one. Mr. Ogden Stevens, who was formerly leading support to Clara Morris, is seen in his quaint and comical characterization of Sample Switchel, and "Baby" de Castro, the beautiful child actress, as little Mary Morgan, was exceedingly effective. No one should miss the opportunity of seeing it." The above company appears in Bradburn's Opera House next Friday evening.

Following up Enterprise.

The store of Mr. T. Kelly, corner Simcoe and George streets, has recently been overhauled and improved, the ceiling and walls handsomely papered, and the fixtures all painted, giving the place a neat and business-like appearance. Mr. Ralph Carton was the artist who effected the improvement. Mr. Kelly's stock of goods comprises the best in the market, and he proposes following up his store improvements by giving his customers the benefit of the extra sales consequent upon the increased patronage his enterprise is certain to attract. In dress goods especially does Mr. Kelly give bargains, but every other department is also well stocked and the goods marked down.

Portraits on Exhibition.

A life-size oil painting of Rev. Mr. Chapman is on exhibition in the window of the City Clothing store. It was painted by Mr. J. H. Lopez, of the Hunter street art gallery, and attracts much public attention. In the window of Rubidge's tobacco store are photographs of Mr. M. Bird, champion three mile runner of this district, and Mr. D. C. Miller, late of Hamilton, one of the best sprinters in the country. The subjects are taken in running costume. They will race at the central exhibition, here, early next month.

No Improvement.

At vespers in St. Peter's Cathedral last evening Bishop Dowling announced that Rev. Father Conway was still in a critical condition, and requested members of the congregation to refrain from visiting the sick chamber, as the physicians wished their patient to be kept as quiet as possible. At latest reports to-day Father Conway was in about the same undecided condition.

Not a Fire.

A report was current about town to-day that the Nassau mills had been burnt yesterday or this morning. There was nothing in the rumor however. It probably originated in the fact that bush fires are burning in the immediate neighborhood of the mills.

Getting Ready.

Mr. D. Belleghem with a staff of four or five men are laying down the new carpets in the Masonic Hall, Dunsford Block, Water street. He says everything, as far as he is concerned, will be ready for the formal opening on Oct. 6th.

Wide-awake buyers! Have you seen Turnbull's Fine French Dress Goods, being sold at prices paid elsewhere for coarse, unsightly stuff.

Munificent Liberality.

Senator McMaster leaves about $800,000 to McMaster University, under which name Toronto Baptist College and Woodstock College were united by an Act passed at the last session of the Legislature.

Rebuilding.

Messrs. Moore and Best are rebuilding their stable burned recently along with the old skating rink. The new structure will be of brick, with a stone foundation.

God's Forgiveness.

Rev. Mr. Crawford Speaks on the above Subject in St. Luke's

The mission services in St. Luke's church, Ashburnham, continue to attract large and appreciative congregations. Sunday's services were particularly interesting. In addition to the regular morning services, which were in the afternoon at 3:30, a children's meeting, and at 4 o'clock a men's meeting, at both of which Rev. Mr. Crawford, the missioner, delivered earnest, practical and instructive addresses.

This week the usual routine of services will be continued—Holy Communion at 7:30 a.m.; morning prayer at 10; evening prayer and instruction at 4:30; mission service at 8 o'clock.

At the Sunday evening service the church was crowded. The Missioner took for his text:—

"If we confess our sins He is faithful and just to forgive us our sins, and to cleanse us from all unrighteousness." Before entering upon the discourse the Missioner asked the congregation to pray with him in silent prayer for the spiritual success of the services. The Missioner announced that the subject of his address was to be "God's Forgiveness." He believed the reason why so few people experienced God's forgiveness was because they didn't realize what it was, and it was his intention to place that before them as clearly as possible. The text says "if we confess our sins He is just and faithful to forgive us." Some people say, "Oh, if I was only sure my sins could be forgiven." God says it, and surely he does not lie. As an example of God's wonderful forgiveness, the preacher instanced David, the king of Israel, who was forgiven a most grievous sin as soon as it was acknowledged. Should men still doubt this forgiveness? The Lord Jesus Christ has drawn a most beautiful picture, the parable of the prodigal son. Everyone knew of this parable, but the Missioner asked his hearers to dwell upon it, as it was not as generally appreciated as it should be. He vividly pictured the life of the erring son and the joyful forgiveness of the father upon his return. The action of the father was, he said, intended to signify just how Jesus received us. Next Jesus' forgiveness of the woman taken in adultery (John viii) was instanced. How must Christ's pure and heavenly character have revolted against this woman, taken in the most heinous of crimes. Yet He forgave her on the spot. Could anyone doubt the love and forgiveness of Jesus after all this?

The hymn "Just as I am without one plea" was sung.

The spirit of that song, said the missioner, was the spirit in which to seek forgiveness. But some would say: "Oh, if I could only be certain of forgiveness!" Once a skeptic had asked him the question, "Do you believe a man who has committed a murder can be forgiven?" He replied, certainly. "I don't, then," said the skeptic, "it would not be justice." Then, said the missioner, he asked him how he would treat a little child of his who had carelessly broken a precious relic, which could never be replaced, when that child came to him crying in sorrow and pleading for forgiveness? "Oh, I suppose I would have to forgive it." Certainly he would. Then why should God not forgive a child of his who came seeking forgiveness. To refuse forgiveness would be an act of revenge. People too often gauged God's forgiveness by their own forgiveness of the people about them; but if they would only liken God's forgiveness to that of their own towards those they love, they could be more certain of God's forgiveness. Parents punish children to correct their faults, but oh, how ready they are to forgive them! Why could they not think of God, their Heavenly Father, as willing to forgive? When children are forgiven, they don't continually return to their parents and plead for forgiveness for their faults. If they did, the parent would feel hurt, and think the child didn't have any faith in his forgiveness. But that was just the way some of them were treating God, when they questioned the certainty of his forgiveness. Then some say, "Oh, how happy I would be if I could feel my sins were forgiven!" That was presumption—presumption that God might refuse forgiveness. But the Word says "as soon as the faults are confessed and repented of, that moment they are forgiven. If all these things were so, could not the greatest sinner hope for forgiveness. The Missioner concluded his address with an earnest appeal to unbelievers and repentant sinners to throw themselves on the mercy of God.

Several prayers were offered up in answer to requests placed in the box, and the service closed in the usual manner.

News Nuggets.

—Rochester Fruit and Confectionery Store, George Street, north. E.G. STONE.

—Call at the Rochester Fruit Store for confectionery, if you want the choicest kind.

—The annual prize meeting of the Bowmanville Rifle Association will be held Sept. 30th.

—The guests at a wedding in Rawdon, Thursday evening, were so numerous the ceremony had to be performed on the verandah, by the light of chinese lanterns.

—The tax rate of Whitby is twenty-one mills and a fraction this year. It provides three months' interest on the new bonus debentures to be issued.

—Last week Mr. John Eakins shipped a large number of hogs from the Omemee station. The *Herald* says the Eakins Bros. are the largest shippers in this part of Ontario. They ship direct to England in many cases.

—A Young's Point correspondent says there is a party of shoddy peddlers now doing that district whom it would be well for farmers to let severely alone. Astonishing bargains in cloth are offered and the most favorable terms are given. The stuff is shoddy, however, and it will pay better to give a good square price to local dealers for an article than to buy from these parties for next to nothing.

—At the departmental examinations for July, 1888, candidates will not be allowed to write for both second and third class certificates, and only the following will be eligible to write for second class. 1. Those who hold third class certificates; (2). Those who wrote in July '87, for second class certificates (3). Those who at any previous examinations third class obtained 50 per cent. of the aggregate marks.

Personal.

His Lordship Bishop Dowling and secretary Rev. Father P. Rudkins arrived home on Saturday evening from his extensive tour among the outlying parishes of the diocese.

Awards.

The Ontario Agricultural and Arts Association, at Ottawa, last week, has awarded the first prize for artistic penmanship, and the second prize for Spencerian penmanship to Mr. Bannell Sawyer, Principal "Peterborough Business College." This is the highest authority in the country on the matter of penmanship, and we present our congratulations to Mr. Sawyer on taking his place this year as the prince of penmen in Canada.

Turnbull's immense stock of Dress Goods in lovely styles, is complete. Ladies! Look through it. Prices are positively right.

Established.

GOUGH AND SHODDY.—The mark of a large size foot print on the sidewalk, leading to Sheppard's store, George street, was the talk of the town, as a good advertisement for that House. This morning, added to it, and in front, were the words "for shoddy." Mr. Gough, the Clothier, George street, made his boast freely that he would accomplish this contemptible trick, and he has done it. So that Gough and shoddy are inseparable for all time to come. 3d72

HYMENEAL.—On Wednesday evening the Rev. Mr. Bennett of Peterborough solemnized the nuptials of Mr. James H. Magill and Miss Essie Stewart. The ceremony took place at the residence of the bride's uncle, Mr. Wm. Rutherford of Cavanville. Miss Nellie Stewart of Peterborough was the bridesmaid and Mr. J. A. Pritchard of Lindsay groomsman. After the ceremony the wedding guests and the contracting parties sat down to luncheon. The evening was most pleasantly spent, after which the bride and groom were escorted by a number of the guests to the C. P. R. station, Cavanville, and departed on a two weeks trip to Ottawa and other eastern cities, with the best wishes of their many friends for their future happiness. The wedding presents were numerous and very handsome.—[COM.

RE SCOTT ACT PETITIONS.

THE RECENT ACTION OF THE GOVERNMENT REGARDING THEM.

The Latest Report from the Fishing Grounds—Canadian Fishermen Satisfied with the Protective Service—Protests in Quebec to be Withdrawn.

OTTAWA, Sept. 26.—As there appears to be a good deal of misconception with regard to the recent action of the Government with reference to Scott Act petitions, it may be as well t state that the order-in-council gazetted on Saturday is only administrative and intended to secure uniformity in dealing with petitions for the repeal of the act in counties where it has been adopted. There are at present four such petitions before the Government, from the Counties of Huron, Bruce and Norfolk and the Town of Guelph. Those petitions are that a vote be taken on the repeal of the act, but in none of the cases has the act actually been in force three years. The act provides that no order-in-council bringing it into force shall be revoked until after the expiration of three years from the day of its coming into force, but contains no prohibition as to holding an election within that period for the purpose of revoking such order. In the case of a petition to bring the act into force not being adopted it is provided that no similar petition shall be put to a vote for a period of three years. As a matter of administration it was thought more in conformity with the spirit of the act, not to authorize the holding of any elections to revoke an order-in-council putting the act into force within three years from the date of its going into force, thus following the principle laid down with respect to unsuccessful petitions for enforcing the act. In the meantime the consideration of the petitions will remain in abeyance until the expiration of the time mentioned in the order-in-council.

Mr. Tilton, Deputy Minister of Fisheries, has returned from an extended tour through the fishing region. He reports the season nearly over, only some forty or fifty American vessels being left on the grounds. Their catch has been very small, and few American vessels this year have secured paying fares. The catch on the whole will be less than last year, but the Canadians, with the advantage of the three-mile limit, have the lion's share of it, and their shortage in the catch will be more than compensated by the high price of fish, especially of mackerel, in the American markets. The Canadian fishermen expressed themselves as perfectly contented with the fishery protection service, and are well pleased with the present state of affairs, being quite willing to pay American duty on fish in consideration of the American fishermen being kept out of Canadian waters.

Several railway deputations are expected to visit the Capital during the present week to have some right of way disputes settled by the Railway Committee of the Privy Council.

FIVE YEARS' PARLIAMENTS.

A Proposal in Germany Which Bismarck Will Support.

BERLIN, Sept. 25.—The Reichstag will reconvene on Nov. 15. The leading domest' question which will be considered is the revision of the article of the constitution fixing the duration of Parliament. The leaders of the National Liberals took the initiative in 1867 in the debate on the constitution, the North German Confederation proposing the extension of the period of the Reichstag. In 1880 the question was again discussed, but without result. The Government then proposed to prolong the Reichstag from three to five years, but only obtained uncertain support. Now, however, the situation is changed. The National Liberals are again an important factor. The Government groups will renew the proposal of a five years' parliament and the Conservatives and Reichspartei will support it. Prince Bismarck privately prompts and will openly indorse the proposal, which cannot fail to obtain a decisive majority.

The measure will not, however, pass without bitter opposition from the Progressists, who foresee in the transition from triennial to quinquennial parliaments the road towards triennial budgets, leaving the Government unrestricted in the use of the National funds. The Opposition press even conjures up as a certain sequel to the alteration of the constitution, the restriction of the right of universal suffrage. The Germania accuses the majority of fostering the autocratic tendencies of Prince Bismarck by the proposal.

Another Prize for the Bow Park Herd.

BRANTFORD, Sept. 24.—Bow Park herd of shorthorns secures another victory at the Dakota State fair just held at Grand Forks, winning the first prize, $200, competing against all beef breeds. This is the third victory for Bow Park herd in the Western States.

TRAIN'S FIERY PATH.

AN EXPRESS OF THE CANADA ATLANTIC MEETS WITH DISASTER.

While Making a Dash Through a Burning Bush it Strikes a Spot Where the Ties are Burned Away—The Train Wrecked and Several Cars Consumed.

OTTAWA, Sept. 26.—The Montreal express on the Canada Atlantic pulled out of the Eighth-street Station at 4.50 this evening with about one hundred passengers on board. The train was made up of an engine, baggage car, second-class, postal, and smoking, a first-class and Pullman in the order named. Eastman Springs was made on time, and the train started for Bearbrook, six miles distant, where it was due at 5.19. The bush all through this section has been on fire for weeks, and after leaving Eastman the smoke was so thick that it was unpleasant to breathe. Fires were raging fiercely on both sides of the track and the sky was lit up with a lurid glare, but all being reported clear ahead, Engine Driver Brescher did not slack up, but endeavored to run through to Bearbrook as rapidly as possible. The train was going at the rate of about forty miles an hour, and had nearly reached what is known as the half-way crossing when the rails suddenly spread, the ties being burnt away, and the engine left the track. With great presence of mind the engineer sprang to the air brakes, which acted so well that the train was instantly checked, but forged slowly ahead for a few yards, the second class, postal, first class and Pullman leaving the rails and falling quietly over on their sides. There was no telescoping, and the cars were so strong and well built that they were scarcely broken by the fall. The baggage car left the metals, but remained upright and was ultimately saved.

The passengers acted with great coolness, inspired by the conduct of Conductor Hostler, to whom great credit is due. They were speedily extricated from the wreck and it was found that not only was no one killed but nobody was seriously injured and no bones were broken. The ties and bush were all on fire, and the second class and postal cars were soon in a blaze, quickly followed by the first class and Pullman. These four cars were entirely consumed, but the twenty-eight sacks of mail matter were saved. A freight train which was following the express was signalled and backed up to Eastman's Springs, where news of the accident was at once wired to Ottawa, and a special with Drs. Church, Hornsey and Small was despatched to the scene immediately. Fortunately the doctors had little to do. One second-class passenger, an old Frenchman residing in Rose-street, Ottawa, was badly cut about the face and hands in going through the window of the second-class car and slightly burnt by falling on some blazing ties, but the great bulk of the passengers escaped without injury, and there are only a few bruises as the result of what came near being a very serious disaster.

A number of the passengers walked through the blazing bush to Eastman's, and arrived in Ottawa at 9 o'clock by the relief train, and the remainder walked through to Bearbrook.

The train from Montreal, due here at 8.10, was stopped at Bearbrook and the passengers transferred to Eastman's Springs, whence they will be brought to-night by a special train from here.

Sir Adolphe Caron and his secretary, Mr. Benoit, were in the Pullman and got a good shaking, but were not hurt. Sir Adolphe, in conversation with your correspondent, said it was marvelous how the passengers escaped with so little injury. He was dictating a letter to his secretary at the time the engine left the rails and said he was conscious of a severe shock as the train suddenly stopped. Then the car moved slowly along for a short distance and seemed to quietly lie over on its side, the passengers getting out, some through the upper windows and some scrambling out through the doors.

In five minutes everyone was out of the cars and they were on fire. All the passengers saved what light baggage they had with them and the baggage car is not burnt. The officials of the road have made prompt and energetic efforts to send relief, and everything possible was done to make the passengers comfortable. The telegraph poles between Bearbrook and Eastman were burned and the wires are down.

A section man from the former place was on his way to warn the express that the ties were burnt, but could not get to the crossing in time. He was less than a hundred yards away, but the smoke was so dense that the driver could not see his light. The loss to the company will be heavy.

BLOOD ON THE BEAUTY'S FACE.

Mrs. Langtry Accidentally Cuts Herself With a Piece of Glass.

NEW YORK, Sept. 25.—Several nights ago the audience which attended Mrs. Langtry's representation of Lena Despard in "As In a Looking Glass" were startled to see the actress press to her cheek a handkerchief stained with blood and evince signs of suffering. Mrs. Langtry was asked about this to-day as she sat in her dressing-room waiting for her call for the last act.

"It was dreadfully annoying," said she. "I cut my cheek with a piece of glass as I was dressing, and it bled profusely and pained me extremely. Of course I had to go through with my part, but the blood was streaming down my face. Luckily it healed up quickly, and now I have only a scar to remind me of it."

The Labor Convention at Hamilton.

HAMILTON, Sept. 26.—The Labor Convention commences here at 10 o'clock to-morrow morning in the Central Labor Hall. Mr. Charles March, President of the Dominion Trades and Labor Congress, will preside. The convention will last probably three days and will be addressed by Mr. T. V. Powderly, Frank M. Fogg and others. Questions of interest to all trades and labor organizations will be brought up and fully discussed.

Baptists Shy of the George Movement.

NEW YORK, Sept. 26.—At a meeting of Baptist pastors to-day the secretary announced that Dr. McGlynn had expressed his willingness to address the Conference at any time they desired to hear him. Discussion followed. Some thought this would involve the Conference in politics, and would be countenancing the "communistic doctrines of Henry George. The matter was postponed indefinitely.

The Postmaster-General Executed.

HALIFAX, N.S., Sept. 26.—Hon. A. W. McLelan, Postmaster-General, has admitted bribery by agents in the election for the Commons, and his seat for Colchester is consequently vacant. The Election Court opens at Truro to-morrow before Judge McDonald, when the charges of personal bribery against the Minister will be gone into.

A Lively Contest Promised.

SYRACUSE, Sept. 25.—Preston, candidate of the Union Labor party for Secretary of State, has resigned to allow John Swinton's name to be put at the head of that ticket. This makes four parties already in the field, the Republicans with Col. Fred. Grant, the Democrats will nominate to-morrow, Henry George, representing United Labor and John Swinton Union Labor. The fall election promises to be lively.

Premier Norquay at Montreal.

MONTREAL, Sept. 26.—Hon. John Norquay, Premier of Manitoba, is in the city, but declines to say anything about the object of his visit. It is currently reported, however, that he is here to confer with some of the banks to see if the required funds cannot be raised. Mr. Larivière, Provincial Treasurer, is still here, but will probably leave for home in a few days.

A Paris Newspaper Boxed.

PARIS, Sept. 25.—The Gaulois, in publishing the story of the desecration of Napoleon's tomb, was the victim of a hoax. The block of red granite which covers Napoleon's remains weighs tons and cannot be moved without machinery. It is guarded night and day and this afternoon the monument was unimpaired.

O'BRIEN AT A SECRET MEETING.

The Agitator Making Good Use of His Time [illegible]

MITCHELLSTOWN, Sept. 26.—The National League evaded the police and held a meeting to-day as a private house. Mr. O'Brien, who yesterday drove to Limerick Junction, returned by a circuitous route, deceiving the police. In a speech he said: "We are here to tell Mr. Balfour that the branches of the National League will decline to consider themselves suppressed until every decent man, aye, and many decent women in the community, are placed in jail."

Dr. Tanner Seeking Martyrdom.

FERMOY, Sept. 26.—Dr. Tanner, Irish Nationalist member of Parliament, in response to the demands of a crowd, made a speech yesterday from the balcony of his hotel. He denounced the action of the police at Mitchellstown and the trial of Editor O'Brien as brutal, when the police charged upon the crowd and a melee was the result. The crowd stoned the police, many of whom received severe injuries. The police used their batons, and injured fourteen persons, who were nearly all conveyed to the hospital. Dr. Tanner mingled with the combatants, and had his hat smashed by a baton. On the police removing the swords stones were afterwards thrown, injuring many constables. The mob clubbed by the police was brought from Mitchellstown. They pelted the officers with stones and bottles. Some were disabled. Captain Plunkett commanded the police and restored order.

The Police Beaten Off.

LONDON, Sept. 27.—A force of police and bailiffs at Kilbarry, Ireland, seized a number of cattle belonging to the Hurley family for non-payment of rent. A crowd which had gathered made an attack with stones and pitchforks upon the officers. The police used their bayonets in their attempts to repel their assailants, but were compelled to retreat and leave the cattle behind them.

The Archbishop Fears Violence.

DUBLIN, Sept. 26.—Archbishop Walsh has issued a pastoral in which he says he hopes the people will refrain from violence and continue in the paths of justice. Such a course only, he says, will bring peace to Ireland.

A NEGRO RISING IN TEXAS.

The Situation so Grave That Troops Have Been Ordered to the Scene.

HOUSTON, Tex., Sept. 26.—Word was brought in last evening that an insurrection was imminent among the blacks in Matagorda County. The sheriff of Matagorda County sent a courier to Sheriff Hickley, of Brazoria County, asking for immediate assistance to put down an insurrection. The courier stated that over 200 negroes were under arms in Matagorda and the excitement among the whites was very great. The trouble arose over an attempt by a colored constable to arrest a white named Wheal who resided on Caney Creek. The constable was found dead in the creek and the negroes believe the white men of the vicinity murdered him. Later reports last night stated that Sheriff Hickley had raised a posse of fifty mounted white men and started for Matagorda. White, the Sheriff of Matagorda was en route for the scene of trouble with 100 mounted men.

At noon to-day the alarming report reached the city that the Sheriff's forces had arrived and active hostilities were commenced. The negroes have been largely reinforced. The Houston Light Guards have just received orders to leave on a special train for Columbia, Brazoria County.

THE CONDEMNED ANARCHISTS.

The Wife of Counsel for the Defence Has Something to Say.

NEW YORK, Sept. 26.—Mrs. Black, wife of Capt. Black, counsel for the Chicago Anarchists, said here yesterday: "If these men are hanged their wives will kill their children and then commit suicide. Nina Van Zandt has frequently assured me that if her husband, August Spies, goes to the scaffold she will die with her own hand the same hour. The other women tell me the same thing. To let these men live," continued Mrs. Black, "will not result disastrously, as some people pretend to think, but if they hang, Grinnell, Bonfield and Judge Gary are not safe."

Five Men Killed in a Faction Fight.

PRESCOTT, Ari., Sept. 24.—Sheriff Waddel has received word from Tonto Basin that a faction fight occurred there on Sept. 18, in which Thomas Graham, Joseph Ellingwood and a man named Middleton were killed on the Graham side, and George Newton and James Tewksbury on the Tewksbury side.

The Cigarmakers' Convention.

BINGHAMTON, Sept. 26.—To-day the delegates to the Cigarmakers' International Convention re-elected A. Strasser of Buffalo, President. O. S. Warren of Montreal was made third Vice-President, and J. F. Mahoney of Springfield, Mass. Treasurer.

The Belleville Assizes.

BELLEVILLE, Sept. 26.—The docket at the fall Assizes is composed of three non-jury cases and seventeen jury cases, three or four of which have been disposed of. Judge O'Connor presides. B. B. Osler, Q.C., is here.

TORONTO TOPICS.

TORONTO, Sept. 27.

Two verdicts awarding damages for injuries received by falling on ice-covered sidewalks were awarded in the Civil Assizes. The first was in the case of Mrs. Wm. Lawson, who sued to recover $1000 because of injuries to her foot, sustained by slipping on an icy sidewalk on College-street, opposite St. Stephen's Church, March 5 last. She was awarded $200 and costs.

The other case was that of Milo Carel, an engineer, who, on March 14, slipped on the pavement in front of Mr. W. E. Cornell's new building at Church and Adelaide-streets, fracturing his leg. He sued the city and Mr. Cornell for $2000 and was awarded $600, but only against the city. An appeal will be entered.

At the City Council meeting last night the Executive Committee commended the prompt action of the Mayor in forwarding, on behalf of the city, $400 to Gravenhurst. Mr. H. H. Cook, M.P., East Simcoe, appeared before the Council and returned thanks for the munificence of its members in responding so promptly to the appeal of the distressed people. He urged a further grant of money, stating that nearly half the population were rendered homeless by the fire. The Council unanimously endorsed the action of the Mayor, and at a subsequent stage of the proceedings increased the grant to $1000, though not without considerable discussion and opposition, in which Ald. Beaustead took the lead.

Mr. Hamilton McCarthy, to whom was entrusted the work of designing and erecting the statue to the memory of the late Dr. Ryerson, as long Chief Superintendent of Education for Ontario, has completed the model, which will shortly be cast into bronze. The height of the statue is 9 feet 6 inches, and it is due to Mr. McCarthy to say that he succeeded in delineating a faithful representation of the features and imposing form of the great educationist. The pose represents Dr. Ryerson in the act of addressing the Legislature in behalf of the great system of education which he left as a legacy to his countrymen. In his left hand is a book, while his right hand is stretched out in the graceful manner of an orator seeking to convince his hearers by the right-eousness of the cause which he advocates. The facial outlines are admirably portrayed, the expression being that of beaming benevolence combined with deep earnestness in the cause which the designer represents him as engaged in. The model was admired by a large number of ladies and gentlemen yesterday.

SHOT BY A GERMAN GUARD

AN AFFAIR OF THE FRONTIER WHICH ALARMS THE FRENCH.

A Party of Sportsmen Guarding Near the Boundary Line Are Repeatedly Fired Upon by a German Soldier, One of Their Number Being Killed.

PARIS, Sept. 26.—The Temps publishes a telegram from Epinal saying a lieutenant of dragoons, accompanied by a game-keeper, while out shooting at Raon-Sur-Plaine, near the frontier, was fired at by invisible marksmen in German territory. The game-keeper was killed and the lieutenant's thigh bone was fractured. Surgeons affirm that the shots were fired by military, and say that the lieutenant's thigh will have to be amputated. It is believed that the shots were fired by customs officers.

Particulars of the Affair.

PARIS, Sept. 26.—The following details have been received concerning the shooting incident on the Franco-German frontier at Raon-Sur-Plaine. On Saturday morning a party of five sportsmen and four beaters were following a push on French territory, seven yards from the frontier, when a person standing behind a clump of trees on the German side, 50 yards from the frontier, fired three shots at them. The first bullet did not hit any one, but the second killed one of the beaters, named Brignon, and the third severely wounded a gentleman named Wanger, a pupil at the Saumur Cavalry School. The German soldier named Kauffman who was detailed to assist the forest guards in preventing poaching, fired the shots. Kauffman affirms that he shouted three times for the party to halt before firing at them. He believed that they were on German territory. The sportsmen declare they heard nothing. The officials on both sides of the frontier are making inquiries into the shooting.

Full Reparation Demanded.

PARIS, Sept. 26.—The Paris papers urge the people to regard the shooting affair on the frontier with calmness in order not to embarrass the Government in its handling of the case. At the same time the Government is urged to demand full reparation. The public of France is uneasy over the frequent repetition of these exasperating incidents on the German frontier, and it is feared their frequent repetition may exhaust popular patience and induce an explosion of public wrath.

Germany Will See That Justice is Done.

PARIS, Sept. 26.—Premier Rouvier conferred with the Minister of Foreign Affairs and the Minister of Justice in relation to the frontier incident, after the receipt of the official report of the affair, and it was decided to send a note to Berlin requesting the German Government, in the interest of the continuation of friendly relations to institute an enquiry into the affair without delay.

Count Von Munster, the German Ambassador here, in an interview with Foreign Minister Flourens, expressed regret at the frontier occurrence and gave assurance that justice would be done by the German Government.

The Temps says: "Public opinion is not justified in giving way to a hasty impression regarding the frontier affair. At the same time it is impossible to refrain from reflecting that if the series of incidents on the frontier be not stopped it will lead to the belief that Germany is really harboring intentions which her Government disavows. It may be that the occurrences are the result of excessive zeal, but it is incumbent upon both Governments to prevent such excess by moderating the rigor of their instructions and selecting prudent agents."

THE HYGIENIC CONGRESS.

Crown Prince Rudolph of Austria Opens the Sitting at Vienna.

VIENNA, Sept. 26.—Crown Prince Rudolph opened the Hygienic Congress to-day. In his address of welcome the Crown Prince declared that man was the nation's most precious capital, and that every human life represented a fixed value which humanity commanded should be preserved and maintained intact as long as possible. The individual, he continued, was powerless against the hurtful influences surrounding everybody, and common action alone was available for the purpose of protection, and this scientific hygiene, assisted by demography, would supply. Hygienic science touched every house, every school, every town's production, every village's trade, all industries and war. The presence of the illustrious delegates who came from all nations proved the international importance of the object of the congress. "I welcome you," said he in conclusion, "to Vienna, which is the centre of active scientific labor and earnest investigation."

A FATAL MISTAKE.

Two Children Meet Their Deaths Through a Druggist's Carelessness.

HAMILTON, Sept. 26.—Two children of Wm. Nicholson of Millgrove, both girls, one aged 12 and the other 8, died on Friday night from the effects of morphine administered by mistake for quinine. The family physician is Dr. Anderson of Millgrove. When he was called to attend the two children for malarial fever he had no quinine and came to the city for it. He got an ounce of what he supposed to be quinine from Zimmerman, the druggist, who sent for it, while Dr. Anderson was walking, to Winer & Co.'s, wholesale druggists. An inquest on the bodies of the children was opened at Millgrove yesterday by Dr. McGregor of Waterdown. Four powders of the medicine administered remain, which have been analyzed and found to be morphine.

Another Victim.

When the inquest was in progress a similar case of fatal poisoning was revealed. Mrs. Rymal, who lived near Millgrove, died rather suddenly a few days ago. Dr. Anderson had attended her also. Mr. Rymal brought to the doctors one of the supposed quinine powders which had been administered to her by the doctor. It was examined and found to be morphine.

There are two explanations of these three unfortunate cases. Either the clerk in Winer's who sold the drug to Zimmerman's clerk gave him morphine instead of quinine or else Dr. Anderson mistook the one for the other.

TUESDAY, SEPTEMBER 27, 1887.

HON. OLIVER MOWAT, Q. C., LL. D.

(Concluded from Yesterday)

He was called to the Bar in 1842, and commenced practice in Kingston, but very soon afterwards came to Toronto, where he has ever since resided. At a time when the line of demarcation between Common Law and Equity was much more clearly drawn than at present, Mr. Mowat chose the latter branch. He rose quickly to eminence at the Chancery Bar. In 1856 he was appointed by the Government, of which Mr. John A. Macdonald was a member, as Commissioner for Consolidating the Statutes of Canada and of Upper Canada respectively, a position which he held until 1859. In 1857 he was elected to Parliament as member for South Oxford. He continued to represent that constituency until 1864. Upon the fall of the Macdonald-Cartier Government in 1857, he was selected, though he had been but one year in the House, to fill the office of Provincial Secretary in the Brown-Dorion Administration. He held the portfolio of Postmaster-General in the Coalition Government formed by Mr. J. S. Macdonald in 1862, a position which he retained until the defeat of that Government in 1864. He was also a member of the memorable Union Conference which met at Quebec in 1864, and framed the Confederation Scheme; but his acceptance a few months later of the Vice-Chancellorship of Upper Canada deprived the framers of the Confederation Act of his services in the subsequent deliberations. When the Dual Representation Act compelled the retirement of Messrs. Blake and Mackenzie from the leadership of the Ontario Legislature in 1872, he was called on by the Lieutenant Governor, acting no doubt on the advice of the retiring Premier, to form an Administration. His descent from the Bench and re-entrance into political life gave occasion for a good deal of discussion at the time on the part of those who thought, or affected to think, that the purity of the judicial ermine must be in some way contaminated by the change. The answer, if any is needed, to those who think that the position of Head of the Provincial Government is one requiring either mental or moral qualifications of a lower order than those of even the Chancellor's bench, is to be found in the record of sixteen years of able, upright, and progressive government of the affairs of Ontario. Those must be wilfully purblind who cannot now see that the judicial temperament and habit, with all of mental training and capacity and of moral integrity they imply, furnish the very best of qualifications for the responsible and honorable position of virtual ruler of a great province.

Sound discretion, marked ability, and sterling integrity have characterised Mr. Mowat's career in each division of his professional and official life. As a lawyer his talents quickly gained recognition, and reinforced by his clear judgment and scrupulous conscientiousness, soon won for him a high place in the confidence of the profession and of the court in which he practised. Though not fluent, he was energetic, forcible, and convincing as a pleader. His patience was admirable, his industry untiring, and his fertility in resources great. He was said to be endowed in great measure with the power of "thinking out" a subject, and was believed to be stronger in ability to go to the bottom of the subject than any of his contemporaries. As a judge he exhibited qualities of both head and heart, which, while they won for him respect and admiration, gained also esteem and friendship in high degree. His great business and executive ability quickly showed itself in the improved conduct and quicker despatch of the business of the Court. As the head of the Government his record has long been before the people of Ontario. The mere enumeration of the reforms that have been effected and the beneficial acts passed during his *regime* would occupy more space than we have at disposal. The judicious settlement of the vexed question of the Municipal Loan Fund; the liberal and salutary provisions of the local Railway Acts; the consolidation of the Provincial Statutes; the local option principle reduced to practice in the Liquor Acts; the General Incorporation Act, by which so much economy of time has been secured in the Legislative Assembly; the well considered and systematic aid to Public Charities; the changes by which the Education Department has been relieved of its irresponsible and bureaucratic character, and put in charge of a responsible Minister; the progressive legislation in connection with higher education and the University of Toronto; the introduction of the Ballot in political and municipal elections; the liberalising of the Franchise up to the verge of universal suffrage;—all these and many other legislative reforms wrought under his *regime* will be lasting monuments to his statesmanship.

Mr. Mowat's legislation, though uniformly Liberal and progressive, has never been sensational. His opponents have sometimes charged him with timidity. That wise caution that refuses to move blindly under irresponsible pressure, that waits to look on all sides of a question, and goes forward only when the way is made clear, is certainly his. But that cowardly fear of censure which shrinks and hesitates on the brink of what is seen to be right and just, for fear of consequences, cannot be laid to his charge. No really urgent legislation in the interests of Liberalism and progress has been unduly delayed through his fault. The manner in which he has met and vanquished, not only in the local political arena but in the highest court of the realm, Sir John A. Macdonald with all the power and prestige of his own high reputation and the Dominion premiership at his back, sufficiently attests his courage in doing what he deems the right. The vindication of provincial rights in the matters of the Boundary, the Rivers and Streams Bills, and the license questions, are services rendered by Oliver Mowat which will long be remembered by a grateful province.

As leader of the local Government, in the House and out, Mr. Mowat's address and tactics are admirable. Clear-headed and logical in debate; cautious in committing himself, yet, when occasion demands, prompt in decision and firm in action; uniformly courteous and affable, yet ready and keen in retort, and often turning the tables on an opponent most effectively; keeping himself thoroughly informed on all important questions; exhibiting on all occasions a sound judgment combined with a ready wit, he inspires his colleagues and followers with confidence, and generally holds at bay or discomfits his most eager assailants. In some of these respects, notably in the extent and fulness of his knowledge of the subjects under debate, and in the soundness and acumen of his opinions on juridical and jurisdictional questions, his record compares most favorably with that of his great antagonist, the veteran leader of the Dominion Government.

To say that he may have some times made mistakes in judgment and policy, and that he has not uniformly steered clear of the dangerous reefs which abound in the streams of patronage, is but to admit that he is human and consequently fallible.

Mr. Mowat has always taken a deep interest in social and religious questions. He is a member of the Presbyterian Church, and was for many years President of the Evangelical Alliance. Like most men who have wrought earnestly and conscientiously for the public good in any sphere, his philanthropy and integrity are, no doubt, deep-based upon the firm foundation of religious principle. It has been sneeringly insinuated that he has claimed for himself the high honor of being a 'Christian politician." It is unnecessary to say that the charge is without foundation. It seems to have originated in a perversion of a hypothetical allusion in one of his speeches as to what might be considered the duty of a Christian politician, in some specified case. To arrogate to himself the distinctive title was farthest from his thought. Such a boast would be as repugnant to his good sense and taste as to the modesty for which he is distinguished. That he is a faithful and devout member of an influential Christian church is a crime which will be readily forgiven him in view of the great services he has rendered to society and the State.

FALSE PRETENCES.

Mr. Kern, a Hamilton Architect, Committed for Trial.

HAMILTON, Sept. 26.—At the Police Court today M. D. Kern, architect, was charged by Henry Schuhl with obtaining $38.29 by false pretences.

In his evidence Schuhl said that in July last he gave Mr. Kern a note for $60, and that on Sept. 1 a settlement was made in the office of Mr. Kern. At that time Mr. Kern could not find the note and said it must have been lost or misplaced. Mr. Schuhl's son was present and was writing a receipt at this time, but when Kern said this Mr. Schuhl said he would dictate a receipt. He settled with Mr. Kern, but had since had an action brought against him to recover the value of the original note—the note which Mr. Kern had said was lost or misplaced. The $60 owed by him, and for which he gave the note, was for payment of postage stamps purchased, and $10 borrowed from Kern. At the time of the settlement he returned some of the stamps—over 1000 United States two cents, and gave Mr. Kern the balance of the $60 in cash—$38.29.

The complainant was cross-examined at length by Mr. G. L. Stanton, counsel for Mr. Kern.

Aaron Schuhl, son of Mr. Henry Schuhl, swore that he wrote the receipt which Kern had signed and given to his father. He identified the receipt produced as the one he had written.

The Magistrate committed Mr. Kern for trial at the next assizes. Bail was fixed at $400, himself and two sureties of $200 each.

THE GREAT CENTRAL FAIR.

Hamilton's Exhibition Promises to Surpass That of Last Year.

HAMILTON, Sept. 26.—The Great Central Fair opened to-day, the weather being bright and sunny. Although all the displays are not arranged yet, it was evident by the quantity of goods in place and arriving that this year's exhibition will be superior to any yet held here. The space in the various departments has all been taken up, and Hamilton's industrial establishments will be well represented.

In the gallery of the Palace a large number of ladies and gentlemen have been busily engaged all day in arranging displays of fine work, while the art exhibitions are to be very elaborate and of a superior class. In this respect the exhibition of this year will be considerably ahead of previous years, and Hamilton will have every reason to be proud of the increasing interest taken in the finer branches of art and design in every class.

In the horse department the exhibits of thoroughbreds, roadsters, heavy draught, and other grades of horses, will be most magnificent. Hamilton's show generally excels in ornamental and useful horse flesh, but this year the display will be a grand one. All parts of the province are represented, and no such similar aggregation of superb horses has ever heretofore been seen in these parts.

SUNDAY'S FIRE IN MONTREAL.

Machinery—Glasgow and London, $5000; Western, $500; Lancashire, $500; Quebec $2000; Scottish Union, $2500; Northern, $2000; Guardian $2000.

AN ADHERENT FOR AYOUB.

Abdullah Khan Deserts the Service of the Ameer and Goes Over to the Enemy.

LONDON, Sept. 26.—Advices from Cabul, under date of Sept. 16, state that Abdullah Khan, commander of 2000 Seaminda warriors, fled from his soldiers and went to join Ayoub Khan, and safely reached Kof Samani, in Northern Beloochistan, on Sept. 12, Ayoub being there at the time. The Ameer of Afghanistan was at Peghoan prostrated by weakness and unable to return to Cabul. The Governor of Jellalabad issued a proclamation signed by the Ameer offering amnesty to all rebels who submit.

CHARGED WITH FORGERY.

The New York Agent of a Toronto Insurance Company Arrested.

NEW YORK, Sept. 26.—Richard D. Alliger, local agent for the British American Assurance Company of Toronto, was arraigned in court to-day and held in $2000 bail on a charge of forgery. Clara Schalhof of this city alleges that Alliger drew a check to her order for $1750 on the National Shoe and Leather Bank, forging her name to the same. Alliger was about to sail for Bremen with his family when he was arrested.

Jake Sharp to be Sent Up.

GOUGH

THE WONDERFUL CHEAP MAN,

Is waging a relentless war on Long Prices. He has not been awarded the contract of Clothing the Standing Armies but that Greater and Nobler Army—The WORKING MEN of Our Fair Canada—appreciate his generous ambition to furnish them with Reliable Goods at Wholesale Prices.

Other Dealers wonder how Gough can Under sell them. The explanation is easy, he is one of the Largest Dealers in Canada and pays cash for everything. He is thus in a position to take advantage of the markets and secure Great Snaps in the way of Bargains.

No man in his sober senses will deny that a good Bankrupt Stock bought at 40 or 50 cents on the dollar is not cheaper than the first cost of manufacture, and therefore were Gough to say he could sell Goods cheaper in many instances than even the largest Wholesale Firms, he could prove it.

I ask a fair thinking public, then, if Gough has to stretch his conscience very much when he states that the unfortunate dealer who is under the thumb of the Wholesale Houses actually cannot buy as cheap as Gough can sell.

A visit to his Great Clothing Emporium either in Toronto or Peterborough will satisfy the most skeptical that this is the absolute truth. He has come to Peterborough to stay and is bound to preserve the Splendid Reputation he has already acquired for durable, Stylish and Well Fitting Garments at prices at least 25 per cent below those of other dealers. Let no man, then, go ragged or shabby, no matter how poor he may be, but let him go straight to the People's Friend.

Our trade Saturday far exceeded my expectation. Overcoats and Fall Suits moving lively—they are so cheap people cannot resist buying from

LATEST SPORTING NEWS.

The Baseball Scores—Other Items of Interest to Sportsmen.

TORONTO, Sept. 27.

Toronto boosted its percentage to .559 points by defeating Scranton yesterday afternoon. There was a small crowd of spectators, but it was large enough to pay the guarantee. Orange held the "coal heavers" down to six actual hits, two of which he kindly presented to his namesake. Jacobs was batted freely at times, and his outfielders had to exert themselves. Williams, the visitors' diminutive catcher, showed up well, disposing of remarkable agility. Toronto fielded well on the whole, Albert making several pretty pick ups. The game was called at the end of the eighth inning on account of darkness. Score:

The Championship of the World.

Detroit President Stearns has sent a formal challenge to St. Louis President Von der Ahe to play a series of games between the National League champions and the Association champions for the championship of the world. Mr. Stearns suggests the following conditions:

1. That the number of games played be not less than fifteen, and that not more than one game be played in any one city, with the possible exception of such cities as where both league and association clubs exist.

2. That a purse be made up between us so that each player of the winning team shall receive $100.

3. That 75 per cent. of the net proceeds of the series go to the club winning a majority of the games played.

4. That an appropriate championship banner be played for, the cost of which shall not exceed $200.

"I would also," continues Mr. Stearns, "be pleased to test, in a game or two, the plan of having two umpire, one stationed behind the bat to pass judgment on balls and strikes; the other near second base, to decide all put-outs made on the bases and in the field."

Paragraphs About the Pugilists.

Jack Knifton, the eighty-one-tonner, who was the last pugilist matched to fight Jem Smith, has issued a challenge to fight the winner of the Kilrain-Smith championship fight for $500 a side.

An offer of $250 for expenses has been made to Tom Wall, the English middleweight champion, with backing for $1000—with an added purse of $1,500 by a Boston sport—to come over and fight Le Blanche.

Jack Dempsey, the middleweight champion, is rapidly regaining his health. Jake Stearns, his manager and backer in his match with Johnny Reagan, says that Dempsey has reason to feel concern for himself, as he has had a slight hemorrhage of the lungs. Dempsey will make a sporting tour in the east, and will second Jack McAuliffe against Jem Carney.

Jake Kilrain and Charley Mitchell sailed from New York on Saturday for England. Kilrain goes to fight Jem Smith, the British bulldog. The friends of Kilrain say the attendance at this fight will be limited to 100 persons, and that the high price per head ($50) for the privilege of seeing the battle will keep away all roughs.

The backers of Jack McAuliffe of Brooklyn, the champion lightweight pugilist of America, met representatives of Jem Carney, the English lightweight champion, at Boston yesterday, when it was agreed to postpone the fight between the champions for six weeks from Oct. 3. McAuliffe's backer gave Carney $100 in cash for agreeing to the postponement, and Carney agreed to make the match stakes $4000, instead of $2000, as at first proposed. The final deposit was posted to-day. The postponement was made necessary by McAuliffe's illness.

In Brief, And To The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

To Avoid Baldness or Gray Hair.

Use Dr. Dyeuwood's Great German Hair Magic. It keeps the scalp clean and free from Dandruff, and promotes the growth of the hair. It prevents premature grayness and stops all falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by J. D. Tully and all druggists.

Restored.

Mrs. J. M. Phalen, of Sydney Mines, N.S., had chronic rheumatism for two years' and got no relief until she tried Burdock Blood Bitters. Two bottles cured her. "I was like a skeleton," says she, "before using B. B.B., now thanks to the discovery of such a valuable remedy, I am entirely restored to health." 2w26d

"What is McGregor's Speedy Cure for"?

It is for Dyspepsia, Liver Complaint, Indigestion, Biliousness, and it is the finest blood purifier in the known world to-day.

"Does it give satisfaction?"

We cannot point to one instance where it did not.

"Where does it have the largest sale?"

Right in the city of Hamilton, where it is manufactured, there has been over one thousand dollars' worth sold in the last year retail, and the great majority of the sales are by one recommending it to another. For sale at 50c. and $1.00 per bottle by John McKee, Druggist eodw35

"I have used Dr. Fowler's Extract of Wild Strawberry for summer complaints, and have given it to my friends. It gives instant relief when all other remedies fail. I would not be without it in my house." Mrs. T. Boil, Weidman, Ont. 2w26d

I have been bothered with catarrh for about twenty years. I had lost my sense of smell entirely for the last fifteen years, and I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did. My sense of smell is partly restored; it seems to be improving all the time. I think there is nothing like Ely's Cream Balm for Catarrh.—Mrs. R. E. Grimes, Rendrill, Ohio. eodw39

PETERBOROUGH'S GREAT CHEAPSIDE!

And SHEPPARD, by common consent, will get $1,000 for being the **Cheapest Clothier in Peterborough,** having knocked the Wonderful Cheap Man completely out. "Business is Business; Dirt is Dirt, and when it comes to throwing Dirt, then Count" the only original teddy out, and he will hand over that $1,000 like a little man: For the following reasons;—

Sheppard sells a full size Man's Suit for $2.95, and better Goods than a Suit to fit a Child about 9 years old sold by the Wonderful Cheap-Man on Saturday for $3.00; but marked $3.50. This is how it was:—A Lady purchased a Child's Suit on Saturday last, Sept. 17th, 1887, at the Store of the Wonderful Cheap-Man. It was marked thusly:—Lot 5375, Breast 27, Waist 26½, Age 9, Price $3.50. It was pure Shoddy, being held together by cotton threads, and Sheppard is free to say that that was the dearest Suit sold in the Town of Peterborough for the last two years. **Full particulars are given because of the $1000 involved, and, further, that this decides who is selling the Cheapest Clothing** in Peterborough. SHEPPARD would have sold that Lady a Suit, Pure Wool for that money, and worth two of the one she got.

$1,000 to Go to the Charitable Institutions of Peterborough.

I had first decided to give the agencies a chance of jumping up my rating that $1.000, but after considering the matter and finding that never in any case have I been asked for an endorser to my paper, and that no relative or any other persons have ever endorsed my paper to the extent of one cent, I have come to the conclusion my credit is as good as yours and will ask you to hand over the $1,000 to the Charitable Institutions of Peterborough.

Now, Sir, there is a good story told the truth of which can be vouched for, but for the honor of at least making an effort to keep up your self-styled name—The Terror of High Priced Clothiers—do not allow the same to be said of you in the case above. A man purchased a suit for $15.00 at the store of one of the largest Advertisers in that section of country. It was guaranteed pure wool; but after examining it carefully at home, he came to the conclusion that he had been dealing with some one sharper than himself. Finding a make of wool, differing some from anything he had ever seen, it dawned upon him, that he had heard of wool of that kind, so the suit was returned. The merchant bet $25.00 that it was all wool, and the bet was accepted, the decision being left to a neighboring merchant, he found that the $15.00 suit, was wool faced and shoddy back, pure unadulterated shoddy, but what of the $25.00 bet, was it paid, not much—muchly—as it were.

HEATING
By Hot Water and Steam.
We desire to call special attention to their splendid Hot Water and Steam Boilers which are acknowledged to have no superior on the Continent of America. We have received orders from Ottawa and other places to replace other boilers with ours. This speaks for itself. McAndrew & Noble are prepared to back their own boilers against these or any other maker either in or out of Peterborough, and if not superior in every respect they will be removed without one cent of expense. We claim, and it has been acknowledged, that we have the best boiler for heating purposes in the world to-day; all we want is a fair test.

N. WASHINGTON, M. D., Throat and Lung Surgeon, Toronto.
DEAR SIR,—I am pleased to be able to state to you that I am now free from Catarrh. It is almost incredible that in so short a time I could have been cured of Catarrh, which has affected my health for years. A little over two months ago I took treatment from you, and today the Catarrh is entirely cured. Your treatment is simply a marvel. I will heartily recommend any of my friends personally, and would suggest to all thus troubled the advisability, of consulting you immediately. Accept my many thanks. Yours etc.,

A Rejuvenated Drama.

The Syracuse Daily *Courier*, of Sept. 9th say:—"The revival of 'Ten Nights in a Bar Room,' at the Wieting last evening, was a theatrical event in which much interest was manifested. The company producing the old melo-drama is a capable one, the comedy and sober parts being well assumed in every case. The Brooklyn church choir quartette is brought into service in a very pleasing manner. The play has been remodeled in several respects, but still retains the prominent features which gave it success in days gone by. It is a rejuvenated drama, with much to commend it to public favor in these days of advanced civilization." The same company will appear in Bradbura's Opera House, next Friday evening.

GOUGH AND SHODDY.—The mark of a large sized foot print on the sidewalk leading to Sheppard's store on George street, was the talk of the town, as a good advertisement for that House. This morning added to it, and in front, were the words "for shoddy." Mr. Gough, the Clothier, George street, made his boast freely that he would accomplish this contemptible trick, and he has done it. So that Gough and shoddy are inseparable for a long time to come.

Mr. Gough wishes it distinctly understood that the EXAMINER is not responsible for the above. Mr. Sheppard had it inserted as an advertisement and was charged the regular rates for it. *Facts* and not *insinuations* will give any man the confidence of the public. The big foot was a decided mis-step. 3173

Outside Students

A number of students are registered to enter the Peterborough Business College on the first of next month, from places outside of Peterborough. Two young men from Ottawa, formerly students with Mr. Sawyer, have arranged to come here to receive their business and short-hand training, October 1st. It speaks well for Mr. Sawyer as a teacher and a man to see former students filing in in this way from such a centre as Ottawa. This is likely the result of Mr. Sawyer having recently severed his connection with the Ottawa College.

Children Cry for Pitcher's Castoria.

Bear in Search of Breakfast.

How Bruin Missed the Grub he Sought.

Bears are very numerous this season, and it is no wonder that hunters frequently encounter them. Last Saturday a gentleman connected with a local bank, which the public have frequent occasion To-run-to, met with an adventure in the shape of a 200-pound bear. He has been spending a few days camping near Bonshink, Stony Lake. Armed with his trusty shot-gun, he had set forth in search of game. After a considerable tramp, with his game bag still empty, he sat down to rest and reconnoitre upon a boulder exticingly upholstered with moss. Suddenly he heard a slight noise, and looking up saw a huge bear not thirty yards away, gazing greedily upon him. The solitary seemed had such a designing, satisfied look that the presence of the hunter was apparently regarded by him as the solution of the question involved in the refrain that one can fancy was rehearsed that morning in the domestic den by Bruin and his help-meet—chanted in the (arm) major key in mellow bear-tone voice:—

"Says one black bear unto its mate,"
"What shall we do for grub to ate?"

For a brief moment bank stock was shaky, but the hunter, figuratively, pulled himself together, and resolved to sell his life dearly or bag a bear. Undismayed by or forgetful of the fact that the only shell he had with him was in his shot gun, he pulled his piece to shoulder to fire. The bear was also quick to act. He was evidently surprised to see a grub develop suddenly into so belligerent a butter-fly—besides he had known accidents to happen with firearms and fearing that he might get a stomachful of duck shot instead of the grub he expected, sacrificed his meal and fled. The hunter started in hot pursuit. Bruin rushed ahead blindly and soon found himself confronted by a line of steep boulders he could not climb, and he turned—at bay. The hunter paused, knelt and, resting his gun on a log, took careful aim and fired. The bear shook his head in acknowlement of the correctness of the aim, but this action loosened the stone on which he was sitting and he rushed headlong in the direction of the hunter. The latter turned also and rushed away at a rate that Bird and Miller, the 100-yards sprinters will vainly strive to attain on the Fair grounds next week, while the demoralized bear fled incontinently in an opposite direction, far from the haunts of men. The hunter reached his camp in safety and still thinks that if he had been "loaded for b'ar" instead of for duck he would have had a trophy worth bringing home.

Women's Christian Temperance Union.

Monday afternoon the regular meeting of the W.C.T.U. was held. It was opened by the President with singing, reading 90th Psalm, and prayer. Mrs. Smart read a communication from Mrs. Chisholm, of Ottawa, requesting the appointment of delegates to attend the Provincial Convention to be held Oct. 11th, 12th and 13th, at Napanee. In response, Mesdames Rutherford, Price, and Fitzgerald were chosen to represent the Union at said Convention. A resolution was unanimously carried, thanking Mr. W. J. Mason for a contribution of sugar, and Messrs. Robinson and Ostrom for grapes, for the entertainment at the Y.M.C.A. Hall on the 15th inst. Another resolution was most cordially endorsed, thanking Mr. John Cobb for engrossing a memorial to Mrs. J.W. Flavelle, late Treasurer of the Union. The advisability of securing a tent, providing meals, and distributing temperance literature on the grounds during the time of the Central Exhibition, was talked over and a committee appointed to make the necessary preparation. The heating of the hall was next discussed. Mrs. Hotchkiss, member of a Union in New Haven, Conn., gave an interesting and very instrctive address concerning the work on the American side of the line, and also concerning the intelligent views which all Christians should cultivate regarding the broadest meaning of the command, "Thou shalt not kill," which command is being violated constantly by those who uphold and carry on the liquor traffic. The thanks of the Union were most heartily tendered to the friends who have so generously contributed literature for the lumbermen. The election of officers resulted as follows:—President, Mrs. A. Rutherford; Vice-Presidents, Mesdames Stratton and Fife; Sec.-Treas., Mrs. J. Kendry; Corresponding Sec., Mrs. D. Smart.

Startling but true. Turnbull has the Finest Line of Dress Meltons in the trade.

The Town Council in Session.—An Effort to Secure Industries.—Booming the Town.—How Hose for the Fire Department.—After the Farmers who give Short Measure.

When the members of the Town Council assembled in the Committee Room Monday evening, the Council Chamber was in darkness—for some reason or other the electric light was not running. After waiting till nearly half past eight, the Councillors began business by the light of a single lamp on the Clerks' desk. After struggling through for about half an hour the electric light was started.

There were present, Messrs. Menzies, Douglass, Moore, Stinson, McNeil, McNaughton, Cahill, Davidson.

In the absence of the Mayor Mr. Menzies was elected to the chair.

COMMUNICATIONS.

The Chief of the Fire Brigade presented a report of the state of the hose at present in stock, and making a demand for 500 more feet of Eureka hose.—Received.

From the Toronto Rubber Co., regarding the hose supplied to the town.—Received.

An appeal on behalf of the sufferers by the recent Newburgh fire, from the local W. C. T. U., was read. It was referred to the Finance Committee.

Mrs. Johanna Walsh applied for charity.—Referred to the Charity Committee.

The town solicitor, Mr. E. B. Edwards, reported that in accordance with the instructions of the Town Council he had notified the C.P.R. Company that they must restore Wolfe street to its former condition as a public highway. The solicitor for the railway company had expressed a willingness to come to terms, but as yet had made no approaches on the subject. The town solicitor asked for instructions.—Referred to the Finance Committee.

From Alexander Anderson, Toronto, dealer in general electric supplies, asking for an order for electric fire alarms.—Referred to the Fire, Water and Light Committee.

Mr. E. B. Edwards, town solicitor, applied for instructions regarding the town's suit with the Midland Railway Company.—Referred to the Finance Committee.

PETITIONS.

From Mr. E. Harris, applying for a rebate of butchers' license.—Referred to the License Committee.

From J. Dixon Morgan, asking the Councillors to club together and pay his expenses to England.—Received.

From Mr. Wm. Taylor and 75 others, asking the Council to order three electric lights on George street north.—Referred to the Fire, Water and Light Committee.

From Mr. K. G. Loch and others, asking for a sidewalk on the south side of King street.—Referred to the Street and Bridge Committee.

From Mr. E. J. Hartley and 8 others, asking the Council to cause to be removed from Hunter street the pile of brick, etc., that has been there for nearly a year, and petitioning for a sidewalk on the north side of said street, between Water and George streets.—Referred to the Street and Bridge Committee.

From Mr. E. R. Smith, asking for a new sidewalk on Aylmer street, between Hunter and Brock streets.—Referred to the Street and Bridge Committee.

The accounts were referred to the Finance Committee, excepting those of J. McFarlane and H.S.Pell, which were paid. The account of the Gutta Percha Rubber Co., was ordered to be returned.

FIRE, WATER AND LIGHT.

Mr. A. McNEIL presented the report of the Fire, Water and Light Committee, recommending that as no appropriations had been made for the purpose, the petitions for gas lamps referred to them be not granted. The report states that on account of illness Mr. Jas. English had been granted a month's holidays, and that Mr. J. McFarlane has been engaged to take his place; the report further recommended that the committee be empowered to purchase 300 feet of reliable hose for the fire department.

Mr. McNeil afterwards moved that the report be amended to recommend the purchase of 500 feet of hose. Mr. Davidson moved in amendment that the quantity be placed at 200 feet. After a little debate on the subject, at Councillor Cahill's suggestion, the middle course, as recommended in the report, was taken, and the purchase of 300 feet ordered.

Councillors MCNAUGHTON and CAHILL wanted one of the petitions for gaslamps granted, for one at the corner of Sherbrooke and Rubidge streets. Councillor HARTLEY wanted the whole batch passed or none—to pass one would show partiality; it wouldn't be a square deal. Mr. MOORE also wanted one at the corner of Elm and Bon Accord streets. Finally the report was adopted.

A SPECIAL MATTER.

Mr. MOORE presented the report of the committee meeting of the whole town council which the lot along the creek near Murray street was purchased.

Mr. CAHILL introduced an amendment, at which was seconded by Mr. McNaughton, that the lot be not purchased, but the money appropriated for the filling in of Spaulding's Bay.

The report was adopted.

AFTER INDUSTRIES.

Mr. CAHILL moved, seconded by Mr. McNeil, that the Mayor and Councillors Davidson and Moore be appointed a committee to proceed to Toronto at once to interview gentlemen from England, who are reported to be there now with a view, it is said, of establishing screw works in Canada, for the purpose of inducing them to locate here, and that the town treasurer be authorized to issue his cheque for the necessary expenses.

Mr. Cahill supported his motion by a short address, in which he set forth the advantages to be accrued from bringing such an industry here.

Mr. MOORE said that he had a motion ready which was indirectly connected with the one before the board. He thought Peterborough should be advertised as much as possible as a manufacturing centre. Manufacturers were coming in from England and the United States seeking for suitable locations, and if Peterborough was better known the town would attract many who now pass it by. His motion was to the effect that a committee composed of Messrs Cahill, McNeil, Menzies, Davidson and the mover be appointed to take into consideration the best means of advertising the advantages of Peterborough as a manufacturing and industrial centre.

Councillor CAHILL thought the town should take advantage of the Act passed by the Legislature in 1872, giving corporations power to expend $40,000 for the support of manufacturing industries. He considered it a good plan to erect buildings and grant their use to new manufacturers locating here.

COUNCILLOR HARTLEY also spoke in favor of both motions.

The motions were passed.

MISCELLANEOUS.

Mr. DAVIDSON moved that the Clerk be paid $9 for preparing the collector's roll.—Carried.

Mr. MOORE moved that the sum of $250 be appropriated for the purchase of Mr. Dumble's lot.—Carried.

Mr. MOORE followed with another, ordering the street inspector to drift the earth side of the creek in continuation of that now being done on Stewart street.—Carried.

Mr. MOORE asked that the clerk notify the police that it was their duty to watch market measurement. He referred, he said, to the frequent practice of some farmers in giving short measurement in bags of apples and potatoes. There were many complaints, and it should be looked after.

A FORTY THOUSAND DOLLAR MOTION.

Mr. CAHILL moved, seconded by Mr. Davidson, whereas this corporation is authorized to expend the sum of forty thousand dollars in encouraging manufacturing establishments (after submitting the same to a vote of the ratepayers); be it resolved, that a special committee be appointed to consider the best means of expending such money, with the approval of the ratepayers, so as to induce the location of factories here; such committee to consist of Messrs. Moore, Davidson, Menzies, McNeil and Kendry, to consult with such of our citizens as may evince an interest in such matters.—Carried.

The Council then adjourned at the call of the Mayor.

Police Court.

Tuesday, Sept 27th

Fruit Jars.

In canning fruit, it is absolutely necessary that you should have good reliable jars. These may be obtained at the very lowest price only at "China Hall."

Now Open.

Chamberlain's oyster parlor is now open for the season. Oysters will be served at all hours in styles to suit the tastes of our patrons. After this week shell oysters will be kept constantly on hand. Porter-house steaks, chops, etc., prepared on the shortest notice. d

The way Turnbull's Dress Meltons are moving out, proves that they are finer than is usually sold at the prices.

Oyster Rooms Open.

J.C.Craig has opened out his two comfortable oyster parlors on George street, where the delicious bivalves will be served up at all hours, in any style desired. Drop in and try Johnny's stews. Steaks, mutton chops and tea and coffee served until 12 o'clock at night. d

Turnbull's immense stock of Dress Goods in lovely styles, is complete. Ladies! Look through it. Prices are positively right.

Church Re-openings and Openings.

On Sunday, 25th inst., at Fraserville, Rev. Thos. Manning, B.A., preached in connection with the re-opening services of the Methodist church, which looks elegant in its new dress. Jas. Stevenson, Esq., M.P., presided at the tea-meeting on Monday night, and Rev. Messrs. I. Tovell, D. F. Gee and Thos. Manning delivered addresses. It was a success financially as well as in other respects. Rev. B. Greatrix has charge. On the 18th inst., at Janetville, Mavers township, the church which has been enlarged and beautified at a cost of over $1,000—was re-opened for divine worship. Rev. Dr. Bredin preached both morning and evening, and Rev. Messrs. I. Tovell, R. T. Courtice and Dr. Bredin addressed a public meeting on the Monday evening following. The finances were put into a good shape, there being only a debt of $100 left to be provided for. Rev. J. Powers is pastor. Next comes the dedication of a new church in Dummer township, on the Warsaw circuit, where Rev. J. Tozeland is the pastor. The building is capacious and well built, and will be opened next Sabbath. Rev. I. Tovell, chairman of the district, will conduct the dedicatory services, assisted by Rev. R. T. Courtice. T. Blezzard, Esq., M.P.P., is expected to preside at the Monday meeting.

THE THISTLE OUTSAILED.

THE VOLUNTEER WINS THE FIRST RACE BY OVER 19 MINUTES.

Thirty Thousand People Witness the Great Contest—The Owners of the Scotch Yacht Not Satisfied—Mourning on the Clyde—London Press Opinions.

NEW YORK, Sept. 27.—Half the battle for the possession of the America's Cup was won to-day, when General Paine's handsome sloop yacht Volunteer defeated the Scotch cutter Thistle 19 mins., 23½ secs. over the 30 mile course of the New York Yacht Club. It had been generally understood that the Thistle was a yacht to be feared in light breezes, but to-day's race has shown conclusively that the Volunteer is more than a match for her. The first 11 miles of the course from the start, off buoy 18, to the s.w. spit, was all windward work in light, variable breezes and against the flood tide. In this work the Volunteer was admirably handled by Capt. Haff and Joe Ellsworth, beating her rival 17 mins. 35 secs. From here to Sandy Hook lightship, 10½ miles, both laid their courses with the wind, at times a point free, and the Thistle was beaten 2 min. 21 sec. Back to the southwest spit it was a "reach," and from there to the finish dead before the wind, the Thistle gaining 1 min. 39½ sec.

Thirty Thousand Spectators of the Race.

Such a flotilla of steamers and sailing crafts has never been seen in New York Bay as that which assembled at the start, and later accompanied the two giant "single-stickers" over the course. Steamships and steamboats, steam yachts, launches and tugs of all description, each carried its quota of enthusiastic admirers of the contestants, and it is estimated that 30,000 people witnessed the race from the decks. So eager were their captains to give their passengers a good view that they not only ran the risk of collision with each other, but they seriously, in some cases shamefully, impeded the progress of the racers.

The Early Morning Haze.

There was anything but a promising outlook for a good yachting day. At 5.30 a.m., when Commodore Gerry's steam yacht Electra, the flagship, left her anchorage off East 26th street for the starting point, Owlshead, L.I., a thick haze, almost a fog, hung over the river and there was not wind enough to blow the flags out at the yachts' mastheads.

Secretaries Whitney and Fairchild, Capt. Henry Eckles, U.S.N.; Lieut. E. L. Zalenski, Chief Justice Van Brunt and George A. Ingraham, with a number of ladies and gentlemen prominent in New York society, were guests of Commodore Gerry on board the flagship, which had been placed at the disposal of the Regatta Committee, Messrs. Stephen Peabody, Gouverneur Kerbright and Alexander Taylor, jr., as the judges' boat. The members of the America's Cup Committee on board were ex-Commodore Jas. D. Smith, Philip Schuyler and C. O. Haight. Commodore Gerry's staff consisted of Fleet-Capt. Kerbright, Fleet-Surgeon M. J. Ash, Secretary John Bird and Geo. L. Schuyler. The Electra dropped anchor and swung to the ebb tide a cable's length to the westward of Buoy 18 at 9.15, with the Secretary of the Navy's blue flag flying at her main truck.

The Thistle's Big Topsail Looms Up.

The Thistle was already under way standing slowly across the upper bay on the port tack, her immense silk topsail reaching far up into the haze aloft. Capt. Barr was at the tiller and close beside him, clad in a spotless white flannel yachting suit, stood Jas. Bell, the Thistle's chief owner. About the deck were his guests and co-workers, Sir J. Donald Matheson, Charles Coates, Designer Watson and Latham A. Fish, the latter being General Paine's representative. Every passing steamer saluted and its passengers cheered. The wind was so light that to steam the tide the Thistle had to anchor at 9.40.

The Volunteer Towed Out.

The Volunteer was towed out from Bay Ridge soon after, looking every inch a fighting craft, and Capt. Haff, to save time and patience, anchored the sloop near the Thistle. The police boat patrol, in charge of Inspectors Byrnes and Williams, hovered about the white beauty as if to protect her, and many a hearty wish for her success was shouted across the water from the thousands standing shoulder to shoulder on the decks of the iron steamers Sirius, Cepheus and Pegasus, the New York Club's boat Tamus and the Grand Republic and Columbia, all of which were loaded to their guards with passengers. All the yacht clubs had chartered steamers. The Seawanhakas made the best show with the side wheel steamer Crystal Wave, the Corinthians had the big Luchenbach, the Jay Larchmont boys filled the decks of the Charles Punyan and the Columbias' club flag flew from the low stack of the Anita.

The Start.

Down they came for the imaginary line drawn between the Electra and Buoy 18, both carrying exactly the same sail—mainsail, club topsail, forestaysail, jib, and jib topsail. Capt. Barr at the Thistle's long tiller shot the cutter over the line first at 12 H.0S. the Volunteer following, under Capt. Haff's skilful guidance, at 12 H.1S.

"One min. and 20½ secs. between them at the start; how much at the finish?" queried an observant yachtsman.

It was impossible to see the Narrows for the fleet of steamers and sailing craft, but the yachts worked down against the flood tide decently, and it soon became evident that the Capt. Haff and "Joe" Ellsworth combination was going to be a hard one to beat.

At 12.39 the Thistle tacks to the starboard, and a minute later the Volunteer goes about, the cutter following suit at once to try and prevent Capt. Haff from creaming his bow, for the white sloop had been catching her from the start. Another minute and the sheet went up. "We've got her," on board the Electra as both tacked again, and the Volunteer was seen to be on the cutter's weather quarter, and so it was. Capt. Joe Ellsworth had "out-generalled" Capt. Barr in the first ten minutes. On they went for the Narrows, the leach of the cutter's mainsail flapping all the time, and in spite of all the "pinching" her skipper could do, the Volunteer steadily drew away from her, both running a gauntlet of steamboats that persistently remained in the channel in spite of the repeated warnings from the Electra and the police boat patrol. Four tacks brings them both out clear of the Narrows, the Volunteer passing Fort Lafayette at 1 p.m. and the Thistle at 1.05. A gun from the Fort beamed out their salute as they passed.

The Volunteer's Steady Lead.

Off Long Island Point at 1.20 the Volunteer had gained a lead of fully a mile. The wind was light and variable, and at times the Thistle lay becalmed, while the Boston sloop forged ahead. Capt. Haff seeming to steer her where the puff came oftenest. At 1.30 she goes about and in 4 mins. round she comes again holding on to this tack (starboard) for 22 mins. before coming around again. Then she was over a mile in the lead. The breeze had swung around to the southeast and was "freeing up" a little. Like an arrow she slipped away from buoy 16, tailing around it amid a pandemonium of steam whistles and cheers at 2.21.02.

The time taken at buoy 8½, southwest spit, was:

Volunteer	2.57.45
Thistle	3.16.58

From here to the lightship the Volunteer walked right along at a rattling gait, increasing her lead till, when off buoy 4, she was two miles ahead.

The Thistle Handicapped.

The Thistle was badly handicapped in the reach by the backwash from the steamers, which was rendered doubly bad by the flood tide setting against her. The lightship was turned as follows:

Volunteer	3.43.10
Thistle	4.01.15

With booms to starboard the Volunteer came swiftly back to the Hook, and had almost reached the buoy before her rival had rounded the lightship. It was a procession, not a race. The Volunteer rounded buoy 8½ at 4.35.30, gybed to port and set her spinnaker to starboard amid another deafening cheer.

Accompanied by nearly 500 vessels, the Boston sloop sweeps majestically down to the finish at buoy 15 2 between two long lines of them, reaching from buoy 10 to the Narrows.

The Finish.

The finish was a sight that all who saw it will remember for years, and the greeting given General Paine, his "skipper" and his crew was a hearty one indeed.

The following table shows actual results:

	Start.	Finish	Elapsed Time.	Corrected Time.
Volunteer	12.34.39½	2.28.39½	4.53.15	4.53.15
Thistle	12.36.03	5.05.26½	5.12.49½	5.12.49½

Thus the Volunteer wins by 19 mins. 23½ secs. corrected time, she allowing the Thistle 5 seconds.

After the Race.

Mr. Jas. Bell, principal owner of Thistle, said he was not at all satisfied with the result. The Thistle, he declared, had never moved so slowly through the water. He was of opinion that there was something wrong with the cutter's bottom and she would be hauled out of the water to-morrow with a view towards finding out what it was. He did not consider that a race had been sailed for that reason and because the wind was on shifting. The Volunteer had the advantage of a breeze that the Thistle did not feel; besides excursion boats washed the Thistle to a damaging extent.

Capt. Barr of the Thistle held the same views. He said that some of the crew had been notified anonymously that the cutter's bottom had been "doctored" and the truth would be ascertained before Thursday, the day of the next race. Capt. Barr said he had sailed the Thistle every time she had been out, and he never knew her to move so badly on the wind.

Gen. Paine and Mr. Edward Burgess of the Volunteer took the victory quietly, but very happily. Capt. Haff said the reason that the Thistle sailed so much faster before the start was that the Volunteer did not have her centre board down, on account of shallow water inside of buoy 18.

MOURNING ON THE CLYDE.

Scotch Admirers of the Thistle Put Up Their Money on Her.

LONDON, Sept. 27.—The yacht race at New York excited little interest in London except in the city proper, where large crowds assembled around the bulletin boards at the cable offices early in the evening, dispersing, however, before the result was announced. Yachting men were interested but the public paid no special attention to the race.

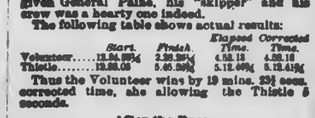
On the Clyde, where the people were keenly interested in the event, betting was in favor of the Thistle. Cable despatches were published in the afternoon saying that the Thistle would certainly win. A letter from a member of the Thistle crew was quoted in which the writer says: "The Americans may bounce about the Volunteer, but their yachtsmen know she has no chance." The victory of the Volunteer surprised clubmen who were waiting news of the race. The result will be a bitter disappointment to Scotch yachtsmen.

London Press Opinions.

The Post believes that if the wind will blow strong enough the Thistle will yet win.

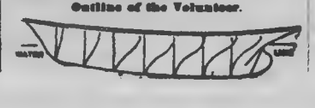
The Telegraph says: "It cannot be denied that America has so far maintained the yachting supremacy which she won thirty-six years ago. This cannot be attributed to any fault in the handling of the Thistle, which was admirably sailed. British yachtsmen need not lose heart.

Outline of the Thistle.



The above sketch will give some idea of the Scotch cutter's appearance. She differs quite as much in model from the ordinary cutter as does the Volunteer from the usual American sloop—the Priscilla, for instance. The greatest draft is where the stern post meets the keel, and from that point the keel is carried with a slight rise to almost amidships, and then rises at a greater angle until it merges into the curve of the bow. The forefoot is cut away to a surprising extent; this was the feature which provoked the most adverse criticism. It was said that in a jump of a sea when she lifted her bow would prevent her from being held up to windward work. To the ordinary observer it is a dangerous looking bow, as sharp as the nose of a sword-fish—a bow that will slice through the water without making much fuss about it. In the Genesta and Galatea and other well-known cutters the greatest draft is usually a little aft of amidships, and from thence the keel rounds up to the sternpost, producing what is usually called the "rocker keel," which has been adopted with some modification in most of the recently constructed sloops. But continuing the downward tendency of the keel to the stern post shows another Watsonian departure. The great stretch of keel, triangular shaped, right aft, looks like a huge fin or stationary centreboard. She revolves on it as would an inverted pyramid on its point. The bilge is about a foot below the waterline. It is almost impossible to tell where the garboards end and the keel begins, so beautifully and imperceptibly do they merge throughout. Her lines are exceedingly graceful. There are no sharp turns or angles about her. The Thistle was built for a syndicate of Scotch yachtsmen headed by Mr. Bell, by D. & W. Henderson of Glasgow, Scotland, from designs by Mr. G. L. Watson.

Outline of the Volunteer.



The Volunteer is called a sloop chiefly by three reasons—she is broad in proportion to her length and depth, she has a centreboard, and she has only one mast. Sloops have been built without centreboards, but in these days it is customary to call a one-masted yacht that has a deep keel extending down from her hull a cutter. The centreboard is simply a sheet of metal or wood of about the proportions of a sealed envelope that is swung vertically through the keel on a pivot in its forward lower corner, so that the lower after corner drops down into the water beneath the keel until a triangle about half as large as the board is exposed like a fin. This fin may now be called the distinctive feature of the sloop, for, while the sloop is still wider than the cutter, the latest idea of what a cutter should be gives her a breadth but very little less than what the latest ideas say a sloop must have.

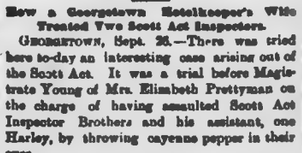
Proportions of the Yachts.

There is, of course, a place where, for sailing in all sorts of racing weather, the widening of cutters and the narrowing of sloops must ensure a proportion between length and breadth that is just right. Most Americans think the Volunteer is pretty nearly right; a few Americans and most all Britishers think the Thistle shows the right proportions. These proportions in the two boats are as follows:

	Load Line Length	Breadth.	Draught of Water
Volunteer	85.00	23.16	19.82
Thistle	86.00	23.70	14.25

The result of this week's races will undoubtedly indicate, though not wholly demonstrate, which model has the better proportions. There are other features of the models aside from length, breadth and draught on which the victory will have an important bearing.

The Midship Sections.



One of these features is the rea of the midship section. This term midship section is not a good one, because the section meant is the section of greatest area, and it is located in the Volunteer 60 per cent. of her length from her stem. It is not pretended that a sketch two inches wide printed on wet paper in a fast press can be a strictly accurate reproduction of the midship section of a boat 90 feet or more wide, but the midship sections of the Thistle and the Volunteer printed here with serve to illustrate one difference between the two boats. The greater area of the Thistle's below the water is apparent at a glance. Just what the difference in the areas is cannot be told because Mr. Watson will not allow any one to measure his drawings. The Volunteer's area is 92 square feet; a rule-of-thumb combination of width and draught gives the Thistle's at about 115.5. It is probably more than this. Another important difference between the hulls of the two boats will be noticed by an inspection of the two sheer plans. The keel of the Volunteer is a pretty good model of the runner of a well built skate. The keel of the Thistle sweeps up from the heel of the stern post singularly like the sweep of the keel of the famous old schooner America.

THE GRAVENHURST DISASTER.

A Town That is Blessed With Business Men of Pluck and Energy.

GRAVENHURST, Sept. 27.—Fortunately for Gravenhurst the business men are plucky and full of energy and are determined to make the very best of their great misfortune. Already several buildings are in course of erection, and one or two stores have been opened out where a limited stock of necessaries can be obtained. Temporary butchershops have been improvised The bakers, so far, have not been able to fully meet the requirements. Bread is being sent from Orillia and elsewhere. There is still much suffering and privation. The people have all been provided with homes by the process known as doubling up. All are cheery and hopeful. The Relief Committee are doing good work. Strangers are entertained at private dwellings and made as comfortable as possible. The insurance adjusters are now busy settling for losses.

There is work for months for the Relief Committee to arrange matters for the winter, and much more assistance will be required. A generous supply of provisions has been received from Bracebridge and Orillia.

The Bracebridge Fire Brigade were first on the ground, and with the Barrie Brigade are deserving of special mention for their prompt response, and the people of Gravenhurst are loud in their praises.

The following is an incomplete list of the donations received: Longford Mills, $102.20; the Ontario Government, $1000; Toronto, $1000; J. M. Dellar, Midland, $100; Penetanguishene, $100; Hamilton, $250; A. Tait, Orillia, $50; Orillia Council, $100; Citizens of Orillia, $154; T. P. Hayes, Barrie, $10; Bracebridge, $100; H. H. Cook, Toronto, $200; A. M. Dodge, Waubaushene, $100; A. P. Cockburn, Gravenhurst, $50; John Brophy, Gravenhurst, $10; John Whyte & Son, Mitchell, $50; Huntsville, $100; R. finers Oil Company, Petrolea, one car refined oil; Lucas Park & Co., Hamilton, $50; G. Lamphrey, Guelph, $10.

PEPPER IN HIS EYES.

How a Georgetown Hotelkeeper's Wife Treated Two Scott Act Inspectors.

GEORGETOWN, Sept. 26.—There was tried here to-day an interesting case arising out of the Scott Act. It was a trial before Magistrate Young of Mrs. Elizabeth Prettyman on the charge of having assaulted Scott Act Inspector Brothers and his assistant, one Harley, by throwing cayenne pepper in their eyes.

The husband of Mrs. Prettyman had been convicted of illegal liquor selling and fined $50 and costs. He refused to pay, and a distress warrant being placed in the hands of Brothers and Harley for execution it was found that the property and chattels of Prettyman were in the name of his wife. Brothers and Harley, both county constables, visited the house and entered only to find Mrs. Prettyman holding a bedroom door shut from the outside. Brothers grabbed her and pulled her away, and she says slapped her face. The inspector entered the bedroom and found not Prettyman but a trap door.

Mrs. Prettyman armed herself with a handful of cayenne pepper, and as he advanced towards her threw it into his eyes, while Harley tried to hold her back. Brothers went to a creek and washed his eyes. Then, as given in evidence, the men produced handcuffs and proceeded to take Mrs. Prettyman to jail. Harley, it was sworn, struck at her, whereupon she picked up a baking pan and hit at him with it. Then she ran away and came back with her fist closed. The invaders, thinking that she had more cayenne pepper, ran away.

In the trial Mr. Shelton of Georgetown appeared for the prosecution and Mr. N. Murphy of Toronto for the defence. Mr. Murphy contended that the constables were trespassers, and that violence to Mrs. Prettyman had been shown, and that Brothers' taking hold of her was an assault, and that she only defended herself. Judgment was reserved.

At Acton on Saturday next Brothers and Harley will be tried on the charge of having assaulted Mrs. Prettyman.

It will be remembered that recently Magistrate Young and Inspector Brothers were convicted of assault upon Mr. Murphy by the action of the former in ordering his removal from the court during the trial of a Scott Act case. Well, when Magistrate Young entered court yesterday he shook hands with Mr. Murphy. When Mr. Murphy left court he shook hands with Magistrate Young. And thus the breach has been healed.

REACHING FOR O'BRIEN.

THE LAW'S LONG ARM MAY SOON LAY HOLD UPON HIM.

Mr. Balfour Asks the Crown Officials Whether a Man, Convicted of Sedition and Bailed on Appeal, Cannot be Jailed if he Repeats the Offence.

LONDON, Sept. 27.—Intense irritation is manifested in Conservative and dissident circles over the alleged laxity of the Irish executive in failing to follow up the proclamations against the branches of the league. A number of Unionist members of the House of Commons sent representations to Mr. Balfour that he should not permit Mr. O'Brien to continue his incendiary speeches.

Mr. Balfour referred to the Crown counsel the question whether or not procedure under the Summary Jurisdiction Act can prevent a convicted person repeating an offence during a provisional release on bail. If the opinion of the counsel allows the Government the slightest footing the arrest of Mr. O'Brien will follow, and an attempt will be made to imprison him until the appeal from the sentence pronounced at Mitchelstown has been settled at the Cork session on Oct. 31.

The Unionists are also urging the prosecution of the English members of Parliament who have been present at proclaimed meetings, it being alleged that such members are liable under the Riot Act to the charge of felony, and may be compelled to forfeit their seats in Parliament for attending unlawful assemblies. These threats do not deter the members in question, several of whom have promised to speak at meetings of suppressed branches of the league on Sunday next.

Evictions to be Resumed.

DUBLIN, Sept. 27.—The eviction campaign on the Ponsonby estate opens to-morrow. Mr. O'Brien, Mr. Labouchere and other members of Parliament will be present to witness the evictions.

Unionists Meet Mr. Russell.

LONDON, Sept. 27.—Mr. Russell, M.P. for South Tyrone, attempted to address a Unionist meeting at Plymouth last evening, but there was so much opposition and hissing and hooting that he could not proceed. On leaving the meeting hall he was hustled and assaulted.

An Eviction Near Limerick.

LIMERICK, Sept. 27.—Military and police were present to-day at the eviction of Michael Lane and family from their holding on Col. Meadows' estate. The Lanes made a stubborn resistance, and Mrs. Lane, with a poker, split open the skull of Inspector Riley. Mrs. Lane, her husband and brother were arrested. The two latter were beaten terribly.

Rails Torn Up and Telegraph Wires Cut.

CORK, Sept. 27.—A number of the rails on the railway between Cork and Youghal, which the police must traverse in order to reach the Ponsonby estates for the purpose of aiding in evictions to be executed there to-day, were torn up last night. The telegraph wires were also cut. Capt. Plunkett has arrived at Youghal to superintend the evictions.

A League Meeting at Dublin.

DUBLIN, Sept. 27.—At the fortnightly meeting of the Irish National League in this city to-day many Englishmen were enrolled as members. Lord Mayor Sullivan, who presided at the meeting, declared that the Government's attempt to suppress the league was a dismal failure. All the affairs of the organization were in a prosperous condition.

GRAPES AND INSECT POWDER.

Johannah Sullivan Throws Herself Into the Bay—A Young Woman's Escapade.

TORONTO, Sept. 28.

Not many days since a woman named Roach, about 50 years of age, took apartments at the house of Mrs. Elizabeth Halliday, 67 Ontario-street. She stated she had just left the steamer Hastings, on which boat she had been employed as stewardess. During her stay at Mrs. Halliday's she evinced a marked partiality for grapes, and on Monday evening provided a supply of her favorite fruit.

Mrs. Roach was an early riser. The fact that she did not put in an appearance by noon yesterday induced Mrs. Halliday to go to the room of her lodger with the object of raising her up. Having knocked repeatedly at the door and receiving no reply, Mrs. Halliday forced open the door and found the woman lying a corpse in bed. Beside the body was a package of insect powder nearly empty, and other indications proved that the deceased had been very sick during the night.

The police were at once communicated with, and they summoned Coroner Duncan. Dr. Duncan was convinced that it was a clear case of poisoning and did not deem an inquest necessary. The woman's effects are not of more than a few dollars in value. It is not known whether or not she has any relatives.

A young woman named Johannah Sullivan, aged about 26 years, was arrested on the Esplanade yesterday evening in an attempt to commit suicide. She had previously thrown herself on the railway tracks, as a train was being shunted, but was rescued by some persons who sent her in the direction of her home, which she stated to be in a notorious house on Adelaide-street, kept by a Mrs. Ryan. Some time after, however, she became very violent, and turned southwards, towards the Bay, with the expressed intention of committing suicide, when she was arrested by Fireman McNutt and conveyed to No. 4 Station.

On the information of Mr. George Fogg, tinware merchant, 193 King-street east, a woman whose name was set down to be Larry Cornell, alias Ince, alias Borden, but who gives her name as Mrs. J. S. Rebstock, was yesterday evening arrested at No. 244 Carlton-street on a charge of having forced her way into Mr. Fogg's establishment and committed malicious injury. She was arrested by Acting Detective Alf. Cuddy and conveyed to No. 4 station, but was bailed out to appear at Police Court this morning.

There was quite an assemblage of spectators at Osgoode Hall yesterday when the case of Meredith v. Taylor came up before Chief Justice Wilson. Mr. Marsh appeared for Mr. Henry Taylor of London, the motion being to set aside the capias on which Taylor was arrested and committed to the county jail. Mr. Shepley, for Mr. Meredith rose, and, to the blank astonishment of everybody, announced that the other side were prepared to let the motion drop. Mr. Marsh said that such was the case, and consented to costs against his client.

It is understood that the enquiry into the case and cross-examination of the plaintiff convinced Mr. Marsh that his motion stood no chance of success and he, therefore, waived argument. Mr. Henry Taylor will, therefore, continue to use his present apartment in the jail of London for the time being.

A Symptom of the Grave Situation.

PARIS, Sept. 27.—The papers to-day, commenting on the Raon-ler-Plaine incident, agree that it is less grave intrinsically than the situation of which the occurrence is a symptom. They expressed themselves as not doubting that Germany will give satisfaction.

THE PETERBORO' CENTRAL.

An Exhibition Worthy of the Town and County.

Luminous Prospects for a Successful Exhibition this year—Special Attractions Provided by the Directors—An Attractive Prize List and Excellent Programme of Events.

Tuesday, Wednesday, Thursday and Friday of next week will be eventful days for Peterborough, town and county. Once again has the season for fall agricultural exhibitions arrived, bringing in its train the biggest affair of the kind in the Midland district, the Peterborough Central Exhibition. Previous successes have determined the directors this year to excel all former ones in every point of view.

The importance of central agricultural exhibitions is growing and becoming more widely recognized year by year. The inclination of agricultural shows seems to be towards concentration, by which means the interests of the people at large can best be served. This summer a meeting of central exhibition men was held in Toronto, to consider the advisability of petitioning the government to abolish township fair grants and appropriate the money for the benefit of central fairs. Nothing definite was done, but this shows that the evident trend of public opinion is in that direction. The success and usefulness of central exhibitions is strikingly demonstrated in the Peterborough fair. It draws crowds not only from the uttermost portions of the country, but from outside constituencies as well. They come not only to be instructed and take in the evidences of progress in art and agriculture, but also for relaxation and amusement. All classes of people, agricultural and civic, home residents and foreigners, unite in shewing their appreciation of the efforts of the directors of the Agricultural Society by sending exhibits and giving their personal attendance. During the exhibition the town is crowded with people, drawn, not only by the well-known quality of the displays, but by the numerous outside attractions, secured by the enterprise of the directors.

THIS YEAR'S EXHIBITION,

it is expected, will eclipse all former ones. A number of improvements have been made to the already spacious and comfortable premises, and new features added to the programme, which cannot fail to attract. A large poultry shed, 15x250 feet, has been erected on the north side of the grounds, between the two gates—a needed improvement which places the society's grounds in excellent condition. Besides, a new office has been erected for the Superintendent, Mr. Wm. Collins, near the Secretary's apartments, and the entire premises repaired where necessary.

The entries up to date exceed those made at the same time last season. Everything points to a most successful exhibition, and only the good offices of the weather clerk are needed to fulfil these prospects.

Arrangements have been made with all railroads to run cheap excursions during the Exhibition; also with Calcutt's line of steamers.

The special attractions of this year's exhibition have been referred to in the EXAMINER before, and the energy and enterprise of the management need no further commendation. Instead of enumerating each feature singly, it would be better to publish the official programme, which is done below.

Tuesday, Oct. 4.

Entries in all classes (except animals and implements), are to be on the ground by 2 p. m., in order that the judges may complete their work in the departments on this day.

Wednesday, October 5.

CONSOLATION PURSE.—Open to all horses which failed to win a prize in the foregoing special events, speed to be considered. Prize, a Cutter presented by Messrs. Fitzgerald & Stanger, Value $30, the winner to pay $10 to the society.

SPECIAL.—Grand Match Bicycle Race, 5 miles, between Mr. Cooper, of Belleville, and Mr. Greatrix, of Peterborough.

Among the probabilities is a trot between a moose and Lafayette Franklin Carpenters celebrated trotter.

THE PRIZE LIST

is large and comprehensive, some $3,000 being devoted to this department. The prizes in all the classes are worth competing for. Copies of the list can be secured from any of the officers or directors of the Association. For any information parties can apply to the Superintendent, or the Secretary, Mr. D. D. Galletly. All letters to the Superintendent may be addressed care of the Secretary, at Peterborough. All entries can be made with the Secretary at Mr. W. H. Hill's Insurance Office, (Crown Timber Office) any time during the day up till the 1st of October, 1887. Miss Galletly will be present at the Secretary's office to take entries of ladies' work.

Improvements have been made on the grounds during the summer for the better accommodation of cattle and horses, under the supervision of the energetic superintendent.

In the exhibition building everything has been prepared for the coming fair. Committees of management for each department, outside as well as inside, have been appointed, whose duty it will be to look after their respective classes. The names of these gentlemen are:

HORSES.—Jos. Tully, Wm. M. Fair and Geo. W. Fitzgerald.

CATTLE.—H. Davidson, Jos. Redmond and John Garbutt.

SHEEP AND PIGS.—R. Vance, Geo. W. Fitzgerald and Wm. Collins.

POULTRY.—John McClelland, Geo. W. Fitzgerald and H. Davidson.

AGRICULTURAL PRODUCE AND GARDEN VEGETABLES.—Jas. Stevenson, Jos. Tully and H. Davidson.

DAIRY AND HORTICULTURAL PRODUCTS.—J. Stevenson, J. Garbutt and John McClelland.

GENERAL SUPERINTENDENT.—William Collins, Esq.

Upon the Secretary, Mr. D. D. Galletly, falls a major portion of the labor in connection with the exhibition. He will be found at all times obliging and courteous, and ready to furnish information to enquiring parties.

The lady superintendent of the exhibition is Mrs. McKimmon, with Miss Galletly as assistant.

OTHER FEATURES.

It is confidently expected the Minister of Agriculture, Hon. John Carling, will be present and formally open the exhibition on Tuesday, the 4th.

The Peterborough Fire Brigade Band will be in attendance each day.

A final meeting of the directors will be held next Saturday to complete arrangements.

The grounds will be well supplied with refreshment booths and eating houses.

The race course is in splendid condition, and some fine exhibitions of speed are expected. The munificent prizes will attract a large field.

THE LABOR CONGRESS.

A Large Representation of Labor Bodies at the Hamilton Convention.

HAMILTON, Sept. 27.—The third annual session of the Canadian Trades and Labor Congress opened this morning in the Central Music Hall on King-street east. Through some misunderstanding in regard to the hour of opening there were only about forty delegates, so it was decided to simply formally open the congress and then adjourn until 2 p.m.

Upon resuming at 2 o'clock the committee appointed for that purpose reported having examined the credentials of the following delegates:

James Smith, L.A. 3558, London; John Pullan, L.A. 3933, Merriton; G. A. Jenkinson, 5798 Thorold; M. O'Halloran, 2932, Toronto; Geo. T. Other Dealers wonder how Gough can Under sell them. The explanation is easy, he is one of the Largest Dealers in Canada and pays cash for everything. He is thus in a position to take advantage of the markets and secure Great Snaps in the way of Bargains.

No man in his sober senses will deny that a good Bankrupt Stock bought at 40 or 50 cents on the dollar is not cheaper than the first cost of manufacture, and therefore were Gough to say he could sell Goods cheaper in many instances than even the largest Wholesale Firms, he could prove it.

I ask a fair thinking public, then, if Gough has to stretch his conscience very much when he states that the unfortunate dealer who is under the thumb of the Wholesale Houses actually cannot buy as cheap as Gough can sell.

A visit to his Great Clothing Emporium either in Toronto or Peterborough will satisfy the most skeptical that this is the absolute truth. He has come to Peterborough to stay and is bound to preserve the Splendid Reputation he has already acquired for durable, Stylish and Well Fitting Garments at prices at least 25 per cent below those of other dealers. Let no man, then, go ragged or shabby, no matter how poor he may be, but let him go straight to the People's Friend.

Our trade Saturday far exceeded my expectation. Overcoats and Fall Suits moving lively—they are so cheap people cannot resist buying from

BASEBALL YESTERDAY.

TORONTO, Sept. 28.

Toronto closed the championship season on the home grounds yesterday in a game with Scranton, and the result effectively relegates the "coal heavers" to the last place in the pennant race. There were frequent brilliant fielding plays by both teams; Trafley and McCormack captured several difficult hits, and Oberlander and Burke of the visiting team likewise covered their outfield positions acceptably. Slattery played first in the absence of Faats, and Trafley looked after the left field garden. It was generally understood that the home team was not over-anxious to down the "coal heavers," but they got there all the same, as Baker's delivery was too puzzling to be batted freely. Score:

PLUNGED THROUGH A TRESTLE

A Fearful Occurrence Yesterday on a Railway in Tennessee.

JACKSON, Tenn., Sept. 27.—One of the worst wrecks which ever happened on the Mobile and Ohio Railway occurred about two miles south of here this morning. An entire passenger train, except the engine, was hurled from a trestle while running forty-five miles an hour, and over thirty persons were injured; though by what seems almost a miracle none were killed. The coaches were thrown fifty feet from the track and some turned completely over. The scene was almost indescribable, women and children screaming for help and release from the closed cars. All were, however, rescued and medical attention given.

Dr. J. A. Croak of Jackson was on board and was slightly injured. Baggagemaster Ira Perkins, Jackson, is injured internally and has been unconscious all day. His recovery is doubtful. J. B. Jones, mail clerk, Jackson, right shoulder torn loose and otherwise injured; H. S. Depew, general traffic manager, hip and head cut; M. H. Meeks and wife and child, Jackson, slight injuries; Stephen Roseburg, Trenton, Mo., badly hurt; wife, spinal injuries; three children, unhurt; M. D. Johnston, Coyce, Ky., badly cut and bruised; Detective D. Faren, Mobile, Ala., bruised; W. E. Neal, Birmingham, Ala., badly hurt; wife, slightly injured; J. W. Dunning, express messenger, bruised and cut.

Many more were slightly injured.

One hundred yards of track were torn up and the trestle torn down. It will be late to-morrow before the running of trains will be resumed. The breaking of a truck and a bad track are the causes given for the wreck.

They Met in Pleasant Valley.

HOLBROOK, Ariz., Sept. 27.—Sheriff Melvenon and party met John Graham and Charles Blevins, outlaws, in Pleasant Valley last Thursday. The sheriff ordered them to surrender. They refused, and both were killed. The sheriff says the Tonto Basin must be cleared of desperadoes.

The Anarchists' Petition.

CHICAGO, Sept. 27.—Up to to-day the returns on the petitions for clemency to the condemned Anarchists, as far as they have been returned to the secretary of the Amnesty Association, show about 15,000 signatures. On the list are the names of two prominent Jewish divines.

In Brief, And To The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember — No happiness without health. Get Green's August Flower brings healtand h happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

A Lucky Escape.

"For six years I suffered with my throat and enlarged tonsils. I was very weak; I doctored four years and had advice from three doctors; they said I would have to undergo an operation. I tried B.B.B. instead. One bottle cured me." M.A. Squelch, Regina, Ont. 2w36d

To Avoid Baldness or Gray Hair.

Use Dr. Dorenwend's Great German Hair Magic. It keeps the scalp clean and free from Dandruff, and promotes the growth of the hair. It prevents premature grayness and stops all falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and cause a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by J. D. Tully and all druggists.

Restored.

Mrs. J. M. Phalen, of Sydney Mines, N.S., had chronic rheumatism for two years' and got no relief until she tried Burdock Blood Bitters. Two bottles cured her. "I was like a skeleton," says she, "before using B. B.B., now thanks to the discovery of such a valuable remedy, I am entirely restored to health." 2w36d

"What is McGregor's Speedy Cure for"?

It is for Dyspepsia, Liver Complaint, Indigestion, Biliousness, and it is the finest blood purifier in the known world to-day.

"Does it give satisfaction?"

We cannot point to one instance where it did not.

"Where does it have the largest sale?"

Right in the city of Hamilton, where it is manufactured, there has been over one thousand dollars' worth sold in the last year retail, and the great majority of the sales are by one recommending it to another. For sale at 50c. and $1.00 per bottle by John McKee, Druggist eodw35

Indispensible.

"I have used Dr. Fowler's Extract of Wild Strawberry for summer complaints, and have given it to my friends. It gives instant relief when all other remedies fail. I would not be without it in my house." Mrs. T. Boil, Weidman, Ont. 2w38d

I have been bothered with catarrh for about twenty years. I had lost my sense of smell entirely for the last fifteen years, and I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did. My sense of smell is partly restored; it seems to be improving all the time. I think there is nothing like Ely's Cream Balm for Catarrh.—Mrs. E. E. Grimes, Rendrill, Ohio. eodw39

Unknown.

There is no remedy known to medicinal science that can excel Dr. Fowler's Extract of Wild Strawberry as a cure for cholera morbus, diarrhœa, dysentery or any form of summer complaint afflicting children or adults. 2w38

Ladies troubled with Pimples, Blotches, Rough Hands or Face, or Sores of any description, should use McGregor & Parke's Carbolic Cerate. HEATING
By Hot Water and Steam.

We desire to call special attention to their splendid Hot Water and Steam Boilers which are acknowledged to have no superior on the Continent of America. We have received orders from Ottawa and other places to replace other boilers with ours. This speaks for itself. McAndrew & Noble are prepared to back their own boilers against these or any other maker either in or out of Peterborough, and if not superior in every respect they will be removed without one cent of expense. We claim, and it has been acknowledged, that we have the best boiler for heating purposes in the world to-day; all we want is a fair test.

WHAT THE PEOPLE FROM FAR DISTANCES SAY
REGARDING OUR OWN MANUFACTURE.

Gratifying, it is indeed, to know that our efforts to serve the public to our best ability are not only recognized, but demonstrated by abundance of letters, of which the following are samples:—

CHICAGO, Illinois, Dec. 16, 1886.

Messrs. Wm. Lech & Sons, Peterborough:—
GENTLEMEN,—Enclosed, please find N. Y. Exchange for One Hundred & Fifty Dollars in payment of enclosed acc't which please receipt and return. I am glad to say that Mrs. Stewart is very much pleased with the garment, and hope that it is as good as it looks. Wishing you a Merry Christmas and a Happy and Prosperous New Year. I am &c., A. STEWART.

ONTARIO REFORMATORY FOR BOYS, PENETANGUISHENE, Feb. 9, 1887.

DEAR MR. LECH,—The Coat and Fare for my daughter, duly reached me last week and I am perfectly satisfied with them, indeed, they reflect the highest credit on your Establishment and thorough good taste and judgment in your selection of the skins used. I now enclose you my cheque on the Bank of Montreal for the sum of $120.00 amount of indebtness to you as per account rendered. Kindly sign receipt and return it. The Coat fits me beautifully, but requires another fastening near the throat, please send me one.
WM. LECH, PETERBOROUGH. I am Yours faithfully, WILLIAM P. BAND.

But with regret we must acknowledge that instances come to our notice, which by book we have disproved, where goods of us received credit as having been bought in some larger city. The motive of this action being, no doubt, to make the articles in question appear more valuable. Such action, although not creditable, is quite useless, as we claim to manufacture only such articles in Fur Goods as will uphold that reputation of which we feel justly proud.

Foreign Missions.

An interesting meeting is to be held in the Young Men's Christian Association Rooms on Thursday evening, at 8 o'clock, to be addressed by Messrs. Saunders and Redfern, two young men who go out soon to China in connection with the China Inland Mission. All are invited to attend.

The Young People.

At a meeting of the George street Methodist Church Young People's Association held Monday evening, Mr. Geo. S. Bean was elected President in place of Mr. J. W. Flavelle, who has removed to Toronto. All the other officers were re-elected and the vacancies on committees filled up. Another meeting will be held October 10th.

T.W.C.T.U.

Regular meeting held on Monday evening, the Vice-President, Miss Keele, in the chair. After the usual routine, Miss E. Stenson's name was added to the executive committee, and the resignation of Miss Ellsworth as corresponding secretary accepted. The question of sending a delegate to the Napanee convention was discussed. It was decided to enter upon the study of Longfellow's poems at the next meeting, Monday evening, Oct. 10th.

Our Ex-Chief.

The other night a patrolman of the Toronto Protective Police and Fire Patrol, of which Capt. W. H. Cooper, late Chief of Police here, is Superintendent, was successful in bringing to justice a thief caught in his territory. The *Mail* says:—"The patrol force, since Capt. Cooper's appointment as superintendent, have gained considerably in efficiency, and have secured the utmost confidence of the subscribers."

Married at St. Michael's.

Belleville *Intelligencer*:—Mr Thomas L. Bayear, of Peterborough, late shoe dealer in this city, was married at 5 a.m., to-day to Miss Eliza Slavin, at St. Michael's church. Mr. Joseph Folts assisted the groom and Miss Page, niece to the groom, assisted the bride. Rev. Mgr. Farelly officiated. The party left on the 7 o'clock train for Peterborough, followed by the best wishes of a large circle of friends.

Wide-awake buyers! Have you seen Turnbull's Fine French Dress Goods, being sold at prices paid elsewhere for coarse, unsightly stuff.

Outside Students.

A number of students are registered to enter the Peterborough Business College on the first of next month, from places outside of Peterborough. Two young men from Ottawa, formerly students with Mr. Sawyer, have arranged to come here to receive their business and short-hand training, October 1st. It speaks well for Mr. Sawyer as a teacher and a man to see former students filing in in this way from such a centre as Ottawa. This is likely the result of Mr. Sawyer having recently severed his connection with the Ottawa College.

Children Cry for Pitcher's Castoria.

A Trip to the Back Country.

Mr. J. R. Stratton returned home this morning from the back country, and says that the loss from timber burned by forest fires will be enormous. The whole northern country seems to be on fire. It is impossible to see farther than the length of a horse on account of the smoke. Thousands and thousands of acres are in flames. New bridges built this summer have been burned, as well as fences; and settlers are kept busy watching their farm buildings, many of which, together with farm crops, have been destroyed. In the eastern division of Harvey the bridges have been destroyed on the road leading to Cavendish, and it is closed to travel. At Bobcaygeon Mr. Stratton met the reeve, Mr. Hicks, who is endeavoring to arrange for the re-building of the bridges and the putting of the road into repair. Petitions have been sent to the Ontario Government asking aid, and if these are complied with, a large extra appropriation for Colonization Roads will be required. Mr. Stratton also went over the continuation of the road being built to connect a portion of Cavendish with the Buckhorn road. He reports the work as being excellently done.

Terrible Forest Fires.

The ravages of forest fires this year are something frightful. It is more than three months since rain of any account has fallen and everything is as dry as good advice—the least spark is enough to start a blaze, and a blaze once started is hard to put out. Millions of acres of valuable timber have been destroyed, and there is likely to be a scarcity of lumber. But this need not dishearten anybody who wants furniture. Belleghem, the Famous Furniture Factor, with a forethought that accounts for his success has laid in a huge stock of lumber that will tide Him over a season of scarcity. This fact combined with the fact that he has a splendid steam drying kiln explains why all furniture made by him is of superior quality. Nothing but thoroughly seasoned lumber can make good furniture. Therefore if you want the best furniture made be sure and call at Belleghem's, the furniture shop furthest west on Hunter street.

Salvation Army.

This evening the local corps of the Salvation Army will say farewell to Capt. and Mrs Williamson, who leave to-morrow for Belleville, where they have been stationed. During the period of their command here both the Capt. and his wife have won the love and esteem of every member of the Army and all who have friendly feelings towards the great rescue work, the Captain by his energy and ability as a leader, and Mrs. Williamson by her invariable kindness and earnestness in the cause. The new commandant, Capt Woodgate, late of Toronto (Lippincott), arrives to-morrow evening and will be tendered a hearty welcome. Cadet Robert Clarke also leaves town to-morrow for Colborne, where he goes under the command of Capt. Cooke, late of Lindsay. Several changes are being made in this district among the outposts.

A Serious Accident.

Mr. Archibald Campbell, aged 70, living on the Lakefield road about two miles from town, met with an accident last night which might have terminated fatally. He was standing at the corner of Simcoe and George streets, when a horse, startled by the music of the battalion band returning from parade, became unmanageable, and in its struggles knocked Mr. Campbell down. Concussion of the brain ensued of sufficient extent to render him insensible. He was picked up and taken to the police station. Dr. Kincaid was summoned. Under proper treatment the patient quickly rallied, and was driven home. Mr. Campbell had a narrow escape. At latest reports he was recovering all right.

Baby de Castro.

The Syracuse *Standard*, in its notice of the performance of "Ten Nights in a Bar Room" by Lech & Stevens dramatic company, says:—"There is more than one good characterization in the cast of the old play, but Baby de Castro is so perfect in her pathetic part that she almost throws her elders into the background. The death of little Mary is very prettily carried out. Mr Stevens is a clever comedian and Mr. Kearney is an effective hero." The above company will appear in Bradburn's opera house next Friday evening.

The Town's Troublesome Drain.

The town drain is again blocked. Men were busily engaged yesterday and to-day in excavating, and found where the obstruction lay. It seems that there was great neglect shown in putting down the drain, as there is not a particle of cement between any of the joints. The whole length of drain from the town buildings to the George street sewer, will have to be excavated and the work properly done. A meeting of the property committee was held Tuesday and this step decided on. The work will be begun right away.

Company Shoot.

No. 4 Company, Peterborough Rangers, held their annual rifle match Tuesday. In the forenoon the smoke was so dense that the target could not be seen at over a hundred yards distance. In the afternoon it was better. Only about 25 or 30 men attended the shoot, which will be completed probably this week. The scores were very fair. The other companies will have to "hustle" to beat No. 4 as the crack shots of the town are members of it.

Battalion Parade.

The six companies of the 57th Batt. met for drill last night and had street parade, headed by the band, led by drum-major Graham, who was resplendent in the new uniform presented by Mr. W. A. Sanderson. Nearly all the officers of the battalion were in the parade. An exhibition drill was held on the market square by electric light. It was witnessed by hundreds of people.

Peterborough Protestant Home

Semi-Annual Report of the Secretary—The New Treasurer.

A meeting of the lady directors and friends of the Peterborough Protestant Home was held yesterday afternoon, at which the following admirable and comprehensive report from the Secretary, Mrs. Hall, was presented:—

In giving you this brief resume of the doings of the last six months in this institution little has occured that was not anticipated, to break its monotonous routine. The necessaries of life and clothing have been graciously provided by our Heavenly Father, and the interest and sympathy of friends in its welfare we hope not diminished. The only infectious disease amongst its inmates was diphtheria, which, we have reason to believe, was contracted outside the precincts of the Home, as the patients (the matron and her child) had been absent for a holiday and shortly after their return the malady showed itself. On their removal to the *Nicholl's* Hospital their recovery was speedy and the conduct of the inmates during her absence was all we could desire. Meantime the Home was thoroughly cleansed and disinfected, but for some weeks we held our meetings at Mrs. Bruce Ferguson's (opposite). During the months of July and August these gatherings were but sparsely attended, partly on account of the intense heat, and also because some of the managers sought recuperation in more bracing localities. Two of our aged women have left, finding homes elsewhere; one aged 67, the other 62. Three have been snatched away by the messenger of death. Joseph Newbold, aged 88, died 23rd April; his, an eventful life, being at one time a Major in one of Her Majesty's infantry regiments—a striking example of the uncertainty of wealth and social position. The Freemasons of our town tenderly administered to him during his last illness, and, at their own expense, buried him according to Masonic rites; nor did their kindness end here. His wife, Anne Newbold, died 22nd June, aged 86, and most thoughtfully and generously the Masons paid her funeral expenses. Sarah Hearne, in her 91st year died 18th September, and her remains were taken on the following day to Gore's Landing by her grandchildren. Peter Whittock, a palsied old man of 84, is in an extremely helpless and feeble condition, and is visibly passing away. Our deep gratitude is due John Carnegie, Esq., for the interest he manifested in the Home whilst M. P. P., thereby inducing the Local House to give us a small grant; as yet we have only received $123.52. Also our warm thanks to Mrs. Nichols for the handsome donation of $150, which she sent us 20th September. Mr. Brodie most kindly, some weeks ago, sent a large parcel of remnants and samples of flannel, which will make most comfortable under clothing for our aged ones this winter and dresses for the children. The inspector visited the Home lately and was much pleased with the order, cleanliness and thrift evinced throughout To Mr. Mason, Florist, we are indebted for the pleasing appearance our humble parterre has presented this summer. It is with sincere regret I announce the resignation of our able treasurer, Mrs. Cox. We have all felt her good sense and genuine worth; her presence amongst us has indeed been a true pleasure, and most reluctantly do we part with her. Donations have been acknowledged to the best of our ability, some names being withheld, owing to their objection to appear in print—"Content to fill a little place if God is glorified." We hope before another year that our Home may present a more commodious appearance and that the necessary improvements which the Local Government require may be accomplished. Kind friends still continue to hold religious meetings, and may we not hope that it shall be said of our unobtrusive Home in that Great Day "this man and that woman were spiritually born there," and that the Most High at times delighted to sojourn there?

JANE GIFFORD HALL
Secretary, P.P.H.

It was moved by Mrs. Melville Millar, seconded by Miss Nicholls, that Mrs. Gilmour should be treasurer in place of Mrs. Cox, (should she be willing) not being present on account of family sickness.

Our annual meetings after this will be held on the first Tuesday in October, as we have then to send our yearly returns to the Local Government.

Fun for the City Fathers.

The Councillors Petitioned to Club Together and "Club" the English Poet out.

The following letter read at council meeting Monday evening was the cause of much mirth:—

SEPTEMBER 7TH, 1887.

To James Stevenson, Esq., M.P., and to the Most Worthy Town Councillors of the Town of Peterborough:—

SIRS,—I, the great English poet, J. Dickson Morgan, have done you all the honor of visiting your town—and I am now desirous that you club together and pay my fare right to Wolverhampton, England, as I cannot settle in this country, but want to be back in my native land where I get plenty of boodle! (The fare will be £10 or $40.) I shall therefore—if you cannot provide the money from the public funds—start a subscription list. I do not want to be hard up like I was last year, and I like old England because I can live comfortably there; and am only making a guy of myself here. Address to post office, Peterborough.

I am, yours respectfully,
J. DICKSON MORGAN,
(The most unhappy of poets.)

P.S.—I have got indigestion.

One councillor suggested that the letter be referred to Mr. E. C. Hill for consideration, while another suggestion was that it be handed over to the town pump with power to act. A worthy alderman thought that would have the appearance of throwing cold water on the communication. Councillor McNaughton "sat on" the levity of his fellow-legislators, who, he thought, were acting most undignifiedly in making such proposals. After having a hearty laugh over the matter it was dropped.

DR. OILLE'S SPECULATION.

THE NIAGARA CENTRAL AND THE BURLINGTON CROSSING.

The Matter Before the Railway Committee at Ottawa — The Colchester Election Voided—A Rumor that Mr. Chapleau is to be High Commissioner.

OTTAWA, Sept. 28.—The committee was engaged all the afternoon with the Niagara Central Railway case relative to the proposed bridge across the Burlington Channel at Hamilton. Mayor Mackay, Aldermen Blaicher, Moore, Mackelcan, and P. Mackelcan, Q.C., City Solicitor, appeared on behalf of the City of Hamilton. Dr. Oille, President of the Niagara Central; Mayor Cuff, Aldermen Butler, Greenwood, Grote and McLean, with Mr. Hector Cameron, Q.C., as counsel, appeared for St. Catharines, and the Canadian Pacific Railway was represented by Vice-President VanHorne and Hon. R. M. Wells.

After a very lengthy discussion, which lasted until six o'clock, the committee is understood to have suspended judgment in the case until the correspondence between the Hamilton and Northwestern Railway and the Niagara Central Railway can be laid before the committee, when it will be decided whether or not another bridge across the channel is necessary.

The Colchester Election Voided.

At Truro yesterday, in the Colchester election case, the election of Postmaster-General McLelan was voided on the ground of bribery by agents. The personal charges were entered into and a Mrs. Wetherby swore that Mr. McLelan had promised her a present if her son voted for him. The personal charges were not sustained.

The Quebec Conference.

It is not at all probable that the Dominion Government will accept an invitation to be represented at the Provincial Conference to be held at Quebec, should one be extended. The results of such a convention, if it had any result, would be an effort to amend the terms of Confederation and the British North America Act, and that act provides that amendments to it must be made on resolutions originating in the House of Commons and Provincial Legislatures. It is not, therefore, at all probable that the Dominion Government will participate in any such informal gathering as the conference must be, in the absence of any resolutions in favor of a conference, for the purpose of proposing amendments to the act, being passed by the Dominion and Provincial Legislatures.

There May be Some Truth in the Rumor.

A rumor is current to-night that Hon. Mr. Chapleau will not return to Canada, but will remain in England as High Commissioner. Such a rumor was circulated to a small extent before Mr. Chapleau left for England. There is no doubt of a certain amount of friction between the French members of the Cabinet, and as Mr. Chapleau declines to accept the Lieutenant-Governorship of Quebec it would be something of a relief if he would take the high commissionership. There may be some truth in the rumor, but it lacks confirmation.

To Enter the Mercier Cabinet.

The Free Press to-night gives currency to a rumor that Mr. W. J. Poupore, M.P.P. for Pontiac, has promised to support Mr. Mercier, and that he will probably enter the Cabinet shortly as the representative of the Ottawa district.

On the Labrador Coast.

The Government schooner La Canadienne, commanded by Capt. Walkham, is at present making one of her periodical visits to the scattered population of Labrador. The duties of the commander are manifold. He grants fishery licenses, adjusts the difficulties between the fishermen and finds time to keep an eye on poaching Yankee vessels. On the occasion of his last visit to this inhospitable coast, a couple of months ago, he reported the fishing to be very good.

Rewards for Life-Saving Sailors.

The Department of Marine has presented Mr. Brown, first officer of the American schooner Morgan City, with a valuable binocular glass in recognition of his services in saving the crew of the brig Arthur of Charlottetown, P.E.I.

The Department has also presented Pilot Gosnen of Dunkirk, France, with a gold medal for rescuing the crew of the Republic of Yarmouth.

BLOODMARKS ON THE SOIL

AN INQUIRY INTO THE SHOOTING ON THE FRENCH FRONTIER.

Kauffmann, the Forest Guard, Tells How he Fired Upon the Party of French Sportsmen—He Says the Men Were on German Territory.

BERLIN, Sept. 28.—The public prosecuter at Colman has made an inquiry into the circumstances connected with the shooting affair on the Franco-German frontier, and reports that Kauffmann, the forest guard, in preventing poaching and who did the shooting, saw twelve persons in the pine forest on German territory walking a the direction of the French frontier. Kauffman called three times for the party to halt but no attention was paid to his summons and he fired. Then, seeing guns levelled at him from behind some tree, on the French side of the boundary he retreated from the position. One of the forest guard named Lindof was a witness to the whole affair and corroborates Kauffmann's statement.

Two large blood spots were found on the French side five yards from the frontier, which are taken as evidence that Brignon, the game-beater for the French party, who died from his wounds, dragged himself to the spot after being wounded and lay there for some time.

No blood marks or foot prints were seen on the German side of the frontier, there being a high growth of heather thereabouts. Owing to the density of the undergrowth of bushes and the thickness of the trees, it would have been impossible for Kauffman, from the spot where he fired, to have seen the place where the blood marks were found or to have shot any one there. It is therefore assured by the public prosecution that the shots were fired and took effect on German territory.

The North German Gazette deplores the accident and says: "We must await the result of the judicial inquiry before taking any action in the matter."

The German Account is That the Frenchmen Were the Aggressors.

BERLIN, Sept. 28.—It is stated that the Frenchmen, on Saturday, on the frontier were shot on German soil. This is proved by blood stains on the ground. Two soldiers who accompanied Kauffmann aver that they saw the Frenchmen trespassing on German territory, and shouted to warn them. The Frenchmen paid no heed to their cries and attacked the Kauffmann party. The Germans then fired, all concerned being at the time on German soil.

Misgivings at St. Petersburg.

ST. PETERSBURG, Sept. 28.—Serious misgivings have been caused here in regard to the probable outcome of the shooting of the members of a French hunting party on the Franco-German frontier. It is generally believed that if the German officials were at fault the Government will give ample satisfaction.

THE OTTAWA VALLEY ABLAZE.

From Nearly All Sections of the East Come Reports of Bush Fires.

OTTAWA, Sept. 28.—Ottawa still continues in a cloud of smoke caused by the bush fires, and the sun has not been seen for several days except in a sort of eclipse. The fires on every side of the city are increasing and grave fears are entertained of an even greater disaster than swept over the Ottawa Valley in 1870. Indeed, the damage already done in some sections is estimated as being greater than that year.

Hull had a very narrow escape to-day, the bush fire creeping into the northern end of the city, and but for the new waterworks there is little doubt but that "the City of Rocks" would have been once more swept out of existence.

The firemen and citizens have been fighting the fire all day, and unless a strong wind should spring up the city is safe for the present.

Several small fires are burning in McKay's bush at the back of Rideau Hall, and the people of New Edinburgh are not sleeping comfortably in their beds to-night.

From every quarter come reports of fires, and it may almost be said that the whole Ottawa Valley is more or less on fire wherever there is bush.

BY NO MEANS DESPONDENT.

The Owners of the Scotch Yacht Thistle on Their Defeat.

NEW YORK, Sept. 28.—Mr. Watson, designer of the yacht Thistle, said to-day he had applied at two shipyards for a dry dock, but both were unable to accommodate the Thistle. The general belief in yachting circles is that the Thistle's bottom is all right.

Supt. Dickey of the Brooklyn Dry Dock said to-day: "There is nothing the matter with the bottom of the Thistle. The paint used on her is the best known, is a quick drier and not at all likely to blister in the water at its present temperature."

Mr. Bell, the principal owner of the Thistle, said this morning they were by no means despondent. He admitted that when the Volunteer caught the breeze at the start and put such a stretch of water between the boats he knew it was all up with the Thistle, and "of course we were all greatly disappointed at the result," said Mr. Bell. "But it was undoubtedly due to the error of judgment at the start. It was the fortune of war and we can only hope for better results to-morrow."

Nothing will be done in the way of changing the sails of the Thistle, as they are considered as nearly perfect as they can be made. It was the opinion among sporting men this morning that there would be practically no betting upon to-morrow's contest. Several Bostonians were offering to bet 100 to 30 on the Volunteer and there were no takers.

The Volunteer was Ably Handled.

Yachtsmen talked all day long about the race. All agreed that the Volunteer had proved herself a better boat than the Thistle, although it was generally admitted that the victory of the Yankee boat was not really so decisive as would appear from glancing at the figures of the race. The yachtsmen recognized that the Scotch boat had beaten the Volunteer's time on the run home and had hold the sloop going out from buoy 5 to the Sandy Hook lightship. It was inside buoy 5 that the race was won by the Volunteer and the time she gained there, all agreed, was as much due to superb handling as to the merit of the boat. Still, allowing for the mistakes of Capt. Barr, and two of them were serious errors, it is probable they did not make more than ten or eleven minutes in the race. With this allowance the Volunteer would still have seven minutes' advantage of the Thistle over the course, and that is about the actual difference between the yachts.

Brigandage in Mexico.

CORPUS CHRISTI, Tex., Sept. 28.—On Sept. 13 Juan Garcia Barrer, a rich ranchman, while a short distance from his home, situated between Las Terailo and La Gozalina, was surrounded by five desperadoes and robbed of $200. He was then taken into Mexico and there closely guarded. Barrer's captors compelled him to write to his family, notifying them that unless they raised and paid to an individual named by the letter the sum of $15,000 by Sept. 18 he would be shot. Barrer's son paid the sum demanded [illegible]

THE LABOR CONGRESS.

A Number of Important Motions Carried at Yesterday's Meeting.

HAMILTON, Sept. 28.—The Labor Congress was called to order this morning at 8 o'clock. The following motions were carried, some of them calling for considerable discussion:

Moved by D. J. O'Donoghue and J. T. Carey: That, in the opinion of this congress, every contract as between any of the Governments of Canada and contractors for public works should contain a clause declaring that no employe of any contractor, while employed upon the work so contracted for, shall be asked or compelled to work more than eight hours per day and five hours on Saturday, under a penalty of forfeiture of contract. Carried.

Moved by R. Glockling and G. T. Beales: That the Provincial Legislature be asked to transfer the allowance now enjoyed by universities and colleges to the public schools for the purpose of further promoting their efficiency and providing the pupils of such schools with books free of charge. Carried.

Moved by G. T. Beales and R. Glockling: That in the opinion of this congress any insolvency act should contain a provision giving labor a priority of claims for wages of sixty days at least. Carried.

Moved by A. W. Wright and R. Glockling: That the present laws relating to patents, while they fail in many instances to secure to inventors a just reward, are the cause of the creation of many oppressive and dangerous monopolies. In the opinion of this congress the patent laws should be radically changed, and that in future, when a patent is granted, a royalty price should be fixed, upon payment of which to the inventor or his legal representative by any person such person should be allowed to manufacture the patented article, the rights of the inventor being properly guarded by affixing a sufficient penalty to infringements of the patent without payment of the royalty. Carried.

Moved by James Clegelow and David Ireland: That in view of the rapid growth of the city and town populations, and the consequent huddling together of large numbers of working people in small and ill-ventilated workshops, and under very imperfect sanitary arrangements, causing sickness and distress in many honest homes, therefore be it resolved that the congress call upon the Dominion and local governments to pass a workshop regulation act, by which all the workshops of the Dominion shall be regularly and properly inspected by competent inspectors in whom the labor organizations of the country have confidence. Carried.

Moved by J. Lovejoy and W. F. Gould: That in the opinion of this congress the working classes of this Dominion will never be properly represented in Parliament, or receive justice in the legislation of the country, until they are represented by men of their own class, and members of this congress pledge themselves to use their utmost endeavors, wherever practicable, to bring out candidates for the Local and Dominion elections in the constituencies in which they reside.

Moved by J. Lovejoy and P. J. Gould: That the continued and systematic expenditure of large sums of public money in assisting and encouraging to this country paupers, indigents and orphans from abroad, is a gross injustice to the people of Canada, and in particular to the working classes; therefore, be it resolved, that it is the imperative duty of the Governments to peremptorily abolish the existing immigration system, and that due care should be exercised in preventing the introduction of such classes into Canada, whether they be sent un ler the authority of the Imperial Government or through any other channel.

The convention adjourned.

HELP FOR GRAVENHURST.

Money in Great and Small Sums Coming in From all Directions.

GRAVENHURST, Sept. 28.—About $4000 has been received. It is now certain that only $35,000 of insurance was held in the stricken district. This is divided among twenty-three companies who will most likely settle for about $75,000. The largest sum held is $10,000, being the Citizens' and British America, the lowest being $300 held by the Glasgow and London. As most of the insurance money is due to a third party very little will be left in Gravenhurst to aid in rebuilding the town.

Since the previous report the following sums have been received and acknowledged by the Mayor: John E. Wilson, Galt, $5; Josiah Pratt, Bracebridge, $5; Senator Gowan, Barrie, $20; F. H. Macpherson, Beeton, $5; R. G. Davidson, Toronto, $2; J. P. Conklin, Toronto, $3; John Rogerson, Barrie, $10; George Paton, Windermere, $5; Frank W. Micklethwaite, Toronto, $5; Geo. E. Sears, New York City, $23; W. Stahlschmidt & Co., Preston, $6; J. W. Dill, Bracebridge, $25; Cook Bros., Toronto, $100; Owen Sound, $25; Metallic Roofing Company, Toronto, $10; Bradford, $100; Penetanguishene, $100; Brantford Sympathizer, $5; Hamilton, Fraser & Son, Fort Cockburn, $25.

Large Amounts Subscribed by Torontonians

Yesterday His Worship the Mayor received these contributions towards the fund for the relief of the Gravenhurst sufferers: Joseph Cawthra, $50; Eby, Blain & Co., $100; Davidson & Hay, $15; Robert Hay, ex-M.P., $25; Mrs. M. T. Gwatkin, $5. A letter from Mr. T. A. Link, secretary-treasurer of the Gravenhurst Relief Committee, returned thanks to the committee and said,

I sincerely trust that a large amount may be contributed throughout the country for our relief. The business men and merchants are, many of them, in almost destitute circumstances. Without timely assistance to rebuild, the future prosperity of this town will be seriously marred.

The Mayor is anxious and ready to receive further subscriptions.

Belleville Assizes.

BELLEVILLE, Sept. 28.—At the Assizes to-day, before Mr. Justice O'Connor, the following cases were tried:

James Parker v. Lowry McNeills, an action by an old man living in Campbellford to recover some property which he disposed of to the defendant, under the undue influence of the latter as is alleged. He is the plaintiff's stepson. Verdict for plaintiff, damages $500 and costs.

Hodgson Bros. v. Nelson Lingham. This was a dispute as to whether certain hops were sold outright by defendant to plaintiff or merely transferred on consignment. John K. McCargier made the bargain with defendant. Verdict for plaintiff, $813 with interest.

NEW YORK, Sept. 28.—A Herald correspondent writes that O'Brien said, in his defence, "The suppression of the Irish National League is simply an absolute impossibility. We meet here to-day under Plunkett's nose. The Countess of Kingston will find the league a more dangerous association than ever. Our great point is to preserve an association which has made us go thus far to make us go much farther before long. I have less doubt to-day than ever that all the powers of our enemies in England will be utterly helpless to prevent our work going on more vigorously than ever. "I should like to put before Mr. Balfour a simple rule of three. If it takes Plunkett, with an army of police and military, to suppress one branch of the league, and if he and his army are so easily baffled, thwarted and hand-winked as they have been to-day, how many of Plunkett's armies will be required to suppress the 1600 branches of the league when all decline to be suppressed? Before the watchword Mr. Gladstone adopted, 'Remember Mitchelstown!' Balfour will fall and Dublin Castle crumble to dust."

Page Gets Fourteen Years.

MONTREAL, Sept. 28.—Charles Page, who raised checks on Jacques Cartier and Bank of Montreal to amount of $35,076, was sentenced to fourteen years.

TRIAL BY JURY AT MONTREAL.

MONTREAL, Sept. 28.—In the case of T. J. J. Loranger, charged with stealing moneyed letters from the postoffice, the evidence having being conclusive, and the only witness for the defence failing in convalescence when confronted with his perjury, the counsel for the defence appealed strongly to the national prejudices of the jury, and urged that six Englishmen had been put on to intimidate six French Canadians to convict a compatriot.

The jury were locked up the whole night; and fought like cats and dogs, the evidence never being discussed. The only consideration was that the English wanted to put a good French-Canadian in jail. When brought into court they were six to six. His Honor, speaking to the French-Canadian portion, told them that when they were brought before their Maker on the last day they would regret their verdict. Loranger will be held and tried again at the November term, when it will be proved that the prisoner's mother and sister induced Hamelin to swear falsely.

CHLOROFORMED AND ROBBED.

An Old Woman Waylaid in Ottawa and Relieved of $1000.

OTTAWA, Sept. 28.—Mrs. Mullens, an old woman 75 years of age, was chloroformed on Theodore-street about 7 o'clock last evening and robbed of $1000 she had drawn from the savings bank to take to Scotland, whither she expected to go in a few days. She was proceeding along Theodore-street alone when a buggy with three men in it drove up to her and alighted near her. One of them offered to see her home, but she declined. The men then spoke together in French, and one of them put a handkerchief to her face and held it there till she lost consciousness and did not recover it for several hours, when some of her friends found her lying in a field near her own house. She is in a dangerous condition and is not expected to live. She says the men had their faces blacked. They were evidently well acquainted with her and her movements. No clue to the ruffians has yet been found.

MONTREAL'S DAILY FIRE.

A Loss of $40,000 By a Conflagration in a Trunk Factory.

MONTREAL, Sept. 28.—Another serious fire broke out in G. Barrington & Sons' trunk factory, on St. Antoine-street, about eight o'clock this evening. The flames were first seen bursting out of a new wing in rear of the main building, and as the material was of an inflammable nature the flames spread with wonderful rapidity into a portion of the main building. The firemen directed their efforts to save the main building, as the wing, stables, and outhouses were doomed. The horses were got out safely as well as the books from the office.

The origin of the fire is a mystery, as when the men left at 6 o'clock everything appeared to be all right. The loss is estimated at about $40,000, covered by insurance.

THE GRAND ARMY GATHERING.

A Drenching Rain Mars the Procession at St. Louis.

ST. LOUIS, Sept. 28.—Rain continued to pour down to-day without cessation, and many of the veterans started for home. Notwithstanding the unfavorable weather, Marshal Grier issued an order for a parade, and the men tumbled out of tent and room prepared for battle with the elements, armed with rubber coats and umbrellas, trousers rolled up and mind set to give St. Louis the promised procession, if not in overwhelming numbers at least with enough to make a good showing of their appreciation of the city's efforts to entertain. Shortly before 11 o'clock the column was formed and the procession started. Its progress was heartily cheered.

The Riots on the Island of Ponapi.

MADRID, Sept. 27.—The riots on the Island of Ponapi, in the Carolines, occurred in July. They were caused by the Governor's ordering the arrest of an American Protestant missionary. This excited the natives, and they rose up against the authorities, overpowering the garrison of twenty-six men.

THE TAY CANAL FINISHED.

Mr. McDonald, the Contractor, Banqueted at Perth.

PERTH, Sept. 27.—The last stroke of work on the new Tay Canal was done at noon to-day, and to-night A. P. McDonald of Toronto, the contractor, was tendered a farewell banquet in the Town Hall by the citizens of Perth. Mayor Pink presided, and there was a large representative gathering, including all classes of the community, among whom Mr. McDonald has become very popular during the four years the canal has been building. The Town Hall was handsomely decorated for the occasion, and the guest of the evening received an ovation.

THE ONTARIO CENTRAL FAIR.

A Large Attendance, a Fine Stock Display and Racing on a Half-Mile Track.

PORT PERRY, Sept. 28.—The Ontario Central Fair's second day has proved quite successful, a large attendance of people attesting its popularity, good gate receipts rejoicing the hearts of the directors and about 1000 entries more than last year exercising the secretary.

The thoroughbred stock exhibitors include John Dryden, M.P.P., E. & A. Sanford, R. Reesor, Stanford & Ralph, R. J. Mackie, L. G. Drew and J. O. Henry.

To-day's races on the neat half-mile track in the province resulted as follows:

3-minute race—Ray's Joe Brown 1st, Watson's Membrino Chief 2d, McDonald & Vrooman's Norland 3d; time, 2.47½, 2.44½, 2.43½ and 2.45.

3-year-old colts' race, half-mile heats—Adams' Happy Thought 1st, Wilson's Bay 2d; O'Neill's Modesty 3d; time, 1.30, 1.35 and 1.36.

Niagara Peninsula's Rose Fair.

DUNNVILLE, Sept. 28.—On Friday and Saturday, Sept. 30 and Oct. 1, the fall fair of the West Branch Agricultural Society of Moulk takes place here. This exhibition is looked forward to with much interest, as it has come to be one of the best in the Niagara Peninsula. In addition to the large display of live stock, dairy fruit, grain, fine arts, and ladies' exhibits, there will be the following special attractions: A single style and speed race for 2.35 horses; directory race for green horses; two roadster races; Shetland pony race; ladies' driving race; bicycle contest, hose reel and foot races; band and cornet solo competitions and a football tournament, in which four or five clubs will compete.

UNITED STATES NEWS.

Oliver Ames has been nominated for Governor of Massachusetts by acclamation.

The strike at the American Iron Works of Jones & Laughlin, Pittsburg, Pa., has ended favorably to the strikers, and work was resumed to-day in all departments.

The town of Guerro, near the Rio Grande River, Mexico, had fifty houses washed away by a recent flood, and in Mier 200 houses were swept out of existence from the same cause.

A telephone company with a capital stock of $50,000,000 has been incorporated at Indianapolis. The company proposes to manufacture the telephone patented by Humbert L. Todd of Washington.

In the fight Sunday night in Matagorda County, Texas, between a mob of negroes and a posse of whites under Capt. Bates, four negroes were killed, including Burley Hawkins, one of the leaders. It is not known how many were wounded. Two whites lost their lives in the fight.

A COSTLY EXPERIMENT.

The increased iron duties imposed last session of Parliament, though of a most heroic character, have, it appears, failed of their aim, that is, encouraging the establishment of smelting furnaces and rolling mills in Canada. A member of the Imperial Parliament, a large iron master at Barrow-in-Furness, who recently visited Canada, says that he found here an *almost* universal opinion, which he unhesitatingly shares, that the new Canadian iron duties, although extremely heavy, will not be sufficient to create any important rolling mills within the Dominion, though they will undoubtedly increase prices to the consumer very considerably. The first result of the duty on finished iron will be to drive the iron trade into the hands of a few capitalist dealers, squeezing out the small dealers and importers. In all his business experience he has always found sudden changes in the tariff a disturbing element. He has no fear of any disastrous results to the English iron trade from the Canadian protective tariff. Canada will continue to buy from England in increasing quantities at an increased price, and if any capitalist is fool enough to start extensive works in the Dominion he will end in a first-class collapse. If an authority, evidently worthy of respect, has justly deduced conclusions like these from the existing and prospective conditions, it will be apparent that the Canadian consumer has been burdened with unnecessary extra taxation. The increased duties on iron have added to the cost of everything into which iron enters as a material—from a lath nail to a reaping machine. Trying to make some monopolist rich by taxing the people at large is a queer kind of statesmanship.

MANITOBA'S JUSTIFICATION.

Manitoba is making vigorous efforts to escape from the domination of railway monopoly, and there are many who do not know what necessity exists for her endeavors or justifies the earnestness with which she is struggling for relief. First let us submit a comparative table of C.P.R. local merchandise rates in cents.

	Miles.	Classes 1.	2.	3.	
Montreal to Ottawa	120	15	13	11	per 100 lbs
Winnipeg to Douglas	123	67	57	46	per 100 lbs
Ottawa to Toronto	269	36	29	27	per 100 lbs
Winnipeg to Broadview	354	100	84	68	per 100 lbs

It will be noted from this that in one case there is a discrepancy of rates against Manitoba of nearly 5 to 1, while in the other the discrepancy is about three to one.

Next compare the rates on the C.P.R. with those of an American railway line just across the border:

Miles	C.P.R From Winnipeg per 100 lbs.	St. P., M. & M.R. From St. Paul per 100 lbs.
20	9 cents.	4 cents.
30	11 "	5 "
50	13 "	7½ "
100	17½ "	10 "
200	24 "	17 "
300	29 "	21 "
400	30 "	30 "

Is it any surprise that Manitoba should be anxious for a competing railway line?

WHATEVER merit there may be in the contentions for and against unrestricted trade relations between Canada and the United States, it is evident that the subject is more and more attracting attention. Orders have been issued by the United States government to all United States consuls in Canada, instructing the latter to prepare an abstract of declared exports of Canada to the United States for the past six years. It is understood that the object of these reports is to obtain information respecting trade between the two countries, to be laid before Congress next session.

Anniversary Services.

The anniversary services of the Mark Street Methodist Church, Ashburnham, will be held October 2nd and 3rd. The Sunday sermons will be preached by Rev. A. Browning, of Belleville. In addition he will address a mass meeting of children in the afternoon. On the following Monday evening refreshments will be served in the town hall from 5 to 8 p.m. At 8 o'clock a public meeting will be held in the church, at which Rev. Mr. Browning will deliver an address on "An hour with Miners, Gamblers, Indians and Chinamen." As the reverend gentleman spent eleven years as a missionary in British Columbia, his lecture will be instructive and reliable. The tea and lecture tickets are only 25c.

Reckless Buying.

It is a great sin to waste money by recklessness in buying. The reckless buyers are easily imposed on. From want of inspection of the goods they are buying they place themselves at the mercy of dishonest and unscrupulous dealers. They get taken in time after time, yet they learn nothing from experience. They don't seem to notice that *cheap goods are dear goods in the end*, nor the more important fact that, as a rule, *dear goods*, in comparison, are the *cheap goods* in the long run. The man that pays a fair price for good goods bought from reliable dealers, always gets a bargain, while the man who "gets a bargain" from a shoddy peddler, in nine cases out of ten, gets victimized into the bargain. The true guide is to steadily patronize an establishment that always furnishes first-class goods at fair prices. The wise buyer does not run after every new Cheap Jack that comes along with offers of fabulous bargains. If goods are offered at prices far below what reliable business houses in the same line charge, bear in mind the goods are dear at any price, or that either the wholesale creditor or the buyer or both are being victimized. It is with comfort and with confidence that the public can go to places like that of H. LeBrun, *City Clothing Store (sign of the Golden Horseshoe)* where the buyer always finds it safe to do business. He knows he gets what he pays for. H. LeBrun has earned the confidence of the public both at home and abroad—for many travellers outside of Peterborough come to the Golden Horseshoe when they want full value for their money. For first-class clothing, ready-made or ordered, LeBrun is always the "old reliable". A splendid new, well assorted fall and winter stock. Follow the luck of the Golden Horseshoe. Honest value, reasonable prices, square dealing.

Reconstructed and Improved.

Referring to Leach & Stevens' Dramatic Company, which will play "Ten Nights in a Bar Room" in Bradburn's Opera House Friday evening, the Syracuse *Standard* says: "This great moral drama was produced at the Wietlog again last night, and its representation found great favour with the audience. The play has been reconstructed and greatly improved, and many interesting musical features added. The musical selections are rendered by the Brooklyn Church Choir quartette, and were much applauded by the audience."

A Severe Trial.

Frances S. Smith, of Elmsdale, Muskoka, writes, "I was troubled with vomiting for two years, and I have vomited as often as five times a day. One bottle of Burdock Blood Bitters cured me." 2w38

GOUGH

THE WONDERFUL CHEAP MAN,

Is waging a relentless war on Long Prices. He has not been awarded the contract of Clothing the Standing Armies but that Greater and Nobler Army—The WORKING MEN of Our Fair Canada—appreciate his generous ambition to furnish them with Reliable Goods at Wholesale Prices.

Other Dealers wonder how Gough can Under sell them. The explanation is easy, he is one of the Largest Dealers in Canada and pays cash for everything. He is thus in a position to take advantage of the markets and secure Great Snaps in the way of Bargains.

No man in his sober senses will deny that a good Bankrupt Stock bought at 40 or 50 cents on the dollar is not cheaper than the first cost of manufacture, and therefore were Gough to say he could sell Goods cheaper in many instances than even the largest Wholesale Firms, he could prove it.

I ask a fair thinking public, then, if Gough has to stretch his conscience very much when he states that the unfortunate dealer who is under the thumb of the Wholesale Houses actually cannot buy as cheap as Gough can sell.

A visit to his Great Clothing Emporium either in Toronto or Peterborough will satisfy the most skeptical that this is the absolute truth. He has come to Peterborough to stay and is bound to preserve the Splendid Reputation he has already acquired for durable, Stylish and Well Fitting Garments at prices at least 25 per cent below those of other dealers. Let no man, then, go ragged or shabby, no matter how poor he may be, but let him go straight to the People's Friend.

Our trade Saturday far exceeded my expectation. Overcoats and Fall Suits moving lively—they are so cheap people cannot resist buying from

LATEST SPORTING NEWS.

The Baseball Scores—Other Items of Interest to Sportsmen.

SYRACUSE, Sept. 28.—The most shameful and disgraceful exhibition of ball ever seen in this city was given by the new champions this afternoon. Before the game it was found that the balls on the ground had not received the signature of Secretary White. Captains Foats and Hittman, however, agreed to use the balls in the presence of the umpire. After the first half of the first inning Foats demanded that some one should run for him, but this was refused in accordance with the rules. Then he demanded that a legal ball be used, but the umpire would not allow this, and announced to the audience that Foats before the game had consented to play with the balls in use.

Foats and Umpire McLean had a warm debate and finally Foats declared that he would not play. He kept on chinning the umpire and was fined $20. Then he called some more names, which privilege cost him $10 more. He was roundly hissed by the spectators. The rest of the Torontos were disgusted with him and contrary to his wishes insisted on playing the game with eight men. The result was a complete slaughter of the visitors, who played wretchedly and did brilliant work only in kicking. Foats sulked on the bench all through, and as his turn at bat came around was each time called out. Score:

Courtney Defeats Bubear.

BINGHAMTON, N.Y., Sept. 28.—A magnificent race was rowed on the Susquehanna river at Oswego, between Charles E. Courtney and George Bubear. The race was a mile and a-half and return, for $1000 a side, and was won by Courtney. Bubear had a few feet the advantage at the start, but was quickly overhauled by Courtney, and then the men kept almost abreast until at the turning buoys. Here Courtney made a far better turn than Bubear and gained a length. This position was held until within about 1200 feet of the finish when Bubear spurted and reduced the lead half a length. Courtney responded and with a few vigorous strokes regained the lead which he had lost. When the shells crossed the line there was about a foot of daylight between them. Courtney's time was 19.35. Bubear appeared somewhat exhausted, while Courtney was fresh and smiling. Bubear's most rapid stroke was 38 to the minute. Courtney at one time exceeded 33. About 5000 people witnessed the race.

As soon as Courtney reached his hotel he was met by Peter Duryea of New York, Bubear's backer, and challenged for another race to be rowed within ten days for $2500, Courtney to have his choice of water. Courtney accepted, and the race will probably be over the same course. Al Smith of New York was agreed upon as stake holder. The water was in excellent condition and the betting spirited, with Courtney the favorite. The referee and timekeeper of to-day's race was George A. Duruasel of Oswego.

Growing Weaker.

Rev. Father Conway's condition becomes less hopeful every day. This morning he was still weaker than was reported yesterday. Dr. Sullivan of Kingston visited the sick man last night, and stated that he could do nothing more than has been done by the attendant physicians, Doctors King and Brennan.

Everybody cordially invited to look through Turnbull's Magnificent Stock of Millinery, Mantles, Dress Cloth and general Dry Goods on the 4th, 5th, and 6th.

A Flowing Well.

Messrs. T. Leary & Co. have been boring a well for Mr. Geo. A. Cox, on the premises, on Gilmour streets, lately occupied by ex-Chief of Police Cooper. Yesterday forenoon a vien of pure cold water was struck, at a depth of 65 feet, which quickly rose to within five feet of the surface. It was pumped out at the rate of a barrel a minute, but with no visible decrease of the volume.

Runaway Accident.

Wednesday afternoon the wife and daughter of Mr. John Garbutt, Smith, were thrown from their buggy on Water street and sustained painful injuries. They were driving along the street when their horse took fright and ran away. At the Bank of Montreal building they were upset. They were taken into Mr. Lewis' residence, and their injuries attended to by Dr. Boucher. Mrs. Garbutt received an ugly gash below the left knee besides sundry bruises. Miss Garbutt was also painfully bruised. The two ladies were taken home last evening.

Matrimonial.

On Wednesday afternoon, "Beechwood", the residence of W. C. Taylor, Esq., Douro, was the scene of the nuptials of his niece, Lavinia, eldest daughter of T. E. Fitzgerald, Esq., Deputy-Reeve of Smith, and of Mr. Edward M. Elliott, son of Geo. A. Elliott, Esq., Smith. The ceremony was performed by Rev. E. F. Torrance, Peterboro', assisted by Rev. A. L. Adam, brother-in-law of the groom, in the presence of the guests, the immediate relatives. Mr. John Stewart, of Otonabee, assisted the groom, and Miss Louisa Fitzgerald, sister of the bride, performed the duties of bridesmaid. The happy couple took the 5.32 C.P.R. express for Toronto and Niagara. Both of the young people, as well as their families, are well known and respected, and they carry with them in their new life relations the best wishes of an extensive circle of warm friends for a long and happy life.

Mr. A. F. Ames, late of the Ontario Bank here, has been transferred to Mount Forest, where he takes the position of manager. His place here will be taken by Mr. W. D. Parker, of Toronto.

Senator Sullivan, M.D., of Kingston, was in town last night on a professional visit to Rev. Father Conway. He will return to town Saturday, and during Sunday will be the guest of Rev. Father Kelly.

A Distinguished Visitor.

It is well known that great men, from fear of obtrusive and impertinent attention, often travel incognito, yet it will be a surprise to many to learn that a gentleman closely connected with Bismarck, the great German Chancellor, *is in* town. The "man of blood and iron" is noted for his adamantine nerve and this distinguished visitor possesses the same qualities. He is no other than the great Bis-marck of Canadian Clothiers—Gough, the Wonderful Cheap Man. As Bismarck wages relentless war upon all enemies of his subjects, so does the Peterborough Bis-marck wage relentless war upon all enemies of his customers, the high priced clothiers. He carries the war into Africa, and the unconquerable soldiers he marshalls, the business battalions on which he relies, are retail sales of ready-made clothing at wholesale prices. The Bis-marck of Peterborough buys his immense stock for spot cash, and thus he skims the cream of the wholesale markets at wholesale prices, and also gives customers first-class goods at wholesale prices. Often he lies in wait for some big failure, snaps up a mammoth stock at 40 or 50 cents on the dollar, and then he explodes this big bomb, scattering tremendous bargains on all sides. This is how he does it. If you want the best of clothing at the cheapest prices, go to Gough, the Wonderful Cheap Man. w39d77

It is enough simply to say to the Public that Miss Mahoney has been doing her best to make Turnbull's Millinery Opening a grand success. Remember the days are Oct. 4, 5, and 6.

He Killed His Bear.

Mr. W. C. Tobotham (known to the ladies as the "ancient mariner"), a well known personage among the camping and hunting fraternity, has succeeded in making himself the envied of all ambitious hunters. He is camped on Kitchecum Lake, in Cavendish county, and one day last week "scented b'ar". It was a big one, too, judging by the trail. He followed the scent eagerly, and after a long and exciting chase came up with his quarry on the edge of the lake. Mr. Tobotham could then see that the bear was an unusually large one. Bruin took to the water, and had secured a good lead before his pursuer could bring his rifle to bear, but four or five well-directed shots settled his bearship's case, "and he sank to the bottom of the sea"—a dead bear. The bear was gone, for the present at least, but the huntsman was not thus to be robbed of his lawful prey. He visited the spot every day and after two or three days had the satisfaction of seeing the dead animal floating on the water. So Mr. Tobotham got the bear after all, and was enabled to preserve his story intact from all imputations of doubt which might have been cast upon it without fear of disputation had he no claws or other anatomical items to show in proof of his truthfulness. The bear shot by Mr. Tobotham was a monster, weighing about 200 lbs or over.

Young Men as Missionaries to China.

Messrs. A. R. Saunders and Frederick Redfern of the China Inland Mission arrived in town yesterday and will speak in the Young Men's Christian Association Hall this evening at 8 o'clock.

The Mission was started in 1866, with 18 missionaries, by the Rev. J. Hudson Taylor; the last year there were 225 missionaries and this year more than one hundred will be added to that number. It was in connection with this mission that the seven Cambridge men went out to to China two years ago.

It is anticipated that a very interesting meeting will be held this evening. Should the Association Hall prove to small the meeting will adjourn to St. Paul's Church Lecture Room. A collection will be taken in aid of the mission

PETERBOROUGH'S PRIDE.

Relation of a Ramble Through China Hall.

Additions to the Premises—Extent of the Business—Its Rapid Growth—The Secret of its Success.

Five years ago last July, Mr. Macfarlane Wilson opened on the corner of George and Simcoe streets the splendid establishment "China Hall and Silver Bazaar." Beautiful and extensive as was this unique commercial emporium at that time, with every year and, one might say, with every month it has developed new attractions and importance till to-day it stands the finest shop of its kind outside the larger cities. When "China Hall" was first opened there were many shakings of wise heads and prodigal predictions of failure—"there never would be patronage enough in Peterborough to keep up a store like that." But how completely has steady and progressive success flattened out the false prophecies! Under the keen stimulus of the unostentatious but cautious,

WELL-CONSIDERED AND PERSISTENT ENTERPRISE

of the proprietor, China Hall has flourished until to-day three times the space that was amply sufficient five years ago, is occupied, and the volume of business done, is in more than direct ratio to the material expansion.

Recent improvements consist of the addition of floor space treble of that first used. The floor space now in use consists of three floors each 24x100 feet, making an aggregate of area devoted to the business of 7,200 square feet. The main shop, 24x100 feet, is well known to the public. It is, in fact, one of the show places of the town, and the visitor from abroad, who has not viewed its glittering treasures of silverware, glassware, beautiful crockery, articles of vertu, ornament and bric-a-brac, is considered to have visited London without seeing the Tower—to have missed one of the most significant evidences of Peterborough's commercial importance and of the taste and spirit of her citizens.

THE BASEMENT STORY

of equal area to the floor above, airy and well lighted, has been fitted up in an excellent manner, as a showroom for dinner and tea sets, staple glassware and heavy staple crockery. Complete and effective arrangements have been made for showing the dinner sets to advantage. Disposed symmetrically throughout the spacious room are twenty large dinner tables covered with crimson damask linen, and on these are laid out the dinner sets as for a banquet. The customer is thus enabled to see at a glance the effect, which the wares he is seeking to purchase, will produce when in use. These sets are of all qualities and prices—from $8 to $55. Along the northern side of this room, a range of wide shelving contains a vast number of tea sets, ranging in price from $2 to $40. The shelving on the opposite side is devoted to glassware of every description in limitless variety.

THE OIL REGIONS.

At the back or eastern end of this floor, on one side of the doorway, a small compartment contains two coal oil reservoirs, each holding 100 gallons, one for American and one for Canadian coal oil. China Hall does a very large share of the enlightenment of the public. There are sold from one to four carloads of coal oil per month, according to the season—that is, 60 to 240 barrels, a carload consisting of 60 barrels. The business is both wholesale and retail, and it is a fact worth mentioning that, for the wholesale trade, Canadian is most largely sold, while for the retail trade American is demanded, the town of Peterborough thus indicating her preference for the superior illuminant. Mr. Wilson is the only merchant in town who

IMPORTS PRATT'S ASTRAL OIL,

the best American brand. For the retail trade the two reservoirs mentioned as being on this floor are connected by pipes with pumps placed in a sink in a similar-sized compartment on the floor above. The oil is pumped from either tank desired, and whatever overflow there may be, passes back by a waste pipe into the Canadian oil tank. The retail trade demands from one to five barrels per day.

The basement of the shop next south of China Hall, 24x100 feet in area, has been secured as a storeroom for lamp chimneys, glass fruit jars and unopened goods not required for immediate use.

These additions to China Hall's space and facilities admit of a very largely increased business, and, at the rate at which trade has increased, there is no assurance that, extensive as they are, they will not long prove adequate to the demands of its patrons.

The new room provided permits of a

REARRANGEMENT OF THE FIRST FLOOR,

which now contains an extensive display of the higher class of goods, lamps, silverware and fancy goods incidental to the business, gilt goods, etc.

At the present time China Hall has a most elaborate display of lamps of every conceivable design and style, with proportionate variations in price. This stock comprises nearly four hundred hanging lamps, from the common bronzed-iron frame, single burner, to the elaborate chandelier of four burners. The weight of the lamps now in stock amounts to two tons. The prices of the hanging lamps vary from $1 to $25. There is also a full range of other styles of lamps, bracket and stand, the total number being 2000. Some of the chandeliers are magnificent pieces of art workmanship, such as would be an ornament to the best home in the land. Many of the standing lamps are superb specimens of high art, particularly several specimens of the more expensive lamps with bowls of royal copper and antique oxydized silver, beautiful works of art. This fine range of art-works is made by Craighead & Kintz, of Boston, and like all goods are ordered direct from the factories. Like the pin recorded in the school primer of a past generation, it takes several manufacturers to make a lamp, China Hall procures the lamp bowls from Boston, the shades, globes and prisms from Germany, the chimneys from Hamilton and the burners from New York. The cheap range of iron frame hanging lamps are made in Hamilton.

SILVERWARE DEPARTMENT.

The extent of the magnificent stock justifies the adjunct, "Silver Bazaar", to the title of this establishment. The visitor to the main show room need not think that the glittering array of splendid silverware on the closely crowded shelving at the right of the main entrance door comprises the extent of the stock kept on hand. The stock of silverware is about two tons weight—sometimes more and sometimes less. What does not find room on the shelves is kept in the capacious vault at the rear of the store. All the silverware kept in stock is of Canadian manufacture, and the beauty and variety of design and the superiority of finish bear eloquent witness to the development of artistic taste and excellence of mechanical execution. The makers who supply China Hall are the Meriden Britannia Company, Hamilton, Simpson, Hall & Miller, Montreal, and the Toronto Silverplating Company, Toronto. The cheapest piece of plate kept in stock is valued at $1.00 and the dearest at $205.00. The latter,

A MAGNIFICENT EPERGNE,

is a splendid piece of design and workmanship. The amount of silver-ware may be a surprise to many. A stock of about two tons, and this "turned over" twice times a year, denotes a gratifying state of thrift on the part of the public.

The other lines kept are fancy goods and gift articles of the most surprising beauty and (for their beauty) cheapness. An attempt at enumeration would be too great a task. Many of the articles are very expensive, and this fact and their being articles of luxury, suggest the inquiry if the importation of such expensive goods is not a losing venture—from the lack of customers, wealthy enough to indulge in their possession. To this Mr. Wilson replies that he never yet has offered his customers any article too expensive to meet with ready sale.

That such an establishment as has been briefly referred to can not only be maintained by private enterprise, but continually increased in extent of stock and circle of patronage, is a matter of surprise to many who do not know

THE SECRET OF CHINA HALL'S SUCCESS.

A careful study of the condition of the wholesale markets and the various influences affecting prices, direct importation and buying direct from manufacturers, have a large share in solving the problem of "how it is done." By buying direct, the profit of intermediate dealers is saved, and the proprietor of China Hall being satisfied with a fair profit, the purchaser gets the benefit in cheaper goods of better quality than those bought through brokers or middlemen.

To show how China Hall is ever alert in getting bargains for its customers, a case or two may be cited as samples. In the matter of prismatic cut glass pendants, for the shades of the finer lamps, it may be remarked that a single lamp shade requires from three to thirty. Yet Mr. Wilson, on a recent occasion, with a knowledge of the condition of the market, purchased at one time 6,500 prisms, enough for over 200 lamp shades.

EVENTS JUSTIFIED HIS COURSE.

The price of these goods soon took a sharp advance, and they would now cost twice as much as Mr. Wilson paid for them, yet they cost no more to the customers of China Hall than they would have done had there been no advance in price.

All of China Hall's present stock of crockery was laid in free of the increase in duty. At once parliament made the change Mr. Wilson placed extensive orders, the goods were hurried forward and passed through the Customs previous to the 1st of July, the date when the increased tariff took effect. By this one little stroke there was effected on the price of the stock a saving of $2000, to be divided amongst the customers of China Hall.

DIRECT IMPORTATION

is another means of cheapening the goods of China Hall to the buyer. Just previous to entering into business in Peterborough, Mr. Wilson took a trip to England and Germany and personally made the most favourable arrangements for direct purchase from the leading firms with which he deals. The following are the manufactories from which are bought the leading lines:

Fine China—dinner and tea sets—Messrs. Havilan & Co., Limoges, France.

English China, Messrs. Copland & Co., Burslem, Staffordshire; Bridgewood, Hanley, Staffordshire; Messrs. Primavesi & Sons, Swansea, Wales. (The traveller representing this latter firm recently visited Peterborough, the only place outside the larger cities to which he brought his samples or sought business.)

Messrs. Proctor, Mayer & Woolley Longton, Staffordshire.

Fancy China and Fancy Goods generally, Messrs. Silber & Flemming, London England.

Crockery and other staple lines—Messrs. Furnival & Son, Burslem, Staffordshire; W. & E Corne, and E. & G. Meakin, Staffordshire.

GLASSWARE,

which, it may be remarked, is manufactured by the aid of natural gas as a fuel, is imported altogether from the Richards & Hartley Company, Pittsburgh, Pa.

The purchase of large quantities is another element in securing low prices. Of glassware fewer than fifty barrels are never ordered—from that to 100 barrels—Peterborough is the only town outside the large cities the agent of the above firm visit. A day or two ago an immense consignment of Bohemian glass globes arrived. These are of assorted tints and ornamented beautifully with crystalline incrustations representing birds and flowers in bright colours. There were twelve dozen of these globes, and the single packing case in which they arrived was 7x7 feet in breadth and depth and 15 feet in length. An enterprising Enniscore farmer bought the case, when emptied, for a combined pig-sty and hen house.

Besides a large retail trade China Hall does a large jobbing trade with the surrounding towns and villages and counts among its regular customers, residents of Port Hope, Belleville, Cobourg, Lindsay, etc., and not unfrequently goods in retail parcels are consigned to Montreal, Hamilton and Toronto.

The business gives employment to six persons and two delivery wagons are kept busy.

The above sketch gives by no means an adequate idea of China Hall, but the reader who desires complete knowledge should pay it a visit at the first opportunity.

DETAINED IN QUARANTINE

A SHIP FROM RIO WITH TWO CASES OF SMALLPOX ABOARD.

A Railway Right of Way Case—Collecting Trade Statistics for the American Government—A Reply to Mr. Tibbets of the Aborigines Association.

OTTAWA, Sept. 29.—The ship Chrysolite, which arrived at Bathurst, N.B., on Sept. 27 from Rio Janiero with two convalescent cases of smallpox on board, is now being thoroughly disinfected and fumigated. As the patients were taken with the disease about Aug. 15 and no other cases have occurred among the crew, all danger of its further spread is no doubt over and the vessel will soon be released from quarantine.

There is great activity at present at the different Mounted Police Stations in the Northwest, repairing, enlarging, and putting up new buildings. The new barracks at Regina and Prince Albert are practically finished and will shortly be occupied. Tenders for new barracks and a hospital at Calgary have been called for by the Public Works Department and will be opened on Oct. 4, and tenders for new barracks at Banff Hot Springs will be received up to Oct. 11, and the buildings at a number of other places are being altered and improved.

The month's grace given by Mr. Mercier to the lumbermen for payment of ground rents on timber limits at the advanced rate of $5 per square mile expires on Saturday, but there is no indication of a return to the old rate of $3 as the lumbermen hoped. Mr. Mercier will probably not see any reason for changing his mind, and the lumbermen will have to put up with the new rate.

The arbitrators in the case of the Canada Atlantic Railway and Dr. Hill with reference to the right of way for the railway through Dr. Hill's property met last night and will meet again to-night. The arbitrators were Messrs. C. R. Cunningham, for the Railway Company; A. M. Burgess, Deputy-Minister of the Interior, for Dr. Hill and James Cunningham, who was chosen by the other two as chairman of the court. The proceedings are private. The land in question forms the approach of the railway to Bronson's lumber piles by way of the City aqueduct and across Queen-street. The company, it is said, offer about $5000, while Dr. Hill demands $30,000.

Mr. Hotchkiss, United States consul here, has prepared statistics for his Government of the export trade of the Ottawa district to the United States for the last five years, from which it appears that the exports of this section have increased from two millions and a half in 1883 to three millions in 1887. Similar returns have been asked from all United States consuls in Canada, and the information is believed to be required to lay before the coming Fisheries Convention should it deal with the question of commerce between Canada and the United States.

Mr. William Jacks, ex-M.P. for Leithburgh in the Imperial House, who has been in Nova Scotia looking after some iron mines in which he is interested, was in the city to-day. In conversation he expressed himself as greatly pleased with Canada, and considers her progress truly wonderful. Speaking of commercial union, he said: "I would not care to express an opinion on the subject until I have more information as to your present trade conditions and relations. I think the case is much like that of the South German-bund, and the same results would naturally follow." He expressed the opinion that Home Rule for Ireland (and perhaps for Scotland also) was not far off, and would be accomplished by a reunion of the Liberal party.

Mr. Vankoughnet, Deputy Superintendent-General of Indian Affairs, in speaking of Mr. Tibbets of the Aborigines Association and the nonsense he has been talking in London about the treatment of the Indians in the Northwest, said to-day: "The Canadian Government are pursuing a policy in reference to the Indians, and such statements by such men as Mr. Tibbets only serve to show his utter ignorance of the question. They are too insignificant to notice.

Miss Macdonald, daughter of the Premier, has returned from the West. She was greatly benefited by her stay at the hot springs.

Hon. Thomas White and Hon. John Carling have returned to the city. Hon. John Costigan is expected to return to-morrow.

Lord Lansdowne will probably return to Rideau Hall about the middle of next week.

The steamer Newfield will leave Halifax this week to repair cables in Ste. Annes and Argentia harbors, Cape Breton.

LONDON, Sept 29.—Mrs. Otto Goldschmit (Jenny Lind) has had a stroke of general paralysis. Her mind is impaired.

TAYLOR'S PLEA FOR BAIL.

A CRIMINAL WARRANT AWAITING HIM HAD HE BEEN RELEASED.

Confidence Recovering in Financial Circles in London—The Doings of Taylor and His Crowd, However, are Still Having a Demoralizing Effect on the Market.

LONDON, Sept. 29.—Confidence has, in a measure, been restored to financial circles in London. The monetary situation has improved in many respects, but still operations are hampered on account of Henry Taylor's bail and Charles Murray's and Benj. Cronyn's irregularities in connection with the Ontario Investment Association. The pinch came as a very bad time, still merchants and manufacturers state with one accord that the financial demoralization that has recently prevailed in London is passing away, and activity is looked for as soon as the fear of further trouble subsides. The prices of stock in several large companies here have deteriorated, and London is full of investors looking about for bargains. Big profits will be reaped by some men when the city assumes its normal financial condition. The Bennett Manufacturing Company have already been taken over by a Glasgow capitalist, named Thompson.

Henry Taylor's position grows more unenviable as the audit of his books and papers advances. R. E. Nelles, Taylor's trustee, who is winding up affairs, still professes ignorance as to how his client's assets will pan out. The audit of the Investment books will be completed by the middle of next week and a meeting of the shareholders held on Oct 8. The reasons given why the application for Taylor's release was withdrawn are, first, no chance of success; second, had it been successful Henry would not have got outside the jail door, as the statements made by several largely interested shareholders of the Ontario Investment will show.

They say that had the application been successful the result would have been instantly telegraphed to London and a criminal warrant issued and executed before the order for his release could arrive. Henry Taylor is responsible to the Ontario Investment for $80,000, and Charles Murray, late manager, for $60,000, while several other worthless names are held for large amounts. The auditors intimate that when Henry Taylor wanted money he drew a check for whatever he needed and had it entered up to this, that or the other account. The decision of the Toronto Court will keep Henry in jail till the Winter Assizes anyway.

DEAD OF DIPHTHERIA.

In the Death of Mr. David Skirving, London Loses A Prominent Citizen.

LONDON, Sept. 29.—Mr. David Skirving, teller of the Bank of British North America, died of diphtheria this morning, and owing to the nature of the disease the funeral took place this afternoon. The deceased was one of the most popular residents of London. His banking experience extended over twenty years, he having been first sent out from Glasgow to Halifax by the Bank of America authorities. Subsequently he was transferred to Hamilton, and again in 1871 or '72 to London. Mr Skirving took a great interest in all sporting matters. He was the master of the London Hunt and also secretary of the Western Ontario Fish and Game Preservation Society for a number of years.

One sad phase of Mr. Skirving's death is the fact that he had just completed twenty years of hard work in the bank, and as a reward had been given six months' holidays to revisit his native land, which he intended to start for shortly.

SHARP GETS A STAY.

The Unusual Procedure of a Judge in the Case.

ALBANY, N. Y., Sept. 29.—Information was received this evening that a stay of execution had been granted in the Jacob Sharp case by Chief Justice Ruger, of the Court of Appeals, until October. This proceeding is generally regarded as unusual, if not extraordinary. Its effect will be to prevent Sharp from going to Sing Sing to-morrow, as was intended by the sheriff.

PANIC IN A NEW YORK THEATRE.

A Miscreant Cries "Fire" and Almost Causes a Disastrous Stampede.

NEW YORK, Sept. 29.—The performance of "Harbor Lights" was almost concluded at the Grand Opera House this evening when some person in the gallery shouted "fire." In a moment the audience on the main floor had risen and was about to rush from the auditorium when the actors cried "sit down, there is no fire." In the crush, which lasted nearly five minutes, two or three ladies fainted, adding to the excitement. The audience eventually calmed down, and although perhaps a hundred persons left the theatre, the remainder resumed their seats and stayed there until the end of the performance. An officer arrested the man who caused the panic and he was locked up.

THE MONARCHIST MANIFESTO.

M. Ferry Says the People Regard It With Contemptuous Indifference.

PARIS, Sept. 29.—M. Ferry, in a speech at Epinal this evening, said that the Republic regarded the manifesto of the Count of Paris with contemptuous indifference. The people did not fear pretenders. They made it a point of honor to leave their enemies full liberty of attack. The manifesto will doubtless furnish a pretext for attacking the Cabinet, and possibly some Republicans would avail themselves of the chance to desert the party. "If a crisis comes," he concluded, "it will be difficult to solve it. Therefore, let us be prepared for all evils."

UNITED STATES NEWS.

Burglars robbed the Postoffice at Fort Edward, N.Y., yesterday morning of $1000.

The J. B. Wathen & Bro. Company, distillers, Louisville, assigned yesterday; liabilities, $80,000; the assets, including plant, are $125,000.

John Pierce, who was suspected of having murdered a man, was taken from the jail at Knoxville, Tenn., by a mob on Saturday and shot to death.

A freight train on the Pitsburg road was derailed at Shirley, Mass., yesterday morning, eighteen cars being thrown from the track. Frank Langscott, a brakeman, was killed.

The box factory of Maxwell Bros., Chicago, was burned on Wednesday night. Loss $125,000. John G. Lobstein's planing mill and sash factory was damaged to the extent of $20,000.

The strike of miners in the vicinity of Evansville, Ind., has assumed serious proportions. All the miners are out and the supply of coal is very short. Prices have advanced 10 per cent.

The threatened strike of the window glass workers has been averted, and operations will be resumed in all the factories of the West as soon as the furnaces can be heated, which will take about ten days.

Advices from Honolulu state that at the election held on Sept. 13 all the members of the House, with perhaps the exception of two representatives in remote districts, were elected on the platform of the Reform party, supporting the new constitution and ministry.

THE LABOR CONGRESS.

The Business Transacted at Yesterday's Session at Hamilton.

HAMILTON, Sept. 29.—The Labor Congress assembled at 9.30 this morning.

Moved by George W. Dower and David Hastings:

That the president appoint a committee on constitution consisting of three members, and that each committee prepare and submit to this Congress at its next meeting a constitution, code of by-laws, and rules of order for the government of this body.

It was moved in amendment that the resolution be referred to a special legislative committee to be appointed, and the amendment carried.

Moved by M. O'Halleran and D. J. O'Donoghue:

That this Congress, representing the labor interests of Canada, demand manhood suffrage at the hands of our legislators. Carried.

Moved by D. J. O'Donoghue and T. W. Banlon:

That in the opinion of this Congress any terms or stipulations other than the rendering of an equivalent for wages, insisted upon or demanded by employers in the engagement of employes, should be declared by law null and void; and that any attempt at their exaction be declared a criminal offense, punishable by imprisonment for a specific period on proof and conviction in any court of competent jurisdiction; be it therefore resolved that both the Dominion and Provincial Governments be respectfully petitioned to introduce and pass into law measures to that effect. Carried.

Moved by John Bell and David Ireland:

That this Congress approve of the principles of co-operation and recommend their application to the production and distribution of the results of labor wherever practicable. Carried.

Moved by Wm. McAndrew and D. R. Gibson:

That the Provincial Government be requested to enforce the law compelling children of a certain age to attend school. Carried.

Moved by R. Glockling and A. W. Wright:

That whenever tenders are called for by either the Federal or Provincial Governments, or by any municipality for the building of any public work or the performance of a public service, and where in the building of such work or performance of such service workmen will be employed belonging to a trade or calling in which there is a usual and commonly recognized scale of wages, then none should be allowed to tender who have at any time during the preceding twelve months paid less than the standard wages in such trade or calling, so long as the contract system continues.

THE MONTREAL FIRE.

The Names of the Insurance Companies Interested and the Amounts.

MONTREAL, Sept. 29.—The insurance on Geo. Barrington & Sons' trunk factory and contents, destroyed by fire last night, is as follows: Scottish Union, $8000; Liverpool and London and Globe, $6000; Connecticut, $3000; Royal Canadian, $4000; Fire Association, $3500; British American, $1500; Quebec, $1500; total, $26,500. The insurance represents about 75 per cent. of the total value. The loss is estimated to be about a 75 per cent. one, leaving 25 per cent. salvage.

The fire is believed to be the work of an incendiary, as Mrs. Larkin, who resides at 37 Des Rivieres-avenue, in rear of Barrington's factory, saw a man jump the six-foot fence and immediately after flames were seen issuing from the premises. A searching investigation will be held by the Fire Marshals.

THE FISHERIES COMMISSION.

The President Appoints Two Experts to Act With the Secretary of State.

WASHINGTON, Sept. 29.—The President has invited Hon. Wm. L. Putnam of Maine and Hon. James B. Angell of Michigan to act with the Secretary of State on the negotiations for a settlement with Great Britain of the disputes growing out of the questions connected with the rights of our fishermen in the territorial waters of the Dominion of Canada and Newfoundland. Both of these gentlemen have accepted and it is believed by Secretary Bayard that their fitness for their important duty will be recognized by the country.

Mr. Putnam has been of counsel for the United States for the last two years in cases arising under the law and treaty in connection with the fisheries dispute, and Mr. Angell is President of the University of Michigan and has had experience in international transactions, having been one of the commissioners by whom the latest treaty with China was negotiated. Mr. Putnam is a Democrat and Mr. Angell a Republican.

The Secretary said that their selection was not only a recognition of the two political parties, but a geographical recognition. The interests of the Western States lying along the Canadian border were equally great with the interests of the New England States in securing a settlement of the difficulty with Canada.

From the information received here, it is expected that Mr. Chamberlain will leave England about the end of October, and that the negotiators will meet in Washington by the middle of November.

CHAMBERLAIN'S LATEST.

No One, He Says, is More Friendly Towards America Than He.

LONDON, Sept. 29.—Mr. Chamberlain, speaking at Birmingham to-day, said that no one was more sincerely animated by friendly feelings toward America than he, and no one more desired to maintain the good relations between England and America. He referred to Canada's progress, and, with reference to the fisheries dispute, said it was England's duty to secure for Canada a fair presentment of her claims. He regarded the appointment of the Fisheries Commission as affording an opportunity for cementing the union of Great Britain and her colonies, and the Home Rule question, he said, had no right to claim the first attention of the House of Commons to the exclusion of the question of local government, protection of life at sea, temperance, and other important subjects.

He praised Lord Randolph Churchill as the first statesman in many years who had advanced the subject of economy in political expenditures. He blamed Mr. John Morley and Sir William Vernon Harcourt for not defining their home rule scheme, and he denied that a majority of the people of Ireland really wanted home rule.

A resolution expressing confidence in Mr. Chamberlain was met with a counter resolution of no confidence. An uproar ensued. The resolution expressing confidence was finally carried, about 200 voting against it.

THE GRAND ARMY ENCAMPMENT.

Another Day of Rain Drives Many Veterans to Their Homes.

ST. LOUIS, Sept. 29.—The clouds that cleared away so beautifully yesterday afternoon have returned again, and another rain has set in making everything very uncomfortable. Many soldiers left yesterday and last night for their homes, and the outgoing trains are well filled to-day. Nevertheless the large number that came to stick it out, rain or shine, are enjoying regimental reunions and post receptions which are continually in order. The camps are not deserted, and around the headquarters of the Illinois, Wisconsin and Kansas camps are groups of men seeking, as they have done all week, for comrades almost forgotten. The Entertainment Committee are carrying out the program as originally arranged as far as can be done, and a large number of soldiers this morning took advantage of the excursion to Springfield, Ill., to visit the Lincoln monument.

IT WAS WILFUL MURDER.

SO SAYS M. FLOURENS REGARDING THE FRONTIER SHOOTING.

There Seems to be Good Grounds for Charging Kauffmann, the Guard, with Purposely Committing a Criminal Act—Germany's Reception on the Case Awaited.

PARIS, Sept. 29.—M. Lebigre, a banker at Nancy, who is the lessee of the ground where the shooting on the frontier occurred, and who was one of the party of sportsmen, says: "Our party kept the frontier line a few yards on the left. While descending a path we were absolutely exposed on the German side. When the first shot was fired I heard the hiss of a bullet overhead. Before I had recovered my surprise a second shot killed the keeper, and a third wounded Lieut. Wanner. I summoned the local authorities. We found blood pools on French soil. I requested a sergeant of the gendarmes to mark a tree on the spot. I swear neither challenge nor cry was addressed to us. Had the Germans uttered a sound we must have heard them."

The Account Varies.

BERLIN, Sept. 29.—Two soldiers, who accompanied Kauffmann, aver that they saw Frenchmen trespassing on German territory, and shouted to warn them. The Frenchmen paid no heed to their cries, and attacked the Kauffmann party. The Germans then fired, all concerned being at the time on German soil.

Awaiting Germany's Decision.

PARIS, Sept. 29.—It is semi-officially stated that M. Flourens, Minister of Foreign Affairs, conversing with Count Von Munster, German Ambassador here, on the subject of the frontier shooting incident pointed out, first, that not a single stain of blood had been found on German soil; second, that Kauffmann, after firing, fled, showing that he was conscious of having committed an illegal act. The French official enquiry, therefore, argued M. Flourens, proved that the German agent knowingly committed an offence.

Count Von Munster replied that the Germany enquiry had not been concluded, and he could give no pledge as to what would be done.

M. Flourens hopes to receive to-morrow a despatch notifying him of the decision of the German Government in the matter. The French Government will insist upon the punishment of Kauffmann. The question of indemnity is of secondary importance. The Procurator of Nancy will meet the German law officers at the scene of the incident for the purpose of making a joint examination.

THE BELLEVILLE ASSIZES.

A Dispute About the Leasing of a Farm—A Defective Sidewalk Suit.

BELLEVILLE, Sept. 29.—The following cases were disposed of before Mr. Justice O'Connor at the Assizes to-day:

Wm. Henry Ketcheson v. Elijah Ketcheson and W. C. Platt. The defendant, Elijah, is grandfather of the plaintiff, and the dispute is whether Elijah leased 150 acres in Sidney to his grandson for life, or only 100. His Lordship non-suited the grandson and gave judgment for Elijah and the other defendants.

John H. Gordon v. Corporation of Belleville. This was an action to recover damages for injuries sustained by the plaintiff in consequence of falling on an icy sidewalk on Queen-street near the grammar school and injuring his shoulder. The sidewalk was under the broad projecting eaves of the house of a Mr. Bogart, which has no eave troughs, so that the daily drippings from into a ridge of ice and put the sidewalk in pretty bad shape. The sidewalk had been formerly further out, entirely away from the eaves, and it is claimed that the city ought not to have moved it in. The jury found for the plaintiff, damages $400, but before entering judgment His Lordship is to hear an argument to-morrow as to whether he shall non-suit the plaintiff for contributory negligence in going on the sidewalk when fully aware of its dangerous condition. Dr. Burdett and Mr. Celute for plaintiff, Osler, Q.C., and Dickson, Q.C., for defendants.

AFFAIRS IN IRELAND.

An Old Man Who Resisted Emergency Men Shot and Killed.

DUBLIN, Sept. 29.—A number of emergency men who were engaged in seizing cattle near Arklow, being resisted, fired a volley of revolver and rifle shots. John Kinsella, 60 years old, was killed, and several persons were wounded.

The New Under Secretary.

LONDON, Sept. 29.—Col. Sir Joseph West Ridgeway, recently in charge of the British Commission on the Afghan boundary question, will succeed Gen. Sir Redvers Buller as Under Secretary for Ireland.

Sir Jos. West Ridgeway, Gen. Buller's successor, has arrived here. His appointment to the Irish Under Secretaryship will not be formally announced until Gen. Buller retires, probably a fortnight hence.

A LAND SHADOWED BY SMOKE.

The Bush Fires in the Ottawa District Increasing in Intensity.

OTTAWA, Sept. 29.—The city still continues under its pall of smoke, and reports from all quarters go to show that the bush fires are increasing in intensity. The wind still keeps down and so long as that is the case the city is not in danger. Archbishop Duhamel, accompanied by Fathers McGovern and Bouillon, started this morning to attend the dedication ceremony of the new Catholic Church in the township of March, but after going a few miles into the country they were obliged to turn back owing to the density of the smoke and fog making such an obscurity that the clerical party feared being lost.

Run Ashore at Anticosti.

QUEBEC, Sept. 29.—Telegrams received in town to-day by A. H. Schwartz, Consul for Sweden and Norway, announced that the Swedish bark Suez, Captain Tornstrom, in ballast, consigned to Messrs. Price Bros. & Co., had run ashore on the north side of the Island of Anticosti, and would probably prove a total wreck. The place where the vessel grounded is about forty miles from Heath Point and is said to be very rocky. At latest accounts the tide was flowing in and out of the bark. The Suez was to take in a cargo at one of Messrs. Price's mills on the lower St. Lawrence or Saguenay.

The Negro Trouble in Texas.

HOUSTON, Texas, Sept. 29.—The trouble with the negroes in Matagorda and Brazoria Counties is believed to be settled for the present. The Houston Light Guards have returned from the seat of war. Two negroes were killed in Sunday's conflict. Oliver Shepherd, the mulatto leader of the negroes, has fled the country. There is a considerable apprehension among the whites that the trouble may be renewed.

PARIS, Sept. 29.—The public prosecutor has ordered that an action be begun against the manager of the Opera Comique, two assistants and the firemen on the charge that their culpable negligence caused the destruction of the theatre and the loss of many lives.

The Daily Examiner.

FRIDAY, SEPTEMBER 30, 1887.

A CONFERENCE was held at the sub-Treasury to-day between Secretary Fairchild and fourteen or fifteen of the presidents of the leading banks for the purpose of considering the best means of utilizing the surplus of the United States Treasury so as to protect the money market from the effects of the absorption of money by the Treasury through the collection of the present excessive revenue. There is reason to expect that some definite policy will be formulated. A most effectual way would be to call in the Dominion Government to solve the difficulty. The latter experience no trouble in getting away with all the Canadian revenue and creating besides an enormous deficit.

DURING the past season, says an Ottawa despatch, probably upwards of ninety millions of fish of every variety, taken from the various Government hatcheries, have been placed in the rivers and streams of Canada. At this season of the year the fishery officers are engaged in robbing the parent fish of their spawn. This task is going on in various portions of the Dominion, the salmon being obtained in the Restigouche, New Brunswick. Traps and nets are called into requisition for the purpose, and the fish, after being robbed of their spawn, are returned to the waters. The ova thus collected is sent to the hatcheries, whence young fish are distributed in the following season. The great lakes are being gradually re-stocked with white fish, the American Government also co-operating in the work. Various kinds of trout as well as pickerel and bass are also propagated by the Fisheries Department.

THE *Globe* remarks:—"The Peterborough Town Council have appointed a committee to report upon the best means of advertising the town as an industrial and manufacturing centre. This is sense. If Peterborough is adapted to manufacturing, judicious advertising will not fail to bring its reward. The resolution should be followed up by a vote of censure upon the N. P." The closing suggestion is by no means *mal a propos*. The N.P. may be very useful for promoting new industries but it seems to require a mighty deal of assistance. A farmer wouldn't give much for a highly lauded plough which would go over the ground and require a man and a spade to follow it to turn up the soil. The N.P., indeed goes over the ground, but it requires no end of hard work, bonuses, exemption from taxation and individual enterprise, to cause it to originate new industries. The N. P. reminds one of the innocent remark of a farmer's wife respecting a pet cow—"She's a splendid little cow but she doesn't give much milk."

The Telephone Craze.

Periodically the public have a craze thrust on their notice, at one time it is a golden mine, at another a lead that seeks to draw the hard earnings from the people's pockets. In ancient times it was the South-Sea bubble that turned the heads of Kings and senators who were ultimately engulfed in one grand maelstrom that ruined them by thousands. Montreal just now is quietly being flooded with telephonic schemes as flighty in imagination and as dubious in results as the black angel companies floated in the States, to the financial ruin of those who once prided themselves on being in affluent positions. It is against investing in these imaginary companies that we desire to caution our readers. But yesterday a new scheme was afloat to wipe out the Bell Telephone Company by reducing its tariff to $35 per annum for subscribers; to-day another bubble company, which wishes to reduce the price to $12, is floating in the air. It is needless to say there is little room for the next fifty years for any competition such as is perhaps intended, or intended for sale. From personal inquiry we find that no person, director or otherwise, in the Bell Telephone Company, has ever received any bonus on his stock, and that that company has never sold a share below par for stock gambling purposes. It is not to be supposed therefore that any of the new concerns can place the shareholders in a better condition. Again, the Bell Telephone Co., with its 4,000 or 5,000 miles of lines, connecting cities and towns, offers to its subscribers facilities which no other Telephone Co. can furnish. The Bell Telephone Co.'s dividends, with the practical monopoly of the past eight years, average about 5 per cent. Therefore it is certain that with its economical and conservative management it has been no special bonanza for its shareholders. Its stock sells to-day at about par. With two or three competitors in the field, and the consequent rate-cutting, what prospect is there for dividends from any of them, since it is not to be supposed that the Bell Telephone Co. will retire from the field. This then is a fair financial view of the matter as to the prospect of a new, poor and untried company paying any dividends. Knowing the large number of our subscribers who are share holders in the Bell Telephone Co., we should be base to our trust did we not try to protect their interests as well as prevent others from losing large amounts of money by investing in new bubbles which cannot by any possibility pay a fair dividend, if any at all. We find on still further enquiry that the Bell Telephone Co. has to-day about 14,000 sets of instruments in use, and owns between 4,000 and 5,000 miles of line, connecting cities and towns in Canada and the United States. It has also the exclusive right to connect with the system of the American Bell Telephone Co., in the United States. Any person at all familiar with the business and the cost of construction can readily see that no company could duplicate this construction without a very large capital. Opposition may be a good thing, and where it has a chance of success a creditable thing, but where in common sense is there anything to be made with three or four companies in such a small population as we have in the Dominion of Canada? We have therefore two desires in this matter, the first to protect our friends who have already invested in one company, and the second to protect those who may be solicited to invest in certain losses. Finally, what is there to prevent the Bell Telephone Company, with its wealthy and paid-up organization—in case of a doubtful success of their rivals—*reducing the price of their subscription to such a point as would wipe out all and sundry who oppose them by a tariff on which none but themselves could subsist?* —*The Shareholder and Insurance Gazette.*

A Mammoth Industry.

At the last council meeting a delegation was appointed to proceed to Toronto at once and interview a couple of representatives of an immense English screw manufacturing corporation, who had come to Canada for the purpose of starting a branch concern. It was the intention of the Peterborough delegates to endeavour to induce them to locate here. Tuesday morning a message was sent to Mr. Geo. A. Cox, then in Toronto, to ascertain if they were in the city. The reply came that the English representatives had left the city, and their present whereabouts was unknown, but he would notify the delegation upon their return. So the matter stands at present. The representatives are from the firm of Nettleford and Sheers, Birmingham, England, the largest firm of the kind in the old country. Mr. Nettleford is a cousin of the great Radical leader, Wm. Chamberlain. Mr. Chamberlain was the patentee of the article manufactured, and is a shareholder in the firm. Owing to the high Canadian tariff the English goods are practically excluded from the colonial market, the duty amounting to more than the cost of the goods. To secure a market here the firm intend establishing a large manufactory. It is understood Montreal has secured the industry, which will be the largest in Canada, employing some 700 men. The Englishmen are going into business on a mammoth scale. Such an industry would be a big thing for Peterborough, but it is feared all efforts to secure it will come too late.

GOUGH

THE WONDERFUL CHEAP MAN,

Is waging a relentless war on Long Prices. He has not been awarded the contract of Clothing the Standing Armies but that Greater and Nobler Army—The WORKING MEN of Our Fair Canada—appreciate his generous ambition to furnish them with Reliable Goods at Wholesale Prices.

Other Dealers wonder how Gough can Under sell them. The explanation is easy, he is one of the Largest Dealers in Canada and pays cash for everything. He is thus in a position to take advantage of the markets and secure Great Snaps in the way of Bargains.

No man in his sober senses will deny that a good Bankrupt Stock bought at 40 or 50 cents on the dollar is not cheaper than the first cost of manufacture, and therefore were Gough to say he could sell Goods cheaper in many instances than even the largest Wholesale Firms, he could prove it.

I ask a fair thinking public, then, if Gough has to stretch his conscience very much when he states that the unfortunate dealer who is under the thumb of the Wholesale Houses actually cannot buy as cheap as Gough can sell.

A visit to his Great Clothing Emporium either in Toronto or Peterborough will satisfy the most skeptical that this is the absolute truth. He has come to Peterborough to stay and is bound to preserve the Splendid Reputation he has already acquired for durable, Stylish and Well Fitting Garments at prices at least 25 per cent below those of other dealers. Let no man, then, go ragged or shabby, no matter how poor he may be, but let him go straight to the People's Friend.

Our trade Saturday far exceeded my expectation. Overcoats and Fall Suits moving lively—they are so cheap people cannot resist buying from

ONTARIO REFORMATORY FOR BOYS, PENETANGUISHENE, Feb. 9, 1887.

DEAR MR. LECH,—The Coat and Furs for my daughter, duly reached me last week and I am perfectly satisfied with them, indeed, they reflect the highest credit on your Establishment and thorough good taste and judgment in your selection of the skins used. I now enclose you my cheque on the Bank of Montreal for the sum of $120.00 amount of indebtness to you as per account rendered. Kindly sign receipt and return it. The Coat fits me beautifully, but requires another fastening near the throat, please send me one.

WM. LECH, PETERBOROUGH. I am Yours faithfully, WILLIAM P. BAND.

But with regret we must acknowledge that instances come to our notice, which by book we have disproved, where goods of us received credit as having been bought in some larger city. The motive of this action being, no doubt, to make the articles in question appear more valuable. Such action, although not creditable, is quite useless, as we claim to manufacture only such articles in Fur Goods as will uphold that reputation of which we feel justly proud.

LATEST SPORTING NEWS.

The Baseball Scores—Other Items of Interest to Sportsmen.

SANDY HOOK, Sept. 30.—At 5.30 this morning the fog was so dense here that it was impossible to see objects at a distance of 100 yards. The wind was then from the east, 7 miles an hour. A drizzling rain was falling, which added to the unpleasant situation caused by the fog. At 10 o'clock the steam fog horn was going full blast at minute intervals, showing that the fog was dangerously thick. The Thistle remained in the Horse Shoe last night, but at 6.30 was off Sandy Hook under sail making for the starting point. During the night her ballast was shifted, and she settled down by the stern a great deal. Mr. Bell, however, said he was satisfied with the vessel's trim. To lighten the racer her big davits, six in number, were sent ashore at the railroad dock. At 12.30 o'clock the wind shifted to the south, a free run home should the yachts start. The wind is six miles and picking up. The fog is thick.

The race has been declared off for to-day, the wind having fallen, and the fog being very heavy.

It has been decided that the Volunteer and Thistle shall race to-morrow if the weather conditions are favorable.

Richard J. Nagle of St. John, N.B., challenges James Ten Eyck to row three miles, with a turn, against Harry Vail, for $250 a side.

George Smith has posted $100 forfeit and challenges any man in the world to run 300 yards for $500 a side.

The challenge billiard discount match of three games, fifty points each, between Messrs. Knox and Fitzgerald for $100 a side, came off at Montreal Wednesday night before a large turn out of spectators. Knox did the "three straight." The scores were: Knox, 50, 50, 50; Fitzgerald, 20, 35, 41.

VOTING ON PROHIBITION.

The Ladies of Tennessee Work Hard to Drive Whisky Out.

CHATTANOOGA, Tenn., Sept. 29. — The weather is pleasant and a very heavy vote on the Prohibition amendment is being polled in the city and adjacent country. Indications point to a large vote in the state. Ladies are at the polls working for the amendment, and prayer meetings are being held at all the churches. The "Antis" are confident of a heavy majority.

Despatches from all sections of the State indicate that the prohibition election passed off quietly and that the largest vote ever cast was polled. No definite figures can yet be given on the result. Ladies took an active part in the election. At every polling booth there was a lavish display of banners, among them being "Vote for God, Home and Tennessee to-day," "Vote for Mother, Wife and Sister; they have no defense save your ballot," "The women and children of Tennessee appeal to the manhood of the State."

The Result Still in Doubt.

CHATTANOOGA, Sept. 29.—Despatches to The Times from all sections of the State, representing 100,000 out of a total of 250,000, give a majority of about 5000 against the amendment. The returns are a complete surprise and upset all conjectures. The chances favor the defeat of the amendment. Great excitement prevails in this city as the returns come in. Both parties are claiming the State.

In Brief, And To The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

Children Cry for Pitcher's Castoria.

"What is McGregor's Specific (from it)?"
It is for Dyspepsia, Liver Complaint, Indigestion, Biliousness, and it is the finest blood purifier in the known world to-day.
"Does it give satisfaction?"
We cannot point to one instance where it did not.
"Where does it have the largest sale?"
Right in the city of Hamilton, where it is manufactured, there has been over one thousand dollars' worth sold in the last year or so, and the great majority of the sales are by one recommending it to another. For sale at 50c. and $1.00 per bottle by John McKee, Druggist. eodw35

Restored.

Mrs. J. M. Pinion, of Sydney Mines, N.S., had chronic rheumatism for two years' and got no relief until she tried Burdock Blood Bitters. Two bottles cured her. "I was like a skeleton," says she, "before using B. B. B., now thanks to the discovery of such a valuable remedy, I am entirely restored to health." 2w38d

I have been bothered with catarrh for about twenty years. I had lost my sense of smell entirely for the last fifteen years, and I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did. My sense of smell is partly restored; it seems to be improving all the time. I think there is nothing like Ely's Cream Balm for Catarrh.—Mrs. E. E. Grimes, Rendrill, Ohio. eodw30

Ladies troubled with Pimples, Blotches, Rough Hands or Face, or Sores of any description, should use McGregor & Parke's Carbolic Cerate. It will leave the skin in perfect health, smooth, clean and good color. Be sure and get the genuine, made by McGregor & Parke. Price 25c. Sold at John McKee's Drug Store. eodw35

Well Tested.

"I was nearly dead with cholera morbus, one bottle of Extract of Wild Strawberry cured me, and at another time I was so bad with summer complaint that I thought I would never get over it, when two bottles cured me." Mrs. E. Askett, Pell, Ont. 2w38d

A Lucky Escape.

"For six years I suffered with my throat and enlarged tonsils. I was very weak; I doctored four years and had advice from three doctors; they said I would have to undergo an operation. I tried B.B.B. instead. One bottle cured me." M. A. Squelch, Raglan, Ont. 2w38d

Indispensable.

"I have used Dr. Fowler's Extract of Wild Strawberry for summer complaints, and have given it to my friends. It gives instant relief when all other remedies fail. I would not be without it in my house." Mrs. T. Bell, Weldman, Ont. 2w38d

THE WAR CLOUD BUSTED.

VICTORY has Perched on the Banner of

PETERBOROUGH'S GREAT CHEAPSIDE!

And SHEPPARD, by common consent, will get $1,000 for being the **Cheapest Clothier in Peterborough,** having knocked the Wonderful Cheap Man completely out. "Business is Business; Dirt is Dirt, and when it comes to throwing Dirt, then Count" the only original teddy out, and he will hand over that $1,000 like a little man: For the following reasons:—

Sheppard sells a full size Man's Suit for $2.95, and better Goods than a Suit to fit a Child about 9 years old sold by the Wonderful Cheap-Man on Saturday for $3.00; but marked $3.50. This is how it was:—A Lady purchased a Child's Suit on Saturday last, Sept. 17th, 1887, at the Store of the Wonderful Cheap-Man. It was marked thusly:—Lot 5375, Breast 27, Waist 26½, Age 9, Price $3.50. It was pure Shoddy, being held together by cotton threads, and Sheppard is free to say that that was the dearest Suit sold in the Town of Peterborough for the last two years. **Full particulars are given because of the $1000 involved, and, further, that this decides who is selling the Cheapest Clothing** in Peterborough. SHEPPARD would have sold that Lady a Suit, Pure Wool for that money, and worth two of the one she got.

$1,000 to Go to the Charitable Institutions of Peterborough.

I had first decided to give the agencies a chance of jumping up my rating that $1.000, but after considering the matter and finding that never in any case have I been asked for an endorser to my paper, and that no relative or any other persons have ever endorsed my paper to the extent of one cent, I have come to the conclusion my credit is as good as yours and will ask you to hand over the $1,000 to the Charitable Institutions of Peterborough.

Now, Sir, there is a good story told the truth of which can be vouched for, but for the honor of at least making an effort to keep up your self-styled name—The Terror of High Priced Clothiers—do not allow the same to be said of you in the case above. A man purchased a suit for $15.00 at the store of one of the largest Advertisers in that section of country. It was guaranteed pure wool; but after examining it carefully at home, he came to the conclusion that he had been dealing with some one sharper than himself. Finding a make of wool, differing some from anything he had ever seen, it dawned upon him, that he had heard of wool of that kind, so the suit was returned. The merchant bet $25.00 that it was all wool, and the bet was accepted the decision being left to a neighboring merchant, he found that the $15.00 suit, was wool faced and shoddy back, pure unadulterated shoddy, but what of the $25.00 bet, was it paid, not much—muchly—as it were.

SHEPPARD is making Wonderful Strides in Securing Marvellous Bargains in Dry Goods, Clothing, Hats and Caps.

A Clergyman's Jubilee.

The Jubilee of Dr. O'Meara, Canon and rector of St. John's church, Port Hope, was celebrated Tuesday. A number of clergymen were present and delivered congratulatory speeches, while addresses from the Ministerial Association and several congregations were read.

Everybody cordially invited to look through Turnbull's Magnificent Stock of Millinery, Mantles, Dress Cloth and general Dry Goods on the 6th, 8th, and 9th.

A Timely Convenience.

The placing of illuminated dials on the town clock would be a great convenience to the public. As it now is the face of the town clock is a closed book after the hour of six o'clock, or even before in winter. In a live town with so much business and street traffic, and so many night trains to catch, the illuminated dials would be a very great convenience.

An Editor's Experience.

Tuesday morning the editor of the Bowmanville *Statesman* was attacked by Mr. Levi Tole, who objected to a personal remark made by him. For his pugilistic attentions Mr. Tole was mulcted in a fine amounting to nearly $6 by the police magistrate. The editor, in this week's issue, treats the whole matter lightly, as though it were an everyday occurrence of no particular importance.

Forest Fire.

The smoke which has been irritating the eyes and bronchial tubes, arises from the girdle of fire which environs the town. The back country is almost in flames, while Douro and Otonabee contribute their quota. In the latter place the swamps are being burnt, tree and soil, and the local market for cedar will be by no means glutted. The smoke was so bad over Stony Lake on Wednesday that the steamers could not run.

An announcement of the grand concert under the auspices of the new Canton will be given at an early date, at which an exhibition of sword exercise will be given.

At the regular drill Wednesday night Chevalier D. E. Moore was shown a letter received by Capt. McNeil, conferring upon him (Chevalier Moore) the position of Commander, with rank of Lieut., special aide-de-camp to Colonel Slatter, Toronto, of the First Regiment of Ontario.

Chevalier Moore replied that he would accept the position with pleasure, and considered it an *honor, not to himself personally*, but to the canton to which he belonged. The chevalier made a neat little speech, at the conclusion of which the canton lieutenant called for three cheers for the newly appointed officer, which were given with a tiger. The members of the canton are highly pleased with the appointment, and feel that no more deserving one could have been selected for the honor. [Not only in the *canton* but outside among Mr. Moore's many friends the greatest satisfaction will be felt over the handsome recognition of the worth of one who is well known and highly esteemed in town.

Another drill will be held this (Friday) evening.

The Mission at St. Luke's.

The mission services at St. Luke's Church, Ashburnham, still attract large congregations. On Thursday evening the subject was "Salvation" and the address was listened to with rapt attention. As usual, singing took up the first half hour, the missioner, Rev. E. P. Crawford, leading with his fine voice, which he does not spare. He said that salvation was a subject that one would think would be understood, but he did not think it was. He said he did not come to attract people with eloquence, or wisdom of man's words, but to hold conference with them in simple language on the simple foundation truths touching their eternal welfare. They should be sure of the foundation before they started to build. He gave a splendid address, partly by way of parable, on God's plan of salvation, showing the love of God to His children, and His desire that they should come to Him and enjoy Him forever. The subject to-night will be "Sanctification." On Sunday afternoon at 4 o'clock there will be a meeting for men only.

At the Wieting.

Leech & Stevens' Dramatic Company presented "Ten Nights in a Bar Room" at the "Wieting" theatre, Syracuse, on the 9th instant, and the *Standard* says of the play :—"The old melodrama, the old realism, and the old moral were not missing at the Wieting Opera House in the revival which "Ten Nights in a Bar Room" had there last night. The company acting in the old play gave its scenes and situations with every earnestness and received from the audience cordial approval. Serious and comedy parts got their share in turn of the applause, and as the touching story of the play was unfolded, interest in the outcome was as intense as it was years ago. "Ten Nights in a Bar Room" has been shelved so long that it is to-day almost a new play. The *services* of the Brooklyn Church Choir quartet are made very acceptable as the play progresses. They sing in fine voice and perfect unison." The above play will be presented by the same company at Bradburn's Opera House this (Friday) evening.

"Examiner" Fall Fair Advertiser.

The reader is informed that the eighth issue of the EXAMINER Fall Fair Advertiser, is being distributed, and if the advertisements it contains are diligently perused, will result in a large saving to him in making his fall purchases. The business announcements it contains are worthy of the careful attention of the reader. It will be to their interest to study them with care, for they are the advertisements of our most reliable and progressive business men, who present the best bargains, and who show the most extensive stock of goods. A man who thus prominently introduces his goods to thousands of readers, is not afraid of the inspection by the public which they invite. Read the advertisements with the attention they deserve, act on the information therein contained, and you will have no occasion to regret it.

Only Once in a Life Time.

Young man, forget not that it is only once in your life time that you will ever attend a business college. It is of the utmost importance where you attend. The Peterborough Business College claims your patronage solely on the following grounds:

1. A business education is a necessity.
2. This College is thoroughly equipped with every office and school convenience.
3. The Faculty is the largest connected with any school of its kind in Canada.
4. Every member of the Faculty is practical, experienced and thoroughly qualified.
5. Students, graduates and business men recommend our course as thorough and practical.
6. Our graduates are successfully filling responsible positions, or conducting fine businesses for themselves. PETERBOROUGH BUSINESS COLLEGE. dw

It is enough simply to say to the Public that Miss Mahoney has been doing her best to make Turnbull's Millinery Opening a grand success. Remember the days are Oct. 4, 5, and 6.

A Grand Chance for Homes.

Attention is directed to the advertisement of Mr. John Carlisle, offering for sale in the village of Ashburnham, a short distance east of the residence of Mr. J. Z. Rogers, a number of most desirable building lots. The soil is excellent, the lots are high and dry and thorough drainage is easily practicable. The frontage is south and the conditions favorable to making pleasant homes are all present. The streets are 66 feet in breadth. There are six new houses going up on these plots, which are only 12 minutes walk from the new post office. The prices asked are from $150 to $250. Terms easy. No better chance was ever presented for every man securing a free hold-home on easy terms.

Fighting the Fire.

The bush fires are burning in dangerous proximity to the Nassau Mills. Yesterday afternoon Mr. Irwin arranged with the Peterborough fire department for a supply of 1000 feet of hose in case of emergency. He had at the mills another thousand feet of hose of his own and a water pressure of 90 lbs. The bush fire was just a thousand feet beyond the reach of the hose in his possession, and should the wind have arisen and blown in the right direction his property would have been greatly endangered. Mr. Irwin, therefore, prepared for possible emergencies which have not as yet, fortunately, arisen.

On the 6th, 8th and 9th of Oct., look out for the New Balmoral, Jockey Club, Murray Hill, and Volunteer Hats at Turnbull's Millinery Opening.

An Interesting Meeting.

Two Young Missionaries to Obtain Address a meeting in the Y.M.C.A. Hall.

A missionary meeting of great interest was held in the Y.M.C.A. Rooms on Thursday evening. The place was packed to the doors by 8 o'clock, and many were turned away for want of room. The speakers were two young men, Messrs. A. R. Saunders and Fred. Redfern, who are leaving at once for mission work in the far interior of China. The chair was taken by the Rev. I. Tovell, who conducted the opening exercises, and in the course of his introductory remarks, said that if there was one thing more than another in which the Young Men's Christian Association deserved the esteem of the churches, it was their interest in foreign mission work, as shown in supplying so many of their members for that service. He then introduced Mr. Saunders who, till lately, had been Assistant Secretary of the Toronto Y. M. C. A. Mr. Saunders gave an earnest, powerful address, setting forth the claims of foreign missions from a scriptural stand point. He also gave a few particulars of the China Inland mission, in connection with which these young men are going forth. It is an undenominational society formed by Rev. J. Hudson Taylor in 1853. It had last year in the field 225 missionaries. This year about 120 new missionaries are being sent out, secured in answer to definite prayer. The mission has never asked a human being for pecuniary help, but all its wants have been supplied. God's command is to "preach the gospel to *every* creature, and every child of God should obey that call. God has not degrees of love. His love to the Chinese or Soudanese is as great as to the Canadians, and his gospel is meant equally for them as for us. The world-wide demand for more laborers is very great. Two whole provinces in China alone, with a population four times as great as that of Canada, are yet untouched. How can we escape from this call, "Go ye into all the world"? He was in Toronto two years ago, when the North West rebellion broke out. *The command* came from headquarters that the Queen's Own and the Grenadiers were to muster next morning at 8 o'clock, for service. At the appointed time the men assembled, saying in effect, "Here am I, send me." If any did not muster they were quickly arrested, wherever they might be, and brought to the drill shed. But though all responded, all were not sent to the North West. Some were kept for apparent home defence. So what we need is willingness to be placed wherever God would have us.

Mr. Redfern, a young Englisman who goes in the same party as Mr. Saunders, then sang, in very good voice, a piece called "Go Ye into all the World", the audience joining in the chorus. Mr. Redfern, on being called upon for an address, said that they were going in obedience to the command they had just sung, and in going forth were without fear, trusting in Him who was sending them. He gave some statistics as to the need for work in China, and as to what was being done. The people were thirsting for the Gospel, and any one going there might be certain of a parish of at least half a million souls.

The collection was taken and a hymn was sung after Mr. Redfern had finished his address, and the chairman called on the ministers present to make a few remarks. The Rev. Mr. Torrance felt humiliated that he had done so little in obeying the Saviour's command, which had been so strongly presented by their young brethren this evening. He hoped God's richest blessing would accompany them. The Rev. Mr. Wallace felt as did Mr. Torrance. It seemed to him that we were coming back to the apostolic days—so many young men are now forsaking all to preach the gospel among the heathen, and are going forth with so great a measure of the apostolic power. On his own behalf and on that of the audience he wished the young men a hearty God-speed.

The meeting was closed with the verses of the hymn "All hail the power of Jesus' name," and prayer by the Rev. Mr. Torrance.

A Nut For Meteorologists.

A most unaccountable circumstance, in view of the extreme heat and aridity which has characterized this summer and fall, is noticed at the Wm. Hamilton Manufacturing Company's Works. There the supply of water from the creek has not given out during the whole period. They have a water-wheel so geared with the machinery as to co-operate with the engine in the spring, winter and fall when the water is sufficiently high, but during the summer months it has invariably until the present time been shut off from lack of motive power. Strange to say, however, this summer, the hottest and dryest for a long number of years, the water supply has been more than sufficient to keep the wheel moving steadily. This phenomenal state of affairs is causing much comment among those who take an interest in studying out the problem.

The Volunteer and Thistle.

Intense interest is manifested all over the English speaking world over the great international race between the Volunteer, America's prize yacht, and the Thistle, Scotland's representative. Excursions are run from Canada to New York to witness the event, of which many take advantage. However an important sporting event may draw such crowds, the fact cannot be denied that Elliott and Tierney's bargains in groceries draw a great many times more. Their store is stocked with the purest, the cheapest and the best assortment of general groceries to be found in town. Read their advertisement for prices, etc., then call and purchase. Remember the place, Elliott & Tierney, grocers, George street.

Where we are Superior.

1. In office and business practice.
2. In teaching and writing shorthand.
3. In systematic type-writing drill.
4. In teaching rapid business writing.
5. In rapid results in book-keeping.

8. In low cost for best course.
9. In sympathetic interest in students' progress.
10. In carrying out every promise with our students.

dw PETERBOROUGH BUSINESS COLLEGE.

The Bold Tramp.

The residence of Mr. Hugh B. Meharry, at Fairmount, in the 12th concession of Cavan, was entered by someone between eight and nine o'clock Wednesday forenoon while the occupants were out threshing, who took Mr. Meharry's gold watch and $11 in cash out of his clothes. The thief evidently entered the front door and left by the back way, and in his harry or carelessness in getting over a rear fence he dropped the watch. His footsteps were traced to where the watch was lying. It is supposed to have been the work of a tramp.

A Dearth of Crime.

A moral wave has apparently struck the town. There has been no session of the police court for a few days past, and prospects are bright for a continuance of this order of things.

THE "VOLUNTEER" WINS.

A special despatch from New York, received over a private wire about a quarter to three o'clock this afternoon, states that the Volunteer defeated the Thistle in to-day's yacht race by a mile and a half.

Lakehurst.

Annual Tea of the Presbyterian Congregation.

The annual tea held in connection with the Presbyterian Church, Lakehurst, Harvey, took place on Wednesday with great success. Tea and refreshments were served from four to 6 p.m., when an adjournment took place to the church. Mr. Stratton, M.P.P., occupied the chair, and gave a short address on the "Use and Abuse of Church Socials"; Rev. Mr. McEwan, of Lakefield, addressed the people upon the subject, "Have Definite Ideas", making his subject the basis of impressing the importance of having distinct aims in life and cultivating decision of character, especially in moral matters. Rev. Mr. Fitzpatrick also gave an excellent and timely address. The remainder of the intellectual part of the entertainment consisted of readings, music by the choir and by the Chemong Indian band. The receipts of the entertainment amounted to $107. The silk patchwork autograph quilt presented to the congregation by Mrs. McMartin, of Lark Hill, was accompanied by $31.00 the "fees" of those who had the privilege of giving their signatures. Instead of disposing of the quilt by auction, it was announced to be given to the lady who collected the most money for church funds on the spot. Miss Reid, accompanied by Mr. Renwick, and Miss Bond by Mr. Harry Reid, canvassed the audience. The latter secured $17.12 and the former $19.24, thus winning the quilt. Miss Reid, however, generously waived her right and gave the quilt back to the church to be disposed of at the next social. The quilt netted the handsome sum of $37, and is still an "available asset". The tea was throughout a gratifying success, and will be further noticed by our correspondent in the district.

Personal.

Mr. C. B. Routley, accompanied by Mrs. Routley, leaves to-day for an eight-day's trip to Chicago. Mr. Routley, with an eye to the wants of his customers, will avail himself of the advantages presented by the markets, and will doubtless return with something new and attractive in the way of "Yankee notions".

Oyster Rooms Open.

J. C. Craig has opened out his two comfortable oyster parlors on George street, where the delicious bivalves will be served up at all hours, in any style desired. Drop in and try Johnny's stews. Steaks, mutton chops and tea and coffee served until 12 o'clock at night. d

Unimproved.

Rev. Father Conway's condition is unimproved. Reports are numerous regarding his death, but these are all astray. At latest reports he was alive, but growing steadily weaker.

Now Open.

Chamberlain's oyster parlor is now open for the season. Oysters will be served at all hours in styles to suit the tastes of our patrons. After this week shell oysters will be kept constantly on hand. Porter-house steaks, chops, etc., prepared on the shortest notice. d

The Morning Times.

Owing to an accident to the machinery in the *Times* office, there will be no paper tomorrow morning.

NEW JUDGESHIP OPENED

BUT ALREADY A MAN FIT TO FILL IT HAS BEEN FOUND.

The Government Decides to Manufacture at Quebec the Ammunition for the Militia, and to Have the Clothing for Volunteers Made in Canada.

OTTAWA, Sept. 30.—An order-in-council has been passed bringing into immediate effect the Supreme and Exchequer Court Act passed last session, which practically creates a new court for exchequer cases and specially all cases against the Government arising out of contracts, expropriations of land, etc. Who the new judge of this court will be has not been officially announced, but it is rumored, on what is usually excellent authority, that it will be Mr. George W. Burbidge, Q.C., Deputy Minister of Justice. Mr. Burbidge is a barrister of seventeen years' standing at the bar of New Brunswick, and has also been admitted to practice at Osgoode Hall, Toronto.

The Transplanting of the Lobster.

The Fisheries Department has about completed arrangements for the transportation early in the month of November of a car load of live lobster from the Maritime Provinces to the Pacific Coast. The car will be especially fitted up for this purpose. Experiments show that lobsters can be kept in a healthy condition for a sufficient length of time to ensure their reaching Vancouver, barring accident, without losing life. As an outcome of this the department anticipates a successful propagation of the lobster in the Pacific waters, where none are now known to exist.

Postmaster at Galt.

It is understood that Mr. Thomas Cowan has been appointed Postmaster of Galt in place of the late Wm. Quarrie.

The Soloed Jersey Cattle.

The matter of the Jersey cattle seized at Rock Island, in Quebec, as having been imported in violation of the statute and for non-entry at the customs will probably be handed over to the Department of Agriculture for a decision, which is the usual course in such cases.

Home Manufactured Preferred.

It is understood that in future only Canadian made projectiles will be used in the Dominion. Hitherto English shells have been used. The experiments with the Canadian article manufactured in the Government factory at Quebec have been so satisfactory that henceforth the establishment will be entrusted with the task of supplying all the Canadian batteries. Projectiles for breech-loading guns will continue to be obtained from England, but there are only three of those weapons in use in Canada.

The Northwest Central.

In conversation to-day about the Northwest Central Railway, Senator Clemmow said: "The construction of the road was commenced last week at Brandon, and the work will be pushed on until fifty miles are constructed this year. We expect to complete 100 miles or more next year. The whole length of the proposed line is 450 miles—from Brandon to Edmonton—but the company intend ultimately to build the line to the Pacific Coast. The construction of the line to Edmonton will, however, be pushed to completion at once."

The Paradis-Gilmour Case.

It is rumored that should Gilmour & Co. actually carry the Paradis case to the Privy Council, as they have been granted leave to do, Premier Mercier will go to England and argue the case in the interest of Father Paradis and the settlers in Egan.

Military Clothing will be Made in Canada.

The Government is so well satisfied with the experiment tried last year of procuring clothing for the volunteers in Canada, instead of importing from England, as has been the custom heretofore, that it is understood tenders will shortly be invited for the supply of five thousand tunics of Canadian manufacture.

Bribery by Agents will be Admitted.

It is understood that the friends of Sir Charles Tupper have decided to admit bribery by agents and allow his election for Cumberland to be voided. The personal charges against Sir Charles will be dropped. This will make four vacancies in the Commons from Nova Scotia: Colchester, Cumberland and Victoria, represented by Conservatives, and Yarmouth, represented by a Liberal.

THE THISTLE IN THE REAR

THE VOLUNTEER A WONDERFUL WORKER TO WINDWARD.

Owners of the Scotch Yacht Accept the Defeat as Fair and Honorable.

NEW YORK, Sept. 30.—The second attempt to sail the second race in the two-out-of-three match for the America's cup was accomplished to-day under circumstances that compelled the most ultra Britisher to say that the cutter Thistle was beaten—beaten on the wind. The victory of the Volunteer was not thoroughly admitted by the foreigners. The latter allowed that they were beaten to-day, but said that the race on the inside course was not a fair one in itself. They also said that the Volunteer, having won the inside course race under circumstances unfavorable to the Thistle, there was little chance for the latter, as a beat to windward and return was no test of a sailing vessel's real power. A fair match, according to these authorities, should be one that included reaching to about one-third of the extent of beating and running. But the Volunteer won for the second time in succession under the America's Cup rules which the Thistle people were quite well posted on when they challenged for the cup.

The Fog Banks Down the Bay.

The day did not open propitiously. The same old storm that had been hanging about for two days was still lingering, and the bank of fog that showed yesterday was under the skies to warn observers that it was always ready to kick up a sea and to leave others to explain why it should do so. Anyhow, it was there and in the upper bay there was little wind with it. Therefore the inference was that there would be a duplicate day of yesterday, all fog and sea and no winds. But the inference was a wrong one. When the boats got below Sandy Hook they found a right kindly breeze, and at once all hands became lively. They saw they were going to have a good race. They were right. The excursion boats came down to the number of twenty-five, and these, together with the steam yachts and tugs with private parties aboard, swelled the number to fifty. Everyone of the 25,000 spectators saw as square a race as was ever sailed in any waters.

The Preparatory Signal.

The contestants were at the starting point in good season, as was the Electra, flagship of the New York Yacht Club, with the committee of judges on board. It was precisely 10.30 a.m. when the preparatory signal was given. That was the time stated in the circular formally issued by the committee. At that time the excursion boats and steam yachts had gathered about the line formed from the Electra and anxiously awaited the starting signal. The prospects for a race were good but still far from satisfactory. The fog had thinned out sufficiently to render sailing through it safe enough, and a fifteen mile breeze challenged the cup contestants to test their mettle. But sightseers would have to keep up close and use their best eyesight in order to keep track of the skimming yachts. The wind being from the east determined the course. It was twenty miles to windward and lay out to sea.

The Thistle Leads at the Start.

At 10.40 the gun to start was given. At that moment the Thistle and Volunteer were southeast of the line, not 200 yards apart, each working gradually to the line. The Thistle was nearer and went away on her trip nearly four lengths ahead of the Volunteer. The yachts started as follows:

	H. M. S.
Thistle	10 40 21
Volunteer	10 40 50 3-5

They went over on the starboard tack, and the Volunteer at once began to outpoint and outfoot her opponent. The course was northnortheast for twenty miles to windward and return before the wind. The weathering qualities of the yachts were seen at once. The Volunteer outpointed the cutter by nearly two points, and won the race by the masterly manner in which she went to windward.

Fine Windward Work by the Volunteer.

The first tack, which was a long one, 7 miles, decided virtually the race. The Volunteer put to windward of the Thistle in a way that satisfied all spectators who knew anything about it that the American boat would win. In each tack that followed the Volunteer continued to get to windward and to get ahead as well. Tack after tack showed up the same thing, and tack after tack showed the sloop was beating the cutter. The Volunteer took five tacks in reaching the outer mark. The tug B. I. Haviland and the Thistle required six. This is remarkable in that every time the cutter went about it she did it in quicker time than the sloop and that it has always been claimed that the cutter could point closer than the sloop. But the fact remains. A careful estimate of the time each boat took to go in stays was made, and this was the result in seconds:

Volunteer	25	25	22	23	25	
Thistle	20	22	22	21	21	22

The wind at the start was blowing about twelve miles an hour. It maintained that velocity all the way out, except during a period of perhaps twenty minutes, when it let down considerably, during which time the Thistle people claimed that they were becalmed, while the Volunteer held the wind. Really the contestants were equally affected. The yachts rounded the outer mark like this:

	H. M. S.
Volunteer	2 26 30
Thistle	2 41 00

Running Before the Wind.

The boats set their spinnakers coming home, and the question as to whether the broad cutter could go fast enough before the wind to make up the latter's gain in windward work was soon to be decided. The Volunteer had a lead of fully 2½ miles when the Thistle rounded, and that was not diminished very much on the run. The Thistle was first to take in her spinnaker, but the Volunteer followed suit immediately. This move was occasioned by the fact that neither boat could make the lightship with the wind aft. A haul up was necessary. On the run home the wind let up as well. It dropped to ten miles an hour, yet the Volunteer got there all the same. The accompanying boats tooted their horns in grand style at every possible opportunity, and the spectators, by cheering and the waving of handkerchiefs, evinced their delight at the result.

The steamboats had much trouble in getting back to the finish line in time to see the Volunteer successfully defend the America's Cup, and most of them waited to see the Thistle round the outer mark. That detained them nearly fifteen minutes, but once under way for home they maintained a jolly speed and leaving the Thistle far astern they got there in time to see the American sloop cross the line (a winner by 11 mins. 48½ sec.) The following table gives the figures, including the six seconds' allowance that the Volunteer had to give the Thistle on a forty-mile course:

Yacht.	*Start.*	*Finish.*	*Actual.*	*Corrected*
	H. M. S.	H. M. S.	H. M. S.	H. M. S.
Volunteer	10 40 50½	4 21 47	5 40 56½	5 40 56½
Thistle	10 40 21	4 36 13	5 56 51	5 56 45

In the windward work the Volunteer beat the Thistle 14 mins. 40 sec. and on the run before the wind the Thistle beat the Volunteer 2 mins. 54½ sec.

Charged to the Centreboard.

After the race Mr. Bell admitted that the Volunteer, with her centreboard, had fairly beaten the Thistle on the racing to windward. He was rather inclined to the opinion that a centreboard was a pretty useful thing. He insisted, however, that the courses laid out by the America's Cup Committee were unfair. He said that he fully expected to win the inside race and the triangular, or the third race, because he had no doubt that the Thistle could easily beat the sloop in running and reaching. "If," he said, "we could have had, as we have at some places, races over a four or three-sided course, the points of reaching and running would be so fairly demonstrated that in them the real tests of a boat's qualities would be had, and in them we would easily prove our superiority. As it is, we are glad to have been beaten by so gallant a yachtsman as Gen. Paine."

The Thistle is for Sale.

"Is the Thistle for sale?"

"Yes, she is. She can be bought for $50,000. If a purchaser is not found quickly she will be sent home."

Mr. Bell was asked if the New York Yacht Club or any other club offered a purse for extra class sloops and cutters from $2500 to $5000 would the Thistle be entered. "Certainly," was the prompt reply. "It is at least a satisfaction to be beaten by such a boat," said Mr. Bell. "I do not feel that it is any discredit to the Thistle. The American people have certainly shown us every courtesy since we came here and I shall carry back pleasant memories of my visit here."

They Will Try Again.

Mr. Bell, correspondent of The Glasgow Herald, says that a challenge for the cup will surely come next year.

What the Thistle Must Have.

GLASGOW, Sept. 30.—Scotchmen are greatly disappointed over the result of to-day's race, but they admit that the Thistle was fairly beaten. It is believed that if she race for the cup is again to be sailed in American waters the Scotch yacht, to be successful, must have a centreboard.

Little Excitement in London.

LONDON, Sept. 30.—There was little excitement in London over the result of to-day's yacht race, except among Americans, who awaited with keen interest the bulletins announcing the progress of the yachts. Bulletins were read at the afternoon performance of the Wild West Show, and the result of the race was announced at the evening performance.

STREET CAR HORSES KILLED.

A Most Unusual Accident—How a Driver Saved His Passengers.

TORONTO, Sept. 31.

About 7.45 last night street-car No. 67, driver McMaster, was proceeding down Yonge-street with a heavy load of passengers, and had got near to Wellesley-street, when the horses took fright and became unmanageable. McMaster applied the brake, but it would not do its work, and the team tore down the grade at a terrific speed. To save his passengers, the driver slipped the coupling and let the horses go. With the loose trappings at their heels the animals only increased their mad career, and crossing into the up track tore away until they reached McGill-street. Here an up car, No. 152, driver Bell, met them. Bell was so terrified that he drew up and awaited results. The runaways parted company and dashed against the front platform of the standing car with such force that they were instantly killed, falling one on either side without even the last dying kick.

A large crowd were soon round, and the street was completely blocked. The up car was no worse for the collision; but to make certain it was deemed advisable to remove the car from the track. This was soon done by the crowd, and the natural question arose where is the down car? Fortunately for the passengers the switches were set so that on reaching Carlton-street it turned in there, and after running a short distance left the rails and ran against the sidewalk, when the passengers alighted little worse for their ride. On inspecting the down car it was found that the brake had lost control of the wheels. Fresh horses were brought and it was taken to the stables. Subsequently the up car was put on the down line and also taken back, whilst the dead horses were taken to the bone yard.

Louis Sievert, the young tobacconist into whose face on the morning of Aug. 12 Edward Gahan alias Graham alias West threw a quantity of vitriol, was released from the General Hospital yesterday for the purpose of attending the Police Court to give evidence against his assailant. His face was greatly disfigured and his left eye, of which there are yet hopes of saving, was bandaged. He was cheerful, however, and was glad to meet many friends who called to see him. In the detectives' office he identified his assailant, exclaiming "you are the villain who threw the stuff into my face!"

Mr. N. Murphy and Mr. N. G. Bigelow, the prisoner's counsel, applied for a remand, expressing the belief that their client is insane and that this can be proved by medical evidence. The remand was granted, and the prisoner was taken back to the jail while Sievert went to the hospital for further treatment.

An accident, that might have resulted fatally for some passengers, occurred at the Union Station at noon yesterday. The Midland train from the north, due at 12.15, was on time and was entering the east end of the station. Everything seemed all right, but suddenly it was noticed that something was wrong with the parlor car, the last on the train. It was caused by the hind truck jumping the proper track and getting on to another one. The train proper after crossing York-street took the right track, that on the north, and so did the front truck of the parlor car. But the hind truck jumped and took the next track south, causing the car to have its front wheels on the track that runs under the Union's centre arch and the front wheels on the north arch track.

Half way between York-street and the station, a distance of only 100 yards, the forward truck of the car left the track and breaking the rails went bumping over the ground, the hind wheels meanwhile keeping on the middle track. The forward part of the car struck one of the pillars supporting the arches, but the woodwork was only slightly injured. The car tipped over a bit and the passengers were greatly frightened, but fortunately no one was hurt.

It was some hours before the car was removed so as to allow traffic to be resumed upon the tracks.

Ferdinand's Tour of Inspection.

SOFIA, Sept. 30.—Prince Ferdinand, accompanied by several Ministers, has gone to Baribiod to inspect the railway lines on the frontier.

M. Stambuloff has just returned from a tour of the south. He says he has received assurances everywhere that the people would support the Government.

Supposed to Have Skipped Out.

OTTAWA, Sept. 30.—Robert Simpson, an Englishman, who arrived here last July and has been engaged in the stationery store and postoffice of John Lucy, Le Breton Flats, this city, has disappeared and is supposed to have skipped out. He had full control of the cash and registered letters, and some of the latter are said to be missing, but very few particulars can be learnt to-night.

On Their Way to Help Chicago Celebrate.

NEW YORK, Sept. 30.—A company of officers, representing the armies of Denmark, Norway and Sweden, arrived in the Hecla to-day. They are on their way to Chicago to participate in the semi-centennial in that city.

THE ATTACK ON THE UTES.

HOW WHITE RUFFIANS TREAT THE INDIANS OF THE SOUTHWEST.

Gen. Crook Makes a Report to Washington Which Shows That the Whites Were the Aggressors in the Recent Trouble With Colorow's Band.

WASHINGTON, Sept. 30.—The Secretary of the Interior has received through the War Department a report from Brig.-Gen. George Crook, commanding the Department of the Platte, on the recent Ute Indian troubles in Colorado. The report shows that the trouble arose from attempts made by Colorado officials to serve warrants on certain Ute Indians for alleged stealing of horses and for violations of the state game laws. The report states that it is the custom of certain men living in Garfield County to buy horses of the Indians and then regain possession of the money by playing "monte" or some other gambling game. The horses alleged to have been stolen were either bought from the Indians or won in this way. While stoutly protesting their innocence of the theft the Indians gave the parties two other horses in lieu of those which they had been obliged to surrender to the alleged rightful owners. Warrants were however issued for the arrest of two of the Indians for horse stealing and for twelve others for violations of the game laws. Warden Burgett, to whom the warrants were issued, with a posse of seventeen men went to the Ute camp, and without attempting to explain his object suddenly seized several of the Indians, who broke away and ran for cover.

At this juncture the posse fired, wounding three of the Indians.

The surprise was complete. The Indians returned the fire from the bush, to which they had retreated, for about three and a half hours, thus covering the removal of their wounded and the women and children. Later in the day they fell back and the whites soon after withdrew to Rangely. The whites lost in killed a lieutenant of militia and a deputy sheriff. Another man who attempted to run off a small band of Indian ponies was shot and killed. Several others were wounded. The Indians lost one small boy killed and one buck and one squaw were wounded. The whites numbered 190, the Indians not more than twenty-five fighting men.

The whites justify their attack on the ground that the Indians broke faith with them in leaving their camp. The Indians were finally induced by Lieut. Burnett, who had arrived on the scene accompanied by about 150 superbly armed and mounted warriors from the Ouray Agency, and who became wildly excited when they heard of the threatened invasion of their territory, and urged him to go with them and learn the cause of the trouble, to go to the agency.

When the trouble began the Indians had between 300 and 400 horses and about 2500 head of sheep and goats. Of the horses seventy-four were taken by the State to mount their troops. Many more were taken by Kendall and his posse.

From the outset, continues the the report, with but one slight interruption, the Indians were pursued incessantly, and in every case the whites were the aggressors and fired first. Colorow had no desire to fight, and made use of his weapons in self-defence only for the protection of his women and children and his herds. During the whole time, including the fight of Aug. 26, five Indians died of wounds, one buck, two boys and two small girls. Seven others were wounded, one perhaps fatally. It was extremely fortunate, says the report, that Lieut. Burnett arrived upon the scene of action as he did, as there can be no doubt that his presence saved the lives of Kendall's entire party and prevented a serious outbreak.

The report says there is no question that the warrants could have been served without difficulty had their service been properly undertaken. Up to Sept. 15, of all the stock lost by the Indians, 125 horses have been returned to them. This number includes the seventy-five taken for the use of the state.

FIRE AT QUEBEC.

Great Damage Done to Cardinal Taschereau's Palace.

QUEBEC, Sept. 30.—About 4 o'clock this afternoon fire broke out in the cupola and roof of the Cardinal Archbishop's palace When the firemen arrived the fire had gained great headway, and when they got to work had gained the interior of the third story and threatened to destroy the whole building. By strenuous efforts, however, the firemen confined the element to the portion of the building where it originated, which was immediately over the main entrance and above the apartments and chapel of His Eminence.

The immense quantity of water poured upon the flames soon commenced to leak through the ceilings, until the rooms below resembled small lakes. By this time an immense number of people had arrived, and a rush was made into the building to save the costly furniture of His Eminence and the many statues and ancient pictures which adorn the palace. The most valuable furniture of the reception-room and the chapel and a quantity of the Cardinal's new robes, the gold plate and the berette were saved and placed in the old Parliament-square, where a posse of police guarded them. All the rooms, including the Cardinal's private apartments, are very badly damaged by water.

The loss amounts to about $12,000, and is covered by insurance in the following companies: North British and Mercantile $23,500, Liverpool, London and Lancashire $12,000 on building and $4000 on contents, Imperial $2000.

STATEMENT OF FAILURES.

A Large Increase in Canada and Heavy Liabilities in the States.

NEW YORK, Sept. 30.—The failures in the Dominion of Canada for the third quarter of 1887 are reported by Dun, Wiman & Co. as 308 in number, as against 256 for the third quarter of last year. The liabilities for the quarter just closed are $2,996,000, as against $1,921,000 for the third quarter of 1886. The failures for the nine months of 1887 are 1017, as against 951 for the nine months of 1886. The liabilities for the nine months just closed are $13,456,000, as against $7,423,000 for the nine months of 1886.

The failures in the United States for the quarter just closed are about the same in number as for the corresponding quarter of 1886, but the liabilities show an enormous increase. The figures are: Failures, third quarter, 1936, with liabilities of $73,000,000; for the third quarter of 1886, 1932; with liabilities of $27,000,000. It is stated that while the volume of liabilities was much swollen by a few heavy speculative disasters, the fact that a large increase appears in every section of the country indicates a marked expansion of commercial obligations.

ROME, Sept. 30.—During the last twenty-four hours thirty-two new cases of cholera and twenty-one deaths from the disease were reported in Messina, and five new cases and two deaths in Catania.

BISMARCK

Is striving to keep peace between France and Germany, but

GOUGH

THE WONDERFUL CHEAP MAN,

Is waging a relentless war on Long Prices. He has not been awarded the contract of Clothing the Standing Armies but that Greater and Nobler Army—The WORKING MEN of Our Fair Canada—appreciate his generous ambition to furnish them with Reliable Goods at Wholesale Prices.

Other Dealers wonder how Gough can Under sell them. The explanation is easy, he is one of the Largest Dealers in Canada and pays cash for everything. He is thus in a position to take advantage of the markets and secure Great Snaps in the way of Bargains.

No man in his sober senses will deny that a good Bankrupt Stock bought at 40 or 50 cents on the dollar is not cheaper than the first cost of manufacture, and therefore were Gough to say he could sell Goods cheaper in many instances than even the largest Wholesale Firms, he could prove it.

I ask a fair thinking public, then, if Gough has to stretch his conscience very much when he states that the unfortunate dealer who is under the thumb of the Wholesale Houses actually cannot buy as cheap as Gough can sell.

A visit to his Great Clothing Emporium either in Toronto or Peterborough will satisfy the most skeptical that this is the absolute truth. He has come to Peterborough to stay and is bound to preserve the Splendid Reputation he has already acquired for durable, Stylish and Well Fitting Garments at prices at least 25 per cent below those of other dealers. Let no man, then, go ragged or shabby, no matter how poor he may be, but let him go straight to the People's Friend.

Our trade Saturday far exceeded my expectation. Overcoats and Fall Suits moving lively—they are so cheap people cannot resist buying from

Who are Bald, or have Thin, or Grey Hair, or who are troubled with DANDRUFF.

DR. DORENWEND'S

"HAIR MAGIC"

Will be found invaluable for the hair and scalp. It cleanses the scalp of all Dandruff, invigorates the growth of the hair, and in cases of baldness where there are the slightest signs of roots left it will produce good crops of hair. It restores grey hair to its original color, and is an excellent dressing.

DO NOT DELAY, if your hair is in a weak condition, get a bottle at once.

LeBrun's Fall Specialties.

BETTER TO WHISTLE THAN WHINE.

It went a little hard, during our recent Great Clearing Sale, to allow such elegant Goods go off at the Sacrificing Prices which they did. But we had to make room for our Fall importations; so, Out They Went!—"bag and baggage!"—and we have good reason to believe that 'tis Better to Whistle than Whine.

Our Fall Goods are now Coming in without interruption, and consist of the Choicest Selections of CLOTHS, from all Countries, ever yet displayed in Peterborough.

BASEBALL YESTERDAY.

All the Scores—The Standing of the Three Leagues.

BUFFALO, Sept. 30.—The champions of the International League played to a crowd of 400 spectators to-day. But it was not the champion nine. FEATS hasn't recovered from the *Syracuse* episode, and the nimble-limbed Slattery has gone lame. Decker was in the big Jay's place and Traffley occupied Slattery's place. Crane tried his hand at catching and gave evidence that the position wouldn't come awkward after a little practice. Miller pitched a rattling game for the Bisons, although he was batted frequently and gave too many bases on balls. He struck out Oldfield and Crane successfully in the eighth inning. The Torontos fielded loosely. Grant made a home run in the first inning, bringing in two men. The score:

THROUGH AN OPEN SWITCH.

Two Engines and Fifteen Cars Laden with Dressed Beef Wrecked.

TOLEDO, O., Sept. 30.—This morning a heavy double header freight train, made up of Armour refrigerator cars loaded with dressed beef, bound east, was wrecked at Sedan on the Air Line division of the Lake Shore Railroad, eighty miles west of here. The section men, who were working at the point, carelessly left a switch open and both engines with fifteen cars of fresh meat were derailed and wrecked. Both engineers and one fireman were injured, and in the wreck was found the dead body of a boy named Fryer who had been stealing a ride.

Responsibility Indirectly Admitted.

PARIS, Sept. 30.—Count VonMunster, the German ambassador, has informed M. Flourens that the German Government, without awaiting the issue of the judicial inquiry, has decided to grant an indemnity to the widow of the gamekeeper who was shot, the amount to be fixed later.

Bismarck Invites Discussion.

PARIS, Sept. 30.—Le Matin says Prince Bismarck has invited Signor Crispi, Italian Prime Minister, to Friedrichsruh to discuss the Eastern question, particularly with reference to Bulgaria and the relation between the Quirinal and the Vatican.

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain. eodw

Children Cry for Pitcher's Castoria.

Restored.

Mrs. J. M. Phelps, of Sydney Mines, N.S., had chronic rheumatism for two years, and got no relief until she tried Burdock Blood Bitters. Two bottles cured her. "I was like a skeleton," says she, "before using B.B.B., now thanks to the discovery of such a reliable remedy, I am entirely restored to health." 2w38d

Well Tested.

"I was nearly dead with cholera morbus, one bottle of Extract of Wild Strawberry cured me, and at another time I was so bad with summer complaint that I thought I would never get over it, when two bottles cured me." Mrs. E. Aslett, Pell, Ont. 2w38d

A Lucky Escape.

"For six years I suffered with my throat and enlarged tonsils. I was very weak; I doctored four years and had advice from three doctors; they said I would have to undergo an operation. I tried B.B.B. instead. One bottle cured me." M. A. Squelch, Raglan, Ont. 2w38d

A Conundrum.

If it takes J. J. Sheehy three days to run off 400 yards of all wool grey flannel 27 inches wide at 25 cents a yard; how long will it take Bird and Miller to run the 100 yds. race next week?

Our Manufacturers Abroad.

At the Lindsay Central Fair, Mr. W. Forsyth, of Peterborough, showed six of his celebrated fanning mills. Two of these machines were fitted with an appliance to collect and bag the grain, a labor saving appliance. Mr. Peter Hamilton, of Peterborough also, showed a well-finished sulky plough.

Conundrum Answered.

Because Wilson and Morrison's business in "The Manufacturer's Life" for the last ten weeks has exceeded *over half a million dollars*, being more than the combined insurance of all our competitors. The boom still continues, saying nothing of the large Fire, Accident and Plate Glass business.

A Bone for Bad Boys.

Mr. Tighe, janitor of the Central School buildings, complained at the police station this morning that a number of boys are in the habit of shooting with guns and other fire-arms in the school grounds during the day. Yesterday one of the school windows was broken. If this dangerous practice is not stopped at once, he will be compelled to make an example of a few of the youths.

Midnight Mechanics.

Burglars have been creating a "scare" at Norwood. Tuesday morning the residents of the village awoke to discover that three stores, those of Messrs. Phillips Bros., P. W. Reynolds and T. Fraser, had been burglarized. Each store supplied about an equal amount of booty for the bold burglars. Six or seven dollars in cash, a few jack-knives, razors and other items of hardware, three or four dozen silk handkerchiefs and some wearing apparel was the extent of the burglary.

Children Cry for Pitcher's Castoria.

Gzowski Cup Competition.

The Durham Field Battery have failed to become absolute possessors of the Gzowski Cup by one fifth of a second, as the official report from the field batteries taking part in this years shifting ordinance competition of the Dominion Artillery Association for the Gzowski Challenge Cup and other prizes indicate. The competitions took place during the annual drill in camp. The conditions were this year a more thorough test of the efficiencies of the batteries, as the result was to be determined, not by the time of a picked subdivision as last year, but by the average time of four subdivisions from each battery. Five seconds was added to the time of each subdivision for each picket struck during the competition. The Gzowski Cup has been this year won by the Ottawa Field Battery, with the Durham men second, as indicated above, while the Hamilton battery, which takes third prize, was only 8½ seconds behind the leader. The cup must be won two years in succession to become the absolute property of any team.

Only Once in a Life Time.

Young man, forget not that it is only once in your life time that you will ever attend a business college. It is of the utmost importance where you attend. The Peterborough Business College claims your patronage solely on the following grounds:

1. A business education is a necessity.
2. This College is thoroughly equipped with every office and school convenience.
3. The Faculty is the largest connected with any school of its kind in Canada.
4. Every member of the Faculty is practical, experienced and thoroughly qualified.
5. Students, graduates and business men recommend our course as thorough and practical.
6. Our graduates are successfully filling responsible positions, or conducting fine businesses for themselves. PETERBOROUGH BUSINESS COLLEGE. dw

Recruits are also eligible for the general prizes, but not to take two Association tickets. Any one already a member of the Association and winning a ticket, will receive $1 therefor. Officers eligible only for medals and Company Cup.

The Mission in Ashburnham.

As the Mission in St. Luke's Church draws to a close, the interest seems to be deepening. A large congregation filled the church on Friday evening, and joined heartily in the service. After a short opening service, the missioner, the Rev. E. P. Crawford, began his address, the subject being "Sanctification." He dwelt on its necessity and showed why it was necessary, using appropriate illustrations to make it plain. At the close of the address the hymn, "Take my life, and let it be consecrated, Lord, to Thee," was sung. It was a solemn and impressive service. The Mission will end on Sunday night, there being the usual Sunday services that day, including the meeting for men only in the afternoon at four o'clock. To-night the subject of the address will be "Perseverance."

St. Luke's Mission Services.

The closing services for to-morrow, in connection with the series of mission services in St. Luke's Church, Ashburnham, will be as follows:—

Holy Communion at 8 o'clock.
At 11 o'clock, morning prayer, sermon by the Missioner, and Holy Communion.
At 2:30 o'clock, Children's Service with short address by Rev. E. P. Crawford.
At 4 o'clock there will be a special service for men only. Youths under 16 not admitted.
At 7 o'clock, mission service and sermon by Rev. E. P. Crawford, the Missioner.
At all these services the seats are entirely free, and the public are cordially invited to attend. Hymn books will be provided for all.

Ten Nights in a Bar Room.

A full house greeted the Leech & Stevens' Dramatic Company last night on the occasion of the presentation of the great moral drama "Ten Nights in a Bar Room." The cast was admirable, every member faultlessly playing his or her part. Particular mention might be made of Mr. Frank Macdonald, as "Joe Morgan", and Mr. Ogden Stevens, as "Sample Swichel", the former vividly showing up in his character the effects of over indulgence in strong drink, and the latter by his drollery, keeping the audience in almost perpetual laughter. At intervals during the play little Baby de Castro and Miss Myatt sang solos while the Brooklyn Church Choir also contributed to the musical portion of the play. The play was well rendered and deserves a good patronage.

Methodist Education.

The annual sermons on behalf of the Educational Society of the Methodist Church will be preached to-morrow as follows:—George Street Church—11 a.m., Rev. N. Burwash, S.T.D.; 7 p.m., Rev. E. H. Dewart, D.D. Charlotte Street Church.—11 a.m., Rev. Dr. Dewart; 7 p.m., Rev. Dr. Burwash. Collections and subscriptions on behalf of the Society. On Tuesday evening next a public meeting will be held at 8 o'clock in the George Street Church, in connection with the College Federation movement, to be addressed by Rev. Dr. Potts, secretary of Education, and Rev. Dr. Dewart. The chair will be taken by his worship the Mayor. There will be a collection to defray expenses.

It is enough simply to say to the Public that Miss Mahoney has been doing her best to make Turnbull's Millinery Opening a grand success. Remember the days are Oct. 4, 5, and 6.

Child Burned to Death.

Thursday a little girl named Mary Ann Watson was burned to death at Lakefield. She was returning home from school about 11.30 and stopped to play with fire that was burning in a stump in a vacant lot. Her clothing took fire and in her fright she ran hastily homeward, thus making the flames burn more fiercely. A neighbor stopped her and tore off the burning clothes, but the child was so terribly burnt throughout her whole body that she died about four o'clock. Drs. Caldwell and Fraser did all that skill could suggest.

NATIONAL PILLS will cure constipated bowels and regulate the liver. dw

Attempted Suicide.

Mrs. Thompson Caught Apparently in the Act of Jumping into the River.

This morning about five o'clock Mr. John Smith was hurrying across the Ashburnham bridge to catch the early C.P.R. train, when he noticed a woman sitting on the edge of the sidewalk, with her feet hanging over the water. Her legs and arms were bound together with a rope, and she appeared to be in the act of precipitating herself into the water. Smith drew her back from her perilous position, untied the rope and conducted his charge to the corner of George and Hunter streets, where he left her while he went to look for a policeman. In his search he was unsuccessful, and returning to the spot where he had left the woman, she could nowhere be seen. He then retraced his steps to the bridge, where he found her sitting as before. This time he escorted her to the Grand Central hotel, where she was identified as Mrs. Thompson, a widow, living with her son-in-law, Mr. Johnson, on Harvey street. She was driven to her home by Mr. Harry Drake.

The unfortunate woman was evidently suffering from an attack of temporory loss of reason, and when questioned regarding her actions only muttered disjointed sentences about "her poor child," her ruined home, "and broken up family." After being taken to the Grand Central Hotel she refused to move farther, and had to be carried to the hack. She was not at all violent.

The above facts are related as gathered from those who took part in the affair. The unfortunate woman is about 45 years of age and of healthy appearance.

Sleepy Belleville.

The "Ontario" Rallies the Citizens of Belleville on Their Lack of Enterprise.

(*Belleville Ontario.*)

At the last meeting of the Port Hope town council a letter was read from Mr. Charles Lavis, of this city, enquiring what the offer of the town to the Peterborough Lock Works Company to locate in Port Hope was, and asking if a similar offer would be entertained in connection with a much larger concern in the United States to locate a branch of a much more extended line of goods. He asked for the particulars of the offer to the Lock Works, and thought he could arrange for the location of as good a business employing as many hands, on the same terms.

The Charles Lavis referred to above is Mr. Charles Lavis, jr., of this city, who has had a wide acquaintance with iron firms through Pennsylvania. It was he who secured the present Lock-works for Peterborough. He made the offer first on behalf of Mr. Brooks to locate the Lock-works in Belleville, but the local capitalists would not take stock in the company, and Mr. Brooks went to Peterborough. Mr. Cox, Mr. Stevenson, and others formed a company there. A cheap factory was built and this year the works will net $15,000. It is the only lock works in the Dominion, and the company has a bonanza, but the moneyed men of the bay city could see no blind shares in the business, consequently they had no interest in it. And thus it is Belleville is passed over by Americans for a more enterprising place.

Mr. Lavis may have something similar in view now. If so, the aldermen or Board of Trade should wake up and enter into negotiations with him before some other town or city has received the prize.

Police Court.

FRIDAY, Sept. 30.

Police Magistrate held court at Ashburnham in the afternoon, when the adjourned Scott Act cases against Messrs. D. Faucher and James Evans were disposed of, the former being fined $50 and costs; the latter, not being able to attend through illness, which it is feared will terminate fatally, was further remanded.

A batch of six county cases, one second and five first offences, will come up for trial next week.

Home From the Race.

M. R. M. Roy returned home from New York yesterday, where had been attending the first great international yacht race between the Volunteer and Thistle. He took altogether fourteen views of the boats, at rest and during the race, some of which are on exhibition at Muncaster's Jewelry store. His views go to disprove the press statements that neither yacht was crowded during the race by the scores of steamers and small boats which accompanied the contesting vessels. He thinks that in this regard too, the Thistle got decidedly the worst of it. Mr. Roy believes the race was lost to the Thistle mainly by reason of the over-anxiety of her captain, who sailed her too close to the wind. Mr. Roy has lived nearly all his life on the water, and can, therefore, claim to know whereof he speaks. He saw at once that the Volunteer was the better boat, though the Thistle could have done better under proper management, and decided not to stay for the second race. He believes the Volunteer can beat the Thistle, but that it is the only boat in the world that can do so.

Taxes! Taxes! Taxes!

To the Editor of the Examiner:—

SIR,—What is going to be done about our taxes? Mr. Moore believes his plan is the best for all parties, and Mr. McNaughton believes his plan is the best. Now, I believe my plan is the best—that is, the quarterly instalments, with this penalty attached to it, that if the first quarter is not paid the whole tax shall be collected forthwith. For instance, if my tax is $4.00 and I cannot pay $1 at a time, why, the probability is I cannot pay at all, and if my tax is $20, and I cannot pay $5, how am I to pay the $20? I cannot see any better way of paying our taxes. We might try it for one year. Wake up, ye taxpayers.

Yours,
SPEAK OUT.

Personal.

Messrs. Peter Hamilton, James Best and Dixon Best leave this evening for a trip to Chicago, St. Louis and other American cities. They will be gone about a week.

The *Independent* says:—"Mr. William Snowdon, of Peterborough, was in Bobcaygeon on Monday, and had a day's sport with some friends. They shot 13 partridges and caught five maskalounge, the heaviest weighing 16 lbs. They also assisted in putting out a fire which threatened a farmer's barn. They likewise broke the screw of the coal oil yacht. Altogether they had a first-class day."

The Bobcaygeon *Independent* says:—"Among the visitors to the village this week was J. R. Stratton, Esq., M.P.P. He stayed at the Rockland House, on his way up to inspect some roads that Mr. Mowat's Government had repaired. The townships of Harvey and Galway are under considerable obligations to Mr. Stratton for his successful exertions in obtaining money grants from his Government on the roads. He not only obtains the money but sees that it is judiciously expended. Mr. Mowat's Government have acted very liberally towards the Harvey and Galway roads."

St. Luke's Mission Services.

Close of a Successful Series.

On Sunday the closing services of the twelve days' mission, conducted by Rev. E. P. Crawford, were held. The early morning service was well attended. At eleven o'clock there was a full congregation present Rev. W. C. Bradshaw took the services and Rev. E. P. Crawford preached the sermon from the first verse of the 4th chapter of St. Luke's Epistle to the Ephesians. The preacher spoke of the tender love and sympathy this text showed St. Paul to feel for the converts. The vocation mentioned was important above all earthly honours. They were called of God. The holiness required was not outward but through and through. The bodies of God's people were the temples of the Holy Ghost, not to be polluted by sin. The preacher at length pointed out the duty of Christians to walk worthy of their vocation, showing the importance of doing so in this life and the results in the future. The address was earnest, impressive and practical. A celebration of the Holy Communion followed, and a large number availed themselves of the high privilege of approaching the table of the Lord. At the two celebrations there were about 130 communicants.

The children's service at 2:30 was well attended, and the Missioner's address was very earnest, effective and appropriate.

The men's meeting at four o'clock was exceedingly interesting, and was one of the most profitable of the series.

The evening service attracted a very large congregation, every available foot of space, even in the chancel, being occupied. The Missioner prefaced his farewell address by reading portions of St. Paul's Epistle to the Phillipians, whose extreme fitness to the occasion may be seen by reference to it. The preacher remarked that the words he had read were most appropriate as his last words to his hearers. The mission had been a blessed occasion and deep, religious feeling had been aroused. He warned them of the danger of feeling. He had not sought to rouse excitment, but had tried to reason with his hearers as rational beings and tried to point the way to a higher life. There was danger after the mission of a relapse into spiritual deadness. They should not trust to feeling. Action and life were everything. God would not judge us by our feelings but by our deeds. If feeling passed away they should hold on by faith, keep on living their daily life, attending to the services and sacraments of the church. It was not right to depend on missions—to live on another man's religion and thus do away with individual effort. Temptations and troubles must be expected, but trust must be put in God. The speaker closed a most fervent and effective address by appealing to the irreligious to heed the call by which they were chosen.

The requests for prayer were exceedingly numerous; they were varied by expressions of thanks to God for the blessings which had been derived from the mission services. After these had been recognized by appropriate prayers, the Missioner requested those who had been benefitted to remain, and a very large number—almost an average congregation—stayed to hear a few final words. All knelt and renewed their vows, and took a memorial card to be signed pledging each one to some special work for God.

The mission services have been attended with great success, and a deep work has been wrought amongst the members of St. Luke's. During the past twelve days Rev. Mr. Crawford has held about fifty services, and the fruits, as far as visible to human eyes, have been most encouraging. He is entirely devoted to the work, and seems specially adapted to it. He is earnest, plain, simple, and zealous to a high degree. He leaves here for Parkdale on Tuesday.

Good Advice.

If a father wishes to give his son a legacy that will endure while life exists let him send him to an institution where he can obtain a general business education, and he will have the satisfaction of knowing that he has given him what is better than houses, lands, farms or even silver and gold. These things may take wings and suddenly fly away; but this knowledge will last while life and reason exist.—*Horace Mann.*

BISMARCKIAN DIPLOMACY.

THE CHANCELLOR'S COMING CONFERENCE WITH SIGNOR CRISLI.

The Meeting, Which is Regarded as of Supreme Importance, has Special Reference to a Renewal of the Military Convention Between Germany, Italy and Austria.

BERLIN, Oct. 1.—The coming conference between Prince Bismarck and Signor Crispi, the Italian Prime Minister, completely overshadows the interest in the recent shooting affair on the frontier. The interview is regarded as of supreme importance. It has especial reference to a renewal of the military convention between Italy, Austria and Germany. The alliance of the central powers with Italy on a general policy was renewed for five years, but the military convention for offensive and defensive purposes covered only six months, from March last to September. While Count Kalnoky, Austrian Prime Minister, was at Friedrichsruhe a dispatch was sent to Signor Crispi asking whether he was ready to renew the convention. Prince Bismarck also proposed an extension of the period covered by the convention. Before Count Kalnoky left Signor Crispi promised his support to the movement for an extension of the convention and made an arrangement to personally visit Prince Bismarck in order to personally discuss the matter. This is the first object of the interview and must be hailed as an effective assurance of peace for many months to come.

Another question of special interest to the Italian Government will be negotiations with the Vatican on the terms of a reconciliation. Within the present week diplomatic action has become intensified over these negotiations and the knowledge that Signor Crispi is coming to Friedrichsruhe. A note was sent yesterday by Cardinal Rampolea, Papal Secretary of State, to all the papal nuncios, instructing them to keep the question alive by every means in their power. The nuncios were further advised that the Pope had referred the extent of the possible concessions to the Holy See to the College of Cardinals, whose recommendations would be communicated to the nuncios as soon as it was deemed advisable.

Mgr. Ruffo Scilla, the new nuncio at Munich, is expected to arrive in Berlin about the middle of October. His visit will be made in connection with the negotiations. Mgr. Galimberti, the nuncio at Vienna, is still charged with the duty of watching the relations between the state and church in Germany, but the conduct of the question between Italy and the Vatican is confided to Mgr. Scilla.

Another project that Prince Bismarck is credited with being desirous of discussing with Signor Crispi is the creation of a Central European Zollverein, including Germany, Austria, Italy, Servia and Roumania.

Signor Crispi will remain three days with Prince Bismarck and will afterwards go to Vienna to meet Count Kalnoky. The interviews are diplomatic successes of Prince Bismarck and must gall the French and Russian Governments.

FOUND DEAD IN A FIELD.

Suicide of the Absconding Treasurer of the Hamilton Powder Company.

MONTREAL, Oct. 1.—Samuel Johnston, the absconding treasurer of the Hamilton Powder Company, was being brought back from Ogdensburg last night by detectives. The train was late and he managed to elude the officers at St. Henri Station, two miles out, when he was missed. Search was made for him but he could not be found. Inquiry at his residence on Ste. Famille-street also showed that he had not gone home. His body was found this morning on Fletcher's field, near Lansdowne toboggan slide, with a discharged pistol near by. Bullet holes were found behind the ear. It is generally supposed that family affliction caused both defalcation and suicide.

KILLED IN A QUARREL.

A Fatal Encounter at a Threshing Near Bracebridge.

BRACEBRIDGE, Oct. 1.—To-day while Chas. O'Brien, who runs a threshing machine, was engaged in the barn of Mrs. Donnelly, about nine miles from here, Samuel Taylor, who owned a rival machine, entered the barn, when an altercation arose between the two men. Taylor called O'Brien a liar, when the latter struck him twice and he fell into the arms of some workmen dead. O'Brien gave himself up. Samuel Taylor was an old resident of the Township of Macaulay and had been a Councillor for several years. He leaves a large family.

THE R.R.V. RAILWAY.

It is Believed that the Project Will Fail for Lack of Funds.

WINNIPEG, Oct. 1.—It is now believed that the Red River Railroad project will fail for want of funds. A dispatch was received here to-day from Kingston, Ont., stating that the only locomotive so far built for the new line had been sold to a New Brunswick railroad company because the Manitoba Government were unable to pay for it and the contractors declined to shoulder the responsibility.

COLLISION AT OSHAWA.

In the Fog One Freight Train Runs Into Another Wrecking Several Cars.

OSHAWA, Oct. 1.—This morning about 6 o'clock, a terrible smash up took place about a mile east of Oshawa station by one train running into another. It seems two trains were coming from the east and the hind one running at a faster speed than the first and not being noticed by either of the train hands until within a few rods of each other on account of the fog, the former ran into the other with a terrible crash. Before the jump-in took place, however, the conductor of the leading train jumped off and perhaps saved his life with great risk. No person was seriously hurt. Sugar has been scattered near the wreck like small heaps of sand. Two of the cars were entirely burnt. The accident will cause a heavy loss to the Grand Trunk Railway Company.

Davitt's Mission Purely Private.

NEW YORK, Oct. 1.—Michael Davitt today denied that he had come here, as supposed, to heal the wound alleged to have been inflicted by his friend, Editor O'Brien, during his stay in this city. He was here merely on private business and would leave the city today. Where he was going he was not prepared to state.

NAPOLEON'S HEART.

The Story that it Was Devoured by a St. Helena Rat.

LONDON, Oct. 1.—Mr. Limon, an aged citizen of Ainwick, yesterday said, in relation to the rumor about Napoleon's heart having been devoured by a St. Helena rat forty years ago: "I heard from Dr. Arnot, who was one of the two surgeons who made the post mortem, that it was true that while the physicians slept the heart was seized by a rat, but that the rat, on being disturbed, dropped the heart and it was recovered."

A REMARKABLE CASE.

The Transformation of a Young Girl Into an Old Woman.

CLEVELAND, O., Oct. 1.—Mary Harmon, daughter of a farmer, was engaged to be married to Jacob Eberlein, who followed the Harmons from Pennsylvania a short time ago. About six weeks ago the young couple came to the city. One of the young man's friends worked in one of the electric light establishments, and they went to see the machinery. While passing through the shop Miss Harmon received a shock of electricity and fell to the floor. In a few minutes she recovered sufficiently to be removed from the place, and was taken to her home. Medical aid was summoned. For four days the girl lay paralyzed. Then she regained the use of her limbs, but immediately began to lose flesh. The hair on the left side of her head turned gray and began falling out. After four weeks she was able to be about and able to attend to most of her household duties, but in that time she had been transformed from a young, handsome girl into a feeble old woman. Her form, which had been plump and rounded, is thin and bent, and the skin on her face and body is dry and wrinkled. Her voice is harsh and cracked, and no one, to look at her, would imagine that she was less than 60 years of age. The physicians claim that the electric current communicated directly with the principal nerves of the spine and left side of the head, and that the shock almost destroyed her vitality.

CHOLERA AT NEW YORK.

Several Deaths Among the Patients on Swinburne Island.

NEW YORK, Oct. 1.—At the office of the Quarantine Commission to-day three deaths were reported from cholera at Swinburne Island. Five new cases have been taken to the island since the last report. There are now seventeen cases on the island and most of them are getting on favorably despite the bad weather.

Three More Deaths.

NEW YORK, Oct. 2.—Francisco Corella, aged 66; Nepongas Zoccola, aged 64, and Geraldi Salvatori, passengers by the steamer Alesia, have died since the last report at the quarantine hospital of cholera.

FOREST FIRES CHECKED.

Saturday's Heavy Rain Does Good Work in the Ottawa Valley.

OTTAWA, Oct. 1.—A heavy rain which fell this afternoon appears to have done good work in extinguishing the bush fires about Ottawa. The smoke is nearly all gone, and to-night it is thought all danger is over. A dense fog now prevails up the Ottawa. All the boats of the Upper Ottawa Improvement Company have been tied up owing to the dense smoke, and in consequence the supply of logs has been stopped. Messrs. James McLaren & Co. have received a despatch stating that the Eagle limits of the firm up the Gatineau were on fire. The trains on the Northern Division of the Canadian Pacific Railway at Ottawa are all delayed by smoke.

A number of citizens of Hull are engaged in making collections to cover the expenses of having Archbishop Duhamel say a mass for rain in different communities in the County of Ottawa.

Navigation Resumed.

KINGSTON, Ont., Oct. 1.—The heavy rains of the past forty-eight hours have checked the forest fires in this vicinity. The air to-day is free from smoke and navigation of the St. Lawrence is being resumed.

MARY'S COSTLY BUSTLE.

Saturday's Labor Demonstration—Drunk and in Church.

TORONTO, Oct. 2.

The first visit to Toronto of a cardinal will take place on Thursday next when at 8 p.m. His Eminence, Cardinal Taschereau, Archbishop of Quebec, will arrive by the C.P.R. His Eminence will be accompanied by his suite and will alight at the North Toronto Station where he will be received by His Grace Archbishop Lynch, His Lordship Bishop O'Mahony and other bishops of the province, most of the clergy of the archdiocese, and the Catholic laity of Toronto including the various Catholic societies with their bands. A procession will be formed and proceed via Yonge and Shuter-streets to St. Michael's Cathedral where there will be a short musical service and the Cardinal will receive three addresses, viz.: from the clergy, the laity and the French Canadian Society. He will then proceed to St. Michael's Palace where he will remain during his stay here.

Six weeks ago a young woman named Mary Bruce engaged with Mr. C. A. Shaw, manager of the Toronto Opera House and of the Cyclorama, as a domestic at his residence, College-street. She had previously worked in Chatham in the house of Mr. Shaw's father-in-law and had come here on that gentleman's recommendation.

Last week Mary notified Mrs. Shaw that she was going to leave by the 12.20 train Friday for Detroit. But instead of going by that train she left on an earlier one and it was discovered that about $300 worth of Mr. and Mrs. Shaw's jewelry and some silk dresses were missing. Suspicion was at once fastened on the girl and a telegram was sent to Chatham to intercept her there.

Detective Burrows went to Chatham on Saturday morning and found Mary in the custody of Chief of Police Young of that town, who had arrested her on the train. But none of the goods were found in her possession. Burrows brought her back to Toronto on Saturday night. Mrs Shaw was awaiting her at Police Headquarters, and when feminine hands examined her clothing all the jewelry and the silks were found made up into a bustle.

James Leonard of 47 Edward-street, whilst under the influence of liquor, walked into the Agnes-street Methodist Church whilst the morning services were in progress yesterday. His entrance was unnoticed, but a few minutes afterward he went to sleep on the floor, and his drunken mutterings and snores so disturbed the congregation that a policeman was sent for and Leonard was taken across the street to the station.

The Labor demonstration on Saturday was not by any means up to that of previous years. There is a split in the ranks and hundreds of men did not turn out. Besides, the weather was unfavorable. Clarence-square was the rendezvous of the different unions and assemblies, and it was nearly twelve o'clock when the procession started. The route was by way of Spadina-avenue, Queen, Yonge, and King-streets to the Baseball Grounds. Thousands of spectators admired the turn out. Bands and banners were numerous. All the organizations in line looked well. The palm was carried off by the printers, bakers, and teamsters, the latter being well mounted.

Typhoid Fever in a Lumber Camp.

OTTAWA, Oct. 2.—Information was received here yesterday that typhoid fever had broken out in one of Hurdman's lumber shanties on the Mattawa River. One young man who had only been married a few months had died, and fifteen others are ill, some of them dangerously. Only the sick men are left in the shanty, all who were able to travel having deserted their unfortunate companions and sought safety in flight.

O'BRIEN STILL AT LARGE.

HE AND OTHERS HOLD A MEETING ON THE LANSDOWNE ESTATE.

Mr. Morley Answers Mr. Chamberlain—A Mass Meeting at Liverpool Sympathizes With the Irish—Lord Mayor Sullivan Summoned.

DUBLIN, Oct. 1.—William O'Brien, Lord Mayor Sullivan of Dublin, and Professor Stuart succeeded in holding a large league meeting yesterday on the estate of the Marquis of Lansdowne at Luggacurran without the knowledge of the authorities, and therefore without the interference of the police. Mr. O'Brien made a strong speech supporting a vigorous continuance of the plan of campaign inaugurated by the league.

A Mass Meeting at Liverpool.

LONDON, Oct. 2.—A mass meeting, which was attended by 10,000 persons, was held today at Lower Hill. The police seized the placards announcing the meeting, and demanded the names of the promoters of the demonstration. Speeches were made from six platforms. The speeches condemned the Government's Irish policy and the conduct of the police at Mitchellstown. Appropriate resolutions were put and carried. A strong force of police was present, but their services were not needed, as the proceedings were orderly throughout.

Summoned to Answer.

DUBLIN, Oct. 1.—Timothy D. Sullivan, Lord Mayor of Dublin, who is the proprietor of several newspapers, and Mr. Wm. O'Brien, editor of United Ireland, have been summoned to appear at the Police Court on Wednesday next to answer the charge of publishing reports of the doing of suppressed branches of the National League.

Morley Answers Chamberlain.

LONDON, Oct. 2.—A great Liberal demonstration was held at Templecombe, Dorsetshire, yesterday. Twenty thousand persons were present, Somerset, Harts and Wilts sending contingents. John Morley, who was the chief speaker, replied to Mr. Chamberlain's recent speech at Birmingham. He denied that the Gladstonian position was not perfectly clear. The Liberals, he said, stood with their feet upon a rock. Mr. Gladstone had empowered his agent to modification of his original Home Rule plan, and every one of his colleagues who had been consulted in preparing the bill had also cordially assented. What more did anybody want to know? He was amazed that Mr. Chamberlain did not produce his own plan. Was Mr. Chamberlain against Home Rule altogether? The Gladstonians wanted to know what Radicals like Chamberlain thought about the doings at Mitchellstown, Kanis and other places. As for Mr. Chamberlain urging a postponement of Irish for English legislation, the position of Ireland, the speaker said, would not allow Parliament to deal with other affairs. The ship of state was in a storm and was surrounded by tumultuous waves. There was only one way of making port—to summon back the old pilot. [Cheers.]

Resolutions were passed expressing confidence in Mr. Gladstone and demanding justice for Ireland.

THE ANARCHIST'S APPEAL.

Counsel for the Condemned Men Busy Preparing the Documents.

CHICAGO, Oct. 1.—Attorneys Black and Solomon began to-day to prepare the petition to the Supreme Court. They are hard at work on the copy of the record in the State's Attorney's office here. The other copy of the record at Ottawa is being used to make a transcript, which will be attached to the petition. Two days ago Mr. Solomon engaged to have one made for $4000 and put up $1500 in advance as a guarantee of good faith. The 2,000,000 words will be written out in ten days. Then Capt. Black and Mr. Solomon will go to New York with their record and finish the preparation of the petition to the Supreme Court in conjunction with Gen. Pryor.

Knights of Labor Visit the Condemned.

CHICAGO, Oct. 1.—Some more Knights of Labor delegates called at the County Jail today and talked with the Anarchists. Among them were Joseph Labadie, editor of The Detroit Advance, and delegate from D. A. No. 50, and Chris Mayer, an alderman of East Saginaw and a delegate from D. A. No. 6. They both expressed themselves as in sympathy with the effort that will be made to pass a resolution in the convention condemning the judgment of the Supreme Court.

ANOTHER SCOTCH COMPETITOR.

A 90 Ton Yacht to be Built to Sail for the America Cup.

NEW YORK, Oct. 1.—The Scotchmen on the Thistle seemed to be little disconcerted this morning. They were in pretty good humor, although unable to satisfactorily explain to themselves how their cutter was so badly beaten. Mr. Bell still insisted that a twenty miles to windward and return course is unfair, but would like to meet the Volunteer in a run to leeward alone. He says the Thistle will enter into any contest with the big sloop where the course suits him. He refers a second race, but would accept a triangle. He says he did not expect to win yesterday, yet did not give up the race until 1 o'clock. A miscalculation as to the position of the outer mark was made and by this several minutes were lost.

Mr. and Mrs. Bell will return home on Sept. 12.

There is talk of arranging a race between the Thistle and the Puritan, Priscilla, Atlantic and other big sloops on this side of the water. Mr. Bell consented to take part if such a race can be arranged.

Mr. Muir of Dumbarton, Scotland, owner of the yacht Mabel, has determined to build a ninety-ton cutter to compete for the America Cup in America next year, unless Mr. Bell again challenges for it. The designer of Mr. Muir's will be Mr. Fife, jr., of Fairlee, and Capt. Robert Duncan of Gourock, now master of the Marjorie and formerly master of the Madge will be her captain.

THE HUGHES-HALLETT SCANDAL.

The Colonel will Institute an Action for Damages against The Gazette.

LONDON, Oct. 1.—Col. Hughes-Hallett has finally been induced to institute an action for libel against The Pall Mall Gazette. He has been warned that unless he succeeds in clearing himself from a charge of the design of the dishonest appropriation of the money of his ward, Miss Selwyn, he will be ostracized from all the clubs in London and from society. Club men are a good deal more indignant over the money scandal than at the revelations of the culprit's domestic relations. Nevertheless, while Col. Hughes-Hallett is universally blamed for his very unmanly and dishonorable conduct, the style which The Gazette has used in its attack and disclosure is equally condemned. The editor of The St. Stephen's Review has put this feeling in practical shape and has initiated a memorial, to which he invites the signatures of the editors of all the newspapers and weekly publications in the United Kingdom, urging the wholesale dealers and distributors of papers to refuse to deal in copies of The Gazette. This boycotting idea, however, does not meet with general favor, and but few editors will support this attempt to stamp out the Pall Mall.

Peterborough Cricket Club.

Resume of the Club's Doings During the Past Season.

The past season's cricket has been the most successful in the history of the club; and more especially towards the close of the season, much more interest has been taken in the "noble game" than formerly. The visit of the Belmont team (the champions of the United States) was, of course, the chief attraction, and had it not been for the rain in the afternoon the club would have netted a handsome gate. 'Although defeated, it must be admitted that the home players were not disgraced, luck being against them from the start, and in the second innings they played in something like their true form.

A feature of the season was the matches played by the "Duffers" and "Duffers", afterwards known as "Wrighton's Lambs", who first of all played matches among themselves and then tackled the first eleven (the "Lambs" having odds) and after getting easily beaten in the first match vanquished the eleven in the return. This success they followed up by travelling to Lakefield and showing the local club easily. There is no doubt that these scratch matches, in which a large number of business men took part, and which drew out old players, some of whom had not handled a bat for twelve years, gave a great impetus to the game, and this warrants our saying that cricket will be *the* game of the town next season.

Of the thirteen foreign matches played nine were won, three lost and one drawn. The games won were those with Toronto, East Toronto, Whitby, Parkdale, Campbellford(2), Lindsay and Lakefield. Toronto succeeded in lowering our colors twice, and the Belmonts once, while the first match with Whitby was drawn. The large score of 284 was compiled against East Toronto (it being one of the highest made in Canada this season) and 227 against Lakefield. The lowest score was 27 at Toronto, when without the services of Messrs. W. A. Stratton, Thomas, H. Ray and Logan. Campbellford was dismissed for 21, and in the last match AY Toronto the home team with their professional scored only 37 against Logan and Max Hamilton.

As to individual performances, the most brilliant is undoubtedly that of W. A. Stratton, who heads both batting and bowling averages. Although he has not, this season, been successful in securing the coveted half century he has come very close to it, his most remarkable performance being at Toronto, where he went in first and carried his bat through the innings against the Toronto professional scoring more than the whole Toronto eleven. In bowling he obtained 50 wickets for 304 runs, a most remarkable performance, taking into account the quality of the batsmen he bowled against.

Only a shade behind Stratton in batting average comes the veteran Sam. Ray, who seems now to be batting better than ever. He has played some very fine innings, having scored 81, 50, 45, 34, and 24 and 25 (not out), the two latter in one match. He also performed splendidly against the Belmonts in the second innings.

Another veteran, yclept Rutherford, has done splendid work with the bat, indeed, we question if in his 25 years' cricket, he has ever done so well. He is the only man in the team who topped the century; and he also scored 72 against East Toronto. He has done this without practice (of which his bowling shows great want); if he practised as much as some others, he would——!!!

Did time and space permit, we would review the rest of the averages, but we must be brief with those under 23. Thomas proved himself a valuable acquisition to the club, scoring well in nearly every match he played; Rogers (who practised scarcely any) played as well as ever, and always got runs when most wanted; Hugh Ray showed very great improvement in batting and bids fair to rival his brother, while his bowling analysis speaks for itself. Edwy Stratton loomed up as a possible rival to his big brother both in batting and bowling; Max Hamilton fell off a little both in batting and bowling but came back to something like his old form at the close of the season, and Wm. Hamilton proved himself to be a young player giving great promise of future excellence.

It is much to be regretted that owing to illness C. J. Logan was not able to play so much for the club as usual; but although his batting average is low his analysis of 21 wickets for a little over six runs each shows that his right hand has not forgotten its cunning. His best performance was against Toronto when he secured 5 wickets for 11 runs.

It may be mentioned that the club had four elevens playing in one day. The 1st eleven went to Lindsay, the 2nd to Omemee, while the "Buffers" and "Duffers" went for one another at home.

We must not close without noticing the marvellous bowling of Sabine in the return match with Campbellford. That was the only match in which he took part, and he took 8 wickets for 6 runs in the first innings, three with successive balls, a performance, we believe, unequalled in Canada this season. In the match he took altogether 12 wickets for 21 runs. We hope to see Mr. Sabine playing in all the matches next season.

To the enthusiastic and capable secretary, Mr. John Stirling, is due much of the season's success, as it was owing to his indefatigable efforts that such a large numbers of matches were secured. The boys all unite in tendering him the heartiest congratulations on his recent marriage. Mr. Geo. Burnham, M.D., the worthy President, also merits every praise for his practical interest not only in cricket but in all field sports. He is the mainstay of athletic sports in Peterborough as represented by the P.A.A.A.

Educational Sermons.

The annual educational sermons in connection with the Methodist churches here were preached Sunday by Rev. E. H. Dewart, D.D., editor of the *Christian Guardian*, and Rev. N. Burwash, S.T.D., of Victoria University. The former occupied the pulpit of the Charlotte street church in the morning and the latter the George street church. The same text for the morning discourses was chosen by both speakers, Isaiah xxxiii, 6:—"And wisdom and knowledge shall be the stability of thy times and strength of salvation; the fear of the Lord is his treasure." The sermons were intended to shew the great advantages education brings to mankind—education not only of a secular nature but moral and religious also. The future of the church rested upon the congregations of to-day, who should appreciate their opportunities and throw in their every effort and sympathy with the cause. That church that puts the most thoroughly trained and qualified men in the pulpits of this country will take the strongest grasp upon the future and will exercise the mightiest influence. Rev. Dr. Dewart dwelt very strongly upon the important bearing of education upon the future progress of the church, as it ever had in the past. He said, "I have no hesitation in saying it is a crisis, a formative and influential crisis, in the history of our church, and a great deal of our future position, influence and spiritual power in this country depends upon whether our people rise to the situation and have sufficient scope of thought and liberality of action to realize the relation of the present to the future." Dr. Dewart referred to the connexional educational scheme (college federation) which was at present occupying the attention and aims of the Methodist church, and argumentatively swept away several objections raised against it. The two reverend gentlemen were to have exchanged pulpits in the evening, but Dr. Burwash being taken suddenly ill, his place was supplied by Rev. Mr. Wallace, who preached an excellent sermon on "character". Rev. Dr. Dewart, in the evening preached from the text "Brethren be ye not weary in well doing", which he applied to the subject of the day's discourses. Collections and subscriptions in aid of the educational fund were taken up. Tuesday evening a public meeting will be held in the George street church, on behalf of the Educational Society, at which addresses will be delivered by Dr. Potts and others.

Bears Abundant.

This fall there seems to be an epidemic of bears prevailing. They are especially abundant in the back country, but they are not confined to the "forest primeval." They invade the busy haunts of men, and it is said that there is one demoiselle in the woods between here and Lakefield, about three miles miles from Peterborough. The reason of the bears seeking a new habitat in the forest fires, which have roasted Brain out and driven him into settled regions to seek subsistence. In like manner the public who have been roasted out by high-priced clothiers are driven to the haunts of civilization and modern enterprise, the shop of gough, the wonderful cheap man. The high-priced firms have made it too hot for the public, and the latter seek relief where they can secure the highest quality of substantial clothing at gift prices. In closing our sermon, dear hearers, let us adopt the words of the poet: "Bears may come and bears may go, but gough goes on forever"—giving bargains.

GOUGH

THE WONDERFUL CHEAP MAN,

Is waging a relentless war on Long Prices. He has not been awarded the contract of Clothing the Standing Armies but that Greater and Nobler Army—The WORKING MEN of Our Fair Canada—appreciate his generous ambition to furnish them with Reliable Goods at Wholesale Prices.

Other Dealers wonder how Gough can Under sell them. The explanation is easy, he is one of the Largest Dealers in Canada and pays cash for everything. He is thus in a position to take advantage of the markets and secure Great Snaps in the way of Bargains.

No man in his sober senses will deny that a good Bankrupt Stock bought at 40 or 50 cents on the dollar is not cheaper than the first cost of manufacture, and therefore were Gough to say he could sell Goods cheaper in many instances than even the largest Wholesale Firms, he could prove it.

I ask a fair thinking public, then, if Gough has to stretch his conscience very much when he states that the unfortunate dealer who is under the thumb of the Wholesale Houses actually cannot buy as cheap as Gough can sell.

A visit to his Great Clothing Emporium either in Toronto or Peterborough will satisfy the most skeptical that this is the absolute truth. He has come to Peterborough to stay and is bound to preserve the Splendid Reputation he has already acquired for durable, Stylish and Well Fitting Garments at prices at least 25 per cent below those of other dealers. Let no man, then, go ragged or shabby, no matter how poor he may be, but let him go straight to the People's Friend.

Our trade Saturday far exceeded my expectation. Overcoats and Fall Suits moving lively—they are so cheap people cannot resist buying from

All the Scores—The Standing of the International League

The *International League* season closed on Saturday, and as the rain prevented the Syracuse-Hamilton game, no change is to be recorded in the standing of the clubs, as published in the papers on Saturday. Toronto secures the pennant, with Buffalo in second place, followed by Syracuse, Newark, and Hamilton. This is the complete record.

The Official Averages.

The official averages of the International League have been issued by Secretary White. They show that Slattery has made more runs than any other player, viz., 134, with Marr of Syracuse second with 133; Jacoby of the same team is third with 114, and Albert is next with 111. "Rastey" Wright of the Hamiltons leads in base hits with 138 to his credit, and is followed by Beard with 134; Jacoby is third with 126, Marr is fourth with 124, and Albert is fifth with 123. Wright, Jacoby and Marr have attained their position chiefly through phantoms. Slattery is the greatest base stealer, having purloined 113, or 4 more than Irwin, the great slider of the Newarks.

Reserved List of International Players.

The following is the official list of the reserved players of the International League for 1887:

Buffalo—J. J. Fanning, D. E. Dugdale, M. Lehane Frank Grant, Henry Easterday, John Reidy, Charles Hamburg, Joseph Kappel, M. F. Welsh.

Hamilton—Marr Phillips, Joseph Knight, Peter R. Wood, W. S. Wright, E. H. Warner, J. S. Moore, M. E. Russell, M. Jones, W. F. Horner.

Jersey City—Joseph Rofford, S. E. Shaw, Stephen Brady, John W. Hyland, John W. Corcoran, Frank Lage, F. H. Friel, L. Bowders, W. Daley.

Newark—R. L. Canta, M. F. Walker, James Fields, Thomas McLaughlin, John Irwin, Lee M. Smith, D. F. Casey, John F. Conway, William J. Annis.

Rochester—James H. Strash, Sam Crane, William Gunther, H. L. (Doc) Gessler, Alex. Jacobs, E. Burke, William Brown, Henry Lindsay, C. Ramey.

Syracuse—R. D. Beckley, A. Schellhase, E. J. Duncan, William McQuery, Henry Hittman, Joseph V. Lynch, Henry Simon, Harry Jacoby, Charles Marr.

Toronto—James H. Strash, Sam Crane, William Gunther, H. L. (Doc) Gessler, Alex. Jacobs, E. Burke, William Brown, Henry Lindsay, C. Ramey.

Wilkesbarre—William J. Hoover, William Hallman, Frank H. Brill, John F. Roach, Edward Green.

Rochester—Refused to reserve any players.

REDEEMING ITS PAPER.

The London Bank Cashes its Notes but the Depositors Remain Unpaid.

LONDON, Oct. 2.—In pursuance of the intimation made some days since, the London Bank began the redemption of its paper to-day. A considerable sum was presented, but as it has been well understood for some time past that no difficulty would present itself as to the liquidation, no eagerness to realize was seen. It is yet uncertain when the depositors may have the pleasure of receiving back that due to them. The bank is dependent to so great an extent upon its own customers for the necessary funds wherewith to deal with that part of the business, that some considerable time may elapse before a settlement of that kind can be reached.

In Brief, And To The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this and business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health & happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

Children Cry for Pitcher's Castoria.

"What is the proper Spring Medicine?" It is for Dyspepsia, Liver Complaint, Indigestion, Biliousness, and it is the finest blood purifier in the known world to-day.

"Does it give satisfaction?"

We cannot point to one instance where it did not.

"Where does it have the largest sale?"

Right in the city of Hamilton, where it is manufactured, there has been over one thousand dollars' worth sold in the last year or two, and the great majority of the sales are by one recommending it to another. For sale at 50c. and $1.00 per bottle by John McKee, Druggist. eod w25

I have been bothered with catarrh for about twenty years. I had lost my sense of smell entirely for the last fifteen years, and I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did. My sense of smell is partly restored; it seems to be improving all the time. I think there is nothing like Ely's Cream Balm for Catarrh.—Mrs. R. E. Grimes, Rendrill, Ohio. eodw40

From a Grateful Mother.

My little child suffered from a severe cold upon the lungs, until she was like a little skeleton before she took Burdock Blood Bitters, after which she became fat and hearty, and was cured of weak lungs, constipation and debility or wasting of flesh, from which two doctors had failed to relieve her. Mrs. Samuel Todd, Sturgeon Bay, Ont. 2w40d

Indispensable.

"I have used Dr. Fowler's Extract of Wild Strawberry for summer complaints, and have given it to my friends. It gives instant relief when all other remedies fail. I would not be without it in my house." Mrs. T. Boil, Waldman, Ont. 2w35d

Ladies troubled with Pimples, Blotches, Rough Hands or Face, or Sores of any description, should use McGregor & Parke's Carbolic Curate. It will leave the skin in perfect health, smooth, clean and good color. Be sure and get the genuine, made by McGregor & Parke. Price 25c. Sold at John McKee's Drug Store. eodw35

To Avoid Baldness or Grey Hair.

Use Dr. Dorenwend's Great German Hair Magic. It keeps the scalp clean and free from Dandruff, and promotes the growth of the hair. It prevents premature grayness and stops all falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by J. D. Tully and all druggists.

THE WAR CLOUD BUSTED.

VICTORY has Perched on the Banner of

PETERBOROUGH'S GREAT CHEAPSIDE!

And SHEPPARD, by common consent, will get $1,000 for being the **Cheapest Clothier in Peterborough,** having knocked the Wonderful Cheap Man completely out. "Business is Business; Dirt is Dirt, and when it comes to throwing Dirt, then Count" the only original teddy out, and he will hand over that $1,000 like a little man: For the following reasons:—

Sheppard sells a full size Man's Suit for $2.95, and better Goods than a Suit to fit a Child about 9 years old sold by the Wonderful Cheap-Man on Saturday for $3.00; but marked $3.50. This is how it was:—A Lady purchased a Child's Suit on Saturday last, Sept. 17th, 1887, at the Store of the Wonderful Cheap-Man. It was marked thusly:—Lot 5375, Breast 27, Waist 26½, Age 9, Price $3.50. It was pure Shoddy, being held together by cotton threads, and Sheppard is free to say that that was the dearest Suit sold in the Town of Peterborough for the last two years. **Full particulars are given because of the $1000 involved, and, further, that this decides who is selling the Cheapest Clothing** in Peterborough. SHEPPARD would have sold that Lady a Suit, Pure Wool for that money, and worth two of the one she got.

$1,000 to Go to the Charitable Institutions of Peterborough.

I had first decided to give the agencies a chance of jumping up my rating that $1.000, but after considering the matter and finding that never in any case have I been asked for an endorser to my paper, and that no relative or any other persons have ever endorsed my paper to the extent of one cent, I have come to the conclusion my credit is as good as yours and will ask you to hand over the $1,000 to the Charitable Institutions of Peterborough.

Now, Sir, there is a good story told the truth of which can be vouched for, but for the honor of at least making an effort to keep up your self-styled name—The Terror of High Priced Clothiers—do not allow the same to be said of you in the case above. A man purchased a suit for $15.00 at the store of one of the largest Advertisers in that section of country. It was guaranteed pure wool; but after examining it carefully at home, he came to the conclusion that he had been dealing with some one sharper than himself. Finding a make of wool, differing some from anything he had ever seen, it dawned upon him, that he had heard of wool of that kind, so the suit was returned. The merchant bet $25.00 that it was all wool, and the bet was accepted the decision being left to a neighboring merchant, he found that the $15.00 suit, was wool faced and shoddy back, pure unadulterated shoddy, but what of the $25.00 bet, was it paid, not much—muchly—as it were.

SHEPPARD is making Wonderful Strides in Securing Marvellous Bargains in Dry Goods, Clothing, Hats and Caps.

Obituary.

This morning Mrs. Stenson, relict of the late Robert Stenson, passed away at the residence of her daughter, Mrs. James Whyte, Campbellford, at the ripe age of 94 years. The deceased lady was a native of County Monaghan, Ireland, whence she came to Canada. She has been a well-known and respected resident of Peterborough for about forty five years. Four years ago this month her husband passed away, and since that time she has lived with her daughter, Mrs. James Whyte who, with Mr. J. T. Stenson, is the family the deceased lady leaves to mourn her loss. The body will arrive in town by Grand Junction train on Tuesday at ten o'clock. The funeral will take place from the residence of Mr. J. T. Stenson, Reid street, in the afternoon at 4 o'clock.

Children Cry for Pitcher's Castoria.

The Triple Township Show.

Annual Exhibition of the Smith, Ennismore and Lakefield Agricultural Society.

Everything considered, the annual exhibition of the above society, held on Thursday and Friday, was a fine success. The attendance of the first day was, of course, not large, the placing of the exhibits in the hall being the chief events. In the evening the P.C.A. Hall was thrown open to the public, and an unusually large number of visitors availed themselves of the opportunity of seeing the exhibits.

THE SECOND DAY, FRIDAY,

attracted a large gathering of people, and considerable interest was taken, especially in the horse contests. This section of the country seems to be particularly horsey. In addition to the excellent exhibit of horses, the private turn-outs of farmers and farmers' sons were unusually complete and elegant. The appearance of the assembled people indicated the possession of no inconsiderable amount of worldly competence and thrift.

THE OUTSIDE SHOW

was, in some respects, better and, in other respects, inferior to those of previous years. The exhibit of cattle was nothing to boast of in number, while, with a few exceptions, the same remark might apply to the quality. There was an unusually excellent display of swine, exclusively Berkshire, of which there were no less than ten pens. Sheep were represented rather sparingly by five pens. The show of horse flesh was considerably ahead of that of last year. Every department was creditably represented. Particular mention should be made of the single and double carriage horses. The show of brood mares and foals of all classes was unusually good. This exhibition indicates that increasing attention is being devoted to the breeding of horses of all classes—general purpose, driving and heavy horses. There was a good display of poultry though there were few exhibitors—J. H. Daubex, T. E. Bell and G. W. Fitzgerald.

Mr. Wm. Forsyth, of Peterborough, showed two of his fanning mills, and Mr. H. Owens was on hand with his Model Lift and Force pumps. J. H. McWilliams and D. Smith had the field all to themselves in carriage and wagon work.

THE INSIDE EXHIBIT

was in some respects weaker than usual. Grains were specially fine for the season. In spite of the dryness of the season some of the wheat shown could not be surpassed. A splendid show of roots was made, and several mammoth squash and pumpkins indicated the possibility of growth without rain. There was a fair representation of fancy work, painting and domestic manufactures. Fruit was only fairly represented. Mr. T. Gordon showed three of his canoes, and Mr. J. W. Crosby two Uxbridge organs.

The receipts from entrance tickets was not very large. The lack of enclosed grounds deprives the society of considerable revenue—less than half the people who attend purchase tickets for the exhibition hall—of course they and the other large half secure the remainder of the exhibition without fee.

The directors worked hard to make the show a success, a great share of which is due their untiring exertions.

It must not be omitted to refer in terms of commendation to the excellent playing of the Lakefield brass band, under the leadership of Mr. George Scrimger, the brass being toned down with excellent effect by a clarronet and piccolo, the latter being played by little "Obbie" Dodge a little mite about the height of the big drum.

Altogether the show was a reasonable success. Below is the

Of Interest to Oddfellows.

The Dominion *Oddfellow* says:—"Bro. H. Robertson, P.G.M., of Collingwood, who has been given charge of the case of the Grand Lodge vs Wellington Square Lodge and its refractory members, will at once take legal steps to have the wrong righted, and we have no fear of the result. Bro. Robertson's standing in the profession, and his knowledge of the laws of secret societies, will be of invaluable service to him in a case of this kind, and being an initiatory case the proceedings and result will be anxiously looked for, as the welfare of every benevolent organization in the land depends very largely on the issue. If illegal acts such as have been perpetrated by some of the Wellington Square brethren are to be permitted, the trust funds of no society or company are safe, but may be distributed amongst a few at their will at any time."

General Information.

There are many young men and women who would attend college, but having left school at an early age, they think they would be placed in an awkward position when brought in contact with those who have had better advantages. Permit us to say that no student will experience any difficulty from this cause. There is no examination to be passed before entering. Each student works by himself, entirely independent of others, and may go back to the very beginning, if necessary, and work up. Many of our students are young men who left school at the age of 10 or 12, and having completed our course with credit to themselves, they tell us that they have no embarrassment whatever in working with others in the college, and that no one need hesitate to enter this college on account of defects in early education. Mantle Making an Art at Turnbull's. Everybody may expect to be pleased and surprised with the display of Ladies' and Children's Garments at Turnbull's Millinery Opening.

Oyster Rooms Open.

J.G.Craig has opened out his two comfortable oyster parlors on George street, where the delicious bivalves will be served up at all hours, in any style desired. Drop in and try Johnny's stews. Steaks, mutton chops and tea and coffee served until 12 o'clock at night. d

New Open.

Chamberlain's oyster parlor is now open for the season. Oysters will be served at all hours in styles to suit the tastes of our patrons. After this week shell oysters will be kept constantly on hand. Porter-house steaks, chops, etc., prepared on the shortes notice.

It is enough simply to say to the Public that Miss Mahoney has been doing her best to make Turnbull's Millinery Opening a grand success. Remember the days are Oct. 4, 5, and 6.

LeBrun's Fall Specialties.

BETTER TO WHISTLE THAN WHINE.

It went a little hard, during our recent Great Clearing Sale, to allow such elegant Goods go off at the Sacrificing Prices which they did. But we had to make room for our Fall importations; so, Out They Went!—"bag and baggage!"—and we have good reason to believe that 'tis Better to Whistle than Whine.

Our Fall Goods are now Coming in without interruption, and consist of the Choicest Selections of CLOTHS, from all Countries, ever yet displayed in Peterborough.

OUR CUSTOM TAILORING DEPARTM'T

is in its full sway at present. Orders for FALL COATS and SUITS should now be placed in order to be ready for the cool and chilly days of Autumn and Fall.

The FOUR THINGS we Excel in are:—1st, The Style; 2nd, The Price; 3rd, The Fabric; 4th, The Fit.

A GRACEFUL COMPLIMENT

MGR. TASCHEREAU OFFERED VICE-REGAL QUARTERS AT QUEBEC.

Hon. Thos. White Enters on His Duties in the Department of Indian Affairs—The Scope of Mr. Mercier's Meeting of Provincial Premiers Enlarged.

OTTAWA, Oct. 3.—A very courteous act has been performed by the Dominion Government, at the suggestion of Lord Lansdowne and with his entire concurrence, in offering to His Eminence Cardinal Taschereau the use of the vice-regal quarters in the Citadel from Thursday next, when they will be vacated by His Excellency, who leaves on that day for Ottawa. It is understood that the suggestion was made by Lord Lansdowne and at once acted on by the Government.

With reference to the change in the control of the Department of Indian Affairs by the appointment of Hon. Thomas White in the place of Sir John Macdonald, it might be remarked that the Act provides that the Minister of the Interior or such other minister as may be appointed by order-in-council, shall be Superintendent-General of Indian Affairs. When Sir John resigned the position of Minister of the Interior an order-in-council was passed appointing him Superintendent-General of Indian Affairs. It is understood that this order-in-council has now been rescinded so far as relates to the Department of Indian Affairs; but the control of the Mounted Police remains with the President of the Privy Council, Sir John. Mr. White entered on his new duties to-day and got through with a large amount of work. The change has been made so as to relieve Sir John almost entirely from departmental cares and allow him to devote more time to the duties of the Premiership, as well as to leave him more time and freedom should he decide to accept a position on the Fisheries Commission, which, it is understood, he has not done yet, although there is very little doubt but that he will consent to represent Canada.

As a result of the Postmaster-General's visit to the west a large number of new postoffices are being opened in Manitoba, the Northwest Territories and British Columbia; and it is understood that further improvements are in contemplation. The Postoffice Department has been informed that the volume of mail matter between Canada and Japan is increasing enormously, not only for through matter to Europe but for Canada.

It is understood that Sir Charles Tupper, on his way to Halifax, will stop at St. John's, Newfoundland, and have an interview with the Government with reference to fishery matters. As Newfoundland will not be directly represented on the commission, her interests will probably be to some extent confided to the care of the Canadian commission.

The arbitration in the case of Archie Stewart, arising out of his contract for the Grenville Canal, was continued before Chief Engineer Page of the Department of Railways and Canals to-day and the evidence for the claimant closed. The amount involved is $110,000.

It is now stated that Mr. Mercier's meeting of premiers of the provinces at Quebec on Oct. 20 has been enlarged so as to include all members of provincial governments, and that all the members of the Ontario Government, except Mr. Pardee, will attend.

Messrs. Romeeau & Mather of Montreal have just completed a contract for supplying two iron bell buoys for the Marine Department, one for Partridge Island, at the entrance to St. John, N.B., Harbor, and the other for Port Menton, N.S. The department has lately placed a gas buoy at the west end of Margaret Island bank in the St. Lawrence, below Quebec, to enable vessels to call at the Quarantine Station by night.

The Italian barque Libertas, seized by the customs authorities at Chatham, N.B., on a charge of smuggling brandy, has been released on a deposit of $400 being made. This has been done on account of the lateness of the season, so that she may not be detained until too late to leave the gulf.

The French Conservative journal La Canada has been purchased in the interests of Mr. Oscar McDonell, who has often been spoken of as a prospective Conservative candidate for Ottawa and who will be its business manager. The paper will, it is believed, be enlarged and the general makeup and news department changed for the better.

Col. Chamberlain, Queen's Printer, and Mr. Senecal, Superintendent of Printing, leave for Washington to-morrow.

WAR WITH THE LEAGUE.

HARRINGTON DEFENDS HIS ACTION AT MITCHELLSTOWN.

O'Brien Claims to Have Discovered a Cypher Despatch—Sullivan, the Lord Mayor of Dublin, Will Go in State to His Trial—Sunday's Meetings.

DUBLIN, Oct. 3.—In an interview Mr. Harrington says: "Perhaps some of my words at the Mitchellstown inquest were too strong for some of our English friends, but nothing else could elicit the facts from the police. It was only by breaking down the evidence of the earlier witnesses that I could change the story arranged by the police. I was informed that the police had previously been determined upon to give me all the insolence possible in the witness' chair. Sergeant Ryder pledged himself to his companions to strike me. This was borne out by his demeanor in the witnesses' chair. The inspectors, however, restrained him. Regarding Mr. O'Brien's letter, I would be surprised if the benchers were all such fools as the Solicitor-General thinks. I would not be surprised if Dublin Castle finds itself in an awkward fix when all the facts regarding the refusal to permit Constable Sullivan's report in evidence are placed before the English people. I attribute the serving of summonses upon Mr. O'Brien and Mayor Sullivan to a desire on the part of the Castle authorities to suppress the evidences of their defeat by the proclaimed branches of the National League whose meetings continue as before. The Government will doubtless prosecute other journalists than those named. Should Mr. O'Brien and Sullivan be thrown into prison it will be a strong plank in our platform through its effect in England where the greatest jealousy is felt in regard to the rights of the press."

O'Brien Discovers a Cypher.

DUBLIN, Oct. 3.—William O'Brien has written a public letter, in which he says: "On the day of my conviction at Mitchellstown the Solicitor-General telegraphed in cypher to the Crown Counsel: 'Mistake; O'Brien will beat us; Harrington will be debarred at our next meeting.' This explains why I received three separate summonses. The plot for ruining Mr. Harrington is here disclosed with brutal candor."

The Lord Mayor in State.

DUBLIN, Oct. 3.—Mayor Sullivan will proceed in state to the Police Court on Thursday when his trial comes off. The members of the corporation in their robes will accompany him.

Esmonde and O'Connor at New York.

NEW YORK, Oct. 3.—Sir Thomas Grattan Esmonde, M.P. for St. Patrick's division, Dublin, and Arthur O'Connor, M.P. for East Donegal, arrived by the steamship Arizona this morning. They come to America as the representatives of the Irish Parliamentary party to explain the condition of affairs at home, to thank the American people for their support in the past and to ask them to continue it.

Sunday Meetings of the League.

DUBLIN, Oct. 3.—Several branches of the National League held meetings yesterday in the Mitchellstown district. In one case hundreds of people evaded the police and went to a fortified house outside the town, where a meeting took place. Mr. Mandeville, who was tried with Mr. O'Brien for using seditious language, and sentenced to two months' imprisonment, but released on bail, presided and made a speech, in which he declared that it was impossible to destroy the league. Resolutions were passed strongly condemning the Government's interference with public meetings and the freedom of speech.

Bright's Friendship for Ireland.

LONDON, Oct. 3.—Mr. John Bright has written a letter in which he says:

"I have never been more a friend of Ireland than now, when objecting to hand that unfortunate country over to the rule of revolutionary rebel conspirators. Justice to Ireland requires not only that the laws shall be just, but they shall be obeyed. It is my sympathy with the Irish people which forces me to offer a strong opposition to Gladstone and Parnell. The latter is not changed. The former, five years ago, condemned and denounced him, but now he comes forward as his apologist and defender."

THE UTAH COMMISSION.

The Annual Report Filed With the Secretary of the Interior.

WASHINGTON, Oct. 3.—G. L. Godfrey, A. B. Williams and Arthur L. Thomas, constituting a majority of the Utah Commission, have filed with the Secretary of the Interior the annual report. The population of the territory is estimated at 200,000, a gain of nearly 60,000 since 1880. The valuation of the property assessed in the several counties is given as $35,655,-303. The prosperity of the past seven years, says the report, has been equal to that of any former period in the history of the territory. On April 1, 1887, the total Mormon population in the territories of Utah, Idaho, Arizona, Wyoming and New Mexico and the States of Nevada and Colorado was 152,383.

Since the passage of the Edmunds law in 1882 241 persons have been indicted for unlawful cohabitation, and 239 of these were convicted, while the number convicted of polygamy was fourteen. Many of the persons indicted have fled to escape arrest.

MORMONS ROBBED IN LONDON.

Missionaries From Utah Have to Flee by the Back Door.

LONDON, Oct. 3.—For some time Mormon meetings have been held by missionaries from America in Pentonville-road. These meetings have been held in private houses, but bills have been extensively circulated inviting any one to attend. One of these meetings was held last night in a small house. A crowd collected outside. Speeches were made about polygamy in Utah, and the mob forced an entrance through a window. A scene of great excitement and confusion ensued. The landlord, fearing the destruction of his property, sent for the police, but before they arrived the wall of the garden and that separating it from the next garden was thrown down, and probably worse would have happened but for the arrival of a sergeant and six constables. The Mormon missionaries and their disciples got out at the back of the house.

THE CHICAGO ENCAMPMENT.

A Big Crowd, Music, Speech-Making and Military Evolutions.

CHICAGO, Oct. 3.—The international military encampment was formally opened this afternoon. A big crowd of spectators attended despite the sogginess of the ground and the cold wind that was blowing. When the order had been read naming the camp after Gen. Sherman and a score of gorgeously attired bands had finished the rendition of "The Star Spangled Banner," Mayor Roche came forward and heartily welcomed the foreign regulars and national troops as representative defenders of law and order.

The speech making was succeeded by the brigade, battalion and company exhibition drills, which lasted all the afternoon. The Danish and Norwegian contingents are reported to be dissatisfied with the patent barrack tents assigned them. They are represented as claiming that the quarters are not up to the standard they had expected.

A CASE OF CRIMINAL NEGLIGENCE.

The Captain of the Sadie Held Responsible for Thos. Campbell's Death.

TORONTO, Oct. 4.

Coroner Johnson's inquest touching the death of Thos. Campbell, the young Durham farmer who lost his life on the evening of Sept. 13, in the ferry boat collision, was brought to a close last night. Mr. Badgerow was present for the Crown, Mr. J. J. Foy, Q.C., for the Davies Ferry Company, and Mr. James Till, Q.C., for the Doty Company.

The witnesses examined were Lee Frankell, John Harbottle and Michael Corcoran, all of whom declared they saw a man struggling in the water immediately after the collision. Alexander Martin, captain of the Sadie, was the last witness. The coroner then gave the case to the jury, pointing out grave criminal carelessness against the officials of the steamer Sadie. The jury retired, and after about an hour's deliberation brought in a verdict of criminal negligence against all the officers of the Sadie steamer. Thereupon Dr. Johnson said he would have to commit all the officers of the steamer, but thought that the jury ought to specify some particular officer. The jury adopted the suggestion and named Captain Alexander Martin, for whose arrest a warrant was issued. The warrant will be executed to-day.

A fortnight since Sanitary Inspector Wilson was arrested in the discharge of his duty by Police-Sergeant Somerville, and although the inspector produced his authority, duly signed by Dr. Canniff, Medical Health Officer, he was subjected to the indignity of arrest and a severe cross-examination. The matter was duly reported to the Board of Health, and yesterday a sub-committee met to consider the circumstances of the arrest and take such action thereon as might be deemed prudent. Statements were read from the Police Sergeant and also from Inspector Wilson, and it was agreed to call upon the Police Commissioners to hold an investigation into the affair.

The trial of the Haldimand election case opens at Cayuga to-day before Chancellor Boyd. Dalton McCarthy, Q.C., and S. H. Blake, Q.C., counsel for the defendant and plaintiff, respectively, left town for the scene of the struggle yesterday. The peculiar circumstances of the case renders this one of the most interesting trials among the Ontario protests arising out of the late general elections.

'THE GOLDEN HAND."

Remarkable Career of a Russian Confidence Woman.

VIENNA, Oct. 3.—The Russian adventuress known by the nickname of "The Golden Hand," has been condemned by the tribunal of Moscow to transportation for life to Siberia. This extraordinary woman has been married no less than sixteen times, and is described as being remarkably handsome. Her husbands have belonged to all nationalities and creeds. She ran away from two in France and three in Germany, carrying off as much of their property as she could lay hands on. She was in Vienna in 1878 under an assumed name. She has robbed her different husbands altogether of more than 300,000 roubles. When traveling, she invariably made dupes and then disappeared with their money, jewels and even with their watches. She is not unfamiliar with her future abode, Siberia, as she was condemned to transportation once before by the Moscow Tribunal. She had, however, not been there long before the chief overseer of the prison in which she was confined became enamored of her, and ran away with her to Constantinople, where a marriage took place. She soon left him, and returned to Russia, where she was only identified by the police after two years' residence.

She speaks fluently Russian, German, French, English and Roumanian. The lawyer entrusted with her defense has had an opportunity of experiencing her skill as a pickpocket. When he went to see her in prison after the trial she assured him of her gratitude, and asked him to accept as a souvenir, a gold watch and chain which she placed on the table before him. He at once recognized it as his own, which she had just picked from his pocket.

CHOLERA IN CHILI.

The Disease Re-Appears at Traiguen and Concepcion.

PANAMA, Oct. 3.—Advices from Chili announce the re-appearance of cholera at Traiguen and Concepcion. At the last named place on Aug. 28 there were twenty-eight patients in the Lazaretto. All vessels proceeding from the south of Chili are quarantined in the first Peruvian port they touch at.

Two New Cases at New York.

NEW YORK, Oct. 3.—Two men of the steamer Alesia's passengers were removed from Hoffman Island to the Quarantine Hospital yesterday suffering from cholera.

Fourteen Cases at New York.

NEW YORK, Oct. 3.—Since the last report four more cases of cholera have developed on Hoffman's Island among the passengers of the steamship Alesia. The patients were promptly removed to Swinburne Island. There are fourteen cases under treatment at the present time.

THE BOOK AGENTS' REVENGE.

They Are Going to "Have the Law" of the Farmers Who Assaulted Them.

OTTAWA, Oct. 3.—It appears that the men at the Quyon and Shawville who chased the agents of "Picturesque Canada" out of those villages on Friday last are not to have all the fun on their side, as Mr. Fleming, Q.C., has been instructed by the Art Publishing Company to enter actions against James Prendergast, Joseph Brown and others for highway robbery. The publishers and agents will also enter actions for civil damages. The feeling against the book agents is very strong all through Ottawa County, the farmers claiming that they were swindled by the agents, and it will be a difficult matter to get an impartial jury.

DOMINION RIFLE ASSOCIATION.

Martini Rifles and Ammunition to be Served to the Wimbledon Team.

OTTAWA, Oct. 3.—The executive committee of the Dominion Rifle Association will meet on Wednesday next, when the secretary will probably be authorized to forward Martini rifles and ammunition to those who are entitled to a place in next year's Wimbledon team. The refund of entry fees paid by riflemen who failed to attend the matches at Rideau Range will also be discussed.

A Cable Car Loses Its Grip.

CINCINNATI, Oct. 3.—Last evening Walnut-street cable car grip became fouled with the cable, and the car rushed into the city, and with lightning speed every car on the track up to Walnut Hill was derailed. Thirty or forty people were bruised and three or four hundred badly scared. Of the injured Lewis Kolb is probably fatally hurt, and Mrs. Brockman of Covington, Ky., seriously injured. The others escaped with slight injuries.

The Result of Religious Mania.

SAN FRANCISCO, Oct. 3.—A tragedy occurred in New South Wales on Aug. 28. Wadham Wyndham, a man of excellent standing, becoming suddenly attacked with religious frenzy, murdered his wife and three children, all of whom he loved most dearly. In explanation he said he felt called upon by God to commit the deed.

A Murder by a Curate.

LONDON, Oct. 3.—At midnight Saturday night the Rev. Mr. Cooper, curate of Orettingham, Suffolk, murdered Vicar Farley. He entered the Vicar's bedroom and cut his throat with a razor. He then fled but subsequently returned and was arrested.

THE MINNEAPOLIS MUSTER

OPENING OF THE GRAND ASSEMBLY OF THE K. OF L.

Grand Master Workman Powderly Delivers an Address in Which He Defends His Course in Regard to the Questions of Immigration and Temperance.

MINNEAPOLIS, Oct. 3.—The General Assembly of the Knights of Labor was called to order this morning. The rink was handsomely decorated and contained about 2000 people. Mr. McGaughey read a telegram from Mr. Powderly and Secretary Litchman, stating that they had been unavoidably delayed and could not arrive until the afternoon. Gov. McGill had been called east and was not able to make the address of welcome on the part of the state.

Mr. McGaughey made brief remarks on the growth of the order in the northwest, and introduced Mayor Ames, who made a formal address of welcome. The exercises included songs by a specially trained children's chorus.

In response to Mayor Ames' address of welcome Richard Griffiths, General Worthy Foreman, was introduced in place of Mr. Powderly.

He was followed by A. A. Carleton of the General Executive Board. He spoke particularly of the growth of the order, and said it would appear when the reports were all in that the order was not going to pieces, but was in reality stronger than ever.

Richard Trevellick concluded the morning session with a short speech, pledging the order to the support of American principles and American institutions.

The convention then adjourned until 8 p.m., when Mr. Powderly will deliver his address on "The World as the Knighthood Would Make It."

Powderly's Address.

Master Workman Powderly and most of the other delayed delegates to the Knights of Labor convention, arrived this afternoon. The great hall was crowded at the time of the opening of the evening exercises.

Mr. Powderly, on rising, was given an ovation. After referring to the principles of the Knights of Labor, he said: "I want to say a few things on immigration. It has been charged that I do not favor immigration. It is a mistake. I am of foreign birth myself. I have no objection to foreign immigration. I favor it. Every land grant company has its immigration agents. They bring in all manner of foreigners. If one of these poor creatures raises his hand, not against law, for he knows none, but against what he sees just before him, he is called an anarchist and punished, while the men who landed these poor creatures in this country go scot free. [Thunderous applause.] I hate anarchy and I hate anarchists. How can the child reared in poverty, squalor, ignorance and vice grow up to respect the institutions of this country? What I say is make the arent of the steamship company and the agent of the land company stop importing foreign paupers. Let only those come to our free America who come of their own free will to make their homes. Is that saying anything against the foreigner? [Cries of "no, no."] I thought you'd say so. This is why I am called a crank on the immigration question. I am also called a crank on the temperance question. I may be a crank on this question, but I am not ashamed to say that I would far rather see a man a sober man than a drunkard. It is better to educate our children to be temperate than to be drunkards. There is not a man living who will say that it is right to bring into the home that which damns the head of the family. There are those who have threatened to leave the order because of my position on this question. I say to all who would withdraw for such a cause "go." I'll trust the fate of the nation with sober men and women. I'll never take back one word of what I have said on the temperance question, so help me God! The time will come when the workers of all kinds and classes will be banded together for a common purpose."

A DISASTROUS EXPLOSION.

Four Persons Killed and Several Injured at St. Louis.

ST. LOUIS, Oct. 3.—Four persons were killed and two seriously wounded by an explosion at George P. Plant's flour mill this morning. The cause of the explosion was an old boiler.

Mr. Thos. S. Rivers, wife of the foreman, was blown from the boiler room across the alley into a room sixty feet from where she was standing. She was killed, as was her husband, who was buried under the debris.

Fritz Kuhlman was also buried in the ruins and was taken out dead. H. Teese was instantly killed by steam and the force of the explosion. Engineer Meyers was seriously injured. Minnie Reichman, a child of 5 years, had both legs broken and was fatally injured.

A piece of the boiler flew 200 feet, crushed the roof of a two story house and crushed through to the cellar, demolishing the building. Another piece of the boiler smashed into an adjoining livery stable and pulled down a wall and part of the roof.

CARDINAL TASCHEREAU'S TOUR.

His Eminence Will Leave Montreal for Toronto on Thursday.

MONTREAL, Oct. 3.—His Eminence the Cardinal Archbishop of Quebec is expected to arrive at the C.P.R. Station to-morrow at 3 o'clock. He will be welcomed by the Archbishop of Montreal and other clerical dignitaries. A procession will be formed to conduct His Eminence to St. Patrick's clergy house, where he will be the guest of Father Dowd during his stay in this city.

On Wednesday morning he will officiate at the marriage in St. Patrick's Church of his grand niece, Miss Sills, only daughter of W. B. Sills, to Charles F. Bouthillier, son of the former sheriff of Montreal. His Eminence will dine in the evening at his nephew's, the Hon. Mr. Justice Taschereau. He will leave for Toronto on Thursday.

TRIED WITH CLOSED DOORS.

The Anarchist Neve Arraigned at Leipsic for Treason.

BERLIN, Oct. 3.—The trial of the anarchist Neve for treason was opened at Leipsic to-day. A large force of police surrounded the court. Neve, who in the preliminary examination persistently denied his identity with the anarchist of that name, to-day admitted his identity. Herr Tessendorf demanded that the trial be conducted with closed doors. The court assented on the ground that the publication of the proceedings would endanger public order.

The Samoan King Abducted.

LONDON, Oct. 3.—The latest news from Samoa is that the Germans took King Malietoa on board a gunboat for the purpose of exiling him, on account of his failure to prevent his people from robbing German plantations. King Malietoa had previously written to the British and American consuls expressing the appointment at the absence of their support.

Mark Street Methodist Church

Anniversary Services in Ashburnham.—Tea Meeting and Lecture by Rev. Mr. Browning.—"An Hour Among Indians, Miners, Gamblers and Chinamen."

Monday evening the annual tea in connection with the anniversary services of the Mark street Methodist church, Ashburnham, was held in the town hall from 5 to 8 p.m. It was largely patronized and highly successful. At eight o'clock the public meeting in the church just across the way was begun. The edifice was crowded.

The choir opened the meeting with a chorus, which was followed by prayer and a few remarks from the pastor, Rev. J. C. Wilson, who announced that the Sabbath School anniversary would be held this (Tuesday) evening in the town hall, where an entertainment would be given and a small entrance fee charged. Rev. Mr. Bell was present, and took a seat on the platform.

The choir sang again, after which the lecturer of the evening was introduced.

Rev. Mr. BROWNING, on coming forward, was greeted with applause. After a few preliminary remarks, the speaker described his first interview with the miners. He had been riding in British Columbia for a long distance and came to a place where he stopped all night. The next day he was going down a hill and met some wicked-looking men, and a little later rode into a small town. They asked him who he was, and on his telling them he was a minister, they said he was just the man they wanted, as three men had just been

FOUND MURDERED.

They wanted to know what to do, so he (Mr. Browning) proposed a coroner's inquest, and they made him coroner. The result was a verdict of wilful murder against parties unknown, and finally the guilty parties were traced and found on the American border, and hanged to the nearest tree. The speaker said he had had strange experience with the miners. Those who haven't seen a miner and his way of living don't know much about him. He is always a miner—in his youth, middle age and in his dying hour always the same. They were, too, a most genial, jolly set of fellows. The speaker went on to describe several peculiarities of the miners' habits. One was that they never washed the plates on which they eat. When asked why they didn't clean their plates, once in a while they would reply that it would destroy the grease—and the grease often came in handy. Miners, though of times making money rapidly, did not always become wealthy and provident, a fact which the speaker illustrated by several incidents, showing how miners would become actually insane over a sudden acquisition of wealth and live a life of dissipation to be suddenly ended by violent death. The miners were a true-hearted set of fellows. Rev. Mr. Browning mentioned an instance of this. At one time a couple of scoundrels, calling themselves Roman Catholics, objected to his preaching, and threatened to shoot him, when one of the miners, Missouri Bill, stepped to his side and cried out that if they shot the minister he would shoot them. They didn't fire, and Missouri Bill afterwards became his fast friend. The speaker related a humorous incident about a Scotch minister, who was just out from the old country and pretty "green." He was in the habit in the early morning of shouldering a fog and marching up and down the field for exercise. Soon the report got abroad that a ghost was around—no one but a ghost would walk up and down, up and down, and make such heavy tracks. Finally the miners decided to watch, and watch they did all through the night. In the early morning they saw the Scotch minister marching up and down with a log on his shoulder, and so the ghost story was exploded. The speaker stated that among the miners he knew some of the

BEST CHRISTIANS IN THE WORLD,

and referred with much feeling to the intense fervor of their religious meetings.

Rev. Mr. Browning related his first experience in a gambling den. He went into a tavern where the men were gambling and carousing all night long. He, however, rolled himself up and went to sleep in spite of all the noise and tumult, and next morning on getting up announced his determination to preach. He found out that one of the worst gamblers, one who had lost his horse and pistols and blankets at the table, was a Methodist minister's son. He preached and "gave them fits," as the speaker himself put it. Mr. Browning described the gambling table in use among the miners, four of which were running in the next gambling saloon which he visited. That day one of the gamblers had died, and he was asked by the dead man's comrades that night to preach a funeral sermon. They shut up the gambling tables to let him preach, and during his sermon they frequently cheered him. When he had finished one of them remarked to him that he would no doubt be surprised to hear them cheer, "but d'ye know," said he, "we haven't heard a sermon in twenty years." At the conclusion they gave him, the preacher, $100. That very night, on the very table from which he had preached, a man was shot dead, and his blood fell where the Bible had rested only a short time before. These were some of the scenes they had to go through. But miners liked to be talked to like men, and if they were treated so the stranger would be accorded the same treatment.

The speaker then referred to his Indian experience—his life among the wretched, murdering Indians, who were converted to God. Rev. Mr. Browning said he had visited, along with Mr. Duncan, an English gentleman, a tribe of these Indians, and on passing through among them and witnessing their cruelty and depravity, he (Mr. Duncan) had shed tears of sorrow. But he went to work, and years after had these Indians the most complete

CHRISTIAN MEN AND WOMEN.

The speaker related an incident in which the British flag, floating from a man-of-war's man in the harbour, had protected him in the discharge of his Christian duties. He blessed the grand flag that had so protected him and enabled him to place his church on a good footing. The speaker indulged in a little rhetorical laudation of the flag that had "braved the battle and the breeze for a thousand years," which was applauded by the audience. Referring to the Indians' character, Rev. Mr. Browning said if an Indian's heart was touched and he were treated like a man, he would act honorably and like a man. Indians were strangely fond of medicine, and if the least thing went wrong with their system they would go to the whites for a remedy. The speaker related several humorous incidents interspersed with snatches of Indian dialect, showing their fondness for medicine, and the ridiculous results sometimes arising therefrom. Indians, said the speaker, were the most eloquent men in Canada when they come under the influence of the Gospel and the spirit of God loosens their tongues.

The Chinaman was next referred to. Rev. Mr. Browning said he didn't believe in the popular prejudice against Chinamen. He had, he said, heard that there was a Chinaman stopping in town, and he hoped the public would treat him well. He didn't like to see all the gates of success and prosperity in life closed against the poor Chinese. The Chinese, said Mr. Browning, were very religious in their own ways, and a Chinaman converted to God made the best Christian in the world. Another characteristic of "John" (the Chinaman) was that he was loyal to his girl. A young Chinaman who was sending money to China, on being questioned by Mr. Browning, replied that he was sending it to his "little gallee" in China. Mr. Browning thought the fellow that was true to his girl

THREE THOUSAND MILES AWAY

was a pretty good beau. Mr. Browning said in that respect the Chinaman was superior to the general run of American boys. The story was told in the pigeon-talk of the Chinese and was very laughable. Mr. Browning here took occasion to pay a compliment to the girls of Ashburnham and Peterborough, by saying that though they had fine girls in Belleville, he must say that he had never seen so many modest, healthy-looking and pretty girls as he had here. The speaker closed with a patriotic eulogy of Canada, interspersed by several anecdotes. If there was any country he wanted to see elevated to a proud distinction it was Canada, and the British Columbia of which he had been speaking was the best province of the whole confederation. He wished the men present might by their votes, their prayers and their influence, to preserve intact this Canada of ours.

Rev. Mr. Browning's lecture was delivered with a vim and sprightliness, and in a generally humorous vein, that kept his audiences interested and amused. He is evidently just the kind of a man to make friends and be successful among the hot-headed but brave and honorable men of the wild regions of British Columbia, who admire physical and moral courage and pluck.

At the conclusion of the address Rev. Mr. Bell made a few remarks, and moved a vote of thanks to the speaker, which was heartily seconded and carried.

The meeting was brought to a close in the customary manner.

The Bonus Business.

Says the Lindsay *Post* :—"The town of Peterborough is to submit a by-law to the ratepayers authorizing the municipality to expend $40,000 for the purpose of encouraging manufacturers to locate in the town. And this, too, after Peterborough had persistently pointed the finger of scorn at other towns that have granted bonuses for a similar object. It is a question if Peterborough as a town would stick to any bonus arrangement it might choose to make, once the object was gained for which the bonus was granted, as it is notorious that Peterborough by sheer good luck and by wriggling out of the Grand Junction railway bonus, escaped carrying nearly $240,000 of municipal indebtedness. The town granted bonuses to railways which fortunately did not begin work in time to make the contracts binding." The *Post* is all astray on the bonus business. The idea is not to grant bonuses at all, as it supposes, but rather to erect large buildings on property owned by the town, to be occupied by industries locating here free of rent or taxation.

International Fielding Records.

The International fielding averages show that Fantz is fourteenth among the first basemen, with .945; Kearns is seventh among the second basemen, with .839; Rickley is fourth among the third basemen, with .862. Among the pitchers Crane is eighth, with .936; Baker and Shepherd are tied for eleventh place, with .946. Trafley is fourth among the catchers, with .930; Decker is twelfth, with .889, and Oldfield is nineteenth, with .853. Albert's record of .895 puts him fourth among the short stops. In the outfield Slattery is eighth, with .910; McCormack is twenty-seventh, with .833, and Decker is thirty-first, with .819.

The Marquis and the Jockey.

Now that the yacht race has been decided sporting gossip in England reverts to the turf. The clubs, for instance, can't understand why the stewards should merely caution the jockey E. Martin and yet exile his employer, the Marquis of Alleabury. The incident about which the Jockey Club has given a decision has caused a sensation. On the day of the race Everitt started as favorite at four to one against, and appeared to be winning in a canter, but only got up in time to make a dead heat of it with Whittington. There was a storm of indignation among backers, and on Martin appearing in the paddock an ugly rush was made for him, and it was found necessary to guard him until he safely reached the weighing room. In the deciding heat Everitt won by three-quarters of a length. The Marquis of Alleabury and Martin were called before the stewards to explain the running, and after hearing their statements and the evidence of other persons the stewards were of the opinion that either an attempt had been made to win by an unjustifiable and dangerously short distance or that Everitt had been wilfully pulled up before the end of the race. The result substantially means that if a jockey is employed to perfect a fraud for which his employer is plucked he may nevertheless continue to ride.

In another instance, that of Lord Calthorpe, the lenity of the stewards has been overruled by the owner. Lord Calthorpe reported to them a statement made by his jockey, S. Loates, that flatly lost the start in the Breeders' Foal Stakes at Manchester through whipping round. The statement was not corroborated by the starter, who was of the opinion that though there was no evidence that Loates had any corrupt intention in losing the start, he had made false statements both to his employer and to the stewards, with a view to relieve himself of blame. They therefore fined him £25 and cautioned him as to his future conduct. Loates then was requested by Lord Calthorpe to send in his cap and jacket.

At Prospect Park on Saturday McLaughlin rode four horses to Garrison's two, McLaughlin adding two wins to his score against none for Garrison. The score now stands: Garrison 37, McLaughlin 36.

F. Malcolmy's filly Aureole was cut down by Jos Mitchell in the last race at Gravesend on Saturday, and will probably be retired from the turf.

Conundrum Answered.

Good Advice.

If a father wishes to give his son a legacy that will endure while life exists let him send him to an institution where he can obtain a general business education, and he will have the satisfaction of knowing that he has given him what is better than houses, lands, farms or even silver and gold. These things may take wings and suddenly fly away; but this knowledge will last while life and reason exist.—*Horace Mann.* dw

Children Cry for Pitcher's Castoria.

A Novel Locomotive.

A new piece of machinery has been turned out of the Wm. Hamilton Manufacturing Company's Works here, that from its novelty merits a brief description. It is a cross between a locomotive and a "traction engine," and is intended to draw up large trucks of logs to a saw-mill on a "pole" track. It consists of an upright boiler with twin engine set in a heavy wooden frame-work resting on wheels. The main shaft runs crossways of the car. On the shaft are four chain wheels, each separately connected by a heavy chain with similar wheels geared with the four large wheels on which the locomotive moves. A test of the new machine was held Saturday and proved most satisfactory. It was fitted for the occasion with ordinary car wheels and was placed on the switch line of the Midland Railway to test its locomotion powers. It showed great power in forcing its way from the shop door to the railway track, a considerable distance slightly up grade, and over a sandy road-bed. The locomotive, for such it really is, will be shipped this week to Phelps & Co's mills at Eastman, P.Q. Upon its arrival there it will be fitted with the large concave wheels adapted for running on a "pole" track. The machine is a new piece of mechanism and quite an invention.

Number 1 Company's Record.

General Information.

There are many young men and women who would attend college, but having left school at an early age, they think they would be placed in an awkward position when brought in contact with those who have had better advantages. Permit us to say that no student will experience any difficulty from this cause. There is no examination to be passed before entering. Each student works by himself, entirely independent of others, and may go back to the very beginning, if necessary, and work up. Many of our students are young men who left school at the age of 10 or 12, and having completed our course with credit to themselves, they tell us that they have no embarrassment whatever in working with others in the college, and that no one need hesitate to enter this college on account of defects in early education. PETERBOROUGH BUSINESS COLLEGE. dw

Carrying the War into Egypt.

The Campbellford *Herald*:—"Peterborough stands at the head of the list of Scott Act towns in the Dominion for the infliction of fines. Since the campaign against the hotel-keepers began, the town has collected thousands of dollars in fines, and the end is not yet. With a great supply of energy in store the Scott Act advocates are pushing the battle to the very gates, and the victory is certainly going to be theirs. The liquor-vendors are becoming discouraged, and one of their number said here a short time ago, that unless their prospects brightened, the hotel-men would be obliged to close their doors and abandon the business."

Very Sad News.

It was with great regret that the EXAMINER received the sad intelligence of the death of Mrs. F. G. Haultain—Mary Gilmour—which took place on Saturday last at Cardinal. Mrs. Haultain was married only a few years—June 14th, 1883—and will be well remembered by the hundreds who loved her for her amiable disposition and respected her for her sterling qualities of character. The sympathy of the entire community will go out to the bereaved in their hour of affliction. The funeral will be held from the residence of Mrs. Gilmour, Park street on Wednesday afternoon at 3 o'clock.

The Vigilantes.

"The Vigilantes" was presented at the Opera House last night to a three-quarter house by the Lindley Dramatic Company. It was well put on and gave evident satisfaction to the audience. The hilarious Harry was a host in himself. This company occupies the boards every night this week. The low prices should, and doubtless will, attract large houses to a really meritorious performance.

Removal.

The vacant premises at the corner of Simcoe and George streets, recently occupied by the "Peoples' Cash Store," is being overhauled and prepared for occupation by Fairweather & Co's. hat and fur store. The removal with take place by the 15th inst. In their new premises Fairweather & Co. intend going more extensively than ever into the fur business.

An Oddfellow Item—The Three Lynx.

On Tuesday, Mr. Elcome, taxidermist, received three lynx, shot by Mr. Lynn, of Warsaw, in one day. They were sent in to be stuffed and set up, and as Mr. Elcome will make as good a job as the hunter did, the resulting trophy will be both valuable as an artistic sample of taxidermy and a triple trophy of the chase.

Brought to Justice.

A Couple of Residents of North Harvey Charged with Burglary.—The Stolen Goods Found in Their Possession.

For some years past Mr. J. M. Irwin has entertained the suspicion that his shanty supplies were disappearing more rapidly than was necessary, and late events go to prove that a systematic series of robberies have been carried on in the rear townships at his expense. On the 18th of August four barrels of pork, three pairs of blankets, two pairs of snowshoes and a quantity of pole and hames straps were stolen from his shanty at the foot of Copper Lake, in Anstruther, some 40 miles from town. The matter was placed in the hands of Detective Macpherson, of Toronto, who spent eight or ten days in the vicinity and worked up the case. Acting upon information from him, and accompanied by County Constables Geo. Cochrane, Thos. Lytle, Wm. Henry and Gardner Nicholls, and an employee of Mr. Irwin, John Bell, to identify the goods, Acting Chief Adams yesterday afternoon drove to the north of Harvey and searched the premises of a couple of residents, finding a quantity of the stolen goods. These, with the men in whose houses the stuff had been found, Messrs. Elijah Windover and Augustus Montgomery, were brought to town, where the goods were recognized as Mr. Irwin's.

At the police court this morning, Mayor Stevenson presiding, the prisoners were remanded until to-morrow.

In one match (two innings) W. Sabine got 12 wickets for 21 runs.

NOTE.—It may be mentioned that the Peterboroughs scored during the season 1947 runs for 147 wickets down, an average of over 13 runs per wicket, while they got rid of 182 of their opponents' wickets for 1587 runs, an average of 8¾ runs per wicket.

Central Exhibition.

The Opening Day—Placing the Exhibits.

In spite of the dreary outlook from wet weather, the Central Exhibition began today with fair prospects. Exhibits poured in rapidly this forenoon,—of grain, roots, dairy produce, horticultural and floricultural articles, fine arts, ladies' work, etc. The judges are busy at work in these departments. Entries are being made and up to date are far ahead of last year. If the weather is favourable the exhibition will be an excellent one in all departments. To-morrow will be stock day. Gates open at 9 o'clock.

Reception to Rev. Mr. Crawford.

Rev. Mr. Bradshaw and Mrs. Bradshaw issued invitations Friday last to the members of St. Luke's congregation to attend a reception in honour of Rev. E. P. Crawford, who has just concluded a twelve days mission at this church. The reception was held yesterday evening in the school room and was attended by over 200 persons. A short musical programme was rendered in which Mrs. Seward, Mrs. Bowman, Miss Strickland, Miss Carron and Mr. Crawford took part. The evening was very enjoyably spent, the Missioner, host and hostess making themselves agreeable to all present. Refreshments were served at 9:30, after which Rev. Mr. Bradshaw invited Messrs. Burnham and Strickland to the platform. The rector made a few remarks expressive of his satisfaction at the spiritual success of the recent missions and then having invited Mr. Crawford to the platform he called upon Mr. Burnham to address those present. Mr. Burnham spoke of the rich benefits the church had received through the mission and of the high esteem in which the congregation held Mr. Crawford for his faithful and arduous labors amongst them. In closing he said he was commissioned on behalf of the congregation to request Mr. Crawford's acceptance of a sum of money with which to purchase a slight memento of the high regard in which he was held by the members of St. Luke's and as a small return for his work on their behalf. Mr. Crawford very feelingly replied and stated that he had been much gratified with this visit and felt himself already fully repaid for any labor on his part. His was a labor of love, and while not looking for an earthly reward he could not decline their gift, knowing the spirit which prompted it. The Missioner then shook hands in farewell with a large number of those present and the proceedings closed by all joining in singing the National Anthem.

An Explanation.

An employee of the Electric Light Company called this afternoon and explained the sudden suspension of the electric lights in town last night about 9:30. He had been searching the town over to discover the cause, and about two o'clock found that it had been owing to a "break" in the circuit in the *Times* printing office.

Cribbing the Creek.

The work of cribbing the north east side of the creek above Murray street is being carried forward under street inspector Pope's supervision. A street will be opened up alongside the creek from the end of Murray street to Stewart street.

The Tax Question.

To the Editor of the Examiner:

SIR,—The want of time has prevented me from making a few remarks about Mr. McNaughton's letter in dispute with Mr. Moore about the taxes and the percentage when not paid at the proper time. The remarkable nature of the letter in question struck me at once with the idea that Mr. McNaughton was neither the writer nor the composer of the same, as I hold him to be a man of more common sense than to make such a blunder in the classification of the poor and the rich man, and, therefore, in this case, I will not direct my remarks to him, but to the writer of that letter. I cannot think that ignorance of facts could prompt such a letter, but wilfulness for a purpose being the motive. If anyone poses as the poor man's friend, he ought to know who are such. Some time ago I alluded in one of my letters to such as deserve to bear the title, as being the poor man's friend, and only those whom circumstances have blessed with means, and who judiciously expend it for the employment of the less fortunate, being the ones, and if the writer in question is doing the same, I am far from robbing him of that title. If he classifies them who work for their wages and are dependent on their employers, as poor men, and the rest, merchants or, more properly speaking, business men, manufacturers, speculators, agents and professional men, as being the rich, then such an idea is too absurd to require refutation.

I do not want to make any unnecessary remarks about the standing of the different classes enumerated, but will just speak of my own experience and observation, which are a fair illustration of the general run. Shortly after starting business in 1861, my only means being the savings from wages as a mechanic, I had just received a bale of buffaloes, when Mr. Hartley, as collector, made a call on me to pay seventy dollars taxes. Unfortunately, all my little means were scattered in paying wages and rent during the summer; the buffaloes being in my store but in fact not my own, as they were not paid for; but this was no satisfaction to Mr. Hartley, as he coolly informed me that the bale might pay the taxes. And so I struggled along a good many years with a recollection of having been in the past a far more happy man when working for wages without the worry on my mind of paying honestly just demands. And such is the situation of many a rich man according to the writer's letter in question. That their position in many cases is worse than their employees, needs no argument. Mr. Moore's contention of one per cent. a month on overdue taxes is a proper one, and should be put into effect. Thanking you, Mr. Editor, for space,

I remain, etc.,

W. LECH.

The Daily Examiner.

WEDNESDAY, OCTOBER 5, 1887.

KNIGHTED BY THE QUEEN.

HIS LORDSHIP CHIEF JUSTICE SIR ADAM WILSON.

The Expected Visit of Sir Charles Tupper—It is Believed His Stay in Canada Will be Brief—A Schooner Seized for Smuggling Flour.

OTTAWA, Oct. 4.—Her Majesty has been pleased to confer the honor of knighthood on Chief Justice Adam Wilson of the Court of Queen's Bench, Ontario. His Honor has been twenty-four years on the bench and it is generally understood that he contemplates retiring before next term, but his formal resignation has not yet been tendered.

The rumor that Judge Clark of Cobourg intends resigning the County Court judgeship of Northumberland and Durham to accept the position of solicitor to the Canadian Pacific Railway Company at a salary of $12,000 per annum, is generally credited in official circles here, although his resignation has not been received. In the event of his resigning it is most probable that Junior Judge Benson will be promoted.

Sir Charles Tupper's Visit.

Sir Charles Tupper is expected to arrive in Halifax about Saturday and will come on at once to Ottawa. He is not accompanied by Lady Tupper, and it is believed that his visit will be a brief one, as he will return to England to settle some business there and then come over again to take his place as Minister of Finance *at the opening of Parliament*, which will probably be about the end of January. It is thought that a good deal of definite information about the fisheries convention will be obtained by the Government when Sir Charles arrives, as he spent two days with Mr. Chamberlain prior to his departure.

A Schooner Seized.

A seizure has been made of the schooner Windsor Packet at Weymouth, N.S., by the customs officials for reporting short a quantity of flour in the months of October and November, 1884. It is not known what the actual quantity smuggled was, but an examination will be held. The vessel has been provisionally released on the payment of $400, awaiting the final decision of the Minister of Customs.

The Labrador Fisheries.

The Fisheries Department has received advice from Commander Wickham, of the Government steamer *Le Canadienne*, that the Labrador fisheries have been much better this year than they have been for the last two or three seasons, and there is no fear of the people being in distress this winter.

To Investigate Irregularities.

Mayor Anderson, engineer of the Marine Department, has gone to Amherstburg to investigate some alleged irregularities of the lighthouse keeper at that place.

Jubilee Address to the Pope.

Abbe Tanguay, who will leave here for Rome next month, will be the bearer to the Pope of the jubilee address to His Holiness from the archdiocese of Montreal, as well as that of Ottawa.

A Candidate for Promotion.

Mr. A. Power, chief clerk of the Department of Justice, is Acting Deputy Minister of Justice. Mr. Power has been thirteen years in the department, is an accomplished scholar in both English and French and is equally well posted in Quebec and Ontario law. It would not be at all surprising if after being afforded an opportunity of showing his fitness for the position he should be appointed as Mr. Burbridge's successor.

An Unfounded Report.

There is no truth in the statement which has appeared in The Ottawa Free Press and other papers that Mr. F. D. Barwick of Toronto has been appointed Postoffice Inspector for the Toronto district in place of Mr. Sweetman.

Promised Changes in the P.O. Department.

Major Wickstead, Accountant of the Postoffice Department, who has been fifty years in the public service, will retire on Oct. 15 on the superannuation allowance. The vacancy caused by his retirement will not be filled until after the return of Mr. Cunningham Stewart, superintendent of the savings bank and money order offices, who is at present in Europe studying the various postoffice systems, when it is expected there will be a considerable reconstruction of the Postoffice Department here.

MANITOBA'S CROP OF 1887.

The Official Statement of the Winnipeg Board of Trade.

WINNIPEG, Oct. 4.—The secretary of the Board of Trade has prepared an estimate of the season's crop in Manitoba, based on information received from reliable sources. The report says:

Wheat—Taking a lower estimate than has been decided on by our principal grain dealers and millers (20 bushels as mentioned above), I have averaged the yield at 20 bushels, which, on the returned acreage of 432,134, gives as a total 12,826,884 bushels. Allowance must be made for a home consumption, for seed and breadstuffs of 2,000,000 bushels, which leaves in round numbers 10,800,000 bushels available for export.

Barley—36,110 acres were under crop. The yield has been large, but the average here assumed (which is lower than any given by grain men) is 25 bushels per acre. On this basis the total yield may safely be estimated at 2,000,000 bushels.

Of oats, 155,176 acres were sown, but it is likely that 25 per cent. of this area will be cut for fodder, as the seeding was late. To make a very full allowance, the acreage, herewith used for calculation, is placed at 109,800, which, at an average yield of 30 bushels, shows a total of 4,000,000 bushels of this crop harvested.

Flax—12,000 acres have been harvested, with an average of 15 bushels per acre, giving a net yield of 180,000 bushels.

Potatoes—The acreage reported reached 11,000, and a safe estimate of 200 bushels per acre may be used. This represents a total crop of 2,750,000 bushels.

With over 14,000,000 bushels of produce available for export, it will require over 20,000 cars (averaging 700 bushels for all classes) to transport our surplus. Supposing a train to consist of twenty cars, not less than 1000 trains must be supplied to meet the demand.

The value of the year's crop which will be available for export is estimated as follows:

Wheat	10,000,000 bushels at 55c	$5,500,000
Barley	1,000,000 bushels at 30c	300,000
Oats	2,688,000 bushels at 18c	440,000
Flax	150,000 bushels at 75c	112,500
Potatoes	1,000,000 bushels at 25c	250,000
	14,838,000	$6,612,500
It is safe to add for the value of dairy products, stock, vegetables, wool, hides, etc. available for export, not required in Manitoba		5,000,00
		$7,112,000

VISITORS FROM BOSTON.

The Ancient and Honorable Artillery Company Have a Good Time in Montreal.

MONTREAL, Oct. 4.—About 150 members of the visiting Ancient and Honorable Artillery Company of Boston, with the ladies of the party, shot the Lachine Rapids this morning and thoroughly enjoyed the trip. Their fine band, from 10.30 to 12, gave a delightful concert in Dominion-square. During the day drives round the Mountain were in order, and the principal sights of the city were also visited. Lieut.-Col. Stevenson, Lieut.-Col. Mattice and other officers called upon the artillerists and a pleasant day was spent. The parade which was to have taken place this afternoon was abandoned, owing to the muddy streets.

At 5 o'clock this afternoon the grand annual banquet of the company took place at the Windsor. They left for home to-night, being escorted to the depot by the city volunteer officers, Acting-Mayor McBride and the leading city officials. Among the visitors were the following members who composed the delegation to London, England, in 1883: Col. Henry Walker, Lieut. John C. Dalton, Lieut. Jacob Lilloway, Sergt. J. R. Newman, Sergt. T. J. Olps and Lieut. Jacob Sotler.

THE DOCTOR'S MISTAKE.

Verdict of the Coroner's Jury in the Flamboro Poisoning Case.

HAMILTON, Oct. 4.—In the case of the children of William Nicholson of East Flamboro who met their deaths some days ago by morphine poisoning, the drug being administered in mistake for quinine, the coroner's jury brought in a verdict to-day that the poison had been administered by Dr. J. E. W. Anderson of Millgrove, he supposing that it was quinine.

THE HALDIMAND ELECTION CASE.

Mr. Colter contesting Dr. Montague's Claim to the Parliamentary Seat.

CAYUGA, Oct. 4.—The Haldimand election case came on to-day in the Court House here before Chancellor Boyd. The counsel were: For Dr. Montague, the respondent, Dalton McCarthy, Q.C., and Colin G. Snider, B.A.; for Mr. Colter, petitioner, S. H. Blake. The attendance was pretty large. Both the respondent and petitioner were in court. There are a great many witnesses to be examined on both sides, and it is not likely that, when the scrutiny is taken into account, the case will be concluded for some days.

The judge ordered that the charges of corrupt practices on both sides should be gone into first, and then if either candidate was adjudged capable of holding the seat the scrutiny will be gone into.

The first charge taken up was that against the respondent of having distributed a circular purporting to come from Queen Victoria.

R. W. Muchmore of Caledonia said he was responsible for the circular, and had dictated it and distributed some. He thought it would have an influence, but believed it did not. He had not been asked by Dr. Montague to vote for him. Had only seen the doctor a few days before the election.

The respondent swore that he had discouraged the distribution of the circular and had regarded it as nonsense. He had not distributed any and had not authorized anyone to do so. He only saw them the day before the election.

Some of the witnesses for the defence were absent and the defence was delayed until the afternoon.

The next charge was that Stephen Young, an agent of the respondent, had bribed one Peter Wintemute.

Wintemute swore to a sort of a mutual arrangement between himself and Stephen Young by which they were to each try and get money from their respective parties and pool the proceeds. Wintemute thought that Stephen Young had got the money from Fred Young.

Mr. Fred Young testified that he was not solicited in any way to work or assist Dr. Montague. He was during the election casually canvassing for Dr. Montague, just speaking to parties he met. He never knew respondent until he spoke in Caledonia, when he stepped up and congratulated him upon his speech. This was all the acquaintance he had with him. He was asked by his brother for money on polling day. He had owed his brother for years and had paid him by little sums before and since the election. He loaned him twenty-five cents upon one occasion and five dollars upon another occasion. During the polling day he simply paid him and did not know what he was doing or going to do with the money.

Jacob Wintemute's brother was called and testified to many things which contradicted flatly much of his brother's evidence.

The case was allowed to stand, Mr. Blake saying he had an important witness.

The evidence of three or four Indian chiefs fell through entirely, the Indians swearing that they were not promised nor given anything in any way whatever. The petitioner, C. W. Colter, has already abandoned many of his chief charges, and thus far nothing has been brought forward of any importance. The case will continue to-morrow at 9.30.

A Fight Forbidden.

CINCINNATI, Oct. 4.—Sheriff Schott has written to the managers of Chester Park, forbidding them to allow the fight between Nolan and Clow, arranged for Thursday.

FOUNDERED IN THE STORM

A TORONTO PROPELLER LOST IN LAKE MICHIGAN.

The California, Bound from Chicago to Montreal, Founded to Pieces by the Waves—Five Persons, One Passenger and Four of the Crew, Drowned.

ST. IGNACE, Mich., Oct. 4.—The Canadian passenger propeller California left Chicago on Saturday night at 10 o'clock with a full cargo of corn and pork for Montreal. She struck yesterday's gale in Lake Michigan, and when off St. Helena the sea washed over her and filled her hold and put her fires out. The crew worked hard for some time, but were unable to keep the fires going. At 1 o'clock this morning the boat broke up, and in one minute and a half she went down. There was not even time to get the boats down. How many were lost is yet uncertain. A lifeboat with seven men reached Port Lee Barbee in an almost lifeless state. They are now at the houses of Mr. Neil Leville and Moses Champin, and are doing well. A doctor from St. Ignace is waiting on them. Some of them are badly cut up. Those here are:

Owen Rourke of Kingston, Ont., wheelman.
A. G. Hawkings of Belleville, watchman.
Peter McMallis of Montreal, deck hand.
Joseph Neajor of Norway, deck hand.
Wm. Brown of Scotland, deck hand.
J. A. Ives of Montreal, deck hand.
Marcellan Charlebois of Montreal, deck hand.

It is probable that Captain Trowell and some of the crew are on St. Helena. There was one boat besides the one that reached here that got away from the propeller. There were two ladies and one young man passengers. The persons not accounted for are:

Captain John Trowell of Toronto.
Peter Lage, first mate, Montreal.
George Foley, purser, Toronto.
Bell Lough, fireman, Toronto.
S. A. Mills, second engineer, Toronto.
James Ellis, first engineer, Toronto.
Miss Pappe, ladies' maid, Kingston.
Mrs. Blood, ladies' maid, Toronto.
Arthur Hazard, cabin boy, Toronto.
Bob, assistant cook, Montreal.

A search is kept up for bodies along the beach. None would have been saved except as they jumped into the boats as the propeller was going down and they were cutting the lines.

ANOTHER ACCOUNT.

The Lost Number Five—One Passenger and Four of the Crew.

MACKINAC CITY, Mich., Oct. 5.—The propeller California, commanded by Capt. Trowell, left Chicago on Monday night bound for Montreal. She was laden with 90,000 bushels of corn and 700 barrels of pork, and carried a crew of twenty-two persons and had three passengers.

She encountered a heavy wind early Monday morning off the Beavers, and at 4 p.m. the sea had increased so that it was impossible to steer her, and 300 barrels of pork were thrown overboard, but without helping her much. About 11 p.m., when just above the Lena, the sea broke in the gangways and put out the fires. She then swung around in the trough of the sea and began breaking up. The captain ordered the boats lowered, but she was so badly listed that it was impossible to lower but one. The captain went into the cabin to get the passengers out but when he returned found that the first mate and several men had left with the boat.

The steamer now began rapidly breaking up and soon all hands were struggling in the water. The captain and engineer succeeded in getting a boat loose from the wreck and picked up the second engineer, the cook and one lady passenger. Then the boat drifted down alongside the propeller A. Folsom, which was anchored under St. Helena and was picked up and brought here. Another boat had succeeded in getting ashore near Point La Barbe.

The steamer Folson picked up one man who was drifting down the straits on some wreckage. Among the lost are:

George Foley, purser.
Cornelius Connerton of Detroit, a passenger.
Ella Pappa, stewardess.
Arthur Hazard, cabin boy.
Robert Grand.

The shore for five miles above here is strewn with wreckage. Capt. Trowell says all were supplied with life-preservers, and it is probable that all the bodies will be recovered.

KILLED BY ELECTRICITY.

How a Trimmer of Electric Lights at Detroit Met His Death.

DETROIT, Oct. 4.—About 8.30 o'clock last evening, Hiram Corliss, superintendent of the tower lamp trimmers employed by the Brush Electric Light Co., discovered something wrong with a light on Woodward-avenue and climbed a pole in front of Wright, Kay & Co.'s jewelry store to fix the wire, using a pair of heavy pinchers. He did not take the precaution to put on his rubber gloves. While Corliss was at work on the pole Detective Myler, walking down Woodward-avenue with Detective Tuttle, saw him drop his pinchers and fall heavily against two of the wires, which sustained his weight and kept him from dropping to the ground. Corliss hung face downward upon the wires insensible, and apparently dead. Detective Tuttle climbed the pole, but found it impossible to dislodge the body and bring it down single-handed. In order to get the services of a hook and ladder company an alarm was sounded.

In a very short time five engines and hook and ladder companies arrived. Thousands of people swarmed in from every direction, and great excitement prevailed when the cause of the alarm became known. A fireman scaled the pole, and several ladders were hurriedly put up. At last, fifteen minutes after the accident occurred, Corliss' inanimate form was taken down and carried across the road to the Central Drug Store. There was a faint spark of life then lingering in the body, but it fled before the doctors arrived. They pronounced the man dead from the effects of an electric shock.

The 100th Regiment's Colors.

The Department of the Secretary of State has transferred to the Militia Department the colors of the 100th Royal Canadian Regiment, lately received through the instrumentality of Lord Dufferin, together with the correspondences relating to them, which will probably be published in The Canada Gazette. The final disposition of the colors has not yet been decided on.

The American Farmers' Alliance.

MINNEAPOLIS, Oct. 4.—The National Farmers' Alliance began its seventh annual convention here this morning with fifty delegates present from Illinois, Iowa, Nebraska, Wisconsin, Minnesota and Dakota. The secretary reported a thousand more alliances added since the last session, and there now are 600,000 members in all. The Southern alliance has been invited to send delegates, and a move for the consolidation of the two will be made.

Outbreak of Scarlet Fever.

OTTAWA, Oct. 4.—Scarlet fever is raging to an alarming extent at Eastman's Springs, a village about six miles from here on the Canada Atlantic Railway, some twenty persons being at present ill with the disease, some of them dangerously so.

MR. GLADSTONE HOPEFUL.

HE THINKS ITS IRISH POLICY WILL BREAK THE GOVERNMENT.

Mr. Harrington Roughly Assaults the Police Witnesses in the Request at Mitchellstown—A Socialistic Priest from St. Louis Who Should be Sent Home.

LONDON, Oct. 4.—Speaking to a deputation at Hawarden to-day, Mr. Gladstone said that although the Liberals sustained a smashing defeat at the last election the present year was full of signs that the judgment of the nation when again pronounced would be far different. The Irish question continued to cast into a deep shade every other question. It was to the interest of all parties to have the question settled. It would be an unfeigned joy to him if the Tories relieved the Liberals of the task of solving the problem by presenting to Ireland the measure of justice which she is entitled to receive. Such an event would cast upon him the delightful duty of assisting the Tories to attain a righteous and necessary end. [Cheers.] He did not believe that the end would be long delayed. Little progress would be possible in English and Scotch affairs until the Irish question was brought to a happy consummation. It was said that he had caused the block in the last session of Parliament. The fact was that he had not made a single proposal during the whole session. It was not by him or his friends that the progress of affairs had been stopped. It was because the Government found it necessary to occupy the time of Parliament with miserable and mischievous retrogressive proposals. [Cheers.]

Referring to the Liberal Unionists, he said he would not find fault with their conscientious opposition. At the same time their whole conduct was animated by animosity and hostility to Ireland, and they did everything in their power to deprive the Liberal party of all influence and vitality. It was a deplorable position for a gentleman professing Liberalism. [Cheers]. Sympathy with them was the dominant sentiment in his mind. There had always been weak-kneed Liberals. The present cave was not the first one which Liberals had formed. The freedom of judgment which prevailed in the Liberal party made it liable to that calamity. Time would show that those who had left the party were egregiously wrong. It was a misnomer to call these men Liberal-Unionists. There was no unionism in them. Theirs was a policy which tended to destroy the union. It was equally difficult to describe them as Liberals while they supported a government of coercion—not coercion to repress crime but coercion to suppress freedom of speech, public assembly and even the freedom of the press.

He had recently seen indications of police interference with public meetings in London. This resulted from the proceedings of the last session of Parliament. [Cries of "hear, hear."] The Liberals had warned the people of England that the cause of Ireland was their cause. He had then no idea that the warning would be so soon verified. If the reports were true that the police had called at midnight at the houses of persons who intended to speak at a London meeting, demanding to know the objects and program of that meeting, it was a gross outrage. Such action was contrary to the whole spirit of liberty and violently at variance with the traditions of England. From a mere party point of view he might say let the Government go on. The more offensive their proceedings the sooner would they bring about the great object of his life. His constant prayer was for a speedy and satisfactory settlement of the Irish question. [Cheers.] In conclusion, he said he would defer giving fuller expression to his views regarding Ireland until the opening of the autumn campaign at the conference at Nottingham.

Killed by Harrington.

LONDON, Oct. 4.—During the inquest to-day into the case of the victims who were shot by the police at Mitchellstown, Mr. Harrington caused a scene by declaring that the police who had testified had committed perjury.

Head Constable Brownrigg declared that he valued the lives of the police more than he did the lives of the rioters.

Glorifying Murder.

Eight men who were arrested for connection with the killing of Constable Whelehan, at the time of the encounter between moonlighters and police at Farmer Sexton's house, were brought up in the Police Court at Ennis to-day and charged with being implicated in the murder. Members of the National League with bands escorted the prisoners from the jail to the court.

OF INTEREST TO SURGEONS.

A Successful Experiment With a Telephonic Probe for Locating Bullets.

NEW YORK, Oct. 4.—A successful experiment was made to-day at Bellevue Hospital with a telephone probe for the location of bullets. A man named Schroeder, who received a bullet in his body a couple of nights ago while attempting a burglary, was the subject. A small steel plate was placed on the man's leg. To one end of this was attached an insulated wire connected with a telephone receiver, which in turn was connected with another wire, at the end of which was a probing needle. This needle was inserted in the wound and an electric current established. The needle was pushed in through the wound until a slight clicking sound, heard by the operating surgeon who held the receiver at his ear, notified him that the current had been broken by the needle touching the bullet sought for.

Further probing showed that the bullet had been correctly located in Schroeder's liver. The probe used to-day is an improvement on that of Prof. Bell, with which it was sought to locate the bullet in President Garfield's body, but failed because, as Prof. Bell explained, it was too crudely constructed.

SOCIALISM IN GERMANY.

A Secret Session, Lasting Three Days, Held at St. Gall, Switzerland.

BERLIN, Oct. 4.—A secret conference of German Socialists, lasting three days, has been held at St. Gall, Switzerland. Eighty delegates were present. The police were completely hoodwinked, and had no knowledge of the meeting until after its adjournment. The Socialists' leaders, Singer and Hasenclever, acted as presidents at the different sessions.

The speakers bitterly denounced the course pursued by the Socialist deputies in the Reichstag, and a resolution was adopted condemning the opportunist policy of the deputies under the lead of Herren Bebel and Liebknecht, who were charged with coquetting with other parties and with compromising the independence and revolutionary character of the socialistic movement.

Reports were read showing that since the previous conference the Socialists of Germany have spent 170,000 marks, of which 100,000 marks were used for election expenses and 50,000 marks for defending members who have been prosecuted.

COLLEGE FEDERATION SCHEME.

Addresses on the Subject by Drs. Potts and Dewart.

A Movement that is Calculated to Advance the Methodist Church—Will Peterborough do as is Expected of Her?

The George street Methodist church was not half filled last night upon the occasion of the annual Educational Services. Mayor Stevenson occupied the chair. There were on the platform Dr. Potts, Dr. Dewart and Rev. Messrs. Tovell and Wallace. Mr. Geo. A. Cox was present in the audience and was invited to a seat on the platform.

The proceedings were opened by singing and prayer, after which the chairman made a few remarks expressive of his disappointment at the small audience present. The subject to be touched upon that evening was one of vital importance to the church, as the federated college scheme, which the Educational Society was endeavouring to bring about, would give the church an educated ministry, and an educated ministry was necessary to the church. If interest was not manifest in this important matter, what certain subject could interest the people? He then introduced Dr. Dewart, the first speaker.

The Doctor in beginning made a playful reference to his long acquaintance with Mr. Stevenson, though just how long that was he would not say, as neither of them would perhaps care to have the years counted up. He then announced that the subject of the evening's addresses would be the college federation scheme, which he defined as the creation of a university teaching department in connection with the university of Toronto, enabling the church to take full advantage of the privileges provided by the State. This would necessitate the removal of the present college from Cobourg to Toronto, but he rather considered this an advantage. The question was asked, what was the advantage to be derived from this new scheme. First of all, it implied the strengthening and building up of the provincial university and placing moral and religious influences around it such as it never had before. These were subjects worthy of our regard as patriots to our country. Why should we be so thoroughly sectarian, and not look with favor upon any scheme with such a patriotic design? There was a good deal of sectarian and political bitterness in the country, and young men from all parts of the country and of all lasses, educated at this college, would be drawn closer together and their

BITTER FEELINGS ERASED

more by this means than any others. Another consideration was that instead of lessening, the church would greatly enlarge and increase its influence. Under any circumstances a number of Methodist students would go to Toronto University, and by going there and planting itself the church would have an influence on a large class of young men over whom at present it has virtually no control. Then, the speaker said, he believed it would have a beneficent result upon the intellectual training of the college, where the young men, while under moral supervision, would have the advantages of a practical business education. All these facts went to support the great scheme now before the Methodist church.

What were the objections to the scheme? The principal one was that this state education had not those religious guarantees which were necessary; and it was even hinted that the government was evincing such skeptical tendencies as should warn them against such a step. But if there was anything wrong in the college and its training, it should be remedied, and if it was not fit for a Methodist student to attend, it was not fit for anyone. So the church had a patriotic duty in taking up the matter. Another objection sometimes urged was that it was an expensive scheme. That was not, however, really true. Under this scheme the church gets better advantages for less money than under any of the other schemes mooted. Besides, if they raised a large sum for this plan, it was not because this particular plan was peculiarly expensive. There was no cheap plan. In every case a large amount of money would have to be spent. It had often been said that the amount was so large it could not be raised, but he believed the people were able to do it and that God had given them the means. He thought it their duty at this meeting to take up the question just where the Conference had left it—it would be a disgrace to let the scheme fall. The church could never return to its former position, and it would be

RUINOUS TO TURN BACK.

It had also been said that an Act of the legislature was not as favourable to the scheme as it should be, but that was not so. The very contrary was true. The plan had been amended slightly to meet the Act and come more directly under its advantages. The church was committed to this scheme as the best for its welfare, and he believed the fact of its being a connexional enterprise, for the whole church, should sweep aside all sectarian prejudices and engage the support of everyone. The church was laying a foundation for a great educational enterprise that would in future years gain for them the joyful thanks of the coming generations. Then, it should never be forgotten by the people that they were stewards for God, and it was all important that they remembered continually that all that they had was God's and should be consecrated to God's service. He urged the audience also to remember that the movement would provide an ampler means of instructing the ministry. Their past efforts in this respect had not been what they should have been. This was a matter which affected the laity too, and deeply concerned them. This thing, besides, was not an annual appeal—it was a single great effort, an effort of a life time, and was on so grand a scale that it would probably never occur again. It seemed to him if he was rich, he couldn't know of anything he would like to do better than give a great shove to this movement, which gave ample security for the money invested. The speaker next referred to the pathetic side of the case, in the tender memories associated around the old building at Cobourg, but this should not prevent them from tearing it down when the future would be so vastly benefitted by it. He closed with an earnest appeal to the people present to give of their means as they felt able to this great movement, "to so do according as God had prospered them."

REV. DR. POTTS

said, on rising, that he had just returned from a series of meetings in the Guelph district and had met with great success. He proposed to visit London, Niagara, and other conferences this fall, reserving for next spring this and the conferences east for systematic canvassing, but having an evening to spare he had decided to come down and, if possible, do something to advance the cause. The speaker then gave a brief history of the movement from its inception. It was begun, he said, by the Minister of Education, Hon. G. W. Ross, and after the general conference had sanctioned the scheme, he, with others, interviewed the government regarding a site. They received a lease of the land in Queen's Park at a nominal rental of $1 per year, with a clause inserted giving the church the power of purchasing it at the end of twenty-five years at a price to be decided by arbitration. The speaker dwelt on this point as a most important one. Then, said Mr. Potts, Mr. Ross has very graciously added that he will instruct the representatives of the Ontario Government that he is to value the land for academic and not for commercial purposes. The whole arrangement was absolutely satisfactory to all friends of Victoria University. The speaker said he visited the Legislature when the bill was before the house and with the exception of Mr. Field, of Cobourg, and Dr. Chamberlain, it seemed the whole house favored the principles and provisions as embodied in that bill. Let no man say

THIS IS A POLITICAL QUESTION.

Any man who believes in federation is bound to believe that this is a good bill. Mr. Ross sent that bill to the church Board of Regents and they examined it clause by clause, and returned it to the Minister, and every alteration in which they were unanimous was conceded by him. "The Ontario Government," said Dr. Potts, "has done everything it could do in order to facilitate this federation." The Doctor said he wanted his audience to know that one of the first subscribers to the fund had been Hon. Edward Blake, then Mr. Mackenzie followed; and within a week Sir John Macdonald had sent in his check for a large amount. Could this then be called a political question? It was a question away above all parties, touching the highest interests of this country. All those gentlemen felt it an honor and privilege to be identified with such a scheme as this. He wanted to impress upon his audience that one of the chief facts that had induced them to take up this movement was economy. Dr. Nelles and he had carefully examined the plan, and Dr. Nelles had expressed the opinion that it would save at least $15,000 to $20,000 a year, while he (the speaker) believe it would save even more. Then the college in Toronto would be as free from government connection as it was in Cobourg. The university is bound by its bill of incorporation to teach as many and no more subjects, while Victoria College in Toronto could teach them and as many more as it chose. It seemed to him the advantages were all with Victoria College. In Toronto, too, the church would have a moral influence over the young men studying in arts as well as those in theology. Educationally, therefore, it would be a

VAST ADVANTAGE TO THE CHURCH.

Victoria College has made a grand record, but young men who attended that college and who went out to make their way in the world were at a disadvantage. A graduate of Toronto University would, in almost every case be chosen in preference to that of Victoria College. Then when they looked at the positions of emolument and trust in this country it was seen that but very few Methodists were numbered among the head men of the country. On the bench, above the county judges, only one Methodist was sitting; in the Senate there was only a handful of Methodists; in the Dominion Cabinet not one; in the Ontario Government, not only not one, but not one who even leaned to Methodism. Dr. Potts believed, however, that in a few years all this would be changed, and Methodists would occupy the highest positions in the land. He believed on a public ground that Methodists ought to identify themselves more and more as a church. It would be utter folly he said for the Methodist church not to put herself in that position where she could exercise a moulding and controlling influence, such as this scheme would give her. The Conference had committed itself to this work, and the action of of the Conference was the action of the church. The speaker stated that when the question first came up the immense amount required, $450,000, had appalled him. Four hundred and fifty thousand dollars! And he felt like giving up the whole thing. Happily the Guelph Conference had solved the difficulty by the equitable distribution plan, and he believed the other Conferences would do likewise. Toronto had done nobly, and now the question was, what was Peterborough going to do? Dr. Potts said that the pastor of the church had told him before the meeting that he believed the town of Peterborough would give more than any town outside Toronto, and when he (the speaker) thought of Mr. Cox's subscription of $30,000 and the other big subscriptions which he saw looming up in his imagination, he felt the same way. Dr. Potts said he didn't intend to make a personal appeal, but he wanted a number of friends to come forward and volunteer subscriptions for this grand work.

MR. GEO. A. COX

in rising to move a vote of thanks, said he regarded the federation movement as one of the utmost importance to the Methodist Church. It was a step he considered the best adapted to advance the church, and if he had a million dollars to place in a safe investment he would put it in this. The Methodist Church to-day occupied a responsible and high position among the churches of the country, and if that position was to be maintained the people would have to rise to the necessity of the present movement. He had no doubt that they would do so. When it was considered that the whole Methodist Church numbered one-third of the provincial population, and that it was only asked for $450,000, while one gentleman, the late Senator McGregor, City Road Block, opposite the market Master, had given $800,000 to the Baptist College, it seemed very small. He believed Peterborough would do better than any other town outside Toronto. He hoped the movement would be entirely successful, and concluded by moving a vote of thanks to the speakers of the evening.

MR. J. R. STRATTON, M.P.P., in seconding the motion, hoped the town of Peterborough, would in this question maintain its reputation as being the banner town of the province. The federation movement was a provincial one, and he felt certain the required amount would be forthcoming to place the Methodist denomination to a position to avail itself of the many advantages to be derived by her students attending Victoria University, being also in connection with the Provincial University. He believed the Methodists would through the exertions of Dr. Potts and the several conferences, receive a sufficient guarantee before spring to warrant them turning the first sod in Queen's Park next summer, for Victoria College Toronto. As soon as the building was commenced there would be many who would be inspired to give liberally to ensure its speedy completion.

The chairman, previous to putting the question to the meeting, heartily concurred in the remarks which had been made by the previous speakers, and hoped the Methodist church would maintain the proud position which she occupied in the province. He had no doubt but that they would. They were a strong and intelligent body, and though they did not occupy as many positions in the country as some other denominations, they always received what they got on their intrinsic merits and fitness for the positions, in contrast to another denomination, which claimed positions on account of their numbers and influence. The motion was unanimously carried.

Rev. Mr. Tovell moved a vote of thanks to the chairman, and took the opportunity to make a few remarks upon the subject. The motion was seconded by Mr. Cox and carried, Rev. Mr. Wallace putting the question.

The proceedings were brought to a close by the singing of the Doxology.

The committee that has in hand the work of raising money for the fund in Peterborough, have decided to not begin operations until the amount to be secured by them has been allotted by the conference.

Murder Will Out

SO WILL THE TRUTH.

And the Truth is that GOUGH can Sell Clothing Cheaper than the Imaginary Clothier can Buy them,

OTHERWISE HIS $1000 CHALLENGE WOULD BE ACCEPTED.

It is an old game for a competitor, who cannot compete, to cry shoddy. Poor fellows, they must get up some excuse, but GOUGH has great confidence in the public's judgment. Therefore I say to intending buyers. look them all through and then come to GOUGH, and if you are not convinced that he has ten times more goods, 50 per cent better goods, and at prices at least 25 per cent lower than the cheapest of them, he will give you a Suit or an Overcoat FOR NOTHING.

I can give you an Overcoat to fit any size Man from $3 up to $18.
I can give you a Man's Suit from $2.75 up to $18.
I can give you a good, Heavy Guernsey Shirt or Drawers for 25c.
I can give you a Splendid All Wool Shirt or Drawers for 45c.
I can give you 5 Pairs Men's All Wool Home-made Socks for $1.00.
I can give you a Good Cardigan Jacket for 75 cents.
In a word, I can give you anything in GENTLEMEN'S WEAR at less, in many instances, THAN FIRST COST OF MANUFACTURE.

I have just Received another $10,000 Bankrupt Stock, bought at 61½ cents on the dollar.

If a merchant buys a Bankrupt Stock of Gold Watches at 50 cents on the dollar, it don't make the watches brass; and when GOUGH buys a Bankrupt Stock at 61½ cents on the dollar, it don't make his goods shoddy. Therefore use your own senses, take no man's word, and when you want a good Suit of Clothes or an Overcoat, don't buy until you at least see the MAGNIFICENT STOCK kept by

IMPORTANT TO ALL

Who are Bald, or have Thin, or Grey Hair, or who are troubled with DANDRUFF.

DR. DORENWEND'S

GREAT GERMAN

"HAIR MAGIC"

Will be found invaluable for the hair and scalp. It cleanses the scalp of all Dandruff, invigorates the growth of the hair, and in cases of baldness where there are the slightest signs of roots left it will produce good crops of hair. It restores grey hair to its original color, and is an excellent dressing.

DO NOT DELAY, if your hair is in a weak condition, get a bottle at once.

A Testimonial for Gen. Paine.

NEW YORK, Oct. 4.—The New York Yacht Club last evening voted to appropriate $800 for the purchase of a suitable testimonial to Capt. Paine in recognition of his unequalled skill and ability in thrice defending the possession of the America's Cup. It was also decided to tender a dinner to Capt. Paine and Edward Burgess at such time as may be most agreeable to them, that a reception be tendered Vice-Commodore Bell of the Royal Clyde Yacht Club, and that the club contribute $300 to the national subscription as a testimonial to Mr. Burgess, designer of the Puritan, Mayflower and Volunteer.

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. THE WAR CLOUD BUSTED.

VICTORY has Perched on the Banner of

PETERBOROUGH'S GREAT CHEAPSIDE!

And SHEPPARD, by common consent, will get $1,000 for being the **Cheapest Clothier in Peterborough**, having knocked the Wonderful Cheap Man completely out. "Business is Business; Dirt is Dirt, and when it comes to throwing Dirt, then Count" the only original teddy out, and he will hand over that $1,000 like a little man: For the following reasons;—

Sheppard sells a full size Man's Suit for $2.95, and better Goods than a Suit to fit a Child about 9 years old sold by the Wonderful Cheap-Man on Saturday for $3.00; but marked $3.50. This is how it was:—A Lady purchased a Child's Suit on Saturday last, Sept. 17th, 1887, at the Store of the Wonderful Cheap-Man. It was marked thusly:—Lot 5375, Breast 27, Waist 26½, Age 9, Price $3.50. It was pure Shoddy, being held together by cotton threads, and Sheppard is free to say that that was the dearest Suit sold in the Town of Peterborough for the last two years. **Full particulars are given because of the $1000 involved, and, further, that this decides who is selling the Cheapest Clothing** in Peterborough. SHEPPARD would have sold that Lady a Suit, Pure Wool for that money, and worth two of the one she got.

$1,000 to Go to the Charitable Institutions of Peterborough.

I had first decided to give the agencies a chance of jumping up my rating that $1.000, but after considering the matter and finding that never in any case have I been asked for an endorser to my paper, and that no relative or any other persons have ever endorsed my paper to the extent of one cent, I have come to the conclusion my credit is as good as yours and will ask you to hand over the $1,000 to the Charitable Institutions of Peterborough.

Now, Sir, there is a good story told the truth of which can be vouched for, but for the honor of at least making an effort to keep up your self-styled name—The Terror of High Priced Clothiers—do not allow the same to be said of you in the case above. A man purchased a suit for $15.00 at the store of one of the largest Advertisers in that section of country. It was guaranteed pure wool; but after examining it carefully at home, he came to the conclusion that he had been dealing with some one sharper than himself. Finding a make of wool, differing some from anything he had ever seen, it dawned upon him, that he had heard of wool of that kind, so the suit was returned. The merchant bet $25.00 that it was all wool, and the bet was accepted the decision being left to a neighboring merchant, he found that the $15.00 suit, was wool faced and shoddy back, pure unadulterated shoddy, but what of the $25.00 bet, was it paid, not much—muchly—as it were.

SHEPPARD is making Wonderful Strides in Securing Marvellous Bargains in Dry Goods, Clothing, Hats and Caps.

Water Filters

At this season of the year all drinking water should be properly filtered before using. The best filter made is for sale at "China Hall" for only $5.00. Call and see them.

Everybody cordially invited to look through Turnbull's Magnificent Stock of Millinery, Mantles, Dress Cloth and general Dry Goods on the 4th, 5th, and 6th.

The judges at the Central Exhibition (as well as everyone else) are requested to call and pass judgment on boots and shoes at KIDD'S.

A Pertinent Query.

The residents of Simcoe street, between George, and Aylmer are impatiently enquiring when the bridge is to be completed. Those on the south side of the street have either to go back to Aylmer or cross through the mud in order to reach George street.

Floral Beauty.

A magnificent night-blooming cereus, bearing seven flowers, belonging to Mr. W. H. Manning, was viewed by a large number of persons Sunday night. It was sketched on the spot by Mr. Thos. Workman, who will soon have a painting of it on exhibition in Schofield's drug store.

An Unlucky Horse-shoe.

On Tuesday, while "Paul" the Ethiopian valet-de-boxstall of Mr. F. J. Daly's Phil Sydick colt, was exercising the animal in the stable yard the latter gave a sportive kick and broke the faithful attendant's arm. A horse-shoe doesn't always bring good luck.

The School Board.

There was no quorum at the meeting of the school board last night. Messrs. Stevenson, Stratton, Weir, Denne, McWilliams and Errett were present. It was informally decided to refer the matter of procuring a teacher to take the place of Mr. Rowan during his illness to the School Supervision Committee.

Grand Millinery Opening.

H. S. Griffin & Co's Millinery Opening takes place Wednesday, October 5th, and following days. This is an event looked forward to by hundreds of ladies wishing to see the leading styles. This season their stock is very attractive. 3dw

Conundrum Answered.

Because Wilson and Morrison's business in "The Manufacturer's Life" for the last ten weeks has exceeded *over half a million dollars*, being more than the combined insurance of all our competitors. The boom still continues, saying nothing of the large Fire, Accident and Plate Glass business.

Good Advice.

If a father wishes to give his son a legacy that will endure while life exists let him send him to an institution where he can obtain a general business education, and he will have the satisfaction of knowing that he has given him what is better than houses, lands, farms or even silver and gold. These things may take wings and suddenly fly away; but this knowledge will last while life and reason exist.—*Horace Mann.* dw

Children Cry for Pitcher's Castoria.

The Bold, Bad Burglar.

Sunday night Aylmer street, in the vicinity of McDonnel, was the scene of a little incident that isn't of every day occurrence. About dusk on that evening a man was seen by some boys prowling about a residence in a most suspicious manner, passing around the house from front to back and vice versa very carefully, as if doubting where to enter. The place was in total darkness, not a light to be seen. Finally he mounted the verandah steps, and after stealthily taking a turn or two on the platform, as his watchers supposed to throw off suspicion, noiselessly entered the front door. Here was a rare chance to capture a bold burglar, red-handed in the act of burgling. A couple of gentlemen returning from church were told of the occurrence. They "surrounded the house," as it were, one in front and one behind, and prepared for a fierce hand-to-hand struggle with a desperate criminal. The one in front bravely marched up and rang the door bell. As he did so a dim figure appeared for an instant at an upper window. "There he is," came the cry from the boys outside the fence. Thus encouraged into the belief that the villain was certain to fall into their clutches, he again rang the door-bell. Now footsteps are heard in the hall. Ha! the burglar is trying to escape. The steps draw nearer, until they cease at the door. The man outside waits anxiously for the culprit to show his nose, and gets ready to pounce upon the villain and bring him to justice. Slowly and hesitatingly the door swings back, and—the proprietor of the house appears and wants to know what all the "racket" is about. It seems that he had come home early, and finding the rest of his family out, had gone to bed without striking a light. Then the crestfallen would-be defenders of right, explained the wherefore of the whyness of the case and retired to have a good laugh at themselves.

Civic Legislature Notes.

At a meeting of the Fire, Water and Light Committee Monday evening the purchase of 300 feet of new Eureka hose was authorized.

The committee appointed to consider and report upon the best means of advertising Peterborough as a manufacturing and industrial centre met Monday night and informally discussed the subject. The draft of an advertisement and the names of a number of newspapers and journals considered the best advertising mediums were submitted. The Clerk was instructed to write these journals for terms, etc.

The Committee appointed to consider the advisability of the town taking advantage of the Act of Parliament granting to corporations the power of expending $40,000 for the purpose of attracting and maintaining industries, met also Monday evening. The Committee consider such an action would be premature until some definite prospects are seen of new manufactories locating here.

The Masonic Dedication.

The new Masonic hall in the Dunsford block will be formerally dedicated to-morrow afternoon by Deputy Grand Master R. T. Walkem, Q.C., of Kingston. Mr. Walkem is expected to arrive in town this evening, and will be the guest of Mr. R. E. Wood, C. C. A. The new hall is ready for the dedication ceremony, and is a model place of meeting, unexcelled outside the larger cities. To-morrow evening a conversazione will be held, at which the *elite* of the town and surrounding country are expected to attend. Twenty visitors are expected from Belleville, while contingents from Port Hope, Lindsay, Omemee, Lakefield, Norwood, Keene and other places, wherever there is a Masonic lodge, are expected. The last meeting of the decoration committee will be held this evening to finally complete arrangements.

General Information.

There are many young men and women who would attend college, but having left school at an early age, they think they would be placed in an awkward position when brought in contact with those who have had better advantages. Permit us to say that no student will experience any difficulty from this cause. There is no examination to be passed before entering. Each student works by himself, entirely independent of others, and may go back to the very beginning, if necessary, and work up. Many of our students are young men who left school at the age of 10 or 12, and having completed our course with credit to themselves, they tell us that they have no embarrassment whatever in working with others in the college, and that no one need hesitate to enter this college on account of defects in early education. At the Opera House.

The Opera House was well filled last evening, when the Lindley Dramatic Company presented "Calamity Jane." From the title it will be surmised that the play was one dealing with the rougher element of life, but through it all there is nothing to offend delicacy of sense or modesty. The scene is laid in the "wild west," and the characters are of the road-agent stamp. The caste of the play was excellent, and needs no individual reference—all did well. The play to-night will be "The Block Game." With such low prices and a large crowd in town to draw from, the performance should attract nother full house.

A Bid for a New Industry.

A St. Catherines, Ont., gentleman was in town Saturday, looking for a suitable site for the establishment of a saw works. He was much pleased with Peterborough, which he said suited him better than St. Catherines, as it was more centrally situated. Mayor Stevenson offered him the usual terms of exemption from taxation, and correspondence is going on anent the subject. If the St. Kit's man starts a saw works here he will employ about forty or fifty men.

Annual Meeting.

The annual meeting of the Skating Rink Co. was held last evening. Satisfactory reports of the year's business were presented, the financial report showing a profit of $300, which was applied to the debt on the rink. The old directorate was re-elected, viz., Messrs. W. G. Ferguson, R. S. Davidson, A. Hall, Dr. Boucher, and C. McGill. At a subsequent meeting of the directors the following officers were re-elected:—President, W. G. Ferguson; Secretary-Treasurer, C. McGill.

On the 4th, 5th and 6th of Oct., look out for the New Belmont, Jockey Club, Murray Hill, and Volunteer Hats at Turnbull's Millinery Opening.

CENTRAL EXHIBITION

The Second Day's Promise of Success.

Fine Show of Stock in all Departments—Horses Especially Well Represented—Good Show of Cattle and Sheep—Entries Far Ahead of Last Year.

The second day of the Peterborough Central Exhibition brought fine weather and an encouraging augury for the success of the exhibition. In spite of the diligent work put in Tuesday afternoon, the work of making entries of exhibits was far from being completed. All the morning of Wednesday was occupied in making entries, and the Secretary and his assistants were kept as busy as the proverbial bee. The entries at noon, and the work was not completed, were far in excess of last year, and in every department there is a marked improvement.

This is stock day, and the display of stock is magnificent. Most of the stock is on the grounds and placed, but several horses have not yet put in an appearance. A run made through the horse stalls showed a fine collection of animals of all classes. It is a fact worthy of note that the Township of Cavan supplies the largest proportion of horse-flesh of any other township. Among the exhibitors in horse-flesh who had reported for exhibition at the time of the visit of our reporter were the following:—

Mr. Andrew Faulkner, Emily, was on hand with a two year old general purpose colt of "Criffle" stock, a yearling of the same class and breeding, a "John Anderson" yearling stallion, and a driving horse.

Messrs. Alex. and George Kennedy, Cavan, show a mare and foal, each in the general purpose class.

Mr. James Baptie, Springville, a one year old heavy draught colt and a pair of heavy draught horses.

Mr. McQuade, of Emily, a French bred mare and foal.

Mr. James Walton, Douro, a fine coal black saddle horse.

Mr. W. H. Hutchinson, South Monaghan, a year old carriage colt.

Mr. John Tait, Cavan, a horse to compete in the Farmers' Trot.

Mr. W. Shearer, Otonabee, the stallion "Hepburn Clyde," Canadian draught stallion and a one year old colt, carriage class.

Mr. Wm. Forster, North Monaghan, one year old carriage colt.

Mr. Johnson Stewart, Cavan the general purpose stallion "Black Knight", and a team of general purpose horses.

Mr. Angus Davidson, North Monaghan, yearling chestnut stallion, roadster; mare and foal, roadsters; mare and colt general purpose.

Mr. Joseph Trennum, Smith, general purpose mare and foal, heavy draught mare and foal, a general purpose mare and a two year old general purpose colt.

Mr. R. A. Westington, Port Hope, a three year old roadster.

Mr. J. A. Sutton, Cavan, draught mare and foal.

Mr. John Kerr, South Monaghan, mare entered for the Farmers' Trot.

Mr. A. R. Kidd, Dummer, three year old agricultural colt.

T. Mulcahey, Otonabee, two year old heavy draught colt.

Mr. James Holmes, Cavan, driving horse.

Mr. Allan Eson, Otonabee, a beautiful coal black driving horse, a "daisy" of a roadster, possessing good clean, tidy limbs, good feet, gentle and tractable, a fine driver with good speed, and a credit to the breeder, who wisely refused $200 for his horse last night on the grounds.

Mr. Thomas Blezard, heavy draught dark brown horse and a two year old agricultural filly.

Mr. Jas. Elmhirst, chestnut horse, entered for the Farmers' Trot.

Mr. Wm. Martin, Ida, yearling, heavy draught, and heavy draught yearling filly.

Mr. Henry Sharp, Cavan, mare and foal.

Mr. Alex. Patterson, Ashburnham, two year old stallion, a well bred, beautiful Hambletonian, a half-brother of "Maud S.," out of "Hartwood" by "Harold."

Mr. Andrew Christie, Cavan, general purpose two year old filly.

Mr. John Bothwell, Cavan, heavy draught two year old stallion.

Mr. Fred. G. Cox, pair of driving horses.

Mr. Harry Winch, mare and foal, carriage class.

Mr. Christopher Quinn, Smith, pair carriage horses.

Mr. Joseph Barnard, North Monaghan, pair farm horses, and gelding entered for Farmers' Trot.

Mr. Wm. Lowes, Emily, pair farm horses.

Mr. W. J. Westington, Hamilton, two two-year-old carriage colts.

Messrs. Harper and Ingram, Roseneath, Percheron stallion, "Lothair."

Mr. J. Garbutt, Smith, pair agricultural horses and general purpose mare and foal.

Mr. Geo. McCue, Lindsay, a two year old yearling and heavy draught colts, and a two year old general purpose colt.

Mr. John Tully, North Monaghan, two year old carriage colt.

Mr. Joseph Tully, mare and foal.

Mr. R. Lowry, Cavan, carriage mare and foal and two year old carriage stallion.

Mr. D. Doig, two year old thoroughbred roadster.

Mr. Samuel Staples, Cavan, stallion, "Lord Sudley," carriage class; fine black carriage team and draught mare and foal.

It is impossible to give at present a complete notice of the horses. Animals are being entered and brought on the grounds up to the time of writing.

CATTLE.

The exhibit of cattle is very creditable, there being a fine display in several leading classes of thoroughbreds, and many splendid animals in each class.

Messrs. Stothart Bros., Smith, are on hand with a splendid herd of thoroughbred Holsteins, including the aged bull "Valparaiso I," two aged cows, one yearling heifer, and two bull calves.

Mr. S. Curtis, Alnwick, shows a fine herd of about a dozen thoroughbred Holsteins, bulls, calves and cows.

Messrs. E. Macklin & Sons, Fenella, Northumberland county, also show a fine herd of thoroughbred Holsteins, including three imported animals. The bull "Neptune", of Springville, is quoted as a getter of milking stock. Three cows in this herd are entered for the milking test.

Mr. Byron Hinman, Grafton, has on the grounds an excellent herd herd of eleven heads of full blood Jerseys, and one or two Jersey grades.

Mr. Robert Walton of Smith, is also an exhibitor of Jerseys, showing a splendid cow and calf, full blood.

The show of Jerseys is better than that of any previous exhibition.

Durhams as a class were well represented and some magnificent specimens were shown.

Mr. Aaron Cox, has the largest exhibit and a cursory glance leads one to think that their general quality corresponded. He shows altogether seventeen head, of which fifteen are thoroughbred, and the remainder close bred grades. He also shows a yoke of working oxen.

Mr. R. J. Story, Millbrook, shows a splendid yearling Durham.

Mr. John Garbutt and Mr. Thomas Hall of Smith, also exhibit Durhams.

Mr. Joseph Redmond, of the "Elm Grove" stock farm, keeps up his reputation with a herd consisting of eight fine full blood animals and three grades.

Mr. Thomas Hooper, Otonabee, is on hand with cows from his dairy herd for the milk test. Altogether the cattle exhibit scores a head against any other year of the exhibition.

The same remark applies to the the show of

SHEEP AND SWINE.

of which there is a splendid exhibit, much more numerous than expected. In fact the directors have been compelled to hurriedly knock together a large number of extra pens.

The poultry exhibit is unusually good.

THE INSIDE EXHIBIT

is a splendid one, and every department is well filled. Lack of space and time calls for reference in detail hereafter.

The grounds are covered with agricultural implements and other exhibits. There is also a splendid show of carriage work, and the exhibition is well worthy a visit.

There was a good attendance of visitors this morning and at one o'clock they began to pour in in still larger numbers.

To-morrow's Programme.

A Fine Day's Sport at the Central Exhibition.

To-morrow is *the* day of the Central Exhibition. Gates will be open from 9 a.m. until 6 p. m.

The first great event will be the five mile bicycle race for a $50 cup, between Messrs. Greatrix, of Peterborough, and Cooper, of Belleville.

Then will follow the match foot race of 100 yards, between Messrs. Millar and Bird, for a medal.

In horse racing events, the hotel keepers purse ($200), Brewery cup and Gentleman's purse will be run for.

The programme also announces a special match trot between two local horses for $100 a side.

With fine weather the exhibition should be attended to-morrow by thousands.

That Foot Race.

To the Editor of the Examiner:—

SIR,—The other day a communication appeared in your contemporary re the match foot race of a hundred yards between Mr. Bird and myself, to take place on the fair grounds. The writer wants to know why other local runners are debarred from the race, and insinuates that favors have been shown. That is not true. The race was arranged between Bird and myself merely to settle the question of our superiority in sprinting, and finally do away with the little rivalry that has existed between us. The making of it an attraction at the fair was a secondary thought, and after we have gone to the trouble (and it cost a deal of trouble) of getting the directors to put up a small medal, the other men who took no interest in it whatever want to step in and claim what they have no right to. The entries are not "limited to Bird and Miller," as the letter states. It is a match race, and does not take the form of a free-for-all by any means.

Yours truly,
D. MILLAR.

The Tax Trouble.

To the Editor of the Examiner:—

SIR,—I notice in last night's EXAMINER a reply to my letter regarding taxes, from Mr. Loch. Mr. Loch has taken four weeks to prepare an answer to my letter, but I promise that inside of a week I will make a reply that will make him sore.

Yours truly,

THE HALDIMAND RECOUNT.

So Far It Gives Mr. Colter, the Petitioner, a Majority of Ten.

CAYUGA, Oct. 5.—This has proved a perfect field day in the trial of the Haldimand election petition. In the case of Peter Wintemute and Stephen Young His Lordship, without calling upon the respondent's counsel, delivered judgment dismissing the charge, holding that no agency whatever with Dr. Montague had been established; that the two men concerned, being neighbors differing in politics, had entered into a compact to make a little money from their respective parties; but no knowledge of the intention could be traced to the respondent or his agent. That the money given to Young by his brother was in part payment of a long standing debt and that the brother was ignorant of the purpose of the money. The two, however, had been guilty of corrupt practices in the meaning of the act, were liable to the penalties for such, and should be so reported.

His Lordship next dealt with the Indian circular, holding that it was not a transaction which affected the right of Dr. Montague to the seat. It had not been shown by any evidence that it had affected in any degree the votes of the Indians, to whom it was addressed. That Dr. Montague had strongly disapproved of it as soon as the contents were brought to his knowledge and refused to have anything to do with it, and expressed a very decided view that it was discreditable and not to be employed, but it did not come within the range of the act.

The Chancellor also dismissed charges 26 and 27, holding that they did not touch Dr. Montague, and the same in regard to Sylvester Underhill and Walter Jones, but said they should be reported as guilty of corrupt practices. Two more charges, those of Benjamin Christer and James Short, were next heard and dismissed, nothing whatever being shown in support of them.

Mr. Blake for the petitioner here announced that this completed their case except the recount. All the charges of bribery and undue influences have thus failed to touch Dr. Montague, whose friends are justly elated at the result, so far.

The recount was next entered upon, the numbers found by Judge Upper being taken as a basis upon which the count would proceed, each party being at liberty to vary the figures. The inspection of the ballots occupied the rest of the afternoon, resulting in reversing the finding of Judge Upper in some eleven cases, giving the petitioner, all the cases now known, a majority of ten.

THE SOCIALISTS' CONFERENCE.

The Swiss Police Did Not Interfere With the Delegates.

GENEVA, Oct. 5.—The secret conference of German Socialists, which was in progress at St. Gall, Switzerland, on Friday, Saturday and Sunday, resumed deliberations yesterday afternoon. Although their presence and purpose was well known to the police the delegates were not interefered with. At the session on Tuesday resolutions were passed protesting against the existing protecting laws, the prevalence of monopolies, the system of taxation of commodities, and denouncing the rejection by the governing classes of laws protecting workingmen.

At to-day's session the question of future elections was discussed together with that of taking decisive action in influencing the results of such elections. A large majority of the delegates were opposed to the compromise with the Bourgeois parties, even in cases of a second ballot, and a resolution to that effect was adopted.

Fire at Bond Head.

BOND HEAD, Ont., Oct. 5.—A big fire broke out here at 12.30 last night in B. T. McGeary's carriage factory. The buildings being of wood, the fire spread very rapidly, and inside of half an hour the whole place was in a blaze, consisting of two blacksmith shops, paint shop, woodworkers' shop and shoe rooms, also his dwelling house and part of its contents; also the barns and stables and other store rooms connected. Cause of fire unknown. The fire originated in the stable.

The Duty on Square-Sawed Timber.

WASHINGTON, Oct. 5.—The Treasury Department has decided that square-sawed pine timber imported from Canada is dutiable at the rate of $2 per 1000 feet, instead of at the rate of 20 per cent. ad valorem, as assessed by the collector at Plattsburg, N.Y.

Happy Bob Will be Hanged.

ROCHESTER, Oct. 5.—The General Term today affirmed the conviction of Robert VanBrunt, or "Happy Salvation Bob," for the murder of Will Ray at Warsaw last fall. The court directs the re-sentence of VanBrunt to be hanged.

THE BRUCE COUNTY WRIT

NOMINATION ON OCT. 19 AND POLLING ON OCTOBER 26.

Plenty of Work for the New Exchequer Court to do—Steady Growth in the Settlement of the Northwest—A schooner Seized in Nova Scotia.

OTTAWA, Oct. 5.—The writ for the election in West Bruce, to fill the vacancy caused by the resignation of Hon. Mr. Blake, has been issued. The nominations will be held on Oct. 19, the polling on Oct. 26.

It is expected that the new Exchequer Court will be in working order in about six weeks and will open with a pretty good docket, as several cases which would have gone to the official arbitrators have been held over to be laid before the new court. It is understood that there are a number of applicants for the position of Registrar of the court, amongst the most likely candidates being Mr. J. K. Forsin of Aylmer, Mr. W. E. Hodgins of the Department of Justice and Mr. Charles Thibault, late Secretary to the Board of Dominion Arbitrators. The new court will most probably be located in the Supreme Court building, the rooms at present occupied by the National Gallery being utilized, a new location being found for the gallery.

The recount of the ballots in the Ottawa County election was concluded yesterday evening at Aylmer. It was found that, admitting as good a number of tickets not initialled by the deputy returning officer, Rochon's majority was 1250. If on the contrary the tickets were not admitted, his majority would be 1240. As most of the tickets not initialled were for Cormier, this was the only development from the recount.

It is rumored that a new batch of Ontario Q.C.'s will shortly be gazetted, and that one or two silk gowns will fall to Ottawa's share.

Mr. Vankoughnet, Deputy Superintendent-General of Indian Affairs, left for British Columbia last night on business connected with his department. Amongst other things he will probably enquire into the Metlakatlah Indian trouble.

According to official information the past season will prove a red letter period in the history of settlement in the Northwest. There has been a steady growth in the business of the Interior Department, indicating the extent of the land transactions in the territories. It is expected that the revenue from this source alone will exceed by $40,000 last year's receipts, which in turn showed a corresponding increase over those of 1885.

Mr. Woods of Halifax has notified the Government that he contemplates the establishment of a steamship line on the West India route. He expects a subsidy, but nothing will be decided until the return of Sir Charles Tupper.

Application has been made to the Department of Justice by the United States Government for the extradition of Clarke Clinederst of Hamilton, Ont., lately convicted at Brantford of forgery.

Contracts have been awarded by the Department of Railways and Canals for the manufacture of about 500 new cars for use on the line of the Intercolonial Railway. The Ontario Car Company's share of the work is 100 coal cars, the James Harris Car Company of St. John, N.B., receiving the balance.

The schooner P. Black has been seized by Officer Boness of the Customs Special Service at Lower Granville, N.S., for having illegally landed without reporting a considerable quantity of goods which were subject to duty, in the latter part of 1886, and also during the last month. The captain has admitted the smuggling and has deposited the sum of $400 for a provisional release of the vessel, pending the decision of the customs in the case.

The fishing season being now nearly over the protective fleet is being reduced and the Howtell and Advance will go out of commission on Oct. 10, leaving four vessels to continue the protective service. The Acadia has left Halifax for the Bay of Fundy.

Mr. Hurteau, the agent of the Dominion Government for the repatriation of French-Canadians in the United States, left to-night for Manitoba. He has lately been traveling through the New England States and meeting with considerable success among his compatriots. The object of his visit to Manitoba is to secure lands for intending settlers whom he expects to bring over from the United States.

The astronomical survey, under Mr. King of the Department of the Interior, which was commenced at Victoria over a year ago, will shortly be completed. The data for the observatory was obtained from the American observatory on the Pacific coast. The party has reached Port Arthur. The results to be achieved will be numerous, including the detection of residual errors in the Northwest surveys, as well as determining the principal meridian of the Northwest.

Mr. McArthur, who is making a topographical survey for the Department of the Interior, has just accomplished the feat of ascending to the top of Mount Stephen, the second highest peak in the Rockies, more than 10,000 feet above the sea, being the first person to get to the top of the mountain.

Mr. Ogilvie, who has charge of the Alaska boundary survey, will winter on the Yukon River, about 1000 miles north of Victoria. Dr. Dawson will return this fall. Next spring the party will receive reinforcements, as the Esquimaux are reported to be troublesome, and will push overland to the Arctic Ocean, returning next fall by way of the Mackenzie River at Edmonton.

A GREAT UNDERTAKING.

A Montreal Young Man's Design to Elope With Two Women.

MONTREAL, Oct. 5.—A case has just occurred here where two women attempted to elope with one man. The young man, Hugel Arcand, aged 25, was arrested by Detective Gladu at St. Henri Station, just outside of the city, just as he was in the act of checking his baggage for Troy. It appears that Arcand was acquainted with the wife of Joseph Soby, of 1029 Niagara-street, and the two decided to run away. A Mrs. Casavant, residing on Mignonne-street, is also enamored of the young man. He is said to have induced both parties to skip out of the city The matter was finally agreed upon but Detective Gladu had learned something about it and consulted with Soby. It was decided to have a warrant issued for Arcand and arrest him when they found that he really meant to leave the city.

Yesterday Gladu traced the accused to the station and there arrested him. The prisoner had three tickets for Troy in his possession, one for himself and the other two for Mrs. Soby and Mrs. Casavant. When his trunks were opened they were found to contain articles belonging to Soby. A watch belonging to that gentleman was also found on the prisoner. He appeared before the Police Magistrate this morning and was remanded. He says the two women wanted to run away with him and that he was an innocent young man.

Cardinal Taschereau at Montreal.

MONTREAL, Oct. 5.—Cardinal Taschereau officiated to-day at the wedding of his niece, Miss Sills, daughter of W. B. Sills, to Charles F. Beithillier. He dined with his nephew, Judge Taschereau, this evening and will leave for Toronto to-morrow, accompanied by Mgr. O'Brien.

MR. BRIGHT'S LETTER.

He Says the Liberals are Treading the Path That Leads to Defeat.

LONDON, Oct. 5.—Mr. John Bright has written a letter denying the statement that he could not support the Government's Irish policy because he had declared that force was no remedy for the troubles in Ireland. Mr. Bright says: "Dismissists, whether under Mr. Gladstone in England or Mr. Parnell in Ireland, are not careful as to the truth of their statements. Force is no remedy for just disputes, but it is a remedy, and often the only remedy, for disorder and violence. I supported Mr. Gladstone's Acts of 1881 and 1882 for the suppression of the Land League and disorder in Ireland, and I now support the Government in its efforts to suppress the National League, which is the Land League under another name. My sympathy for Ireland was not born of a faction in a struggle for place and pay. It was as strong as it is now thirty years ago, before Messrs. Gladstone, Harcourt, and Morley and their noisy followers had a word to say in favor of the Irish tenantry, or the sufferings of any portion of the people. Recent events have strengthened my sympathy.

"We have delivered the tenants from all that was unjust and oppressive in the laws affecting the tenure of land. It is needful to free them from the wicked conspiracy which is leading them to dishonesty and crime. The leaders of the conspiracy teach the tenant that his true interest is to plunder his landlord and to cherish a bitter hatred for England. Industry, honesty and regard for the law are despised and condemned. It is the conspiracy with which the bulk of the Liberals are asked to ally themselves. The leaders of the Liberal party, forgetting whatever is honorable in its past history, march in the path which will lead only to party disgrace and national disaster. I would save the Liberal party with which I have been much longer associated, and for which I have worked more than any of the present acting leaders, from the humiliation with which it is menaced. I would, with my sympathy for Ireland, save the populace from the future conduct of men who are answerable for much of the present suffering and all of the disorder with which the country is now afflicted and disgraced."

THE INEVITABLE INFORMER.

A Moonlighter Who Was In the Pay of the Police Turns Queen's Evidence.

DUBLIN, Oct. 5.—Collins, the moonlighter, who was one of the party that killed Constable Whelehan at the Sexton homestead at Lisdoonvarna on Sept. 11, and who has turned Queen's evidence, was to-day taken to Ennis to testify against his accomplices in the trial proceeding there against them for murder. He was escorted by a strong force of police. He swore as to the plot against Sexton, and identified seven of the prisoners as having participated in the killing of Constable Whelehan. Collings admitted that he had planned a number of moonlight raids in Kerry and Clare. He said that he had been in the pay of the police for the last five years and that he had received from Constable Whelehan, just before the raiding of Sexton's, a small sum of money in payment of his share for arranging the raid. [This statement caused a sensation in court.] While returning to jail the prisoners were cheered by the crowds in the streets. The police charged the people and used their batons freely.

O'Brien and Sullivan's Trial.

The Dublin Corporation has unanimously passed Mr. Dillon's motion to attend in state to-morrow at the trial of Messrs. O'Brien and Sullivan.

Evicted by Moonlighters.

A gang of moonlighters last night attacked the house of a farmer named Kilson at Cranny Bridge, drove the inmates out and levelled the building with crowbars. They continued their work of destruction for several hours. Eight arrests have been made.

REMOVING TO OTTAWA.

The Canada Lumber Company to Withdraw from Carleton Place.

OTTAWA, Oct. 5.—The Canada Lumber Company contemplates removing its headquarters from Carleton Place to Ottawa. The company employs about three hundred men. The reasons given for the step are, first, that the rental of the water privilege at Carleton Place is out of proportion to the power obtained; second, the high rate of taxation; and, third, the very high freight rates on the Canadian Pacific Railway. The company have come to the conclusion that they can cut their logs at less cost and ship them to better advantage at Ottawa, where the water route and the Canada Atlantic Railway can be utilized to ship the sawn lumber.

THE K. OF L. ASSEMBLY.

Mr. Powderly Introduces Resolutions of Sympathy With the Irish People.

MINNEAPOLIS, Minn., Oct. 5.—When Mr. Davitt had concluded his address to the Knights of Labor General Assembly to-day, Mr. Powderly introduced resolutions, which were received with enthusiasm, expressing hearty sympathy for the Irish people and condemning the oppressive laws by which Ireland is governed and the coercive acts of the English Government. Five-minute addresses were made by a number of delegates, all favorable to the adoption of the resolutions.

KING JOHN DECLARES FOR WAR.

The Italians to Be Attacked As Soon As They Emerge From Massowah.

CAIRO, Oct. 5.—Advices from Massowah say King John of Abyssinia has ordered General Ras Alula to attack the Italians as soon as they emerge from Massowah. Native spies employed by the Italians report that the Abyssinians disagree as to the advisability of reopening hostilities. A few influential Greeks in King John's entourage advise the maintenance of peace. The Negus, however, has determined on war, and has issued a proclamation in which he seeks to justify his action. Several skirmishes have occurred between Italian outposts and natives.

Train Wreckers Confess Their Crimes.

ST. LOUIS, Oct. 5.—An unsuccessful attempt was made yesterday to wreck an excursion train on the Illinois and St. Louis Railroad near Belleville, Ill. August Frank and Joe Gehr, now in the jail under indictment for taking out the spikes from a rail on the same road near this spot, have confessed their guilt, and claim that it was the result of a drunken debauch. The officers are satisfied that there are others associated with them.

A September Gale on the Banks.

PROVINCETOWN, Mass., Oct. 3.—Six arrivals to-day from the Grand Banks cod fishing report the gale of Sept. 3 as one of great severity. The schooner Pearl Nelson lost three of her crew during the gale. The men were out in dories and were driven out of sight. The schooner Franklin Woodruff also has her colors at half mast for five men, four of whom were lost on Sept. 3. The fifth was drowned on July 28.

Aimee Dead at Paris.

PARIS, Oct. 3.—Mdlle. Aimee, the singer, died from the effects of a surgical operation in this city to-day.

THE JESSE SCARTH LOST.

THE VESSEL SINKS IN FORTY FATHOMS NEAR MANISTEE, MICH.

Survivors of the Wreck of the California Say the Captain Deserted Them—The Bodies of the Purser and Passengers Washed Ashore Near Mackinaw.

MANISTEE, Mich., Oct. 5.—The schooner Jesse Scarth, 290 tons burden, laden with 26,000 bushels of corn from Chicago, bound for Toronto, sank in forty fathoms of water last night, eight miles north of Manistee. Capt. Roberts and the crew reached here in safety and secured a tug, but before they reached the schooner she had sunk out of sight.

THE WRECK OF THE CALIFORNIA.

The Captain Accused of Deserting Several of the Crew.

ST. IGNACE, Mich., Oct. 5.—Joseph Lago, first mate; Paul Santeau, fireman, and Adelar Brunet, wheelman, of the lost propeller California, who were supposed to have been lost, reached this city last night. They were swept ashore some distance above the scene of the wreck. The mate says the California's bulwarks were knocked out by the rolling barrels of pork and the sea came in filling the hold so as to put out the fires. The engine stopped at 12 o'clock and she foundered at 1. He gives the following list of the lost: Miss Pape, ladies' maid; Young Connerton, son of Mrs. Connerton of Detroit; another passenger named Harry; Arthur Hazard, the cabin boy; Robert Hill, second cook; Billy Tough, fireman; a lady passenger, name unknown, probably Miss Mombray; George Foley, purser; a watchman named Joe, and a deckhand, name unknown.

The sea has gone down and the wreck was visited to-day in search for bodies. The craft lies in twenty-five feet of water and will soon break up.

Peter McMann and others openly charge the captain with deserting them. He says that after the cabin collapsed and those inside succeeded in breaking a way through the window, he saw the captain, the engineers and two ladies in a large boat a considerable distance from the ship and that he refused to return when called. Other members of the crew say the same but not so openly, and if their stories are true the captain must have left the ship long before the cabin collapsed. No effort was made to complete the men into the boat proper, the boats were left even ready for launching, and it was "every one for himself."

Capt. Craigie on the Scene.

Capt. Craigie left Toronto on the late train Tuesday night, and was due at the scene of the wreck yesterday. He will telegraph the latest particulars to Mr. Geddes.

Bodies Washed Ashore.

MACKINAW CITY, Mich., Oct. 5.—Miss Connerton, who was saved from the wreck of California yesterday, is lead in her praise of Capt. Trowell and his crew. She thinks they did all in their power to save their vessel. Mrs. H. Blood, the stewardess, and the second engineer were caught under the cabin roof when it collapsed and were imprisoned nearly half an hour before they were released.

A hand satchel and trunk picked up on the beach identified the young lady passenger who was lost as Miss Minnie Mombray of Sackett's Harbor, N.Y., where her mother resides. Miss Mambray and Cornelius Connerton of Detroit were the only passengers drowned. Seven of the crew were drowned.

The bodies of eight victims of the California disaster have been washed ashore at Cecil Bay and McGulphin's Point and teams have been sent for them. Among them are those of the purser and chambermaid, who was a daughter of the stewardess, and Miss Mombray of Sackett's Harbor, N.Y.

All the Bodies Recovered.

The following despatch was last night received by Mr. Geddes, Toronto agent of the lost boat:

MACKINAW CITY, Oct. 5, 1887.—The following bodies have been recovered: Geo. Foley, purser; William Tuff, fireman; Harvey Clark, fireman; Arthur Hazard, cabin boy; Robert Grant, Ella Pappy, stewardess; Cornelius Connerton and Miss Mombray, passengers; Alfred Desat, deck hand. Sixteen saved and nine drowned, making full complement, twenty-five of crew and passengers. J. V. TROWELL.

Founders of Thunder Bay.

GODERICH, Oct. 5.—Capt. John McDonald, of the schooner J. G. Kolfage, which went ashore on the beach near Port Blake, arrived home last night with his crew. He reports having on Monday afternoon, when about thirty miles off Thunder Bay on Lake Huron, seen a three-master vessel founder with all hands. He was only a short distance from the ill-fated craft at the time, but owing to the terrific storm was unable to ascertain her name or render any assistance. His vessel, the Kolfage, lies well upon the sandy beach, and he has hope of saving her without much damage.

CRISPI AND BISMARCK.

A German Paper's Interview With the Italian Prime Minister.

BERLIN, Oct. 5.—The Frankfort Zeitung publishes an interview with Signor Crispi, the Italian Prime Minister. Signor Crispi attributed his journey to Friedericksruhe to Prince Bismarck's desire to see him. The conversation which took place there between the two statesmen had no reference to any special political objects. The Roman question Signor Crispi declared did not exist for Italians. Italy's position toward the Vatican is as Italian matter, with which Italy would allow no interference from any quarter.

Signor Crispi stated that he had called Prince Bismarck's attention to the sensational newspaper conjectures upon this subject. The Chancellor was much amused and said, "There could be no question respecting such matters between you and me."

Signor Crispi declared that Italy only desires to maintain peace and the European equilibrium, and on this account had gained the Austro-German alliance. Italy, like the other powers, had reason to fear an advance by Russia towards Constantinople and she would not permit the Mediterranean to become a Russian lake.

THE PORTE'S PROPOSAL.

Russia Approves of It, If Russia Is Permitted to Take First Place.

ST. PETERSBURG, Oct. 5.—M. de Giers, Minister of Foreign Affairs, has written a letter to Chakir Pasha, Turkish Ambassador to Russia, announcing Russia's acceptance of the Porte's proposal to send an Ottoman commissioner to Bulgaria to act in conjunction with a Russian lieutenant-governor of princely rank, but instead of the latter being subordinate to the Ottoman commissioner Russia proposes that the Ottoman commissioner shall have second rank. Russia also proposes that the term for which the appointments be made shall be four months, instead of three, as mentioned in the Porte's proposal.

The Kidnapped King.

LONDON, Oct. 5.—A despatch from Cooktown, Australia, says that the German gunboat Adler, conveying King Malietoa, arrived there and transferred the King aboard the Allatross, which sailed, it is supposed, for German New Guinea.

Turnbull's Millinery opening days, Tuesday, Wednesday, and Thursday, the 4th, 5th, and 6th of Oct.

Grand Millinery Opening.

H. S. Griffin & Co's Millinery Opening takes place Wednesday, October 5th, and following days. This is an event looked forward to by hundreds of ladies wishing to see the leading styles. This season their stock is very attractive. 3dw

Coming Foot Ball Match.

Next Saturday afternoon the first draw in the championship series of the Rugby Foot Ball Union will be played between teams representing Kingston and Peterborough on the P. A. A. A. grounds. A lively match may be expected, as our boys have been practising hard and are in splendid condition.

It is enough simply to say to the Public that Miss Mahoney has been doing her best to make Turnbull's Millinery Opening a grand success. Remember the days are Oct. 4, 5, and 6.

Conundrum Answered.

Because Wilson and Morrison's business in "The Manufacturer's Life" for the last ten weeks has exceeded *over half a million dollars*, being more than the combined insurance of all our competitors. The boom still continues, saying nothing of the large Fire, Accident and Plate Glass business.

"Moral"—Insure in the *Manufacturer*. dw

Another Gas Well.

The other day Mr. George Forsythe was drilling a well on his premises, lot 5 in the first concession of Douro, when at a depth of forty feet a vein of gas was struck. Mr. Forsythe's farm is situated in the same valley as the recently discovered gas well at Jermyn, and he is of opinion that the gas emanates from the same source. He has fitted a pipe into the well, and it gives a clear, strong light. Mr. Forsythe talks of inviting capitalists to take hold of the matter and make it a paying investment.

The Bigamy Case.

At the Toronto police court yesterday, Henry Prax, the Peterborough bigamist, was committed for trial. Rev. D. J. Macdonnell, of Toronto, testified that he married Prax to Margaret Wilson in 1881, and Rev. Mr. Macfarlane, of Lakefield, proved that he married Prax to Maggie Revia in Lakefield in August. The defence is that the second marriage was illegal, as Maggie Revia had a husband then living. In committing the prisoner to trial the Magistrate refused bail.

Mantle Making an Art at a premium. Everybody may expect to be pleased and surprised with the display of Ladies' and Children's Garments at Turnbull's Millinery Opening.

The Evolution Theory.

Rev. Geo. Sexton, M. A., L.L.D., Ph. D. D. Sc., Gold Medalist of the Society of Science, London, England, will deliver a lecture in the George street Methodist church this evening on the subject: "Man not the product of Evolution." A silver collection will be taken up to defray expenses. The Canadian *Presbyterian* says of him:—"Dr. Sexton delivered a masterly lecture on Evolution in Queen Street Methodist Church last week. He showed on the authority of the greatest living physicists, who had given the matter long, patient and careful observation, that the theory of *spontaneous* generation had no evidence in its support. After an able exposition of the theory of evolution the lecturer showed that no satisfactory account of man's origin had been reached apart from that given by revelation: 'God created man in His own image, male and female created He them'. Dr. Sexton is himself a man of varied and profound scientific acquirements, a masterly logician."

The Masonic Temple.

The New Hall Dedicated by the Deputy Grand Master—An Excellent Place of Meeting on the "Square."

The Masons of Peterborough have every reason to congratulate themselves upon the beauty and commodiousness of their new temple in Dunsford's large new brick block on Water Street. It occupies the whole of the third flat, and for completeness of appointments and general beauty of interior is unexcelled probably between Montreal and Toronto. The approach to the temple is by a well-lighted stairway, at the top leading of which is situated a number of ante-rooms. The kitchen is directly opposite the head of the stairs, while to the right is the dining-room, large and furnished with cherry tables, chairs, tapestry carpet, etc. To the left of the stairway is the waiting-room, provided with comfortable settees. At the eastern end of the waiting-room is the lavatory—a convenience embodied in but few lodge-rooms. Two long passages, one on each side of the building, unite the waiting-room and the "blue room" at the southern end. Between these hallways is situated the "red-room", connecting with the "blue room" by folding doors. By way of a couple of small ante-rooms, used for private masonic purposes, placed between the waiting-room and "red room", the latter apartment may also be reached.

The "blue room," is the Masonic room, while the "red room" is for the capitular Masonry. In it the Royal Arch Chapter and Knights Templars meet. When the folding doors between the two rooms are thrown open a spacious vista is opened to view. It might not be amiss here to explain the difference between the "red" and "blue" room. It is merely a difference in choice of colors. The Masons have for their color blue, while the distinguishing hue of the capitular Masonry is red. In the furnishings of the rooms this distinction is observed. The internal arrangements of these rooms are much the same. The seats of honor are at either end, while around the walls on slightly elevated platforms are long settees upholstered in red and blue according to the room. Mr. D. Bellegham supplied the furnishings, which, it is needless to say, are elegant. The floors of both rooms are covered with an excellent quality of carpet, in Masonic design and very beautiful.

The whole interior is resplendent. The ceilings are masterpieces of the paper-hangers' and wood-workers' arts, the walls are hung with handsome paintings, and the whole brilliantly lighted with gas, the chandeliers for which are of artistic design. Taken all in all, the new Masonic temple suits to a T, and it is doubtful if it could be improved.

DEDICATED.

This afternoon, at three o'clock, the ceremony of dedication was performed by Deputy Grand Master Walkem, of Kingston, assisted by local officers.

Police Court.

A Varied and Interesting Morning's Session.

Thursday, Oct. 6th.

John Wilson, Jr., and Thomas Ritchie were charged with being drunk and disorderly. The case against them not being very strong they were let off with a fine of $1 each.

NON-PAYMENT OF WAGES.

Wm. Cores claimed in the court of justice the sum of $4.60 which he said was due him from Mr. E. Welsh, with whom he had lately been employed, but who had refused to pay him his dues. Judgment was given in his favor.

A VICIOUS DOG.

Edward Warde was charged with keeping a vicious dog. It was claimed that the animal had bitten a little girl of Mr. John Irving, and another witness testified that it had attacked him. The defendant was ordered to kill the animal.

A CHARGE OF RAPE.

Joseph Valois, a French-Canadian well known about town, was arrested yesterday afternoon by Acting-Chief Adams on a charge preferred by his wife of attempting to commit rape upon his daughter Isabella, a little girl of about 13 years. This is the second time Valois has been charged with this unnatural crime, the first victim being his seventeen-year old daughter, for which offence he served a term in prison. At the instance of the prosecution the trial was deferred till Tuesday next at 9 a.m.

ROBBED.

James Montgomery, a resident at Buckhorn, came down to the exhibition, and Tuesday night got in with some boon companions. He doesn't remember distinctly what happened till the next morning, when he awoke to discover, as he alleges, that $25 in cash and a silver watch had been stolen from him. He complained yesterday to the police, but as he cannot identify those with whom he caroused they could do nothing.

Sunday School Anniversary.

The Mark street Methodist church, Ashburnham, held its Sunday School Anniversary on Tuesday evening in the Town Hall. There was a large attendance. Refreshments were served at 7 o'clock after which a very fine programme was given by the school. Mr. A. Russel, superintendent of the school, presided. The following was the programme:—

Opening chorus.....“Souad the Battle Cry”
Prayer.....By Rev. J. C. Wilson
Chorus.....“The Little Reapers”
Recitation.....Mr. A. H. Russel
Chorus.....“Coming, Yes We're Coming”
Recitation.....Miss Katie Wand
Duett and chorus...Misses Dormer and Mowry
Recitation.....Miss Maggie Fox
Chorus.....“Coming Bye and Bye”
A motto song..“God is Love”..Nine little girls
Chorus.....“We'll Try to be Like Jesus”
Recitation.....“The Last Hymn”...Miss Minnie Hamilton
Duett and chorus...Misses Dormer and Mowry
Reading...“The Golden City”...By Miss Annie Wilson
Chorus.....“Hark, 'tis the Saviour Calling”

The singing of the National Anthem and the Benediction brought the proceedings to a close. Miss Baguley, organist of the school presided at the organ, accompanied by Mr. Ivison Wilson with the cornet.

Large Scrotal Hernia.

The change of late years in the treatment of Rupture is really surprising. Only a few years ago large Scrotal Hernia or Rupture could not be held by Trusses—now Mr. Chas. Cluthe, the celebrated Truss inventor, offers in every case a success or no charge. He goes even further than this: he offers a 300 mile return ticket on any railroad to any one whose Rupture he cannot hold. Mr. Cluthe is a responsible man and above the reproach of taking advantage of people for the sake of the price of a Truss. This can be substantiated by the testimony of our most worthy Physicians throughout the land to whose patients his visits have proved such a comfort. Mr. Clutch will be at the Oriental Hotel, October 14 and 15.

Everything New, Rich, and Rare in Millinery Goods, will be on display at Turnbull's Millinery opening.

The judges at the Central Exhibition (as well as everyone else) are requested to call and pass judgment on boots and shoes at KIDD'S.

Murder Will Out

SO WILL THE TRUTH.

And the Truth is that GOUGH can Sell Clothing Cheaper than the Imaginary Clothier can Buy them,

OTHERWISE HIS $1000 CHALLENGE WOULD BE ACCEPTED.

It is an old game for a competitor, who cannot compete, to cry shoddy. Poor fellows, they must get up some excuse, but GOUGH has great confidence in the public's judgment. Therefore I say to intending buyers. look them all through and then come to GOUGH, and if you are not convinced that he has ten times more goods, 50 per cent better goods, and at prices at least 25 per cent lower than the cheapest of them, he will give you a Suit or an Overcoat FOR NOTHING.

I can give you an Overcoat to fit any size Man from $3 up to $18.
I can give you a Man's Suit from $2.75 up to $18.
I can give you a good, Heavy Guernsey Shirt or Drawers for 25c.
I can give you a Splendid All Wool Shirt or Drawers for 45c.
I can give you 5 Pairs Men's All Wool Home-made Socks for $1.00.
I can give you a Good Cardigan Jacket for 75 cents.
In a word, I can give you anything in GENTLEMEN'S WEAR at less, in many instances, THAN FIRST COST OF MANUFACTURE.

I have just Received another $10,000 Bankrupt Stock, bought at 61½ cents on the dollar.

If a merchant buys a Bankrupt Stock of Gold Watches at 50 cents on the dollar, it don't make the watches brass; and when GOUGH buys a Bankrupt Stock at 61½ cents on the dollar, it don't make his goods shoddy. Therefore use your own senses, take no man's word, and when you want a good Suit of Clothes or an Overcoat, don't buy until you at least see the MAGNIFICENT STOCK kept by

EDITOR SHEPPARD'S CASE.

Hearing of the Argument Commenced and an Adjournment Made till Next Week.

TORONTO, Oct. 6.

Yesterday afternoon His Honor Judge McDougall heard argument in the matter of the sequisition calling upon him to order Police Magistrate Denison to show cause why he should not endorse the latest Montreal warrant for the arrest of Mr. E. E. Sheppard of The News, at the instance of Capt. Bauset of the 65th Regiment. Mr. J. J. Maclaren, Q.C., appeared for Capt. Bauset, Mr. B. B. Osler, Q.C., for Police Magistrate Denison, and Mr. W. A. Foster, Q.C., for Mr. Sheppard.

Mr. Maclaren led off by explaining and reading the statute under which the warrant was issued, and detailing the circumstances of the Magistrate's refusal to endorse the warrant. He held that by the authorities it was not a matter of discretion on the part of the Magistrate.

Mr. Osler contended that the Judge had no authority over the Police Magistrate and presented this sworn affidavit by Col. Denison:

I, Geo. Taylor Denison, of the City of Toronto, in the County of York, Esquire, make oath and say:

1. That I am the Police Magistrate in and for the City of Toronto.

2. That I am not a Justice of the Peace except ex officio under the statute in that behalf.

3. That in my opinion, if I were to endorse the warrant presented to me for the arrest of Edmund E. Sheppard, I would be doing a gross injustice, and that I would be acting contrary to the whole principle that governed the extradition of prisoners or of transferring them from one jurisdiction to another; and my opinion is based on evidence submitted to me on behalf of said Sheppard, to the effect that he has been already tried for the original report of competent jurisdiction and fined for the publication of the alleged libel; that a civil judgment has been recorded against him in a civil action based upon the alleged libel; that he is liable to arrest upon said judgment if found within the Province of Quebec; and the issue of the warrant herein is for the purpose of serving the said Sheppard brought to Montreal to effect civil process of arrest to be put in force against him; that I am informed and believe that he has appeared and pleaded to the indictment in question herein; that I am informed and believe that he has been ordered summarily to present himself for trial at Montreal if secured immunity from arrest, but that such offer has been refused; and that I am informed, and believe that other magistrates to whom application has been made to back said warrant came to the same conclusion as I did and refused to back the warrant.

Mr. Osler held that the Police Magistrate was in the same position as the justices of the Superior Courts, who, like him and His Honor the County Judge, were justices of the peace by virtue of their office. He further held that the magistrate was exempt and had no power to endorse such a warrant. In this case there was not sufficient proof—nothing to show that a certificate had been issued by the Quebec court—and that there was nothing to show that a magistrate should be obliged to take any oath presented to him.

His Honor: I must confess that I am in the same position as Mr. Denison. We have equal powers and can send a man to prison for life. I, too, might be called upon to take the oath.

"Or be sent to jail for contempt," added Mr. Osler, who went on to state that this was a procedure entirely in bad faith, one which was discreditable to the Quebec courts and one which showed that the officials in those courts were ready to lend themselves to an action for party purposes. The intention was to get Mr. Sheppard in Montreal so as to proceed against him in a civil case.

Mr. Foster then took up the argument, and held that if Mr. Sheppard was forced to go to Montreal now all the Magistrate could do was to bind him over to appear there and plead, which has already been done.

Mr. Maclaren proceeded to speak and desired to put in an affidavit by himself as to the practice of criminal law in Quebec, but this was not received. At his request the case was enlarged till a week from to-morrow to enable him to get affidavits from Montreal.

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain. eodw

From Our Own Correspondent.

The new school house, S.S. No. 1, is completed. It is commodious frame building and presents a very tasteful appearance both inside and outside. Miss McCann, who has been teacher in this section for the past four years, is engaged to teach for the year 1888. We wish her luck with her new school house.

The school in S.S. No. 4 is closed on account of sickness in the section.

The marriage of John Carrol and Miss Josie Hickey took place at the parish church here on Tuesday of last week. The bride wore cream mani suiting with the usual appendages of wreath and orange blossoms, and looked very charming. John, of course, looked happy.

The happy couple left by the evening train from Peterborough for a trip through the Western States. We throw the "old shoe" after them.

Mr. Thomas O'Connor and Mr. Michael Collins (Enniscore's popular athlete) have gone to the west to better their fortunes and we have little doubt but that they will be successful as they are industrious, steady young men.

To Avoid Baldness or Grey Hair.

Use Dr. Dorenwend's Great German Hair Magic. It keeps the scalp clean and free from Dandruff, and promotes the growth of the hair. HEATING

By Hot Water and Steam.

We desire to call special attention to their splendid Hot Water and Steam Boilers which are acknowledged to have no superior on the Continent of America. We have received orders from Ottawa and other places to remove other boilers with ours. This speaks for itself. McAndrew & Noble are prepared to back their own boilers against these or any other maker either in or out of Peterborough, and if not superior in every respect they will be removed without one cent of expense. We claim, and it has been acknowledged, that we have the best boiler for heating purposes in the world to-day; all we want is a fair test.

CENTRAL EXHIBITION

Wednesday Afternoon's Performances and Attendance.

The Agricultural Implements—Keen Competition of Carriage Constructors—Inside the Palace—Flowers, Feminine Fancy and Fancy Work—Speeding in the Ring—Rattling Time of the Grangers' Geers—Aspect of the Grounds.

On Wednesday afternoon the eight-seers and eights first came fairly into contact. All the morning the ticket sellers had light work, but after dinner the demands of the visitors kept them in active exercise. The attendance amounts to about a thousand, though this number distributed through the spacious grounds and the driving park did not look large to a casual observer. The grounds, however,

PRESENTED AN ANIMATED APPEARANCE.

Tents, booths, candy stands and other objects were dotted thickly over the undulating lawn. Turner's splendid display of tents gay with flags, had for its vis-a-vis a "Witness" tent and a tent devoted to the sale of Bibles, flanked by a portable confectionary establishment. In another part a Punch and Judy show, competed with a moose "captured in the jungles." There was a gratifying absence of sharps and skin gamers, and consequently of victims.

THE CARRIAGE EXHIBITS.

To the country abounding in good highways, the question of vehicles is of considerable importance, and the public is well served in our two leading local establishments, who are well represented on the grounds.

Messrs. Fitzgerald & Stanger have a splendid display of their handiwork, of which the following will be enumerated:—A covered Surrey, timkin side bar with blue cloth trimmings; two piano-box covered buggies; Surrey, timkin side bar with three-bow top; a beauty of a piano box top buggy with Herbrand gear, as indeed have all their buggies. In snow vehicles are shown a double-seated, four passenger, Gladstone sleigh, and a Peterborough sleigh. Several excellent jogging carts, the Courtland Spiral Spring cart, of which the firm has the sole Peterborough agency. A lumber wagon solidly built and finely finished, completes the catalogue of this firm, though making no special preparation for exhibition, selecting their exhibits from their ordinary warerooom stock. A special feature of their work is its especial excellence of finish and perfection of material, and they can bid with confidence for their full share of public patronage.

Messrs. Porter Bros. seem to have laid themselves out to excel themselves. They make a most elaborate display of splendid vehicles in every possible variety, consisting of no less than 25 different vehicles, comprising: two phætons, leather and rubber top respectively, one being upholstered with spring back; leather top buggy with broadcloth trimmings; end spring, leather-trimmed open buggy; top buggy, leather trimmed; two-seated canopy top Surrey; five top buggies with varied spring gear and trimming; top village cart; two of their noted O'B. & S. road carts—one double seat, one single seat, one finished in the white in oil. Another vehicle finished in white without a drop of paint, is intended to show the excellence of the material entering into the construction of their vehicles. Another speciality of this firm is a beauty of a delivery wagon, made for the enterprising W. J. Morrow, town clock grocery. The body is peovided with a bow cover, and the leather-cushioned seat is furnished with a leather hood. The gear is vermilion and the panelled body is ecru. It is finely lettered and altogether a nobby "rig." In sleighs and cutters are shown a Boston Portland cutter, two square box cutters; a Syracuse Portland cutter, spring back; double-seated Landsdowne sleigh,—reversible seat—Brewster sleigh with reversible seats, and a Peterborough sleigh, a design originated by Mr. S. Fitzgerald. The firm also shows an excellent farm wagon, and a collection of wheels made by Benjamin & West, Yarker.

In

DISPLAY OF AGRICULTURAL IMPLEMENTS,

Mr. Peter Hamilton is *facile princeps*. His exhibit is all his own manufacture and is a convincing proof of the capabilities of his flourishing establishment. The list comprises a Tiger hay rake; the Jumbo two-furrow gang plough: wrought iron root Cultivator; four walking general purpose ploughs with steel beams and coulters with which all of Hamilton's ploughs are made. The Crown Mower is a model manufacture of its kind, and such are its great merits, that though it was only introduced last season it has taxed the large resources of the establishment. A Hamilton Reaper is too well known to need particular mention. An excellent root pulper and two hand and one power feed cutters are among the articles on exhibition. The machine that deservedly secured the attention and praise of the farmers was the Hamilton tubular steel frame self binder. This machine is the lightest, strongest steel binder made; two horses draw it and it does as effective work as three-horse machines; the vibrating sheaf batter is another feature retained, and the steel sheaf deck is another admirable feature. It is the only steel binder made in which the table can be raised from the driver's seat—in fact the levers in reach of the driver place the machine completely under his control. The only wood about the machine is the pole, lever handles, and reel, while nearly all the castings are of malleable iron. Only an examination can

REVEAL ALL THE POINTS OF ADVANTAGE.

The machine has been thoroughly tested the past summer and will be placed on the market next summer, and the demand is sure to be great. The Hamilton sulky plough is a big boon to the farmer. It combines strength, lightness and ease of work and control. It is constructed almost entirely of malleable iron and steel. It is meeting with great success, for, though its manufacture was only begun this fall, its practical tests, have been so successful that the orders are already far ahead of the manufacture. The "Daisy" combined seeder and spring tooth cultivator is also shown. It will sow seeds of all kinds and is an excellent implement. The beautiful finish of all the machinery is a remarkable point about Hamilton's machinery, and the artistic painting and ornamentation is a credit to the artist, Mr. Stephen Roadhouse.

Mr. Robt. Fife is on hand with a Toronto Binder, Toronto Mower, Sharp Hay Rake and Hoosier Seed Drill.

Mr. E. E. Bowie shows two Cockshutt riding ploughs, one sulky plough and the Beaver Seed Drill.

Messrs. J. Whyte & Co., Peterborough, show of their own manufacture four No. 3 general purpose ploughs.

Mr. H. Owens shows a Brantford Light Binder, a "Wisner" Drill Cultivator and Hay Rake, that have fanning mill. His complete collection attracted great attention. He also shows his combined lift and force pumps.

In fanning mills Mr. Wm. Forsyth shows two of his IXL mills and two Champion Mills; the latter has an attachment for bagging grain and runs as lightly as any common mill. Mr. Forsyth also shows a very neat and handy combined quilting frame and curtain stretcher. It is a

MOST INGENIOUS AND USEFUL ARTICLE

which no good housewife should do without, and they need not let expense stand in the way for its cost is only $2.00.

Mr. A. Crawford shows a patent churn on the dash principle, easily worked and a rapid butter bringer.

Messrs. Wright & Payton show three pumps, one a combined force and lift, easily and rapidly convertible one to the other.

Mr. J. J. Turner, the enterprising tent maker, gives a large and creditable display. He has every variety of tent of all sizes and shapes; some of them very elaborate and all well and neatly made. They include camping tents, lawn tents, lumbermen's and hunters' tents, and with them is shown a fine line of folding tables, seats, etc. A fine display of flags, water proof clothing, oil and rubber, are also shown. Mr. Turner supplies first-class goods and merits the liberal patronage with which he is favored. He always gives the best of satisfaction.

Messrs. Mark Curtis & Sons use one of Turner's tents for their show of excellent red and white bricks and drain tiles of all sizes. Their pressed brick, and in fact all their turn out, is of the best.

Messrs. Evans & Redpath, of Omemee, show an excellent hand fire engine which is capable of doing very effective service. They have made arrangements for a large make, and are meeting with good success. The engine is strong and well finished. They also show a garden pump, land roller and two ploughs.

THE INSIDE EXHIBITION,

while different in many respects, is fully equal to that of last year. At the southern entrance the splendid display of Gough the Wonderful Cheap Man first attracts attention. He has a large section, and the floor is carpeted with tapestry, and the walls and every conceivable portion is covered with a magnificent display of ready-made clothing—"all goods marked in plain figures," and the prices cause many an exclaimation of wonder and surprise. The display is a most elaborate one and, while worthy in every respect to the Biz-mark of Peterborough, its effect is greatly enhanced by the clever arrangement of the work by Mr. Richard Gough and Mr. Jas. A. Tully.

Opposite this display Mr. R. E. Smart, agent of the Empress Sewing Machine Company, shows four machines and beautiful samples of the excellent work, plain and fancy, done by them.

Messrs A.L. Davis & Co., occupy a section with show cases of fine statuary, etc., wall papers, etc. Mr. A. Clegg also utilizes this section with a fine display of furniture.

Mr. J. D. Tully is on hand with a neat little miniature drug and fancy goods store.

Messrs. Sherwood Bros. make a fine display of brooms, whisks and brushes, filling a large section.

Mr. J. W. Crosby shows a Stevenson cabinet grand piano, a Doherty six-octave organ and three Uxbridge organs. Mr. Crosby handles only first class instruments, and by his square dealings has won the public confidence.

Mr. H. Laishley, manager of the Singer Sewing Machine Company, exhibits six machines—four domestic and two manufacturing—and many magnificent samples of work done on these machines, principally by Miss Anderson, one of the staff. The first half day Mr. Laishley reports four clear sales.

On this floor are also the display of grains, roots, etc. There is a large and excellent display of grains of all kinds, wheat being especially good, never excelled by any former exhibit. The show of vegetables is also excellent while the roots are very fine. Potatoes furnish a good display, the collections of Mr. A. R. Kidd, with over thirty varieties, and Mr. H. J. Daubez being worthy of special mention. Dairy produce, cheese and butter as well as honey and canned fruit were well represented.

THE UPSTAIRS DEPARTMENT

was well filled. At the head of the stairs Miss A. M. Hill has a lively exhibit of bustles—called the Queen's Jubilee Bustle—a device for improving on the model of the female form as nature designed it. It has many points of excellence—it gives a graceful fall to the skirts and does away with the use of skirt steels. It is comfortable for wear and very durable. They are manufactured in Belleville and the patent is applied for.

An attractive feature of this floor is the splendid display of flowers made by Mr. A. Blade and Mr. P. Hamilton. There is a magnificent display of fruit, principally apples—both in quantity and quality. The fine arts department in another week, their being only one oil painting.

Mr. Russell Sawyer makes a splendid display of plain and fancy penmanship; the artistic execution of the latter is surprisingly excellent. This exhibit embraces a fine water color picture of the Peterborough College Building, done in water colors by Miss Cooper, a student of the college.

Mr. John Fraser shows very creditable specimens of mechanical drawing—a design in iron fencing, etc.

In

THE LADIES' DEPARTMENT

there is a scant display of useful articles, such as flannels, socks, etc., but when it comes to fancy work the mania strikes hard. The display in this class is ahead of any year yet. The space is too small to show it to full advantage, while the quality is of the highest order. There is nothing "common" in the collection. The mania breaks out strongly in crazy patchwork, a pair of curtains or portieres, made by Mrs. Montgomery, London street, being worthy of especial mention. It is a maniacal example of female patience, as are also a quilt "pieced" by Miss Allen, containing 12,755 blocks, and an embroidered applique quilt by Mrs. Plunkett, of Otonabee.

One thing is evident: if the Central Exhibition continues to improve there must be further space provided in the exhibition building. It is perhaps due to the public knowledge of the lack of space that larger exhibits are not made.

EATING ACCOMODATION.

Ample provisions have been made for feeding the hungry. Mr. Robert Hamilton, who has provided excellent accommodations, gives first-class meals including several regular courses. The service is prompt and everything is as bright and cleanly as it is possible to be. He is doing a good business.

The W. C. T. U. have also a dining hall at which meals are provided at popular prices. In other parts of the grounds are stands for dispencing tea and coffee and cakes.

SPEEDING IN THE RING.

This was the special attraction of the afternoon. The Fire Brigade Band occupied a position on the grand stand and discoursed excellent music. The first event was

THE STALLION TROT.

Unfortunately there was only one entry, Jas. Beatty's (Cobourg) "Tariff Jr." He of course went over the track, doing his first mile in 2:42. The second heat, to give interest to the exhibition, Mr. E. Thompson's "Indian Billy", entered the test and gave the stallion a pretty good brush. The second heat was made in 2:50. "Tariff" made an easy win of D Smart's $45 sewing machine.

THE FARMERS' TROT

brought out eight entries—John Kerr, James Elmhirst, —— Holmes, John Tait, Jos. Barnard, A. Moffatt, ——Wilson, two horses "Dolly" and "Clarke Colt."

The first heat was an interesting race between Wilson's Clarke Colt, Dolly, and Jas. Elmhirst's horse, the three coming in in the order named, in 3.07½. The other five came in in a go-as-you-please style.

In the second heat, two horses were drawn, but the result was not affected, the three horses winning as in the first heat, in 2.52.

In the third heat three other horses were drawn, leaving the contest to the three winning in the first and second heats. The time in this heat was 2.57. This is a summary of the result of this contest:

	Finish.			Time.
"Clark Colt"	1	1	1	3.07
"Dolly"	2	2	2	2.52
Elmhirst horse	3	3	6	2.57

For farm horses the time made was good.

THE JUBILEE PURSE CONTEST,

for pair of fastest driving horses, to be shown in harness, brought out Wilson's "Dolly" and "Clark Colt" and T. Pettitt's team.

There was a good start, but Pettitt got the lead, but at the half mile Wilson collared him and for some distance it was a neck and neck race. Pettitt again secured the lead but on the home stretch Wilson overhauled his opponent and shot under the wire a winner by a short length.

The other heats of this race were postponed till Thursday.

Mr. James Elmhirst, a competitor in the Farmers' Trot, entered a protest against Wilson's horses on the ground that the owner was not a bona-fide farmer.

THURSDAY.

The drizzling rain had a depressing effect on the exhibition, but in spite of that the attendance of visitors has been in excess of yesterday. The track is not in very good condition for the special racing events in the afternoon, but the directors have done their best to put it in shape. What events cannot be run off will be given to-morrow.

PREFERS THE SEMINARY.

CARDINAL TASCHEREAU DECLINES THE USE OF THE CITADEL.

A Company That Will Fence in One Hundred Miles of Land in the Northwest—Militia Officers Object to Paying Duty on Their Uniforms When Imported.

OTTAWA, Oct. 6.—Sir Hector Langevin has received from His Eminence Cardinal Taschereau a letter of thanks for the offer made by the Dominion Government, at the instance of Lord Lansdowne, of the use of His Excellency's quarters in the Citadel. His Eminence graciously expresses his obligation for the friendly courtesy extended to him, but says that as he is already temporarily installed at the seminary, it will be most convenient for him to remain there, as his quarters, although not so spacious as those offered him, are close to the archives of his diocese, which were fortunately saved by being in a fire-proof vault, and it will, therefore, be easier for him to conduct the affairs of the diocese from the seminary than it would be from the Vice-Regal quarters.

Capt. Dawson, D.L.S., New Glasgow, N.S., is here promoting the Canadian Pacific Colonization Company with a capital stock of £100,000. Capt. Dawson leaves for Calgary to-night. The corporation, which he has just organized in England, has the grazing lease of a tract of land 100 miles in extent south of Blackfoot Crossing. The proposal is to build a barb wire fence around this big square, start an enormous stock farm and supply newly arrived immigrants with horses and cattle.

Tenders will shortly be invited by the Public Works Department for the construction of a postoffice at Gananoque.

Complaint is made by militia officers of their having to pay duty on uniforms imported by themselves, while similar goods imported by the Militia Department are allowed to enter free. This is caused by a change in the law last session. They claim that as they are obliged to furnish their own uniforms and devote a great deal of time to militia duties unrecompensed, the Government should not impose the burden complained of, and the matter will be brought to the attention of the Minister of Customs on his return from England next week.

The postoffice receipts for the quarter ended Sept. 30 amount to $629,778, being an increase of $33,371 over the same period last year. A comparative statement of the increase since 1884 for a similar period of three months shows a steady and rapid growth in the volume of business. In 1884 the increase for the September quarter over 1883 was $6544; in 1885 over 1884 $18,421; in 1886 over 1885 $31,404; in 1887 over 1886 $33,371.66.

THE HALDIMAND RECOUNT.

At the Closing of the Court Yesterday Mr. Colter Had a Majority of Three.

CAYUGA, Oct. 6.—Dr. Montague and his friends had their innings at the Haldimand election trial to-day and what smiling there was was generally on his side of the house, but the balance being so even left little room for levity Mr. Blake, with his keen perception, omits not a point likely to make in favor of the petitioner. The continued recount occupied nearly all day, reducing the majority of Mr. Colter to three. Dr. Montague and his

The decision in a number of cases of votes is held for argument, probably to-morrow, and more careful consideration by His Lordship the Chancellor, as the points raised are new and have not yet been adjudicated upon, arising as they do under the Franchise Act, the working of which has not been fully developed. The points raised are of public interest, especially to farmers' sons. Many witnesses were examined to-day of this class of voters, who had supported the petitioner, whose circumstances, by reason of not residing with their parents or otherwise conforming to the provisions of the act, had disentitled them to places on the lists of voters, but His Lordship held that objections to such, if tenable, should have been taken before the revising officer when the names were sought to be placed on the list, and that the objection could not be made now. Others who were properly on the voters' lists, but who had ceased to conform to the provisions of the act such as by removing to new homes, were in a different category and the status of these voters might prove very different, and it was in regard to these cases that judgment has been reserved, and from the issue of which Dr. Montague and his friends anticipate being placed in a majority.

A CARDINAL'S VISIT.

ARRIVAL OF HIS EMINENCE, MGR TASCHEREAU, IN TORONTO.

Reception at North Toronto Station—Procession to St. Michael's Cathedral—Addresses from the Clergy, Laity and French Society—Enthusiastic Gathering.

TORONTO, Oct. 7.

The first cardinal who has ever visited Toronto arrived here at 8.20 last night in the person of Cardinal Elzear Alexandre Taschereau, Archbishop of Quebec. His Eminence alighted at the North Toronto station of the Canadian Pacific Railway, the occasion of his visit being to lay the corner stone of St. Paul's Church, which will take place on Sunday at 3 o'clock.

For an hour before the arrival of the Cardinal the station and vicinity was crowded with people, horsemen and vehicles. On the platform were many of the most prominent of the Catholics of Toronto. His Grace Archbishop Lynch did not go to the station, but he was fitly represented by his coadjutor, Bishop O'Mahoney. The clergy were represented by Rev. Father Rooney, V.G.; Dean Harris, St. Catharines; Father Jeffcott, Orangeville; Fathers Morris, Minehan, Nevin, McBride, Brennan, Cushing (Principal of St. Michael's College), Gunnane, Fraser, and Brothers Tobias, Odo and Patrick. Among the laity were Hon. Frank Smith, Hon. T. W. Anglin, Eugene O'Keefe, B. B. Hughes, Commander Law, R.N. (A.D.C. to the Lieutenant-Governor), Mr. J. J. Foy, Q.C., Dr. Cassidy, Mr. Joseph Connelly, R.C.A., Mr. Patrick Boyle, L. O'Byrne, W. J. Macdonell, Vice-Consul of France.

As the train drew in there was a great cheer raised. The parlor car stopped further east than was expected and the members of the Reception Committee, who were standing in front of the station, had to rush towards the car. The crowd also rushed, and by the time that the majority of the committee had got there His Eminence and his special attendant, Mgr. C. A. Marois, had alighted and were escorted to the carriage of Hon. Frank Smith. His Eminence was attired in his cardinalate robes consisting of a red silk soutane with long train, white lace surplice, red silk cape and the red silk hat, emblematic of his office. Mgr. Marois, who by the way is quite a young man, black-haired and good-looking, wore the purple cape of a monseigneur.

There were no bands and no torchlights. These might have been had and were freely volunteered, but the Reception Committee considered that a quiet reception and escort of the Cardinal would be as acceptable as a big display and also as pleasing to the citizens. While the plan of reception was praiseworthy and pleasing, it cannot be said the arrangements for organizing and starting the procession were so. There was no arrangement as to order in the procession and the result was that people ran helter and skelter. But finally the procession moved off, the first carriage containing His Eminence the Cardinal, Mgr. Marois, Bishop O'Mahoney and Hon. Frank Smith. His carriage was surrounded by a guard of honor composed of these young gentlemen, mounted upon lively horses:

Bailey O'Keefe.	John Lee.
Geo. Reilly.	W. H. Ryan.
James Walsh.	John O'Connor.
Frank McPhillips.	P. D. Hughes.
John Ryan.	J. D. Warde.

This carriage was followed by about fifty others. Many members of the city parishes went along on foot. The great majority of the gentlemen present were rosettes or ribbons of cardinal red in honor of the distinguished visitor.

The route was down Yonge-street to Shuter, and thence to St. Michael's Cathedral at Bond and Shuter streets. All the way down Yonge-street crowds lined the sidewalks and viewed the procession. At intervals there were cheers given for the Cardinal, who was recognized by his large red hat, and at Wellesley, Carlton, Gerrard, Wilton and Shuter-streets the crowds were especially demonstrative. It was evident that the Roman Catholics of Toronto, notwithstanding the bad weather, had turned out in force to welcome Canada's only Cardinal.

As the procession reached Carlton-street the chimes of St. Michael's began ringing out a merry peal of welcome which was continued till His Eminence had reached the Cathedral. The long line of carriages entered one gate, deposited their occupants and went out by another while thousands filled the streets and surrounded the Cathedral anxious to gain an entrance. Admission to the side aisles had been granted to all who entered, but the centre pews were reserved for those who followed the Cardinal's party.

His Eminence was met at the main door by His Grace the Archbishop, attended by Vicar-General Laurent and a score of priests. He was bade welcome by His Grace who read this address, standing immediately inside the door:

Most Eminent and Illustrious Prince:

It is for us a very great pleasure to convey to Your Eminence the heartfelt delight with which the clergy and people of our Metropolitan See of Toronto welcome you to our city.

It is the time honored custom of the Holy See to select for the exalted office of cardinal, with which dignity we rejoice you have been honored, men distinguished for their great learning and piety and fearless devotion to the cause of truth and justice, in order that the Supreme Pontiff may be assisted in those things that conduce to the honor of religion and the welfare of the people in general.

May your visit to our city be as pleasing to Your Eminence as it will be to us, to our clergy and people, productive of pleasant recollections.

To us it will be as much a delight as a duty to render to Your Eminence every mark of respect due to your high office, so that the days during which you honor us with your presence may be as agreeable to you as they will be joyous to us.

Then the procession was reorganized, and to the strains of Mendelssohn's "Wedding March," as rendered by Prof. Lemaitre upon the organ, the party proceeded up the centre aisle to the high altar, which was a blaze of candles, colored lamps and gas works, surmounted by a gas design of a large cross, shamrocks and a bishop's mitre. Banners bearing the Papal arms and those of His Eminence hung on either side of the altar. On entering the sanctuary His Eminence, who by reason of his robes, was the central object of attraction, knelt at the lowest step of the altar for a few minutes in prayer. Then Vicar-General Laurent intoned the Psalms.

His prayer concluded, the Cardinal ascended the steps, and while the vast congregation bowed in silent prayer he gave the benediction. Then he descended the steps, and, accompanied by a retinue of priests, proceeded to the throne on the north side of the sanctuary, while His Grace the Archbishop sat on the left. The priests gathered about, as he placed the red beretta on his head, and Rev. Vicar-General Rooney read this address on behalf of the clergy of the archdiocese.

Most Eminent Lord Cardinal:

It is with a most lively sense of the honor permitted us that we, the clergy of the Archdiocese of Toronto, Your Eminence, do tender to you, as a Prince of the Church, a most cordial welcome to our city; we appreciate the honor the more as Your Eminence is the first cardinal we have had the happiness of seeing in our midst.

We rejoice that it has pleased our Holy Father, the wise ruler of the Church, to crown the glories of the ancient See of Quebec, the Mother Church of so many dioceses in America, by selecting Your Eminence, so renowned for piety, learning, zeal and patriotism, to be a member of the illustrious College of Cardinals, one of that august body on which devolves the awful responsibility of electing a sovereign pontiff.

Our joy is much enhanced by the fact that the recipient of the high dignity is a distinguished member of the old Celtic race, to which it is the glory of the French and Irish people to belong. A race which has been fruitful in Christian heroes and foremost in many lands in spreading the Gospel of Christ, we owe much to the example and prayer of our martyred ancestors, which inspire us with holy zeal in piously upholding our religious and educational rights.

As citizens of this great Dominion we assure Your Eminence that we enjoy in this province the many blessings of a free and happy people, while education and social intercourse are steadily removing prejudice against our holy religion. In the promotion of every Catholic interest we are happy in the earnest co-operation of our good people, and priests and people find a beacon light and a pillar of strength around which to rally in our beloved Archbishop, whose zeal keeps pace with his advancing years, and whose double crown of science and piety sheds lustre on their Metropolitan See. And while the welfare of Holy Mother Church is dear to us all, we are not unmindful of the allegiance we owe to our country and its rulers, for the true soldier of Christ is likewise the true soldier of his country.

Our firm allegiance to God and to the Head of the Church does not militate against our loyalty to our country; nay it serves to strengthen it.

Begging Your Eminence to accept this public expression of reverence for your august person and of gratitude for your visit, we pray that our good God may long preserve Your Eminence to be an honor and a guardian to the church in Canada.

J. V. Rooney, V.G.; J. M. Laurent, V.G.; R. A. O'Connor, Dean; W. R. Harris, Dean; E. J. Cassidy, Archdeacon.

His Eminence replied briefly and then received this address from the laity, which was read by Dr. D. A. O'Sullivan, who was accompanied by Hon. Frank Smith, Hon. T. W. Anglin, J. J. Foy, Q.C., Mr. Eugene O'Keefe, W. J. Macdonell, B. B. Hughes and others:

To His Eminence Elzear Alexandre Taschereau, Archbishop of Quebec, Cardinal Priest of the Holy Roman Church:

MAY IT PLEASE YOUR EMINENCE: Your presence in Toronto affords us a pleasing opportunity to welcome you to this part of Canada, and to express our appreciation of a visit from so distinguished a prince of the church.

We wish to offer our congratulations on the great honor bestowed on you by the Sovereign Pontiff in elevating you to the cardinalate, and to join in the general expressions of gratification which that signal distinction evoked.

The Holy Father has most fittingly honored the church in Canada by choosing for its first cardinal a prelate from the illustrious See of Quebec, and choosing him from that pioneer race which has done so much for the cause of religion in this country. As part of that ancient See and province, we share with it and with the whole of Canada in the glories of their brilliant record—glories that now find fitting recognition in the appointment of one so well qualified to be named a Senator of the Roman Court.

Your Eminence sees here Catholics united with those of your own province by that common bond of unwavering fidelity and attachment to the Holy See. We who meet you to-day and represent the Catholics of this city, and we may say the Catholics of the province, are glad to assemble in honor of one whom the Head of the Church has delighted to honor; and we trust that you may be spared many years to enjoy the distinction conferred on you by the Sovereign Pontiff.

The ceremony of laying the corner stone of a new and stately edifice on the site of the oldest church in the city will serve as some imitation to Your Eminence of the growth of the Catholic Church in this part of Canada. It is but one of the many evidences of its wonderful development and expansion under the fostering care of the Archbishop of Toronto and the bishops of the province. Even in the hurried visit you are now making we feel assured that many other proofs of this will be afforded you.

We hope Your Eminence will carry away pleasing recollections of Toronto and of this western country, and that your coming here will serve to strengthen the bond of good feeling that exists between the sister provinces so long identified with the name of Canada.

The Cardinal replied briefly, but so great was the noise and the crush of people, who even crowded up to the steps and into the sanctuary, that his words could not be heard even in the first pews. Then a deputation of French citizens approached the throne and Mr. Joseph Roy, President of the Ste. Jean Baptiste Society, read an address in French, of which this is a translation:

To His Eminence Cardinal Taschereau:

You have left for a short time the rocky city of Champlain to visit our fair City of Toronto. With anxiety we have expected you, and it is with the greatest of pleasure we, the French Canadian citizens of Toronto, the confreres of your own diocesans, welcome to our adopted home the first Prince of the Catholic Church of Canada.

As in olden times, the Apostle of the Gentiles, traveled to the various places in which the Gospel seed had been sown, you have not feared the length of the route, and Your Eminence rejoiced in thinking you were coming to embrace once more the worthy and saintly Archbishop who guards so jealously the faith of the Catholics of this diocese.

The virtues which distinguish Your Eminence and your eminent ecclesiastical lore have been honored at the Throne of Peter, and show the world that the honor merited by Catholic Canada in your venerable person is a guarantee of her never-failing fidelity to the Holy Catholic Church.

We rejoice at the honor Rome has conferred on Your Eminence, and we are glad to say that here on the shores of this great lake there are hearts that beat at the thought of their first mother.

Under the paternal care of His Grace, our beloved Archbishop, we are making our way through life hand in hand with our brethren of other extraction, and under the same banner of the Gospel, and with the same hopes, less preoccupied, perhaps, with our bodily wants than with the preservation of our faith, on the shores which kind Providence has cast us, we hold on *faithfully to the centre of Christian truth*, and over will our vigilant pastor, the Rev. Father Lamarche, whom God has sent us as our spiritual guide, find our hearts submissive to his jurisdiction.

But that these resolutions may bear the good works of an active faith, we beseech Your *Eminence to bless us and our families* and to unite your prayers with those of the first pastor of our diocese, and the memory of your visit will be engraved on our hearts, because you will have "passed in doing good."

This was the last address and as the organ pealed forth the "Marche Aux Flambeaux," His Eminence left the throne, and followed by His Grace and the attending clergy, passed to the vestry and thence into St. Michael's Palace where he will have his abode while remaining here.

THEY WANT THEIR MONEY BACK.

Shareholders of the Ontario Investment Suing the Association.

LONDON, Oct. 6.—The shareholders of the Ontario Investment, who have been fleeced by their late President and Manager, Henry Taylor and Charles Murray, are commencing a determined war against what remains of the association. Actions have been entered by Josiah Blackburn, R.C. MacFie, H. F. Nelles and other shareholders, the object of which is that their subscriptions for stock be cancelled as they were obtained under fraudulent representations. They further sue for the refund of all monies paid upon said stock, claiming it was secured by false pretences. Proceedings were instituted against Charles Murray for forging a note for $2000, which was cashed before he left for Omaha, but it was learned that their late manager had changed his address again and attempts to locate him proved fruitless, so the proceedings were dropped.

Dedication of a Masonic Temple.

PETERBORO, Oct. 6.—The new Masonic temple in Water-street was consecrated and dedicated with appropriate ceremonies this afternoon. The Deputy Grand Master of the Grand Lodge of Canada, Worshipful Bro. R. T. Wadkin, officiated, assisted by other officers of the Grand Lodge. There was a large attendance of the fraternity from the town and surrounding district. This evening a conversazione was held.

THE CALIFORNIA'S WRECK

CAPTAIN TROWELL STOOD TO HIS POST LIKE A HERO.

The Bodies of All the Victims Recovered—Arrival of the Survivors of the Crew in This City—The Engineer Tells the Story of the Loss of the Vessel.

MACKINAW CITY, Mich., Oct. 6.—The last bodies of the ill-fated California were brought here last night. Six of them came ashore during the night seven miles from here, and the other one came ashore near McGolphin's Point. Following is an accurate list of the victims: Miss Minnie Mambray and C. Connerton, passengers; Geo. Foley, Wm. Tuff, Harvey Smith, Arthur Hazard, Robert Grant, Ella Pappa and Xavier Daoust, of the crew, making nine all told, which is the number required to complete the list of the missing.

The opinion is expressed that if Capt. Trowell had been supported by his first officers and the rest of the crew there would have been no loss of life. It has been stated that only one boat could be lowered, but such was not the case. There were two boats lowered. The first, which should have taken the women, was taken possession of by eight of the crew. Two more of the crew jumped into the water, and caught hold of the boat, but they were not taken in, and, after hanging on as long as possible, were forced to let go and were drowned. It is claimed by the men in this boat that they could not lift their companions into the boat, but this is a flimsy excuse. The probable reason they were not taken into the boat was because it was feared they would be overloaded. The second boat launched was taken possession of by the first mate and two of the crew while the captain was in the cabin looking after the passengers. When he returned to the deck they were gone, and the passengers and remainder of the crew were left to their fate.

THE SURVIVORS IN TORONTO.

Second Engineer Mills Tells the Story of the Wreck—Burial of the Victims.

Eleven members of the crew reached Toronto last night by the Grand Trunk from Mackinaw City. They are: S. A. Mills, the second engineer, of Toronto; Peter Legault, first mate, of Lachine; Peter McManus, Anselem Lebrun and Paul Chartreaur, wheelmen, and Joseph Lanyou, deck hand, of Montreal; J. C. Ives, deck hand, of New Orleans; Joseph Nelson and Wm. Brown, deck hands, of Norway; Owen O'Rourke, wheelman, of Kingston; A. J. Hawkins, watchman, of Belleville. The party left Mackinaw City on Wednesday night, and upon their arrival here were met by Mr. W. A. Geddes and taken to the American Hotel. They will be paid off to-day and will leave for their respective homes at once. Every one of them shows unmistakably the effects of the terrible experience through which they have just passed. Legault is suffering from an injured leg, and nearly all the others bear bruises and cuts.

S. A. Mills, the second engineer, gave a reporter this version of the California's wreck: As we got abreast of the Manitou light about 2.30 o'clock Monday morning, the wind freshened and continued to increase. At this time the mate was in charge of the boat, but Captain Trowell came on at 4 o'clock and remained in command till the vessel went down shortly after midnight. During the day the wind seemed to grow in violence and a big sea was running, and its violent force stove in the vessel's anchor shutters, by which some water was shipped. As the vessel steered badly, it was deemed advisable to hoist sail, but the same difficulty was experienced afterwards. Then 900 barrels of pork, forming a portion of the deck cargo, was thrown overboard, but the vessel still refused to run before the wind, and after making a number of unsuccessful efforts to make Waubaushence, the conclusion was reached that the only alternative was to beach the boat. This decision was arrived at on account of the fires being put out by the water which had been shipped. After resolving upon this step the boat's officers went through the cabin and placed life-preservers upon the passengers and crew. The mate and two of the men were ordered to prepare the boats for use. Capt. Trowell was particularly careful to see that everyone was provided with life preservers, and when he placed one on the fireman Tuff the latter remarked: "I have been sailing the lakes thirty-one years, Captain, but never had a cork jacket on before." "Well, we must make the best of it, old man," replied the captain. He then walked through the cabin with Chief Engineer Ellis to look at the chart, with a view of ascertaining the nature of the shore. They had just got outside when they discovered the vessel was sinking. They shouted a warning to those in the cabin and ordered them to take to the boats. Purser Foley must have heard the warning as well as the rest, as I saw him forward with a life preserver on. That was the last time I saw him. Lebranch, the wheelman, declares he saw him jump overboard. When the boat went down I was in the cabin with Mrs. Blood, the cook, and Miss Pappa, the cabin maid, intending to assist them. The other passengers and men were now at the cabin door. As the boat went down the water rushed into the cabin. I was hurled against the cabin roof and lost hold of Miss Pappa. I retained my hold upon Mrs. Blood, and a moment later, as the smokestack broke, we got out of the cabin, and, seizing a piece of the wreck, were carried out upon the waters. Near us was the body of young Hazard, the cabin boy. He lay face downwards and was dead. Looking around we saw one lifeboat with two men in it. We shouted with the desperation of persons similarly situated. Our cries were heard by the men, who proved to be Capt. Trowell and Engineer Ellis. They carefully steered the boat through the wreckage and rescued us. In the stern sat Mrs. Connerton, unconscious. The boat was half full of water, and securing an empty biscuit box I at once went to work to bail her out. Before leaving the wreck Ellis shouted at the top of his voice: "Are there any more here?" Hearing no reply we came to the conclusion that no one had been left and we made for the shore, a mile distant. We drifted, however, so much that we were unable to make it. We subsequently sighted a vessel, which proved to be the steam barge Folsom, whose crew got us aboard. The next morning we were landed at Mackinaw City. The metallic life boat in which seven of our crew left the wreck went ashore at 5 o'clock that morning. Hawkins, O'Rourke, McManus, Charling, Ives, Nelson and Brown were its occupants. One of the firemen and passenger Connerton clung to its gunwale till they were overcome. Connerton's last words were: "My mother is gone and I may as well go too." It was impossible to take Connerton and the fireman into the boat as it was down in the water to its gunwale. The men had a terrible trial and some were unconscious when they got ashore. Ives was for the time being out of his mind. All of them were cut in getting out of the cabin. Legault and two others, who were in a third boat, came ashore at another point. Capt. Trowell and Engineer Ellis remained at Mackinaw, but will leave for Toronto this evening.

THE MASONS' "AT HOME."

Sequel to the Dedication of their New Hall.

Delightfully Successful Conversazione.—The Brethren Play the Host to Half a Thousand Guests.—"Speculative" Masonry Reduced to "Operative" Hospitality.

On Thursday evening the sequel to the dedication of the new Masonic Hall came in the shape of a conversazione, held in the beautiful and spacious new quarters in the Dunsford Block, and the example given by the brethren to their friends of reducing speculative masonry to operative hospitality will be an occasion long to be remembered as a practical application of the cardinal principle of benevolence, so deeply cherished by the brethren of the craft. As early as 7:30 o'clock the invited guests began to arrive, and at eight o'clock there were at least five hundred ladies and gentlemen enjoying the unlimited hospitality of the Masons of Peterborough. The number of ladies present exceeded that of the sterner sex, a singular circumstance in a world where

EVIL SO GENERALLY EXCEEDS THE GOOD.

It may not be irreverent—at least it is not so intended—to suggest that this circumstance was due to the curiosity of the ladies to see for themselves the rather exclusive haunts of many of their fathers, husbands and brothers. And this curiosity was generously indulged, even the mystic goat was present in *propria persona* and also in his "box" staff; and Deputy grand Master Walkem was good enough to tell all the "secrets"—except what the ladies desired to know.

There were several guests from a distance—among them was W. Bro. Robert Salter, P. H. P., of Hamilton Chapter, Rochester, who was present for the occasion. It may be remarked that he brought a fine portrait of himself, a present to Corinthian R. A. Chapter.

AMONG THE OUTSIDE VISITORS

there were noted the following. From Norwood: Bro. W. E. Roxburgh, P.M. John Powell A. McMullan and W. G. Morrow. Several ladies accompanied them. From Belleville, A. McGinnis, P.D.D.G.M., J. P. Thompson, G. S., J. Henderson, R. Moffatt, Rob't Orr, — Lamont, Thos. Munro, — Lingham, and S. McCullough; Omemee was represented by Bros. Rev. Dr. Smithett, Chap., Geo. Edwards, W.M., W. Miller, P.M., Geo. Young, J. G., Thos. Webster, R. Morgan, Charles Cornell, P.M., Alex. Redmond, Dr. Cochrane, John Calder and J. D. Thornton. From Lindsay: Alex. Cullen. From Port Hope: Bros. Jas. Bradley (and wife) and Charles Doebler, T.G. S.O.D., (and daughter). From Cobourg: Bros. David McNaughton, G.S.O.D., and — Wilson. From Lakefield: Bros. W. H. Casement, P.M., T. J. Bird, J. Clarin and others.

Bro. R. E. Wood, W.M. of Corinthian lodge, occupied the chair, being supported on his right by W. Bro. Wm. Thompson, W. M. of Peterborough Lodge. R. W. Bro. Shorrdy, D.D.G.M., and R. W. Bro. E. H. D. B. Hall occupied positions on the dais to the right and left of the two W.M.'s. The brethren occupied the central portion of the hall; and received the grand officer present, Bro. Walkem, Kingston, D.G.M.,

WITH THE GRAND HONOURS.

The Deputy Grand Master then gave a brief address very succinctly and lucidly setting forth the principles of the order of Masons, tracing its origin from the time of King Solomon and following the perpetuation of its operative condition through the time of the Romans to modern times, when it lost its practical condition and merged into what is now known as speculative or Free Masonry. He showed how the implements of the operative craft symbolised the principles of the order; that a belief in a Supreme Being, in a divine revelation and in future state of reward or punishment must be held by every Mason; that

HIS MEMBERSHIP MUST CEASE

when he ceased to hold such a belief; that masonry was the handmaid of religion and made possible a wider brotherhood than the churches, divided in numerous sects, could secure. Masonry was not a religious organization, yet no irreligious man could be a mason. The speaker pointed out somewhat in detail the objects and scope of the aims of masonry, and said that it was gradually but steadily extending its influence, in the direction of embracing as its principles would permit to do, the whole would be a common brotherhood. The Deputy Grand Master concluded a very happy address by expressing the delight it afforded him to be present.

The Chairman then introduced

THE MUSICAL PROGRAMME,

which was in charge of Bro. Prof. Parker, who played the accompaniments to the songs rendered, in his usual acceptable manner, upon a Newsome piano, generously supplied by himself for the occasion. The following is the programme which was excellently given:—

Duet, Piano—Fairy Queen, Messrs Parker and Jacques.
Song—We're Your Brother.....Mr. D. Galletly.
Duet—Venetian Boat Song, Miss Fair and Miss Hamilton.

Intermission.

Song—The Skipper.....Mr. Beasley.
Reading.....Mr. C. Brown.
Song—Let Me Forget Thee....Miss Brandrett.

Intermission.

Song—The Soldier's Dream....Mr. A. L. Davis.
Song—The Peddler (Mrs. H. B. Leach, (Montreal)
Duet—Excelsior....Miss Fair and Mr Beasley.
Song—.....The Jackets O'Blue.

Intermission.

Glee—Auld Lang Syne.....Masonic Brethren
God Save the Queen.

Between every three numbers there was a brief intermission,

DEVOTED TO SOCIAL INTERCOURSE.

The guests were made free of the spacious and elegant rooms, and at intervals they repaired to the finely fitted-up refreshment rooms, where excellent refreshments (Mr. F. Hall, caterer), were provided during the evening, and hereafter the guests will be in a position to understand the significance embodied in the expression, a good "square" meal. During the intermissions also, Prof. Doucet's orchestra played in excellent style orchestral selections. The musical programme was brought to a close by the brethren singing "Auld Lang Syne" in the customary manner. So delightful was the enjoyment of the occasion that the guests felt loth to leave such pleasant scenes, and the majority of them remained strolling about the rooms, the orchestra meanwhile adding charms of music to the delights of social communion. At the conclusion of the programme the floor was cleared for dancing, which was kept up unremittingly by the young people present till 1 a.m. Prof Doucet's orchestra supplied excellent music.

The Masons of Peterborough are to be congratulated upon taking formal possession of commodious, convenient and, in every way, suitable new premises, and upon the signal success which has attended every detail of ceremonial and circumstance in connection with dedication and conversazione.

Personal

Mr. and Mrs. Thos. Fitzgerald have returned home from a visit to Blue Rapids, Kansas. While in the far west, Mr. Fitzgerald under the guidance of Mr. George Nicholls, slaughtered a big bag of prairie chickens and quail. He tells the boys that he did not bring his game with him—it is so bulky that he will have it sent to him by the water route.

Mr. G. H. Flint, representing the Montreal *Witness*, has been in town for three or four days attending the exhibition in the interest of that paper. Mr. Flint was at one time city editor of the *Globe*.

North Harvey.

Last week the bush fires extended to the clearing of Mr. Murdock and, travelling over it caught the barn, and set it in a blaze, and destroyed it with a large quantity of hay. In many places the rail fences have all been obliterated.

There is now on exhibition at this office a potatoe. It's a beauty. It's justlovely. It's very much too awfully delicious. It's a great many inches long, ever so many thick and weighs we don't know how many pounds. It was raised in South Harvey by Mr. T. Crowly. People who come to look at it go away smacking their lips. A single interview with that potatoe removes all despondency.

On Tuesday last Mr. Thomas Brummail was engaged sinking a well on his premises, and having come to rock was blasting the stone out of the shaft. A hole was drilled, charged and fired, but the fuse did not explode the charge. Mr. Brummall then went down to pick out the packing, and while doing so the charge exploded. The drill was shot out of the hole and has never been seen since, and Mr. Brummall's hand and wrist were very badly torn. He came at once to Bobcaygeon and Dr. McCamus dressed the wound. He is doing well.—Bobcaygeon *Independent*.

Natives from Other Towns.

The Opera House was crowded last night. The Lindley Dramatic Company were performing a play combining the "Lime Kiln Club" and "Over the Hills to the Poor House." In the reserved seats were a young man and woman, both intoxicated, who made themselves particularly obnoxious to the remainder of the audience and the stage company. The woman was very noisy. At the most impressive parts of the play, when a pin could have been heard falling, she would break out into peals of drunken laughter or snatches of ribald song. All through the performance the two made themselves conspicuously unpleasant by their senseless interruptions and unseemly conduct. The man is a Lindsay barber, while the woman is one of the riff-raff of Port Hope. They were not arrested, though they should have been.

A Close Call.

The other morning a gang of section men started from Norwood station to Havelock on a hand car. Dense fog obscured the night, and when about three miles from Havelock, without any audible warning to those on the car, the morning express travelling at the rate of forty miles an hour, suddenly put in an appearance. The brakes were promptly applied by Mr. E. R. Edgar, the foreman, who pluckily remained at his post in the face of so great a danger until the speed of the car had been sufficiently checked to allow the men to jump with comparative safety and then, when within ten yards of the flying train, he followed the example of his companions. The next moment the car was smashed to atoms and the express sped on, the pilot of the engine being covered with dinner pails and the clothing of the men.

IMPORTANT TO ALL

Who are Bald, or have Thin, or Grey Hair, or who are troubled with DANDRUFF.

DR. DORENWEND'S

"HAIR MAGIC"

Will be found invaluable for the hair and scalp. It cleanses the scalp of all Dandruff, invigorates the growth of the hair, and in cases of baldness where there are the slightest signs of roots left it will produce good crops of hair. It restores grey hair to its original color, and is an excellent dressing.

DO NOT DELAY, if your hair is in a weak condition, get a bottle at once.

LeBrun's Fall Specialties.

BETTER TO WHISTLE THAN WHINE.

It went a little hard, during our recent Great Clearing Sale, to allow such elegant Goods go off at the Sacrificing Prices which they did. But we had to make room for our Fall importations; so, Out They Went!—"bag and baggage!"—and we have good reason to believe that 'tis Better to Whistle than Whine.

Our Fall Goods are now Coming in without interruption, and consist of the Choicest Selections of CLOTHS, from all Countries, ever yet displayed in Peterborough.

OUR CUSTOM TAILORING DEPARTM'T

is in its full sway at present. Orders for FALL COATS and SUITS should now be placed in order to be ready for the cool and chilly days of Autumn and Fall.

Ireland's Troubles.

The Magistrate Decides that there is no Case Against Sullivan.

DUBLIN, Oct. 6.—The Lord Mayor was driven to court, followed by John Dillon, ex-Lord Mayors Gray and Dawson, ex-Sheriff McDonald and others. The City Marshal led the civic dignitaries, who were all arrayed in the full robes of office. Mr. O'Brien joined the procession soon after it started. The streets through which it passed were thronged, and the Lord Mayor and O'Brien were the recipients of a great ovation. Policemen wandered singly through the crowd. A cordon of police surrounded the Mansion House and prevented the crowd from approaching the court room. There were fifty municipal officers in court.

After the case had been called a warm dispute occurred between the police attendants in the court and Mr. Sexton, M.P., and High Sheriff of Dublin, arising from the desire of the latter to place the city sword and mace before the Magistrate. The police attempted to prevent the placing of the city emblems on the table, whereupon Sexton and other municipal officers seized the sword and attempted to place it there by force. The police and municipal officers struggled for possession of the sword, while the spectators in the gallery cheered Sexton and exhorted him to "hold on." After a few minutes both sides desisted, a compromise was effected and the sword was placed on the Magistrate's table.

Mr. O'Brien did not enter the court to answer the summons against him. The case of Mr. Sullivan was proceeded with. Mr. Carson appeared as counsel for the Crown and Timothy Healy appeared for the defence. *After hearing the evidence the court* dismissed the case on the ground that the Crown had not proved that the meeting reported in The Nation was a meeting of a suppressed branch of the National League. The spectators and crowd outside were wildly enthusiastic over the decision. O'Brien's case will be called to-morrow.

Notice of Appeal.

DUBLIN, Oct. 6.—Counsel for the Crown has given notice of an appeal against the decision of the court in the case of Lord Mayor Sullivan.

Victoria's Gift Pleases the Pope.

ROME, Oct. 6.—Klopp, the German historian, has presented to the Pope the complete correspondence between Leopold and Father Marco Daviano, the Pope's Legate, during the Turkish incursion of 1683. To each of the sovereigns who sent jubilee gifts the Pope will present a specially painted miniature portrait of himself. The Pope is especially gratified with Queen Victoria's gift, and his acknowledgment of it will be exceptionally cordial.

Slain While They Slept.

TAHLEQUAH, I.T., Oct. 6.—Tuesday night Deputy U.S. Marshal Phillips, with three assistants, arrested Henry M. Kisoit, a Chickasaw, 18 years of age. The party camped on the prairie with the exception of Phillips, who rode on ahead. After waiting until noon yesterday for the arrival of the guards with the prisoner, Phillips rode back and found the entire posse killed, their heads having been cut off while they slept.

In Brief, And To The Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health, But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

Children Cry for Pitcher's Castoria.

To Avoid Baldness or Gray Hair, Use Dr. Dupuytren's Great German Hair Magic. It keeps the scalp clean and free from Dandruff, and prevents the growth of the hair. It prevents premature grayness and stops all falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by J. D. Tully and all druggists.

An Old Time Favorite

The season of green fruits and summer drinks is the time when the worst forms of cholera morbus and bowel complaints generally prevail. As a safeguard Dr. Fowler's Extract of Wild Strawberry should be kept at hand. For 30 years it has been the most reliable remedy. 2w40

Reasons why you should purchase Fluid Lightning in preference to all other remedies are:—Rapid result—cures instantly. It is easily applied—no trouble—no lost time. It does not require constant use—one application is effectual. One bottle will remove more pain than any other remedy in existence. Try it for Neuralgia, Toothache, Headache, Rheumatism. "Does it give satisfaction?"

We cannot point to one instance where it did not.

"Where does it have the largest sale?"

Right in the city of Hamilton, where it is manufactured, there has been over one thousand dollars' worth sold in the last year retail, and the great majority of the sales are by one recommending it to another. For sale at 50c. and $1.00 per bottle by John McKee, Druggist eodw35

Grand Results.

For several years B. H. Brown, of Kincardine, suffered from dyspepsia, he says he tried several physicians and a host of remedies without relief. His druggist recommended B. B. B., which he declares produced "grand results" for which he gives it his highest recommendation. 2w40d

I have been bothered with catarrh for about twenty years. I had lost my sense of smell entirely for the last fifteen years, and I had to get some one to thread my needle. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did. My sense of smell is partly restored; it seems to be improving all the time. THE WAR CLOUD BUSTED.

VICTORY has Perched on the Banner of

PETERBOROUGH'S GREAT CHEAPSIDE!

And SHEPPARD, by common consent, will get $1,000 for being the **Cheapest Clothier in Peterborough,** having knocked the Wonderful Cheap Man completely out. "Business is Business; Dirt is Dirt, and when it comes to throwing Dirt, then Count" the only original teddy out, and he will hand over that $1,000 like a little man: For the following reasons;—

Sheppard sells a full size Man's Suit for $2.95, and better Goods than a Suit to fit a Child about 9 years old sold by the Wonderful Cheap-Man on Saturday for $3.00; but marked $3.50. This is how it was:—A Lady purchased a Child's Suit on Saturday last, Sept. 17th, 1887, at the Store of the Wonderful Cheap-Man. It was marked thusly:—Lot 5375, Breast 27, Waist 26½, Age 9, Price $3.50. It was pure Shoddy, being held together by cotton threads, and Sheppard is free to say that that was the dearest Suit sold in the Town of Peterborough for the last two years. **Full particulars are given because of the $1000 involved, and, further, that this decides who is selling the Cheapest Clothing** in Peterborough. SHEPPARD would have sold that Lady a Suit, Pure Wool for that money, and worth two of the one she got.

$1,000 to Go to the Charitable Institutions of Peterborough.

I had first decided to give the agencies a chance of jumping up my rating that $1.000, but after considering the matter and finding that never in any case have I been asked for an endorser to my paper, and that no relative or any other persons have ever endorsed my paper to the extent of one cent, I have come to the conclusion my credit is as good as yours and will ask you to hand over the $1,000 to the Charitable Institutions of Peterborough.

Now, Sir, there is a good story told the truth of which can be vouched for, but for the honor of at least making an effort to keep up your self-styled name—The Terror of High Priced Clothiers—do not allow the same to be said of you in the case above. A man purchased a suit for $15.00 at the store of one of the largest Advertisers in that section of country. It was guaranteed pure wool; but after examining it carefully at home, he came to the conclusion that he had been dealing with some one sharper than himself. Finding a make of wool, differing some from anything he had ever seen, it dawned upon him, that he had heard of wool of that kind, so the suit was returned. The merchant bet $25.00 that it was all wool, and the bet was accepted the decision being left to a neighboring merchant, he found that the $15.00 suit, was wool faced and shoddy back, pure unadulterated shoddy, but what of the $25.00 bet, was it paid, not much—muchly—as it were.

SHEPPARD is making Wonderful Strides in Securing Marvellous Bargains in Dry Goods, Clothing, Hats and Caps.

The boys' branch of the Young Men's Christian Association have arranged for a lecture from Mr. Jas. A. Fife, of the Collegiate Institute, on "Gases," for this (Friday) evening at 8 o'clock, in the Association hall. The admission is 10c., and the proceeds will go towards furnishing games for the boys' table in the Association rooms. Though the lecture is specially for boys, all will be cordially welcomed.

The Original.

The Buffalo *Express* recently started the story that Harry Lindley, the actor, had died of injuries received from a fall in New York, and some Canadian papers have taken it up. It adds: "He was a whole-souled man and his demise will be greatly regretted." The only and original Harry Lindley is playing here this week to crowded houses. Few men have the pleasure of reading their own obituary notices. The *Express* has got hold of the wrong man.

Government Contract Awarded.

Messrs. McAndrew and Noble received intimation from the Department of Public Works, Ottawa, through Mr. J. E. Belcher, Engineer, that the government had awarded them the contract for heating the new post office building, with instructions to begin work at once. In securing this contract Messrs. McAndrew & Noble have scored quite a triumph, their tender being accepted over a number of others from different parts of the province, including one from a Montreal firm who have heretofore had almost a monopoly of the government orders in this line. The plumbing of the new building was awarded McAndrew & Noble some time ago, and they have completed the contract.

CENTRAL EXHIBITION

THURSDAY AFTERNOON.

In the afternoon of Thursday in spite of the threatening weather and a nasty drizzle of rain the crowd continued to pour in, the ticket takers were kept busy and the directors were delighted with the attendance. Contrary to expectation the attendance mounted up and during the day nearly four thousand visitors were on the grounds.

The judges were busy completing their work in several classes and the horse ring was the centre of attraction. The match team race between Robert Hicks and Thos. Pettitt of Lakefield, was brought on amidst considerable show of interest, but the crowd was disappointed in their expectation of a close race, though it was exciting enough. The Pettitt team won in three straight heats, though the driver of the Hicks team made things lively in a go as you please style. Pettitt's team kept down to good work, but his opponent made a point of getting first under the wire, even if his team had to gain that point under a dead run. This course of action made the affair exciting, the three heats were made in 3.10, 3.05 and 3.04 respectfully. While this match was in progress the match 100 yards foot race between Bird and Miller was run on the green, and was a close and gamey contest. The men were apparently well matched, and every heat was a close one. Millar won the first heat, and Bird the next two and the medal.

The competition for prizes in the carriage Classes, double and single were continued.

The expected bicycle race between Greatrix and Cooper did not take place. The track was not in first class condition for a contest. An effort was made to bring the race on the afternoon, and failing that, to have it take place on Friday, but it appears that Cooper made a clear funk. He professed to object to the weight of Greatrix's wheel, though the conditions of the race made no mention of a wheel, and he left town last night and therefore the race is off.

THE BABY SHOW.

Meanwhile the palace was a crowded centre of attraction, the competion for the Great Gough baby prizes being on. Mammas and papas were in a state of great excitement. Only five entries were made, viz:—Mrs. J. Martin's male child, 5½ months old; Mr. T. Walsh, female, 8½ months; Mrs. J. Johnstone, female, 5½ months; Mrs. Wilson, male, 9 months; Mrs. M. O'Brien, female, 11 months. The judges, Messrs. Wm. Fair, J. J. Turner and Lafayette Carpenter, quickly determined that Mrs. Walsh's baby should have first prize and Mrs. Wilson's second. The proceedings were closely watched by all present, as the judges would take the babies in their hands, balance and weigh them, survey with critical mien the blue eyes, dimples and double chins, and then hand them back to their anxious mothers, each of whom felt certain that the immense superiority of her offspring over the others would be recognized and the first prize awarded it. This baby competition was the enterprise of Gough, the great cheap clothier, who offered as a prize a suit of clothes for the father, a pair of blankets for the mother and a silver mug for the baby itself. Gough is ever on the alert for a new way of advertising himself and his business, and he could scarcely have chosen more effectual means than this. His enterprise and liberality will no doubt be rewarded by an increased trade.

FRIDAY.

This morning the grounds presented the usual aspect but the weather was still threatening.

DAIRYMEN'S CONVENTION.

At a meeting of the directors held in the Secretary's office, Mr. Platt Hinman, of Grafton, one of the directors of the Eastern Dairymen's Association, with reference to holding the next annual convention in Peterborough. It was decided to hold the convention here in January next, and the Central Exhibition Board constituted itself a committee with power to add to their numbers to arrange for the holding of the Convention in Peterborough the first of next year.

The milk test will be concluded this morning. The attendance on Friday morning was exceedingly slim as the rain towards noon began to descend steadily.

Dr. Sexton's Lecture.

Rev. Geo. Sexton, of London, England, who has appeared on previous occasions in Peterborough, lectured in the basement of the George street church last night, on the subject:—"Man's special creation, not a product of evolution". Rev. Mr. Wallace occupied the chair, and after the customary preliminary devotional exercises the Doctor began his lecture by referring to the different phases of the evolutionists' theory. Prof. Huxley says the question of questions is, to know what is the position of man in the universe, and what influence does he exercise on external objects, and vice versa; what is his origin and what is his goal. The theory of evolution was advanced in answer to this, and it assumed several forms. One statement is that man was evolved from the lower animals and was still developing, and that the process would go on till another higher being appeared. Prof. Fiske says man is developing intellectually; another says that his chief physical characteristic would be a very large brain. Still another English writer maintains that the culmination point has been reached and past, and that man will degenerate from civilization to savagery, from man to monkey, "and all go to smash." This showed how the evolutionists' theories differed. The general question was, how did life come on the earth at all, and how did the numerous varieties of life appear. Life cannot be produced except from a living thing. The theory of natural selection was the generally accepted one among evolutionists. The speaker went into a long argument to show that this theory was untenable, because while it might develop a particular animal or vegetable into something better it would not originate a new species. There was also a tendency in the animal to return to the condition from which it was raised. No permanent change could occur unless it was to the advantage of an animal, and all fours, therefore a change which would necessitate changes that are said to have taken place the monkey would have been to its disadvantage. The monkey naturally moved on all fours its standing erect would be a disadvantage. Other similar changes as advanced by evolutionists were shown in a like manner to be impossible. The speaker compared the conditions of man and monkey—hair, hands, feet, brain, etc. The brains of savage men showed that while they were as large they were never called into use and so were not developed and in this respect the lower class of manhood has degenerated from civilization. Language, too, was universal with man and peculiar to man. Children always learned to talk from hearing others; then how could man learn to speak if he was evolved from the lower animals? Man has a conception of the future and is the only being that fears death, and that cannot die. Man's intellect takes him unto a region to which no animal by any process of evolution can attain. So the doctrine that man was created by God in his own image was the only credible theory. At the conclusion of the lecture a vote of thanks to the speaker was moved by Mr. H. S. Griffin and carried. An enquiry was made of Dr. Sexton as to his opinion of the fact that vertebrated animals in some stages of their existence had gill slits. His reply was that it amounted to nothing, because their correspondence was not sufficiently marked. He entered upon a brief discussion of the subject, illustrating his meaning by referring to the stomach. The proceedings were brought to a close with the doxology and benediction.

On the 4th, 5th and 6th of Oct., look out for the New Belmont, Jockey Club, Murray Hill, and Volunteer Hats at Turnbull's Millinery Opening.

Committed to Gaol.

This morning Mr. Michael Barry, of Galway, was brought to town by Constable Staples, of Bobcaygeon, and committed to gaol for two months for non-payment of Scott Act fine. It was a first offence case, and was tried on the 30th of March last, the fine, witness fees and costs amounting to over $90. The sum has never been paid. Last week Inspector Cochrane took a trip to the back country in search of the delinquent, but he was not at home. The arrest was made yesterday afternoon by Constable Staples.

The judges at the Central Exhibition (as well as everyone else) are requested to call and pass judgment on boots and shoes at KIDD'S.

It is enough simply to say to the Public that Miss Mahoney has been doing her best to make Turnbull's Millinery Opening a grand success. Remember the days are Oct. 4, 5, and 6.

STATEMENT OF THE DEBT.

HOW THE PUBLIC ACCOUNTS STAND FOR THE LAST MONTH.

The Provincial Secretary of British Columbia Visits the Capital—The Governor-General and Party Return From Quebec—The New Printing Bureau.

OTTAWA, Oct. 7.—The accounts for the fiscal year ended June 30 last have been finally closed, and the statement shows the total receipts on account of consolidated fund to have been $35,890,846 and the expenditure $35,717,202, showing the very satisfactory surplus for the year of $182,604.

The statement of the public debt on Sept. 30 shows the gross debt on that date to be $293,063,870, assets $45,722,395, leaving a net debt of $227,341,475, which is a decrease of $1,152,986 during the month.

The expenditure on capital account for the fiscal year ending June 30 was $5,836,718, made up as follows: Public works, including railways and canals, $3,975,269; Dominion lands, $162,244; subsidies to railways, $146,536; Northwest rebellion, $292,572.

The expenditure on account of capital account for the three months of the current fiscal year up to Sept. 30 has been $1,538,825, divided as follows: Public works, including railways and canals, $787,848; Dominion lands, $14,265; railway subsidies, $210,593; Northwest rebellion losses, $524,118.

The following is a statement of the receipts and expenditures on account of consolidated fund for the month of September: Revenue *customs*, $2,140,458; *excise*, $446,499; post-office, $104,849; public works, including railways, $297,382; miscellaneous, $65,791; total, $3,054,969; to Aug. 31, 1887, $5,022,480; grand total, $8,077,449. Expenditure for the month of September, 1887, $1,806,286; expenditure to Aug. 31, 1887, $5,031,527; total, $6,837,813, showing a surplus of $1,239,636.

A Convention of Employing Printers.

CHICAGO, Oct. 7.—An international convention of the employing printers of the United States and Canada has been called to meet in Chicago on Tuesday, Oct. 18, for the purpose of devising plans for united action upon the recent demand of the International Typographical Union that nine hours shall constitute a day's labor. Other important matters will be presented for the consideration of the convention.

American Interests Will be Protected.

WASHINGTON, Oct. 7.—The acting secretary of the navy to-day received a dispatch from Rear Admiral Chandler, commanding the Asiatic squadron, dated Nagasaki, Japan, Oct. 7, in which he says he will send a ship immediately to Nossops Island of the Caroline group to investigate the native massacre of Spaniards, and protect American interests and missionaries on the Island.

THE SECRETARY REPORTS.

THERE ARE OVER HALF A MILLION I. KNIGHTS OF LABOR IN AMERICA.

There Has Been a Great Falling Off in the Membership Since 1886—A Proposition to Boycott all Who Use the Name or Symbols of the Order to Help Trade.

MINNEAPOLIS, Oct. 7.—In the General Assembly of Knights of Labor yesterday, Mr. Powderly, referring to the seven condemned Chicago Anarchists, said if these men did not have a fair trial then they should be granted a new trial. If they have not been found guilty of murder they should not be hanged. If they are to be hanged for the actions of others it is not just. The man who threw the bomb in Chicago should be hanged, and his accomplices should receive the punishment allotted to such offences by the laws of the State of Illinois. He also said that the assembly should pass a resolution demanding that every avowed Anarchist be obliged to withdraw from the order or be expelled. Mr. Powderly condemned the practice of lobbying on the part of members of the order, and in conclusion stated his perfect willingness to withdraw from office if the assembly so desired.

The effect of Powderly's address yesterday has been generally good, and it is thought he will gain friends by the sentiments expressed, although they were somewhat antiquated. His expressions with regard to his alleged connection with socialism and anarchy were very well received and have won much comment in his favor. It is stated that his report that a big fight would be made in the convention over the new constitution is not wholly without foundation. In fact, the talk is quite general among the delegates to the effect that such a fight is quite likely to come up in the convention and that the constitution will be bitterly opposed by the "antis." What strength they will be able to develop is not known.

A prominent eastern knight expresses the opinion that the dissatisfaction over the matter is very much stronger than the administration men have any idea. The "antis" would have to poll a two-thirds vote. The principal point of opposition among the "antis" seems to be that they do not like the idea of the general officers holding office for a two years' term. They also make the claim that at least two of the present general officers, Secretary Litchman and Treasurer Turner, are wholly incompetent. The administration delegates state emphatically that the charges of incompetency made against Turner and Litchman are entirely without foundation. They say that two better men for the positions named could not be found in the organization. It is quite evident that the two factions in the convention fear each other.

General Secretary Litchman presented his report to-day. It says: The number of members reported in good standing at the last session of the General Assembly was 702,924, and the number of members in arrears 26,753. This made the apparent membership of the order as then reported 729,677. The tremendous growth in the early part of 1886 will be remembered. People came into the order by the hundred thousand. A suspension of initiation for forty days was ordered. After these forty days had expired the rush again commenced, and the result was to bring to the organization a mass of material that proved itself to be a weakness rather than a strength. For the six months following the session of the General Assembly at Richmond the papers of the country have been filled continually with assaults upon the order, upon the general officers and everything possible done to disintegrate and destroy the order. Yet in spite of all this opposition the total number of members reported in good standing July 1 is in round numbers 485,000. Add to this the nearly 50,000 who are in the same relation to the order as were the 26,753 reported as in arrears upon the last report and we would have the membership of the order 535,000 on July 1, 1887. This would indicate an apparent decrease of about 195,000 members. The receipts for the fiscal year ending July 1 are shown to be $388,731, giving, with the balance on hand, a grand total of $508,647. Consideration of the question of establishing a co-operative savings association was recommended; also that state assemblies should be made compulsory instead of permissive.

The General Assembly at Richmond, after adopting certain amendments to the constitution, referred the balance of the report to the Committee on Law, together with such other changes as had been presented to the General Assembly, to a special committee of revision. It was ordered that the committee, in conjunction with the General Executive Board, should prepare a revision of the constitution and submit the same to a vote of the local assemblies of the order. The result of the deliberations of this Committee on Revision was submitted to the local assemblies, as provided under the vote under which the committee was appointed. The assemblies were requested to vote upon the constitution proper as the first proposition, and upon the article relating to national trade assemblies as the second proposition. The returns from the local assemblies showed that 2363 local assemblies voted yea on the first proposition and 1016 voted no; that 2353 local assemblies voted yes on the second proposition and 926 no. Secretary Litchman, in concluding, said his office had been anything but a bed of roses, and that enemies among the order had persecuted him.

The General Secretary makes a number of recommendations, which may be summarized as follows:

That the subject of establishing a Co-operative Savings Association be considered by the Committee on the State of the Order, and, if it is deemed advisable, proper authority be given to secure an act of incorporation for the organization and management of such an institution. The primary object of this will be to establish a home for the order in every town or city where the order exists.

That the general secretary have entire control of his office force.

That the proper committee consider the demand for some sort of regalia for members to be worn at funerals.

That there be legislation which will make more stringent the prohibition of the use of the name of the order or any of its symbols for business purposes. On this point the secretary says: "I think the General Assembly would be justified in passing a law placing an effectual boycott on every article upon which the initials of the order or any of its symbols were used without the sanction of the General Executive Board. There are a number of minor recommendations covering proposed changes in the order's work.

Mrs. Leonard M. Barry, the general investigator of the order, made her annual report to the convention to-day, embracing the results of her inquiries into the condition of the working women of the country. She says: "Having no legal authority I have been unable to make as thorough an investigation in many places as I would like, and after the discharge of sister Annie Conboy from the silk mill in Auburn in February last for having taken me through the mill, I was obliged to refrain from going through establishments where the owners were opposed to our order, lest some of our members be victimized. Consequently the facts stated in my report are not all from actual observation, but from authority which I have every reason to believe truthful and to-

A RULER AT 16.

The Sultan of Morocco Being Dead His Son Takes the Oath of Office.

LONDON, Oct. 7.—News was received here that the Sultan of Morocco, who has been critically ill for some time, is dead. His 16 year-old son took the oath of office on his father's corpse and has assumed the government. He has appointed his favorite uncle Grand Vizier.

England has made a proposition to the Powers that they all send men-of-war to Morocco to protect their respective subjects there.

Warships Ordered to Morocco.

PARIS, Oct. 6.—In consequence of the death of the Sultan of Morocco the ironclad Courbet has been ordered to proceed to Tangier.

The Temps states that a complete entente cordiale exists between France and Spain regarding Morocco.

Two Italian warships have been ordered to Morocco.

Extensive preparations are being made at Tarifa for encamping Spanish troops.

A TUG BOAT LOST.

The Orient Wrecked in Lake Erie and the Crew Drowned.

DETROIT, Oct. 7.—The tug Orient with all hands went down near Point au Pelee Tuesday afternoon. She was seen flying a signal of distress by the tug Oswego, but the terrific storm prevented the latter from giving any assistance. Shortly before the Orient went down her crew was seen bailing with pails, but their efforts were unavailing in face of the mountains of water momentarily breaking over her. Her fires were put out, and after helplessly tossing about she went down head first, carrying every living soul with her. They were: Daniel Lyons, master; John Davis, first engineer; Wm. Pangborn, second engineer; Ed. Kane, mate; P. Dilloek, fireman, and Joseph Sharkey, steward. The crew all belonged to Marine City. It was composed of young men, well known and highly esteemed.

THE CAPTURED SEALERS.

The Commission Will Not be Asked to Deal With the Alaskan Seizures.

WASHINGTON, Oct. 7.—The Department of State has not yet been officially advised of the condemnation of the captured sealers by the United States District Court at Sitka. The further judicial proceedings mentioned in the press despatch as contemplated by Canadians are supposed to consist in an appeal from the decision of the District Court to a United States Circuit Court, but it can be stated that the Department of State has never entertained the idea of submitting the question of the American right over Alaskan waters to any commission, as intimated in the Canadian despatch.

ST. CATHERINES' ENTERPRISE.

A Successful Experiment With Street Cars Driven by Electricity.

ST. CATHARINES, Oct. 7.—The St. Catharines Street Railway opened their six miles of road to-day run by electricity, and it proved a perfect success in every particular, far exceeding the expectations of the managers. The system adopted is known as the Vandepoele. It is now claimed to be the best equipped road in America. The electricity is generated by water power at lock 12, Welland Canal, with a 160 horse power dynamo, and then conducted by overhead copper wires, connecting with the cars by means of small wheels which run along on the wires and thence through a flexible conductor. The cars are each equipped with a 15-horse-power motor, weighing about 1600 pounds, which is placed on the front platform. The people are enthusiastic over the success.

The company expect to have twelve motor cars on inside of two weeks. The time of traveling between this city and Thorold has been reduced twenty minutes. The cars are under perfect control, being stopped and started without any jerking motion, and going around curves of forty degrees and up grades of 7 per cent. without the least difficulty. The introduction of electricity will be a great saving on horse flesh, as the grades on the road between this city and Thorold are very heavy and wore out horses in a short time.

THE HALDIMAND CASE.

The Parties Agree That the Election be Set Aside and a New One Held.

CAYUGA, Ont., Oct. 7.—The trial of the Haldimand election petition ended late last night as follows: The parties agree, subject to the approval of the Judge, that the election be set aside and a new election held. The petition, so far as it charges that the election of the respondent was irregular, having been dismissed, the cost incidental thereto be paid by the petitioner to the respondent; that the scrutiny, so far as the parties are concerned, having resulted in favor of the petitioner, that the costs incidental thereto be paid by the respondent to him; that the recriminating charges not having been proceeded with, no costs thereof to be allowed to either party; that in the taxation of costs the cost of the trial, so far as time is concerned, be apportioned as follows: One and one-half days to respondent, one day to petitioner, and that no witness fees, subpoenas or services thereof be taxed to either party.

There is no Cattle Disease in Nova Scotia.

WASHINGTON, Oct. 7.—An investigation made at the instance of the Department of State shows that no infectious disease exists among animals in Nova Scotia. The Treasury Department has therefore revoked its instructions of Sept. 16 prohibiting the landing of animals and hides from that country.

THE HEARING POSTPONED

THE APPEAL IN THE SULLIVAN CASE WILL DECIDE THE O'BRIEN CASE.

The London Press, in Commenting on the Breakdown in the Prosecution of Sullivan, Charge the Crown Officials with Mismanagement.

DUBLIN, Oct. 7.—The hearing in the case of William O'Brien, who was summoned for publishing accounts of meetings of suppressed branches of the National League, in United Ireland, has been adjourned pending a decision of the appeal to the Superior Court by the Crown in the case against Lord Mayor Sullivan. Mr. Healy, O'Brien's counsel, applauded the magistrate's decision, and said the court had shown itself fair-minded in its disposition of the case. O'Brien was not present.

Press Comments on the Sullivan Case.

LONDON, Oct. 7.—The Chronicle, a Government organ, referring to the trial of Lord Mayor Sullivan of Dublin, says: "It is impossible to deny that the breakdown of the first prosecution under the Crimes Act must seriously damage the prestige of the Government. The whole case against him seems to have been prepared by Dublin Castle as if they were stage managing one of the farcical scenes in an opera bouffe. What makes matters worse is that in this instance we cannot blame a partizan jury for such an untoward failure of justice. The acquittal of the Lord Mayor was ordered by a paid magistrate of the Crown, whose professional interests could not possibly tempt him to be lenient to the prisoner, against whom the Crown was proceeding."

The Post, another Government organ, says: "The counsel for the defence very properly insisted upon every part of the case being strictly proved, and through what we cannot help thinking was inexcusable management the case of the Crown broke down."

The Times says it remains to be seen whether the legal advisers of the Government have left themselves equally unprovided with evidence which would settle the issue in their favor in the case of the meetings illegally reported in this week's Parnellite journals. If so it cannot be denied that a grave error of judgment has been committed.

The Standard says the Nationalists and their friends have a perfect right to rejoice at the ridiculous collapse of the proceedings against Mr. Sullivan.

The News says the dismissal was because the legal talent of Dublin Castle was unable to comply with the requirements of the law.

THE QUEEN AT BALMORAL.

Her Majesty Makes a Speech at the Unveiling of a Statue of Herself.

LONDON, Oct. 7.—At Balmoral yesterday the Prince of Wales unveiled Boehm's statue of the Queen, presented by the district tenantry. The Queen expressed her thanks for the loyal address presented to her. She said: "This statue will be a lasting memorial of the affection I always bear for my Highland home. I am deeply touched by the grateful terms in which you have alluded to my residence amongst you. The great devotion you have shown me and mine while here has ever added to the joys and lightened the sorrows of my life. I miss many kind faces of old friends no longer with us, who would have rejoiced equally with me. I heartily reciprocate your good wishes, and I trust we may still look forward to spending many happy days together." Her Majesty was heartily cheered.

THE CZAR LOVES RUSSIA.

And Russia Will do Its Share Towards Destroying German Influence.

NEW YORK, Oct. 7.—A Paris despatch to the Herald says the Grand Duke Nicholas, first cousin to the Czar, who arrived yesterday from Dunkirk, made, before disembarking, a most inflammatory speech. He said: "France is now hard at work preparing for her revenge, and in doing so she is doing right. Russia also is far from inactive. She is working might and main to destroy the influence of Germany. Our family loves France. All the efforts of the Czar are directed towards lessening the German influence, which at one time was very powerful at the Russian Court, and the time will soon come when the Russian Government will be composed exclusively of men whose sympathies are with France, but until then it will be difficult to obtain our effective alliance. The day will soon come when I shall draw my sword standing shoulder to shoulder with soldiers of France."

INCENDIARISM AT SEAFORTH.

An Unsuccessful Attempt to Burn a Carriage Factory—A Barn Destroyed.

SEAFORTH, Ont., Oct. 7.—Last evening about 8 o'clock fire was discovered in the rear part of Mr. M. Pillman's carriage shop. Fortunately it was extinguished before doing much damage. There is indisputable evidence of an attempt to burn the place, the woodwork being saturated with coal oil, and a quantity of old rags which did not belong on the premises were found saturated with oil. At about 11.40 p.m. another incendiary fire took place with more serious results, the large new barn of D. D. Wilson, on his farm adjoining Seaforth, being destroyed. Five valuable horses and twenty thoroughbred imported sheep were burned. Insurance on building, $800; on contents, $1800; loss over insurance, $1000.

TALKING FOR THE CAUSE.

A Reception for Redmond and O'Connor at Fall River, Mass.

FALL RIVER, Mass., Oct. 7.—Sir Thomas Henry Grattan Redmond and Arthur O'Connor, the Irish members of Parliament, were given an enthusiastic reception in Fall River to-day. To-night a public meeting was held at the Academy of Music under the auspices of the local branch of the Irish National League. The theatre was filled by an audience of over 10,000. Mayor Cummings presided, and on the platform were seated a large number of prominent citizens and clergymen. After Mr. O'Connor, Sir Thomas and John P. Sutton of Lincoln, Neb., secretary of the I.N.L. of America, had spoken, resolutions denouncing coercion and giving assurance of continued sympathy with the Irish people in their present struggle were adopted.

Davitt at Pittsburg.

PITTSBURG, Pa., Oct. 7.—Michael Davitt is in the city to-day en route to New York. He will remain there until next Wednesday, when he will sail for Ireland. Mr. Davitt stated that as soon as he reached home it was his intention to jump into work for the cause of Ireland and then he expected to jump into prison.

CENTRAL EXHIBITION

Bringing Peterboro's Central Exhibition to a Close.

The Attendance less Satisfactory than the Exhibits.—The Concluding Competitions.—Parade of Prize Animals.—Speeding in the Ring.

FRIDAY AFTERNOON.

Towards noon the weather lightened but too late to redeem the attendance. During the day the entire attendance amounted to about a thousand visitors as against nearly four thousand the previous day. While the visitors made industrious visits to the stock pens admiring the splendid specimens of live stock the horse ring was again the centre to attraction, several exciting speed contests promising a lively few hours of amusement. The grand stand was well filled, amongst the tenants being the 57th Battalion Band which discoursed excellent music most liberally.

PARADE OF PRIZE ANIMALS.

One of the most interesting features of the exhibition was the parade of prize animals in the horse ring. A more excellent display of first class cattle of all kinds and of horses it would be impossible to find. As the splendid animals—the proud, prancing stallion or other steed, and the lordly bull—advanced in procession, the sight was a fine one and a grand one, too, for the length of the line was so great that the head overlapped the rear, completely filling the broad half-mile horse ring. Gentlemen who had visited several exhibitions said that the sight was not excelled by any they had visited, either in extent or quality of stock.

The parade over, the racing programme was begun.

THE CHEESE-MAKERS' PURSE called out David Pilkie and George Fitzgerald. The former won first purse.

BREWERY CUP RACE.—In the brewery cup contest for three year colts, Mr. George Fitzgerald's colt took first money and Mr. Weston's second.

THE GENTLEMEN'S PURSE was for saddle horses, in best three in five mile heats. The result of this race was to give the three first heats straight to Mr. Job Dickenson's (Hope) "Young Tiander", and the second to Mr. Lowes' horse These were the only entries. The race was close and exciting.

THE JUBILEE PURSE.—The concluding heat in the jubilee purse resulted in a victory for Wilson's team, Pettitt coming in a leisurely second.

THE OPEN RACE was the race of the day and brought out a large batch of entries—eight horses drew for position but only six started. These were Clancy's Royal Jim, Daly's 'Billy W,'Appleby's 'Honest Paddy" J. Beatty's "Tariff Jr.", Curtis' "Valentine" and Smith & Co's. 'Maud S.'(Maud Bartlett).

The first heat was got in after long and tedious scoring. It was a game race between Tariff, Maud S. and Valentine, these three coming under the wire in the above order, the rest of the field coming in promiscuously. The time was 2.37. At the conclusion of this heat "Billy W" made a bolt and her waggon collided with that of Tariff. Billy's driver and owner Mr. F. J. Daly was thrown clear off his rig and Robt. Reid was thrown from Tariff's waggon and his feet catching in the lines, he was dragged some distance bruising him so severely that he was put into a cab and driven up town.

The disabling of Tariff's driver had its effect upon his record in the remaining heats.

The second heat left the race between the three winners of the first, the order being changed. Maud S. finished first in 2.38, Valentine second and Tariff third.

The remaining heats were without special interest except the fourth, which the judges declared "no heat," on account of running. The award made by the judges was first place and money to Beatty's stallion, Tariff, Jr., second to Maud S, and third to Curtis' stallion, Valentine.

In the department of carriages, wagons and buggies, the judging was done this afternoon. The following is the report of the judge in this class, Mr. James St. Charles, Belleville:—

The exhibit of Porter Bros. is entitled to the diploma awarded in this class, and if I were permitted to go outside of the articles named in the prize list (one each of the following articles, covered buggy, open buggy, phaeton, cutter) then I should say that their very large and excellent display of fine finished vehicles should receive the favorable consideration of the board of directors by awarding them a gold medal.

I would also wish to say that the exhibit of Messrs. Fitzgerald & Stanger is highly commended.

All of which is respectfully submitted.

JAMES ST. CHARLES,
Judge.

THE MILK TEST.

Judgment was made and delivered this afternoon also in the special prize contest for the best three cows giving milk, quantity and quality to be the test, the milk to be tested being from milkings on the 5th and 6th of October, morning and evening. The entries were Thomas Hooper, Otonabee, and E. Macklin & Sons, Fenelon, Ont., the former competing with Durham grades and the latter with thoroughbred Holsteins. The test was conducted under the management of Mr. Hugh Davidson. The judges were Messrs. J. H. LaFevre, Lakefield; Porter Robinson, of Cheery Grove Cheese Factory, and Platt Hinman, of Grafton, director of the Eastern Ontario Dairymen's Association. The result of the contest was as follows:—

Morning's milking, Mr. Hooper's cows gave 64½ lbs., in the evening, 66 lbs.

Morning's milking, Messrs. Macklin's cows gave 52 lbs., evening, 57 lbs.

Thisgives 24 per cent. excessin quantity to Messrs. Macklin's cows.

In the matter of cream, the result was that the milk from Mr. Hooper's cows produced 50 per cent. more cream, and, judging without exhaustive analysis, the judges considered Mr. Hooper's milk was richer in cream after the milk was drawn. They therefore awarded the prize to Mr. Hooper.

There was a large number of protests entered in every class, and until the directors have a meeting to decide upon these the prize list will be subject to revision.

Murder Will Out

SO WILL THE TRUTH.

And the Truth is that GOUGH can Sell Clothing Cheaper than the Imaginary Clothier can Buy them,

OTHERWISE HIS $1000 CHALLENGE WOULD BE ACCEPTED.

It is an old game for a competitor, who cannot compete, to cry shoddy. Poor fellows, they must get up some excuse, but GOUGH has great confidence in the public's judgment. Therefore I say to intending buyers. look them all through and then come to GOUGH, and if you are not convinced that he has ten times more goods, 50 per cent better goods, and at prices at least 25 per cent lower than the cheapest of them, he will give you a Suit or an Overcoat FOR NOTHING.

I can give you an Overcoat to fit any size Man from $3 up to $18.
I can give you a Man's Suit from $2.75 up to $18.
I can give you a good, Heavy Guernsey Shirt or Drawers for 25c.
I can give you a Splendid All Wool Shirt or Drawers for 45c.
I can give you 5 Pairs Men's All Wool Home-made Socks for $1.00.
I can give you a Good Cardigan Jacket for 75 cents.
In a word, I can give you anything in GENTLEMEN'S WEAR at less, in many instances, THAN FIRST COST OF MANUFACTURE.

I have just Received another $10,000 Bankrupt Stock, bought at 61½ cents on the dollar.

If a merchant buys a Bankrupt Stock of Gold Watches at 50 cents on the dollar, it don't make the watches brass; and when GOUGH buys a Bankrupt Stock at 61½ cents on the dollar, it don't make his goods shoddy. Therefore use your own senses, take no man's word, and when you want a good Suit of Clothes or an Overcoat, don't buy until you at least see the MAGNIFICENT STOCK kept by

Next Year's International League.

The International League has learned several valuable lessons during the past season. The most important one is that the Jersey club be admission was a serious mistake. If rumor be true both Jersey City and Newark have concluded to withdraw, and thus the league will be well rid of two poor ball towns.

Both Utica and Binghamton are alleged to be anxious to return to the fold, and Troy is also spoken of as a probable applicant for admission. It is therefore evident the league will be able to form a more compact organization in which the traveling expenses—a big item—will be reduced. Another experience has been that the deposit of $600, which was intended to ensure the club playing the season out, is too small, and it is probable $1800 will be the deposit required in future.

No Trouble Feared.

WASHINGTON, Oct. 7.—Notwithstanding the reported evil results of Sitting Bull's advice to the Crow Indians the War Department officials do not fear any serious trouble at the Montana agency, if the Indians are prudently treated.

Shaken Into a Panic.

HAVANA, Oct. 7.—Owing to the almost daily shocks of earthquake at Santiago De Cuba a panic has seized the inhabitants, and business is almost completely suspended.

Fled to Michigan.

OTTAWA, Oct. 7.—Martin Flynn, the assassin of Minnie Allen, who recently committed suicide at Chelsea, has found the place so hot for him that he has skipped to Michigan, leaving his newly-married wife behind.

The Volunteer at Marblehead.

MARBLEHEAD, Mass., Oct. 7.—The Volunteer arrived here this afternoon. The entire populace joined in a reception to the crew of the Volunteer.

They Were Excused.

"Have you any—any strawberries?" she asked, as she suddenly entered a hardware store. "Not to-day, madame, sorry to say," courteously replied the proprietor. "Great Scot! but is the woman crazy?" exclaimed a customer as she went slowly out. "No, sir, not a bit of it," said the proprietor; "she was down-town without her husband knowing it. She saw him on the street and dodged in here to escape meeting him. She was quite confused and she asked for strawberries. Happens three or four times a week, sir, and the poor things are quite excusable."

Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain. eodw

To Avoid Baldness or Gray Hair.

Use Dr. Dorenwend's Great German Hair Magic. It keeps the scalp clean and free from Dandruff, and promotes the growth of the hair. It prevents premature grayness and stops all falling out of the hair. On bald heads, where the roots have not perished, it will invigorate them and force a new growth of hair. Ask for Hair Magic. It is the only reliable. For sale by J. D. Tully and all druggists.

An Old Time Favorite

The season of green fruits and summer drinks is the time when the worst forms of cholera morbus and bowel complaints generally prevail. As a safeguard Dr. Fowler's Extract of Wild Strawberry should be kept at hand. For 30 years it has been the most reliable remedy. 2w40

From a Grateful Mother.

My little child suffered from a severe cold upon the lungs, until she was like a little skeleton before she took Burdock Blood Bitters, after which she became fat and hearty, and was cured of weak lungs, constipation and debility or wasting of flesh, from which two doctors had failed to relieve her. HEATING

By Hot Water and Steam.

We desire to call special attention to their splendid Hot Water and Steam Boilers which are acknowledged to have no superior on the Continent of America. We have received orders from Ottawa and other places to replace other boilers with ours. This speaks for itself. McAndrew & Noble are prepared to back their own boilers against these or any other maker either in or out of Peterborough, and if not superior in every respect they will be removed without one cent of expense. We claim, and it has been acknowledged, that we have the best boiler for heating purposes in the world to-day; all we want is a fair test.

IMPORTANT TO ALL

Who are Bald, or have Thin, or Grey Hair, or who are troubled with DANDRUFF.

DR. DORENWEND'S

"HAIR MAGIC"

Will be found invaluable for the hair and scalp. It cleanses the scalp of all Dandruff, invigorates the growth of the hair, and in cases of baldness where there are the slightest signs of roots left it will produce good crops of hair. It restores grey hair to its original color, and is an excellent dressing.

DO NOT DELAY, if your hair is in a weak condition, get a bottle at once.

FOR SALE BY J. D. TULLY, and all druggists.

Ask for it. A. DORENWEND, Sole Manufacturer, Toronto, Canada.
